#### Chapter 3211

3211 Despair (4)

At this moment, Feng Luan was already in despair.

So many years!

It had been so many years!

He had spent so many years and several lifetimes trying to make these two people kill each other, but he had failed in the end.

This life was the life he was closest to success. For the sake of this life, he had set up three generations of his family.

Why didn't they go and kill each other?

Feng Kun couldn't understand.

They were clearly enemies every time, and they were mortal enemies that could not be reconciled. Why did they not attack each other at the end every time?

"Why aren't you saying anything?" Feng shengxuan's lips curled into a mocking smile as he said, "If it's convenient for you to answer my question just now, then you can answer why you hypnotized me. Why don't you let me get along with Baili Yue, but force me to love Nuannuan? What do you mean by that?"

Feng Kun was shocked.

She didn't expect Feng shengxuan to even know that she was hypnotized.

no wonder he had felt that feng shengxuan, who had stopped pretending, was very similar to the feng shengxuan from before. It turned out that Yingluo had been removed from the hypnosis.

"You're out of the hypnosis?" Feng Su couldn't accept the fact that the person he hypnotized had been removed without self-destruction.

This world had always broken through his understanding again and again.

"You finally admit it. Since you've admitted to it, then tell me, why did you do that?"

little Xuan, it's not that I'm evil, but you can't like Baili Yue.

"Oh?" Feng shengxuan looked at Feng Luan, eager to hear more.

"bai liyue is not from our world. since the Chi family is so desperate to acknowledge you as their family, you should have heard that there is another world in another dimension that is connected to the glory planet. However, that world had a very strong sense of hierarchy. They also looked down on the abandoned humans on this planet, so they did not allow their children to be with the people on this planet.

Your father only had one son, and I saw that you were so close to Baili Yue. I was afraid that you would fall in love with her and get killed, so I hypnotized you. At that time, I saw that you were rather interested in Nuannuan, so I made you like her.

little xuan, i'm really doing this out of good intentions. I hope you can trust me. In order to hypnotize someone deeply, spiritual energy was required. Do you understand spiritual power? the reason why i'm so powerful is because i'm also from that world. after coming to this world, the spirit energy here was exhausted, and there was almost no spirit energy in the air. so, i spent a lot of time and effort for you. I'm not asking you to thank me, I'm just asking you not to hate me. Little Xuan, I really do treat you as family."

Feng shengxuan narrowed his eyes.

From Feng Kun's description, he should have really only hypnotized him about matters of the heart.

After getting the answer he wanted to know, Feng shengxuan didn't want to continue the conversation.

Without giving Chi Yang any time to react, Feng shengxuan went up against Feng Luan.

Just a moment ago, Feng Kun was still talking to Feng shengxuan. After all, he had finally managed to clear his mind and come up with a good excuse through their conversation. However, Feng shengxuan didn't play by the rules and started fighting him.

He didn't expect Feng shengxuan to make a move so suddenly. Feng Ming, who was already heavily injured, was sent flying by Feng shengxuan's palm.

#### **Chapter 3212**

3212 being struck (5)

When Chi Yang saw this, he immediately controlled the dagger and stabbed Feng Luan's back.

"Ah!"

That knife seemed to be very lethal to Feng Luan, so Chi Yang cherished it very much.

After stabbing him once, he took the dagger back before Feng Luan could snatch it away.

That knife didn't really hurt Feng Luan's heart, but it seriously injured him again.

The most important thing was that Chi Yang's shamelessness was that he always launched sneak attacks. Moreover, after the two blades stabbed him, they still had to spin around in his body.

That was a divine artifact! It was much more lethal than explosives!

Chi Yang's two injuries were the main cause of the rapid loss of his spiritual energy.

And Chi Yang had obviously discovered this a long time ago, which was why he spared no effort to stab him twice. Otherwise, he would have shot whenever he had the chance.

After injuring his opponent, Chi Yang knew that he had no chance to attack again, so he also chased after Feng Luan and fought with her.

Feng Su was surprised to find that Feng shengxuan's strength was much stronger than his previous level.

Feng shengxuan's technique was so powerful that he could fight against the Masters of that world.

Under the circumstances of his sudden attack, Feng Luan had already exchanged five or six moves with him, and she realized that she could only fight to a draw with him even though she was at a disadvantage!

With his strength, he couldn't gain any advantage over Feng shengxuan!

before they could recover from their shock, chi yang joined in.

The moment Chi Yang joined in, the entire battle situation changed.

At first, he could still suppress Feng shengxuan and estimated that Feng shengxuan would be at a disadvantage in less than 20 moves. However, after Chi Yang joined in, Feng Su was in a bad mood.

This was because he realized that he had no way of gaining the upper hand when the two of them joined forces.

this kasaya

How was that possible?

Originally, Feng Luan's strength was almost depleted due to the suppression. In addition, she had been tricked by Chi Yang and Feng shengxuan a few times today. Now that she was seriously injured, she was truly powerless to fight.

what shocked him was that after he attacked chi yang, chi yang's body didn't seem to have suffered any damage.

How was this possible?

Feng Kun felt that he already understood this society and the people he wanted to kill.

But now that he was fighting them, he realized that he had never really understood his enemies.

He thought about how his decades of hard work had gone up in smoke.

She really didn't know if Yingluo would have such a chance again next time. Feng Kun was burning with anger.

But,

Chi Yang and Feng shengxuan had already joined forces, but Feng shengxuan wasn't even willing to listen to his explanation. It was obvious that he didn't trust him anymore.

If he wanted them to kill each other, did he really have to wait until they died of old age and reincarnated before he could plot against them?

He was unwilling to accept this!

He really couldn't accept this!

“Kacha-bang ...”

With the impact from above, Feng Luan felt as if her entire body had been electrocuted.

He had been able to fight Chi Yang and Feng shengxuan to a draw, but Chi Yang suddenly punched him in the chest.

It was so painful that Feng Kun groaned.

“Kacha-bang ...”

another sudden attack poured in from the top of his head. this time, it even hit the wound on his chest directly, causing feng luan to scream in pain.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3213**

3213 Can't be killed 1

“Crack-”

There was another crack. This time, Feng Luan dodged faster, thinking that the attack wouldn't hit him.

In the end, with a “bang,” the third attack once again entered his head and directly hit his wound.

Chi Yang and Feng shengxuan's attacks didn't stop at all. It was as if they weren't afraid that the attack would hit them.

Feng Tan was greatly shocked.

Because the fourth “crack” sounded again, Feng Luan could only escape by hiding.

Who knew that even though he was fast at hiding himself, his opponent was faster than him. With a bang, another attack landed.

Feng Kun was directly hammered to the ground.

just as chi yang and feng shengxuan were about to attack again, feng luan disappeared from where she was. the next moment, the gun in her hand was pointed at old man chi's temple.

“Don't move!”

Feng Luan shouted.

Although it was more convenient for him to break Chi Yuancheng's neck with his hand, Feng Luan knew that the stupid humans on this planet only recognized guns.

Thus, he had pointed a gun at Chi Yuancheng's head.

Then, he endured the intense pain in his body and yelled at Feng shengxuan in exasperation, “Feng shengxuan, are you crazy? You believed Chi Yang just by doing a DNA test! Trust your enemy! They attacked me without giving me any chance to explain! Look at what you've done to me! Feng shengxuan, I can kill you easily if I want to, but why did I have to raise you? Why don't you think about this?”

It just so happened that Chi Yang and Feng shengxuan had used all their strength to fight Feng Luan. Although the fight didn't last long, they had used up all their energy in an instant.

Feng Kun was too strong!

So, taking advantage of this time, Chi Yang quickly used his special ability to mobilize the energy gas in the air around him, the professional term for it was spiritual Qi. Then, he poured the gas into his and Feng shengxuan's bodies.

Feng Su really had what it took to be the boss of the villain. Even though he and Feng shengxuan had used 12% of their strength, they still couldn't hurt Feng Su at all.

if it weren't for second uncle's solar-powered high-tech weapons and his nuannuan's unparalleled speed, they wouldn't have been able to compete with feng kun even if they had come fully prepared.

While receiving Chi Yang's spiritual Qi, Feng shengxuan looked at Feng Luan and said, " "Okay, then I'll listen to you. Why did you deliberately steal my father away, instill hatred in him since he was young, and go against my grandfather? If you didn't like my grandfather, my uncle, and Chi Yang, you would have had ten thousand chances to kill them. Why did you raise my father and me?"

Feng Tan sneered. that's right. That's what I wanted to ask you. Since you think that I have a grudge against the Chi family, you've also seen my strength. Even if so many bombs were to land on me, they wouldn't be able to kill me. With my strength, if I really had a grudge against Chi Yuancheng, Chi zeyang, and Chi Yang, I would have killed them long ago. Why would I need to go through so much trouble to raise your father and have him fight with the Chi family? and after the fight ended, I went through so much trouble to raise you and then let you kill them? Am I crazy?

Little Xuan, I'm your real uncle! Your father isn't a child of the Chi family at all. He was sick when he was young, and I need a suitable child's blood to change his blood so that he can live."

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3214**

#### **3214 Not smart enough (2)**

"It just so happens that the Chi family's child is suitable, so I asked someone to steal their child to exchange blood with your father. That's why your DNA is the same as the Chi family's. Little Xuan, I'm really not lying to you. After killing Chi Yang, Big Uncle will take you away from here forever, okay?"

Feng shengxuan looked at Feng Kun and sneered, 'do you have the nerve to repeat what you just said? If you have the nerve to say it again, I might really believe you."

Feng Kun:

"Feng Luan, although I don't know why you want Chi Yang and I to kill each other, don't you think that you've already lost? You have nothing but martial strength. You've spent so much effort and planned for so many years, but it's not enough for you to use your own brain and destroy a good hand of cards."

Feng Luan stared at Feng shengxuan. He really didn't understand what Feng shengxuan was trying to say. He didn't know what he had failed in that had caused these two to come to a united front and fight him to the death without saying a word.

“Little Xuan, what have I done to make you distrust me so much?”

At this moment, Feng Kun really felt exhausted.

Feng shengxuan was a little speechless. This guy still couldn't tell.

“Your brain isn't enough! Feng Kun, since you also know that my second aunt is a devoted woman, why have you never doubted the person standing by my second aunt's side since the beginning?”

Nangong Nuannuan couldn't stand it anymore. She felt that the Chi and Nangong families were really lucky.

Three generations of people had been schemed against by one person. If it was someone with a brain, the Chi family and the Nangong family would have collapsed. Chi Yang and Feng shengxuan would definitely turn against each other.

fortunately, feng luan's reaction wasn't fast enough, and her reflex arc was long enough to save the chi and nangong families from danger again and again.

After hearing Nangong Nuannuan's words, Feng Luan looked at the man Feng Ji Mian was intimately holding onto.

Chi zeyao!

He had also met Chi zeyao in Saibo last time. Even though he had his suspicions about Chi zeyao, he had sent someone to test him before, and Chi zeyao had no problems.

he was just an ordinary person without any fighting power.

It was because he could sense Reiki. He could sense who was stronger.

Then why did Nangong Nuannuan mention Chi zeyao?

Wait, Wuwu

He didn't seem to be able to sense Chi Yang and Feng shengxuan's power.

Or rather, his perception of their power was wrong!

Then chizawa yaxuan

Feng Luan looked at Chi zeyao for a long time before her reflex arc arrived.

feng luan's pupils suddenly contracted, and only then did she realize that chi zeyao was indeed powerful. He must have been very strong, otherwise he wouldn't have dared to let the bullet brush past his hair.

Chi zeyao had been bedridden for a long time, so how could he have such terrifying and profound strength?

Feng Luan's pupils constricted again as she sized up Chi zeyao.

He was stunned!

chi zeyao had been standing next to feng jimian the whole time. he thought that feng luan would be able to discover his identity when she asked him about it. However, he did not expect Feng Kun to talk nonsense and ignore him.

Now that Nuan Nuan had changed the topic to him, Feng Kun's eyes only narrowed after staring at him for a long time.

He thought that Feng Luan had finally discovered his identity and was about to speak, but he saw that he was still confused.

Chi zeyao was a little confused.

#### **Chapter 3215**

3215 I've disappointed you 3

It was not until the second time, when Feng SU's pupils contracted again, that Chi zeyao was certain that the other party had guessed it.

This touching reflex arc

"big brother, how have you been?"

After more than ten years of recuperation, Chi zeyao had become a true gentleman.

He definitely wouldn't say anything offensive, so even in the face of an enemy, he still showed a light smile.

Big brother!

This was how Feng Ming had once addressed him.

Although he had already guessed Chi zeyao's identity, he was still not sure.

It was only when Chi zeyao called him " big brother " that Feng Luan finally recovered from her shock. Her eyes were filled with disbelief.

Looking at Chi zeyao's faint smile and ordinary looks, the combination of these two gave him an unparalleled sense of warmth. Even he had to admit that even if a man had an ordinary appearance, as long as his temperament and self-restraint reached a certain height, he could also exude a kind of dazzling light.

Although they were the same height, Chi zeyao and Feng Ming were completely different in terms of temperament, aura, and appearance. But after he called him " big brother, " he was shocked to realize that these two completely different people had perfectly overlapped in his heart.

"feng, ming!"

These two words were the last thing Feng Kun wanted to mention, and he was most afraid of it.

Because once it was confirmed, it would prove that his decades of hard work had all been in vain.

However, what he was afraid of happened.

“Yes,” Chi zeyao smiled.

As if he was afraid that he wouldn’t be able to anger Feng Yao to death, Feng Ming continued to smile warmly. thank you for taking care of my wife and son for me for the past ten years. You, Yingluo, have taken good care of them.”

“Pfft-”

This time, he was really so angry that he vomited blood.

He vomited blood from old man Chi’s head.

Everyone was speechless.

“You’re Feng Ming? You didn’t die?” feng kun’s face was filled with disbelief.

How was that possible?

He had clearly seen Feng Ming and Hiroshi chizawa get blown up. The moment the explosion occurred, he used the teleportation talisman to leave.

Why did he not die?

“Yes, I didn’t die. My big brother kicked me away at the last moment, so I’m only seriously injured but still alive. I’m sorry to disappoint you.”

Chi zeyao’s every word was polite, but it made Feng Tan want to vomit blood.

he hated this world. not only did it not have spiritual energy, but it also had the suppression of laws. Although there was nothing in this garbage world, humans were quite fond of researching new things.

And Feng Ming was that person who loved to research things.

The things that he had researched made him feel terrified. That’s why he told him to die.

however, not only did this person not die, but he also returned to the chi family and stayed in seclusion for so many years.

No wonder Feng shengxuan wouldn’t kill Chi Yang no matter what he said.

“I see.”

Feng Luan’s previous bitter expression instantly disappeared, and the gloominess on her face was obvious.

“No wonder the two of you attacked me without any explanation. So Yingluo, you’ve already acknowledged your family.”

“Feng Kun, why did you let Chi Yang and Xiaoxuan kill each other? it’s very easy to exterminate the chi family, why do you want them to kill each other?” This was the only question that everyone could not figure out. Although he knew that Feng Luan might not tell him, Chi zeyao still wanted to give it a try.

“You want to know?”

3216 blackmailing (4)

Feng Luan pointed the gun at old man Chi's temple. then let Feng shengxuan kill Chi Yang. Or Chi Yang, you can use this knife in your hand to kill Feng shengxuan. I'll tell you the answer. Otherwise, Zhenzhen, your grandfather will be dead.”

Seeing that Chi Yang and Feng shengxuan were unmoved, Feng Luan said to old man Chi, ” “chi yuancheng, look at you. although you've found your son and grandson in your old age, no matter who it is, they don't seem to care much about you! I've already captured you for such a long time, yet not a single one of them asked me to let you go.”

Chi Yang and Feng shengxuan moved almost as soon as Feng Luan finished speaking.

Feng Luan was shocked to see that the two of them didn't care about old master Chi's life.

Because the moment they moved, he had actually shot old master Chi in a fit of anger.

However, Chi Yang and Feng shengxuan still didn't react. other than anger, other than the fact that he was stronger than before, as if he didn't need to waste any energy fighting him.

Only then did Feng Kun realize that the old man he had shot to death wasn't the real man.

Because even though he had fallen, he still had signs of life.

The key was that after he fell, he stood up again. Then, just like before, he either didn't speak or just laughed.

but at this moment, feng luan already knew that she had been deceived and didn't pay any more attention to old man chi yuancheng.

He knew that he had been caught like a turtle in a jar. He had become a turtle.

This time, Chi Yang and Feng shengxuan, who had absorbed enough spiritual Qi, were even more powerful than before. This time, Nangong Nuannuan went all out. She wore her glasses and used the Super-useful high-tech that her second uncle had developed to seduce Feng Kun.

Although her power had improved as well, her strength was still far from Chi Yang and Feng shengxuan's. That was why no one allowed her to fight in this battle.

At least, Nangong Nuannuan and Chi zeyao weren't going to go on stage until Chi Yang and Feng shengxuan were at a disadvantage.

Feng Luan was already severely injured, and now, Chi Yang and Feng shengxuan had absorbed her spiritual energy to replenish their strength.

More importantly, the missiles that were launched from who knows where could hit the most vulnerable part of his body every time.

The place where he had been stabbed by the divine weapon had already been struck several times. If this continued, not only would he not be able to achieve his goal today, but he would also have to pay for his life here.

Feng Kun thought about it and decided to leave first.

After all, Chi Yang and Feng shengxuan were just ordinary people. No matter how powerful they were before, they usually used helicopters or fighter jets to fight in the air in this world.

however, feng su was not from this world. in order to escape from the pincer attack, he found an opportunity and rushed into the air with a whoosh.

When he was in the air, he would have time to take out a teleportation talisman and teleport himself out.

As for making them kill each other, he was afraid that he would not be able to think about it in this life. If he wanted to succeed, he could only think of a way to kill these two people separately in the future and then let them reincarnate.

This time, he must learn from his experience and not give them any more chances.

It was a pity that his strength had fallen to the lowest limit, so in his next life, he would not be able to hypnotize any of them.

Feng Luan dodged to the air, giving Nangong Nuannuan the best chance to escape.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3217**

##### 3217 Exploded (1)

A dozen solar and Chemical Reactor explosions mercilessly bombarded Feng Su.

Most importantly, Nangong Nuannuan could clearly see the most vulnerable and fatal part of Feng Luan's body, so she would attack the same place every time.

Not to mention taking out the teleportation talisman and burning it, from the moment he flew up, the explosions had all started on him, causing him to feel as if his whole body was cramping up.

On the ground, in order not to hurt Feng shengxuan and Chi Yang, the explosion wasn't as strong.

Feng Luan's blood was boiling from the explosion.

Why did he hate this planet? This was the reason!

This was because the people on this plane did not need to cultivate. If they did not cultivate, they would not have the strength. He didn't know which damned person was behind this, but he had cast a rule spell on this plane. Once a violation was discovered, this plane would launch a strong imprisonment and attack on the person.

He and Wen Wan were the kind of people who were harmed by the plane's rules.

Wen Wan's strength was not high to begin with, so she was slightly better. He was the most miserable.

Compared to the power he once had that could easily destroy a planet, the power he had now could be said to be a remnant.

As for him, it could be said that he was struggling on whilst at death's door.

He and Wen Wan were both trapped in this damn planet, unable to escape. Now, even if he wanted to leave, he could not.

Although these explosions weren't as powerful as the heavenly Tribulation, they were almost the same in terms of his current physical fitness.

Feng Luan screamed in pain as she quickly fell from the sky.

However, he didn't expect that everyone below him was too lazy to fight with him. They all dodged.

There weren't many people at the top of the mountain to begin with, so Chi Zeyao provided each of them with a mecha suit.

With the mecha suit, everyone could fly directly into the air. Other than Chi Yang and Feng Shengxuan, no one knew how they were able to fly in the air. However, they really didn't catch anything. They just hovered in the air and looked coldly at Feng Luan, who was surrounded by the explosion.

Meanwhile, Feng Luan was already dazed by the explosion. All his vision was covered by the dazzling flames, and he couldn't hear anything other than the huge explosion.

This caused him to lose even his instinctive judgment.

He could feel more and more blood flowing out of his body. If this went on, he wouldn't even need to compete with Chi Yang and Feng Shengxuan. He would be killed by this inexplicable explosion.

Feng Luan's heart turned cold.

For the first time in his life, he felt the real taste of death.

He had always thought that he was not afraid of death.

As long as he could see Feng Shengxuan kill Chi Yang, and as long as he could see Chi Yang's arrogant father in pain, he would have no regrets in his death.

However, when it was really time for her to die, and to die in such an inexplicable way, Feng Luan felt the crazy desire to live in her heart.

Forget it, as long as there's life, there's hope.

Although forcefully increasing his strength would rapidly shorten his life force under the suppression of the laws of the world, and he would be in a period of fatigue for the next few decades, it was still better than losing his life.

At the thought of this, Feng Luan held back the explosions that were madly smashing at her and gathered Qi in her dantian.

To Nangong Nuannuan's surprise, she discovered that there was something like a star in Feng Luan's dantian.

### Chapter 3218

3218 I'll throw 2

At the same time that she saw this thing, Chi Yang saw the spiritual energy that he had already shifted away begin to rapidly pour into Feng Luan's dantian.

No matter how Chi Yang tried to stop it, the spiritual energy was like a flood, rushing into his body.

"Be careful!"

After Chi Yang said this to everyone, under the situation where he couldn't stop the spiritual energy from pouring in, he gathered all the solar energy from the absorber and let it quickly flow into Feng Luan's body.

The solar energy was not harmful and was beneficial to all living things, so Feng Luan's body did not reject it.

The influx of a large amount of solar energy reduced the influx of spiritual energy, filling Feng Luan's body with a lot of energy.

the explosions were still going on. although each explosion could seriously injure feng luan, under feng luan's absorption of spiritual qi and solar energy, these injuries were rapidly healing.

Feng Luan had already been badly damaged by the explosion, and her skin, which was covered in blood and flesh, was rapidly recovering under such a terrifying repair.

Even Nangong Nuannuan and the others could feel the air around them becoming thinner, let alone Chi Yang, who could see energy.

After Feng Luan allowed herself to recover, she endured the pain of the explosion and took out a teleportation talisman from her clothes.

"He's running!"

At Nangong Nuan Nuan's command, Chi Yang and Feng shengxuan rushed forward and engaged Feng Luan in battle again.

In the moment that Feng Luan was distracted, Nangong Nuannuan had directly blown up the teleportation talisman in his hand.

Nangong Nuannuan found it strange as well. Such a huge explosion, so many times, it had happened at least a hundred times in such a short time, so why didn't Feng Kun's clothes get torn?

Other than the parts of the flesh that were blown up, the clothes were intact.

Because of this, Nangong Nuannuan's mind wandered for a moment.

"Nuan Nuan, his body is filled with solar energy!"

This time, Chi Yang and Feng shengxuan were no match for Feng Su at all. After a few exchanges, the two of them were at a disadvantage.

They did not really want to compete with Feng Kun in terms of martial arts. For such a dangerous enemy, of course, it was best to kill him as quickly as possible.

Chi Yang didn't want to be a hero at all as he roared.

Nangong Nuannuan, who had been thinking about Feng Luan's clothes, quickly drew out the reactor and attacked Feng Luan, who had gained the upper hand but had no intention of continuing the battle.

This time, Nangong Nuannuan did not use solar energy to attack. Instead, she threw dozens of compressed reaction particles at Feng Luan.

Nangong Nuannuan had already thrown the things at him, so Feng Luan flew into the air.

When he noticed something flying towards him, Feng Luan's instinct was to face those small stones.

After all, he wasn't even afraid of cobblestones, let alone small stones.

However, when she thought about Chi Zeyao's insane research abilities and the fact that he had been constantly exploding, Feng Luan instinctively felt that Nangong Nuannuan would not be so stupid as to attack him with such a small stone.

However, when Feng Luan was about to Dodge, the solar-powered attack had already arrived.

"BOOM!"

Accompanied by a deafening explosion, Feng Luan felt as if something in her body had been ignited.

Bang! Bang! Bang! Bang! Bang!

With the sound of explosions outside, he felt in despair and horror that his body had somehow started a chain reaction with the explosions outside.

#### **Chapter 3219**

3219 Exploded to death (3)

This was the reason why he especially hated this planet.

There was no spiritual energy on this planet, but the people were very smart and invented something that could replace spiritual energy to attack.

Ever since he came to this world, he had never paid attention to these things. He felt that these things were nothing to him except nuclear weapons.

However, who would dare to use nuclear weapons? Even Feng Shengxuan and Feng Jimian, who had never been afraid of anything, would not dare to use nuclear weapons.

That was why he had never taken anyone or any so-called technology seriously.

This had caused her body to explode. Feeling that her body was becoming hollow in the explosion, Feng Luan was helpless.

He could only feel his own panic and fear spreading, slowly dissipating with holes in his body that he could not control.

He knew that Nangong Nuannuan would not be so kind as to attack him with a pebble.

However, Feng Luan did not understand how she had been killed until her body was completely blown to ashes.

Just what were those small stones that Nangong Nuannuan had thrown at him?

The explosions continued. Because Feng Su was too powerful, in order to kill him in one go, Nangong Nuannuan threw out all the reaction stones that her second uncle had given her.

Second uncle said that he would only need three at most.

However, Nangong Nuannuan thought to herself that Feng Luan's abilities had already reached a certain level, and it was not something that they could have guessed. Just like just now, he was clearly already dispirited from the injuries, but he suddenly became stronger.

Nangong Nuannuan believed that the villainous bosses in TV series were extremely difficult to kill, so she decided to give him all the good stuff.

As a result, she didn't know how many reaction stones she threw over.

Feng Luan became numb from the intense pain, and she watched in horror as her body was blown to pieces bit by bit.

He couldn't believe that he, a great demon who had shocked the Three Realms, would be killed on this trash planet!

although it was only his body that disappeared and not his primordial spirit, it was still too unbelievable.

What he had just absorbed was clearly spiritual energy that was beneficial to his body. If it wasn't for the large amount of spiritual energy entering his body, his strength wouldn't have been able to increase so quickly.

But he couldn't figure it out. What he did just now could be used as a trump card on all cultivation planets. Why couldn't he use it on this planet?

One had to know that on other planets, one would have to burn the power of one's divine soul as the price in order to quickly recover from their injuries and increase their strength by a large margin.

Such a sudden increase in strength could not only not gain the upper hand in a situation where the opponent was stronger than the user, but it was also a suicidal move that could put the user at a disadvantage most of the time.

Most people would not use it unless it was a critical moment.

He had used it to escape, but he had exploded.

Moreover, Feng Luan was certain that if he didn't use the move that increased his strength just now, his body would definitely not cause a chain reaction with the explosion outside.

After all, his body was completely different from an ordinary human's body. Otherwise, he would not have survived so many explosions.

The hatred and anger in Feng Luan's heart was like the flames of this raging explosion, almost bursting through the sky.

He wanted to leave, but his soul was temporarily trapped in the explosion and continued to be destroyed.

Although he was only left with his spirit, his spirit body could still feel the terrifying explosion and it could still have a strong impact on his soul.

chi yang, who could see spiritual energy, was shocked to find out that feng luan had indeed died in the explosion. however, after she died, he could actually see her soul.

His soul was torn back and forth in the middle of the huge explosion, but that was all. No matter how badly his soul was being torn apart, there was no sign of it breaking.

Furthermore, he could see the venomous look on the soul Spirit's face.

Chi Yang looked at Nuannuan and wanted to tell her.

However, Nangong Nuannuan, who had x-ray vision and whose supernatural ability had been raised to a certain level by Chi Yang, had also discovered the matter of Feng Luan's soul at the same time.

Nangong Nuannuan quickly told Chi zeyao about this. Chi zeyao frowned and passed her a remote control.

This time, even Chi Yang and Feng shengxuan had put on their armor.

finally, the explosion stopped after ten minutes.

Feng Luan's soul was on the verge of collapse.

He didn't know when these people had put on the armor, but after living in this world for so long, he knew that they were unharmed by such a big explosion because of the protection of the armor.

Feng Luan's heart was filled with extreme hatred, but she had no way to fight with these people at this moment.

He needed to find a body that his soul was compatible with, so that he could plan for the future.

However, in the next few decades of this life, Chi Yang and Feng shengxuan would have the advantage.

Chi Yang, Feng shengxuan, just you wait! I, beiming kun, will succeed one day!

"So you're called beiming kun."

Chi Yang, who hadn't even looked at beiming kun, looked at him in surprise after hearing his name.

“Although I know you’re definitely not my big brother’s uncle, and you’re not related to him by blood, the Chi and Feng families have never offended you with the surname beiming, right? Second uncle, have you ever offended someone with the surname “Fu”?”

“Never heard of it.” Chi zeyao shook his head.

Although they couldn’t see beiming tan, who had already been blown to death, since Shi Yalin could possess someone else’s soul, no one was surprised that beiming tan had a soul after he died.

They were just surprised that Chi Yang could not only see beiming kun, but also hear him speak.

Even Nangong Nuannuan was surprised. Because she could roughly tell what beiming kun was saying from his lip-reading. However, because his soul was not very stable, it kept floating in the air, and his mouth was also pulled to the left and right by the air flow of the explosion, so she did not see what he said clearly.

Now that Chi Yang had mentioned it, Nangong Nuannuan asked in surprise, ” “Big brother chiyang, you can hear him?”

“Yes.” chi yang nodded.

“i can only see him, how did you manage to hear him?” Nangong Nuannuan realized that ever since big brother chiyang was able to gather spiritual Qi to help her increase her power, the distance between her and him had grown.

The previous tie was probably more than a grade worse now.

“i don’t know. i heard it for no reason.”

Beiming kun:

His entire body and soul felt unwell.

Chi Yang, an ordinary man, could actually see his original soul?
