

Physician Wife 3151

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3151

3151 Backlash (2)

The Saibo police officer explained, "Miss Shi, if there's any misunderstanding, you can come to a settlement with the police station. If you can't, or if you feel that you have no problem, you can ask a team of lawyers to come over and help you. But from the information we've received so far, you're already involved in a serious contract fraud case. So, before your lawyer comes, or before the two sides reach a settlement, you can only come with us to the police station."

Shi Yalin:

There was a sense of anger in his heart.

"The three of them were the ones who stole the research data, not me." Once again, Shi Yalin had sold out the three of them.

"If you need anything, go find them." Shi Yalin was on the verge of a mental breakdown.

Because when she saw the police's stance, she already believed that she was really a contract fraud. If he really wanted her to pay five times the amount, then the Shi family would really face a huge financial crisis.

However, the Shi family was currently on the rise, and they needed money for public relations. Where would the Shi family find the money to pay for such a stupid thing she did?

But she couldn't go to jail!

Shi Yalin was really panicking now.

She was afraid of being caught at this juncture.

Lang Zhen and the other two didn't expect the police to come to their door. They thought that this matter would be over after they were fired.

After hearing that Shi Yalin had sold them to the police, the three of them were in deep trouble at the thought that they might have to spend the rest of their lives in prison.

"The three of them were involved in the theft, so we will naturally take them away for questioning. But Miss Shi, although you are not the main thief, you are the sponsor of this contract. The businesses that wanted to sue you had to sign a contract with you, not with the people around you. So, they were arrested for theft, and you were arrested for contract fraud. If you have any objections, you can call a lawyer. Now, you and these professors will come with us to the police station."

The moment Lang Zhen heard that they were really going to be caught, he was in a bad mood.

They didn't have Shi Yalin's background, so they didn't know if they would be able to come out after being caught. The medical department had already been betrayed by them, so they would definitely not

help them. Now that things had come to this, it was already a good thing that the medical Association didn't mess with them. They definitely wouldn't care about their lives.

Lang Zhen looked at the police officer who was walking towards him. He was about to say something when Li Xiao, who was standing beside him, completely collapsed.

"It's her! She was the one who told us to steal. She threatened our family and made us steal things. Why would we, the professors of the Research Institute of the medical University, help the medical Association? Why did he have to be her Lackey? It's all because she kidnapped our family!"

Lang Zhen's eyes lit up when he heard that.

That's right, why didn't he think that they could do this?

Not only could he push the main responsibility onto Shi Yalin, but he could also use the fact that Shi Yalin had threatened his family to return to the medical Bureau University?

lang zhen and wang qiren betrayed shi yalin almost immediately.

"Since we're going to jail and the police are here, we can be Frank. We didn't steal miss Nangong's project materials."

"Yes, not us. It was Shi Yalin who threatened our family, and we were forced to steal it. "

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3152

3152 Vomiting blood (3)

"Our family members are still in the hands of the medical Association. All of this was Shi Yalin's scheme. We are also victims!"

Shi Yalin didn't expect these old fogeys to disregard their family for her sake. He was really drunk.

She sneered at them with a disgusted expression. "Did you steal it yourself or did I force you to do it? you should know it clearly in your heart."

Then, Shi Yalin said to the police, " "I have a video of them stealing information on the Nangong Nuannuan project. As for what they said about me threatening them, it's just pure nonsense. They don't have any evidence."

Everyone present and the police were shocked by the dog-eat-dog scene. They didn't expect so many things to happen in between.

"We will work together with the Kamino police to solve the case. As for your family being threatened, we will also contact the police in your country. I won't go into the details here. Shi Yalin, lang Zhen, Wang qiren, li dan, Zhou Xianglin, please come with us to solve the contract fraud issue."

Since Nangong Nuan was present, Shi Yalin could not use force and could only leave with the police.

Shi maowen felt his stomach hurting more and more as he watched the situation in cyber nation take a turn for the worse. Finally, he could not hold it in any longer and spat out a large mouthful of blood.

the secretary was scared out of her wits.

He quickly ran to Shi maowen's side and was about to press on his heart from behind, but he saw Shi maowen holding his stomach.

He thought that Shi maowen was so angry that he was spitting blood, commonly known as the blood in his heart. However, he did not expect Shi maowen to vomit blood because of stomach pain.

This meant that Shi maowen's stomach bleeding was very serious.

Usually, because he was often busy with serious business, he didn't eat on time, and over time, he suffered from stomach problems. Stomach problems were very common among the chief governors of the Internal Affairs Bureau.

In order to achieve results, this group of prime ministers would often put their lives on the line. It caused many people to have stomach problems.

Among them, Shi maowen's stomach disease was the most severe.

Usually, he would only take the medicine from the medical Association, and he didn't pay much attention to it. It wasn't until he spat out blood that he realized the seriousness of the matter.

The Secretary immediately wanted to call the emergency number, but Shi maowen grabbed him and glared at him fiercely. "What are you doing?"

"Sir, I'll call the ambulance. Please take care of it."

"don't scream, are you crazy?" Shi maowen's body was convulsing in pain, and there was blood at the corner of his lips. His eyes were filled with madness.

He was determined to get the president's position, so how could he let the people pass on him just because of his health?

"Then I'll take you to the Shi family's Hospital as soon as possible," said the Secretary.

Shi maowen nodded. give my second brother a call and tell him to come to the hospital personally.

"yes."

At the banquet in Saibo country, Shi Yalin came in a dazzling and elegant manner and left in a sorry state.

The one who had the last laugh was Nangong Nuannuan.

Wei Yan and he Zhi were surrounded by the crowd, and everyone was congratulating them. As the main researchers of the research project, they were invited by countless media and pharmaceutical companies.

Nangong Nuannuan had become a hot figure who shocked the world.

After all, it was a Genetic Medicine. Although Nangong Nuannuan's research had only involved the reconstruction of genes to regrow skin, she had a way to reconstruct genes.

My Sweet Physician Wife Calls The Shots

Chapter 3153

3153 Big Boss (4)

She even had a way to make the genes look like two idiots, which was enough to show that Nangong Nuannuan had a very thorough grasp of the elements of genes.

This opened up a path for the project of treating cancer through genetic recombination.

The merchants who had signed the contract with Shi Yalin were confident that they would be able to get the money and would even pay an extra 500 million. They were now rich and generous, so they went to Nangong Nuannuan again.

However, Nangong Nuannuan declined everyone's offer to invest.

"Miss Sunny, this is a win-win situation."

"Yeah, if you don't like the money, we can add more."

"Our investment is just an affirmation and encouragement for your project. Just like the contract we signed with miss Shi, we won't get the money back after we invest. I just hope that miss Sunny will consider us first after the medicine is out and give us the agency rights."

The pharmacist felt that this was a matter of profit and no loss. He didn't understand why Nangong Nuannuan was so stubborn and refused to agree to it.

It was rare for Nangong Nuannuan to see Devin, and there were many medical things to talk about when they were together. As a result, when she was chatting with Devin, there were always merchants looking for her. Some of the merchants even surrounded her and listened to her and Devin.

Nangong Nuannuan was annoyed.

Nangong Nuannuan finally couldn't take it anymore and replied to those merchants who were not afraid of being taken advantage of, "There are a few main reasons for not accepting your capital injection. First, Shi Yalin's family may be short of money, but I'm not. So I don't need your capital injection. "Second, even though this is a project that I'm the one in charge of, it's the Research Institute of the medical Bureau University. Although I'm the chairman of disheng, I'm also a student of the University. After my project is completed, once the pharmaceutical side is successful, it's up to the University to decide which pharmaceutical companies to cooperate with. It has nothing to do with me. I'm just a researcher."

To put it bluntly, she, Nangong Nuannuan, could not make the decision for this project.

Although the medical Association that Shi Yalin was in belonged to the general Administration of warfare, it had long been the private property of the Shi family. After all, many of the professors in the medical Association were hired by the Shi family. The battle Bureau only had some shares.

However, Nangong Nuannuan's project was different. She had been helping the Research Institute of the medical Bureau.

“We understand that, sunny. However, your project is only to regrow the skin through genetic recombination. Since you already know so much about genes, won’t you continue to tackle the project of curing cancer through genes?”

that’s right, miss Sunny. If you’re working on this project, can you give us the drug agency rights for this project? ”

The pharmacist still didn’t give up.

Nangong Nuannuan smiled. I’m sorry. If I’m in the mood, I’d like to continue my research. First of all, my angel research Institute is not short of money. We don’t need external funding. Second, once the research was complete, Angel pharmaceutical would definitely be the sole seller. Disheng has hospitals and exclusive pharmacies in various countries, so we will sell this medicine at Angel pharmaceuticals, which is under disheng. This way, we can also prevent the appearance of fake medicine.”

As everyone knew, although Angel pharmaceutical’s was simple, its three-dimensional or even four-dimensional label was too difficult to make.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3154

3154 Nuan Nuan, I love you (1)

Furthermore, every brand and medicine of Angel pharmaceutical had their own QR code. In the past, there were merchants who criticized Angel pharmaceutical for selling fake medicine for the sake of Black Angel pharmaceutical. In the end, they were ruthlessly slapped in the face. This was because Angel pharmaceutical had a strict factory and sales process for each box of medicine, and they could be traced back to the source. Those customers who sold fake medicine in the name of Black Angel pharmaceuticals couldn’t get away with it at all.

As time passed, everyone stopped criticizing them.

Over time, the fact that Angel pharmaceutical’s medicine was authentic and guaranteed to be effective became known all over the world.

Nangong Nuannuan’s words disappointed all the pharmacies and made them give up on the idea of being agents.

It’s really awkward.

Di Shi was really too rich. He was so rich that he didn’t need any capital injection or delay.

If they were so rich and capable, they wouldn’t have built relationships with pharmaceutical companies from other countries.

They could face the market directly, so there was no need to let the agents take a share of the money.

The pharmacists had no choice but to disperse.

Nangong Nuannuan was talking to President Devin when there was a huge commotion at the door. Many people ran outside to see what was going on.

Even the cameramen under disheng ran out.

Nangong Nuannuan looked at Devin and Sylvia, but the two of them looked confused.

“Come, let’s go out and take a look.”

As Devin’s old friend, Nangong Nuannuan felt that if anything happened outside, she was obliged to help.

Nangong Nuannuan’s expression changed after she saw the situation outside. She left Devin and Sylvia behind and ran outside.

Devin and Silvia felt the seriousness of the matter and quickly followed Nangong Nuannuan out.

The rest of the guests also ran out to see what was going on.

When Nangong Nuannuan ran outside, many people looked at her with envious and amazed eyes.

Nangong Nuannuan, on the other hand, widened her watery eyes and looked at the sky in shock and surprise.

In the air, thousands of small drones were in a heart-piercing formation.

The drone’s light was red, and Nangong Nuannuan felt as if the entire sky had turned into a heart.

Soon, the drone began to change its shape again. This time, it changed into words-

[Nuan Nuan, I love you]

[marry me, please.]

After that, thousands of drones drew a picture of a boy holding a girl’s hand in the air. however, the light of the drone that formed the boy turned green.

after that, the drone continued to change the image. the boy was lying down, and the girl was standing beside him. her long hair was flowing, and she was holding a box in her hand.

Nangong Nuannuan knew that it was the scene when she had proposed to brother chiyang when he had woken up.

The drone changed many images that only she and Chi Yang could understand. She just looked at the sky with a smile on her face.

A helicopter was hovering in the sky. Then, the drones surrounded the helicopter and formed a heart shape with the helicopter in the center.

The cabin door opened, and a strong and tall figure slowly descended with a soft ladder in one hand and a velvet box in the other.

Nangong Nuannuan had never thought that Chi Yang would come to Saibo country with such a big fanfare, and to propose to her.

In front of countless cameras, Chi Yang’s face was solemn and his expression solemn. He took steady steps as he walked toward Nangong Nuannuan.

My Sweet Physician Wife Calls The Shots

Chapter 3155

3155 You have to have what others have (2)

Today, he was wearing a black suit. The exquisite tailoring and handwork made his figure look extremely tall and straight, like an unattainable iceberg that only showed a touch of tenderness to the person in his eyes.

Chi Yang walked to Nangong Nuannuan's side and stood on a step lower than her. He knelt in front of her and looked into her eyes, saying, "I wanted to propose to you during the earthquake, but it just so happened that it happened. I left before you arrived. After that, I got injured and before I could propose to you, you proposed to me. So today, I want to do something that every man would think of heaven and hell when they do it. Even though I know that I will be given a whole piece of heaven, I still want to tell you: nuannuan, i love you. for the rest of my life, i'll definitely spend every day with you. When you're old, I'll still love you as I do now. are you willing to marry me?"

Usually, when a man was proposed to, the woman would be surprised and cry. Nangong Nuannuan blinked her eyes for a long time, thinking that she should cry for the occasion. However, after blinking a few times, she realized that other than wanting to laugh, she had no intention of crying at all.

Although the drone's proposal scene was beautiful, Yingying was also inexplicably old-fashioned.

He didn't even need to guess to know that this method was either thought of by big brother chiyang himself, or after he thought of it, his brothers were in full support of it, so he came up with such a formation.

Fortunately, he was from a rich family and the Commander-in-Chief of Flying Eagle. In the end, he finally proposed to her, but it made him feel like a nouveau riche.

Nangong Nuannuan's smile was filled with stars. She looked at The Man in the Black Suit, who was kneeling on one knee and looking at her with a sincere expression. He was so handsome.

"Aren't we already husband and wife? Why are you still proposing?"

Nangong Nuannuan had never expected that brother chiyang would suddenly propose to her.

However, Chi Yang did not agree with Nangong Nuannuan's words.

"Back then, when I was still lying on the bed, I couldn't move. You were the one who proposed to me. the marriage certificate was also done by you when i was unable to move. Although I have a thousand, ten thousand intentions, you're the woman who's going to spend the rest of my life with me. I hope that you can go through the process that other brides go through. The happiness that others could obtain at this moment, you could also obtain it. Nuannuan, I'll protect you for the rest of my life. Are you willing to let me protect you and love you forever?"

Although Chi Yang's proposal was very old-fashioned, his words had truly touched Nangong Nuannuan.

She thought of her previous life, where he had protected her under his body and helped her take so many bullets. His body had turned into a sieve, and he was covered in blood. The blood had dripped on her body drop by drop, soaking her clothes.

She asked him, why did he save her? He knew that she didn't love him at all, so why did he still save her?

After asking this, she regretted it.

He regretted it so much.

At the last moment of her life, she should tell him that she actually loved him too. She did not know when she had fallen in love with him.

If there were no feelings at all, even if he had used force back then, he would definitely not have been able to make her submit. And she didn't choose to marry him to spite Zhong Qianqian.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3156

3156 A happy life (3)

She had chosen to marry him because he had some kind of magic.

It was a kind of magic that she could not resist.

It was not until the moment of her death that she realized that this magic was love.

She couldn't bear to see him die.

However, even if she was reluctant to do so, even if she saw his body turn into a sieve, she still said something that he didn't like to hear.

But how did he respond to her?

She remembered that his eyes were very warm and doting. he said,
you are my wife. It is my responsibility to protect you.

After that, he stretched out his bloodied hand and wanted to touch her face. However, when he saw his own blood-stained hand, he regretfully did not touch her face. Instead, he stroked her hair affectionately and muttered, " I'm sorry I didn't protect you well. Until there was no longer any light in his eyes.

a teardrop fell and landed on chi yang's opened velvet box.

It wasn't a wedding ring on the box, but a necklace that had been bought by a mysterious guest at a top jewelry auction in cyber country at a staggering price.

This necklace was known as the mermaid's tear. There was a blue meteorite on the pendant. Because the chemical elements in the necklace had no practical value and the chemical elements on the necklace were harmless to the human body, it was bought by a jeweller with a big background and made into a pendant.

And the heart-shaking blue color on the pendant was the central part of the meteorite.

The jeweler gave the gem a beautiful name, Mermaid's Tears.

They all knew that the tears of the mermaids were very precious. Whoever made the mermaids cry would also receive the mermaid's blessing and live a happy life.

Therefore, the meaning of this mermaid's Tear Necklace was called a happy life.

Nangong Nuan Nuan's tears fell on the mermaid's tear. Chi Yang looked at the even more resplendent stone and then at his wife. Even though he knew that she was crying because of happiness, his heart still ached when he saw her cry.

Although his heart ached, Chi Yang's words were filled with happiness.

"It's said that if a tear falls on this mermaid's tear and combines with it, not only will she be happy for the rest of her life, but the person she loves will also be happy for the rest of her life. Wife, thank you for giving me happiness."

Chi Yang's words made Nangong Nuannuan laugh.

The more tragic it had been, the more blissful it was now.

In this life, he had to start over. Although many other things had happened due to the butterfly effect, it was fortunate that everything was under their control.

Although there would still be many difficulties in the future, she believed that with the two of them working together, all the difficulties would be solved.

nangong nuannuan nodded. "yes, you'll be very happy. Because I'll also love you for a lifetime."

Listening to his wife's domineering yet coy voice, Chi Yang felt like his heart was about to melt.

He nodded. then I'll entrust my life to you. Are you willing to give your life to me?"

"Yes." Nangong Nuannuan nodded and bent down to help Chi Yang up. Chi Yang also stood up and happily placed the mermaid's tear on Nangong Nuannuan's body.

"I'm your wife from now on." Nangong Nuannuan said happily as she looked at the necklace around her neck.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3157

3157 My husband and I are the best match (4)

"You've been my wife for a long time,"

Nangong Nuannuan couldn't stop smiling. "She's already your wife, why are you still proposing? It's just a formality!"

"Right!" Chi Yang nodded in agreement.

"I'm just here to go through the formalities. you should have everything that other girls have. You should have what they don't have."

This was because the girl in front of him was the only one in so many years who had made him fall in love at first sight. She was the only girl in so many years who could make him give his heart to her. She was the only girl in so many years that he would love at the risk of his life.

He had never dared to imagine this feeling before he met her. However, the moment he encountered it, he knew.

Even if he was like a moth flying into the fire, he must obtain eternal life in the fire.

" congratulations, Sunny. "

President Devin walked to Nangong Nuannuan's side, his eyes full of smiles and blessings.

Nangong Nuannuan smiled at Chi Yang and said, " "Brother chiyang, this is the president of the world Medical research Association, Mr. Devin."

"Mr. Devin, this is my husband, Chi Yang," he introduced.

Chi Yang stretched out his hand and shook Devin's hand, saying,"Mr. Devin, I've heard a lot about you. Nice to meet you."

Devin was like an elder, holding Chi Yang's hand and looking at it for a long time before saying, " "Previously, Sunny told me that she went to the medical department University to get a diploma. I said that I could use my connections to get her the most prestigious Ph.D. In cyber country, but she didn't agree. She said that she only wanted a degree from the medical University because she could be by your side after she graduates."

Listening to Devin's words, Chi Yang's heart felt warm. He knew why his wife wanted to study at Shu Medical University, but hearing it from someone else's mouth still made him feel good.

This meant that his Nuannuan would introduce him to the people around her.

"I've read about you in the news before, and I think that you have a good eye." However, after seeing you in person, I finally understand why Sony left such a huge business empire and insisted on getting a diploma from the medical University."

After saying that, Devin looked at Nangong Nuannuan and said, " "Sunny, you have good taste."

Nangong Nuannuan's smile was not humble at all. "That's right! My husband is the best match for me in this world."

After saying that, she even held Chi Yang's arm affectionately.

Because Shi Yalin had just been taken away, the popularity of the live broadcast had not completely dissipated, and Chi Yang had already done this.

This caught the people who were originally watching the show on the internet off guard and forced their mouths to be stuffed with dog food.

These two people's proposal in the ward had already made their hearts feel stifled. They were extremely envious of this touching love.

Now that Chi Yang had recovered and could walk, he immediately came to Saibo to propose to Nangong Nuannuan. One of them was young and handsome, while the other was stunningly beautiful and talented.

The two of them were really trampling on the happiness of the world's people.

Looking at the unattainable happiness between the two of them, which could be felt even through the screen, those who were already in a relationship or married were slightly better. Those who were especially miserable were single dogs, who were so envious that they were about to gnaw on the sheets.

"Chi Yang, I saw on the news that you were seriously injured. How are your injuries now?"

"It's a good thing I have Nuannuan, so I'm fine now," Chi Yang smiled.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3158

3158 Stupid (1)

Even though Nangong Nuannuan was also smiling, there was still a look of disapproval in her eyes as she looked at Chi Yang. This kind of expression was so obscure that it was almost impossible to see, and only those who understood could understand.

For example, Feng Kun.

He had asked Feng shengxuan why he hadn't done anything yet, but Feng shengxuan had only replied with a few words and ignored his question.

He knew about Feng shengxuan. He was the same as his father, the self-righteous type. He liked to fight head-on with people.

Therefore, even though he had many opportunities to make a move, he did not. Judging from Nangong Nuannuan's expression, Chi Yang had not fully recovered.

It was no wonder that Feng shengxuan didn't make a move.

"Really stupid!"

Feng Luan looked at Chi Yang. If he could do anything, he would have killed him with a single palm strike.

Nangong Nuannuan had always had a cold and aloof image outside, but ever since Chi Yang had joined, her image had changed.

She was like a soft and cute rabbit as she followed Chi Yang.

after chi yang entered the banquet hall, because he was unable to get involved in the medical field and had no common topics to talk about with the others, nangong nuannuan arranged for him to have some food at the side.

Who knew that Chi Yang would go to all kinds of food sections and specially pick out what his wife liked to eat. When his wife was done talking to others, he would give her some food.

The food that Nangong Nuannuan would not even touch at the banquet seemed to have become delicious under Chi Yang's feeding. Nangong Nuannuan ate like a hamster under her husband's feeding, and her mouth never stopped.

After that, if she didn't finish it, such as a biscuit or a cake, Chi Yang would help his wife finish the rest.

In fact, Nangong Nuannuan's fierce reputation had spread far and wide, and no one at the banquet had dared to have any ideas about her. However, after seeing Nangong Nuannuan, who had instantly become soft and cute under Chi Yang's company, there were still some young sons of pharmacies who could not help but run over to seduce her.

However, with Chi Yang, the Commander-in-Chief of the Eagle Troop, no one dared to have any more ideas about Nangong Nuannuan after being glared at.

Nangong Nuannuan introduced Chi Yang to her colleagues from the project team. Even though Chi Yang had seen them before in an opaque car, this was the first time they had actually met.

This research was not an easy task, even for Nuan Nuan. She needed a large amount of medical knowledge from the two professors.

Therefore, Chi Yang's attitude towards these members was very good.

Even towards Wu Zhi and Gu Xiaoli, Chi Yang's attitude was very good.

Wu Zhi never thought that he would be able to see Chi Yang. He was so excited that even his voice trembled.

"I didn't expect you to worship prostitutes so much."

Because Wu Zhi and Zhang Fang had always been together before, she didn't have much feelings for Wu Zhi, who had never made any mistakes. At least, she had never thought about understanding him. As long as he wasn't as ambitious as Zhang Fang, completing this project with her would be the best support for him in the future.

Now, seeing Wu Zhi's eyes filled with adoration, her impression of him changed.

Wu Zhi looked at Nangong Nuannuan and nodded. my grandfather and my father were both members of the Eagle Special Forces. Unfortunately, my health wasn't very good when I was young, so I went to the Eagle Special Forces to take the physical test twice and failed. After that, I turned to medicine.

Nangong Nuannuan was stunned. Chi Yang asked, "Your surname is Wu, your grandfather's name is Wu Wen, and your father's name is Wu Qing?"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3159

3159 Wu Zhi's identity (2)

"You know?"

There was nothing more exciting than the Flying Eagle Commander-in-Chief remembering his family's names.

When Wu Zhi answered yes, he seemed very excited.

Chi Yang was originally a very serious person, but the moment he heard Wu Zhi say " yes, " his eyes softened a lot, and even his body straightened up in the next moment.

"Your grandfather was sacrificed in the Raider's camp. when your grandfather passed away, your father was only nine years old. "When he was 17, he passed the physical test and joined Eagle. He became a member of Eagle, but five years ago, he injured his leg in a battle with the team, and he retired."

Wu Zhi didn't think that Chi Yang, as the Flying Eagle's chief commander, could still remember his grandfather and father's matters even though he was forced to receive so much information every day. He even knew when they were sacrificed, when they were injured, and where they were injured. In an instant, Wu Zhi felt his eyes sting.

He quickly blinked his eyes a few times and his lips moved. After thinking for a long time, he said, " "My father is now working at the Shengyang group. I just found out that the chairman of Shengyang group is your uncle."

"Even if you're retired, we won't ignore you," Chi Yang smiled.

he was asking how his father could still find such a good job with such a high salary when he was already disabled. He didn't expect that this was a special treatment for the Eagle Special Forces.

"Thank you, Commander-in-Chief Chi." Wu Zhi expressed his gratitude from the bottom of his heart.

Chi Yang's body was still standing straight as he said,"It should be me and Fei Ying thanking your grandfather and your father for their help."

This topic was a little heavy. Nangong Nuannuan asked the waiter to bring a few drinks and said, " "So you're all on the same side. Come, let's drink with water instead of wine."

Nangong Nuannuan, who had originally planned not to bring Wu Zhifei along after this project ended, decided that she would always bring him along.

Wu Zhi also didn't expect that he just purely admired Chi Yang. After seeing him, he couldn't help but want to say hello. This action opened a door to a new world for his future.

While Nangong Nuannuan and her team were happy, Shi Yalin and her team were not as beautiful in the police station.

After Shi Yalin and her group entered the police station, the lawyers of the pharmaceutical companies took out Shi Yalin's fraud contract and attached their own charges, ready to Sue.

On the other hand, Shi Yalin's lawyer only arrived three hours later.

Shi Yalin did not even think of calling a lawyer for this trip to cyber nation. Since she was sent to the police station at the last minute, she couldn't ask Feng Kun to help her. After all, this was Saibo country, Nangong Nuannuan's nest. If she moved, Nangong Nuannuan would easily notice and ruin the big plan.

Hence, Shi Yalin had no way of contacting Feng Kun. The Shi family had seen Shi Yalin's performance in Saibo country and was furious. However, Shi Yalin was too important to the Shi family and they could not let her go to jail at this time. Therefore, they had to help her find a famous local lawyer.

However,

No matter how famous the lawyer was, many people were unwilling to do so when they heard that it was about Shi Yalin.

After all, Nangong Nuannuan wasn't someone that anyone would dare to offend. If he became Shi Yalin's lawyer, he would easily offend Nangong Nuannuan. Therefore, as long as he was not particularly short of money, he would not be Shi Yalin's lawyer.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3160

3160 Mercenaries (3)

This led to the Shi family taking action immediately. However, by the time the lawyer agreed, it was already more than two hours later.

When Shi Yalin saw the lawyer, she immediately became angry and started scolding the lawyer.

In the end, the lawyer threatened to charge more fees for every insult.

After all, although this lawyer was a great lawyer, he was really in need of money recently. To be able to act as Shi Yalin's agent, he must have been really poor.

Shi Yalin also knew that there was no point in scolding him, so she explained everything to the lawyer.

However, the lawyer told Shi Yalin a very troublesome problem after listening to it. The contract was indeed invalid. In addition, Shi Yalin had asked someone to transfer the money, and the medical Association had accepted it. This was clearly a fraud.

This was a case that even a first-year law student would be able to distinguish.

Therefore, the lawyer didn't waste any time and told Shi Yalin a few things. first, shi yalin had personally admitted to stealing nangong nuannuan's research project. If she still refused to admit it, the contract fraud incident would not be as solid as it seemed. However, once it was confirmed by her, it was 100% related to contract fraud. Second, her contract was filled with unfair terms. With the addition of theft, it was an invalid contract of a bad nature. Third, the pharmacist had offered 10 times the compensation. The amount of compensation was negotiable. However, the exact amount of compensation would depend on the outcome of the discussion.

"10 times?" Shi Yalin's eyes widened in anger.

She had accepted a total of 2 billion, so 10 times the compensation would cost 20 billion? Wouldn't this directly damage the foundation of the Shi family?

Shi Yalin was so angry that she slammed her fist on the table.

The table was made of plastic and could not withstand being smashed. After being smashed by her, it actually cracked. The lawyer, who was originally planning to backstab him, instantly panicked.

“Go and negotiate for me. I will only accept the money they transferred to me. I will not accept anything else. If you don’t do well, you won’t be able to accept the consequences. Get lost! Next time, don’t talk to me in that high and mighty tone.”

The lawyer had never seen such a shameless and cruel woman. She actually yelled at him?

As a lawyer from Saibo, he was not afraid of the death stare from Kamino.

However, the lawyer clearly did not have a clear understanding of Shi Yalin.

when he got home, he found that his entire family had been kidnapped, and the other party had only left him a video. In the video, he was asked to do his best to help Shi Yalin. Whatever the other party asked, he would do.

If he didn’t do it well, he wouldn’t be able to see his wife and children in this life.

The reason why the lawyer was so short of money was that he had just bought a house and renovated it, but then his son was seriously ill and needed money.

his wife and son were kidnapped, and from the shape of the kidnappers, it was obvious that they were the group of people he did not want to be involved with in his life-mercenaries.

The lawyer was filled with regret.

In order to save his wife and child, he had no choice but to go to each house to discuss the medicine.

Later, he realized that things were not as difficult as he had thought.

these pharmacologists probably experienced the same thing as him. soon, they reached an agreement with more than a dozen pharmacologists that they didn’t even need to refund the money.
