Chapter 3161

3161 Returning with an honor (4)

However, by this time, Nangong Nuannuan had already returned with a great reputation.

Qin Muyang gave Nangong Nuannuan and her colleagues the highest level of welcome and celebration.

Wei Yan used to be an ordinary third-level professor at the Cancer Research Institute because the director of the Institute was a fifth-level professor.

When he found out that Wei Yan had given up on his research lab and went to follow Nangong Nuannuan after finally getting his own research lab, he wasn't the only one who looked down on him. Many other professors at the Cancer Research Institute looked down on him. It was bad enough that she thought he had taken in the daughters of the Xiao and Wu families as his apprentices, but now he had gone to Nangong Nuannuan. Although Nangong Nuannuan was the chairman of disheng and had the angel research Institute under her, she was still a first-year student. No matter how amazing she was, what kind of research could she come up with?

Furthermore, Nangong Nuannuan had chosen a beauty research Institute. The Institute of beauty was the lowest-ranked Institute among all the research institutes. After all, he was a third-grade professor, yet he went to research something that a first-grade professor was researching. That was why they looked down on Wei Yan. They felt that he was just a bootlicker who wanted to hug the thighs of these two young ladies.

However, the project that Nangong Nuannuan was in charge of had entered the shortlisted list.

At first, they had been very curious. However, when the school started to spread the rumor that the world Medical research Association had a good relationship with the angel research Institute, they felt that Nangong Nuannuan must have been able to pass through the rounds of screening because of her good relationship with the research Association.

It was only when Nangong Nuannuan's project was announced that they were shocked to find out that Nangong Nuannuan's research was to regrow skin through genetic recombination, nerve reconstruction, and cell regeneration.

This was a research project that crossed four subjects.

Medicine was just a general term. In the kingdom of medicine, different professions were like mountains.

However, Nangong Nuannuan had actually researched four projects by herself!

That was why they were shocked and felt that it was impossible!

in addition, he later found out that shi yalin and the others were also researching a similar project. after going to cyber country, shi yalin and the others first exposed their research project and attracted the attention of the world. Now, even more people in the school were criticizing Nangong Nuannuan.

Although Lang Zhen and the other two betrayed the medical department University, Shi Yalin went overboard and directly put the honor of the medical department University under the name of the medical Association.

But everyone could understand this. After all, over the years, the medical association had been trying to poach people from the medical department university to the medical association. Even the medical department University's research Institute was divided into two factions. One faction supported the medical department University, while the other faction wanted to merge the Research Institute and the medical Association. After all, the medical association paid more money.

Therefore, no one thought much of Shi Yalin's matter. After all, Shi Yalin was the daughter of the Shi family. She would definitely think about the medical Association.

However, Nangong Nuannuan was different.

She was the chairman of Disheng and the person in charge of the angel research Institute.

Shi Yalin had even shared this project with the medical Association and had come up with the results of the research. She, on the other hand, didn't know how to make use of the resources she had. There were so many Level 5 and even Level 6 professors in the angel research Institute, but she didn't find a single one.

If she did, and this project was from the medical department University, how much honor would the medical department University receive?

Now that all the glory had been snatched away by the medical Association, none of the research projects that the medical administration University had worked so hard on could come out.

(I'm ready to start the end of the text.)

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3162

3162 Encouraging (1)

Nangong Nuannuan didn't know that back when she was in SIBO country, before she had revealed her research project, almost everyone in the medical department University had treated her as an enemy.

Nangong Nuannuan had always been a humble and humble person. She was envious and jealous of Nangong Nuannuan, so her classmates who often gossiped about her behind her back began to scold Nangong Nuannuan after they found out that Shi Yalin's research was a success, especially in the name of the medical association.

However, all the abuse came to an abrupt end during the live broadcast that night.

It was too awesome! How domineering!

Previously, they had always thought that Shi Yalin was more domineering. After all, Shi Yalin often appeared in school. Her high and mighty appearance made them think that Shi Yalin was more powerful than Nangong Nuannuan.

In the end, after watching Nangong Nuannuan's face-smacking live stream and how all the big shots in SIBO country had knelt and begged Nangong Nuannuan to suck up to them, everyone realized that Nangong Nuannuan was truly the kind of person who stood at the top of the world.

The reason why she didn't argue with them or refute their comments before was that Wanwan and the others were nothing in her eyes. She didn't even bother to refute them.

He thought about the commotion Nangong Nuannuan had caused when she first entered the school and then looked at her return with a good reputation. The whole world was in shock and surprise because of her research.

Everyone finally understood what it meant by "the sound of water can not be heard, and the boiling of water can not be heard."

Nangong Nuannuan had brought Wei Yan, he Zhi, Wu Lingyun, Wu Zhi, and Gu Xiaoli back.

These five people who followed Nangong Nuannuan would also be forever remembered by the Institute of Medical Science.

This project had also attracted the attention of the entire world.

The Research Institute of the medical administration University, which was already lacking in research funding, suddenly received a large amount of research funding from the Internal Affairs Bureau. The Internal Affairs Bureau even told them to research a medicine as soon as possible and money wasn't a problem.

Research institutes, hospitals, and pharmaceutical companies all over the world also began to deal with the medical administration University, hoping to invest in joint research and development.

The hospital of Medical Association's funds instantly went from a shortage to a full one.

The business situation instantly improved from the root.

Since they were going to present the award to Nangong Nuannuan and her friends, Qin MUYANG wanted Nangong Nuannuan to give a lecture. After all, she was now a popular person in the medical department.

however, nangong nuannuan glanced at qin muyang and asked, "can they understand the project content I'm talking about?"

"They definitely won't understand what you're doing," said Qin MUYANG with a smile. "But you can pick some general ones and explain them in simple terms. The theory, understand? It'll be fine as long as we can stimulate their enthusiasm."

However, Nangong Nuannuan was silent for a few seconds before saying, "if xiao li can explain this so clearly, then what she said is even more appropriate. Let Xiaoli do it."

"Then why don't you give them some encouragement? encouraging them to study medicine? Your encouragement will be very useful to them."

Nangong Nuannuan looked at Qin MUYANG with anticipation.

When she thought about her father's relationship with old man Chi and old man Nangong, Nangong Nuannuan, who would have rejected such a request without even thinking about it, finally agreed after some internal struggle when she saw Qin MUYANG's eager gaze.

"There's no need for a lecture. Let professor Wei and the others do the lecture."

"Okay, okay, okay. They won't understand what you're saying anyway. I'll invite Wei Yan and the others to the seminar, so help me encourage those bastards."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3163

3163 The heart of competition (2)

"Let them study hard. Even if they can't become talents like you in the future, they should at least be pillars of support."

After Nangong Nuannuan heard the principal's words, she seemed to be deep in thought. After she was sure that she understood, she nodded.

"It's just a few words. There's no need for a special lecture. Let's find a time for a school meeting. I'll just say a few words."

"Alright! The school has specially organized an award ceremony for you, so you should go and encourage them at the ceremony."

"Alright," he said. Nangong Nuannuan agreed readily.

The next day, the awards ceremony was held in the auditorium. Even though the entire school could not accommodate all the teachers and students, there were many large LED screens in the school. Most of the students who did not have tickets could watch the grand and glorious award ceremony under the screen.

After the award ceremony, Qin MUYANG invited the members of the research team to say a few words.

Looking at the envious eyes of the audience, whether it was Gu Xiaoli, Wu Zhi, Wu Lingyun, Wei Yan, or He Zhi, they all felt very honored and proud.

The last one was Nangong Nuannuan's award.

Nangong Nuannuan's power was clear for all to see.

Humans were like that. If you only relied on your family and wealth, others might say that you were just a little more beautiful, had a better family background, and that you were more willing to suck up to others.

However, when one was beautiful, rich, had a good background, and had talent, no one would be jealous of such a person.

This was because those who were jealous were those who thought that they had some kind of encounter and could also have the same level of attention and height, and could compare with others.

However, they really had no intention of comparing themselves to Nangong Nuannuan.

Although they still didn't know what kind of company disheng was, they knew that disheng's status was not something that Shi Yalin's family could reach.

A mere 18-year-old girl could own a business empire that was more powerful than the entire Shi family, and was respected by businesses and media from all over the world. In addition, she had also produced results that caught the attention of the world. This was not something that could be achieved with just envy and jealousy. If she said one more bad thing about Nangong Nuannuan now, she might become the target of public criticism.

After all, this girl was so perfect that she had no flaws.

Qin MUYANG happily gave the award to Nangong Nuannuan. Then, he said some words of encouragement to everyone. These words of encouragement could be heard from the speakers during the weekly morning meetings. Anyway, no matter how many times they heard it, everyone just felt that it was the same.

When they heard that Nangong Nuannuan wanted to say a few words to everyone, everyone perked up and immediately clapped to welcome her.

Especially the boys.

Even though Nangong Nuannuan was married, she was still a goddess in their hearts.

Nangong Nuannuan looked at the excited faces below the stage and calmly placed the microphone on the table in front of her. She said, "

"The principal asked me to say a few words of encouragement to everyone so that when you enter society or the War Department in the future, you can at least be a pillar of support. Actually, I don't think there's much to say.

The fact that you're able to get into this school proves that you're very powerful, at least among the students. As long as she worked hard, she would have a good future.

"As for what principal Qin said about being a pillar of support, I understand what he means. At the very least, he shouldn't grow up to be a crooked person. Or at the very least, don't become like Lang Zhen, Wang Qigang, Li Wan, or Zhou Xianglin."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3164

3164 Can't walk too much at night (3)

The four of them had already lost face all over the country and the world. They were a disgrace to the medical department University. However, since these four people were once the mainstays of the medical department University, even if there were people discussing it, they would only discuss it quietly.

No one had expected Nangong Nuannuan to name the four of them directly, so there was an instant uproar.

When Qin MUYANG heard that Nangong Nuannuan had actually named the four of them in front of the entire school, he felt a headache coming on.

Although these four people were already notorious, as a school that taught and educated people, they still planned to deal with this matter in a low profile.

Because they didn't expect such a result, they thought that if the project was successful, they would be able to soar. So, in order to highlight the contribution of the medical Association, they were afraid that if the project initiator was Lang Zhen, the project would belong to the medical administration University's research Institute. So, the files of these four people were secretly transferred to the medical Association through abnormal means.

Fortunately, the medical department University retained their status and removed their names, which was equivalent to firing them.

After all, it was not something to be proud of, and the medical administration University did not want this matter to blow up among the students and cause them to question their teachers or professors.

However, Nangong Nuannuan had revealed this matter in front of the entire school, including the teachers, students, and professors. He didn't show any mercy at all.

Nangong Nuannuan was also puzzled. When she heard the commotion below, she raised her brows and asked, "What are your names? Don't you think these people are cheap?"

"cheap!" the people below said in unison. His voice was so loud that it resounded through the auditorium.

Qin MUYANG said, "Zhenzhen really didn't ask Nangong Nuannuan to teach him a negative lesson. I swear."

however, nangong nuannuan did not even look at the principal. she nodded and said, "Yeah, I also think that these four people are despicable. The medical Bureau treated them so well, making them the director and giving them so many resources. Just the equipment in the laboratory alone cost the medical Bureau a lot of money. In the end, they took the money from the medical department University and used the university's resources, but they worked for the medical Association. He would rather be someone else's dog in the medical Association than be an upright person in the medical department. This kind of person, if he's not cheap to the bone, what is he?"

Thunderous applause rang out from the audience.

Qin MUYANG:

"That's why, first of all, let's not talk about how hard we have to work and how good we have to be in our business. We should think more about what principal Qin said-how can we be a pillar of support? people said that the most despicable people were invincible. But is this invincibility a pillar?"

"No!" Everyone shouted in unison.

"That's why, before you can improve your professional skills, you should first learn how to be a good person. There are no bad students in our school. If you have to say bad, it can only be bad character. However, Lang Zhen and the others were already examples. If you have a bad character, you might be

able to get more things than others through your shamelessness. But as the saying goes, if you walk too much at night, you'll always meet a ghost."

hahahaha! the audience burst into laughter. After all, the ghost that Lang Zhen and the others had encountered was Nangong Nuannuan.

Nangong Nuannuan instantly realized that she had said the wrong thing. She coughed and explained, "Well, demonic beasts who have done a lot of bad things will always meet the Bodhisattva who will teach them a lesson."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3165

3165 There was nothing (4)

There was another wave of friendly laughter.

"Maybe you can gain benefits from this black-hearted act, but this is not a long-term matter. 'I've always thought that studying medicine is a way to accumulate merit for myself. Since I've already learned it, I should learn it well and maintain a good character. I believe that none of the students in our school are bad. They will all become pillars in the future."

These were Nangong Nuannuan's heartfelt words.

the reason why she was so obsessed with medicine and acupuncture back then was because she was a doctor. On the one hand, it was because he liked her. On the other hand, he thought that she had been stained with human lives and blood since she was five years old. Therefore, when she found out that her acupuncture could save people, she would definitely save a person if she killed one.

after that, as her x-ray vision became stronger, she also learned chemistry. through the analysis of medicinal theory, she began to study medicine.

After all, there were very few people who were cured by acupuncture, but there were many people who were cured by medicine. Angel pharmaceutical was able to develop so well mostly because the drugs she developed were not only effective, but also cheap.

In the field of medicine, her original intention was really to treat and save people, but she did not expect to earn a lot of money inadvertently.

Therefore, what she said to the students were all her true feelings.

A person's greatest wealth was to have a good mind. If one's mind was crooked, the more powerful it was, the more harm it would bring.

As soon as Nangong Nuannuan finished speaking, a round of applause broke out from the audience.

Everyone felt that she had said it too well.

Although she didn't share any academic knowledge with everyone, her words made everyone question their souls.

He thought of lang Zhen, Wang qiren, and Li Wan, the three big shots in the Research Institute. Even if their medical knowledge of their own subjects was not as abnormal as Nangong Nuannuan's, they had reached the peak. Whether it was fame or fortune, what could he not have?

However, because of a moment of evil thought, he ended up in jail because society didn't tolerate him. What was it for?

It could be said that although Nangong Nuannuan's speech was not Qin Muyang's original intention, it had received a better effect than his original intention.

Outside the auditorium, Qi Meixin, who had already packed her things and was about to leave the medical department University with a cardboard box in her arms, was extremely regretful after hearing Nangong Nuannuan's words.

She was the director of a beauty salon and had a bright future. In order to have a better development, she hooked up with Shi Yalin through lang Zhen.

But now, not only did the Research Institute of the medical administration University produce evidence and fire her, but even the medical Association didn't accept her.

More importantly, she had a record in her personal file.

The medical department was under the War Bureau, and her money was recorded by the War Bureau. Although she didn't go to jail like lang Zhen and the others, she was young and had a promising future. But because of this matter, she was buried alive.

It was impossible to say that he did not regret it.

Now, her intestines were about to turn green from regret.

The way the students looked at her as if she was a dirty creature made Qi Meixin feel that everything in the past was far away from her. Those respectful eyes were gone.

He Zhi, whom she had looked down on in the past, had now become the director of a beauty salon. Because of this research, he Zhi had become a fourth-level professor at a young age.

But what about her?

In the end, there was nothing left.

Qi Meixin was very emotional after hearing Nangong Nuannuan's words.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3166

3166 I'm convinced (1)

If she had been unable to get over it before, she had already gotten over it now.

Whether it was her, lang Zhen, or even the self-proclaimed extraordinary daughter of a rich family, Shi Yalin, none of them were Nangong Nuannuan's match.

You thought that she was very strong and that you could use the method you thought you could use to deal with her, but in the end, you realized that you were wrong. They were not on the same level as you.

It was just like when you thought you had done it secretly and were extremely happy that you had finally stolen something, but in the end, you realized that you had stolen what the other party wanted you to steal.

It was like something that you couldn't figure out no matter how hard you tried, but someone else could easily figure it out. Not only did they figure it out, but they could also use it as they pleased. If they didn't scold you, they would make you turn the hard-won result that you showed off to the world into an idiot. Let the whole world see the dumb * SS you've created with all your manpower and resources.

this was not a slap in the face.

This was a crazy face-smacking!

She had never seen anyone more ruthless than Nangong Nuannuan.

With such a person around, even if she continued to stay in the medical department University, she would never be able to lift her head up high.

She had lost completely.

he was also convinced of his loss.

The main thing was that she had lost so miserably, but no one had even looked at her from the beginning to the end. He had never treated her as an enemy.

Qi Meixin could be considered one of the luckiest. He would only be fired.

after nangong nuannuan and the others returned to the country, zhang fang was released by the people there.

When he came out of the secret room, he found that his suitcase had been thrown to the ground, and Nangong Nan and the others were gone.

He was so hungry that he quickly went to the nearby supermarket to buy some food and charge his phone.

It was only after he turned on the phone that he found out about what had happened at the banquet through the news.

Seeing that even Shi Yalin and lang Zhen had been captured, Zhang Fang's heart turned cold.

He had never expected that it was Nangong Nuannuan who had been waiting for him to steal it. In order for him to succeed, Gu Xiaoli even drank the laxatives he had put in.

And the thing that he tried so hard to steal was to put Shi Yalin and lang Zhen in prison.

The first thing he did was to check on the participants of the project.

As expected, his name wasn't in the list of Deputy researchers and data researchers.

Zhang Fang stared at his phone in a daze and gulped. He really didn't know what he should do at this moment.

Left with no choice, Zhang Fang could only use the cheap SIM card in Saibo to give Qi Meixin a call.

Qi Meixin saw the strange caller ID and thought that it was Shi Yalin calling to ask if she was Dead or Alive. She was even happy for a moment.

Who knew that Zhang Fang's voice would come through the phone.

"Professor Qi, I'm Zhang Fang. Previously, I was detained by Nangong Nuannuan's bodyguards, and they only released me now. I'm afraid that my safety is not guaranteed, so I'm calling you. Can you help me? Also, I don't have any money on me, and I don't know where Nangong Nuannuan is. Her bodyguard didn't buy me a plane ticket either, so I can't come back."

Qi Meixin laughed sarcastically after hearing Zhang Fang's words.

do you know that after Nangong Nuannuan found out about your attempt to steal, she played along and now Shi Yalin, lang Zhen, and a few other professors are all in the prison of cyber country? "

zhang fang:

do you know that because you were caught stealing, all of us suffered and I've been fired? "

Zhang Fang:

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3167

3167 On what basis (3)

"You don't have to worry about your safety. Nangong Nuannuan is so powerful that she won't even look you in the eye, so you don't have to think that she will harm you. It doesn't exist."

zhang fang:

"As for the plane ticket, you're on your own."

Qi Meixin then hung up the phone.

She felt that the reason why Nangong Nuannuan knew that something was going to be stolen and came up with another stupid plan in advance was that Zhang Fang's early performance was not good, and Nangong Nuannuan found out something was amiss, so she made preparations.

This was all Zhang Fang's fault.

So, it was already good enough that she didn't curse him or mess with him.

After the call ended, Zhang Fang was completely dumbfounded.

He knew that Shi Yalin and the others had been caught, but his contact was not Shi Yalin, but Qi Meixin.

However, now that Qi Meixin had been fired, how would he be able to do that in the future?

He had come over with public funds, so what was the meaning of leaving him alone in cyber country? Who's going to pay for the return tickets?

Zhang Fang had no choice but to give Wu Zhi a call.

Wu Zhi had long since blocked Zhang Fang's number, but Zhang Fang's number was from that side, so he didn't think too much and picked up.

Hearing that it was Zhang Fang's voice, Wu Zhi instinctively wanted to hang up the phone, but he was stopped by Zhang Fang.

"Wu Zhi, I know you hate me now and don't want to talk to me, but I beg you to help me. I'm still being detained in cyber country, how am I supposed to get back?"

Wu Zhi laughed at Zhang Fang's words.

"You're a person who framed others and pushed the blame to me at the critical moment. Why should I help you? Zhang Fang, are you a fool? Why do you always treat others as fools?"

He was about to hang up the phone.

"Wu Zhi! Wu Zhi, don't hang up! You listen to me!"

Hearing the urgency in Zhang Fang's voice, Wu Zhi still held back and did not hang up.

"I don't think I need to hear anything from you."

"Wu Zhi, we've been classmates for six years. I know your family's situation, so I won't ask for your help. Just tell me what they plan to do to me. I'm begging you!"

"Don't worry, they won't do anything to you. However, the school can't tolerate your behavior, so I heard that the principal has already expelled you."

"What?" When Zhang Fang heard this, his eyes widened.

"Expelled? On what basis?" He had already studied for six years and was about to enter the Ph.D. Class, but they actually fired him!

"What's wrong? Do you think what you've done isn't enough for the school to expel you?" Wu Zhi sneered and said, "If you succeed in stealing the project this time, the project that we've worked so hard on will be stolen by the medical Association." Zhang Fang, you know about the new and old grudges between the research institute and the medical association. You actually abandoned the Research Institute for your own selfish reasons. If it wasn't for Miss Nangong's quick reaction to prepare another plan for you, the medical department University would have lost face overseas. There was a possibility that there would no longer be a Research Institute in the medical department University, and the project that we've worked so hard on will bring Shi Yalin billions or even tens of billions of dollars in income. Zhang Fang, don't you think what you've done is enough for you to be fired?"

"It's them who want the research results, not me! I only helped them steal a little."

"I only stole a little, that's all? Zhang Fang, you're a graduate student who's about to graduate. Are you that blind to the law?"

My Sweet Physician Wife Calls The Shots

Chapter 3168

3168 Dial the number 3

“Let’s not talk about other things. Do you know how much this thing you stole is worth? According to this, not to mention firing you, even betraying you for more than 20 years in prison is possible. However, you should be glad that miss Nangong has never bothered to argue with a lowly person like you. Arguing with you will only lower her level. So don’t worry, the police won’t arrest you, and the school won’t do anything bad except expel you.”

After saying that, Wu Zhi hung up the phone.

After that, no matter how many times Zhang Fang called him, he would not answer.

zhang qi was panting, but he had no choice. He could only call his family and ask them to transfer some money to his account.

The family had already lost all face because of Zhang Fang, and now that they heard that he wanted them to buy a return ticket, they couldn’t help but be angry.

However, he had no choice. He was the only child in the family. Although he was angry at him for doing something wrong, he could not really leave him be.

Zhang Fang finally had the money to buy a plane ticket home.

When he returned to school, he found out that he had been expelled.

He had gone through a lot of trouble to get into the medical department University back then. Now, he had less than a year left before he could graduate with his master’s degree and go straight for his PhD. However, he was mercilessly expelled by the school.

however, compared to qi meixin and lang zhen, zhang fang only felt that his luck was bad. when the gods fought, it was only a mortal like him who suffered.

So he immediately ran to another school to apply for a Doctor’s degree.

Who knew that there would be a bad record in his file, causing no school to accept him.

Just as Zhang Fang was in despair, he received news that Shi Yalin had been released from prison.

According to the news, the medical Association finally settled the matter after compensating more than 3 billion Yuan. Compared to the original 20 billion, 3 billion was really nothing.

At the same time, lang Zhen, Wang qiren, and Li Wan were also released and sent to the medical Association for research.

Zhang Fang felt that, compared to Nangong Nuannuan, Shi Yalin’s methods were not very presentable, but at least it was not considered to be burning bridges. Hence, he went to look for Shi Yalin.

He made it clear that he had been expelled from the medical administration University and that the other schools did not want him, so he came to the medical Association to do research.

he thought that shi yalin would definitely accept him. after all, she had already accepted lang zhen, wang qiren, and li wan.

who knew that when he went to the medical association, he did not even see shi yalin's face.

"I stole things for her and now I don't even have a degree. The medical department University has already fired me. On what basis can she not accept me? I don't care, I have no way out. If you don't accept me, I'll find the reporters to expose you!"

The person in charge of reception glanced at him and said, " alright, wait here. I'll go in and find miss Shi.

After a while, the man came out.

Seeing this, Zhang Fang quickly went up to him. how is it? can I enter the medical Association as a researcher now? "

That person glanced at him and smiled slightly. There was a meaning in that smile that Zhang Fang could not understand.

"What's wrong? Can't I?" Zhang Fang's face fell, and he pretended to call the news Hotline.

"What are you doing?" the man asked as he held his hand.

"Call the hotline. If you don't take me in, I'll call the news Hotline, the governor's hotline, until you let me work in the medical Association and give me a good position."

"How do you know that miss Shi didn't give it to you?" the man laughed.

Zhang Fang's eyes lit up.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3169

3169 Stomach cancer (4)

"miss shi, have you agreed to let me enter the medical association?"

"Let's go. Follow me to fill in the job form."

zhang fang didn't expect that he would be able to succeed in this desperate attempt, and he was very happy.

He didn't think much of it and followed the man to fill in the job form.

when he was done, the person asked him to come to work at nine in the morning.

Zhang Fang held the job application form and looked at his monthly salary of more than 20000 Yuan. He was extremely happy.

One must know that he did not have any money to do research in the Research Institute of the medical Bureau University. However, in the medical Association, he could have a monthly salary of 20000 Yuan. most importantly, this was only a trial period. at that time, the chinese medical association would arrange for him to study a ph.d. at another medical school in dizhou. as long as he could get in, he would

have a monthly salary of 30000 yuan after he got his ph.d. After he finished his Ph.D., He would have a monthly salary of 40000 Yuan. After he became a first-grade professor, he would have a monthly salary of 100000 Yuan.

The key was that this was only the money from the medical Association, because the medical Association was only responsible for research. He could also work in the hospital, so the monthly salary of 100000 Yuan did not include the hospital.

The more Zhang Fang thought about it, the more excited he became, and his pace on the way home became much lighter.

He called his family and they were very happy. He then called his friends and asked them to have dinner together this weekend.

Just as he was about to make the third call, " bang--"

With a muffled sound, Zhang Fang's body was sent flying by an off-road vehicle.

Because the speed was too fast, Zhang Fang's body was sent flying to the opposite side of the road. When he fell, he was hit by another car before landing.

After rolling a few times on the ground, a pool of blood seeped out from his head.

His body twitched a few times on the ground before he stopped moving.

the drivers on both sides got out of their cars to check on the situation, and the passers-by also surrounded them.

The driver was very depressed. He said that he had clearly seen the green light, so he drove normally. He also had a driving record. The other driver also said that the light was green when he drove over.

When the police arrived, they found that when Zhang Luang was halfway down the street, the green light on his side suddenly malfunctioned and turned red. Then, he was hit by a car on the side.

The driver felt that the accident was caused by a bug in the signal light and refused to compensate.

In short, for this matter, the two drivers and the traffic police argued with Zhang Fang's family for a long time, and the driver only paid 500000 Yuan as a token compensation. This matter was over.

At the moment of Zhang Fang's death, he probably thought that he was just unlucky. He wouldn't think that he was stupid to death.

At first, the Shi family thought that this matter would be over. Three billion in compensation was indeed too much, but fortunately, they had the medicine that could heal wounds quickly, which they had developed some time ago. They sold a lot of it and made a profit. It wasn't to the extent of causing the Shi family any serious damage.

However, less than a month after Shi Yalin's return, a piece of news about the young lady of the Shi family being involved with underground forces abroad suddenly came out.

and this pass couldn't be stopped.

The overwhelming news attacked the Shi family for bribing the dark forces outside, and threatened the drug dealers with all kinds of disgusting and unpresentable means, forcing the drug dealers to submit to their abuse.

now, the drug dealers, together with the courts of various countries, a total of 10 countries, had launched an interrogation and compensation application to kamino.

Shi maowen was sent to the hospital for a secret examination after he had a stomachache and vomited blood. He was diagnosed with stomach cancer.

It was the same as Feng shengxuan.

(I'm in trouble. My son gloriously infected me. I had a high fever at night, 39.2 degrees. Back then, the miscarriage caused by the earthquake in 512 had destroyed one of her immune systems, and she had a high fever every few days. If you don't see me in two days, it means I'm in quarantine. Also, I recommend two books by little cutie!

Chapter3170 People are not good anymore (1)

Fortunately, he had frequent checkups. Previously, he only had severe gastritis. Now, it had developed into cancer in the early stages, so there were no signs of it spreading.

During the period of canvassing for votes, Shi maowen did not dare to let any outsiders know that he was sick. Hence, his surgery was done in the Shi family's own hospital. Shi maocheng had hired a level-five professor from the medical Association to operate on him.

The surgery had just been completed, and it had been less than a week since he was discharged from the hospital. His original schedule had been delayed, and Shi maowen was ready to drag his sick body to campaign for votes.

At such a critical time, the 20 drug dealers had actually joined forces with their own countries to look for the Kamino Kingdom's Court of Justice to deal with the matter.

Most importantly, when the Shi family found out about this, the whole country would know as well.

Shi maowen was already prepared to ask for votes, but he was questioned by the judicial Department.

The Court of Justice had requested for him to respond to the Shi family's matter as soon as possible.

after all, shi maowen was the 13th prime minister and had taken a sick leave recently. therefore, the judicial department was relatively lenient with him.

Shi maowen was furious after hearing the news.

Seeing this, old master Shi was very worried. old fourth, don't panic. Let's ask Yaling about his condition first.

you're still asking about her situation?! Shi maowen was extremely angry and annoyed.

"Who's the one who caused us to become like this? Dad, can't you tell now? Our Shi family has always been steady and steady. At least before she said that she would listen to her master, I was still very popular. But look at the current situation! my votes in every city are only two-thirds of li heyi's. It was

even funnier after the plagiarism incident. I didn't even get one-third of Li Heyi's votes in Jiangzhou that day. How am I supposed to participate in the election?"

"Fourth uncle seems to be full of resentment towards me!"

Shi Yalin, who was supposed to be in the medical Association, suddenly returned. Shi Maowen did not know how to respond to her when he saw her half-smiling eyes.

"Yaling, you're back just in time. You've seen the news on the internet, right? The judicial Department also called your fourth uncle just now, asking him to explain. How do you think we should handle this?" Old master Shi, Shi Gen, asked.

"Dad. Big brother would be back soon. Although Yaling had been fully in charge of this matter, she had also explained the situation to everyone in time. At that time, everyone agreed to do so, but they didn't expect those pharmacologists to want money over their lives. So, fourth brother, you really can't blame Yaling this time. After all, when you found out about Nangong Nuannuan's research project, you were the one who supported her the most in stealing the research materials."

Shi Maowen:

When he saw that Shi Maowen's face was pale, he was so angry that he felt unwell.

"Yaling, I don't blame you. Even if fourth uncle doesn't say it, you should also know that fourth uncle is at the most critical moment. Now that something like this had happened, not only fourth uncle, but the entire Shi family would be anxious. You're a sensible child. You won't argue with fourth uncle over this, right?"

Shi Yalin smiled.

Of course, she would. However, if Shi Maowen could really become the president, her life would be better in the future. If she was with Feng Shengxuan, her chances of winning would be very high.

"Fourth uncle, I understand your concerns," Shi Yalin replied with a smile.
