Chapter 3191

3191 The signal is correct (1)

Shi maowen and the rest of the Shi family heaved a sigh of relief.

“As long as the Chi and Nangong families fall, no one will be able to keep the Shi family in check.”

“But don’t relax on the president’s side either,” Shi Heng said. It’s better to be safe than sorry. The Shi family fell from a height that the Nangong family couldn’t reach to what it is now because our family made a mistake at the last step. that’s why yaling, you must be on guard against the president. if anything happens to your master and he’s killed, qianqian can’t be left with the president.”

“Grandpa, you think my master will die?” Shi Yalin almost burst out laughing.

She had nothing more to say to these stupid humans.

“Your grandfather is right. Your master’s strength is indeed powerful, but don’t forget, Chi Yang is not to be trifled with. Fei Ying and KE have been friends for so many years, and chiyang has been with Feng shengxuan for so long. I don’t believe that he doesn’t have any suspicions about Feng shengxuan.

The moment he suspected Feng shengxuan, he would be on guard against him. Therefore, Chi Yang might not have followed them just to eat fish. And once Chi Yang is prepared, Feng shengxuan, Feng Jiming, and your master will have to face the flying Eagles.”

“Doesn’t Feiying have an uncle?” Shi Yalin frowned.

“Although your uncle is the Commander-in-Chief of Flying Eagle, don’t you think that other than the few troublemakers, most of the others are people who absolutely obey orders? fei ying had been in the hands of the chi family for three whole generations. even though leng jin peng had temporarily taken over for a period of time, he was still a member of the chi family. Do you think that the Army that you have trained for decades will listen to your uncle’s orders so easily?”

Shi Yalin nodded and agreed with Shi maowen. “ i’ll call the presidential palace immediately, ” he replied. “ fourth uncle, give uncle a call and ask about the situation there. ”

shi maowen nodded.

Even if Shi Yalin didn’t tell him, he would have called her immediately.

The Shi family had been waiting for this moment for 40 years. This time, they were in the right place and in the right place. They absolutely couldn’t ignore any details.

However, to be on the safe side, Shi maowen did not make the call himself. Instead, he got a bodyguard to make the call with his encrypted mobile phone.

Lu Guangsheng’s voice came through the phone.

“Hello, who’s this?”

Hello, director Lu. I'm from Qi Mao company.

Oh ... Lu Guangsheng's voice came from the other side.

"Your wife said that the marble on the wall was cracked. We called to see when you're free."

"Tomorrow night or the night after tomorrow will do," said Lu Guangsheng. Why don't you call me again tomorrow afternoon and I'll confirm it with you?"

"Alright, alright." The bodyguard quickly hung up the phone with a good attitude.

Shi Yalin looked at Shi maowen and raised her eyebrows slightly.

Shi maowen smiled and said, "although we'll be exposed if something happens to your master, the president won't have any evidence." At most, I won't be the president, but at least the Shi family won't collapse."

"So, the signal that fourth uncle and uncle Wanwan agreed on was correct?"

"You're completely correct." Shi maowen nodded.

"That means there's no problem?"

"Everything is ready for now. However, we still have to see if your uncle can control it when the east wind blows."

"Then I'll call you later." "But I think that with Chi Yang's rigid personality, even if he felt that something was wrong and needed to use people, he would use his own people instead of the Eagle," Shi Yalin said with a playful smile.

"you've got it right. If he really suspected Feng shengxuan, he would have used his own people. So, does Xuanji have enough people at Feng shengxuan's side?"

"Fourth uncle, even if you don't know Feng shengxuan well, you should know that for so many years, Feiying has never gained any advantage from the hands of KE. Feng shengxuan was a very outstanding man, and he was definitely an expert on par with Chi Yang. Therefore, whatever Chi Yang could think of, he could also think of. It's been a few months, and I've told you about the people who came in. Do you still not believe me? Even if you can't believe it, don't forget that Feng Ji Mian is the chairman of NS group, the world's number one Financial Group. She's not just a business-minded person. with feng ji mian's love for feng ming, do you think that feng ji mian wouldn't do anything and just wait for feng sheng xuan to fight chi yang?"

Shi maowen was finally relieved. He asked with a smile, "So this time, it's all thanks to my niece that I can only wait for Chi Yang to be killed?"

"Yes, I am." Shi Yalin nodded. clearly, he was in a good mood.

“Fourth uncle, don’t worry about the election. After today, no one will stop our Shi family’s path.”

Shi maowen nodded with a gratified expression.

“Don’t tell me you’re not working hard after your fourth uncle?” Shi Heng added.

Shi Yalin raised her eyebrows.

“I’m still waiting for your good news with Feng shengxuan. If you really get together with Feng shengxuan, not only will you be di gang’s wife, you’ll also be the Crown Princess of NS group. You’ll be able to inherit the NS group smoothly. At that time, our Shi family will truly be irreplaceable for the next three generations.”

shi yalin smiled, but her heart was filled with disdain.

even if feng shengxuan became a beggar, as long as she could have a child with him, what she could get in the future would be more than just disheng and NS group.

These people’s vision was too small after all.

However, since they shared the same interests in this world, Shi Yalin did not refute.

That was the truth.

At the Shengyang group’s energy headquarters, Chi zeyao had already explained the energy company’s operation mode and vision to NS group. He had also brought NS group to see the products that the energy company had developed.

Some household appliances that used to need electricity could actually be used in daily life under the research of Shengyang group.

For example, solar-powered refrigerators, solar-powered microwave ovens, and solar-powered floor heaters. Although these were small things, as long as the products developed by the Shengyang group could be taken to the balcony every three days to absorb an hour of sunlight, the energy device with the chip could be fully charged.

refrigerators and microwave ovens were still small items, but floor heaters were large consumables that used both air and electricity. once they were put on the market, they would be in high demand.

For a family without City Heating, even if it was only used at night in winter, it would cost at least 1000 Yuan a month. If they could buy solar energy, they would not need to use gas in the future.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3193

3193 Shock and admiration (3)

Not only did this save energy, but it also saved a lot of expenses for ordinary people.

This type of energy might not cause too much of a shock in Kamino, but in the extremely cold countries near the poles, where the temperature was below 0 degrees for half of the year, and the coldest could

reach-50 to-60 degrees, the people of these countries would not be able to survive the winter without heating.

However, the energy on planet glory was limited. In a cold country like this, the resources that could be developed underground for heating had almost been used up. If the entire country wanted warmth, they had to import from other countries. If they could directly purchase Shengyang group's solar energy products for heating, it would almost fundamentally change the country's wealth operation mode.

It was the same for energy vehicles.

Now, cars had entered thousands of households. They either burned oil, gas, or electricity. However, charging cars were very rare, and there weren't many places to park outside or in shopping malls that could charge. This caused a certain amount of trouble for charging cars.

But what about solar-powered cars? According to Akira chizawa, he only needed to park the car outside for two hours during the day, and he would be able to run 300 kilometers. In fact, as long as the car was running on the road, it could continue to charge.

This was an extremely terrifying creative development!

It was also a creative development that would make a huge contribution to mankind!

Not only did it save energy, but it also greatly reduced pollution.

If it wasn't for the fact that they were going to kill the Chi family today, as well as Chi zeyao and the others, this man would have been of great value.

"Ji Mian, what do you think of my energy company?"

After introducing the product, Chi zeyao looked at the NS group's Chairman, Feng Ji Mian, with a smile and love, looking for praise and cooperation.

Today, Feng Ji Mian was dressed in white sportswear. Her shoulder-length hair fluttered in the wind, exuding a youthful aura and the charm of a mature woman. Her elegant and bright facial features exuded a sense of handsomeness, but it didn't lose the exquisiteness and beauty of a woman.

Her eyes were filled with shock and admiration for her man.

he had already witnessed the power of mechas and the explosive power of the fusion of the reactor and solar energy. She thought that her understanding of this man had reached its peak.

But when he saw this, Feng jimian's heart was still in a state of shock.

As the chairman of a conglomerate with businesses all over the world, she knew very well what kind of earth-shaking changes these things would bring to life once they were successfully researched and put into life.

The way Feng Ji Mian looked at her husband was full of adoration. Other than adoration, her eyes were filled with pink bubbles.

Chi zeyao looked at his wife's expression and felt a little flustered. She was afraid that the people behind her had seen through her.

Who knew, seeing Feng Ji Mian like this, the people around her laughed coldly in their hearts.

Hehe, there were already pink bubbles. However many pink bubbles there were now, there would be as many blood bubbles later.

"I think it's very powerful. Zeyao, you're the most outstanding man I've ever met. I'm so lucky that no woman has been able to take you away all these years, making me a lucky woman to be able to stand by your side."

Feng Ji Mian's words came from her heart, but to the people around her, it was just an extremely fake statement.

3194 We have 4

"Then, is the chairman of Xuanji Feng willing to work with my Shengyang group?" Chi zeyao smiled.

Feng jimian smiled, "it's my honor." This kind of energy development project could have been taken care of by Chairman Chi alone, and the profits would definitely be huge in the future, but since you're willing to let me join, then I'll respectfully accept it. "

Chi zeyao laughed. actually, this is nothing. In the future, I'll be yours. I'll share my company's resources with you. This is called resource restructuring, isn't it? "

Hearing Chi zeyao's words, the people around them burst out laughing.

Most of the people who came with them today were from the Chi family. Seeing the couple being so loving, they were naturally happy.

But other than the Chi family's friends and family, the people around Feng Ji Mian also laughed.

they were laughing at chi zeyao's overconfidence.

Feng Ji Mian nodded and said with deep meaning, Yeah, that's right. You're mine. It's fine to share the company's resources with me.

In the ears of these people, this became: Chi zeyao's life was in Feng jimian's hands, so it was no big deal for NS group to take Shengyang's resources.

"Chairman, why don't we sign a contract with Chairman Chi?" The two vice chairmen of NS group who were with Feng Ji Mian suggested.

After all, this research was simply too heaven-defying. If it only belonged to the NS group in the future, it would bring immeasurable value to the group.

"Alright," he said. Feng Ji Mian nodded readily.

then I'll take you to the outside to see my solar core area first? " Chi zeyao suggested.

"It's so big outside. Didn't you say that you were going to the other mountain to take a look? Let's sign the contract first. With the relationship between our Chairman and Chairman Chi, is the NS group afraid of being scammed?"

"Alright, then let's sign the contract first." Hearing the words of one of the NS group's vice chairmen, Chi zeyao readily nodded.

Feng jimian laughed drily, "I didn't plan on investing in it. After all, you know that the investment in energy has always been high with little return." That's why I didn't bring my personal seal when you said you wanted to visit, so I couldn't transfer the money to you. I'll transfer the money to you tomorrow when I get back, and we'll sign the contract."

Without a private seal, there was no way to transfer the money. The money for the capital injection was agreed on before. The contract fee was two-fifth of the capital injection, which was the deposit. Without capital injection, there was no way to sign the contract. Even if both parties had the same intention, without a private seal, there was no way to sign the contract.

Chi zeyao was taken aback. Just as he was about to nod in agreement, the two vice chairmen of NS group said in unison, " "Chairman, we have it."

They also knew that Feng Ji Mian's goal wasn't to sign the contract, but to kill, so it was normal to hear that she didn't bring anything.

However, the return of this project was too great. If they didn't sign the contract today, they definitely wouldn't have the chance to sign another one tomorrow. Therefore, both of them wanted Chi zeyao dead, and they also wanted Chi zeyao's project. The best way was to invest now and sign the contract. Even if Chi zeyao died, they could still continue to get involved in this project.

Feng Ji Mian's eyes brightened as well. However, your stamp will require your funds."

The two deputy chairmen nodded. We believe in the Chairman's vision."

Chapter 3195

3195 Chi zeyao was killed (1)

Chi zeyao and Feng jimian both laughed when they heard this.

The two vice-chairman chuckled.

They thought that Akira chizawa was smiling because the project had been completed.

They thought that Feng jimian was smiling the same way as them, which meant that with Chi zeyao dead, not only would she get her revenge, but she would also make a fortune.

After signing the contract, Chi zeyao kept it. Feng Ji Mian happily put away the contract.

"Ji Mian, I welcome you to work with Shengyang." Chi zexiao extended his hand.

"I'm also very happy to be able to work with you." Feng jimian reached out and held Chi zeyao's hand tightly.

The way they looked at each other could only be understood by their close relatives.

The ultimate battle was about to begin, and no one could guarantee that there wouldn't be a great number of casualties in this battle.

Perhaps the motivation at this moment would be the last time they would hold hands with each other.

However, both Chi zeyao and Feng jimian had already made up their minds ...

Life and death!

"Let's go, I'll take you to the mountain to have a look."

"alright," he said.

The group of people drove three open-top sightseeing cars towards the direction of the mountaintop.

The top of the mountain was an open space with a good view. He could see the rising and falling machines that absorbed solar energy and wind energy throughout the entire mountain range.

At first glance, these machines were completely different from ordinary solar-absorbing versions.

Feng Ji Mian's eyes brightened as she looked down at the long stretch of solar energy absorbing machines.

zeyao, are those things that look like cannonballs absorbing solar energy? "

Chi zeyao nodded. this thing that looks like a cannon barrel is just a solar energy absorption port. Below it is the solar energy gathering chip. The chip can absorb solar energy to the maximum through the reactor. For solar energy, it was like an apparatus that would automatically change its position to the maximum according to the sun's daily rise and fall. It could be said that the previous solar panels only passively received solar energy. However, with this type of solar absorber, even at night, they could absorb the solar energy to the maximum extent through the reaction chip inside through the clouds. Until the sun had completely set on the other side of the planet. Therefore, a solar absorber can absorb more than 10000 times the amount of solar energy that those solar panels can absorb."

Feng Ji Mian nodded, then pointed at something that was clearly different from the solar absorber device. that thing absorbs wind energy? "

Because of Feng jimian's pointing, Chi zeyao looked in another direction.

In this direction, his entire line of sight was completely away from Feng Ji Mian.

"yes, this is yingluo."

"Bang-bang--"

Chi zeyao was still talking, the corners of his lips still slightly curved up. His entire body flew out after a "bang ", and then he fell to the ground.

In an instant, a pool of red blood appeared on the ground.

"Zeyao!"

Old master Chi's sorrowful voice rang out from behind Chi zeyao, but Chi zeyao had already been shot in the heart by the powerful force of the spear.

He fell to the ground, his body twitching slightly. His eyes were wide open with an expression of disbelief.

But at this moment, no one could care about him.

This was because when Feng jimian took advantage of Chi zeyao's inattention, she had struck him in the heart. Then, when she turned around and old man Chi shouted for Chi zeyao, she immediately fired a second shot at him. Chi Yang's attack had already arrived.

The people around Chi Yang fired at her when she fired her second shot.

Feng Ji Mian wasn't someone to be trifled with. She was dressed in sportswear for the convenience of her activities.

Hence, when the second shot and the subsequent countless shots came in succession, she had already quickly dodged.

However, when she jumped away, two solar-powered absorbers that could weigh up to a ton swept through the air with the sound of the wind, and they were thrown at Feng shengxuan and Feng jimian.

Feng Ji Mian had just rolled on the ground and dodged the bullet, but when she saw the giant thing coming at her, she bent backward in an unbelievable way. Her whole body leaned back, and the giant solar absorber brushed past her jaw.

"Swish-"

With a loud bang, the huge absorber fell to the ground and landed on the two NS group vice-chairman who had come with Feng jimian. The two of them were sent flying. The absorber, on the other hand, could not stop its inertia. It only stopped when it hit a rock behind it.

The two deputy chairmen, however, were smashed into meat patties.

After Feng Ji Mian's attack, the battlefield immediately fell into a chaotic battle.

Chi Yang had brought a few men with him, as well as Aiden and Xiao shenbin.

On Feng shengxuan's side was Feng jimian and a few people behind her.

Almost at the same time Chi Yang attacked Feng jimian, Feng shengxuan also attacked Chi Yang.

Therefore, after Chi Yang's first attack on Feng jimian failed, he didn't have another chance to attack Feng jimian. He could only focus on Feng shengxuan.

Chi Yang and Feng shengxuan's speed was extremely fast, and their strength was so great that no one else could join in.

Therefore, the battle was divided into three sides from the beginning.

Chi Yang and Feng shengxuan were on their own side. As for Feng Ji Mian, she was fighting Aiden and Xiao shenbin. On the other hand, Feng Ji Mian's men were fighting with Chi Yang's men. The number was just about the same.

However, the battle had only just begun, and Chi zeyao had already died. Feng jimian's two subordinates had also died.

"Godmother, why did you do that?" Aiden's eyes widened in disbelief.

Even though he had joined the battle, he didn't kill Feng Ji Mian. After all, they used to have such a good relationship. So every time he joined the battle, it was only when Xiao shenbin was on the verge of losing that Aiden joined. When they got the upper hand, Aiden would go easy on them.

After all, she had been calling Nangong Nuannuan 'godmother' for so many years, and Feng Ji Mian had indeed treated them very well. He couldn't bear to kill her.

However, Feng Ji Mian didn't show any mercy to Xiao shenbin and Aiden, causing the two of them to quickly be covered in wounds even though they were only dealing with one.

On the other side, Chi Yang's men and Feng Ji Mian's men were equally matched.

A few helicopters flew over from the distance. The plane had just seen its body when a few missiles were already launched.

A cloud of dust suddenly blew out from Chi Yang's body. The cannonballs either deviated or headed straight for the helicopters.

"Boom boom boom boom--"

With a few deafening explosions, several planes were blown up by the missiles that flew back as soon as they appeared.

The people on the plane were all Feng shengxuan's capable men, including the vice-captain of the team, Rennes, and Winnie, who was standing side by side with Danchi.

Stephen, Rennes, and Wayne were the three most powerful men under Feng shengxuan. The real KE was managed by the three of them. She was someone that Feng shengxuan trusted very much.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3197

3197 Duel (3)

So this time, when KE and Chi Yang really faced each other, other than the already dead Stephen, the other two would definitely come.

the two of them sat in different helicopters and tried to attack from different angles.

They had also heard that when WeiDU had tried to kill Nangong Nuannuan, Chi Yang had taken control of the missile and even pushed it out.

However, at that time, the missile was only controlled when it rushed into the hotel, and the final explosion clearly affected the hotel. However, Chi Yang and Nangong Nuan Nuan were lucky and managed to escape.

This time, the cannonballs they fired were all aimed at Chi Yang. However, Chi Yang waved his arm and those cannonballs were sent flying back.

On the plane, Ryan and Wayne's eyes widened, and they only had time to roar-

"Jump!"

With a deafening explosion, several helicopters were destroyed. The huge shock wave caused the few of them to be blown down before they could even reach the best landing spot.

Rennes pulled the ladder and jumped down before the plane exploded. He grabbed a ladder when the plane lost its gravity.

They were about to land safely, but who knew that Chi Yang had used so much force to get rid of the missiles. While Feng shengxuan was still fighting him and he was using his supernatural ability to get rid of the missiles, Chi Yang was still able to throw the four huge things in front of him.

Rennes was in despair as he realized that four one-ton solar-powered regulators were coming at him from all directions.

At this moment, Ryan was in a free-fall speed, and there was no leverage in front, back, left, right.

When he saw something coming at his face, he could almost hear the howling of the wind behind him.

Life and death were on the line, but Ryan found that he had no power to fight back except to continue falling.

He thought that he was dead for sure.

Even if he had accepted the potion, he was still made of flesh and blood. One of these things was enough to smash him to death.

However, just as the absorber was 0.01 seconds away from killing him, they stopped their momentum and flew in different directions at an even more terrifying speed.

He successfully landed on the ground in the next moment.

"Be careful!"

Xiao shenbin and Aiden warned Feng jimian almost at the same time, and Feng shengxuan also looked over in panic.

Chi Yang didn't hold back. While Feng shengxuan was distracted, he threw a punch at his chest.

He had aimed for his heart, and it was clear that Chi Yang had not held back at all.

Feng shengxuan was shocked.

Feng Luan, who was hiding in the dark, narrowed her eyes and clenched her fists tightly.

How many days and nights had he been waiting?

The reason why he'd rather struggle on whilst at death's door in this world than go to another place to live his life as a deity was because he wanted to see Chi Yang or Feng shengxuan suffer after they found out his true identity.

He didn't have much spirit energy left, but these two people had experienced one life after another. He really couldn't wait any longer.

Hence, when she saw Chi Yang's missile-capable fist flying towards Feng shengxuan's heart, Feng Luan's eyes were filled with the satisfaction of revenge.

Chapter 3198

3198 Can't win (4)

Although he didn't want Chi Yang to die, Feng shengxuan's death was the same. He wanted to see how Chi Yang and his insufferably arrogant father were going to establish themselves in this world.

Feng shengxuan used all his power and his hands to block the attack.

"Bang!"

A huge shock wave was emitted from the two of them. With them as the center, it instantly spread out to a radius of dozens of meters.

Some of the mercenaries who hadn't been given medicine were sent flying, spitting out blood.

As for the mercenaries who had been drugged, they were also knocked back several meters by the huge shock wave.

Feng shengxuan was surprised as well.

Before the hypnosis was lifted, his strength was actually about the same as Chi Yang's. However, after the hypnosis was removed, a lot of the strength that had been sealed in his body due to the hypnosis had returned. He thought that he would definitely be much more powerful than Chi Yang.

Later on, he discovered that Chi Yang could gather spiritual energy and use the limited spiritual energy in this world to improve himself. He thought that Chi Yang's strength would at most increase through this period of gathering spiritual energy.

However, he didn't expect Chi Yang's strength to have become so terrifying.

I feel ...

The current Chi Yang and him after the hypnosis were actually on par.

Feng shengxuan had taken Chi Yang's punch with his own strength that wasn't strong enough to dispel the hypnosis. However, to prevent himself from being seriously injured, he had wrapped his internal organs with his spiritual power.

"Bang!"

with a muffled sound, feng shengxuan's body crashed into the mountain behind him.

the huge impact created a hole in the mountain behind feng shengxuan, and countless rocks fell from the side of the mountain.

"Little Xuan!"

Feng Ji Mian shouted. She stopped fighting and charged at Chi Yang, trying to fight him to the death.

But the current Chi Yang wasn't someone Feng Ji Mian, a 3s-level mercenary without any special abilities, could compare to.

Feng Ji Mian rushed over, but she couldn't even get close to Chi Yang.

The people from Feng shengxuan were also staring at the motionless man in the hole. They couldn't believe that their powerful King had died just like that.

Feng Luan looked nervously at Feng shengxuan, who was still in the hole, hoping that he had already been killed by Chi Yang.

Unfortunately, Feng shengxuan, who had been motionless just a moment ago, opened his eyes when he looked over.

"Pfft-"

Feng shengxuan spat out a mouthful of blood. His eyes were filled with killing intent.

Chi Yang walked up to Feng shengxuan and stood in front of him. His eyes were also filled with hatred and anger.

Seeing this, Rennes quietly raised his gun and prepared to kill Chi Yang.

However, when he raised his gun, Xiao shenbin and Aiden had already aimed at him.

wayne, who was standing next to rennes, saw this and pointed his gun at xiao shenbin and aiden along with the other top-tier mercenaries from KE.

For a moment, the entire mountain peak became a dead knot that could not be unraveled.

Whoever pulled the trigger would kill a large number of people here.

"Feng shengxuan, I thought our family had treated you well. When you came to my house with stomach cancer, how did my second uncle take care of you? He cooks every day and makes what you like to eat. He urges you to get up and eat on time every day. As long as it was something that could stimulate one's appetite, he would cook and study it. I thought that everyone would know how to be grateful!"

Hearing Chi Yang's words, Feng shengxuan's eyes were filled with mockery. He was in no hurry to refute.

"I thought that since you've come to our family, you'd slowly integrate into our family for Nuan Nuan's sake. As Nuan Nuan's older brother, since you decided to help him destroy your KE, that means you can let go of all the criticism and be a good person!"

Aiden was stunned. He looked at Feng shengxuan in disbelief.

"Your KE? you're qianqian, qianqian King!"

Feng shengxuan smiled. His beautiful face, which seemed to have been carefully sculpted by God, coupled with the bright red blood stain on the corner of his lips, made him look like a vampire who had stepped out of the depths of the forest, bringing with him a destructive beauty.

"Aiden, I've always thought you were stupid, but I didn't expect you to be this stupid. You only realized it now?"

Aiden was shocked.

"not long after boss returned to jiang zhou, she told me that King isn't dead. Although I believe boss's words, I've always felt that King is the one behind Viper."

Feng shengxuan's eyes suddenly darkened. "Oh, really? Did Nuan Nuan tell you this after she returned to Jiangzhou? But she never told me. "

feng shengxuan looked at chi yang with a little resentment. " "So, it was Nuannuan who told you about my identity?"

"I was the one who told Nuannuan about your identity," Chi Yang said, shaking his head.

Feng shengxuan's pupils contracted. you knew all along? "

Chi Yang laughed coldly,"after all, the Chi family's third generation has been dealing with you guys at KE." If it wasn't for KE, my father wouldn't have died 17 years ago. Do you think that, as the commander of the flying Eagles, I wouldn't even know who my enemy is?"

Feng shengxuan stared at Chi Yang. Seeing the coldness and determination in his eyes, he didn't say anything.

Feng shengxuan, do you know why I kept you in the Chi family despite knowing that you're King? "

Seeing that Feng shengxuan didn't answer, Chi Yang said, " "because i'm grateful that you've raised nuannuan."

At the mention of Nangong Nuannuan, Feng shengxuan's eyes flickered for a moment.

"I don't care what methods you used to kidnap Nuannuan and sell her to you. I'm grateful that you allowed Nuannuan to live a good life and made her a cheerful and happy girl. So, even if I hate you, when I think about how you've raised Nuannuan, I'm willing to let go of all my prejudices. since you're willing to destroy your KE and come to the chi family, and you're willing to live with us, it means that you're remorseful. But you? You took advantage of Nuan Nuan's absence to kill my grandfather and second uncle. I've already warned you, but you still chose to exterminate my Chi family.

Feng shengxuan, no one can destroy my Chi family while I'm still alive. You can't either! So, you only have yourself to blame for now."

"Chi Yang, I've never understood why Nuannuan would fall in love with you. After all, you're a straight Man of Steel, and you don't have the gentleness that you should have. How blind do you think Nuannuan must be to like you?"

At this moment, Chi Yang's face couldn't help but Twitch after hearing Feng shengxuan's words.

What did she mean by blind to like him?

Wasn't it a little too much?

but now I know, " Feng shengxuan continued to mock. so, the experts are among the common folk. I think I should give my title of Best Actor to you. Does Nuannuan know that you're such a green tea?"

Chi Yang:

"It's good for you to face me in front of her, but you brought people to destroy my contact point in dizhou behind my back. This is what you meant by treating me very well? Then I've really seen it. "

"Feng shengxuan, don't you know why I went to destroy your contact point? Huang zichu's leg was already in that state because of you, and you still want to kill him. If I hadn't appeared in time, Huang zichu and Huang Ziyu would have been killed by your men. I destroyed your contact point as a warning. But you? But you took advantage of my absence and attacked my grandfather and second uncle!"

"they deserved it! They deserve to die!"

"What did you just say? Say that again!"

Chi Yang rushed to Feng shengxuan's side and grabbed him by the collar.

Feng shengxuan had suffered a very serious internal injury and had yet to catch his breath. He could only let Chi Yang lift him up.

however, his mouth did not have the slightest intention of retreating.

"I said, they, should, have, died!"

"Bang!"

Chi Yang was furious. He hammered Feng shengxuan's stomach, and more of the rocks that had caved in fell off.

Feng Ji Mian went crazy and once again pounced towards Chi Yang.

This time, she really got close to Chi Yang. However, Chi Yang grabbed her by the neck and her entire face turned red.

if he used just a little more force, feng ji mian's neck would snap.

"Let go of my mother!"

Feng shengxuan snapped out of his pain. When he saw how Feng jimian was being controlled, he was instantly enraged and shouted.

However, Chi Yang's grip tightened, and Feng Ji Mian's face turned purple.

Feng shengxuan was really getting anxious now. After all, this was all a real act. Wasn't Chi Yang being too harsh on his mother?

Feng Ji Mian, on the other hand, found it unbelievable. Chi Yang had indeed lifted her up. She could feel her face turning red, but she could still breathe. Moreover, she felt that the reason why her face was red was because there was a stream of air in her body that seemed to be drawn by the red sun and directly rushed to her head.

Chi Yang looked at Feng shengxuan, who was already panicking, and sneered. "What, you can't take it anymore? Then why don't you think about whether you held back when you tried to kill my grandfather? also, your mother urged my second uncle to treat her so well and like her so much, but did she hold back when she tried to kill my second uncle?"

Chi zeyao was no longer breathing. She was lying quietly beside the old man. From that moment on, old man Chi had never looked at Feng shengxuan again.

The old man lowered his eyes, and no one could see the expression in his eyes at the moment. However, she also knew that he had truly treated Chi zeyao as his own son all these years. And Chi zeyao was no longer the good-for-nothing who lived off a woman as everyone had said. Although Chi zeyao was not in good health, he was a true genius.

Everyone also finally understood that the Chi family was able to stand tall and not fall because Chi Yang was supporting them. chi zeyao was also a towering tree in the chi family.

However, this person had died by Feng Ji Mian's hands without any warning. And it was the old man who saw it.

Although Chi zeyao was not the old man's biological son, he had accompanied the old man for so many years. It should be enough for the old man to treat him as his own son, right?

The old man was once again experiencing the pain of a white-haired man sending a black-haired man away. He must be in great pain, right?

however, all this grief had nothing to do with feng shengxuan.

my mother is my father's child bride, " he sneered. their relationship is not something that anyone can compare to.
