Chapter 3261

3261 Do you believe in reincarnation (2)

he didn't even need to guess to know that this power came from chi yang, who had always protected nangong nuannuan.

She did not understand why everyone thought that Nangong Nuan was the best.

She really did not understand what was so good about her.

in short, she had hated her since she was young. He couldn't bear to see her doing well since she was young!

She was also a Princess. Why did everyone treat her so well in the past, but now that Nangong Nuannuan had come, everyone treated her like a treasure?

"oh, i forgot. you can't speak now, right? If he couldn't speak, he couldn't ask questions. You must have a lot of questions in your mind right now, right?"

nangong nuannuan's question pulled wen wan's thoughts back to reality.

"You can't speak, so I'll help you answer."

Nangong Nuannuan then looked at Chi Yang and said, " "Big brother chiyang, it's stinky here. You should leave first."

"It's okay, I'll go with you." Even though he knew that Viper was no match for his little girl, Chi Yang was still worried.

don't worry. This is the desire to win between us women. As a man, you shouldn't get involved.

He knew that this little girl was probably hiding something in her heart that she didn't even want to tell him. Chi Yang could only helplessly say, "Then I'll wait for you outside."

"Alright," he said. Nangong Nuan Nuan nodded with a smile and watched Chi Yang leave.

Wen Wan thought that after Chi Yang left, the power he had exerted on her would disappear, just like what had happened after Feng shengxuan left.

Who knew that even after Chi Yang had gone out and closed the door, the restraint on her body was still there.

"Alright, there's only the two of us here now. Let's have a good look at what has happened over the years. However, let me first explain to you how you and beiming kun lost so completely. How should he explain this? It's very simple, we'll just cooperate with you and beiming Qin to put on an act."

Wen Wan glared at Nangong Nuannuan with extreme anger and dissatisfaction. She didn't understand what she had done wrong to let Nangong Nuannuan notice.

Nangong Nuannuan looked down at Wen Wan and said, " "You want to know when I found you?"

looking at wen wan's eyes, nangong nuannuan smiled warmly. " "Venomous snake, have you forgotten? I'm a genius pharmacist, and although you created bugmen at KE, you're definitely not as good as me in terms of medical skills. I know what I'm doing. Shi Yalin tried to kill me, but I implanted her so that she would never bother me again. Even the best doctor in the world couldn't help her recover. You're good, you're so direct. Do you think I won't be suspicious?"

Wen Wan looked at Nangong Nuannuan as if she was looking at a monster. she had never expected that she would be able to guess that she was wen wan just because of this.

How did she do it?

Was there something wrong with this woman's brain?

Seeing the venomous snake's expression, which was as if he was looking at a monster, Nangong Nuan asked with a smile, " "" Do you know why I chased my brother chiyang out and only left the two of us to talk?"

Nangong Nuannuan did not expect Wen Wan to answer, so she asked again, " "Do you believe in reincarnation in this world?"

Wen Wan's eyes narrowed slightly.

"From your expression, it seems like you believe me." Nangong Nuannuan sized up Wen Wan's expression and said, " beiming Qie didn't tell us why he wanted Chi Yang to kill Feng shengxuan, or why he wanted Feng shengxuan to kill Chi Yang.

Chapter 3262

3262 After all, she died once (3)

"In order to make them kill each other, he even began to set up this plan decades ago.

It was my second uncle who told us that the people beiming kun really hated were Chi Yang and Feng shengxuan. But I'm guessing that the people of Xuanji have reincarnation. Beiming tan hated Chi Yang and Feng shengxuan before they reincarnated, which was why he had used so many methods to make them kill each other.

The reason why he didn't do it himself was probably because no matter if it was him or someone else, no matter who killed the two of them, they wouldn't really die. And the world would start over again. Am I right?"

Wen Wan's pupils shrank again, and there was only surprise and shock in her eyes.

At this moment, she really couldn't understand how Nangong Nuannuan's brain had developed.

Logically speaking, who would be able to guess such an outrageous thing?

nangong nuannuan laughed. "look at your eyes. it's really like that!" I was thinking! But you guys are too weak! He tried to kill us so many times, but not only did he not succeed, he even lost his life. I'm really letting down your ancestors by capturing you in this pork factory."

Wen Wan:

This vicious b * tch!

Nangong Nuannuan got the answer in her heart and instantly understood. Her mood also improved. He said, "I can tell you how I know all this." It's because brother chiyang and I were once killed by you!"

After a moment of gentleness, before the venomous look in her lowered eyes could fade away, Nangong Nuannuan's words made her raise her head to look at her with a shocked expression.

"No need to be surprised. After all, he had died once. You're also very good. You used Jiang zhiwan to knock me out and bring me to KE's real base. Then, I forced brother chiyang to save me. I'm guessing that you weren't the one who wanted to attack big brother chiyang. After all, it was useless to kill him. All you wanted was to kill me and then let Feng shengxuan, the real King of the KE family, kill brother chiyang.

In the end, when your men fired at me again, big brother chiyang helped me block the bullet. When he died, his entire body was riddled with holes by your men."

Nangong Nuannuan recalled, 'when brother chiyang died, I pulled the trigger of the bomb in my hand. The bomb exploded and I seemed to hear a familiar voice. However, after I was reborn, I never thought about that voice. Now that I think about it, the voice that told me to stop was actually my big brother, Feng shengxuan."

Nangong Nuannuan smiled and looked at Shi Yalin. "It's a pity. Kun of the North deep must have told you many times, or you must have known that it's useless for anyone to kill Chi Yang. So, when you caught me and brother chiyang took me away, you said, " Kill Nangong Nuannuan and capture Chi Yang alive. You wanted to kill me before Feng shengxuan got here, and then leave Chi Yang for Feng shengxuan to kill, right?"

Wen Wan:

How did she know?

She didn't have any memories of her previous life!

The only thing she knew was that beiming kun had told her not to do anything to Chi Yang and Feng shengxuan.

Even though they were all very powerful back then, much stronger than Chi Yang and Feng shengxuan, they didn't make a move. Because she knew that it would be useless to do so. Not only would it be useless, but it would also cause the entire world to start over.

Chapter 3263

3263 The f * cking Nangong Nuannuan (4)

If they were to do it all over again, all the arrangements would probably have to be made again.

But,

In this world, Jian Jia and the others had only lived once!

how could this happen?

Nangong Nuannuan looked at Wen Wan's expression and said with a smile, "In my previous life, I didn't know how to cherish it. Although I married brother chiyang, I never fulfilled my duty as a wife. However, he still treated me like a treasure. I'm really grateful to you for this. If you didn't force us into a corner, I wouldn't have found out that I loved him, and I wouldn't have known how deep his love for me was.

So later on, when I was reborn and woke up, I was released from prison. When I saw big brother chiyang again, I told myself that I must treat the man who treated me like a treasure."

Wen Wan's eyes widened again when she heard that.

Of course, she knew that Nangong Nuannuan had gone to jail for her half-sister, Zhong Yingluo. She also knew that Nangong Nuannuan had been released from prison.

However, she remembered very clearly that it was on that day, not long after someone had reported that Chi Yang was going to take Nangong Nuannuan out of prison, her and beiming kun's power had once again fallen to a whole new level.

This situation had happened twice before.

That was the third time.

She and beiming kun were both puzzled.

After all, after entering this planet, their strength had been suppressed to a certain level. They couldn't even contact their own people to help, so they could only do it in this world.

however, what they did not understand was that after entering this world, their strength would be suppressed. it might be due to the rules of heaven and earth, but why would their strength also decline at the same time without any warning?

Now, after hearing Nangong Nuannuan's words, Wen Wan felt that she had found the answer.

This was because only Chi Yang and Feng shengxuan could kill each other, and the game would truly end. However, this was a game after all. If someone else killed either one of them, the whole world would start over again.

beiming tan had used his own power to create this game. therefore, once the game failed, the force would be reflected back to him.

And she was on the same side as beiming kun, from the same place. Therefore, if beiming kun's power dropped, her power would also drop.

It turned out that Yingluo was actually like this!

Nangong Nuannuan didn't know what Wen Wan was thinking. She said, "After experiencing rebirth, I've believed many things that I might not have believed in the past. So, Yingluo"

She stared at Wen Wan playfully and said, "so when I found out that you were awake, I immediately asked danqi to monitor everything about you." I found out that you went to the medical Association to do research. Hehe, although Shi Yalin was considered a top student, she was still just an ordinary student. What right did she have to do research in the medical Association? In addition, not long after, I found out that you were shot dead by my big brother, Yingluo.

Some time ago, after ning Wenhao was shot, his lungs were infected and poisoned. We found out that the mastermind behind the scenes was KE. Whether it's old King or Feng shengxuan, they're both part of our family. The two kings didn't issue any missions, but Dale's Tucker was ordered by KE to kill, and he was helping you. Venomous snake, are you digging a hole for yourself?"

Wen Wan had already thought that Nangong Nuannuan was a pervert and was surprised by her abnormal reaction. When he heard the two kings, especially the old King, his eyes widened.

(2019 It was the last day of the new year, and the end of the year would be in these two days. Thank you for accompanying me all the way here. Thank you so much! I wish everyone good luck in the new year, good health, and happiness!

Chapter 3264

3264 Wanwan (1)

Nangong Nuannuan had wanted to continue, but seeing Viper's surprise, she kindly explained, "You might not know this, but our second uncle, chizeyao, is actually the old King who passed away 17 years ago. As for why he's my second uncle, I'm sure you and beiming kun both know it very well.

This was why Chi Yang and Feng shengxuan would never kill each other. Because they are the closest of brothers."

Wen Wan:

Nangong Nuannuan continued, "the point is, after my rebirth and I found out that my big brother shot you to death, I was 100% sure that you were the venomous snake. So, what I said after that is only to prove that you are a poisonous snake. Of course, since I already know who you are, I'm well aware of the fact that you drugged everyone in the Shi family and planted a bomb under the medical Association and the Shi family. That's why after beiming tan died, we still needed Shi maowen's substitute to put on an act of being trialed even though we had captured him. In fact, Shi maowen, who was on trial at the Shi family, was not your fourth uncle at all. He was just a substitute that your fourth uncle had kept outside. While I was monitoring you, I also monitored him. After using it today, the substitute had been taught well! It's very useful!"

Wen Wan:

"So, how could I not know about you and beiming kun hypnotizing the president? You guys love to hypnotize people so much, but I'm afraid you don't know that there are Masters who can dispel hypnosis in this world, right? So, the day after you hypnotized the president, I helped him get rid of the

hypnosis. So, you saw the president banish brother chiyang and send Lu Guangsheng to Eagle. That was just a show. Lu Guangsheng was nothing in the Eagle Group. Even the cleaners wouldn't care about him. Do you understand?"

Wen Wan:

"So you guys didn't lose in vain. After all, you're also a woman who killed me once. The reason why I think you're so stupid and even put in so much effort to deal with you is purely because I died by your hands in my previous life. In this life, I'll respect you as an enemy with the greatest respect.

The respect I gave you was that you couldn't love Feng shengxuan and lost your body. You were like a parasite in someone else's body and pretended not to know about it. I gave you hope when you were jumping around like a clown. Venomous snake, I'm really giving you face. However, you have to know that the only person who is worthy of being my enemy is the powerful darknorth kun. Yingluo is just like the two genetic strands that I have modified. That is the image of you in my heart."

Thinking of the "SB" genetic chain, Wen Wan was so angry that she spat out a mouthful of blood.

"Originally, I wanted brother chiyang to imprison you forever, but when I thought about how you were in cahoots with beiming kun, and how even his soul would be haunted for such a long time after his death, I discussed with them and decided that this pork factory will be your burial ground.

venomous snake, new and old grudges, let us all end here!"

Under Wen Wan's shocked gaze, Nangong Nuannuan called Chi Yang.

"Big brother chiyang, I've already said what I needed to say."

After Nangong Nuannuan hung up the phone, Wen Wan felt her body rising into the air.

Chapter 3265

3265 Director? what a big official!2

She wanted to resist, but under the effect of Chi Yang's special ability, she was completely unable to move.

She wanted to open her mouth and beg for mercy, but on one hand, she could not speak at all. On the other hand, even if she begged until her throat broke, Nangong Nuannuan would not let her off, given her hatred for her.

Wen Wan couldn't help but scream, but she was eventually rolled into the meat grinder.

Even such a huge pig could be crushed, let alone a human.

In order to prevent Wen Wan's primordial spirit from floating out like beiming kun's and forming a connection with the sky, Chi zeyao had covered the entire house with a solar energy barrier chip.

They had been tricked by beiming kun before because they didn't know that such a powerful soul could float out after a person died. It could form a resonance with heaven and earth and then cause an explosion.

Therefore, this time, they had put in a lot of effort to treat the poisonous snake gently.

In Chi zeyao's words, the barrier released by the chip could prevent the retracted solar energy from leaking out, and it could prevent the retracted lightning from leaking out. This energy was the energy of heaven and earth. Since this kind of energy could be blocked, then even if Wen Wan had a powerful soul like beiming kun's, it was impossible for her soul to resonate with the energy in the sky.

Although kun of the North and Wen Wan both came from another world, there were many common principles no matter which world they were from.

The people there could communicate with the power of heaven and earth through their souls. As long as this communication was blocked, no matter how strong their souls were, they would not be able to use the power of heaven and earth to launch an attack.

After Wen Wan was thrown into the meat grinder, there was no more sound. Nangong Nuannuan was standing at the same spot as before, using her x-ray vision to see how she had died in the meat grinder.

The entire factory only stopped operating after she was completely minced into pieces.

Nangong Nuannuan also saw a trembling red thing crawling out of the minced meat.

that thing didn't even have the shape of a human, and even its size was only the size of two adult fists. compared to beiming kun, it was simply far worse.

However, Nangong Nuannuan quickly noticed something. She could see the vague outline of the round thing and could even see the fear of the soul when it saw her looking at it.

"Tsk, ts. No wonder you can only be beiming kun's subordinate. When he turns into a soul, he's no different from a real person. This Kasaya of yours feels like a fake."

Hearing Nangong Nuannuan's voice, the soul trembled in fear.

With a "whoosh," he prepared to escape.

However, Nangong Nuannuan was even faster than her. She had only sneaked out less than a meter when the factory's control panel started moving again.

This time, the entire operating table seemed to conduct electricity, and was filled with a terrifying current.

Wen Wan let out a shrill scream. Her soul, which was only the size of two fists, began to shrink rapidly and dissipate under the powerful electric current.

let me go, Nangong Nuannuan. We are from the same kindergarten, and my father is the head of that kindergarten!

Nangong Nuannuan:

Nangong Nuannuan rolled her eyes speechlessly as she looked at the rapidly dissipating soul.

"Director? What a big official! I'm not even afraid of the principal, let alone the principal."

Damn it, is there a hole in this Wen Wan's brain?

Wen Wan quickly reacted.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3266

3266 Capture (3)

But what the hell was the president of the corporation?

Their kindergarten didn't have a principal, did it? Although her father was only a Deputy Director, and the person above her father was only a director, how could there be a principal of the corporation?

After a long while, Wen Wan finally realized that Nangong Nuannuan could not remember anything from the past, so she had no idea what she was talking about.

Nangong Nuannuan, how is your world now? "

Wen Wan also wanted to explain to Nangong Nuannuan that the world she was in was just a game world. In her real world, her parents were familiar. She hoped that Nangong Nuannuan would spare her last bit of soul on account of their parents.

If she didn't even have a primordial spirit, she would really be dead.

However, she had already missed the best opportunity.

Nangong Nuannuan was the kind of person who would let you die as soon as she finished her words. She would never listen to her enemy's words. After all, beiming kun had died because of her nagging. Whether or not second uncle Chi's shield worked, Nangong Nuannuan would kill Wen Wan at the first opportunity.

Although she admitted that Wen Wan was as stupid as a pig, that was only because she regarded Wen Wan as an enemy and thought that this enemy was stupid.

The only person that Nangong Nuannuan would regard as an enemy was King from the previous life.

However, compared to Feng shengxuan and Chi zeyao, neither Wen Wan nor beiming kun could compare.

Wen Wan was horrified to find that her soul was rapidly disappearing in the electric current that contained the power of heaven and earth, and she could no longer speak.

In the end, she could only feel her soul becoming smaller and weaker in fear and despair. In the end, her consciousness fell into chaos and completely disappeared.

After making sure that the venomous snake's soul had truly disappeared, just like beiming kun's, Nangong Nuannuan turned off the electric current and the shield, allowing the pork processing plant to resume its operations.

When he walked out of the door, all his family and friends were already gathered in front of the door.

Chi Yang walked to her side and helped her tidy up her untidy collar, asking, "Can we go now?"

Nangong Nuannuan looked at the man she loved deeply and nodded. "Yes."

"Father is still waiting for us at Eagle. Let's go to Eagle to pick him up." Feng Ji Mian suggested.

"Alright," he said. Everyone agreed.

On the way to Eagle, Chi Yang gave the president a call and told him that kun of the North and Wen Wan of the venomous snake had been executed on the spot. The president asked about the strange phenomenon and found out that it was caused by kun of the North. He couldn't help but gasp.

No matter how knowledgeable he was and how calm he was, the president still felt like he had just survived a disaster when he encountered a villain who could blow up the entire dizhou.

After that, the president immediately ordered the arrest of the spies in the presidential palace, Internal Affairs Bureau, Court of Justice, and combat Services Department.

Nangong Shu had been on standby with the highest order. After receiving the order, he split into dozens of groups and arrested the criminals at the same time.

In the Shi family, old master Shi, Shi Gen, was sent to the medical Association by the Shi family's sons and grandsons.

After all, most of the people in the medical Association were professors and experts who had passed the clinical medicine test. If the old man had any illness, the medical Association would be the best place to go.

The alarm had been lifted, and the president was dead. The Shi family felt that as long as they continued to live their lives, they would not be found out.

3267 Escape (4)

Just as the Shi family arrived at the hospital and sent the old man into the operating room for surgery, the sound of a helicopter came from above.

Shi MAODE and Shi maocheng looked at each other and saw the confusion and worry in each other's eyes.

"Let's go out and take a look."

The two of them had just pushed open the door from the waiting area of the operating room when a bodyguard rushed in with worry and horror.

"What's going on?" Shi maocheng asked.

"Director, there are many people from the War Department outside. They have surrounded our medical school."

Shi maocheng and Shi MAODE's minds exploded as their ears rang from the shock.

"Surrounded? What do you mean by surrounded? Who brought people to surround us? Why are they surrounding us?"

The bodyguard was confused. I don't know either! The director is already negotiating with the people. I saw that there were too many people, so I came in to report."

After Shi maocheng heard the bodyguard's report, he looked at Shi MAODE with a grave expression.

"Is there a secret passage in the medical Association?" Shi MAODE asked.

Initially, Shi maocheng was still wondering if something else had caused the people from the combat Services Department to come. However, after thinking about it, other than the failure of the matter, there was no other luck.

"There is." Shi maocheng nodded and said to the bodyguard, we'll leave first. You guys hold them off outside. We'll talk about the details after we've settled down.

"Yes." The bodyguard was drugged and was under Shi Yalin's control. They could only pledge their loyalty to Shi maocheng.

Shi maocheng turned around and left with Shi MAODE. They entered the password from their room and entered the elevator.

the elevator descended to the seventh floor and went through a secret passage.

"Where does this lead to?" Shi MAODE asked worriedly.

"This leads to the fu Bei River, and you can go directly below the fu PEI River. There's a submarine over there, we'll take it and leave."

Shi MAODE was a businessman and had never experienced being on the run before. At this moment, he was scared out of his wits and completely lost.

"Second brother, why do you think the people from the combat Services Department are here? What are they doing here?"

Shi maocheng's face darkened and he said with a serious expression, "I'm afraid that after we hypnotize the president, our relationship with beiming tan won't be over so easily. now that the president is dead, nangong nuannuan might have used some method to track us down."

"If that's the case, then the Shi family is truly finished!" Shi MAODE closed his eyes. He recalled that he still had such a large corporation, and the regret in his heart was extremely strong.

The tunnel was narrow but long. The two of them walked inside and could not hear the noise from the outside world, so they gradually relaxed. All that was left was endless regret.

Seeing that Shi maocheng did not say anything, Shi MAODE could not help but continue, "I don't know what dad is thinking, but he insisted on letting fourth brother take that position. Actually, even if it wasn't the president, just the Vice President or some other position in the Internal Affairs Bureau, our Shi family would still be able to live with benefits. All these years. We were both serving fourth brother, but what did we get in return? Even if he becomes the president, he can't take care of the Shi family all the time."

"Who said it wasn't?" On this point, Shi maocheng and Shi MAODE had the same thoughts.

the medical Association is an existence that can be on equal footing with the medical department. One of us has made achievements in the medical world, while the other has made achievements in the business world. Can't our achievements guarantee the Shi family's safety for the next 30 years? "

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3268

3268 Nothing much (1)

Shi MAODE sighed. the old master is too obsessed with that position. after all, he was the one who almost got that position back then."

"Great, he's using the Shi family's future to block the unhappiness in his heart. if the war department really wants to catch us, then all the hard work that the shiyun group and the medical association have put in over the years will be for naught."

Shi maocheng's words were a little discouraging, and it made people even more resentful and indignant.

The two of them remained silent for more than half a minute before Shi MAODE said,"Don't worry, we still have Yaling. As long as Yaling can save Feng shengxuan, whether it's the medical Association or the time group, we can build another one in Saibo."

Shi maocheng looked at Shi MAODE and hesitated. He then nodded.

"What's wrong? You think Yaling can't do it? Or do you think that it's impossible between her and Feng shengxuan?"

big brother, don't you think that ever since Yalin said that Yingluo had been turned into a vegetable by Nangong Nuannuan and was then saved by her master, Yingluo has changed completely? "

Seeing that Shi MAODE was silent, Shi maocheng continued,"you know, i also dote on yaling a lot. i doted on yaling since she was young. I know her as well as you do as a father. I really do have this feeling, don't you?"

"I feel the same way too." Shi MAODE nodded after a moment of silence. I've always felt that apart from being my daughter, Yaling's personality, knowledge, and methods are completely different from before."

Shi maocheng nodded. at first, I thought that it was normal for Yaling's personality to change after experiencing a life and death situation and meeting such a powerful master. However, ever since she went to the medical Association, her medical skills, how she treated people, and how ruthless she was made even the mercenary leaders in foreign countries show her respect or fear. Brother, don't you think this is strange? Also, we didn't know what was going on when the heavenly vision appeared, but Yaling did. I also clearly heard her call Feng Luan's Godfather, not master."

Shi MAODE fell into silence once again.

After all, she was his daughter. How could he not have noticed?

"Second, what do you want to say?"

Shi maocheng wanted to voice out his doubts, but after thinking for a moment, he felt that this was not the time to talk about it. Now that the combat Department had surrounded the medical Association, they were probably here to arrest Shi Yalin. If the Shi family lost the Shi family's control over the time group and the medical Association, they would have to rely on Shi Yalin.

Shi maocheng said, "I just wanted to say that Yaling must have received a great fortune. This fortune has completely changed her. It has made her overly radical and vicious.

my father and fourth brother had always been ambitious, and yalin had been adding fuel to the fire. the shi family had relied on us to get to where we are today, but because of their radicalism, all their efforts were in vain. Big brother, when we see Yaling later, we need to remind her not to be too aggressive in the future."

Shi MAODE nodded after hearing Shi maocheng's words.

"This is a must. However, the most important thing now is to escape. Second brother, do you think they'll take our children?"

"It's not just them. Even you didn't do anything illegal. they won't go as far as to capture him, but they'll definitely be monitored for a period of time in the future."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3269

3269 It's just a ring 2

"as long as we can protect ourselves, they will also be safe. However, our Shi family is definitely finished."

After that, there was a long silence.

after walking for nearly ten minutes, shi maocheng finally brought shi maode to the end of the tunnel.

There was another mechanical door at the end of the corridor. After opening the door, a dark and damp smell hit him in the face.

there was a pool behind the door, and a submarine was parked on top of the pool.

Shi maocheng took out the key from the box at the door and opened the door of the submarine.

After the two of them entered the submarine, Shi maocheng entered a series of code. After the door of the submarine was closed, it slowly sank to the bottom of the water.

"Where are we going now?"

"Enter the sea. I have my men at sea. We'll take a plane from there to the border. I still have my men at the border. Let's go abroad first and wait until the situation here is stable."

"Alright," he said. Shi MAODE was truly relieved now.

he felt that no matter how good the combat services department was at tracking them, by the time they discovered the secret passage and chased after them, they would have already been overseas.

Who knew that the two of them would start to escape in the afternoon, all the way until they boarded the jealousy ship at night. When the ship was at the border, several ships stopped the big ship.

When Shi maocheng and Shi MAODE were arrested, even the ship that had been secretly carrying people around all year round was investigated. Shi maocheng's property on the sea was also investigated.

It could be said that they were all caught in one fell swoop.

"Why did you capture us?" After Shi maocheng was caught, he still wanted to show off his power.

However, the one who captured him was Nangong Shu's right-hand man. He smiled and said, "We'll catch whatever principal Shi is running for. Principal Shi, it's the chairman. Please come with us."

After that, no matter what Shi MAODE and Shi maocheng said to the people from the combat Department, the other party did not bother with them.

although shi maocheng had a lot of people, the combat department had mobilized a team of 3000 people this time. it would be a piece of cake to take care of these people.

Old man Chi had already received the news that his children and grandchildren were coming to Eagle City, and he couldn't wait to come out and welcome them.

Hence, when Chi Yang and the rest rushed to the Eagle, old man Chi and Leng Jin Peng were already waiting at the entrance.

Old master Chi's face was red. Although he knew that his eldest son and daughter-in-law had already left, he still couldn't help but keep looking into the car.

"Dad, big brother and sister-in-law have already left. But before I leave, I brought some gifts for you."

chi zeyao reached into his pocket and quickly took out a dozen rings.

Old master Chi's eyes twitched. did you ask my daughter-in-law to give this to me? "

"Yes." Thinking of his sister-in-law, Chi zeyao couldn't help but smile and nod.

"Big brother and big sister-in-law were forcefully transported here from that world because Chi Yang was in danger. They probably didn't prepare any gifts for you, so you can keep them."

Old man Chi looked at the pile of rings in Chi zeyao's palm, and picked them up one by one, putting them on his fingers. Leng Jinpeng, who was watching from the side, could not help but remind him, "Old man, I think you can wear a new one every day."

Old master Leng glared at Leng Jin Peng,"if you want me to give you one, just say it."

Leng Jinpeng was amused by the old man.

"What are you saying? Although I'm not as good as your son and not as rich as him, my son is now the chairman of the Leng Corporation. It's just a ring, I won't be coveting it. "

Speaking of his own son, Leng Qirui, he might have felt a sense of anger in his heart in the past, but in the past year, Leng Qirui had shown his talent in business to the fullest, making him look at him in a new light as a father.

In the past, he only felt that other people's sons were better, but now, Leng Jin Peng felt that his own son was better.

"Hmph, then don't come to me for more in the future!"

At first, the old patriarch had felt that anyone who saw it would have a share. He had so many rings, and he felt a little apologetic if he didn't give any to Leng Jinpeng. However, hearing Leng Jinpeng's words, old master Leng immediately rebuked him.

"I'm not going to ask you for it. Although I've never seen this Kasaya before, it should be a metal unique to ze Hao and the others. However, I can still find a similar imitation. You know me, I'm not very interested in those precious metals, diamonds, and gemstones. If you like it, you can keep it for yourself."

Leng Jin Peng's expression showed that he was not interested in this.

Selina couldn't stand it anymore. After all, he was her future father-in-law, and she couldn't let him do something that he would regret for the rest of his life.

"Uncle Leng, the material of this ring is special. It's a ring that can contain a large space. It could fit two Jeeps. If there's one of you who's not allowed to carry a gun when you're on a mission in the future, won't you be able to cheat by wearing a ring?"

Leng Jin Peng's eyes suddenly widened, 'a spatial ring? The kind in a fantasy novel?"

"Uncle Leng, you even know about spatial rings!"

"I've never seen an interspatial ring before, but I've read fantasy novels and know of such things. But that was a novel. There's really such a bizarre thing in this world?"

As he spoke, Leng Jin Peng's eyes were already fixed on the old man's ten fingers.

Hearing Selina's words, the old man realized that his son and daughter-in-law had given him the best treasures. His eyes widened, and he quickly put his hands behind his back.

"Old man, I've been your subordinate for so many years. Look at Yingluo."

"No way, no way! I haven't seen my son for 17 years, and I finally got to see him in a video. You still want to take away what my son and daughter-in-law gave me. How can you be so cruel?"

"Old man, didn't I just do a good deed? Just treat it as my reward. There won't be such a battle in the future, just treat it as a blessing!"

"You've done something? What contribution did you make? It's obvious that my children and grandchildren have done a good job. You're just helping me out in the command room, and you want to ask me for a ring? That won't do!"

The old man hurriedly walked back after he finished speaking.

Leng Jinteng saw this and quickly chased after him. He supported the old man and continued to speak in a glib tone.

Uncle Leng's shamelessness refreshed Nangong Nuannuan's outlook on life. She looked at Chi Yang and said, "So he's such a person, uncle Leng!"

"You only know now! Be good, don't be fooled by his appearance in the future."

Not long after Chi Yang and his group returned to Eagle, they heard that the president had also come to Eagle.

The group immediately welcomed the president.

Chi Yang reported in detail to the president about the destruction of Kun of the North and Wen Wan. Although they already knew that Kun of the North deep wasn't from this world, and that his power was beyond their expectations, they had already prepared so well, but they still almost killed Chi Yang. This made the president feel shocked and scared.

After listening to Chi Yang's report, the president patted him on the shoulder, then stood a little further away and bowed to Chi Yang and his group.
