Chapter 3241

3241 Beiming kun's bento box (3)

"Why did you say that you have a grudge against my father? and why did you have to let feng shengxuan kill me?"

Hiroshi chizawa also looked at Kuai beiming with a puzzled expression.

"ever since your grandfather's generation, he has been provoking kamino multiple times. they destroyed the order of kamino kingdom and killed my people to create conflict. At that time, your grandfather was already preparing to retire. The order I received after taking over was to focus on guarding against KE. That was why I had no idea who was behind the scenes when I first fought against KE. Even for your second uncle, I had to fight with him for many years before I could meet him."

Chi zeyao, who was standing at the side, nodded and said, "that's right. I first met your father on the eve of the explosion 17 years ago. after we met, we had some doubts, so i immediately went to do a dna test. He found out that my identity was really as your father had said, a member of the Chi family. That's why we joined forces to deal with darknorth kun."

"that's why, if it wasn't for your second uncle who told me that it was all because of kun beiming's instigation, i wouldn't even know who he is. The first time we met was in the explosion 17 years ago. How can there be any hatred for someone you don't even know?"

"So, you just said that you hate Chi Yang and want him to die because his father provoked you?" what did it mean? When did I offend you? why don't I know about it?"

there's one more important thing, " Feng shengxuan added. you've been setting this up since our grandfathers' generation. You've set up such a huge trap for me to kill Chi Yang. No matter if it's my father or my uncle, they're not your targets. So, you were clearly lying when you said that your enemy was my uncle. Qie beiming, why do you want me to kill Chi Yang? What's the difference between me killing him and others killing him?"

"Also, you just said that you came from that world. For the past 17 years, apart from recuperating, I've been searching for news about you in that world. However, there's no one called Feng Luan or beiming kun in that world. why do you want xiao xuan to kill xiao yang?"

at this moment, beiming kun's original soul was becoming more and more transparent, so transparent that one had to work hard to see it in the flashing lightning.

Knowing that he was dead for sure, beiming kun's heart was no longer flustered.

His entire soul was in a cluster of lightning. He sneered at Chi Yang and Feng shengxuan. "Do you want to know? I'm not going to tell you."

After all, he had already changed Chi Yang and Feng shengxuan's lives, and it would take them some time to get back on track.

He would have to go through a lot of suffering and human pain in the process.

with a strong sense of dissatisfaction and resentment, beiming kun finally disappeared.

"Is He Dead?" Chi zeyao couldn't see it, so he could only ask in confusion.

"Dad, is he completely dead?" he asked his father.

Chapter 3242

"Yeah, he's already dead." Hiroshi chizawa nodded.

"What did he say?" Feng Ji Mian asked.

Feng Ji Mian:

after she finished speaking, the entire place fell silent.

“Mom, our world is progressing very quickly. There’s no need to develop photos anymore. We can take some photos or videos. You can save them in your phone and bring them back.”

“After your dad went to our world, he invented the mobile phone and the car. In our world, your dad was a God of creation. I didn’t expect the development here to be so fast. Not only can mobile phones be used to make calls, but they can also be used to store photos!”

everyone was stunned!

He finally understood why beiming Qin had failed.

This was because beiming Qie was also a person who focused on cultivation. It seemed that people who focused on cultivation did not worship science. They seemed to be more focused on their own development.

After that, in the midst of Lin Siqian's fuss, Chi zeyao gave her and Hiroshi Chi zeyang more than a dozen cell phones, all of which were newly developed solar-powered.

In the end, everyone saw that Lin Siqian had not brought a single bag with her. Instead, she had packed all the phones into a palm-sized handbag.

More than a dozen phones and boxes were sucked into the palm-sized bag.

even chi zeyao's eyes widened.

when I was young, I liked to watch an animated film called Doraemon, " Feng jimian said hurriedly. you can't possibly get anything you want with this pocket of yours, can you? "

"Mom, you're overthinking it." Feng shengxuan couldn't help but feel embarrassed that his mother had exposed her own preferences.

"mom, this is the cosmos bag from the tv, right? Or should I call it a space pocket?" Nangong Nuannuan asked.

Because she could see the things inside the Qiankun bag with her x-ray vision. The space was only so big and could only hold so much.

"Nuannuan, you're amazing. How did you know that?"

Nangong Nuannuan chuckled and replied,"it's mainly because I used to watch TV when I had nothing to do." Those fantasy films basically had such things. but this thing seems to be very rare in the show."

Lin Siqian nodded. normal people can't have one. But, Nuannuan, mom's family is very powerful over there. so, if you have the chance to come here in the future, i'll definitely give you the best things."

"yes, thank you, mom!" Nangong Nuannuan kept calling her 'mom', even more so than Chi Yang.

" sigh, it's a pity that we're too strict on you now. you can't get through it at all. but don't worry, dad and mom will find a way to get through it. " As soon as the policy is relaxed, we'll come back or take you there."

"yes." nangong nuannuan nodded.

dad, mom, i've already video-called Grandpa. You guys can talk to him for a while.

3243 Meeting her son (5)

Chi Yang had already dialed the videophone. On the other side, his men brought the video into the Commander-in-Chief's office.

In the office, Lu Guangsheng was sitting on the sofa in handcuffs.

In the office of the Commander-in-Chief, although master Chi was already 80 years old and looked like an amiable old man, his aura was far more imposing than Lu Guangsheng's.

Leng Jinpeng, the Chief of Staff of the combat service department of dizhou, stood respectfully beside old master Chi. She was helping the old man with the matters.

"Crimson elder, the sky has cleared up."

Old master Chi nodded. if Chi Yang and the others win, they will definitely inform me as soon as possible. We'll just wait for the news."

"yes."

even though they had never experienced a scene like the one before, where the end of the world seemed to be coming, both old man chi and leng jinpeng were people who had seen the world. even if the sky was about to fall, they should not be afraid. instead, when the sky fell, they should be the first to step forward and see if they could hold up the sky for everyone.

"Elder Chi, the chief is making a video call."

Suddenly, the internal telephone rang. Old master Chi quickly looked at his laptop, and Leng Jinpeng immediately connected the line.

When Chi Yang's face appeared in front of old master Chi, the old man's tensed heart finally relaxed a little.

"Chi Yang, is everyone alright?"

"Grandpa, everyone's fine. Kuai beiming is already dead, so you don't have to worry. I'm calling you to let you meet two people."

seeing the excitement on chi yang's usually calm face and the urgency in his words, old man chi was stunned, " "Who is it?"

"please take a seat first. i'll let them see you after you're seated."

The old man's face was full of doubt, but when he heard that beiming Qin was dead and everyone was fine, his mood was greatly lifted. He chuckled,"You little brat, are you afraid that this old man will see someone with a heart attack? Let me tell you, ever since I have Nuannuan, I, Yingluo, have become so ..."

Old man Chi was still chuckling as he spoke, while Chi Yang had already handed the phone to Hiroshi chizawa.

when hiroshi chizawa's face, which was almost the same as chi yang's, appeared in front of the old man, the old man's voice came to an abrupt end.

"Ze Hao?"

The old man's eyes were wide open, and he mumbled that nothing had happened. this "ze hao" was even called out by leng jinpeng, who was extremely shocked.

Even Lu Guangsheng was shocked when he heard the name " ze Hao ".

This was because this name had caused a sensation in the entire Kamino Kingdom 20 years ago.

"Lu Guangsheng, come out."

an officer of the eagle troop walked up to lu guangsheng and took the criminal away.

Lu Guangsheng finally recovered from the shock, and his eyes dimmed.

From now on, no one would respect him anymore, and he would become a prisoner.

"ah hao, why are you qianqian? What do you mean?"

"Dad!"

upon seeing his father, chi zeyao's face flushed red. his eyes turned red as well, and tears flowed down his face.

"Dad, I'm sorry for making you worry. I'm sorry!"

"No! I'm sorry! Dad! at that time, i felt that ze hao's life was in danger. after i was teleported over by his ring, i happened to see the bomb explode. You were the closest to them at the time, so you should have seen it. "

3244 Perfectly satisfied (1)

"The explosion was too powerful. Ze Hao couldn't withstand it at all. I didn't have the time to greet you, so I took him away. they went to our place. for so many years, you've raised chiyang by yourself. it's been hard on you, thank you!"

Lin Siqian quickly interjected and bowed to old master Chi.

The old man had never heard of Lin Siqian being mentioned by Hao Chi ze. However, from Zhou ruxue, everyone knew about the existence of Lin Siqian, the Chi family's eldest daughter-in-law.

Now, not only was his son, who had died 17 years ago, resurrected, but he had also seen his eldest daughter-in-law. Instantly, old master Chi felt that he was filled with happiness.

His life was complete at this moment.

"Good! Good! Good! Good girl, you must be Qian Qian, right?"

Lin Siqian laughed heartily and quickly revealed her identity."Yes, father, I'm Lin Siqian. The Zhou ruxue from before isn't chiyang's mother. I'm the one!"

"Thank you, Qian Qian! Thank you for meeting our ah Hao! Thank you for giving birth to Chi Yang! yingluo, where are you now? Come back quickly, I'll ask the Butler to make a table of delicious food. Ah,

no, no, no, I'll call the old man Nangong's family too. Let's go to the Nangong family. The Nangong family is big and has many people!"

As soon as old man Chi finished speaking, it was obvious that both Hao Chi and Lin Siqian's smiles had disappeared.

"What's wrong?"

Hiroshi chizawa said apologetically, "father, Qianqian and I sensed that Chi Yang was in danger. That's why we rushed over. We were forcefully teleported over by a magical artifact on his body. We can only stay in this world for half an hour. It had already taken a lot of time to deal with beiming kun. We'll be teleported back in five minutes."

The old man was stunned. Seeing his son and daughter-in-law's reluctant faces, he quickly smiled and said, "I'm fine! It's alright! Ah Hao, don't take this matter to heart. I'm already very satisfied to be able to see you all in my lifetime and let me know that I'm not a white-haired person sending off a black-haired person. Yingluo, you have to treat Qian Qian well in that world. Treat her family as your family, understand?"

Hiroshi chizawa nodded heavily, "I know, dad!" Don't worry, Qian Qian's family is very good. My in-laws treat me very well too."

"I know! I know!" The old man could not help but nod. just by looking at Qian Qian, I know that her parents must be very good. They can raise such a good child. Qian Qian, please send my regards to your parents when you go back."

"alright, dad. i will. Don't worry, ah Hao is living very well over there. He has completely adapted to the life there over the years. although we can't stay here for now, we'll definitely meet again in the future."

"Good, good, good!" Old man Chi nodded repeatedly.

Although he couldn't see his son in person, he was satisfied to know that his son was still alive and well.

"Dad, you must take good care of yourself. You must wait for me to come back!"

"Alright!" Old man Chi felt that he had become many years younger. He said in a very angry tone, "I may look old now, but Nuannuan has said that many people in their fifties can't even compare to my body. I've promised Nuannuan that I'll help her take care of my great-grandson in the future."

"I still want to see my great-grandson get married! Don't worry, you two. Live well there and make more friends."

old man chi reminded her like a child's father who was about to go on a long journey. even lin siqian, who was speaking to old man chi for the first time, couldn't help but shed tears, let alone chi zeyu.

Seeing that his son and daughter-in-law were sad, old master Chi chuckled. "Look at you guys, this is a good thing! I can't be happier, why are you guys crying?"

Old man Chi said as he wiped his tears, " "don't look at me wiping my tears, i'm just happy. By the way, ze Hao, are you sure that beiming tan Zhen is dead? What was that weather just now?"

"Grandpa, we have limited time to talk to you. There's only two minutes left. We'll tell you about killing beiming kun when we get back. You can talk to my parents about something else first."

"Hey, hey!" old man chi quickly nodded and asked, " ah Hao, Qianqian said that your body is completely fine now. Is this true? "

Hiroshi chizawa's eyes darkened slightly, but he quickly concealed it.

"Don't worry, dad," he said."The world over there is different from this world. The herbs and plants there were also different. My injuries have already healed."

"good, good, good, that's good!"

After old man Chi nodded, he realized that the bodies of Koichi and Feng jimian were not as solid as Chi Yang's.

The old man was shocked,"ah Hao, what happened to you and Qianqian?"

"Dad, we were teleported here. It's almost time. There's only one minute left before we completely disappear. But don't worry, we're living very well in that world. as long as the lin family is able to gain control of the border, we'll be able to come back often."

"Good! Then you and Qian Qian must live well!"

"Alright, dad, you take care too!"

"Alright," he said.

"Chi Yang, take good care of grandfather."

"Don't worry, dad. We'll take good care of Grandpa."

"big brother, sister-in-law, i don't have much to give you. nuannuan said that sister-in-law's space bag can fit a car. This is the solar car I'm giving you. Try to Park it where there's light, it can always have electricity and can be turned on. "

By the time Chi zeyao finished speaking, someone had already driven over an elegantly-shaped luxury car.

Lin Siqian ran to the car with her transparent body and said as she loaded the car, " "We're all family, so I won't be polite. Ah Yao, do you have anything else to give us?"

feng ji mian couldn't help but laugh,"yes, i do." There's also a refrigerator, microwave oven, and a lot of other things. It's just that this is our energy company, and they're all solar-powered products. The other products can't be delivered in a short time."

Lin Siqian did not treat herself as an outsider at all. She quickly waved her hands and said, "It's okay, it's okay. I'll get the refrigerator and microwave then. I can also get a few cars. I still have a lot of rings here."

After that, Lin Siqian poured out all the Rings in her bag. There were dozens of them.

Everyone looked at the rings on their fingers. Although they were shocked that there was space in such a small ring, they were stunned to see Lin Siqian throw the Rings to the ground.

Everyone could not help but wonder if this thing was really valuable in their world.

looking at the situation, why did it look like it was from a street stall?

Chapter 3246

3246 Baili what? 3

Come, come, come, all of them can be opened directly. Everyone, help me pack it.

There was only a minute left. Since he did not know how big Lin Siqian's space pocket was, Chi zeyao had only driven a few cars over.

Who knew that his sister-in-law would want household appliances like a refrigerator and microwave?

"There's only a car left, hurry up and put it in. the refrigerator and microwave are in the factory. when the workers send the products over, you can leave."

"I'll do it."

Chi Yang and Hiroshi chizawa spoke almost at the same time.

After exchanging a glance with each other, the father and son waved their hands without saying a word, and a lot of home appliances flew over.

Everyone was speechless.

In the last 20 seconds, the image of Hiroshi chizawa and Lin Siqian's backs was that of them continuously stuffing things into their rings.

The couple each had more than 20 rings on their fingers. In just a minute, they loaded 20 cars, 300-500 mobile phones, more than 20 refrigerators, and hundreds of microwave ovens.

The crowd was amazed.

It wasn't until the two of them were about to disappear that Feng shengxuan, who was still in shock, remembered something. "Help me take care of Baili Yue!"

"Alright, Baili Xi Xi."

Before he could finish his words, Hiroshi chizawa and Lin Siqian had completely disappeared.

"Hubby, what did Xiaoxuan ask us to help take care of Baili with?" Lin Siqian asked.

"I didn't hear it clearly either. Anyway, her surname is Baili. Let's go back and ask."

"Alright," he said.

Just like that, Hiroshi Chizawa and Lin Siqian came and left in such an explosive manner, leaving everyone in the room in a long silence and confusion.

"Didn't you say that mom's family is very rich? What are they doing bringing so many cars, phones, and home appliances back?" Nangong Nuannuan could not help but ask.

Chi Yang also recovered from his shock, he muttered and shook his head, "I don't know,"

That's right, didn't Zhou Ruxue say that his mother's family was rich? A rich young lady who can't even afford electricity?

"Second uncle, did you come up with these solar-powered appliances to save on the electricity bill?" Nangong Nuannuan asked.

Chi Zeyao nodded. My original intention was to save energy. After the marketing department did some research, I found out that many people find the electricity bill too expensive. Cars are because they find the fuel cost too expensive and it's inconvenient to charge. That's why I invented it.

Nangong Nuannuan looked at Chi Yang and asked, "could it be that father and mother lied to us that they were very rich to make us feel better?"

"Maybe it's because there's a shortage of electronic goods there. Although uncle and the others are rich, the things that money can buy may be different from what we can buy. Just like Beiming Kun, he was an old antique who didn't like to use a computer. He liked to write everything by hand. He didn't read the electronic real-time reports of the news and insisted on buying a newspaper to read the next day. Maybe that's the style of the people there." Feng Shengxuan couldn't help but ask.

Nangong Nuannuan suddenly realized that she was rich.

After the things here are over, we should bring more high-tech things over before we go over. Chi Yang said.

Feng Shengxuan didn't expect Chi Yang to talk about the past so quickly and was slightly surprised.

Seeing that Feng Shengxuan was looking at him, Chi Yang asked, "What's wrong? Is there a problem with us going over?"

"No problem," Feng Shengxuan shook his head.

"That's good."

The two brothers looked at each other and smiled.

As the dark clouds gradually dissipated, the sun's rays shone in. The originally dark sky could now be seen again. The Shi family's faces were filled with joy.

Chapter 3247

3247 Done (4)

Seeing that Shi Yalin was not as nervous as before, Shi maowen asked, "Yaling, will it still explode?"

Shi Yalin looked at the sky in a daze, her heart feeling desolate.

Disappeared,

Her Godfather's aura, which had been incomparably strong before, had now completely disappeared.

Although she had changed her body, her soul could still sense beiming kun's soul.

Just now, she had felt that kun of the North Deep's sea of Qi had formed a resonance with the power of heaven and earth. Once he chose to self-destruct, the entire Prefecture would resonate with his dantian and self-destruct.

That was why she was so afraid.

As long as the Emperor province exploded, all the lives in the region would be destroyed.

As for her, she no longer had a body, and her original spirit was already extremely weak. If it exploded, she would also die.

However, now that the aura of kun of the North deep had disappeared, and the dark clouds in the sky had also gradually dispersed, this meant that not only was he dead, he had also lost his original spirit!

Such a terrifying expert was actually suppressed by Chi Yang's spiritual power to the point where he couldn't even preserve his original spirit. Just how strong was Chi Yang?

Even a powerful person like beiming kun had been killed to the point where not even his soul was left. How could she, who had relied on Shi Yalin's body to survive, compete with Chi Yang and Nangong Nuannuan?

Shi Yalin immediately changed her strategy.

Shi Yalin turned around and looked at Shi maowen. She said seriously, "Fourth uncle, don't participate in the election anymore. Also, get your men to kill the president immediately. The president must die."

Everyone from the Shi family was shocked.

"What did you just say?"

"Also, contact uncle immediately and ask him to help Chi Yang. Also, as for Wu Lingyun and Gu Xiaoli, immediately send someone to kill everyone who was involved."

"Yaling, what happened?" Shi MAODE's face turned pale from fear. He asked, "Did your master fail? What about Feng shengxuan and Feng jimian? Did they fail as well?"

"Even Feng Su failed, Feng shengxuan and Feng jimian are just two ordinary people. Unless Chi Yang lets them go, how can they survive? Hurry up, hurry up, or it'll be too late."

"Hurry up! Do as Yaling says!"

Shi Heng had experienced the previous selection process and knew the logic of the victors being Kings and the losers being bandits. Although he found that he could not stand up at all, that was not the point. The main point was that Feng Ming, who was bound to win, had already lost.

"Alright, I'll get my men to do it immediately."

Shi maowen quickly called his subordinates and asked them to execute the plan separately.

In a very short time, Shi Yalin realized that without beiming kun's support, and with Feng shengxuan's fate unknown, she could only rely on the Shi family.

Without the backing of beiming kun and Feng shengxuan, it would be impossible for the Shi family to secure their position. Therefore, he would rather cut off his own arm than take the risk.

Very soon, Shi maowen's phone rang.

After picking up the phone, Shi maowen asked nervously, "How is it?"

"Pass down the order and the people around you will immediately do it. don't worry, i'll receive news soon."

When Shi maowen heard that, he let out a long sigh and said, "Go abroad and hide for a while to avoid being found out."

"Yes, sir."

Chapter 3248

3248 going too far (1)

"Fourth uncle, how is it? Was it a success? Is the president dead?"

Shi maowen finally landed on the ground. He then looked at Shi Yalin with dissatisfaction and asked angrily, "What's going on? Didn't you say that Feng Luan is very powerful and Chi Yang is definitely not her match? Why did he die?"

Shi Yalin's expression was also ugly. She was already in a bad mood, and now that Shi maowen had rebuked her, she immediately retorted.

"Fourth uncle, you're really a profiteer! If I hadn't been saved by my master and was in a vegetative state, do you think Nangong Nuannuan would have let you off after you've messed with Nangong ze? Look at what the ning family has become now? If it wasn't for me, the Shi family would definitely have fallen before the ning family!

Also, how could you have gotten to where you are today without the help of my master and I?

Besides, if it wasn't for you, why would I hypnotize the president? If it wasn't for the fact that the Shi family didn't have a basic understanding of the Nangong family at that time, how could our Shi family not get that piece of land? How could the Shi family's economy fall into such a difficult situation because of the initial investment in that piece of land?

To put it bluntly, Nangong Nuannuan owes me. If I had let her go after I recovered, she would have let me go. It's you. You're the one who tried everything to get rid of Nangong Nuannuan and the Nangong family in order to become President. But think about it, Li Heyi has the Xiao family, the Wu family, the Nangong family, and the Chi family's protection. How can you win? If it wasn't for my master and I protecting you, you would have died a long time ago. You wouldn't have had the chance to yell at me now."

As the 13th chief executive of the Internal Affairs Bureau, Shi Maowen had always been a man of his word, except for the president. Now that Shi Yalin had rebuked him so rudely, his face turned red with anger.

"Yaling, you've gone too far!"

At this moment, old master Shi could not stand up. He was helped into the house, but he could not sit down at all. The servant could only let him lie down on the sofa.

"I'm too much? Where have I gone overboard? Grandpa, you be the judge, don't we always discuss before doing anything? Can't you see how much I've contributed to this family? If you still think that it's all my fault, then fine, I'll cut off all ties with this family from now on."

Shi Yalin sneered, "but you have to think carefully. Without me, second uncle's current medical research results will all be gone. My dad is facing financial problems, and without any medicine to sell to fill the deficit, the Shi family will fall sooner or later. As for fourth uncle, even if the president is dead and no one can hold anything against us, do you think the Nangong and Chi families will watch you win the election?"

Shi Yalin's words made the Shi family's faces turn red and white.

Other than Shi Maode, who felt that this matter had nothing to do with Shi Yalin, the rest of the Shi family felt that Shi Yalin had overestimated herself and underestimated her enemies, which led them to their current state. However, if Shi Maowen could not win the election in the future, the fourth branch would be useless, and the Shi family could only rely on Shi Yalin in the future.

"Yaling, what nonsense are you talking about? Your fourth uncle is just venting the anger in his heart."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3249

3249 Already dead (2)

"Don't take it to heart. We're your family. You can express your dissatisfaction when you're wronged, but don't always say that you want to leave the family. After all, he could only do more things in the future with the protection of his family.

And what's with your master? He was so powerful, how could he have failed? If even he failed, doesn't that mean that Chi Yang's strength is even greater than your master's? Is it possible to try again after failing?" Shi Heng was still hopeful.

After all, he could tell from Shi maowen's appearance that the president had been killed. As long as the president was dead, no one would know that Feng Kun had hypnotized the president. The Shi family could still ignore it.

In the future, if the Shi family wanted to rise again, they would have to rely on Shi Yalin and Feng Kun.

"My master is already dead."

".....!!!" Although Shi Gen had already guessed the answer, he was still unwilling to believe it from Shi Yalin's mouth.

"Yaling, how did you know?"

"Because I can feel that my master's aura has disappeared."

"How did you sense it? Do you feel wrong?" Shi MAODE continued to ask.

dad, I have a special way of contacting master. I'll know immediately if he dies. Shi Yalin let out a breath of air and said, "So what if he's dead? it's better than that old man who almost blew up the entire dizhou."

"If that's the case, then Chi Yang is really very powerful." Shi MAODE could not help but sigh.

shi maocheng also sighed. "i thought i could destroy the nangong family and the chi family. i didn't expect that i would be able to defeat the shi family. i'm still unlucky! "

The matter of the Shi family was not a big deal to Shi MAODE and Shi maocheng. It only meant that the Shi family had once again missed the peak of power.

However, this incident had a huge impact on Shi maowen.

"Is there no other way to deal with Yingluo?"

Ever since he could understand things, he had been trained by elder Shi to take the path of the Internal Affairs Bureau. In order to walk this path well, he was already 40 years old, but he was not even married.

He was doing this just so that he could be free of any obstacles on the road to success in the future.

The fewer ties one had, the easier it was to do things. It could be seen how deep his obsession with this path was.

However, just as he was about to succeed, he fell short at the most crucial moment, when he thought that he had a 100% chance of success.

Shi maowen could not accept this outcome at all.

Seeing that Shi maowen was looking at her, to be honest, Shi Yalin did not like Shi maowen at all. However, she still thought of the best possible scenario.

"Fourth uncle, you've just turned 40 this year. Even if Li Heyi were to be the president for two terms, you'd still be 48 years old. The biggest difference between you and Li Heyi is that he's 10 years older than you. if we do well and feng shengxuan is still alive, you can run for the election again in four years. If the president is dead, we won't have anything to use against him. Uncle's position as the Flying Eagle's

Commander-in-Chief would definitely be lost. But you can at least be the Vice President. No matter how many things you can manage, as long as you can do it well and attract word of mouth, I'll find a way to contact Feng Sheng Xuan. In four years at least, eight years at most, I'll definitely let you sit in the position you want."

"How do you know that Feng Shengxuan is still alive?" Shi Maowen and Shi MAODE's eyes lit up as they asked in unison.

"Feng Shengxuan won't die so easily. As for why, I don't know how to answer you. But even if Feng Shengxuan is dead, I have a secret order from my master. We can use his power to make a KE."

"What?" Everyone's spirits were lifted again.

Yaling, can you really control the KE?"

Shi Yalin nodded, "but I need to confirm if Feng Shengxuan is still alive." If I'm still alive, I'll work with Feng Shengxuan in the future. If he's dead, Yingluo!"

The entire world might collapse, or even if it didn't collapse, there would definitely be abnormal phenomena.

However, other than the heaven and earth phenomenon that Beiming Qin had caused before his death, no other heaven and earth phenomenon had appeared after that.

That meant that Feng Shengxuan was still alive.

"What will happen if he dies?" Shi Heng could not help but ask.

"He won't die," Shi Yalin suddenly answered with certainty.

"He either escaped or was caught. Fourth uncle, find a way to find out more about Feng Shengxuan. If he's been caught, I have to go and save him."

"Are you crazy? Our Shi family can't even save ourselves, and you still want to save him?"

Shi Yalin's eyes turned cold and she said sarcastically, "Fourth uncle, do you think you can become the president with your shortsightedness?"

"You!"

Shi Maowen was almost angered to death by Shi Yalin.

"Alright, I'm done!" Seeing that the uncle and nephew had started to quarrel again, Master Shi quickly said, "Now is not the time to quarrel, it is the time for the Shi family to unite and overcome this difficult time. Fourth brother, Yaling is right. A person's vision needs to be long-term. You've been in a high position all year round, so you might not value money that much. In the past, the family would prepare as much as you needed, but this kind of situation won't happen again in the future."

Shi maowen:

"Feng shengxuan isn't just the King of KE, he's also the Crown Prince of NS group. He has enough money to support you to become the next Overlord. If he's caught, our Shi family will spare no effort to save him, and he'll definitely be grateful to us. If Yaling can be with Feng shengxuan, you won't have to worry so much about money in the future."

Shi maowen's face was as black as the bottom of a pot.

He didn't deny that Shi Yalin was indeed capable now, but this matter was clearly her fault for being too rash from the beginning. although she did get everyone's support every time, wasn't it because she had gone in the wrong direction from the beginning? was it because she was too radical that she had failed?

However, Shi maowen also knew that if he wanted to stand up again after this failure, he could only rely on his family, and his family could only rely on Shi Yalin.

Therefore, no matter how angry he was, he could only hold it in.

At this moment, Shi maowen's phone rang.

"Who is it?" Shi Heng asked nervously.

"A call from the Internal Affairs Bureau."

after that, everyone fell silent. shi maowen then picked up the phone and said hello. I'm still on vacation. Is there something important? " Shi maowen asked.

"Okay, I got it. I'll go out immediately."

After hanging up the phone, Shi maowen met his family's inquiring eyes and said,"He asked me to go to the Internal Affairs Bureau and I asked what happened. He only said that something big happened. The 12th will be there too. It was probably because the president's matter had been discovered. I'll go over now."

the president's people, Wanwan.

Before Shi Gen could finish, Shi Yalin interrupted him.
