Chapter 3301

3301 Must take a bath 1

There were all sorts of wonders in the world. If it wasn't that person, even if they looked exactly the same, she wouldn't be moved at all.

Today, Bai Liyue was exhausted.

She found the bathroom and found that it was fully equipped.

They had been on the road from morning to night.

Following the fifth elder and the others on their high-intensity journey made her feel like her bones were about to fall apart.

Now that she saw such a big bathtub, Baili Yue didn't even think about it. After filling the water, she directly soaked herself in it.

After she was done, she realized that she had not brought her luggage or clothes.

After searching for a long time, she couldn't find the wardrobe. She saw that there was another door in the other part of the bedroom. Bai Liyue walked in and took a look. It was actually a super large cloakroom. there were at least two to three hundred sets of women's clothing inside.

There were normal travel clothes and training clothes.

There were both modern and ancient clothes.

The people of Emperor moon wore random clothes. To those who were highly cultivated, they were not afraid of the cold, so they could only wear one set of clothes all year round. However, they could also wear modern clothes similar to those on glory planet, or ancient clothes similar to those on glory planet.

Baili Yue chose a set of pajamas and put them on. She nestled herself on the large and soft sofa and soon fell asleep.

suddenly, a phone call woke her up. He followed the voice and picked up the phone. Fifth elder's voice came from the other end.

"young madam, have you finished washing up?"

"Is there something?"

"Hehe, it's fine. If you're done, remember to help our young lord wash up. From today onwards, our young master's cleansing pill will be taken away. He will be dirty, so we have to trouble young Madam. Tomorrow morning, there will be a special person to check if young master has washed up. If they find that young Madam has not served young master well, they may make things difficult for you for the entire day. I was afraid that young Madam would be shy and refuse to give young master a bath, or that

she would give him a shoddy bath, so I turned around to remind her. You must remember to give young master a bath.”

Bai Liyue was stunned.

“Do you still have anything else?” Bai Liyue didn’t want to talk to the fifth elder anymore.

“No, no. I wish you and the young master a happy wedding and a heart-knot forever!”

With that, the fifth elder hung up the phone.

Listening to the beeping sound from the other end of the phone, Baili Yue was not feeling well.

She didn’t understand why these people would take the cleansing pill away when it was on him and his body would be kept clean.

Are you crazy?

After answering the phone, Baili Yue threw herself on the sofa and lay down for a long time. Then, she got up again, walked to the edge of the bed, and reached out to pick Feng Jiyue up.

however, the bed was too big. she had no choice but to take off her shoes and climb onto the bed. after helping him up, she put one hand under his armpit and the other under his knees. she carried him up horizontally.

After he was done, he knelt down and got off the bed. Then, he put on his slippers and prepared to go to the bathroom.

However, the man was dressed like a ghost in a national style, and it was extremely long. Bai Liyue was used to living on glory planet, so she didn’t pay attention. She stepped on Feng Jiyue’s clothes and fell forward.

he fell out of her arms in an instant.

Baili Yue was afraid that she would drop her ” husband ” to death on the first day, so she reached out to grab him, but she accidentally grabbed his belt.

The belt loosened, and Feng Jiyue slipped out of the clothes.

Bai Liyue tried to remedy the situation for the third time, but she stepped on his middle clothes again.

With a crisp tearing sound and a muffled thud, Feng Jiyue was thrown to the ground by her, and she fell on Feng Jiyue.

Feng Jiyue was wearing a bright red wide-sleeved marathons, a bright red outer robe and inner robe with a little silver pattern. Although she couldn’t see her face, she still looked a little elegant and beautiful. However, after being thrown by her, her outer and inner clothes were torn apart, leaving her red inner robe hanging on her shoulder, revealing her crazy sexual desire.

Baili Yue's chin was on Feng Jiyue's chin, and her lips were on her lips.

Immediately, the taste of blood spread between his lips.

He reached out and touched it. At a glance, it was a dark red color.

holding her forehead, bai liyue glanced at feng jiyue's broken lips. she was defeated by the complicated clothes.

In order to prevent herself from tripping again, Baili Yue directly ignored her coat and inner clothes. She tied a knot at the lower hem of the comfortable red inner clothes, then picked Feng Jiyue up again and walked into the bathroom.

After entering the bathroom, she realized that Yingying was in the bathroom.

She had not turned on the water for her bath just now, so she had to put her on the carpet, turn off the water, and wash the Super large bathtub clean before turning on the water again.

By the time Feng Jiyue could take a bath, 40 minutes had passed.

Bai Liyue was also convinced!

after putting the person into the bathtub, the problem arose again.

This person was in a vegetative state and had no feeling at all. After being put in, his entire body was floating and could not be fixed.

It wasn't an easy task to hold someone outside the bathtub and clean him up.

There were several times when Baili Yue almost fell into the huge bathtub when she was trying to clean him.

but just as she steadied herself, feng jiyue's face slipped into the water again.

baili yue:

She felt that it was not easy to be a nurse.

She glanced at Feng shengxuan's thin lips and chin, which were very similar to Feng Jiyue's, and then at his face that kept sinking into the water. Finally, Bai Liyue decided to step into the bathtub and help him wash up.

However, because the bathtub was filled with essential oil bubbles and the side of the bathtub was slippery, Bai Liyue couldn't stand still when she stepped on it.

He tripped forward and stepped on Feng Jiyue's inner clothes with his other foot.

The inner garment floated up, and Baili Yue's feet were wrapped in it. She couldn't step on it steadily, and her whole body fell down.

"Huala-"

With a loud sound of water, Bai Liyue felt that she had directly sunk to the bottom.

she had already fallen like this, not to mention feng longyue, who had directly become a human cushion.

Bai Liyue quickly pulled Feng Longyue out of the water, hugged him, and squeezed his back several times. This was so that the water in his windpipe and lungs could be discharged.

to her, feng jiyue was not in a deep sleep. he was a typical vegetable. He was breathing normally. If such a person was not well taken care of and allowed water to enter their lungs, it was easy for them to develop pneumonia or even cause edema.

Because his body was in a dormant state all year round, he could not recover by coughing and other methods, so he could only use this kind of squeezing method.

Chapter 3303

3303 [fan] afraid of Yiyi 3

It was only when Feng Jiyue suddenly made a " pfft " sound that Baili Yue felt that he had spat out the water that he had choked on, so she put him back into the bathtub.

Baili Yue, who had only intended to wet her legs, was now completely wet.

baili yue had left a piece of undergarments for feng longyue, but when she stepped on it, the undergarments floated to the water.

Baili Yue looked at Feng Longyue, who was only half-dressed, and held her forehead. She decided to just take off his clothes.

The other party was in a vegetative state anyway, so it was fine.

The red undershirt floating in the water was wide and big. When Baili Yue finally helped him take off all his clothes, her eyes suddenly fell on the red Zhusha mole where Feng Jiyue's heart was.

Because Yingluo

Feng shengxuan had the same Zhusha mole on his chest.

Baili Yue put her arm around Feng Longyue's shoulder and stared at the Zhusha mole on her chest for a long time.

The same height, the same body, the same skin color, the same lips and chin, even the mole on the chest was the same.

Bai Liyue felt a little dizzy.

he had just told himself that this might just be a coincidence. there were so many people in the world who looked alike. as long as they were not the same core, even if they looked the same, they were definitely not the same person.

However, at this moment, her heart was beating very fast.

From Nuannuan's words, she had already believed one thing without a doubt.

It might be a coincidence if there was one point of collision, but if there were more than three points, it was almost no coincidence.

Feng xuan Yue, Feng shengxuan, Xuanji

The more Baili Yue thought about it, the more she felt that something was wrong. She quickly wiped Feng Jiyue's body, closed her eyes, wrapped a bath towel around him, and put him back on the bed.

After tidying up Feng Jiyue, Baili Yue walked to the phone and was about to call the fifth elder, but suddenly remembered that the phone here only had the most ordinary function, and there was not even a call back button.

She opened the door to look for Yiyi but found no one in the house.

When she walked out of the house, she saw a few servants sitting outside and chatting.

Upon seeing her, the servants quickly stood up.

"Young Madam."

"Where's Yiyi?"

"Sister Yiyi has already gone back to her room to sleep. Is there anything you need, young Madam?"

"Do you know what the fifth elder's phone number is?"

The servant shook her head. the fifth elder is an elder of the heavenly return sect. Only the higher-ups know his phone number.

"Does Yiyi know?" Bai Li Yue asked.

"Ran ran, we don't know if sister Yiyi knows."

Baili Yue saw the servants stuttering and understood that Yiyi definitely knew, but they just didn't want to disturb her rest.

"Where's Yiyi's room?"

The servants looked at each other. They didn't know if they should tell her where Yiyi lived.

At this moment, Yiyi's voice came from behind Baili Yue.

"What's the matter, young Madam?"

Baili Yue was shocked. She realized that she actually didn't sense that Yiyi had appeared behind her.

she turned around and looked at yi yi. baili yue asked,"Do you know the fifth elder's phone number?"

Yiyi nodded. young Madam, please follow me. I'll copy your phone number.

" no need. just tell me directly. i can remember it. "

After Yi Yi gave Baili Yue his number, he asked, " "Is there anything else, young Madam?"

"No,"

Yi Yi nodded ...

3304 Young master doesn't need to wash his face (4)

"moon house was personally designed by the young master. other than cleaning, we don't have the right to stay inside. if young madam has anything to ask me, you can come to one room. my room is the first room on the left of moon house. You can also call me directly through the internal line. If you dial 1 from your bedroom phone, it's the internal line. I didn't have time to tell you that young Madam left earlier. I'm sorry."

Bai Liyue nodded and turned to leave.

Back in the room, Feng Jiyue was still lying on the bed, motionless. Her thin lips were red and she didn't look like a vegetable. She looked like she was asleep.

It was no wonder everyone said that he had just fallen into a deep sleep.

Baili Yue stood in front of the bed and stared at Feng Jiyue for a long time. Then, she walked to the phone and called fifth elder.

Before the fifth elder could say anything, Bai Liyue asked, " "What's the relationship between Feng Jiyue and Feng shengxuan?"

"One is your ex-boyfriend, and the other is your current husband," the fifth elder replied after a pause.

Baili Yue:

I mean, you've seen Feng shengxuan before. Don't you think he looks like Feng Jiyue? "

"Similar? Which part of him looks like her?" his words seemed to have infuriated the fifth elder. Then, the fifth elder began to talk non-stop.

"Our young master is a man of elegance and grace, not someone that Feng shengxuan can compare to. Other than his face and body, how could Feng shengxuan be compared to our young master? Young Madam, it's not that I want to criticize you, but it's one thing for Feng shengxuan to lie to little girls, but he's not someone who can be brought to the table. He might be good on glory planet, but you know, with his skills, he'll be nothing on Emperor moon.

Let me tell you, before our young master fell into a deep sleep, he was the man that many women dreamed of. Even though he fell into a deep sleep, there were many women who wanted to marry him and become the young Madam of the heavenly return sect.

It's your fortune to be able to marry our young master. Don't be ignorant and treat our young master as Feng shengxuan's spare child. Young Madam, you're already dead."

"Stop, I'm just asking you, what does your young master look like? Why does he look so much like Feng shengxuan?"

In Baili Yue's eyes, Feng Longyue was like a cabbage made of violet in the eyes of the heavenly return sect, especially the fifth elder, while she was a pig who got the cabbage by luck.

If he didn't stop the fifth elder, he would definitely recommend their young master to her for seven days and seven nights.

"Of course our young master is loved by everyone. If a woman doesn't love our young master after seeing him, then she's not a woman! He's ..."

"Fifth elder, it's already 2 am. I just want to ask what your young master looks like. Or, tell me, How do I take off his mask? He's in a vegetative state now. Since you've already taken the cleansing pills, he needs to take a bath. So, his face needs to be washed too, right? I can't take off his mask."

"Our young master has never taken off his mask in front of his subordinates. Young Madam, you can ignore young master's mask and he doesn't need to wash his face."

Baili Yue:

"What do you mean I've never taken it off in front of you? It can't be that you don't even know what your own young master looks like, right?"

Chapter 3305

3305 No in-laws (1)

Wuzhang asked curiously, "why do we have to know what the young master looks like?" we're your subordinates. even if we don't know what the young master looks like, it won't affect our worship of him."

"But I'm his woman. I need to know what he looks like. You haven't seen your young master's appearance, but you've at least seen what he looked like when he was young. Can you show me his childhood photos?"

After Baili Yue finished speaking, the other end of the phone was silent for a long time.

"What's wrong? As his subordinates, you don't even have a picture of him when he was young?"

"Young Madam, young master is older than all of us. How could we possibly have a photo of him? You also came from Emperor moon, you should know that the people here are all cultivating. The stronger you are, the longer you live. For someone like the young master who has experienced so many years but is still as handsome as ever, do you know how big of a treasure you've picked up now?"

no matter how good bai liyue's personality was, she couldn't help but roll her eyes.

so, none of you have seen your young master's face, and you don't have a photo of your young master, right? "

"Yes." The fifth elder replied matter-of-factly.

"Don't you think they look alike?" Bai Liyue still didn't give up.

“You mean Feng shengxuan? Which part of him looked similar? How could our young master look like Feng shengxuan? Eyes, nose, mouth ... Our young master is so much better than Feng shengxuan!”

After she finished, she didn’t forget to add, “young Madam, you must find a capable man.” Our young master is definitely the best match for you.”

Bai Liyue was speechless.

If it wasn’t for the fact that Feng shengxuan and Feng Jiyue had so many similarities, she would have said that she had just married an old monster who was in a vegetative state. She didn’t know how they were a good match.

From the fifth elder’s attitude, Bai Liyue could tell that he was not lying. He and those elders should have really never seen their young master’s appearance before.

Suddenly, she thought of something and asked, “Then where is your master?”

“What?” The fifth elder was puzzled.

“since you call him young lord and me young madam, then young lord should have a father or mother, right? Where are they?” She felt that she had to get to the bottom of this.

“i call him young master because he saved us when we were still children. because the young master is very young, we call him master, so he let us call him young master. Don’t make him old. so don’t worry, young madam. this is a blessing that you’ve accumulated over eight lifetimes. you don’t have in-laws.”

Bai Liyue finally gave up.

He hung up the phone and went to sleep.

It was a big house, but there was only one three-meter-wide bed on the first, second, and third floor.

She glanced at the sofa, which was not very comfortable when she slept, and then at the soft and comfortable bed, which only took up a small space and left more than half of the space. In the end, Bai Liyue chose to sleep on the sofa.

What she didn’t know was that after she fell asleep, the entire room was filled with a faint, pearly luster.

When he opened his eyes again, it was already six in the morning.

As a mercenary, Bai Liyue naturally woke up at six in the morning.

The moment she woke up, she felt that her eyes and ears seemed to be a little sharper than before.

He seemed to have heard further than before.

Chapter 3306

3306 (2) are you suitable?

She attributed this to the rich spirit Qi on Emperor moon planet, and this was the residence of the heavenly return sect's master, so the natural spirit Qi here was richer than in other places, so she could improve her strength in her sleep.

The phone rang, and Baili Yue picked it up. It was Yiyi.

"What is it?"

"Young Madam, the Baili family has come to visit you."

"Who's here?"

the head of the family, Baili Ren, the second young master, Baili Shi, the third young master, Baili Yu, and your sister, Baili Xi.

Originally, Baili Yue had decided to meet these people at the foot of the mountain. Although it would be a little troublesome for her, she really didn't like her grandfather and uncle.

However, when he heard Baili Xi's name, he immediately changed his mind.

She had been on good terms with Baili Xi since they were young. At that time, her father had just passed away, and her mother had married someone else. Only she and Baili Xi were left in the family. They were treated coldly and did their best to survive in the family.

If not for Bai Lixi, she would not have gone to glory planet alone.

In the blink of an eye, 13 years had passed. She was already 26 years old, and her sister was already 23 years old. She was only 10 years old when she left.

The corners of Bai Liyue's lips rose slightly, and she said, " " i heard that you also have a meeting room halfway up the mountain. let's go there then. "

Yiyi didn't say anything on the other end of the phone.

"What's the problem?" Bai Liyue asked.

"Young Madam, it's not that I'm overstepping my boundaries, but with your personality, you're really not suitable to stay by the young master's side. I also know a little about the young Madam. Back then, the Baili family kicked you out because your father passed away and you lost your value. You actually gave such a family such a high standard of reception. The Baili family is a force under the heavenly return sect. What you're doing is degrading the heavenly return sect. "

"If I'm not suitable to stay by your young master's side, are you? If you really like your young master so much, you can tell the elders of the heavenly return sect and ask them to divorce me. This way, not only will I not be angry with you, but I will also thank you. Can you do it?"

Yiyi:

"If you can't do it, then please understand that I'm your young Madam and your master. You can't interfere with any of my decisions. Do you understand?"

"I understand. Then I'll inform the servants at the foot of the mountain to prepare."

after hanging up the phone, bai liyue washed up and casually put on a set of casual sportswear before going out.

at the door, one, two, three, and four of yi yue ju were standing outside.

“What’s the matter?” Bai Liyue asked.

it’s fine. We’ll accompany young Madam to meet the guests.

“I know where the reception room is on the mountainside. You guys go and collect the paintings and flowers in the room. If you don’t accept it, I’ll have the fifth elder come in and accept it.”

After saying that, Bai Liyue left.

young Madam, the murals and orchids are all things that young master likes. They’ve been there for many years. You have no right to ask us to take away things that young master likes.

“But your young master is in a deep sleep now. It’s useless even if these things are placed in front of him every day. but i’m a living person, and i can’t stand those things that bind my hands and feet. if you don’t accept them, i might accidentally break one a day.”

Yiyi:

Looking at Bai Liyue’s back as she directly jumped down from the mountain, Yi ‘er was extremely angry,
” “Sister Yiyi, look at her attitude!”

Chapter 3307

3307 No wonder she’s the granddaughter of the Baili family 3

“Did she really treat you as a servant? Or does she not even know your identity?”

Yi Yi was silent for a moment, then turned and walked towards Yi Yue ju. At the same time, he ordered,”Come with me to move young master’s things out first.”

“Sister Yiyi? Are you really going to move the young master’s things? Those are things that the young master cherishes so much that he doesn’t even bear to touch them.”

“It’s because it’s precious that we have to move it. Although Bai Liyue’s strength is bad, she has a stubborn temper. If we continue to leave the things there, I’m afraid that young master’s painting and orchid will really be ruined by her every day. If I can’t even keep something that young master likes, then I’ll really be neglecting my duty.”

“but yingluo”

“No buts. First, move the painting and the orchid to my place. She doesn’t want to see those things, but I do.”

Yi two, three, and four looked at each other and finally silently followed Yi Yi into Yi Yue house to move things.

When Baili Yue reached the mountainside, the Baili family had already arrived at the reception room.

All the buildings in the heavenly return sect were to Bai Liyue's liking. The heavenly return sect was huge, but the buildings were not as magnificent and magnificent as the Baili family's. The buildings of the heavenly return sect were all for leisure. For example, Moon House was actually a bamboo house.

Although the living room was not a bamboo house, it was antique and melodious. The winding corridor was accompanied by Jiangnan ditties, but it did not lose its atmosphere and luxury. All the items were the best equipment on Emperor moon. It really brought out the low-key luxury to the extreme.

Even the wooden chairs under the wisteria by the stream were carved out of the most precious zimu on Emperor moon.

Baili Ren had a total of three legitimate sons, and he could not be considered to have a mistress. The eldest son, Baili Shu, was the Father of her and her sister, Baili Xi. He was also the most talented person in the Baili family. However, he died early.

After Baili Shu's death, all his previous businesses and forces were quickly divided between her second uncle Baili Shi and her third uncle Baili Yu.

Although her mother, Liu susu, wanted to control her father's inheritance and power, she was just a young lady from a small family. She couldn't win over her two uncles. In the end, she simply found a long-term meal ticket and left the Baili family.

All these years, she had not had any contact with the Baili family, and the kinship she had in the past had been slowly erased after her father's death.

Therefore, when she was brought to the living room by the servant and saw her grandfather and two uncles, she didn't have any emotional fluctuations at all.

However, when he saw his sister, Baili Xi, his eyes lit up.

Baili Xi was a very good-looking girl. Although she wasn't the most beautiful kind, she was a rarely seen obedient girl.

The moment she saw Baili Yue, Baili Xi's eyes, which had been trained to be calm and collected, instantly lit up.

However, it only lit up. The next moment, he gave Baili Yue a look, asking her to focus on Baili Ren.

"Yue 'er, I haven't seen you for a few years, and you've really become more and more beautiful! You're truly my granddaughter!"

Baili Ren's eyes lit up when he saw Baili Yue.

Who would have thought that a granddaughter who had been abandoned by the Baili family would bring them such great benefits in the end?

Baili Shi and Baili Yu were also chuckling and chiming in.

in the past, I knew that Yue 'er would be a beauty just by looking at her appearance. I didn't expect Yue' er to be so beautiful when she grew up.

Chapter 3308

3308 [fan] elder's support 22

"The heavenly return sect is really good at picking people. He did not pick Meng 'er and Qian' er, but he had his eyes on Yue 'er. Seeing her today, our Yue 'er is indeed the beauty of an immortal! Dad, this is our Baili family's good fortune!"

Baili Ren looked at Baili Yue's stunning and cold appearance. The more he looked at her, the more satisfied he became. His eyes revealed an uncontrollable admiration.

"mm! None of the granddaughters of the Baili family are weak."

After Baili Yue entered the door, she didn't greet anyone. She just looked at them coldly.

The group of people made a long opening speech, but when they saw that Baili Yue had no intention of greeting them, they suddenly felt a little embarrassed after laughing and being happy.

Only when they stopped laughing did Bai Liyue slowly walk to the main seat and sit down.

Although her current strength should be far behind the Baili family, her position as the vice-chairman of disheng for many years had given Baili Yue an air of authority.

Her every move and her gaze all revealed the aura of a superior.

Although Baili Ren's lips were still smiling, at this moment, his old eyes revealed a touch of profoundness.

Baili Ren could control his expression, but his third uncle, Baili Yu, who had always looked down on Baili Yue, could not help but speak up.

"Yo, we haven't seen each other for a few years, but Yue 'er's aura is getting more and more imposing. What, now that you've become the young Madam of the heavenly return sect, you don't want to acknowledge your grandfather and US, your uncles?"

"Yue 'er, quickly greet your grandfather. It's all thanks to your grandfather that you're able to become the young Madam of the heavenly return sect. Without your grandfather's approval, you wouldn't have been able to marry into the family." Second uncle Baili Shi said.

after bai liyue sat down, she took a sip of the tea that seemed to be able to improve one's strength instantly. she put down the teacup and was about to speak when the servant at the door came to report respectfully.

"Young Madam, second elder, fifth elder, sixth elder, and eighth elder have arrived."

"Invite them in,"

Although she didn't know what was going on, Baili Yue's impression of these elders wasn't bad after the short time they had spent together yesterday.

Compared to the Baili family, she was more willing to see the heavenly return sect.

When the Baili family heard that the heavenly return sect's big shots were here, they quickly stood up.

They didn't know how powerful the young master of the heavenly return sect was. After all, when the heavenly return sect was established, the young master had fallen into a deep sleep. For so many years, he had been the acting sect master of the second elder, who had dealt with the forces of heaven city without any resistance. This allowed the heavenly return sect to take full control of heaven city, while the other forces had become the vassals of heaven city.

Therefore, rather than saying that they had submitted to the young master of the heavenly return sect, it was more appropriate to say that they had submitted to the second elder of the heavenly return sect.

Upon hearing that the second elder was coming, Baili Ren and his son, who had been putting on airs just a moment ago, quickly stood up and smiled at the empty door.

The second and fifth elders walked in front, while the sixth and eighth elders followed behind.

"Second elder! The fifth elder! The sixth elder! The eighth elder!"

Baili Ren and his two sons bowed to the four elders in unison, their faces full of smiles.

Baili Xi had never been to the heavenly return sect before. She had only heard of the second elder's fierce reputation. Now that she saw her grandfather, second uncle, and third uncle bowing, she quickly bowed to them as well.

However, the four elders didn't even look at the few people who saluted them. Instead, they bowed to Bai Liyue, who was sitting in the main seat.

Chapter 3309

3309 [fan] not bad 23

And it was a 90-degree gift.

"Greetings, young Madam."

Originally, Bai Liyue felt that she should stand up. After all, she had always placed herself in the position of a young master's care.

However, seeing that the elders were obviously here to support her, she did not get up.

"Four elders, what business do you have here?" Bai Liyue asked.

The second elder smiled. we heard that the young mistress is meeting her family here. As her subordinates, we should come and take a look.

the second elder's words made baili ren happy. he laughed and said, " second elder, you're the acting sect master of the heavenly return sect. Yue 'er has just married into the sect. It's already a blessing that you can take care of our Yue' er.

"Yes, yes!" Baili Shi also said. originally, we were worried that yue 'er would not be able to adapt to the new marriage, but now that we see that second elder is so good to yue' er, we can rest assured."

since the young lady has married the young master of the heavenly return sect, she is the only master of the heavenly return sect. The second elder's words were filled with an air of arrogance that kept people at arm's length.

The fifth elder also changed his cheeky tone when he spoke to Bai Liyue and responded, "Therefore, you can rest assured. In the heavenly return sect, young Madam is the master and we are the servants. There's no such thing as a servant bullying the master."

The four elders sat in the row to the left of Baili Yue according to their own ranking.

"Sit!" The second elder spoke to Baili Ren.

"Hehehehe, Qianqian thanks second elder!"

The front row seats on both sides had been occupied by the Baili family, and there were two cups of tea on the tea table between the first and second seats on the left.

But now, seeing that the elders had already taken the seats on the left, they consciously sat on the right.

As he turned around, he suppressed the shock in his heart.

He had originally thought that Bai Liyue was just a puppet when she married him. After all, the young master of the heavenly return sect had always been in a deep sleep. If Baili Yue married someone who was in a deep sleep, there would be no benefit for the Baili family and the heavenly return sect, except for being related by blood.

However, they didn't expect that the fifth elder would actually say in front of the second elder that they were servants and Bai Liyue was the master.

These words completely subverted their original expectations.

At this moment, they were also extremely regretful that they had only fought for a little benefit from the heavenly return sect and married her.

"Mr. Baili, what's the matter with the heavenly return sect this time?" The second elder asked.

baili ren quickly greeted him with a smile. "I heard that Yue 'er came back last night. seeing that she went straight to the heavenly return sect without going home, she called her two uncles and her sister over to visit. "After all, we haven't seen Yue 'er for so many years, and we miss her very much. This child has a hard life. She lost her father when she was young and her mother married someone else and didn't care about her. Now that I see that she's living well in the heavenly return sect and the elders are taking care of her, the stone in my heart has been put down."

The servants served the four elders tea. The second elder drank the tea while listening to Baili Ren's blatant lies, but he smiled without saying a word.

Seeing that the elders did not speak again, the atmosphere instantly became awkward. Baili Ren looked at Baili Yue and asked, "Yue 'er, how have you been on planet glory all these years?"

"It's alright." Baili Yue replied indifferently.

3310 Misunderstanding (24)

Baili Yue had never been a talkative girl, especially after Baili Shu's death.

Baili Ren also knew that their previous attitude towards Baili Yue might have caused her to feel disgusted and traumatized. But now, the Baili family was relying on the heavenly return sect, so they needed to win back this granddaughter.

"Did you get bullied over there? If you're bullied, tell Grandpa. Our Baili family isn't to be trifled with, and we'll never let off those who bullied you."

"No, I didn't," Bai Liyue's words were still short.

If Baili Ren didn't start a conversation, she wouldn't speak. If Baili Ren started a conversation, she wouldn't speak more than three words.

This made Baili Ren extremely embarrassed and embarrassed in front of the elders.

After all, she was the granddaughter of the Baili family. Baili Ren finally showed a trace of displeasure at Baili Yue's insensibleness.

"Yue 'er seems to have some misunderstanding with grandfather? You haven't been home for a few years. Why don't you miss your family at all? Grandpa has missed you so much these past few years!"

"no, i didn't,"

Baili Yue's answer was still extremely short, causing Baili Ren to ponder over it for a long time. Her answer was meaningless.

He thought that Baili Yue was clearly slapping his old face by telling him in front of so many people that she didn't miss them. After thinking for a long time, he finally understood that Bai Liyue's words should be saying that she didn't misunderstand.

Baili Ren was also speechless.

Bai Liyue had been a loner since she was young, and now it seemed that she was even more of a loner.

"If I'm not wrong, our young Madam has left the Baili family for 13 years, right? Old master Baili misses our young Madam so much that he doesn't even remember how many years she's been away from Emperor moon?" The fifth elder asked with a smile.

Baili Ren's expression froze, then he chuckled and explained stiffly, " "Maybe it's because I miss her too much. I miss her every day, so I don't think she's been away for long."

After saying that, he sighed,"sigh, everyone knows that Yue 'er's father is the child I value the most." It's a pity that my eldest son left early, leaving behind Yue 'er and her sister. These years, Yue 'er has been outside, so we can only treat Xi' er better to make up for this love for Yue 'er."

The eighth elder chuckled. I'm indeed lacking in talent and knowledge. I've only heard of the saying that one day apart feels like three years. I've never heard of anyone who feels that the days are passing quickly because of their longing.

Everyone from the Baili family:

Baili Yue had no feelings for the Baili family, but her feelings for her sister were different. Originally, she was happy to watch the two of them argue, but now, she looked at Baili Xi and asked, "Xiaoxi, how have you been these past few years?"

Baili Xi's face turned slightly red. He did not expect his sister to give him so much face. He quickly said, "Grandpa is very good to me. sister, what about you?"

Hearing Baili Xi's answer, Baili Yue was finally satisfied. "I'm fine too," he replied with a nod.

Baili Xi revealed her dimples and nodded. "then i'm relieved."

Bai Liyue smiled and did not intend to speak again.

After all, there were outsiders around, and he couldn't get any answers.

"Yue 'er, I know that you still have some complaints about grandfather in your heart. But you have to think about it, our Baili family has more than 200 people. With so many people, Grandpa has to be responsible for them and their families!"
