Chapter 3171

3171 Heartache (2)

"It's true that I didn't think this through before. But you don't have to worry too much. On the one hand, the people in charge of counting votes in several cities have been controlled by my people, and Jiangzhou is no exception. So, you don't have to worry about the votes."

Shi maowen could not help but frown when he heard Shi Yalin's words.

"Control? How to control it? Hypnotizing?"

"hypnosis isn't the only way to control people," shi yalin said with a smile. In any case, fourth uncle, don't worry. When the voting starts, your votes will definitely not be less than li Heyi's."

"are you sure?" Shi maowen still could not believe it.

"i promise! just like how i told you that the president would definitely not stand on li heyi's side, is he really hypnotized?"

Shi Yalin's words were like a calming pill, calming Shi maowen down.

"What about the pharmacist? They had already asked their own country to protect their rights. The judicial Department even asked me to go over now."

Shi Yalin frowned, " I didn't expect this. i'm sorry. but i'm sure of one thing, even though they're suing us, there's no evidence that i've done anything to them."

"Are you sure?"

"I'm sure," Shi Yalin nodded. i'm 100% sure of this. If they don't have any evidence, the Court of Justice will at most suspect that we threatened them. As long as we don't admit it, they can't do anything. If they want us to compensate them no matter what, then we'll do it. "

When they heard the word "compensation," Shi Heng and Shi maowen's faces twitched.

Yaling, we're still short of 17 billion in compensation. This will completely destroy the Shi family!

Shi Yalin looked at Shi Heng and said,"I know, Grandpa." I've already told my dad just now. He's already starting to raise the money. You've already learned about hacking skills. Although Nangong Nuannuan and the others managed to crack the nings 'hacker system, not all businesses can do that.

I didn't want to move at first, because I didn't want Nangong Nuannuan to be suspicious. but recently, nangong nuannuan is going to be in trouble herself, so she can't take care of me. We'll transfer the money to them first. I guarantee that the money we've transferred out will definitely be collected back, not a single cent less, or even more."

"This ..." Shi Heng's heart ached at the thought of 17 billion being dug out of him.

If he had known earlier, he would not have stolen Nangong Nuannuan's research data.

“Oh my, this Nangong Nuannuan is too amazing! How do you think she’s so powerful? Not only KE’s King, disheng’s Chairman, but also the secret of genes. not only did she come up with her own project, but she also came up with another project with a trap in order to trick you. Is Yingluo the reincarnation of some demon?”

Hearing Shi Geng’s words, Shi Yalin’s Achilles ‘heel was completely poked.

“What’s so amazing about her? she’s just a b * tch who relies on her own luck and bugs.”

At this moment, Shi Yalin’s aura was completely released, and the strong pressure made everyone in the Shi family breathless.

only a few members of the shi family had experienced this kind of pressure. That was Feng Kun. At that time, they were extremely shocked as to why Feng Luan would have such an oppressive aura. now, he was experiencing it once again, and it was shi yalin.

Chapter 3172

3172 Our side?(3)

Shi Yalin was just an ordinary rich young lady. Although she was very outstanding in the past, she could not be compared to Nangong Nuannuan at all. However, ever since she had returned from her disappearance, she had changed completely.

Not only had she become very opinionated, very imposing, and her temper had become very bad, but she had also learned many evil medical skills that even the president of the medical Association, Shi maocheng, did not know.

Now, her body was even emitting a pressure.

As the 13th chief executive of the Internal Affairs Bureau, Shi maowen was the most sensitive to people. He felt that other than the fact that Shi Yalin was still his niece, she was a complete stranger that he did not understand.

Yalin, why are you so stubborn? ” Shi maowen looked at Shi Yalin. His eyes were full of curiosity and doubt, but he did not know what to say or ask.

Shi Yalin was also aware of the pressure that was being emitted from her soul. She quickly hid the pressure and said, ” “I’m sorry. I hate Nangong Nuannuan so much that I can’t control myself.”

“Yaling, what’s with that aura you’re emitting? I’ve wanted to ask you before, how did you suddenly understand so many things that you didn’t understand before, and also possess such a powerful aura? Don’t you think you’re a little different from before?” shi maowen asked.

After all, this was the most critical period for him. One wrong step could cause the entire Shi family to be in low spirits for the next few decades, or even be doomed forever.

Shi Yalin was not worried at all. She smiled and said, ” fourth uncle, your personality is quite different from before you were 18 years old, right? ”

Shi maowen:

"Everyone will grow up and change. Especially for someone like me who has experienced a life and death situation, many things have changed for me. It was also a fortuitous encounter for me to meet my master, because my master knew something called inheritance. This inheritance isn't passed down through our teaching methods, but through a special method. I inherited my master's skills, which can not be achieved through any kind of learning."

Seeing that Shi maowen did not speak, Shi Yalin smiled and said, "I know that fourth uncle won't believe me when I say this, but there are such mysterious things in the world. Indeed, my master can pass on his knowledge to me through a kind of spiritual power."

"Our teaching here?" Shi Gen suddenly caught onto Shi Yalin's words.

"Father, what do you mean by repeating yourself?" Shi maowen asked.

Shi Heng looked at Shi Yalin in shock and asked, "Your master is not on our side? your master is from that world?"

"Yes." Shi Yalin nodded. "That's why I can inherit so many things. Fourth uncle, when I had nothing, perhaps I deserved to be bullied. However, when I have the ability and am bullied, I will get back at them. Isn't my change the most normal thing?"

As the No. 13 Prime Minister, Shi maowen also knew some of the secrets of this world. In order not to cause panic, they had always kept the fact that there was a parallel world outside this world a secret. Only the Prime Ministers of various countries and some important officers of the J Department knew about the other world.

Chapter 3173 controlling the eagle (4)

However, he did not expect Shi Yalin's master, who was a very powerful person, to be someone from another world.

"No wonder he's so powerful." Shi Heng said emotionally.

"It's not a big deal. Just do as Yaling said."

Shi MAODE and Lu Guangsheng walked in at this moment.

"Dad, did you know that Chi Yang was punished today?"

"Why?" Shi Heng asked his son-in-law.

"Because Chi Yang went to Saibo country to propose last week! he didn't know what he was thinking. he clearly found out that the president's attitude towards the Nangong family and the Chi family was problematic recently, but he still didn't know how to keep a low profile. he actually ran to Cyber country without reporting to the president. The president had called him to the presidential palace today, scolded him, and gave him a serious warning. Although the president chose to give him face in the end, many people already knew about the president's warning."

After all, he was the Commander-in-Chief of Eagle, but he had gone to another country without a word. The impact of this matter was very bad. Although he's only going to propose, if others insist that he went to cyber country to form an alliance with the president of cyber country, he'll really have a hard time explaining."

"But doesn't Chi Yang have an entry pass?" Shi maowen frowned.

That pass would allow him to leave the country at any time.

but don't forget that the pass also gives him the right to meet the President of another country. Lu Guangsheng said.

Shi maowen instantly understood.

The gloominess he felt when the judicial Department asked him to explain the matter earlier had already dissipated.

what was his reaction after the president called him for a talk? "

lu guangsheng laughed mockingly. He was in the wrong in this matter. He could propose anytime! For the sake of your so-called romance, you had to go to cyber nation at such a sensitive time to propose to Nangong Nuannuan. Furthermore, they were already legally married. Wasn't the proposal just a gimmick? Wasn't it normal for the president to suspect him?

When I transferred ning Wenhao to the battle Bureau to work on a case, Chi Yang and he were both unhappy. After this incident, ning Wenhao has been completely excluded by me. And Li Jingchen, I've also sent him to the general Administration of warfare, with ning Wenhao."

Everyone knew that these two were Chi Yang's favorite. As long as they were expelled from the Eagle, they would be closer to the core area after they went to the battle Bureau. However, everyone knew that the Eagle was the heart of the entire Kamino Kingdom. Whoever could control the Eagle would be able to control the entire dizhou.

"So, let's do as Yaling says. I heard from Yaling that KE is about to make a move. The backbone of Feng shengxuan's forces has been secretly gathered in dizhou over the past few months. Feng shengxuan was the King, and once he made a move, even Nangong Nuannuan would not be able to resist. Her master was also planning to come over in the next few days. So, if those pharmacies caused a ruckus, they would have to pay. As long as we can win this round, we will win for the rest of our lives." Shi MAODE said.

Lu Guangsheng also nodded. that's right.

17 billion would indeed drag down the Shi family, but as long as they could get through this last hurdle safely and not let these people cause trouble at the most important time, they would be able to earn back 17 billion in the future.

"Al, I'm fine. That's fine. If it really didn't work, he would just pay the rest of the compensation. Just don't affect fourth brother's vote."

Chapter 3174

3174 Are you alright (5)

Shi Yalin smiled, "actually, you don't have to pay." They could return their principal first and then sign a contract to pay the compensation within three months. Three months was enough for Feng shengxuan to take action. As long as he succeeds, the Nangong family will fall. Once Nangong Nuannuan dies, I'll make those drug dealers pay for what they've done to us."

so, you're saying that ran ran and the other drug dealers came to us because of Nangong Nuannuan's instructions? " Shi MAODE asked.

dad, other than Nangong Nuannuan, who else could give them the courage to come to us for money when their lives are in danger? "

Shi MAODE felt that it made sense.

alright, I'll talk to the drug dealers. I'll definitely handle this matter properly and not let their matter affect fourth brother's vote.

the votes won't be affected. I'm just afraid that there will be too many voices of doubt. It will be troublesome to check the votes bit by bit in the end. Shi Yalin said.

"Alright, I'll listen to my daughter." Shi MAODE nodded. Let's do this. Don't put too much pressure on you, fourth brother. Take good care of your body, our Shi family still needs you."

"Don't worry."

Shi maowen then looked at Shi maocheng and asked, second brother, are you sure there's nothing wrong with my body? "

Shi maocheng patted him on the shoulder. don't worry. Stomach cancer has always been the easiest to cure among all other cancers. Besides, your cancer is still in the early stage. Although chemotherapy will make you weaker, it won't make it worse. Professor an said that as long as you take care of yourself, there won't be any problems."

Shi maowen nodded. It would be fine as long as his cancer cells did not spread. He had the best professor and the best medicine to support him, and he also believed that nothing would happen.

Although Shi Yalin had already promised Shi maowen, Shi maowen was still nervous when he went to the judicial Court for questioning.

However, after they went over, Shi maowen would not admit to it no matter what, and the judicial Department could not do anything about it.

Later, the judicial Department had asked Shi maowen to video-link with the judicial departments of various countries to deal with the matter. Shi maowen refused to admit that he had threatened the drug dealers and agreed to compensate them if they wanted to. However, the Shi family had already prepared the compensation, but the pharmacists didn't want it. Now that the Shi family had invested the money again, it wouldn't be easy to get it back in a short time. Hence, the Shi family promised to pay the compensation within three months. However, the judicial courts of each country must withdraw the false charges against the Shi family.

As expected, after receiving the compensation contract from the Shi family, the countries withdrew their charges.

Although Shi Yalin's incident had caused the Shi family and even Shi maowen's reputation to drop by a lot, at least it did not lead to irreparable consequences during the period of canvassing for votes.

As the No. 13 Prime Minister, Shi maowen was still competing with No. 12, li Heyi.

Other than them, the other prime ministers knew that they could not compete with the two of them, so they all retreated to the second line.

Ever since Bai Liyue left, Feng shengxuan had been busy at di gang. He rarely even returned to the Chi family. A week later, he received a call from Feng Kun.

"Little Xuan, are you alright?"

Hearing the voice on the other end of the phone, Feng shengxuan's voice was calm as he replied perfunctorily, "It's alright."

"You still haven't found Yue 'er?"

3175 Feng shengxuan VS Feng Kun (1)

"If that's what you're here to ask, I'm hanging up,"

"don't! don't! Don't hang up! I won't ask anymore, alright?"

Seeing that Feng shengxuan didn't hang up or say anything, Feng Kun sighed.

"Xiao Xuan, I know that you've been in a bad mood recently, but I believe that you will be able to find Yue 'er."

afraid that he would hang up again, feng kun quickly said,"but i called you today to ask you a question."

Seeing that the other party was still ignoring him, Feng Kun continued to ask, "I heard that Chi zeyao is inviting your mother to visit the new project of Shengyang group the day after tomorrow?"

"What do you want to ask?"

"You're so smart, you must know what I want to ask."

seeing that the other party remained silent, feng luan said, "Ke has mobilized a large number of people. The day after tomorrow, your mother will be going to Shengyang group. I heard that chiyang and Nuannuan will be there too. Are you and your mother planning to make a move?"

He knew that Feng shengxuan had misunderstood that he was trying to seize power, so he had been ignoring him all this time. However, Feng Luan had never thought of taking his power. therefore, she was really careful when talking to him now, for fear that he would feel that there was a fire behind her.

little Xuan, if you're really going to make a move, I want to come over and help you.

"No need," Feng shengxuan rejected him immediately.

"The Chi family owes me and my mother, it has nothing to do with you."

"How is it not related?" Feng Luan retorted agitatedly, "the Chi family killed my closest brother, the only person who was directly related to me by blood." I also want to take revenge for him!"

"I said I don't need your help. My mom and I know what to do. Besides, we don't trust you."

"Little Xuan, Yuan Yuan."

"Alright, you don't have to say anymore. If you want me to trust you, then stay where you are and don't go anywhere."

"Don't you know that my old castle has been demolished?" Feng Kun smiled bitterly.

Hearing no response from the other end, Feng Kun smiled bitterly. "Didn't your mother tell you? Hehe, Yingluo, you're really mother and son, both of you are so sensitive. Xiao Xuan, it's not that I'm looking down on you, but if I wanted KE, I could've easily killed you and your mother when your dad died. you know, it's not that i don't have the ability, i just don't want to fight with you. I don't have a son, and you're my nephew. I've always treated you as the closest person to me. Little Xuan, I really don't want anything to happen to you."

Finally, Feng shengxuan's voice softened a little.

"Alright, I know. Don't meddle in the matters here, my mom and I have already arranged it. We will come back after killing the Chi family's people."

"Then be careful of Chi Yang, you know he has a special ability. He's still huhu?"

"i don't have an ability just because he has one?"

"It's not Yingluo."

"In your heart, I'm much worse than him?"

"Of course you're the best in my heart. But that doesn't stop me from worrying about you. Xiao Xuan, your father told me the same thing back then. He told me not to worry. I wanted to follow him, but he didn't let me go. At that time, I was as confident in him as I was in you, but all I got was the news of his death. Do you know how I felt at that time?"

Feng shengxuan fell silent after hearing Feng SU's words.

Feng Kun was secretly happy, because he felt that Feng shengxuan's silence at this time was definitely because he cared about his family.

It had to be said that both Feng shengxuan and Feng jimian were people who valued relationships.

3176 Feng Kun's might (2)

That was why he had never agreed with Viper's previous actions and had always told him not to go too far. However, for the sake of his own power, Viper kept crossing Feng shengxuan's line, and that was what he was most dissatisfied with.

Feng shengxuan was a smart man, and he would never allow anyone with ulterior motives to live beside him. Not even if this person was his father's brother.

If she wanted to win Feng shengxuan's heart, she had to make him let his guard down.

Hence, Feng Kun believed that Feng shengxuan had really let down his guard against him.

Xiao Xuan, I'm really worried about you. Let me help you.

"No need,"

Seeing that Feng shengxuan still refused, Feng Luan didn't force him. After all, he had only made this call to confirm if Feng shengxuan was going to make a move.

Knowing that he was indeed ready to make a move, Feng Luan was excited.

He had waited for so many years, planned for so many years, and let them stay in this world and the game world for two whole lives. Wasn't it all to make them kill each other?

Now, they were finally going to kill each other. Feng Luan was extremely excited.

After hanging up the phone, Feng Kun burned a talisman and instantly disappeared from the nice family.

the shi family was having dinner. the sudden appearance of a cloud of black smoke at the table was already frightening. seeing the black smoke becoming more and more solid, everyone was so scared that they stood up from their chairs and hid to the side. Only Shi Yalin looked at the black smoke and smiled.

"Master."

shi yalin shouted before feng luan's figure completely appeared, dispelling everyone's fear.

When they heard Shi Yalin call him master, everyone knew that a powerful person from the same world as them had appeared.

Although Shi Gen, Shi maowen, and the others knew that there was a Parallel Space that connected to glory planet, when they actually saw the special effects appear in front of them, the shock was completely different from the cheap special effects.

Shi Heng immediately gave the Butler a look, and the Butler hurriedly ordered the servants in the living room to leave.

The servants were all ordinary people and had never seen such a thing before. They looked at Feng Kun in surprise and did not leave for a while.

Feng Kun saw that there were so many people in the living room, but he was not in a hurry. He smiled and glanced at the servants.

The servants instantly came back to their senses, but they seemed to have forgotten something, and their faces were blank.

Including the Butler.

"All of you may leave." Shi Heng saw the clues and asked the others to leave.

The Butler received the order and immediately left with the servants.

"Master, have you eaten?" Shi Yalin asked with a smile.

"No matter if you've eaten it or not, you should eat more. Let's talk while we eat."

When in Rome, do as the Romans do and sit down.

"Master, why did you come to the Shi family at this time? You told me that Feng shengxuan might make a move on the Chi family. Is he going to do it soon?"

Hearing this, the Shi family members were all excited.

Ever since Nangong Nuannuan had returned to the Nangong family, the Shi family, which had almost surpassed the Nangong family to become the head of the four great families, had suddenly declined.

Now, even the outsiders could see that four of the five top forces in the Emperor province were on the side of the Nangong family. The Shi family was in a difficult situation.

Chapter 3177

3177 This day has finally arrived 3

If Feng shengxuan was going to do anything to Chi Yang, Nangong Nuannuan would definitely go all out. If the Nangong family fell, then the Shi family could really come out.

The Xiao family, because of Xiao Yun's personality, Li Heyi would not be able to compete with the Shi family with just the Xiao family's support.

Therefore, when the Shi family was besieged on all sides, everyone was looking forward to the news that Feng shengxuan was going to attack the Chi family.

Looking at everyone's expectant eyes, Feng Luan nodded in a good mood. "The day after tomorrow, Chi Zeyao will be bringing Feng Jimian to see his energy project. It was said that this energy project was a synthesis of solar energy and some other reaction, which could replace many things and create a huge energy power. I only called Feng shengxuan when I heard that Chi Yang was going too."

"So, brother Feng, you're planning to do it the day after tomorrow?" Shi Yalin's eyes lit up.

"Not bad." Feng Kun nodded.

"Then master, why don't you?"

"I'm definitely going. It's just him and Feng Jimian. Even if there's still the others from KE, I'm still worried. Chi Yang's sense of smell is very sharp, and I'm afraid that he has already seen through Feng shengxuan's movements, so I have no choice but to help him."

"What about me?" Shi Yalin asked.

"Just do what you should be doing. If there are any changes, we'll do as we've discussed. anyway, either chi yang dies the day after tomorrow, or your feng shengxuan dies."

if she was still the invisible snake, she would definitely go and help. However, she knew that other than her powerful soul power, her body was completely useless.

Even though she had given herself Chi Yang's special ability, she knew that it was not enough to kill Nangong Nuannuan, even if she could deal with ordinary people.

"Don't worry, master," Shi Yalin nodded,"I'll take care of the rest. I've already made all the necessary arrangements."

"that's good." feng kun nodded.

"Master, then you must find an opportunity to severely injure Chi Yang in one go. Otherwise, if his men come early, brother Feng will not be able to do anything."

"You don't need to remind me about this. I've been planning for so many years, haven't I been waiting for this day?"

"Can you keep an eye on Fei Ying?" Feng Su asked Lu Guangsheng.

Lu Guangsheng nodded. I've transferred ning Wenhao and Li Jingchen to the general Administration of warfare, so they won't be back for the time being. Although the members of the Eagle Special Forces are very powerful, I should say that Youyou chiyang is indeed well-trained. Even if they don't welcome my arrival, after three months of observation, they've been absolutely obedient to the Supreme commander's orders. So I'm confident that as long as I don't agree, no one will be able to rush there immediately. I can also guarantee that if Nangong Nuannuan dares to ask for help, I'll get someone to stop those people she's looking for in private."

"That's good." Feng Kun nodded in satisfaction.

Two days later, on the weekend.

That day, Wu Lingyun asked Gu Xiaoli to go shopping with him.

Li xiangwang and Gu Xiaoli were both foreigners and usually lived in the school dormitory. So after knowing that Gu Xiaoli had an appointment with Wu Lingyun, he also wanted to attend it.

After this period of time, Gu Xiaoli didn't feel that li xiangwang was annoying, so she called Wu Lingyun and asked if she could bring another classmate.

Wu Lingyun and Gu Xiaoli had become friends after the time they spent together in the laboratory. now that he heard that gu xiaoli wanted to bring one more person, wu lingyun agreed without any hesitation.

3178 Kidnapping (5)

After all, li xiangwang's family was poor. Although nature Hall was a cheap skin care brand, these things cost hundreds of Yuan, but she bought them without even blinking.

The three of them went to settle the bill, but the cashier told Wu Lingyun and Gu Xiaoli, " "This lady has already paid."

Wu Lingyun and Gu Xiaoli looked at li xiangwang and refused, " "How can we do that?"

Gu Xiaoli was about to speak, but li xiangwang laughed without care, " "While you guys were working on Nuan Nuan's research project, I found a decent job outside. He had also gained a lot during this period of time. This time, you've done a great service outside. As friends, this is just a small gift from me. If you decline, I won't be happy."

Gu Xiaoli still wanted to say no, but when she saw li xiangwang's determined face, she nodded and said, " "Alright then, thank you. But I'll take care of lunch."

"I'll take care of lunch, and you'll take care of the afternoon tea," said Wu Lingyun.

"Alright," he said. Gu Xiaoli nodded.

After the three of them bought their things, Wu Lingyun planned to go to the third floor to see a shop that she liked. However, li xiangwang said that she also had a shop that she liked on the second floor. So, the two of them decided to accompany li xiangwang to shop first. After all, they had a lot of time today.

Li xiangwang took them to the second floor and walked into a huge self-service closet.

There were very few waitresses here, only two or three cashiers. In such a large place, people went to look for clothes by themselves and chose the right size to try on clothes in the fitting room. If you want to buy it, you can take it directly to the cashier to pay.

Li xiangwang took a dress to try on, while Wu Lingyun and Gu Xiaoli looked at other clothes outside.

"Xiao Li, can you help me see if I look good in this dress?"

Gu Xiaoli heard li xiangwang's voice, greeted Wu Lingyun, and went to the fitting room.

After a while, li xiangwang shouted again, " "Senior Wu, can you please help me to see if this dress of mine is suitable?"

"Alright, I'm coming."

Wu Lingyun heard li xiangwang's voice and went into the fitting room.

The moment she entered, she saw a man inside. wu lingyun's eyes widened, and he subconsciously wanted to run out.

However, the man's reaction was faster than his. With a hand chop, he cut her to the ground.

Li xiangwang didn't even need to give the man a look, and the man directly tied Wu Lingyun's hands and feet with a rope, then wrapped her in a black bag and took her away.

In another fitting room, Gu Xiaoli was experiencing the same thing.

Two burly men carried two people covered in black cloth bags and quickly walked to a warehouse.

There was an air vent in the warehouse. The two men threw Wu Lingyun and Gu Xiaoli directly into the air vent, and they left in the other direction.

The two people who were thrown into the air vent slid down the air vent on the second floor to the parking lot on the basement first floor. The people below were already there to receive him.

after picking up the two unconscious people, he threw them into the car. A new car without any photos left the mall.

As for Wu Lingyun and Gu Xiaoli's phones, they were left in the fitting room.

everything happened within three minutes, and the shop assistant was still busy.

It was only 10:30 in the morning. Even though it was a weekend, the mall had just opened for business and there were not many customers. The kidnapping of two living people did not attract anyone's attention.

Chapter 3179

3179 Departure (1)

In the morning, Chi zeyao and Feng Ji woke up in the midst of the chirping of birds and the fragrance of flowers.

Although it was winter again, it was like spring all year round outside the Chi family's courtyard.

after getting up, they ran for an hour in the courtyard before going back to take a shower and go downstairs for breakfast.

Nangong Nuan Nuan and Chi Yang had been staying at the Nangong family's house for the past few days. They had the same routine as Chi zeyao and his wife.

The two of them had breakfast, rested for a while, and then leisurely drove back to the Chi family.

After that, Chi zeyao, Feng jimian, Feng shengxuan, Chi Yang, Nangong Nuannuan, old man Chi, Selena, Aiden, and Xiao shenbin all went to the Shengyang group's Solar Energy Research base.

This base was completely out of the boundaries of the DI state. In the middle of the DI state to another state, there was a mountain range.

however, the mountain range had been bought by the shengyang group with a small amount of money because of its desolate location.

At that time, everyone thought that the Shengyang group was out of their mind. There was no mine to mine in that place, and the mountains were bare. There were only continuous stone mountains without any vegetation. It was impossible to plant trees or food. It was even more impossible to excavate such a large mountain to develop real estate. After all, this place was isolated. Even if real estate was developed, no one would come here to buy.

Therefore, many groups and wealthy families were puzzled as to why the Shengyang group would buy such a place.

Later on, he found out that the reason he bought this place was that the sun had always been good in dizhou. There was no vegetation covering this mountain, so it was very convenient to build a solar power station. In addition, the wind on the mountain was strong, so they could build some windmills to absorb a large amount of solar energy.

The Shengyang group wanted to start an energy company in this unique place and develop new products through solar energy.

Everyone thought that the Shengyang group had to spend all their money because they were running out of money.

who would be interested in such a marginalized business among the truly rich top corporations? If he had the money to invest in mountains and solar energy, he might as well use it to buy a piece of land and build a few more houses. The money he would earn would definitely be several times more than energy.

Energy Research, to put it bluntly, was for sustainable development. However, many people didn't realize that they would think about the development of their descendants after they became rich. Therefore, Energy Research had always been a national project. Very few people would actually spend their own money on Energy Research.

Shengyang group and cybernation's NS group had reached a strategic cooperation agreement to conduct Energy Research in Kamino, and the products developed would be shared between the two groups.

Although Chi zeyao and Feng jimian were a couple, there was still a need to settle scores between husband and wife, not to mention dating.

That was why Feng Ji Mian's people from NS group had gone with her today.

The convoy drove all the way to the energy company's factory. The director of the factory was already waiting at the door. When he saw the convoy, he immediately greeted them happily.

The group of people got out of the car and, accompanied by Chi zeyao and the factory manager, went to the meeting room.

Today's schedule was to first hold a meeting in the conference room. Chi zeyao would personally explain the energy company's operation mode and concept to Feng jimian, as well as the product to be developed. After that, they visited some of the energy products that had been developed. Finally, they went for an outdoor tour to see how these products were made with solar energy.

It was said that Chi zeyao wanted the NS group to join in and invest in the project together with him. They wanted to convert the area within a few dozen kilometers into a solar-powered area.

Although the entire mountain range was powered by solar energy, it was still not enough for Chi zeyao.

During the meeting, Chi zeyao shared his thoughts on expanding this solar energy source. Just as he was talking about his future plans, Nangong Nuannuan's cell phone rang.

"Hello, is this Nuannuan?"

"Yes, I am. Who is it?"

"I'm Li xiangwang!"

"Is there something?"

"Nuannuan, I was shopping with senior Wu and Xiao Li, but they suddenly disappeared."

"What do you mean by gone?" Nangong Nuannuan asked with a frown.

Li xiangwang was sitting in a hidden abandoned factory. Beside her were Wu Lingyun, who was looking at her coldly, and Gu Xiaoli, who was angry. She smiled at them and said in an anxious tone, "We were at chengyue department store on North Fuyun road. I was trying on clothes at a shop called YH counter on the second floor. I asked them to help me, but I clearly heard them agree to it, but no one came for a long time. when i went out to see them, i found that their phones were on the ground and they were gone. Nuannuan, you have a lot of connections. Please help me find them. Why do I feel like something's wrong!"

"Where are you now?" Nangong Nuannuan asked anxiously.

"I'm still at chengyue department store."

then you stay there. I'll be right there.

"Good! Then hurry up. I've already called the police, and they'll be here soon."

"Alright," he said.

After Nangong Nuannuan agreed, she stood up and said to Chi zeyao, "second uncle, something happened at my friend's place. I'll be right back.

"Are you alright?"

"Don't worry, it's a small matter. I can handle it here. You guys can continue."

"I'll go with you." Chi Yang stood up and prepared to leave.

The brows of the person behind Feng Ji Mian twitched, and his fingers curled slightly.

"Second uncle, I think something happened to Nuan Nuan's friend. I'll go with her to deal with it."

"alright," chi zeyao nodded.

"Little Xuan, why don't you go with them to handle this?" Feng jimian asked Feng shengxuan.

"Sure," Feng shengxuan nodded.

"No need," Nangong Nuannuan smiled at Chi Yang and said, "Big brother chiyang, you should stay here. Your injuries haven't fully recovered yet."

“My injuries are no longer a problem. i’ll go with you to take a look.” Chi Yang said, still worried.

“No need. It was just a small kidnapping case. If too many people go, wouldn’t they be praising the other party?”

“boss, i’ll go with you.” Aiden said.

“I’ll go with boss. Just stay here and listen to second uncle’s philosophy. isn’t boss also interested in energy research? This time, second uncle has his eyes on second aunt’s company. Next time, he might be interested in ours.” Said Selina sweetly.

She called her “second aunt” without hesitation. Chi zeyao’s mood improved upon hearing this. He glanced at Feng Ji Mian, his eyes filled with gentleness.

Only those behind Feng jimian who had experienced Feng Ming knew that no matter how outstanding Chi zeyao was, he could never compare to the already dead Feng Ming.

Although they couldn’t see Feng jimian’s expression because they were standing behind her, they knew that she must be extremely vicious and disgusted.
