Chapter 3271

3271 Big gift (4)

“Mr. President, what are you doing?”

Seeing this, Chi Yang quickly supported the president and stopped him from bowing.

elder Chi, Chi Yang, Nuannuan, zeyao, representative Feng, Xuanji, Feng shengxuan, and everyone else, thank you for eliminating such a great disaster for our world. This gift is my gratitude to you on behalf of all the people in dizhou. This war involved a mysterious force from another world and the matter of the KE. In order to avoid unnecessary complications, there was no way for the media to broadcast it. There was no way for the people to remember this terrifying war. so i can only represent them to express our most sincere thanks to all the heroes.”

after hearing the president’s words and seeing the president, who usually had an extraordinary temperament, bow 90 degrees to them, nangong nuannuan seemed to understand why brother chiyang was so loyal.

Just like what Leng Jinpeng had said back then, many people in this society had lost their faith and would retreat when they encountered difficulties and danger. Some people would even push others out as shields. However, there were always some people who were still sincere and passionate. They had firm beliefs and were willing to sacrifice themselves for the sake of letting more people have a better life.

Brother chiyang was such a person, grandfather was such a person, Leng Jin Peng was such a person, and the president was also such a person.

When Nangong Nuannuan saw the sincerity and respect in the president’s eyes, she suddenly felt her blood boil.

She had decided that she would help as much as she could next time.

After all, she was brother chiyang’s wife, so she couldn’t be too ignorant. Although she could not sacrifice herself to save someone she did not know, she would still do as many good things as she could. Not for anything else, but to reduce the burden on these people who were willing to carry the burden of others.

After a serious conversation, the topic instantly became more relaxed.

“he had already formed a connection with heaven and earth. at that time, the entire dizhou was about to explode. how did you cut off his connection with heaven and earth in those ten minutes?” The president recalled what Chi Yang had told him. There was one part that he didn’t understand, so he asked.

He had already told the president about old King, so there was no need to hide anything about his father.

“My parents saved me.”

“Hmm? Ah?”

The president’s usual reaction was already fast enough. When he heard Chi Yang’s father, he subconsciously hummed and felt that it was strange. After all, wasn’t the pillar of the country, Hiroshi Akazawa, killed 17 years ago in the war with Kiming kun?

She had already found it strange, but then she heard the word ‘mom’.

He knew exactly how Zhou ruxue had died. he would believe that Zhou ruxue was a burden, but he didn’t believe that she wasn’t dead and that she could save Chi Yang and the others.

however, when Zhou ruxue had been captured, Nangong Nuannuan had also been the one to find out her identity. everyone knew that Zhou ruxue wasn’t Chi Yang’s biological mother.

so,

Chi Yang took a deep breath and said, “my grandfather, second uncle, and I only found out today that my father isn’t dead.” He was saved by my mother.”

“Your mom Yingluo is from that world? She didn’t actually go missing or die.” Although it was a question, the president was certain.

3272 all thanks to Nuannuan (1)

“Yes.” Thinking of his young and loving parents, Chi Yang couldn’t help but smile.

He was very happy that his wife could get the love of his parents.

His mother’s personality was completely different from Zhou ruxue’s, and he was very happy about that.

“My father and second uncle were seriously injured in a battle with Beiming kun 17 years ago. my mother left something on him. as long as my father or i are in danger, she will be teleported over by the power of that thing.

When she was forcefully teleported here, my father was already heavily injured and was almost dead. She didn’t even have time to tell Grandpa before she took my father away.” Speaking of his parents, Chi Yang felt that he had a lot to say.

“So your parents have been living well in that world for the past 17 years?” the president asked.

“Yes.”

“That’s good! That’s good!” “As long as you’re alive,” the president nodded.

When he first heard the news about Hiroshi Chizawa, he was also in pain for a long time.

In this life, he had only admired a few men, and Hiroshi Akazawa was one of them.

“Elder Chi, congratulations!”

Elder Chi was overjoyed to hear the president’s congratulations.

Thinking back to a year ago, his second son's condition was already beyond saving, and he was about to see his son die. Chi Yang was also on Eagle, and as long as there was a mission that required him to personally take action, which mission wouldn't be a suicide mission for the combat service department?

At that time, he really wanted to report to the president and ask him to keep the only descendant of the Chi family. He felt that he couldn't accept the result of all the men of the Chi family dying.

Now, not only had his youngest son recovered, but he also had his eldest grandson. Now, even his eldest son, who had been dead for 17 years, was still alive and well. He had even found such an outstanding daughter-in-law for him.

Old master Chi felt like he was cheating.

Faced with the president's congratulations, elder Chi smiled so widely that his face was covered in wrinkles. He pulled Nangong Nuannuan's hand and said, "It's all thanks to Nuannuan! It was all thanks to Nuan Nuan! so, you should marry a virtuous wife!"

Huh?

Nangong Nuannuan looked at the old man in confusion. grandfather, I'm happy that father is still alive, but Yingluo's father was saved by mother. What does this have to do with brother chiyang marrying me?

"How is it not related?" The Chi family members said in unison.

"look, look! Take a look! Listen to this!" old master chi was so pleased that his eyes were almost invisible. "if i'm the only one who said that it's related, you might think that i'm superstitious. but if so many people say that it's related to you, then i'm just being superstitious!"

Old man Chi held his granddaughter-in-law's hand and said, "you see, before chi yang met you, let's not talk about the problem of him being single. you also know that his headaches all year round made him unable to sleep. How could Grandpa expect such a person to live long? you don't know, but before you met him, grandpa was worried about him every day.

And your second uncle! His body had completely collapsed last year, and several of his internal organs were failing beyond control. I've also found the best professor, but even the best professor can't guarantee anything about the rejection phenomenon."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3273

3273 The lucky star of the Chi family (2)

"not to mention four organs, even if he were to change one, he would have to bear the greatest and worst consequences. And even if the ventilation tube was successful, he could only live for another four or five years at most. Isn't this all your credit?"

Feng jimian nodded heavily.

On this point, he was really on the side of the old master.

If not for Nangong Nuannuan, Chi zeyao's internal injuries would not have recovered, and he would not have taken the initiative to contact her. Perhaps they would miss each other in this lifetime.

At the thought that they were only 50 years old, and that they would have at least 30 years to spend together, she felt that Nangong Nuannuan was an Angel!

She was an Angel sent down by the heavens to help their family overcome their difficulties and reunite with their family.

"Speaking of Xuanxuan, if it wasn't for your good relationship with him, would he have come to our house? Would he meet his father? Also, if it wasn't for you, who knows what would have happened to Xuanxuan's stomach cancer! without you, xuanxuan's hypnosis can't be removed, and there will always be estrangement between him and chi yang.

As for Zhou ruxue, Chi Yang and I both hate her. However, all these years, we've never done anything to the PEI family, all because Zhou ruxue is Chi Yang's mother. Even if she does something outrageous, we can't do anything to her. All these years, she and the PEI family had been taking advantage of this, and had been constantly receiving benefits from the Chi family like vampires. If you didn't see through her identity, we really wouldn't have suspected her. That's why you're our family's Lucky Star!"

Nangong Nuannuan was already used to old master Chi attributing all the good things to her being the Chi family's Lucky Star. It was fine to say it normally at home, but now that it was brought up in front of the president, she felt that it was a little inappropriate.

"Also! If you hadn't discovered that Shi Yalin was Wen Wan, we wouldn't have paid more attention to beiming kun. He could continue to plot behind Chi Yang and Xiaoxuan's back. It's also because you tricked beiming Qin out that we had to fight him. That's why Chi Yang's life was in danger and his parents were forcefully teleported here.

If these things didn't happen, we wouldn't have known that Chi Yang's father was still alive. She would not know that not only was he alive and well, but he had also been living with his wife. Although I didn't get to see my son and daughter-in-law, I'm satisfied to see them alive."

Old man Chi couldn't stop talking about his family's Lucky Star.

He held Nangong Nuannuan's hand tightly and said, "Nuannuan, Grandpa thanks you for marrying into our family and bringing good news to our family. Our family, which was on the verge of decline, slowly gathered together because of you. You see, you've brought so many children to the Chi family, Yingluo."

Seeing the fresh fruits in the Commander-in-Chief's office, Selina, who had a stomach full of dust, started eating grapes.

She was just a bystander anyway.

However, when Grandpa Chi suddenly called her out, Selina didn't pay attention and directly swallowed the whole grape.

He was so scared that he broke out in cold sweat.

"Grandpa, we're your grandchildren too, aren't we?"

3274 the warm red sun wedding (3)

Selina winked at Eden and Danchi, and the other two nodded quickly, which made Grandpa Chi laugh.

“of course!” After he said that, he looked at Leng Jin Peng and threatened, “ “Did you hear that? Selina is my granddaughter! When is your son going to marry her? I’m telling you, if your Leng family dares to neglect my granddaughter, my Chi family won’t take it!”

leng jinpeng wiped his sweat and nodded. “ yes, old man. don’t worry. i’m quite satisfied with selina as my daughter-in-law. ” actually, as long as selina is willing to, i can change leng qirui’s account to a bigger one.”

After saying that, Leng Jin Peng looked at the president and asked, “ “Mr. President, I’ll just increase my son’s age by two years. This shouldn’t be against the rules, right? we’re not doing anything, we just want to get married earlier.”

“Sure, sure!” The president chuckled. I’ll support it even if it’s three years older, let alone two years. When do you plan to get married?”

Hearing the word “married,” Selina was instantly dumbfounded.

Her Yingluo was still a Virgin, and she hadn’t even eaten her yet! Yingluo is getting married?

“This year! It’s January now, so we’ll wait for Chi Yang and the others “wedding to end before accepting the invitation.”

selina:

He originally wanted to say that there was no hurry. However, after thinking about it, little brother Leng, who was now in the business empire, still looked like he blushed easily in front of her. She felt that she could try getting married. Would he not blush if he got married?

Nangong Nuannuan looked at Selina. After all, she was her best friend, and she had to ask for Selina’s opinion.

however, when nangong nuannuan looked at selina, she realized that she had suddenly thought of something and was smiling like a perverted auntie.

Nangong Nuannuan’s mouth twitched involuntarily from the terrifying smile.

Thinking of the friendship she had with Leng Qirui, who used to sit at the same table as her, she silently lit a candle for him in her heart.

“Nuan Nuan and Chi Yang’s wedding is during the spring Festival, right? Isn’t that a little too much?” The president asked.

After all, they had just gone through a huge battle. Even if they had to set up some security, the two of them had special identities and there were many special guests. The security and layout would be a big problem.

Furthermore, after the war ended, the combat service department, Internal Affairs Bureau, and Judicial Court would be busy for a while. He felt that he had let down these two newcomers.

"I won't. Someone is helping us set it up." Chi Yang looked at Nangong Nuannuan after he finished speaking. His eyes were filled with happiness.

From where he was looking, he could see the fluffy hair on his Nuannuan's face. Her face was clearly bare of makeup, but it looked pink, like a moist peach, making people have the urge to take a bite.

He was the only one who knew how juicy the peach was.

The president looked at the couple who were showing off their affection anytime and anywhere and laughed happily. alright, alright, alright. I'll be in charge of preparing the gift then. I'll fly to the wedding venue with you guys.

Although the president had received the invitation, the invitation only stated the time of the wedding and the mode of transportation needed. He didn't even know where the wedding was held.

"That's right!" The president thought of something and asked, "can you handle the situation at KE?" do you need me to talk to the president of cyber nation?"

Chapter 3275

3275 Vacation (4)

Although he was asking Chi Yang, the president's eyes were also on Chi zeyao and Feng shengxuan. These two were once top figures on the blacklist of various countries.

Previously, Chi Yang had used the excuse of going to Saibo to propose to Nangong Nuannuan to meet the President of Saibo in secret and inform him about the matter of KE. Therefore, today's operation was not only being carried out in Kamino, but also in SIBO.

don't worry, cyber nation has already made their move this morning. They've already called my second aunt.

Feng Ji Mian nodded, "when little yang and little Xuan made their move today, KE's side was already on the move against beiming kun's people." By the time the Saibo Army arrived, KE had already cleared out all of beiming kun's men."

The president nodded and said to Chi Yang, "that's good." nangong shu and chief of staff leng will take care of the war service department. Everyone has worked hard, so let's go back and have a good rest. I'll contact you again if I run into any tricky problems. You're getting married in a month's time. If you're free, you should stay at home and spend more time with Nuannuan."

okay, thank you for giving me a break, President.

Seeing that Chi Yang, who usually didn't need a holiday, was so happy to agree to it, the president was also very happy for him.

As for the Shi family, because Shi Yalin was not the real miss of the Shi family, and the Shi family was involved in too many Things From Another World, in order to avoid causing panic, they had to deal with it separately.

That afternoon, before the Shi family had been arrested, old lady PEI, LAN Huifang, sent a video of the Shi family lobbying the ning family and swallowing up the earthquake's charity funds to the court.

His mother had agreed to this.

Because the PEI family's finances could no longer sustain themselves, they looked for Pei Ji Yun, wanting to ask for her help. Who knew that Pei Ji Yun would directly block them.

PEI Jitong had also gone to find PEI Jiyun and said that if she didn't help the PEI family, she wouldn't be the PEI family's daughter. In the end, Pei Ji Yun cut off their sibling relationship on the spot.

PEI Jitong had no choice but to threaten Pei Ji Yun, saying that if the Shi family didn't help the PEI family, he would hand over the video of the Shi family colluding with the ning family.

pei ji yun was shi yalin's mother. of course, he knew that there was no video. After all, she trusted her daughter in this aspect.

Therefore, she did not take PEI Jitong's threat to heart at all. He said that as long as PEI Jitong had more of such videos, he would hand them in directly.

On the eve of the war, the night before the Shi family was arrested, PEI Jitong's subordinate suddenly called him and said that he had heard from a friend that the ning family had a secret passage.

PEI Jitong rushed to the ning family as soon as possible. Through his subordinate's description, he searched around and finally found the video that Nangong Nuannuan had left for them.

PEI Jitong was so excited that he went to the Shi family's house with the video.

It had been early in the morning, and Chi Yang and Feng shengxuan had already engaged in an epic battle. Everyone in the Shi family was very nervous. Who had the leisure to pay attention to PEI Jitong?

Although it was early in the morning, the Shi family was planning everything after dawn. Where would they have the time to chat with PEI Jitong?

Pei Ji Yun had already seen through his brother and mother.

She had already given the order to drive PEI Jitong out and ordered the Butler not to see PEI Jitong or anyone from the PEI family in the future. She didn't need to report it.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3276

3276 The PEI family's ending (1)

In the end, the excited and nervous Shi Yalin ordered the Butler to beat PEI Jitong up and throw him out.

After all, if he didn't teach these people a lesson, they would always take advantage of him.

The Shi family wasn't the Chi family, they still had to consider the situation.

The Shi family would not give any face to this kind of arrogant person.

So the man wanted PEI Jitong to let him in, and he wanted to show the video to the Shi family. In the end, not only did the Shi family not believe that he had the video, but they also beat him up and threw him out.

Old lady PEI, LAN Huifang, had been waiting for PEI Jitong's news at home. In the end, she only received a call from the hospital in the morning, saying that PEI Jitong was seriously injured. His sternum was broken, his lungs were pierced, and he had a serious infection. There were a few times when his life was in danger, but he was still in danger.

Fortunately, someone recognized PEI Jitong and the hospital called the PEI family. When old Madam PEI rushed to the hospital, PEI Jitong was still in the operating room.

in the PEI family, old lady PEI loved PEI Jitong the most, and PEI Jitong had inherited old lady PEI's skills and had always portrayed the role of a green tea man vividly.

Now, the pillar of the PEI family was lying in a glass room and was being resuscitated non-stop. It was only in the afternoon that old Madam PEI felt that the sky had fallen when she died from a severe lung infection.

In the past, with the Chi family and PEI Jitong as her son, old lady PEI felt that she was not afraid of anything. However, now that the Chi family was gone, and even the obedient son PEI Jitong was dead, old lady PEI realized that the PEI family was really finished.

She knew that PEI Jitong had gone to look for PEI Jiyun. Then, PEI Jitong threatened the Shi family and was beaten up by someone. Of course she knew.

That was how old lady PEI went to the judicial Court with PEI Jicheng's help in the afternoon to report the Shi family's matter.

With the video, the Shi family's matter was set in stone.

Therefore, the combat Department went to the time group in the afternoon.

after all, this was a matter between Shi Yun group and the Ning family.

However, they heard that the chairman of the time Fortune Group was in the medical Association, so the War Department sent many people to the medical Association.

After they arrived at the medical Association, the people from the combat Services Department found a huge underground laboratory by accident while they were searching Shi MAODE according to Nangong Nuannuan's instructions.

In the underground laboratory, there were not only people who had signed experimental contracts with the outside world, but also normal people who had not signed experimental contracts at all. They were undergoing inhumane human experiments.

however, even among those who had signed the contract, only one-tenth of them were really receiving treatment. the remaining 90% were undergoing various human experiments that had nothing to do with the illness.

Even though the people in charge of the arrest were mentally prepared for this discovery, they were still shocked and angry when they saw the festering bodies of the test subjects.

Originally, they were just going to arrest some high-level researchers, but now they felt that they couldn't let these medical professors who used living people for experiments go.

After a series of intense struggles and arrests, all the management of the medical Association and the experts and professors involved in the research of living people were arrested.

In addition to the live experiments, the entire hospital was buried under explosives that were enough to blow up the entire hospital, even the neighboring streets and residential areas.

Since the fuse in Shi Yalin's mouth had already been removed, it was much easier for the anti-explosive team of the combat Department to remove the explosives.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3277

3277 What should I do 2

however, when they took out all the explosives according to the location, they took a deep breath.

Today, everyone had truly witnessed what was called madness.

Those medical researchers who were not qualified to come into contact with the core of the medical Association were initially dissatisfied with the War Department's sudden raid on the medical Association. At the same time, they were worried about their future. In the end, when he saw the bomb squad of the combat Services Department dig out so many explosives from under their door, the little bit of resentment in his heart disappeared.

After all, no one would be grateful to an owner who could use them as lab rats or be blown up as hostages at any time.

It was simply too terrifying!

Lu Guangsheng had suppressed those who opposed him during his time as Eagle's substitute. At the same time, the Overwatch Council, which was under the jurisdiction of the Supreme Court, filed a lawsuit against the northeast military service department for some of the things that could not be exposed.

The Shi family, a top aristocratic family that had been established in Kamino for decades, had collapsed in an instant.

when old master shi woke up, he saw shi zhongqiong crying.

Old master Shi cleared his throat and said, "Zhong Qiong, what are you crying for? Am I going to be unable to stand up in the future?"

Old master Shi's voice was heard, and Shi zhongqiong raised his head in a daze. When he saw old master Shi, he burst into tears.

Shi zhongqiong was the fifth son of the Shi family and the third son of Shi MAODE and PEI Jiyun. He was only three years older than Shi Yalin and had just finished his third year of University.

He had planned to go to Saibo country for two years before returning, but before he could go, the Shi family had suffered a disaster.

Everyone in his family had been taken away, leaving him alone.

Now that Shi Gen had woken up, it was as if they had found their pillar of support and they began to cry.

Shi Heng thought that Shi zhongqiong was crying about his health. He thought that even though this child was not the best among his grandchildren, he was still filial.

He reached out and touched Shi zhongqiong's head, which was lying on the edge of his bed, and said, "Don't cry. Actually, I already had a rough idea of what was going on when I fell.

Grandpa is already old and doesn't have many years left. I won't be able to see the glory of the Shi family again. This is what I'm most upset about. But fortunately, the impact on the Shi family this time was not too heavy. If I'm lucky, I can still see your fourth uncle become the president."

When Shi zhongqiong heard Shi Heng's words, he shook his head with all his might. It was with great difficulty that he managed to suppress his breathless sobs and said, "Grandpa, we're finished! We're all finished! I'm the only one left in the Shi family! Grandpa, what should I do? What should I do? You said you were going to send me abroad. Can you think of a way to send me abroad? I can only rely on you now, Grandpa!"

Shi Heng was originally lamenting that Shi zhongqiong was a filial grandson, but after hearing Shi zhongqiong's tearful complaints, his mind instantly exploded.

He only felt a gush of blood rushing into his head, and the pain was unbearable as if his head was about to explode.

Although his vision was turning black, he still grabbed Shi zhongqiong's hand and asked, "What's going on?"

Shi zhongqiong looked at Shi Heng's eyeballs that were slowly popping out of his eye sockets, and the blood vessels that were suddenly popping out beside his temples. A hint of panic flashed through his eyes.

"Grandpa, Qianqian, your eyes are popping out. How are you? I'll get the doctor for you!"

3278 A doctor!!!!3

Shi Heng grabbed Shi zhongqiong, who was about to get up, and asked sternly, "What's going on? Speak!"

the last word was said with all his might.

Shi zhongqiong looked at his grandfather's face that was turning purple and quickly said, "Yesterday, after you entered the operating room, the people from the combat service department came. Her father and second uncle had escaped, but they had found the underground live laboratory and dug out explosives that could blow up the entire hospital and the surrounding roads and houses. Later on, her father and second uncle were arrested at the border. Some of uncle's bad deeds in the northeast War Department were exposed, and it was said that it was Fei Ying's men who directly arrested uncle and aunt. His fourth uncle had not returned after going to the Internal Affairs Bureau. He heard that he had been arrested.

Big brother and second brother were also arrested because they were the vice-chairman of Shiyun group. PEI Jitong was dead, and before he died, he really found the video of us colluding with the ning family. Now the whole world knows that we were the ones who instigated the ning family's old man to transfer the charity funds. they also found evidence that we only paid the donation after the incident when we found out that something was wrong. The Shi family's reputation was already ruined. They're still in prison and no one is in charge of the company. I don't know anything about it. I heard from the special Assistant that all the business partners with the Shi family have withdrawn their capital. Those foreign drug dealers are also clamoring for our Shi family to pay the 17 billion immediately. Grandpa, if we really pay 17 billion, the Shi family will be completely destroyed! Quickly think of a way to stop the judicial Department from sealing up the time Fortune Group!

also, the president was not dead! He's still alive, still alive and well!"

"Where's ya Qianqian and Yaling?" Shi Heng's head was throbbing with pain. He could already guess his current situation, but he still could not let go. If Shi Yalin was still alive and could escape, perhaps the Shi family would still have some hope.

"I don't know! Yaling had not returned since she left that day. We don't even know where she went. However, I didn't manage to find out anything about Yaling's arrest."

Elder Shi felt that he couldn't take it anymore and quickly said, find Yaling or Feng shengxuan. Start with the NS group.

"Alright, then my Grandpa Jian Jia! Grandpa! Grandpa, what's wrong? Doctor! Doctor, come quickly, my grandfather is in a coma from a headache!"

Previously, Grandpa Shi had fallen on his tailbone, causing his lower body to be paralyzed. The doctor had instructed for Grandpa Shi to recuperate more and rest more in the near future. He also instructed him to be less angry and worried so that he would not be agitated.

As a result, when old man Shi had just woken up, he was provoked by Shi zhongqiong. Now, looking at old man Shi who was once again pushed into the operating room, Shi zhongqiong was completely dumbfounded.

He wanted to contact Shi Yalin, but he had no idea how to contact her. Thinking of his grandfather's words about finding NS group, Shi zhongqiong quickly went to check the number of the front desk of NS group. He said that he was looking for Feng jimian. If Feng jimian couldn't find her, he would look for Feng shengxuan. If Feng shengxuan wasn't around, he could look for any person in charge of NS group. When the receptionist asked him who he was, he said that he was from the Shi family and that Feng

Jimian might have died. However, Feng Shengxuan was already looking for him, and if he found him, he would inform the other party immediately.

The receptionist glanced at the news of the successful contract between her Chairman and Shengyang group and hung up the phone with a "PA."

Chapter 3279

3279 The Shi family is finished (4)

Shi Zhongqiong had no choice but to wait outside anxiously for the old man to wake up.

He believed that his grandfather would be able to handle this matter. With his grandfather and sister around, the Shi family would not truly collapse.

In the end, another ten hours passed, and a new day began. Shi Heng was finally transferred to the intensive care unit.

"Doctor, how's my grandfather?"

The Shi family had been sealed up by the judicial Court and the police department. Shi Zhongqiong was also guarding Shi Gen's place and had not returned home. The sixth young master of the Shi family, who usually had to change his clothes every day, had been tormented beyond recognition in just three days.

The doctor looked at him and disdainfully moved his arm away from Shi Zhongqiong's hand without leaving a trace. "Shi Gen has a severe stroke." He should wake up soon, but after he woke up, he might not be able to do anything for the time being except think and roll his eyes. As I said before, the sudden paralysis of an old man is caused by an injury to his spinal cord. His blood flow will not be smooth for a long time. Before he goes through rehabilitation, don't let him be agitated. How do you family members take care of patients? our hospital has always been short of rooms. you're not only adding to your own burden, but also the medical staff, do you understand?"

Shi Zhongqiong could no longer hear what the doctor said after that.

He only knew that he could not find Shi Yalin at the moment. All his bank cards had been stopped and his house had been seized. He was only left with his grandfather.

But her grandfather had a stroke.

In the future, only his eyeballs could move around. What would he do then?

His brothers, regardless of whether they were businessmen, policemen, or Z-Men, were all arrested. Other than her grandfather, all her elders had been captured.

Shi Zhongqiong scratched his head and could not think of what to do.

He stayed in the hospital and another day passed.

When he finally had the courage to open the internet, he saw a few shocking news.

The first news was that Shi Yun group had been seized and declared bankrupt.

The second piece of news was that the medical Association was closed down and the Dean, Shi maocheng, was detained.

The third piece of news was that the No. 13 Prime Minister, Shi maowen, was found to have stomach cancer. In view of the murder case that the Shi family was involved in and the suspicion of the time Fortune Group, an investigation was launched against Shi maowen and he was officially withdrawn from the election.

The fourth news was that Lu Guangsheng had an affair while he was married. He had two sons and a daughter outside of marriage. In addition to the series of violations of his law during his service, he was removed from the war service department and handed over to the Court of Justice.

There was a lot of supplementary information after that.

The time Fortune Group was involved in several secret cases and was officially ordered to stop operating. The Overwatch Council entered the time Fortune Group and used its working capital to pay its employees and workers.

As time Fortune Group was unable to fork out the 17 billion dollars to be compensated, the judicial Court would mortgage all the bonds, stocks, real estate, land, department stores, movable and immovable property of the Shi family as compensation. All the movable and real estate assets under the Shi family's name must be confiscated. After the compensation was done, he would return the rest of the money.

He also saw that not only were his Big Brothers, Shi Zhongyu and second brother, Shi Zhongxiao, arrested, but his third brother, Shi zhonglei, who worked in the hospital of the medical Association, was also arrested. His fourth brother, Shi zhongran, who worked in the medical Affairs Department, was also dismissed and investigated.

Shi zhongqiong looked at the news on the internet in a daze. His eyes were empty and his heart was at a loss.

Chapter 3280

3280 The two scammers (2)

It was only after he had fully recovered that everyone found out that the chairman of Shengyang group was chizeyao.

Now, after knowing that Chi zeyao was once the helmsman behind the NS group, everyone could only sigh with emotion. Gold would shine wherever it was.

Even if he had nothing, he could still use his profound knowledge to create a shocking business Kingdom.

The news was a few thousand words long, and it said everything Chi zeyao and Feng jimian could say on the surface.

But only Shi zhongqiong, who was still alive, knew that Feng Ji Mian's man was Feng Ming! It was the old King of the team!

He was the most dangerous person on the Red list of all countries decades ago!

if chi zeyao was feng jimian's husband, and feng shengxuan's father, then wouldn't he be old King?

As for old King, he was actually the youngest son that old master Chi had lost back then.

So, huhu

how could chi zeyao be a kind-hearted person that old master chi had picked up from the outside?

Chi Yuanshang held a high position, yet he still pretended to be weak. He clearly knew that Chi zeyao was his own son, but he never acknowledged him, only saying that he was his godson.

What did beiming kun say about letting Feng shengxuan kill Chi Yang himself? What did he say about Feng shengxuan being a filial son? She said that Feng Ji Mian's feelings for her husband could be exchanged with her life even if it had been 17 years?

Hehe!

They were all f * cking lies!

these two idiots, kun of the north and shi yalin, have really screwed the shi family over!

Feng jimian and Feng shengxuan already knew that Chi zeyao was Feng Ming, so how could they possibly make Chi Yang and the Chi family their enemy?

the two of them had probably joined hands long ago!

that's why despite being so powerful, beiming kun still failed.

As for Shi Yalin, she was the disciple of the dark North demon. How could he not know her?

That afternoon, Shi Yalin had gone to look for Feng shengxuan. She had said that if beiming tan was dead, then Feng shengxuan should not be dead.

But now, both Feng shengxuan and Feng jimian were still alive and well, and they were at the dinner banquet, acknowledging their family. Shi Yalin, who had gone to look for Feng shengxuan, had never returned.

There was no news from the combat Services Department and the police department that Shi Yalin had been captured.

Shi Yalin's fate could be easily imagined.

The reason why the combat Department was able to find the living research room in the medical Association so easily and find so many explosives around the medical Association and the Shi family was that they must have known about it long ago.

The other party was really casting a long line to catch the big fish, while their Shi family was still smug.

In fact, they had lost from the beginning!

At this moment, Shi zhongqiong was so scared that he broke out in cold sweat.

The Nangong family, Chi family, and Feng family could reshape a planet if they were added together. How could the Shi family shake such an Alliance?

Shi zhongqiong sat in the ward for a long time before he got up and left.

After seeing the news, he understood one thing-no matter what, a grain of rice could not compete with the sun and the moon.

Mi Li lived a good life and could even achieve great things in her own field. However, if she wanted to follow Sun Moon Zheng Hui, then she was overestimating her own ability.

The entire Shi family had become a toy in the hands of the other party. Beiming kun had schemed against them for decades, but in the end, he still didn't have a good ending.

Looking at the Shi family's current state, regardless of whether it was the Nangong family or the Chi family, the only one they were afraid of was beiming kun.
