[My Sweet Physician Wife Calls The Shots](#)

Chapter 3051

3051 Manager of the vinegar factory (5)

Nangong Nuannuan and Wu Lingyun walked side by side to the entrance of the laboratory. When they saw the two cars parked there, Nangong Nuannuan smiled and said, " "Senior Sister, your family's car is very active every day."

after all, wu lingyun was already a bride-to-be, and they were getting married in less than two weeks. nangong nuannuan could not help but tease him.

Wu Lingyun was also unwilling to be washed away by Nangong Nuannuan. He looked at the car window that had been raised and there was not a single gap. He knew that Chi Yang, who had long since recovered but had not shown his face to listen to his wife, was sitting inside. He said, "your team is also very active."

nangong nuannuan felt that she and big brother chiyang were already like an old couple. after all, big brother chiyang had been her husband for six years. now that they had spent a year of sweet time together, nangong nuannuan smiled at wu lingyun's teasing and said, " "Of course, he's my husband!"

wu lingyun:

Until now, she still couldn't say these two words.

Even though she and Li Jingchen had already gotten their marriage certificate.

After Nangong Nuannuan successfully teased Wu Lingyun, she got into the car in a good mood.

While waiting for her, Chi Yang was dealing with the matters of Flying Eagle and Eagle Eye group in the car. When he saw his wife get in the car, he quickly closed his laptop and put it aside.

Because his wife was still a little girl, she would give him a bear hug every time she got into the car.

Chi Yang loved this kind of warm embrace, so he naturally opened his arms to welcome her.

He kissed her on the forehead and rubbed her hair. "Honey, are you tired?"

"I'm not tired. It's almost noon, and he's already out. It's impossible."

Chi Yang nodded and told Nangong Nuannuan the good news, " second uncle has brought second aunt back.

"Really?" Nangong Nuannuan's eyes lit up.

"yes."

"That's great!" Nangong Nuannuan felt as if she had met her Savior and had seen the light of hope.

"Why are you so excited that second uncle is back? You're not much happier than you are now when I come back from my missions." Seeing how happy his wife was, Chi Yang was jealous.

As the car started to move, Nangong Nuannuan was sitting on Chi Yang and nestled in his arms. Now that they were so close, she couldn't help but poke his forehead with her finger.

"Director Chi, what's with your expression?"

"What's the meaning of eating the factory manager?" Chi Yang didn't understand. He didn't know when he got another title.

"the director of the vinegar factory!"

Chi Yang's eyes narrowed dangerously as he said softly, "Don't think I don't know that you secretly changed the word 'husband' to 'King of jealousy' on your phone."

"Ah!"

Nangong Nuannuan wanted to explain further, but her armpit was already tickled. It was so itchy that she couldn't help but scream. then, the two of them started to play in the back seat.

Chi Yang knew exactly what his wife wanted, and every part of her body was exactly what she wanted. He laughed so hard that Nangong Nuannuan fell off the car seat.

Chi Yang still didn't let her go. He directly picked her up and placed her on his lap to scratch her.

"i was wrong! Big brother chiyang, I was wrong!"

"Eh? what did you just call me?"

"Director Chi, I was wrong."

Seeing that his wife continued to court death, Chi Yang didn't show any mercy. He laughed so hard that Nangong Nuannuan felt like she was about to throw up her dinner. Only then did he sincerely admit his mistake, "Hubby! Hubby! my dearest hubby, i was wrong!"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3052

3052 Joint interrogation (1)

chi yang was satisfied, and he stopped.

after his wife had calmed down, he continued the topic. " tell me, why are you so concerned about second uncle? "

Nangong Nuannuan rolled her eyes at him and explained, " "I've run into some problems with my research. second uncle is very good at mathematics and physics, so i want to ask him for some equations. i think there's something wrong with the equation i listed."

"Is it a big problem?"

Chi Yang knew what his wife was going to research and was proud of her. But at the same time, she was also worried that she would encounter many difficulties in such a difficult project, which was once only a project that human beings had imagined.

"The problem is still big. However, it was not impossible. I've already cultivated new skin, but I can't think of any way to convert them.

Second uncle is so powerful, he can definitely give me new inspiration. As long as we can overcome this obstacle, there won't be any more difficulties."

Over the years, she had developed so many drugs, and which one of them wasn't broken down by complex chemical formulas?

She believed that genes, nerves, and cells might seem complicated, but as long as she could find the pattern, she would be able to create a suitable chemical formula for them, just like those drugs.

When she returned to the Chi family, Chi zeyao, Feng jimian, and Feng shengxuan were already there.

Old master Chi was all smiles as he watched his daughter-in-law and grandson confront each other.

"then tell me, yue 'er could have followed you and you could have protected her, so why did you let her leave? Don't you understand that what a woman needs the most is company? I thought you'd become smarter, but why are you still not enlightened? Don't you think that when Chi Yang and Nuannuan are together, the atmosphere is very harmonious and warm? Don't you want this kind of happiness?"

Faced with Feng jimian's soul-piercing interrogation, Feng shengxuan felt like his head was about to explode.

He didn't want to talk about anything related to Bai Liyue, but his mother had his father's support. If he didn't say anything today, he would definitely be beaten by his father.

It was such a tragic life as a child.

"mom, don't worry. yue 'er is your daughter-in-law. i'll definitely bring her to you. she's mine, and she won't change."

Feng shengxuan's guarantee was firm and powerful, giving people a lot of confidence and persuasiveness.

However, Yingluo

"Then tell me clearly, who is Baili Yue's family? If her family doesn't treat her well, then what the hell is family?"

Feng shengxuan's head began to throb as he looked at Feng jimian.

He turned to look at his father helplessly, but Chi zeyao had already turned his head in da Bai's direction.

However, da Bai suddenly leaped up like a big cat and pounced forward with a light leap.

Every time this happened, everyone would know that Chi Yang and Nuannuan had returned.

The gate opened automatically, and Chi Yang drove the carriage back. When Feng shengxuan saw Chi Yang and Nangong Nuannuan, it was as if he had seen his saviors.

"Second uncle, second aunt!"

After Nangong Nuannuan got out of the car, she flew in like a butterfly.

She liked both her second uncle and second aunt. This was especially so for her second aunt. When she was young, she often freeloaded at Feng Ji Mian's.

"Nuannuan, you're back?"

Feng Ji Mian also liked Nangong Nuannuan. After all, her future happiness was all thanks to Nangong Nuannuan.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3053

3053 Second uncle taking action (2)

"Yes, I am. Second aunt, you'll be leaving again after coming back this time, right?"

"I won't be going back until Feng Luan is killed," Feng Jimian nodded.

"Have you settled down with the nice family?"

Nangong Nuannuan still knew a little about the Ness family. She had always felt that Anthony was a ticking time bomb.

Feng Ji Mian knew what Nangong Nuannuan meant, so she smiled and said, "don't worry. Since I've decided to come back, I'll definitely settle the matters there.

"That's good."

"How about you? I heard from your second uncle that you signed up for a very difficult research project, and it's already been approved. is there any progress?"

At Feng Ji Mian's question, Nangong Nuannuan immediately turned to Chi zeyao, trying to please him. second uncle, I've encountered a problem with my research project, Yingluo.

Before he could finish, Chi zeyao interrupted, "if there's anything you need, you can tell me. i'll see if i can help you."

"I can! i definitely can!" Nangong Nuannuan hurriedly nodded her head like a chick. you've created such a powerful light energy weapon. I feel like there's no equation in this world that you can't calculate.

"I spent 13 years on the light reaction experiment and four years on improving it. Yingying is only two months away from the results, right? Or perhaps Yingluo doesn't need to come up with a result and only needs to prove the feasibility?" Chi zeyao was completely clueless about medicine, so even if it was something he was good at, he still felt a little pressured.

When Nangong Nuannuan saw the troubled look on her usually calm second uncle's face, she quickly consoled him, "Don't worry, don't worry, I already have the beginning and the answer. I just lack the space in the middle and the process of argument. Second uncle, you just need to help me fill in the blanks and then help me write down the proof process."

Hearing this, Chi zeyao was relieved.

“Sure, no problem.”

Listening to the conversation between the two, everyone in the room fell into silence.

Chi Yang and Feng shengxuan looked at each other. They suddenly felt that they were still lacking something.

Chi zeyao had been called away by Nangong Nuannuan, so only old man Chi, Feng shengxuan, Chi Yang, and Feng jimian were left in the living room.

old master chi complained that it was getting late and that he didn't sleep well last night, so he wanted to go to bed first.

After that, only Feng shengxuan and Chi Yang were left to face Feng jimian.

Feng jimian had a fiery personality, and without Chi zeyao around, her attitude towards Feng shengxuan was almost nonchalant.

With Chi Yang's help, Feng shengxuan was able to take care of Feng jimian very quickly.

With Feng shengxuan's repeated assurance, Feng jimian went back to her room and waited for her husband.

In the research room of the medical department University.

Wu Zhi and Zhang Fang were prepared to absorb the knowledge of Nangong Nuannuan's research project like a sponge. In the end, they were shocked to discover that although Nangong Nuannuan was only a first-year student, her knowledge had far exceeded the two of them who were preparing for the PhD.

Whether it was his understanding and application of medicine, or the depth of mathematics, physics, and chemistry, especially the construction of various elements in chemistry, it was not something they could compare with.

Even the

Nangong Nuannuan had drawn up an extremely complicated chemical element construction diagram to build a very small genetic link. They couldn't even understand it, let alone learn it.

The two of them studied hard for a few hours. In the end, they realized that they could only understand the macroscopic concepts. They could not understand the things that Nangong Nuannuan had refined, including the difficult triple collective calculations of mathematics, physics, and chemistry.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3054

3054 Impossible (3)

In the end, the two of them quietly turned off their computers, packed their things, and left.

Nothing was said along the way.

however, of the two people who were silent, one looked full of fighting spirit, while the other had a gloomy expression.

however, both of them understood one thing at the same time. that was why nangong nuannuan was the one researching this project, while he zhi and wei yan, the third-level professor, could only be assistants.

Nangong Nuannuan's research project was simply too crazy.

very quickly, shi yalin received the contents of nangong nuannuan's research project.

Even the director of the Institute of genes, nerves, and cells was shocked when he heard the content.

After the shock came disdain.

Zhou Xianglin was the first to express his opinion.

"I'm afraid that's just a fantasy. that's impossible." As the best professor in the Institute of Neurology, other than the director Wang qiren, Zhou Xianglin was the first to express his disbelief.

Wang qiren nodded and agreed with Zhou Xianglin.

Li dan from the cell research Institute said,"for cells, as long as there are genes and nerves to support it, good cells can indeed be regenerated." But can she figure out the genetic and neuron recovery formula?"

"that's impossible." Lang Zhen directly rejected.

"everyone's genes are different, and the control of each cell is different. the control of genes over traits was not limited to a pair of genes that could control a pair of relative traits. there were also a pair of genes that could control multiple traits or multiple genes that could control one trait.

Every single burn patient had a different burn wound. This caused the damaged genes and nerves in each burnt part to be different. It was basically a different body part with a different control system. You can't let the commander of the artillery Regiment go to fight sea and air battles, right? How can this be solved with just one equation?"

Wang qiren nodded and agreed with lang Zhen's words.

At this moment, other than Shi Yalin and a few people from the Research Institute of the medical administration University, the president of the medical Association, Shi maocheng, Shi Yalin's mother, PEI Jiyun, and a few senior experts and professors were all present.

Shi maocheng and PEI Jiyun were also professors. When they saw the experts and professors rejecting the idea, they turned their eyes to Shi Yalin.

It had been a month since Shi Yalin entered the medical University's research Institute. In the beginning, li dan, Wang qiren, and lang Zhen only saw Shi Yalin as a helper. A helper who could help them contact the medical Association and ask the medical Association's experts and professors to help them research the project on hand. In the end, after interacting with Shi Yalin for a month, everyone found out that this first-year student was full of stuff even though she didn't seem to be very outstanding.

Now that they had seen the experts and professors of the medical Association, and even the Dean, Shi maocheng, who faintly respected her, the three of them had finally confirmed their suspicions.

Shi Yalin, this little girl, was definitely not simple!

Her good fortune was definitely not inferior to Nangong Nuannuan's!

Seeing everyone looking at her, Shi Yalin just smiled.

"Although genes and the nervous system are all complicated and ever-changing, don't forget that they all come from the human body. The reason why our planet is able to produce living beings is because all living beings are closely related to the life of this planet. The genetic chain can change, and once the genetic chain changes, the person will also change."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3055

3055 Stealing (4)

"The genetic chain can also be repaired. Once it is repaired, the person will be healthy again. Since we dare to change our health by fixing our genetic chain, who says they can't fix their skin by changing their genetic chain?"

"So You Think this is feasible? Is Nangong Nuannuan able to come up with this project?" Shi maocheng asked.

"Second uncle, other people might not know about Nangong Nuannuan's capabilities, but you should know. since she dared to do this experiment, it means that she has a way."

Shi Yalin's words stunned everyone in the room.

Lang Zhen and Wang qiren were the professors with the most authority in the entire Medical Research Institute. If Qin Muyang wasn't the principal, the two of them would have been the deans of the Research Institute. even now, they were still one of the deputy deans.

Whether it was Nangong Nuannuan or Shi Yalin, they did not have a proper understanding of them from the start. Now that he had realized Shi Yalin's power and heard her talk about Nangong Nuannuan's power, he could not help but be shocked.

" you're saying that she might really be able to figure out a way out of this project? " Lang Zhen asked.

"Nangong Nuannuan is a very capable person. Her medical knowledge is beyond your imagination." Shi Yalin nodded. Since she dared to do this experiment and sign up for it, it means that she's confident that she can finish the research in two months."

Lang Zhen's face sank when he heard that.

They had been researching this project for five years and finally had a direction. They had thought that they could amaze the world with a single brilliant feat and be recognized by the world's medical research, shocking the world. However, they did not expect Nangong Nuannuan to not only interfere, but also that the other party's research direction was much more difficult than theirs.

At this moment, it would be a lie to say that he didn't regret it.

She remembered that the principal had allowed Nangong Nuannuan to participate in their project directly. However, they had refused to let Nangong Nuannuan in.

If he had known that she was so powerful, he would have let her participate in the first place. After all, they were in charge of the main research project, and they would benefit in the future.

Although they had received Shi Yalin's help, it was obvious that although Shi Yalin was also very powerful and could keep up with their research, and could even provide technical support, her level was not much different from theirs.

After all, they were already considered the world's top medical professors. There weren't many who could be better.

The most powerful professor in the medical association was no different from them.

"What about our current project? In that case, I'm really going to fall behind Nangong Nuannuan's Beauty Project?" Wang Qiren asked.

This was simply unacceptable to him.

A beauty researcher had defeated the director of cells, nerves, and genes. They would probably not be able to stay in the research institute in the future.

It was definitely a slap in the face.

"Our research project is an attempt to maintain human health by stabilizing genes. By stabilizing the genes and nerves, the cancer cells would not go crazy. Actually, our research is similar to Nangong Nuannuan's. We'll study our own for now. When Nangong Nuannuan has some results, we'll get Zhang Fang to bring us the results. This way, we can use her research equations to figure out what we want."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3056

3056 Feng Kun's trouble (5)

To put it bluntly, it was stealing.

Lang Zhen, Wang Qiren, and Li Wan looked at each other and didn't speak.

"What? You don't agree with me?" Shi Yalin smiled.

Zhou Xianglin chuckled and said to the three leaders, "I think what Yaling said is a good idea. Our three research institutes have been researching this project for five years. We only submitted it because we had some progress. Although we haven't been able to get the results, some of the things we've researched are enough to cause a worldwide medical discussion.

However, now that Nangong Nuannuan had joined them, she still had the Angel Research Institute under her. There were three sixth-grade professors in her Institute. She refused to gather the professors from the Angel Research Institute to discuss it with us because Director Lang is in charge of this project.

However, she was the person in charge of the beauty salon project now. If the research reached a bottleneck, she would definitely ask those people to come out.

originally, our research was meant to benefit mankind, but Nangong Nuannuan abandoned our project for her own selfish reasons and set up another company. She had the intention of going against us.

The three directors could imagine how Nangong Nuannuan did not refute even when everyone from the medical department University was criticizing her. if she really manages to figure something out, won't she be slapping us in the face? when that time comes, will the research institute still have a place for us?"

"Professor Zhou is right."

"professor zhou's analysis is right."

"Nangong Nuannuan is indeed a vengeful woman."

" our medical association often suffers losses at the hands of the angel research institute. "

After Zhou Xianglin finished speaking, the people from the medical Association who were brought here by Shi maocheng all nodded in agreement.

Originally, lang Zhen and the others were faintly angry with Shi Yalin's words. After all, they were cultured people and researchers. They would not do such a thing. however, when she saw that everyone was on the same side as nangong nuannuan, she instantly took her seriously.

Soon, everyone reached an agreement.

They would continue with their research first. Once there was any progress on Nangong Nuannuan's side, they could use Zhang Fang to transfer the relevant equation to her.

In a luxurious Manor in J-state of cyber country, many people had arrived early in the morning.

Feng Luan was still meditating when someone came to report to him that the Lieutenant Governor had brought a group of people from the administrative office.

Feng Kun frowned. what are the Lieutenant Governor and the people from the administrative office doing at our Manor? "

they didn't say. They only said that they wanted to see teacher.

Although Feng Su disdained to deal with these people, he also knew that every world had its own Rules of Survival.

He had lived in this sullen world for so many years. Although he still felt uncomfortable, he still had to follow the rules. otherwise, if the people of this world really wanted to be his enemy, he would not be able to deal with them in his current physical condition.

After a moment of silence, Feng Kun nodded. I understand. Tell them to wait.

"Yes."

Although the Lieutenant Governor and the people from the administrative office were treated politely by the manor's butler, they still had to wait for more than half an hour before Feng Kun slowly walked out, surrounded by a few bodyguards.

He was dressed in a Tang suit, and with his extraordinary looks, he had the air of an immortal.

Hello, Mr. Feng Kun. My name is Winston, the Lieutenant Governor of J-state.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3057

3057 Mad with anger (1)

Feng Tan smiled and nodded, "hello." I wonder what brings you here, State Governor Aston?"

Feng Kun knew that the people from the administrative office would not come to his place for no reason. Once they came, something bad must have happened.

As expected, Winston didn't joke around and said in a business-like manner, "It's like this, Mr. Feng Kun. Your Manor takes up 47 hectares, which is considered a large-scale land occupation. We're already building a dwarf park in the first 30 public areas, and your place happens to be within the construction area of the park, so we would like to ask you to move out of this place before the deadline."

Feng Kun's face darkened when he heard that.

"Governor Winston, Are you sure? This is my private Manor, and I've lived here for 20 years. My Manor took two years to build and cost two billion. Now you want to demolish it just because you want to? Do you think I don't exist?"

Winston knew that the other party definitely wasn't willing to move, so he reached behind him. The staff member immediately handed a document to Winston.

Winston passed the documents to Feng Kun, but seeing that he didn't take them, he said, "Mr. Feng Kun, you can take a look. You obtained this piece of land illegally 22 years ago. However, because of Mr. Feng Ming, the administrative office didn't come to compete for the land for the sake of Mr. Feng Ming, although the land eventually fell into the hands of J province. On the one hand, it was to give face to Mr. Feng Ming. On the other hand, the biggest reason was that this land was relatively remote and not within the city's scope. It wouldn't be of much use to develop it. That was why the administrative office didn't take the land back.

Mr. Feng Ming also directly paid the right to use this land for 50 years, which is why you can live here.

However, someone had already invested in the building of a Jurassic park in this area. In order to create a good primeval forest, your houses must be demolished. So, Mr. Feng Kun, please cooperate with our work."

Feng Kun's eyes trembled in anger after he heard Winston's explanation.

Did these ignorant humans really think that he was easy to bully?

Feng Tan sneered and suddenly released a wave of pressure.

Winston only felt a huge pressure on his body. His eyes widened, and his entire body was forced to bend.

Under the immense pressure, Winston knelt on the ground and was unable to move.

He widened his eyes. He didn't expect the manor to be so eerie, and the owner of the manor to be so strange.

fortunately, the congress had already informed him that this feng kun was a little strange and very sinister. in order to prevent accidental injuries, the higher-ups had specially allocated 200 people for him.

Seeing that Winston was kneeling in front of Feng Kun, the police officers at the door and outside rushed in and pointed their guns at Feng Kun, warning him not to act rashly.

Feng Kun looked at the police coldly, his eyes filled with rage.

He wasn't a kind man to begin with, and he didn't put these people in his eyes.

A few hundred guns couldn't do anything to him.

it would be easy to kill these people.

But Yingluo didn't live in this world to have conflicts with these minions.

Seeing that his plan was about to succeed, how could he be held back by other things that were not worth mentioning?

"Everyone, is there a misunderstanding?" Feng Kun smiled. Why are you all pointing your guns at me? Did I point a gun at you?"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3058

3058 You can appeal (2)

After that, the mercenaries in the manor took out their guns and pointed them at the police.

Even though Winston had brought 200 people, he realized that the people in the manor were not ordinary people. These people were all tall and strong, and they all had guns. Not only were there handguns, but there were also many heavy machine guns and shells.

winston was also a little confused.

Only then did he realize that the people in the manor were probably all international mercenaries.

Looking at the hundreds of international mercenaries, Winston instantly felt that he was shorter.

"Mr. Feng Kun, although our country has a lot of freedom, the orders that have been given will not be taken back unless there are special circumstances. If you have any dissatisfaction, you can go to the administrative appeal. However, I have the land use manual that Mr. Feng Ming signed with us back then. You only have the right to use this land, not the right to own it. Although he paid the usage fee, we can still refund the fee to you." Winston said.

feng tan saw that winston's expression had changed, so he ordered his men to put away their guns.

Winston could also tell that if they used force, they would not be able to gain any advantage at the moment, so he also had his men put away their guns.

It was only when everyone had put their guns away that Feng Kun removed the pressure.

The pressure disappeared, and Winston stood up.

"Mr. Feng Kun, we're only following orders. Please don't be angry. if you're not satisfied, you can appeal. But because we have the original contract here, I think even if you go to court, the winning rate is not high."

Winston's attitude was very good, and although Feng Kun was angry, there was nothing he could do.

However, he just felt that this matter was strange.

He wasn't that picky about where he lived, but Feng Ming had told him that he had bought land here and was preparing to build a Manor.

He felt that since he had bought the land, he should have the property rights. how did it inexplicably become the right to use the land without the property rights?

Feng Kun took the documents from Winston and flipped through the photocopied pages. Indeed, it was only the money for the 50-year usage rights.

to be honest, because feng ming, feng jimian, feng shengxuan, and nangong nuannuan were all good at making money, feng su had never been worried about money before KE was destroyed by feng shengxuan.

He had been really angry after Feng shengxuan and Nangong Nuan had destroyed the headquarters of the team. Because that would directly cause the venomous snake to be unable to conduct any experiments.

After all, without Jade and a large amount of spiritual energy, the Gu worms would not be able to work, and the bugmen would not be able to be produced in large quantities.

fortunately, the venomous snake's soul was now residing in shi yalin's body, so the shi family had the financial resources to support the research. Otherwise, if he didn't have the money, he would have to resort to violence again.

After reading the document, Feng Kun felt terrible.

He wasn't interested in the high-tech stuff in this world, so he couldn't tell if this thing was real or fake. He could only give Feng Ji Mian a call.

On the other end of the phone, Feng Ji Mian was waiting for dinner at the Nangong residence.

Even though Nangong Nuannuan would be leaving the medical University early that day, it was already eight o'clock when she got home.

Originally, she had instructed everyone to eat first and leave some food for her. However, when she got home, she found that the whole family, including the two elderly and two children, were waiting for her.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3059

3059 an old fogey with evil intentions (3)

Everyone said that they had already eaten some food and that they were at the bottom, but Nangong Nuannuan was still very touched when she saw the family.

Just as everyone was about to start eating, Feng Ji Mian suddenly received a call.

seeing feng ji mian raise an eyebrow, the originally noisy and happy dinner table instantly quieted down.

Chi zeyao glanced at the caller ID and raised his eyebrows slightly. Feng Ji Mian, on the other hand, picked up the phone in a good mood.

“Big brother, why are you calling me so early in the morning?”

It was eight o’clock in the evening in Kamino, which was equivalent to eight o’clock in the morning in cyber. feng jimian knew very well why feng luan was looking for her.

This was her gift to Feng Kun.

“Ji Mian, do you have the certificate of ownership for my Manor?”

“Why is the title deed of your Manor here with me?” Feng Ji Mian thought for a moment.

at that time, Feng Ming was the one who bought this Manor. I remember that he had bought this piece of land before he built the manor, right? ”

“Yes, that’s right.” Feng Ji Mian replied irresponsibly as she ate.

but state J’s Governor Winston came to me with hundreds of police officers and wanted to tear down my Manor, saying that there’s no land certificate for this Manor.

“What?” Feng Ji Mian raised her voice as she ate.

Meanwhile, Chi zeyao was helping her pick up her favorite dishes.

Feng Luan could also tell that Feng Ji Mian was eating and asked, ” “Ji Mian, where are you?”

“I’m at the Chi family. Today, zeyao invited me to his house as a guest.”

When Feng Kun heard this, his mood immediately improved.

“okay, then you can eat. i won’t disturb you. i’ll find a way to investigate it myself.”

Feng Su was now in full support of Feng jimian and Chi zeyao being together. She had heard that Feng Ji Mian was with Chi zeyao, so she believed that Chi Yang and Nangong Nuannuan would be there as well. He was also afraid that the other party would hear him when he mentioned Feng Ming. Even though he knew that Feng Ji Mian definitely had equipment to prevent eavesdropping.

"Big brother, you should go ask the Grand Elder. If you don't have a Land certificate here, it should be in the property records of the nice family. Let him find it for you."

"alright, i got it. I'll go find the Grand Elder."

"Why is your Manor suddenly being demolished? Did you offend someone?" Feng Ji Mian asked as if she was enjoying the show.

"I'm not sure. it's just a small matter on my end. i'll go ask the grand elder."

"Alright," he said.

after hanging up, feng jimian and chi zeyao looked at each other and burst into laughter.

Nangong Nuannuan was extremely interested and asked, " "second aunt, why did feng kun look for you? What demolition? You're looking for someone to tear down his house?"

"Yes."

Feng jimian smiled as she told Nangong Nuannuan about their plan to mess with Feng Yao and how they had returned the land deed to the land and resources Department of Saibo.

Nangong Nuannuan was taken aback and asked in confusion, " "But will it affect him? You even have to tamper with the computers of the land resources Department."

"you think he's a rich woman like you?" feng jimian laughed. Let me tell you, Feng Kun is actually an old-fashioned man with bad intentions. He had lived in this Manor for 20 years. He had never bought any real estate, nor had he lived in any other place. He was a very conservative person who didn't like to accept new things. That's why your second uncle spent 17 years preparing to use advanced technology to deal with him. he's always looked down on technology and only cared about his own strength."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3060

3060 do you understand?(4)

Nangong Nuannuan understood what he meant, and her mouth twitched as she asked, " "So he won't have a house to live in after the demolition?"

"Yes."

"Pfft-"

Nangong Nuannuan almost burst out laughing.

Who would have thought that such a terrible ultimate boss would be so poor that he didn't even have a house to live in?

he used to think that feng shengxuan was the worst villain, but it turned out that there was someone worse than him!

A white van was slowly sliding across the street, and a group of people inside were using binoculars to watch people coming out of the shopping mall and getting ready to take a taxi home.

Just then, a black car stopped in front of the man and asked, " "miss, do you want to take a taxi? where to? It's too cheap!"

Minister li glanced at him and asked, " "How much does the Department hospital cost?"

" everyone else is 60, " the man said. " you can have 20. it's on my way anyway. "

without thinking, li xiangwang got into the car.

In a van some distance away, someone called Yu minzhen and reported the situation.

"Miss Yu, we've received her and are ready to take her to the designated location." Okay, don't worry, we'll avoid the cameras."

After li xiangwang got in the car, the driver said, " "There's a traffic jam on Datong Road. I'll take another road. I'll only charge you 20 yuan anyway."

"Alright," he said.

Looking at the car that was driving in the opposite direction, li xiangwang did not refuse. Instead, he fell asleep soon after getting in the car.

This made it even more convenient for the driver to operate.

He walked through an alley without any surveillance cameras and soon arrived at the agreed place.

This area was going to be demolished soon, and there were red circles everywhere with the word 'demolish' written on it.

When they arrived at the destination, the white van was already waiting there, so the black car was no longer gentle. It immediately braked and stopped the car.

Li xiangwang opened his clear eyes and sat up straight.

"Where is this place?"

Seeing that li xiangwang was neither shocked nor afraid, the driver said, " "Young lady, I'm just helping that person to get rid of his disaster with money, don't blame me. If you want to blame someone, blame yourself. Who asked you to offend others?"

As he spoke, the car door beside li xiangwang was already opened.

"Get down here!" One of the hooligans outside shouted.

Li xiangwang obediently walked down. When he saw Yu minzhen standing leisurely not far away, he took out his mobile phone.

Yu minzhen sneered and said to li xiangwang, who was still pretending to be calm despite being surrounded, " there's no need to call. The communication base station here was dug out a while ago. Because this is a large area of demolition, there are no workers here to repair the signal.

“oh, really?” Li xiangwang took a look at his phone, which had no signal, and asked, ” “Yu minzhen, what do you want to do by getting people to drag me here? Don’t forget that you’re still a student of the medical department University. If you dare to do anything to me, I’ll definitely Sue the school.”

Hearing li xiangwang’s words, Yu minzhen laughed out loud.

“li xiangwang, this is the difference between us. after what you did to me that day, you’re already a dead man in my eyes! You, a person with no background, actually dared to attack me? Have you forgotten where you are? And Who am I?”

Seeing that li xiangwang was still calm, Yu minzhen continued to sneer in order to enhance the horror effect, ” “In this society, there will always be some people you can’t touch or provoke. Once you provoke it, it’ll be a fatal disaster. Do you understand?”
