Chapter 3111

3111 shaking the world (1)

However, these people seemed to think that this project was developed by Shi Yalin. They surrounded her tightly, but they ignored them.

Since everyone is so interested in this research, why don't we go to the coffee shop downstairs and have a good talk? "

This was probably the most exciting project of all. Everyone felt that there would be no other project more exciting than this. They all agreed and went downstairs with Shi Yalin.

" yaling, you can talk to the merchants downstairs. we'll go back to our room first. "

lang zhen and the others really didn't want to follow them anymore and suggested to return to the hotel first. After all, these old men had not slept for three days and three nights. the blood vessels in his eyes could not be concealed, and he was extremely exhausted.

however, just as he finished speaking, shi yalin glared at him.

The warning in his eyes shocked lang Zhen, Wang Qi Ren, and Li Wan.

Because when the other party's eyes swept over them, they only felt a chill on their backbones, as if a poisonous snake was wrapped around their necks. If they dared to say no, this poisonous snake would definitely bite them to death.

He silently took back his words and followed Shi Yalin and the others down the stairs.

However, they were really sleepy, so they went down and sat in the cool coffee shop. The few old guys quickly fell asleep.

Shi Yalin looked at the four people who had fallen asleep and smiled, " "They're the researchers of my project team. They've been working hard on this project. let's chat."

Everyone saw that these experts and professors actually gave Shi Yalin so much face, so they naturally treated her as the owner.

Outside, the reporters had been wanting to interview the research team for a long time. Seeing so many pharmacologists surrounding Shi Yalin, they sat down with her after getting permission.

Soon, the scene of a group of people chatting in a coffee shop appeared in major medical journals.

#shocking! Kamino Chinese Medical Association's research on genetics is successful #

#Genetic repair drug research successful, population problem will face a new challenge #

#The daughter of the Shi family carries the burden of mankind, and mankind will no longer be troubled by cancer in the future #

Explosive medical interviews soon spread all over the major newspapers, magazines, and the Internet, attracting heated discussions from people all over the world.

Later, because it was really too noisy, Lang Zhen and the others didn't rest for long before they woke up.

However, when they woke up, they realized that Shi Yalin had already signed a huge deposit for medical research funds with some of the businesses.

The contract had been drafted by Shi Yalin.

Lang Zhen and the others took the blank contract on the side and looked at it. The general content was that because the medicine still needed to be developed, the merchants currently weren't called investment, only technical support.

Every business had to transfer 100 million Yuan to the hospital as a deposit to express their intention to cooperate. This sum of money was for medical research, and it was free. However, it was also a stepping stone for him to cooperate with the medical Association after the success of his drug research.

Only businesses that donated money for free would have the possibility of getting agency rights in the future.

100 million, even though it was only Kamino's 100 million. However, it was still a huge sum of money. This amount of money was already equivalent to the assets of a medium-sized company.

It wasn't easy for anyone to come up with this sum of money. The key was that after the money was invested, they couldn't use any excuse to get it back.

Chapter 3112

3112 Is it inappropriate? 2

However, if he didn't take it, the project had already been developed, and all that was left was the pharmaceutical problem. This was much easier than research.

The key was that once this medicine was developed, it would be an incalculable profit.

Therefore, most of the pharmacies signed contracts for Dental Medicine.

The main reason was that they believed in the name of the medical Association. After all, Kamino was a big country, and the medical Association was considered a state. They believed that Shi Yalin wouldn't dare to scam money from them.

The key was that the medical Association had previously developed a medicine that could help wounds heal quickly. This medicine was selling like crazy. It was a limited edition now.

It only cost 370 a bottle to get medicine in Kamino, but it cost more than 1000 a bottle to buy medicine abroad. The key point was that there was a limited purchase of this medicine. After it was provided to the people in the disaster area, the production of this medicine had significantly reduced. Now, everyone was waiting to buy it.

They had also read the research report, which was very, very shocking.

If it wasn't for the fact that they couldn't take photos, they would have taken photos and recorded them so that people could go back and do a good conversion.

However, since they couldn't take photos, the shop owner could only make judgments based on his own understanding.

After all, most businesses studied medicine, so they could understand some of these research reports.

They believed that a researcher with the ability to perform such a huge calculation would definitely be able to successfully develop the genetic Medicine. Even if the research was not successful, he could still successfully develop other drugs.

The contract also stated that if the drug research failed, the medical Association could provide other drugs as a channel to support it.

Therefore, in order to find the best channel, the merchants all transferred money to Shi Yalin on the spot.

Soon, more than 2 billion Yuan appeared in the medical Association's account.

The young lady of the Shi family had said that once this medicine was developed, the price of a bottle would be about 30000 to 50000 Yuan, and a course of treatment would require about three to five bottles.

Although it was much more expensive than ordinary medicine, taking this medicine could cure cancer and save one from the knife. He believed that most people would choose this medicine for treatment in the future.

After Shi Yalin's meeting with the reporters and the businessmen was successful, she then brought the group of experts back to her room.

Shi Yalin rejected the arrangements of the organizing committee and chose the most luxurious Presidential Suite in the hotel. Originally, she didn't plan to stay in a hotel, but after seeing those businesses, she changed her mind. She believed that other businesses would definitely come to her after seeing the news. It was more convenient to stay in the hotel.

"President Devin is still suspicious of us. Isn't it inappropriate for you to open the market for the product like this?" Lang Zhen had already lost his temper because of Shi Yalin. He felt that Shi Yalin and Nangong Nuannuan, two girls who had just turned 18, were not people that he could win against.

Therefore, after seeing Shi Yalin's series of quick and accurate methods, he subconsciously thought of Nangong Nuannuan. After all, it was impossible for him to not have some skills to be able to expand his business to such a large scale.

our project research has not even been approved by President Devin, " Li Xiao said. you've already negotiated with the agent. Who will be responsible if something goes wrong? "

"What will happen?" Shi Yalin was in an extremely good mood. She didn't want to scare these old fogeys who were still somewhat capable, so she said, "The reporters have already publicized our research project. The first impression is the strongest, do you understand?"

Chapter 3113

3113 Something happened (3)

“Nangong Nuannuan can’t find any evidence against us. She’s just talking nonsense. What evidence do you have to prove that we plagiarized? In the end, this matter could only be left unsettled.”

the few of them thought about it and felt that she was right.

After all, they had really gotten their hands on the item. Shi Yalin had also sent people to secretly keep an eye on Zhang Fang. Zhang Fang had only tampered with it once, and that time, Nangong Nuannuan wasn’t there, and there was no camera. Therefore, this matter should really be flawless.

This matter was settled just like that.

Although they were not satisfied with Shi Yalin, they could only bear with it when they thought about the benefits and money they would get in the future.

Soon, Shi Yalin received a call from another shop, so she invited the person to her room to discuss some matters.

Nangong Nuannuan had been playing outside with her team members. When Wei Yan received a call from Qin Muyang, the principal of the medical department University, they were tired and ready to sleep.

After picking up the call, Wei Yan immediately gathered He Zhi, Wu Lingyun, Gu Xiaoli, Wu Zhi, and Zhang Fang and brought them to Nangong Nuannuan’s room.

Nangong Nuannuan was currently on the phone with Chi Yang. When she saw the bodyguards ringing the doorbell and the large group of people outside with unpleasant expressions, she immediately knew why they were looking for her.

After opening the door for them, Nangong Nuannuan chatted a little more with Chi Yang before hanging up the phone reluctantly.

When he came downstairs, he saw a large group of people standing in the living room without even sitting down and asked with a smile, “Why are you all here? Why aren’t you sitting?” “Pour everyone a glass of water,” he said to the Butler.

“No need,” Wei Yan rejected Nangong Nuannuan’s good intentions and said, “Nuannuan, something happened.”

Nangong Nuannuan looked at Wei Yan’s serious tone, which made it seem as if the sky had collapsed. She pretended not to know anything and asked, “What’s wrong?”

“The principal called just now and said that Lang Zhen, Wang Qiren, and Li Xiao collectively betrayed the medical administration University and followed Shi Yalin to the medical Association. They must have stolen our research materials. This is because their research project is to restore the human body’s health through the reconstruction of genes and the recovery of nerves and cells, including cancer.”

he zhi nodded and said, "we've all been through the entire project. we've all seen how you calculated this project." I dare say that even if those three people and all the experts in the medical Association were to work together, they would definitely not be able to calculate this equation."

Wei Yan nodded, "lang Zhen and the others have been researching this project for many years. In the beginning, he was very low-key. It was only because there were some signs recently that he felt that he could figure out one of the steps. That's why he signed up. at that time, he even said that even if he could only calculate this step, it would make a big step forward in medical history. Those were his exact words. He didn't say that he would be able to complete the experiment."

"so?" Nangong Nuannuan asked as she looked at everyone's dark expressions.

"Although the results of their project and our project are skin problems and health problems, aren't they the same in essence? The research process and the equations we need are the same. so i have reason to suspect that there's a traitor in our group who leaked our research results."

Wei Yan glared at Wu Zhi and Zhang Fang after he finished speaking. I have reason to suspect that one of you is behind this.

Chapter 3114

3114 A red face (4)

Wu Zhi and Zhang Fang's faces had already darkened to a certain extent. On the other hand, Zhang Fang's face was not only black but also red.

Red.

Faced with Nangong Nuannuan's mocking smile, Zhang Fang felt his face turning red at an alarming rate.

Feeling everyone's eyes on him, Zhang Fang said angrily, "on what basis do you suspect that this matter is related to me and wu zhi? Just because we joined later?"

"Of course!" Wei Yan's anger had reached its peak, and he no longer cared about the feelings of these two people.

"How can you be so sure? Do you have any evidence?"

"Although I don't have any evidence, professor he and I are bound to this project for good or bad. Moreover, we don't have a good relationship with those three people. We don't have to steal our own benefits and give them to others when we know that the project can be completed. Even an idiot would not do this. My disciple, Wu Lingyun, is Nuan Nuan's friend, and she's also the heiress of the Xiao and Wu families. The benefits of completing a project aren't attractive to her at all."

"What about Gu Xiaoli? Gu Xiaoli is neither a rich young lady nor a professor. Why don't you suspect her? And as far as I know, Gu Xiaoli's family condition seems to be worse than Wu Zhi and me!"

However, Gu Xiaoli, who was suddenly called out by Zhang Fang, saw a large piece of the snacks they bought during the day scattered on the table when she came in. She had already decided to watch the show and open a box of chips and put it in her mouth.

As soon as Zhang Fang finished speaking, he heard a “crack” from Gu Xiaoli.

Everyone looked in the direction of the voice and saw Gu Xiaoli eating potato chips at this time.

To be honest, if it wasn't for the fact that he didn't do it, didn't take it to heart, or that he didn't feel afraid after doing it, he wouldn't be in such a state at this moment. Even Wu Lingyun was frowning.

Seeing how relaxed Gu Xiaoli was, Wei Yan sneered at Zhang Fang and asked, “I don't need to answer. Do you think that she has done something wrong with her gluttonous look?”

Gu Xiaoli was speechless.

She had only eaten one piece, how did she become a foodie?

Nangong Nuannuan glanced at Gu Xiaoli, who was acting too casually, and was speechless. She said, “There's water over there, go get it yourself.”

“Oh.” gu xiaoli followed nangong nuannuan's gaze and saw the water dispenser. she picked up a cup and went over to fill it up. she took a big gulp and picked up the chips to continue eating.

“Xiaoli, look at the situation now. You only know how to eat, eat, eat.” He Zhi couldn't help but criticize Gu Xiaoli.

Gu Xiaoli said gloomily, “I didn't do anything wrong, and you guys didn't suspect me. This matter has already been exposed. We should leave this matter to Nuan Nuan and trust that she can handle this crisis.

Wu Lingyun thought about Nangong Nuannuan's methods and saw that she and Gu Xiaoli were calm after hearing about this. His heart instantly calmed down.

Wu Lingyun turned to Nangong Nuannuan and asked, “Nuannuan, do you know something? who's the one who betrayed us?”

Nangong Nuannuan's gaze swept across the room. Even though her eyes only briefly scanned Zhang Fang, he could still feel an invisible pressure.

Chapter 3115

3115 I'm at ease (5)

He felt as if the other party was a high-level scanner that had seen through everything in an instant.

Zhang Fang's heart was beating extremely fast, and he was extremely nervous.

After all, he was a medical student. From elementary school to his master's degree, he was about to take the Ph.D. Exam. He had always been in the simple environment of the school. The theft of information had already scared him to the point of falling sick, not to mention the interrogation process of finding spies. It was a kind of torture to his heart.

Nangong Nuannuan waved her hand under everyone's expectant gaze. "I already found out about the things you've mentioned this afternoon. President Devin called me in the afternoon and said that Lang Zhen's research report is almost the same as ours."

"If you knew, why didn't you tell us? Do you know how detestable Shi Yalin is? Not only did she put the project under the Medical School's name, but she also gathered the foreign news media to publish their research. Now, everyone outside knew that they were engaged in genetic research. Many businesses had signed contracts with them. It was said that in just one afternoon, Shi Yalin had collected more than two billion Yuan in deposit for the medical Association.

The deposit! The kind that wouldn't retreat! This 2 billion was only the stepping stone for the 20 businesses to become pharmaceutical agents in the future. When she's really researching it, these businesses will also inject funds into it."

Zhang Fang didn't know about this. After all, he was still a student and was very simple. He was only thinking that the other party would gain reputation and status after obtaining this information, and that he would be able to shock the medical world as much as their project. However, he had never expected that a project that had just been speculated and researched and had not even been developed could reap so many benefits.

2 billion! He had never dared to imagine the amount of money he had.

The other party had obtained it through him.

Not only did he get it, but he also scolded him for being slow!

So, how stupid did these people think he was to use him like this?

"Everyone has the concept of first impressions. This project was clearly developed by us first, and they stole it. Now they're rushing to announce it to the world before us. Now, the whole world will think that they were the ones who researched it first. Even if we pursue the matter, even if the organizing committee helps us to clarify, won't the several staff members of the Angel Research Institute think that the organizing committee is colluding with us? It'll really be hard for us to explain! Nuannuan, what do you think we should do about this?"

Just then, Nangong Nuannuan's phone rang. Seeing that it was from Qin MUYANG, Nangong Nuannuan answered the call.

Before he could speak, the other party said in rapid succession, "Nuan Nuan, I've called you so many times just now, but you were always on the line. You were talking to Chi Yang, right?"

Nangong Nuannuan:

"You know about Shi Yalin's matter, right? Lang Zhen and the other two were already on Shi Yalin's side. Although you told me about the possible outcome from the beginning, I'm still very flustered now. You know that the three of them are the directors. If they go to the medical Association, our research Institute will really lose face. Nuan Nuan, I'm panicking right now, so just give me a definite answer. Is this going according to your plan? I know that Wei Yan and the others might have already come to find you, and it's not good for you to talk to me, but you should just tell me whether it's true or not. I'll also be at ease."

Chapter 3116

3116 The anxious and angry principal (1)

“yes.”

Nangong Nuannuan picked up the phone and listened for a long time before she finally had the chance to speak. he quickly responded.

He had never known that Qin MUYANG, the principal, could be so talkative at such a young age.

Nangong Nuannuan replied impatiently. After a short reply, Qin MUYANG was stunned for a moment before he asked hurriedly, “What did you just say?”

“Yes.” nangong nuannuan responded.

“Is there anything else? If there’s nothing else, I’m hanging up.”

“No, no! It’s good as long as it’s within your expectations. Then I won’t care about this matter for now. I wish you success in advance. When I come back, I’ll throw you guys a celebration. I’ll get the people below to make a banner for you now.”

“Thank you,” Nangong Nuannuan nodded.

“It’s what I should do, I should be the one thanking you! “Such a major, groundbreaking project that will break the development of mankind is actually the Research Institute of our Medical University. Hahahaha!”

after laughing for a long time, he realized that nangong nuannuan was not in a position to speak, so he quickly hung up the phone after a few small talk. He was afraid of affecting her.

“Is it the principal?” Wei Yan asked.

“No.”

Wei Yan:

He had been standing next to Nangong Nuannuan, and he had clearly seen the remark: Qin MUYANG (principal).

“How do you think we should handle this matter?” Wei Yan also thought that the principal might have said something to her that was not convenient to disclose, so he changed the topic.

Looking at the crowd, Nangong Nuannuan didn’t even think about dealing with anyone. She said, “Since we’ve already handed our things to the organizing committee, we should believe in the ability of the organizing committee. I believe that all kinds of disgusting and dirty things will happen in any screening session, but the organizing committee can solve it satisfactorily in the end. Devin was a smart man. He knew how to deal with it and how to deal with it. We’ll just wait for the good news.”

He was still waiting for good news.

If they hadn't acknowledged Nangong Nuannuan's knowledge of being a super genius, Wei Yan and he Zhi would have been so angry at her words that they would have stomped their feet.

You don't care about your own matters and wait for others to deal with them. How could he say it so naturally? this really wasn't the way to be a person, okay!

"These are the snacks I bought during the day. There's too much. Do you guys want to take some to your rooms?"

"me!" Gu Xiaoli immediately raised her hand.

nangong nuannuan glanced at her, then silently ran to the only remaining box of chips and took it into her hands.

She had said that this brand of potato chips was delicious, but no one took it. She took two boxes for herself, so that she could eat by herself after taking a shower and calling someone. In the end, Gu Xiaoli took a box. therefore, nangong nuannuan quickly pulled the other girl into her arms.

Gu Xiaoli:

wei yan and he zhi, who were so anxious that their teeth hurt, were speechless.

"Harm! How can you young people be like this?" Wei Yan was speechless at Nangong Nuan Nuan and Gu Xiaoli.

He was so anxious that his fake teeth were about to fall off, but Nangong Nuannuan only said one sentence, which didn't even hurt him, and the second sentence was about snacks.

At this moment, Wu Lingyun walked to the table quietly and picked a few of her favorite snacks. He said to Gu Xiaoli, "Xiao Li, let's go back."

"Yes."

Gu Xiaoli picked up another bag of snacks and looked at Nangong Nuannuan. She waved the bag of chips in her hand and giggled, "It's so delicious, share it with me!"

Chapter 3117

3117 a small matter 2

nangong nuannuan nodded with a smile and gave it to her.

Just as Wu Lingyun and Gu Xiaoli were about to leave, Wu Zhi suddenly stood up and said, "As a member of this group, I have the responsibility to protect the honor and interests of our group. Although this might not be good for me, I agree to call the police and let them solve this."

To be honest, if he was anyone else other than Zhang Fang, he would also suspect himself and Zhang Fang.

However, he had never betrayed his team members, so he firmly believed that the mole was Zhang Fang.

Zhang Fang was forced into a corner by Wu Zhi's words. However, thinking back, he had only done it once, and there were no surveillance cameras there. Qi Meixin had told him that no matter how powerful Nangong Nuannuan was, she would not be able to find out that he was the one who did it. therefore, this matter would be thoroughly investigated after this. however, as long as he insisted that he didn't do it, no one could do anything to him even if they suspected him.

he would receive a million yuan in cash and work in qi meixin's research lab. In the future, he would not have any contact with Shi Yalin and the others.

Therefore, Zhang Fang also stood up. that's right. I also agree with calling the police. Let the police investigate this matter and find the real spy.

After saying that, his eyes swept across Wu Zhi and Gu Xiaoli.

wu zhi was so angry that his face turned even darker.

Gu Xiaoli rolled her eyes. Crack! Another crisp sound was heard, and Zhang Fang's heart tightened.

Wei Yan and he Zhi agreed with their suggestion, " since they have the same intention, I think we can let the police intervene.

"It's just a small matter. There's no need to call the police," nangong nuannuan's smile was like that of a buddha.

"master, let's just listen to nuannuan and wait for the organizing committee to give us an answer," wu lingyun said from the side. After all, we're in cyber nation. Even if the police were to intervene, they wouldn't be able to investigate. the items have been kept by xiaoli, and i've been with xiaoli the entire time. this means that our materials must have been stolen before we set off. So, he had to wait. If we can't find any evidence, the police will be useless."

Wu Lingyun's words finally woke Wei Yan and he Zhi up. They looked at Nangong Nuannuan, and when they saw her nod in agreement, they left in a flustered manner.

They were all professors, and they weren't as calm as the young lady when they encountered a little problem.

At this time, they could only place their hopes on the organizing committee.

Just thinking about how such a good and world-shocking project had been stuck on by Shi Yalin, that piece of sh * t, made him feel vexed.

Zhang Fang and Wu Zhi lived in the same room. After entering the room, before Zhang Fang could react, Wu Zhi turned around and punched him in the face. Zhang Fang was directly smashed to the ground.

Zhang Fang roared angrily,"Wu Zhi, are you crazy?" Why did you hit me?"

Wu Zhi lifted him up by the collar and berated him angrily, " "Zhang Fang, you did this, didn't you?"

"let go, you lunatic! Don't you know what kind of person I am?"

"I don't know! I don't know! I only know that you're a person who's eager for quick success. You're a person who's very eager to succeed, and you're also a petty person. You even said bad things about Nangong Nuannuan. So, it must be you, right?"

"Wu Zhi, don't you slander me! If you say it's me, I'll say it's you!"

My Sweet Physician Wife Calls The Shots

Chapter 3118

3118 Being bitten (3)

"I clearly saw you talking to Hu Yawen once. Hu Yawen is Shi Yalin's friend. What did you say to her? Hmm?"

Wu Zhi was speechless and angry, "how would I know who Hu Yawen's friend is?" when I went to look for someone, it was my teacher who asked me to go. I'm just helping the teacher to pass his things to Hu Yawen."

"Hehe, you're just going to deliver something? But why do I see you talking to her?"

"Can't there be basic communication between people?"

"hehe, to you, your interaction with Shi Yalin's friend is a normal interaction between people. I only complained a little before I joined the crew, and you think I'm the mole? Why? Where's the evidence? If you don't have any evidence to prove that I'm the mole, I can say that you're the mole. If I tell everyone about you and Hu Yawen, who's going to suffer? Who would be listed as a key suspect?"

Wu Zhi:

Zhang Fang touched the corner of his mouth that seemed to be bleeding and said, "Wu Zhi, I can forgive you for hitting me, but don't do it again. I won't slander you without evidence, so don't slander me either."

With that, Zhang Fang headed upstairs.

Wu Zhi was furious. Seeing that he was already about to turn the corner, he sneered and said, "Zhang Fang, I also feel that the traitor could only be one of us. But I can swear to the heavens that the person wasn't me. That's why I'm sure that person is you. Don't let me find any evidence, or else I won't let you off."

"Heh, who doesn't know how to make an oath? I swear, if I'm the one who did this, I'll get hit by a car. Do you dare?"

Wu Zhi looked at him fiercely.

He didn't want to curse him, and he felt that Zhang Fang had no bottom line at all. In order to escape punishment, he was even willing to curse him with such a vicious curse.

He had nothing to say to such a person.

The next day, Wei Yan, He Zhi, Wu Zhi, and Zhang Fang all appeared in front of the three girls with dark circles under their eyes.

Nangong Nuannuan woke up at six in the morning as usual and ran around the villa for an hour. When she returned to her room at seven, she found a group of people standing at her door.

After wiping her sweat with a towel, Nangong Nuannuan asked in a good mood, " "Why are you up so early? What's the matter?"

Is there something?

To think that she could say this.

"Nuan Nuan, you're the person in charge of this project. You're smart and talented. Not only that, but you also have a powerful business empire to support you. This research project was completed in three months for you, so you might not think it's very precious.

However, for most experts and professors, they might not be able to figure it out even if they studied it for a lifetime. both professor he and i treasure this project very much. it can be said that it's the most precious work of our lives. Although we're only doing a little bit, this project will shock the world. As a medical expert, you should understand.

He Zhi and I went back yesterday and thought about it. No matter what, we have to show our power. Whether or not we can prove that they stole it, we must not let them think that we are easy to bully."

He Zhi nodded. anyway, you have a good relationship with the organizing committee. We can invite experts to identify it. If they can't be identified as plagiarizing on the spot, we can let lang Zhen come out personally to do the conversion with us.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3119

3119 Capturing Zhang Fang (4)

"Even professor Wei and I can't remember such a huge conversion. Lang Zhen and the others definitely can't. They couldn't even remember it, so how could they study it? So far, the most they can do is to give an explanation based on the report. Without the report, they can't say anything."

wei yan nodded. " nuan nuan, when the time comes, you just have to come out and confront lang zhen. then, it'll be clear who the plagiarizer is. "

nangong nuannuan didn't know whether to laugh or cry when she saw the dark circles under the two professors 'eyes.

"Everyone, please listen to me. What you've said is not the fastest way to solve the problem. After all, saying it and reciting it from memory did not explain anything. It's like an essay. The writer of the essay can't memorize his own work, but the plagiarizer can."

Wei Yan:

He Zhi:

therefore, whether you can recite it or not doesn't determine whether the other party plagiarized.

Seeing the two professors' spirits drop in an instant, Nangong Nuannuan had no choice but to say, "Don't worry, this project is mine. I have a way to make it recognize its owner."

As she spoke, Nangong Nuannuan's eyes looked at Zhang Fang without any restraint. There's no need for the police, and there's no need to recite. The project will tell everyone that I, Nangong Nuannuan, am the real creator of this project.

Everyone followed her gaze and looked at Zhang Fang. Zhang Fang's face turned pale at a speed visible to the naked eye.

Nangong Nuannuan's light gaze was more effective than all the gazes from the others combined.

Having been stared at by Nangong Nuannuan's half-smiling eyes a few times, Zhang Fang could feel that every time Nangong Nuannuan's eyes landed on him, he felt like a black gun was pointed at his head.

Zhang Fang's lips trembled, and the words that came out of his mouth made him tremble.

"Miss Nangong, you're staring at me like this, do you think I'm the thief? Or did Wu Zhi say something in front of you?"

Wu Zhi, who was at the side, almost died from anger when he heard this. He roared, "Zhang Fang, don't you slander me. You know best who the thief is. Although I don't have any evidence, I believe that everyone's eyes are sharp. This matter will be investigated to the core."

Zhang Fang ignored Wu Zhi and said to Nangong Nuannuan, "Miss Nangong, you don't know this, but one day, I saw Wu Zhi talking to Hu Yawen. That Hu Yawen is the woman who often badmouths you behind your back. She is good friends with Shi Yalin. She's Yingluo."

"Alright, you don't have to say anymore." Before he could finish, Nangong Nuannuan impatiently interrupted him.

Zhang Fang was taken aback and wanted to continue explaining, but he heard Nangong Nuannuan say to the security guard, "Take him away, and don't let me see him again before we leave the country."

"Yes."

Zhang Fang was taken aback. He hadn't expected Nangong Nuannuan to grab him so suddenly. He didn't come back to his senses for a moment, and he couldn't figure out how he had exposed himself.

It was not until the bodyguard had grabbed him that he suddenly came back to his senses. He struggled to break free and shouted, "This is not fair! You're unfair! Why did you arrest me and not Wu Zhi? We're all suspects! You don't have any evidence, what right do you have to arrest me? If you want to arrest me, show me the evidence!"

Nangong Nuannuan didn't even want to look at him. She turned around and went back to her room.

Before returning to the house, he said, "everyone is free today. We'll walk around the villa. After lunch, the costume designer and makeup artist will be here. After they're done, we'll go directly to the banquet venue.

then, he went straight into the house and closed the door, ready to take a shower and eat breakfast.

Zhang Fang was a little dumbfounded. He struggled with all his might and shouted, "Nangong Nuannuan, you're being selfish by imprisoning her. This is against the law! I can sue you!"

"You're suing my ass!" Gu Xiaoli sneered as she walked up to Zhang Fang. "You really think our Nuannuan doesn't have evidence against you? She just didn't want to show the evidence. She wouldn't even bother to bring out evidence to sue you for a useless piece of cloth like you, okay?"

Zhang Fang's flushed face turned pale in an instant.

What did Gu Xiaoli mean?

Did this mean that the two of them already knew about his theft?

Then why didn't they say anything?

Why didn't he expose Shi Yalin and the others? Why did he just watch him hand over the project they had developed to Shi Yalin?

Zhang Fang's brain was spinning rapidly.

Qi Meixin had specifically asked him to take a look at the information before stealing it. Otherwise, if there was a problem with the verification, he would have to bear the consequences. By then, not only would he not be able to enter the Beauty Research Institute, but he would also not be able to stay in the medical department.

Therefore, he was very careful when he stole the information and had confirmed it. He also believed that the three senior professors must have studied materials before.

If the ingredients were real and he had not made a mistake, why did Nangong Nuannuan not stop him? Why did he make her steal the materials and then take the trouble to deal with this matter?

Almost immediately, Zhang Fang felt that both Nangong Nuannuan and Gu Xiaoli were trying to trick him.

"I didn't do it! I didn't do it! It was Wu Zhi! It's definitely Wu Zhi!"

Wu Zhi was also speechless. After all, they had been classmates for so many years. Zhang Fang didn't have many friends other than his excellent grades. He usually liked to stick to him, so he became friends with him.

However, he didn't expect him to be such an immoral person. Not only did he steal information, but he also slandered him.

Wu Zhi was about to explain when Gu Xiaoli sneered, "I've already captured you, yet you still dare to slander others. I'm also very impressed by your thick skin. Zhang Fang, why do you think our Nuan Nuan, who is so smart and capable, had to recruit someone like you, who we're not even familiar with, into our

project? If I didn't know about your dirty dealings with Qi Meixin behind your back, do you think you have the right to come in and sort things out? It's not that I'm looking down on you, but can you understand the things that our Nuannuan is researching?"

When Zhang Fang heard this, all the blood in his body drained away in an instant, and his entire person froze on the spot.

"Also, if I didn't risk my life to drink your poison, would you have the chance to steal the information in my computer? You really are something! I've eaten so many laxatives, but they didn't work. In the end, it was Nuannuan who gave us the medicine from the angel research Institute that quickly stopped the poison. Otherwise, I'd have been dehydrated that day."

zhang fang thought,"yingluo even knew about him drugging her."

That meant that he really knew.

Zhang Fang's eyes widened, feeling as if all the energy in his body had been sucked out. If it wasn't for the two burly bodyguards holding him down, he would have fallen to the ground.

"So what did they say? Many unjust acts led to self-destruction! Let me tell you, the person who caused our Nuannuan to succeed is not even born yet. I don't know if there will be one in the future."
