

## Physician Wife 3121

### [My Sweet Physician Wife Calls The Shots](#)

#### Chapter 3121

3121 Alright, alright, alright 1

so many demonic beasts tried to harm our Nuannuan, but they all failed. Do you think you have the right to harm our Nuannuan? ”

Zhang Fang knew that he was finished. Since the other party could say so much, it was impossible for him to not have any evidence. However, when he thought about what he might face in the future, he was unwilling to accept this fact. He was still trying to quibble and figure out if they had any evidence.

“No, it wasn’t me! I didn’t! I don’t have Yingluo, so you can’t make slanderous accusations! I didn’t do it.”

“Alright, alright, alright, you didn’t do it. You didn’t do anything. You’re innocent. that should be fine, right?”

Gu Xiaoli couldn’t be bothered to edit with him anymore. She couldn’t help but roll her eyes.

But Gu Xiaoli didn’t talk to him anymore, and Zhang Fang panicked even more. He desperately begged, “Xiao Li, let me see miss Nangong. Let me explain to her.” I really didn’t do it. i really have nothing to do with this.”

Seeing Zhang Fang like this, Gu Xiaoli was extremely disgusted.

“Didn’t I already admit that you didn’t do anything? Why do you still want to see her? You don’t have to explain. Do you think Nuannuan has a lot of time?”

The bodyguard beside her saw that Gu Xiaoli didn’t like to talk to the person in front of her anymore, so he asked in broken Kamino, ” “Miss Gu, can we take him down now?”

Gu Xiaoli touched her nose and realized that she had talked too much. She quickly nodded. yes, yes. Take her away. Um, sorry to trouble you.

even though she was always by nangong nuannuan’s side, gu xiaoli still admired her subordinates. She realized that only those who were capable could become Nangong Nuannuan’s subordinates. for someone like her who didn’t have much ability at the moment, they could only be friends first.

Even Nangong Nuannuan herself didn’t know that Gu Xiaoli’s goal in this life was to look up to her subordinates.

zhang da was still taken away by the two bodyguards, leaving wei yan, he zhi, and wu zhi with shocked faces.

“Nuannuan knew about it all along?” Wei Yan finally came back to his senses and looked at Gu Xiaoli.

Gu Xiaoli nodded.

“Does she have a solution?” Wei Yan asked again.

Gu Xiaoli continued to nod.

wei yan was depressed.

“Harm! Why didn’t she tell us?! We’re on the same side as her, and she’s clearly trying to lure us in, but she still kept us in the dark. I’m so angry that I’m about to lose half my life!”

Gu Xiaoli smiled and said, “Nuan Nuan wanted to tell you too.” However, the people on the other side were not fools. If they had told everyone in advance, everyone would not have performed so well. Professor Wei, professor he, you’re the mainstays of this performance. If you don’t do well, your cover will be blown. As for me, my role is simple, and I’ve always been a silly and sweet girl. You guys aren’t acting professionals, so if I told you, would you still be so angry?”

“A performance?” “what did we perform?” wei yan asked, puzzled.

Gu Xiaoli said, “you guys don’t think that Shi Yalin trusts Nuan Nuan that much, do you?” She was very smart! even though she used the most primitive method on the surface, she didn’t stop observing us for the next few days. Nuan Nuan told me. There have been a few flies monitoring us these past few days, but they left last night.”

Wei Yan and he Zhi’s eyes widened as they looked around. Other than the servants who were passing by, there was no one else.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3122**

3122 The owner of the vinegar factory (2)

however, the two of them instantly became nervous, especially wei yan. he asked in a low voice, “Someone is monitoring us?”

Gu Xiaoli was amused by Wei Yan’s expression and chuckled. She said, “Professor Wei, look at you. I only said that there were flies watching us, and you’re already so nervous. If Nuannuan had told you earlier that there were people watching us, would you have been so good? Can the acting still be so realistic?”

Wei Yan and he Zhi thought for a moment, and it was true!

If they knew about this, their expressions would definitely be unnatural and they would be nervous.

“But master, you’ve all done well these past few days!” Wu Lingyun praised.

“So you young people are actually looking down on us old people.” He Zhi looked at Wu Lingyun and Gu Xiaoli’s smiling faces, and his expression was hard to describe.

After Wu Zhi felt at ease, he smiled and said to the few people together. He felt very uncomfortable in his heart.

He had thought that Nangong Nuannuan had put him in the group because she thought he was not bad, but he had not expected that she had let him in to do research so that she could monitor Zhang.

These days, after seeing the tip of the iceberg of Nangong Nuannuan's forces, he was still determined to follow Nangong Nuannuan.

Now, it seemed that it was impossible.

Wu Lingyun saw Wu Zhi's silence and walked to her side. "Even though you came in with Zhang Fang, and even though Nuannuan asked you to come in to make it easier for her to monitor him, she has seen your hard work during this period of time. For this research report, my master and professor he will be the main researchers, you and I will be the Deputy, and Xiao Li will be the data Officer."

Wu Zhi was startled, and his eyes widened.

Nangong Nuannuan had been in charge of the previous research report, while Wei Yan and he Zhi had been the main researchers. Wu Lingyun had been the assistant, while he, Zhang Fang, and Gu Xiaoli had been the three data filing staff.

So, huhu

Everyone stared at Wu Lingyun with wide eyes. Wu Lingyun smiled at everyone. It meant that everyone's guess was correct.

Wei Yan was surprised for a long time before he couldn't help but laugh, " "A genius! A genius! She was a genius! Hahahaha!"

He Zhi also laughed along.

hearing that he was listed as an assistant, it would be a lot of bonus points for his phd in the future.

After lunch, the stylist and stylist that Nangong Nuannuan had mentioned arrived.

they thought that it was just for them to change their clothes, for the women to put on makeup, and for the men to have a moses or something. In the end, after seeing that formation, everyone's mouths could be stuffed with duck eggs.

There was no need to mention the women. Just for the men, there were already 10 stylists pushing 56 suits in.

To professor Wei and professor he, who specialized in medicine and didn't usually tidy up their clothes, these suits were all very good looking.

She had also brought over dozens of pairs of shoes, which were said to match her clothes.

The clothes, shoes, dresses, and necklaces all made people's eyes light up, and they were all expensive.

Gu Xiaoli looked at the ladies 'dresses and jewelry. She was so scared that she didn't want to wear them.

Nangong Nuannuan walked over and saw her smiling sheepishly.

Since Gu Xiaoli wasn't wearing it, Wu Zhi was too embarrassed to put it on. He looked at Nangong Nuannuan with eager eyes.

"You should at least let me know the reason why you're not wearing these, right?"

faced with nangong nuan nuan's aggressive attitude, gu xiaoli said, " " although i don't know how you can trick them, shi yalin is not an easy person to get along with. i'm just afraid that she will be desperate at night and find someone to fight with us. i'm afraid that i'll be ruined. "

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3123**

3123 Depressed to the point of 3

"That's right. I'm the only man here, so it's better for me to wear my own clothes. It's more convenient for me to fight."

Wei Yan and he Zhi were infuriated.

"What do you mean by you're the only man? So, professor he and I are both women in your heart?"

Wu Zhi also realized that he had said the wrong thing and quickly apologized, " "No, no, I mean I'm the only young and strong man. I'm sorry, I'm sorry! I misspoke!"

Nangong Nuannuan could not help but laugh when she saw how excited they were.

"Do you think the security of the organizing committee doesn't exist? Even if it doesn't exist, that hotel is under disheng. We can drown them with our saliva just by comparing the number of people. So don't worry and just wear it. "

With Nangong Nuannuan's words, everyone's psychological burden was lifted.

After the stylist and makeup artist's unique pairing and dressing, everyone appeared in front of everyone with a new look.

When they saw each other, their eyes were filled with unconcealable excitement and joy.

After all, this was a major turning point in their lives.

Tonight would also be the night they stood at the top of the medical world and received the attention of thousands of people.

The party started at six in the evening, and everyone was done with their styling at four in the afternoon. It was already five, but Nangong Nuannuan had not come out to lead them out.

In the end, Wei Yan and he Zhi gave Nangong Nuannuan a call. It was already 5:30 pm when Nangong Nuannuan appeared in front of everyone.

Everyone's eyes lit up when they saw Nangong Nuannuan.

That was because Nangong Nuannuan was wearing a white high-collared cheongsam with peonies embroidered in silver.

The cheongsam wrapped Nangong Nuannuan's figure very well, and Nangong Nuannuan had also changed her usual simple, convenient, and lovely bun. She had combed her hair into a fluffy flower braid that hung lazily on her left shoulder.

On the other side of her head, a few strands of hair drooped down because her hair was more fluffy.

She was wearing the latest white agate crystal earrings made by brand F. Although she was dressed in white, it highlighted Nangong Nuannuan's extreme beauty.

When everyone saw Nangong Nuannuan's aggressive beauty, they were stunned for a long time before they started to say that she was pretty.

"Nuannuan, it's already half past five. Why did you come out so late? are we going to be late?" Gu Xiaoli was a little worried.

"It's fine. The heavyweight stars always appear last. Have you ever seen a big star walk the red carpet and be the first to appear? It's just the right time for us to go over." Nangong Nuannuan said.

"Really?" Wei Yan also asked worriedly.

"It's true. It's like this every time, believe me. After all, Silvia is the Vice President." Nangong Nuannuan continued to bluff.

However, the truth was that Sylvia had been asking her to arrive earlier. She said that many reporters had already arrived and were interviewing Shi Yalin.

Shi Yalin arrived at two O'clock in the afternoon. Almost all the pharmaceutical companies, hospital leaders, big shots in scientific research, and big shots who wanted to get involved in the industry had surrounded her.

Many people had signed contracts with her in private, and the reporters had also bragged about her.

So, she had originally planned to leave at four o'clock.

However,

After two O'clock, brother chiyang's video call came. She had already changed her clothes, but the director of the vinegar factory asked her to take off her clothes and change into a new one.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3124**

3124 Transportation helicopter (4)

According to his words, the V-neck of the dress was already below the chest.

In fact, Nangong Nuannuan had already felt bad when she saw the video call during the styling process.

In the end, as expected, that gown was said to be too V-shaped. Nangong Nuannuan was too lazy to choose. She knew how he was, so she pointed the HD camera at her closet and let him choose.

Hence, her brother chiyang chose a gray gown.

She told him repeatedly that she would have to choose new shoes after changing into the dress, and there would be a video.

That person had clearly promised her that he would look at it carefully, and she had also re-selected her accessories and changed her shoes. In the end, less than five seconds after she walked out, that stinky factory director asked her to change again.

She said that the dress was too tight and was indecent.

After that, he felt that some were sexual, some were lacking, and some were indecent.

Nangong Nuannuan felt that she had changed into at least 15 sets of clothes in the past two hours.

She even had the urge to skip the banquet.

It was too troublesome and tiring.

In the end, her time was completely wasted. Chi Dacai finally reluctantly let Nangong Nuan wear this white cheongsam out of the factory.

The cheongsam was a high-collared one, and the skirt ended at the knee. It could be said to be quite conservative.

However, Chi Yang still felt that a white qipao should be a symbol of holiness. However, this qipao used this holiness to embellish a desire to hide.

Nangong Nuannuan looked at his random comments and really wanted to edit the video and send it to all the major businesses so that they could ban him.

If a cheongsam doesn't show off the figure, then it's called a cheongsam?

Moreover, these dresses were tailored according to her figure, so it was just right to have one more or one less. He said that other designers were trying to cover up?

She was convinced!

Therefore, because of the factory manager's actions, she and her team were late.

It would take more than half an hour to drive there from here. It was after work in the afternoon, so there would definitely be a traffic jam on the road, so it would take more than an hour to get there.

In the end, Nangong Nuannuan decided to fly over.

After all, she already had more than 30 missed calls on her phone.

[ let's go. We'll take the helicopter. ]

Nangong Nuannuan replied to President Devin and Sylvia's messages respectively before she led the group to the tarmac.

"Ah? Take the helicopter?"

"Nuannuan, isn't that too high-profile?"

Wei Yan and Wu Lingyun looked at Nangong Nuannuan. Although Yingying was in the limelight, wasn't she being too much of a showoff?

"The hotel is only half an hour's drive away from the villa." Wu Zhi also said weakly.

Looking at everyone's evening gowns and then at the helicopter, Nangong Nuannuan also felt that this was a serious suspicion of installing pens.

But there was no other way. The banquet started at six O'clock sharp. She could not be late.

Therefore, Nangong Nuannuan waved her hand and said boldly, " "We're going to pretend to be a face-smacking party tonight, so we should have the air of the finale. Let's go."

After that, he took the lead and landed on the plane.

Most of the guests at the dinner party had arrived. All the project teams participating in the review were present, except for Nangong Nuannuan's team.

Shi Yalin had already become the most popular person in this event. She had become the focus of the world.

In the beginning, many people were not interested in the world Medical research Conference and did not pay attention to it.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3125**

3125 The name of the medical Association (5)

After the major newspapers, magazines, and online media reported the success of the genetic repair research, this issue related to the vital interests of mankind immediately attracted the attention of almost the entire world.

Everyone still remembered that genetic repair was something that people had been thinking about ever since they discovered genes. It was an academic field that was still in their imagination.

Today, someone had finally succeeded in their research. Not only did this bring unparalleled benefits to the Shang family, but it also opened a new path for Human Genetic Research, making an incalculable contribution to the sustainable development of mankind.

Therefore, after hearing from the news that the success of the genetic repair research might cure cancer, many people paid attention to it and hoped that this was true.

As a result, at tonight's banquet, the official recognition had become the topic of most attention.

Many entertainment websites even started voting to get more traffic. He wanted everyone to guess if the genetic experiment this time was real or fake. There was even a lottery.

Countless cameras were focused on the official press conference.

Countless reporters were fighting to take photos of Shi Yalin.

miss Shi, I've heard that miss Sunny's research project is also to promote skin regeneration by improving genes. Has her project been approved? "

Shi Yalin was wearing a sexy mermaid-tail blue evening dress. She looked very beautiful, with the freshness of a young woman and the unique charm and capability of Shi Yalin.

miss Nangong has always been a very powerful person. She also has the angel research Institute under her. There are all kinds of heavyweight experts and professors there, so I guess that even if her research is not successful, it is close to the mark.

so you're saying that miss Sunny asked for help from experts from the angel research Institute? " The reporter asked.

"Why?" Shi Yalin asked in return, "is this very surprising to you?" As you all know, the calculation of a gene involves thousands of complex equations. If you don't even have an assistant, do you think you need to complete such a complicated calculation by yourself? although i know that miss Sunny is a genius in the eyes of many of you, there's still a limit to how much of a genius you are, right?"

Shi Yalin cleverly responded to the reporters. Even if Nangong Nuannuan and the rest had also come up with a project, it was not her credit alone.

"Miss Shi, this project was submitted by the Research Institute of the medical Bureau University. As far as I know, three of the professors are the directors of the Research Institute. Why did this project become the medical Association's in the end? I heard that half of the medical Association is owned by the Shi family. Isn't this suspicious of taking over the country's assets and honor?"

Shi Yalin smiled and asked sharply, " "So, according to what you're saying, the professor from the medical Association doesn't deserve to have a name?"

Without waiting for the reporter to speak, Shi Yalin continued, " although this research project was proposed by professor lang from the Institute of Genetics of the medical University and was co-initiated by professor Wang qiren from the Institute of Neurology and professor li dan from the Institute of cells, the three professors encountered a lot of difficulties in the research process. Therefore, I mobilized a total of 32 professors from the Institute of Genetics, nerves, and cells to help. After countless failures, we finally managed to produce results for this huge and complicated research project. It can be said that this is the combined wisdom of three professors from the Research Institute and 32 professors from the medical Association."

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3126**

#### 3126 Sunny's appearance (2)

The cabin door opened, and Wu Zhi and Gu Xiaoli got off the plane first.

Everyone subconsciously took photos in the direction of the man. After all, this was a society dominated by men.

However, when Wu Zhi, he Zhi, and Wei Yan got off the plane, they suddenly heard the exclamations from the crowd. Those media reporters who were about to snap photos of their faces finally reacted and quickly took photos of the people who got off the other plane.

as soon as the camera turned, they saw that the security guards had already welcomed a woman in a white cheongsam. at first glance, she looked very good. However, because they were in the wrong position, they didn't manage to capture the woman's face.

It was not until the three women were tightly protected by the security guards that they realized that they had no more chances.

F \* ck, it's actually miss Sunny!

They had missed miss Sunny's appearance!

Nangong Nuannuan had already led her project team inside.

The media, who probably knew some inside information, only wanted to anger Nangong Nuannuan so that she could talk to her.

" miss Sunny, i heard that your research project is the same as miss shi's? "

miss Sunny, both of you are researching on the same project and both of you have produced results. Is there any cooperation? "

miss Sunny, I've long heard that the Nangong family and the Shi family are not on good terms. This time, both of you came up with a project at the same time, but you came up with it later than the Shi family. Does this mean that there is plagiarism in between? "

miss Sunny, I heard from the judges that miss Shi was the original writer. You plagiarized her work. Do you admit it? "

wei yan felt a lump in his throat when he heard this. he stood still and turned around, wanting to explain the situation, but he was stopped by nangong nuannuan.

Nangong Nuannuan smiled at the group of reporters. if you want to know the details, read the media reports inside.

After saying that, he left with the group of people.

Media:

Damn it!

Who didn't know that 90% of the media was controlled by disheng and NS?

You f \* cking ate the mine and river bed, ate the river bed and ate the land, ate the land and ate the military, ate the military and ate the real estate, ate the real estate and ate the hotel, ate the hotel and ate the tour, ate the tour and ate the medical treatment, ate the medical film and television, and ate the film and television, you even f \* cking didn't let the media off!

He was a vampire capitalist!

"you ate so much and you didn't even spit it out, you're going to die from overeating!"

There weren't enough people outside, and the media personnel who weren't invited were all angered to death by Nangong Nuannuan.

She was clearly just an 18-year-old girl, but she was living like a demon. He could even guess the thoughts of small figures like them.

Hearing the curses behind them, Wei Yan and the others felt their hearts being lifted.

They had to admit that Nangong Nuannuan was much better than them in terms of medical research, background, and social conduct.

“Miss Shi, you just said that the medical Association has sent 32 professors and three professors from the Chinese medical University to conduct research together, which means that there are 35 of you in total. We’ve all seen the calculations you showed us earlier. Although the calculations were extremely complicated, they were clearly calculations for the entire body. May I ask how the 35 of you split up the work?”

A reporter suddenly asked.

shi yalin glanced at the reporter and slanted her eyes at him. she smiled and said, “ you’re a reporter, not a doctor, and definitely not an expert or professor. Are you sure you can understand what I’m saying after I explain how they do the calculations? ”

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3127**

#### 3127 Instinct (3)

“please don’t be angry, miss shi. i don’t mean to doubt you. The project that your Medical Association has developed has attracted widespread attention from all over the world. So I’m just asking on behalf of the curious audience. If this involves medical secrets, you can also choose not to say it. ”

“There’s nothing I can’t say.” In order to be more convincing before Nangong Nuannuan’s project was exposed, Shi Yalin said, “ “Although this is a general calculation method, it’s just like making an outline. After everyone has thought clearly about what they need to do, they can divide the work and let everyone do some calculations first. Finally, everyone combined the calculations and compared the data from all sides. These were all done by the experts. As for how they calculated it, although I study medicine, I’m still a layman.”

“Miss Shi, you’re a complete layman when it comes to these things.”

Suddenly, a pleasant voice came from behind.

In fact, she had a feeling that there was a commotion behind her back when she was talking. After hearing the voice that she loathed so much, this feeling was confirmed.

Shi Yalin turned around and looked at the woman who was wearing a white cheongsam. Her figure was extremely gorgeous and her face was extremely beautiful. She was so beautiful that it made people want to tear off her skin and stick it on their face.

At this moment, everyone’s eyes were focused on her. Even the lighting crew had turned the lights on her for fear that no one could see the famous Big Boss of Saibo country.

The moment the lights focused on the originally low-key White cheongsam, peonies embroidered with silver silk appeared. On the peony, there was a butterfly embroidered with silver silk. As Nangong Nuannuan slowly walked in, the butterfly’s wings seemed to flap.

It was lively, fragrant, and dazzling.

An unremarkable gown had become the most beautiful scenery at this moment.

“crack crack crack crack crack”

The entire venue became extremely quiet. The only sound that could be heard was the sound of Nangong Nuannuan’s high heels clicking against the ground and the reporters clicking away on their cameras.

The sound of Nangong Nuannuan’s high heels hitting the ground was like a death knell for Shi Yalin. It rang with every step she took, as if her life had shortened.

Shi Yalin felt that it was very strange. In the past, she had not felt this way even when she was gentle. However, after she had possessed Shi Yalin’s body, every time Nangong Nuannuan appeared and she pretended to be weak, she would feel a shiver deep in her heart.

She blamed the shiver on the real Shi Yalin.

After all, Nangong Nuannuan had turned Shi Yalin into a vegetable out of extreme fear, and in the end, she had taken over her body.

this was probably shi yalin’s instinct.

As Nangong Nuannuan got closer and closer to her, Shi Yalin became more and more flustered. the expression on his face also became more and more stiff uncontrollably.

She hated the confident smile on Nangong Nuannuan’s face. Every time she saw the smile on her face, she had a feeling that things would not go well.

That was why she wanted to trample on him so badly.

This was a very good opportunity. Not only would he not arouse her suspicion, but he could also steal her results and anger her. He could also gain a lot of benefits from it.

He wanted the Shi family to quickly recover the 3 billion that they had lost.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3128**

3128 i plagiarized you?

However, looking at Nangong Nuan’s smile, Shi Yalin suddenly felt that Yingying might be a trap.

“Miss Shi, since you’re speaking up for your project, I would like to ask you a question. If you can’t calculate the answer for 2-6-9, how do you get the equation for 3-7-8? 3-9-6-11 How to get the answer? How do I calculate the equations that start with 4,5, and all the way to 9? you said that there were 35 of you calculating it separately at the same time. tell me, how did you calculate it?” Nangong Nuannuan asked with a smile.

Her beauty was already extremely aggressive, and the words she asked directly went against Shi Yalin without any small talk.

shi yalin's face turned white in an instant. the main point was that they were overseas and nangong nuannuan was the host.

Almost all of the reporters who had been on her side before now stood on her side when they saw Nangong Nuannuan. He was helping that b \* tch to question her. How did she calculate it?

"miss nangong, you've always been a good role model for me. it's because you're so talented that you can research a complicated medical project on your own. But I can't. I can only help. so, i really don't know how to answer you. However, Yingluo "

Shi Yalin looked at Nangong Nuannuan and said, " "i don't remember miss nangong and i having a joint research project. I only found out from the media that miss Nangong's research project is related to our research project. It's so strange. Why is miss Nangong so clear about our research project? she even knows the process and equations of our research like the back of her hand."

To put it bluntly, Shi Yalin was accusing Nangong Nuannuan of plagiarism.

Shi Yalin thought that she would be able to see the anger on Nangong Nuannuan's face. After all, anyone would be angry when they were robbed and accused of being a thief.

But there was none!

Nangong Nuannuan was still the person Shi Yalin hated the most.

Her smile was bright and beautiful. It was as if her smile could heal everything, but it also seemed to be able to destroy everything.

Nangong Nuannuan's thin lips parted slightly. that's right. Why do I know so much? " Shouldn't miss Shi be the one who knows the best?"

Shi Yalin saw that Nangong Nuannuan's expression did not change at all. She still looked determined to win. Based on her understanding of Nangong Nuannuan over the years, even though she still did not know why Nangong Nuannuan was so confident, she could already sense danger.

There's a trap in this!

Shi Yalin's expression was not too good. She was quickly thinking about how to deal with this situation.

However, before she could say anything, lang Zhen had already walked out from behind her and criticized Nangong Nuannuan, " "Nangong Nuannuan, I don't care how powerful your background is, but you're representing Kamino and the medical University. Our two projects are the key research projects of the medical Bureau. Are you going to pick on your own people in front of the whole world?"

Wang qiren also quickly said, " "From what you said just now, you're telling the whole world that we plagiarized you, right? Do you know how serious this accusation is for a student?"

Li Xiao also joined in. we're clearly researching two different projects. What do you mean by starting to stir up trouble as soon as you come in? " How dare you pick a fight like this? do you have any evidence to prove that our project plagiarized yours?"

## [My Sweet Physician Wife Calls The Shots](#)

### **Chapter 3129**

3129 The dog of the medical Association (5)

Nangong Nuannuan looked at the three professors. They had changed their humble and cautious attitude from before.

saibo was not kamino. in saibo, she was the king. did she need to show any respect to a bronze-ranked player?

nangong nuannuan sneered, 'where did this barking dog come from? shi yalin, this is a high-class place after all. if you bring your dogs in and let them bark without leashing them properly, you'll be thrown out at the least, and you might even be beaten to death on the spot for rabies.'

Lang Zhen:

Wang qiren:

li mo, "oh, oh."

After all, every time he had seen Nangong Nuannuan at the Research Institute, he had felt that her temper was not bad. Even though so many students had scolded her, she had still been able to endure it.

How could he call them dogs in front of the world's audience?

The three professors 'faces instantly turned red with anger!

Previously, he had thought that Shi Yalin was already despicable enough. However, compared to Nangong Nuannuan, Shi Yalin was really a person with a mouth that accumulated virtue.

"Nangong Nuannuan, don't you go too far! The three of us are the directors of the Research Institute. Don't you think that you're the one who's scolding others by insulting your teacher and professor in front of the media from all over the world?" Lang Zhen's face turned red as he berated.

However, Nangong Nuannuan was not angry at all. She said in surprise, "The director of the Research Institute? I thought you guys had already betrayed the medical department University and went to the medical Association to become Shi Yalin's lackeys. Ah, bureau chiefs, I'm really sorry. "So, you're still the professors of the medical administration University. This project was initiated by you, so it's still our medical administration University's project and not the medical Association's, right?"

The three professors 'faces turned even redder at Nangong Nuannuan's question.

this was because the research report was printed in the hospital of medical association, not the medical department university.

Shi Yalin smiled and said, "miss Nangong, although the three professors are from the medical administration University, I've explained just now that our project is very cumbersome and we're seriously short on researchers. So, I've invited another 32 professors from the medical Association who

are fourth-level and above to do the research together. now that the research was successful, the credit should go to the medical association. I filled in the form "Medical Association.""

did you sign the name of the medical University research Institute? "

"After all, there are 32 people from the medical Association, and they're the main force," Shi Yalin said with a smile.

nangong nuannuan looked at the three of them and smiled. so, these three people used the equipment of the Research Institute for several years to complete the research project of your Medical Association, and you still say they're not your dogs? "

"Nangong Nuannuan, show some respect!" Lang Zhen was so angry that he was about to have a brain hemorrhage.

"You want me to respect a dog?" Nangong Nuannuan's face was filled with disbelief.

Shi Yalin was also defeated by the anger of the three people. He had no combat power at all! If you were to take Nangong Nuannuan's words to heart, you would only be angered to death.

Shi Yalin continued to smile. miss Nangong, the three professors are the founders of this project. They are also professors of the Research Institute of the medical department University. As a student of the medical department University, shouldn't you be polite to them? "

Nangong Nuannuan was surprised,'so, miss Shi, you mean that the three dogs won't be going to the medical Association in the future? These three people will also be part of the Research Institute of the medical Bureau in the future? Miss Shi, there are so many media reporters here. Don't deny it, these three people are already part of your Medical Association! That would be too dishonest."

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3130**

##### 3130 Nangong's face-slapping (1)

Shi Yalin felt embarrassed. She did not expect that she was just secretly manipulating the issue of the ownership of the members. Even the medical department University had not found out about it, but she already knew.

Bitch!

so, miss Nangong, what you mean is that if the three of them are professors from the medical Association, then they are the dogs? "

" it seems that miss shi has admitted that these three people are actually professors in the medical association, even though they're in the name of the research institute. " Nangong Nuannuan did not answer her question.

however, lang zhen felt that he had lost all his face and angrily asked: "Miss Shi asked you a question, why didn't you answer? In your heart, are the professors of the medical Association dogs?"

Nangong Nuannuan instantly laughed. Facing lang Zhen's flushed face, she seemed to be at ease.

“Professor lang, let me remind you, who was the one who used his identity as a professor in the Research Institute of the medical University to teach me a lesson? You’re not even a professor at the medical Bureau University, yet you’re here to lecture me. I’m the chairman of disheng group, how can a clown like you criticize me? Then, how am I supposed to survive?”

“You’re ridiculing me!” Lang Zhen was furious, but he couldn’t find anything to criticize.

as a professor of the medical Association, you disobeyed Ms. Shi’s orders and came here to get angry at me. With all due respect, do you think you’re worthy? ”

“.....”

as Shi Yalin’s Lackey, I asked her to tie you up so that you wouldn’t bark. Is that wrong? ”

The reporters at the side were all under disheng, so they all echoed their boss ‘words.

Wei Yan and his group, who were standing behind Nangong Nuannuan, were about to speak. but in the end, he couldn’t even get a word in. Once again, they realized that they were no match for Nangong Nuannuan in terms of combat power.

“Miss Nangong, you’ve said it yourself. They’re not worthy of talking to you. I hope you don’t take this matter to heart. Although we’re not from the medical administration University’s research Institute, we’re still kamino. All of our efforts are for the sake of Kamino’s glory, so let’s not be calculative, okay?”

After saying that, Shi Yalin turned around and picked up two wine glasses from the back. She handed one to Nangong Nuannuan and said, ” “I wish that our projects can develop drugs successfully.”

Shi Yalin’s heart had been beating like a drum since the beginning. She had a feeling that Nangong Nuannuan was up to something that she did not know about, and that she might be in trouble. So at this moment, she didn’t want to start a battle. She just wanted to complete the mission and go home.

Seeing Nangong Nuannuan take the wine glass from her with a smile, Shi Yalin’s heart was half at ease.

When Nangong Nuannuan clinked glasses with her, Shi Yalin’s heart was finally at ease. She thought that Nangong Nuannuan had made her an enemy.

After all, Nangong Nuannuan had always given her enemies the basic respect they deserved, regardless of whether they were dead or not.

The clink of glasses meant that she admitted her defeat this time.

However, the moment they touched their glasses, Nangong Nuannuan said, ” “It’s me, not us.”

Then, while Shi Yalin was still in a daze, he finished the red wine by himself.

“Miss Nangong, what do you mean?”

Nangong Nuannuan gave a mysterious smile, but it made Shi Yalin and the people around her shiver.

“You’ll know what I mean later, miss Shi. After all, stealing was not a glorious thing. Stealing from my Yingluo will make you spit out even more things.”
