Chapter 3311

3311 (X) 25

“Back then, you pushed su mu into the cold pond and caused a 3s-level genius to fall from the altar. If I didn’t send you out, how could the SU family let our Baili family off? Even if we send you away, the SU family has been causing trouble for the Baili family all these years. Our family has also formed an unresolvable enmity with the SU family, and we’ve lost quite a bit. In the past, you were young and Grandpa couldn’t tell you these reasons. Now that you’ve grown up, you know the stakes. Now that you’re under the care of the heavenly return sect, Grandpa can rest assured.”

Baili Ren’s words were full of emotion.

“Grandpa, we really didn’t push miss su into the cold pond.” Baili Xi’s voice was as soft as a mosquito’s.

Baili Yue looked at Baili Xi, who obviously didn’t dare to do so, but always stood on her side to protect her, and her eyes softened unconsciously.

it doesn’t matter anymore. Anyway, I’m already married to the heavenly return sect. The SU family won’t dare to find trouble with me in the future. Bai Liyue said.

the second elder, who had been watching the show from the side, immediately nodded. ” “Young Madam is right. The SU family was a family of the martial Alliance. Even the martial Alliance’s Alliance master would not dare to easily make an enemy of the heavenly return sect. So, young Madam, don’t worry. The SU family will definitely not cause you any trouble.”

Bai Liyue glanced at the second elder, who was very helpful, and nodded slightly. thank you.

“You’re too kind, young Madam. You’re the master of the heavenly return sect. Whoever dares to cause you trouble is going against the heavenly return sect. ”

The second elder’s words shocked Baili Ren.

He had never expected that a mere puppet would be treated with such respect by Feng Luan.

She suddenly felt like the Baili family had missed out on something very important.

Baili Shi nodded and smiled,”that’s good, that’s good!” With the second elder’s words, I believe that su family will not find trouble with my Baili family anymore.”

“Second young master might have misunderstood second elder’s words.” The eighth elder couldn’t help but say.

baili shi,”wuwu?”

“The second elder meant that the SU family would never dare to cause trouble for our young Madam. However, second young master, don’t forget that the moment you sold the young Madam to the heavenly return sect at a clear price, the young Madam would have nothing to do with you anymore. this was what we agreed on back then.” The sixth elder explained to the eighth elder with a smile.

Baili Shi's face froze.

Baili Ren's expression turned ugly in an instant.

"look at what sixth elder is saying, it's as if our baili family is selling our daughter. Although Yue'er's father passed away early, she is still the legitimate daughter of our Baili family. Yue'er was also raised by our Baili family."

"Hehe, why would a young girl like her be allowed to live on a polluted planet like glory? Would a thousand beauties and Pampers bring Baili Yue to our heavenly return sect just because they couldn't bear to part with Baili Xi? We've already signed the contract, and it's clearly written in black and white. Why is the Baili family trying to give us face but not take it?"

A woman's voice suddenly joined the conversation. Baili Yue looked towards the door and saw the girl who had insulted her at the foot of the mountain last night-Feng Qinglan.

Last night, when she had met the second elder for the first time, she had called him "sect master". In the end, Feng Qinglan had said that she had set a trap for her father.

Last night, she had only rebuked him once, and it wasn't too serious, but she had been stopped by the second elder.

But at this moment, Feng Qinglan's words could be said to be venomous.

Chapter 3312

3312 (X) 26

She had attacked the Baili family mercilessly, but the second elder was calm and unruffled at the moment, without the slightest intention of disciplining his daughter.

"So it's miss Feng."

Baili Shi and his sons all sat down and cupped their hands in greeting to Feng Qinglan. Baili Xi, who was sitting at the back, quickly stood up and bowed 90 degrees to Feng Qinglan.

However, Feng Qinglan didn't seem to notice them and just walked past them. he came to baili yue's side and bowed 90 degrees to her.

"Good Morning, young Madam."

"Good Morning," Bai Liyue nodded.

young Madam, do you know how many betrothal gifts the heavenly return sect has given you when you joined us? " Feng Qinglan asked.

Baili Yue glanced at the three men from the Baili family, whose faces were red from holding back, and replied, "I'd like to hear the details."

Feng Qinglan smirked at the Baili family and said, "When we went to the Baili family to propose, we didn't say that we wanted young Madam to marry into the heavenly return sect, but we went to find

Baili Xi. After all, Baili Xi was different from the young Madam. She was a 3s-level genius. Although the young Madam is not bad, it's only s-grade."

When Feng Qinglan turned to look at Baili Xi, the latter's face turned pale.

although the Baili family wants to rely on the heavenly return sect to obtain some resources, they are not willing to marry a genius like Baili Xi to our young master. That's why the Baili family has discussed with us to use you to exchange for Baili Xi. Originally, we promised to give the Baili family two purple spirit stone veins, but the Baili family was still unwilling to marry Baili Xi to the heavenly return sect, unless we use five purple spirit stone veins in exchange.

Later, they said that young Madam was also a legitimate daughter of the Baili family, and suggested using her to exchange for Baili Xi. they also said that if the young mistress married into the family, they would not want the purple spirit stone mine. they would only want a blue spirit stone mine.

"My dad didn't agree. He said that if the young Madam married over, the Baili family would immediately come over and shamelessly try to build a relationship with us by continuing to mine from us. Wouldn't that be a great loss for us?

However, the Baili family said that they had nothing to do with you, and that you were just an outsider who was sent out to help the Baili family earn money. That's why they won't try to claim kinship with you.

In order to prevent them from going back on their word, our heavenly return sect even signed a contract with the Baili family. Am I right, old master Baili?"

Feng Qinglan's words made Baili Ren's face turn red.

Before he could say anything, Feng Qinglan laughed and said, " "But young Madam, do you know? What Baili family's young lady? they really overestimated their status. No matter if it's the Baili family, the Wei family, or the SU family, the heavenly return sect doesn't care about them. Not to mention the young lady of the DI family, even if the DI family's ancestor wanted to marry over, it would be too much for the heavenly return sect.

Old master Baili, since the contract has been signed, I can tell you that the person we wanted to marry from the beginning was the young Madam, Baili Yue, not Baili Xi. Our heavenly return sect has plenty of geniuses, we don't care about any 3S grade geniuses.

The reason why he said he wanted to marry Baili Xi from the beginning was that he was afraid that they would see through it and ask for an exorbitant price. We didn't expect that we would be able to marry the woman our young master wanted to marry the most at the lowest price. miss baili xi, please don't show off in front of your friends anymore."

Chapter 3313

3313 (X) 27

"They said that the heavenly returning sect had taken a fancy to you and wanted you to be the young mistress. In order to get you, the heavenly returning sect was willing to exchange five purple spirit

meridians for you. Before, young Madam wasn't married yet, so we couldn't argue with you. But if you ruin our heavenly return sect's reputation like this again, I'll beat you up."

Baili Xi's face turned from pale to purple. Tears welled up in his eyes, but he bit his lip and did not say anything.

Feng Qinglan then turned to Baili Ren and said, " "Since we've already signed a contract to sell our granddaughter, you can't always act like you want to talk about family. Otherwise, it's disgusting to look at. also, although you are the young madam's former family, you must be clear that since the young madam married into our heavenly return sect yesterday, she has been a member of our sect. As the saying goes, a married daughter is like spilled water. Since young Madam has no parents, Tianhui gate will be her home in the future."

Feng Qinglan had a typical venomous tongue. When the Baili family's foot hurt, she would step on it.

Baili Ren had originally come to inquire about the situation. If the people of the heavenly return sect were good to her, she could visit them more often in the future. If they were not good to her, he would just pretend that he never had this granddaughter.

Who knew that the heavenly return sect's respectful attitude towards Bai Liyue was beyond his imagination, but the heavenly return sect's bad attitude towards them also exceeded his imagination.

The whole scene was very awkward.

The four elders were drinking water while eating the peanuts and melon seeds on the table, simply acting like a melon-eating crowd incisively and vividly. Feng Qinglan had said so many face-smacking words, but the second elder didn't seem to have any intention of stopping her at all. He continued to peel the peanut shells and cover the table with them.

Baili Ren could tell that the heavenly return sect did not welcome him after being scolded so badly.

However, judging from the heavenly return sect's attitude toward Baili Yue, it was impossible for him to give up his future interests.

Bai Liyue was a sentimental person, which he had seen very clearly over the years.

Therefore, it was impossible for him to give up on this piece of cake.

But now, it was obviously unrealistic to continue talking and playing the family card.

Baili Ren stood up and said to Feng Qinglan, " since the heavenly return sect views my Baili family in this way, I have nothing more to say.

After saying that, he said to Baili Yue, "Yue 'er, since you're back, you should go home in three days." After all, he had been wandering outside for so many years and had suffered a lot. All the disciples in the family have seen what you've done for the Baili family all these years. When I heard that you were coming back, Grandpa used all the family's resources to hold a welcoming banquet for you. All the famous forces in heaven city will be there. Now that you're the young Madam of the heavenly return sect, you can use this opportunity to get in touch with more people and build your own network."

"I will participate," Bai Liyue nodded.

Feng Qinglan's eyes widened and she looked at Bai Liyue in disbelief, as if she were saying, "you're crazy."

Baili Ren nodded his head in relief. then Grandpa will wait for you to return in three days.

With that, he cupped his hands at the elders and left with Baili Shi, Baili Yu, and Baili Xi.

Before leaving, Baili Xi glanced at Baili Yue. Coincidentally, their eyes met. Baili Xi's eyes were filled with sadness, but he did not say anything or explain anything. He turned and left.

After the Baili family had left, Feng Qinglan turned to Baili Yue and asked angrily-

3314 (x) 28

"Young Madam, I've already said it so bluntly. Can't you see the color of the Baili family's people? You actually agreed to go back!"

baili yue glanced at feng qinglan, then stood up and walked past her.

Seeing that Baili Yue was ignoring her, Feng Qinglan had a bad temper!

seeing that she was about to leave, feng qinglan couldn't help but blurt out, " "bai liyue, you're a coward!"

The second elder and the fifth elder were still peeling the last of the peanuts, but when they heard Feng Qinglan's words, they immediately rushed over and pulled her back.

"Qinglan! What nonsense are you spouting?" the 2nd elder was simply angered to death by his daughter, who had no guts at all.

However, Feng Qinglan's temper flared up and she continued to curse, " "i'm not talking nonsense. She sees that we're good to her, so she's cold to us. however, everyone in the baili family was a coward, while she couldn't even let out a fart! He even promised to return home! Go back, my ass! If she didn't marry into our Tianhui sect, she wouldn't be able to return to Yingluo."

Bai Liyue couldn't hear what Feng Qinglan had said after that, because it wasn't just the second and fifth elders who had come forward. The sixth and eighth elders had also run over to hold Feng Qinglan back. One of them covered her mouth, one of them held Feng Qinglan's body in place as she tried to move forward, one of them held her leg in place as she tried to kick Feng Qinglan, and the last one was in charge of closing the door so that Bai Liyue wouldn't hear them.

however, it was not that bai liyue could not hear such a loud voice.

For the people of the heavenly return sect, it seemed that he was really good. However, no one in this world would be good to others for no reason, especially for a big force like the heavenly return sect. She was not stupid enough to think that they were good to her. It was really because she married their young master Chong Xi that these people treated her well out of gratitude.

As for the Baili family, when she agreed to go to glory planet, she had already seen each and every one of their faces.

However, he didn't expect that after not seeing her for so many years, even his own sister had become like this.

She had only agreed to help the heavenly return sect because she had given up on Feng shengxuan. However, the reason why he had agreed was because of Baili Xi.

The little girl who always hid behind him, was very shy, didn't like to talk, and didn't say a word even when she was bullied.

At the thought of Baili Xi, the corners of Baili Yue's lips curled up slightly, but there was a hint of ridicule in her eyes.

The feeling of being schemed against by one's closest kin ...

She could kind of feel how Nuan Nuan had felt when she had returned to the Zhong family.

but fortunately, she had experienced the zhong family's incident and learned that some family ties in this world were not reliable. so at this moment, bai liyue only felt that it was not worth it for herself.

if she had known earlier, she would have waited a little longer.

If only she had known earlier that Feng shengxuan had been hypnotized.

Thinking of how serious he looked when he said he wanted to pursue her again after the hypnosis was lifted, Bai Liyue couldn't help but smile.

She didn't know if he would miss her after she left.

Baili Yue soon forgot about Baili Xi. After strolling around the mountainside for a while, she jumped up the mountain.

After last night's jump, Bai Liyue was already very calm about this mountain.

Perhaps it was because the spiritual energy in Moon House was really sufficient, but in just one night, when Baili Yue jumped up the mountain again, she found that she could actually jump 20 meters in one go.

It was only one night!

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3315

3315 (X) 29

Although her Qinggong ability was powerful, she could only jump ten meters at most yesterday. By the end of the day, she couldn't even jump ten meters. However, after sleeping, she could actually jump 20 meters.

This was a good thing for her.

On Emperor moon, strength was the most important thing. Since she was back, she decided to quickly make up for the 13 years of cultivation that she had missed.

When Bai Liyue returned to the moon House, fifth elder and Yi Yi had just walked out.

Bai Liyue looked at the fifth elder's face that looked like he had eaten medicine, and then at Yi Yi's face that looked like she had eaten sh * t. Her brows furrowed slightly, and she asked, "What's wrong?"

The fifth elder's face was full of joy, and he said to Baili Yue with great enthusiasm, "nothing, nothing! Young Madam, from today on, I'm your master. From now on, you can count on me to improve your strength. I'll definitely make you a powerful person in the shortest time possible. At least, you won't be inferior to someone like Baili Xi in a place like Tian city."

Bai Liyue looked at the fifth elder suspiciously. She couldn't believe that the fifth elder was fine after taking the medicine.

Thinking about the dispute with Yiyi last night, Baili Yue basically figured out why Yiyi's face was so ugly.

"Fifth elder, I've asked Yiyi to take away all the flowers and paintings that your young master likes."

The fifth elder nodded repeatedly, "if you want to move, then move." It's fine. The young master is in a deep sleep anyway, so he can't see anything. In the future, when young master wakes up, you can discuss it with him."

When fifth elder said this, Yiyi's face sank even more.

"Young Madam, please change into a set of martial arts uniform and come over. I'll wait for you here."

Bai Liyue nodded and went in to change her clothes.

As soon as Bai Liyue left, the fifth elder's expression changed.

"One, two, three, four, come here!"

Two, three, four glanced at Yiyi. Seeing that her face was still black, they couldn't help it.

"Fifth elder, she's too much! What was she? what right do you have to ask us to take away the things that young master cherishes?"

"They're just people we've found to awaken the young master. We still don't know if this method will work. We haven't even figured it out, but she really thinks she's young master's daughter."

"Fifth elder, the young master is such an unattainable immortal man, yet he was defiled by her. Aren't you angry at all? Why are you still laughing? She's simply a lecherous devil. Look at what young master's mouth has become? And what was the young master wearing? After a pair of boxers, she didn't let young master wear anything. She simply doesn't put young master in her eyes!"

Two, three, and four were crazily defending Feng Longyue and criticizing Baili Yue, while Yi Yi was standing aside, not saying a word since the beginning.

The fifth elder's expression was completely different from when he was facing Bai Liyue. He looked at two, three, and four and asked coldly, "You're done complaining?"

Although the fifth elder was a strict person, he was known for his good personality and his smile. Otherwise, the elder Pavilion wouldn't have sent him to the glory planet to trick people back.

However, if the fifth elder stopped smiling and became serious, it meant that the matter was more serious.

Yi 'er, Yi' San, and Yi 'si still looked angry. It was obvious that they were still resentful, but they only dared to complain so much. Because they saw that the fifth elder's smile had disappeared.

"Since you're not complaining anymore, I'll set the rules for you. Yiyi, do you know why you can't have the Feng surname anymore?"

Yiyi lowered her head and bit her lips tightly.

"Even though you're the daughter of the third elder and your father is no longer around, we, as your uncles, should take care of you more. However, it was you who chose not to be an inner sect disciple and came to serve the young master at the moon House.

The sixth elder told you that if you become an Attendant of the moon House, you'll have to change your surname. You can't take on the identity of an inner sect Senior Sister or participate in any martial arts competition as an inner sect disciple.

Most importantly, you've already chosen to be an attendant, so you should understand the identity of an attendant. An attendant will never become a master."

Yi Yi's face was already pale from fifth elder's words.

"yi yi, i hope you can understand that although the heavenly return sect is a little overbearing outside, we have always been fair and reasonable to our own people. since you've made your own choice before, you must do your best even if you're on your knees. Otherwise, the heavenly return sect won't keep you. Do you understand?"

Tears silently flowed from Yiyi's eyes, falling to the ground through her lowered head.

"Don't worry, fifth elder, I understand."

yes. the fifth elder nodded. I hope you really understand. Otherwise, the heavenly return sect will not be able to accommodate you.

After saying that, the fifth elder looked at Yi 'er, Yi' San, and Yi 'si and warned, " "Young Madam was chosen by young master, not someone you can despise and behave atrociously at will. Your actions today are already a serious violation of the rules. he would go to the law enforcement hall and receive 50 lashes of the commandment whip. he would go to the outer sect and be a servant for a month, cleaning all the toilets in the heavenly return sect. We'll see how you perform when the month is up."

yi 'er, yi' er, yi 'san, and yi' si raised their heads and looked at the fifth elder in shock. their faces were filled with disbelief.

Yi 'er took the lead and knelt in front of the fifth elder, begging for mercy, " "Fifth elder, we know we were wrong. We won't do it again. I beg you to spare us this time. We're Yingying!"

"100 ringwhips." Without waiting for Yi 'er to finish, the fifth elder had already doubled the number of whips.

yi er, yi san, and yi si's faces turned pale. they had never thought that they would receive the most severe punishment since entering the heavenly return sect, even though they had not done anything bad to bai liyue.

Yi 'er looked at Yi' Yi pitifully, but Yi 'Yi only glanced at them and didn't plead for them.

She knew the rules of the heavenly return sect. The more she pleaded, the worse the consequences would be.

" i'll accept the punishment with them. after all, they did it to take care of my emotions. " Yi Yi requested.

However, he was ruthlessly rejected by the fifth elder.

"No need. No one knows the things in Yiyue residence better than you. If you go down the mountain, young Madam will be caught off guard. So you'll have to stay in the moon House to atone for your sins. When you see your sisters suffering at the foot of the mountain, you should always remind yourself to be good to young Madam, to be obedient, and not let them suffer for nothing. whether they can return to the moon residence will depend on your attitude."

Yiyi bit her lip and finally nodded in compromise, " "Yes, I know."

The fifth elder turned to Ming Yue and said, " "Take the three of them to the law enforcement Hall and tell the sixth elder about my decision."

"Yes."

Yi 'er, Yi' San, and Yi 'si followed Ming Yue down. Of the four great attendants, only Yi' Yi was left.

Chapter 3317

Fifth elder then said,"Yiyi, although you're my third brother's daughter, in terms of blood relations, you're also my niece." But you have to understand, whether it's me or your father, we're both young master's followers. our existence is to serve the young master. You can never have any designs on the young master. This is what I've told you before."

Yiyi:

"When you insisted on coming here to be an attendant, I told you that I didn't agree. Moreover, the young master has his own requirements for his future wife. So, give me an answer now. Have you

decided to stay here and be an obedient servant, or do you want me to marry you off so that you can have your own family?"

Yi Yi clenched her fists tightly and didn't say anything.

"It seems that I should choose a marriage for you."

As soon as she finished speaking, Yiyi knelt down in front of the fifth elder.

"Fifth elder, I'm willing to stay here and be an obedient attendant. Please don't arrange a marriage for me. I don't want to marry."

"Yi Yi, I hope you can understand."

"Fifth elder, I've thought it through. I want to stay at the moon residence and be the young master's attendant. I don't want to get married."

The fifth elder looked at Yi Yi's determined eyes and sighed.

"Yiyi, this is the last time. If Qianqian ..."

"There won't be a next time," Yi Yi interrupted.

"Remember, young master and young Madam are one. Although young Madam's current strength is far inferior to yours, she's the master and you're the servant. I hope you can understand your position."

"Why?"

The fifth elder looked at her niece, who was still unwilling to give up, and said, "I've told you before that no one can question the young master's decision. So, there's no reason."

but the young master had already fallen into a deep sleep before Bai Liyue was born. How can you be sure that this person is Bai Liyue and not the wrong one? "

"I can't tell you this. In short, you must remember that she is the young Madam of our heavenly return sect. As for any other doubts, we'll wait until the young master wakes up, understand?"

Yiyi wiped her tears and stood up from the ground. She said expressionlessly, "I understand,"

At this moment, Baili Yue walked out of the moon House. The fifth elder put on a warm smile again.

"Young Madam, you're here? Let's go, I'll take you to the martial arts Hall. Although your Foundation is not bad, after yesterday's walk and the speed at which you went up the mountain, your Foundation has been completely shrouded by the foul Qi of that world. What you need to do now is to train your body. Start from the most basic and remove the impurities in your body.

however, the body-forging kasaya was a little tough. But young Madam, in order for you to live a little longer, I will never give you a discount on this body tempering just because you are the master. On the contrary, you will have to endure more rigorous training than the inner disciples."

Under the guidance of several other servants, Baili Yue changed into her martial arts suit. It was similar to a Taekwondo outfit. The clogs under his feet were also stuck in his toes, and the clogs were still six centimeters high, so he felt uncomfortable.

“why are you training in such clothes? I’m not comfortable with these shoes.” Bai Liyue complained.

She could accept the harsh training. She wasn’t someone who was afraid of suffering. In fact, she could suffer more than others.

However, the most important condition for practicing martial arts was to wear it comfortably.

With this piece of clothing and a belt, it could be exposed.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3318

3318 [x] 32

It was the same for her feet. With such a high root, she would sprain it if she was not careful.

Seeing that Bai Liyue was extremely disdainful of this set of clothes, the fifth elder chuckled and said, “It’s fine if you’re uncomfortable. If you can defeat those inner sect disciples while wearing these uncomfortable clothes, then you will be invincible when you fight others while wearing comfortable clothes.”

Twisted logic!

It wasn’t like she hadn’t stayed in the Baili family before. The Baili family’s dance clothes were either ordinary sportswear or ancient martial arts clothes, which made it very convenient for her to practice martial arts.

The fifth elder descended very quickly. Bai Liyue was afraid that if she jumped down wearing the wooden clogs, she would slip and roll down the mountain to her death. Therefore, she carefully descended the mountain at a slower speed than this morning.

The training area for inner disciples had to go from the 5000-Yuan moon peak to the mountainside, and then from the iron chain at the mountainside to the main peak.

There were several iron chains, but it was not the kind of cable car that Bai Liyue had thought had, but a bare iron chain.

Some of the iron chains were from the main peak, and some were from the foot of the main peak.

The fifth elder turned around and smiled at Bai Liyue, “ young Madam, the inner sect disciples ‘cultivation area is on the main peak. Please follow me closely.

After saying that, the fifth elder stepped on the chain alone. It was as if his feet were oiled, and in the blink of an eye, he had already covered a quarter of the distance.

Moon peak was about 500 meters away from the main peak in a straight line, and this place was about 3000 meters away from the foot of the mountain. If he fell, he would definitely become a pile of meat.

Seeing the fifth elder run away just like that, completely ignoring her, Bai Liyue suddenly felt that the heavenly return sect was not safe.

Even if no one wanted to mess with her, just this ropeway alone, every time she walked it, she would be throwing her life away!

Bai Liyue looked around, but there was not even a strong rope around.

To be on the safe side, she went to the bamboo forest and cut a thin bamboo. After weighing the weight of both ends of the bamboo, she took off her shoes and stepped on the iron chain barefooted.

Although she felt that she wouldn't fall down if she had her balance and was wearing shoes, she only had one life. She had to take care of herself.

At this moment, the fifth elder had already arrived at the other side of the mountain. He looked at Bai Liyue and shouted, "Young Madam, what are you doing? Hurry up and come over!"

Bai Liyue glanced at the fifth elder, picked up the bamboo pole at the side, and walked to the iron chain as if she was walking a balance beam.

The fifth elder was sweating profusely.

"Young Madam, don't you feel embarrassed?"

Bai Liyue looked at the iron chain seriously and walked very slowly.

Seeing that Bai Liyue was ignoring him, the fifth elder continued, "Young Madam, you should let go of the burden in your mind. Although your Qinggong isn't that good, it shouldn't be a problem for you to walk on the metal chain.

Seeing that Bai Liyue was still ignoring him, the fifth elder said, "Young Madam, your training has already begun. Just throw some bamboo away. Don't worry, it won't hit anyone.

Bai Liyue continued to ignore him.

she wasn't stupid. It was much safer to have a bamboo.

When the fifth elder realized that he really couldn't convince Bai Liyue, he leaped up and gathered his strength in the air. Then, he stomped on the end of the rope.

The rope was tied at both ends, and the middle was suspended in the air. At this time, Bai Liyue had only walked one-third of the distance, and her eyes had not moved away from the iron chain. Suddenly, the entire chain was hit hard and bounced up.

'Damn it!' Bai Liyue cursed in her heart. Then, she jumped up along with the chain.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3319

her eyes were fixed on the chain under her feet. the moment it fell, bai liyue reacted and tried to fall with it to find a balance point.

Who knew that just as her feet landed on the rope, the metal chain bounced up again.

Without any leverage, Bai Liyue could only jump and land on a low spot five meters ahead.

However, when she finally landed on the other side, the rope bounced up again.

Fortunately, she had a bamboo stick in her hand to balance her body. Even so, Bai Liyue was still scared and broke out in a cold sweat.

But the next moment, her bamboo was gone too.

Because a section of the rope bounced up too violently, it hit the edge of the bamboo. If she didn't throw it, the bamboo would have shifted her center of gravity.

most importantly, before that, she heard the fifth elder shouting from the other side of the mountain-

"Young Madam, throw away the bamboo pole."

After he finished speaking, there was a violent fluctuation. Bai Liyue was so scared that she quickly threw away the bamboo pole.

Without the bamboo pole, she couldn't find her balance. In addition, the bamboo had been bounced off, so her eyes were distracted from the iron chain.

Seeing that it was impossible to step on the iron chain with her feet, Bai Liyue could only grab it with her hands. Then, with a borrowed force, she made a beautiful 540-degree turn. After her whole body swung on the iron chain, she stepped on the iron chain again with her feet.

"Young Madam, well done! Good luck! Come this way!"

The instigator, the fifth elder, was happily blocking the iron chain while praising Bai Liyue.

Bai Liyue silently cursed his eighteen generations of ancestors in her heart, but her brain and eyes did not dare to have the slightest bit of carelessness.

After all, it was a height of more than 3000 meters, and she didn't want to fall to her death at all.

in the beginning, bai liyue was still jumping at the same place, trying to stabilize her body.

However, she soon realized that the fifth elder, who had no moral integrity, would not let her have an easy time.

Left with no choice, Bai Liyue could only use her Qinggong and use her maximum strength to jump more than 20 meters away from the iron chain.

This wasn't flat ground, and there wasn't anything that could support the weight. The fifth elder concluded that Bai Liyue's jump would only be seven or eight meters at most.

However, this jump had reached a distance of 22 to 25 meters.

The fifth elder's eyes narrowed.

After all, he had already thoroughly understood Bai Liyue's skills yesterday.

It had only been one night, how could he have improved so much?

After Bai Liyue jumped over, she fell back down again because of her unstable center of gravity. She then grabbed the iron chain with her hand and stood on it again.

Because from the start, the fifth elder had used all his strength to swing the metal chain, and he had used so much strength that he didn't break the metal chain.

Bai Liyue's ability to adapt was very strong. After a few rounds of torment, although she was still afraid in her heart, she quickly grasped the range of the iron chain's swing. Through the gap between this range, she found the position where she was going to jump next. After landing, she would jump again.

After a few jumps, they had already passed through the most dangerous area in the middle and arrived at the latter half.

He had passed the most difficult part, so Bai Liyue had also mastered the rest. Very quickly, he passed through it easily using the same method as before. Although he was still hit by the fifth elder's rope twice and fell off, he managed to grab onto the rope each time and quickly swung up.

The moment Baili Yue touched the ground barefooted, a sense of happiness welled up in her heart.

Glancing at the fifth elder who was smiling shyly at her, Bai Liyue didn't even want to give him a look.

"Young Madam's Qinggong is beyond my expectations! It had only been one night since they last met, and young Madam's Qinggong seemed to have improved a lot. or has the young madam never shown her true strength before?"

Bai Liyue didn't even want to pay attention to him, so she only asked, "if I fell to my death, would you find a new young Madam?"

"No, no, no! How is that possible?" "With your skills, you're not strong in the heavenly return sect, but you're still good," fifth elder quickly said. Especially his Qinggong. Although his Qinggong was not as good as Mingyue and Qingfeng, it was better than many of the people who had lived here. If they can't fall down, you definitely can't fall down either. Even if you fall down accidentally, there are still so many chains down there. You can definitely catch one. That's why I'm not worried at all."

Bai Liyue followed beside the fifth elder, and her cold face remained calm.

When they arrived at the martial arts field, the fifth elder explained to Bai Liyue the ways and secrets of the martial arts of the sect, and then found a group of inner disciples to demonstrate on stage.

baili yue had been with nangong nuannuan for so many years. although she did not have the ability to see through things, she had a general understanding of the hidden dangers of the human body through nangong nuannuan's guidance over the years.

These dangers were related to acupuncture.

When a person was sick, the reason why acupuncture could cure them was because acupuncture could open up some acupuncture points.

Therefore, after following Nangong Nuannuan for so many years, Bai Liyue had long been aware of the places that might not seem fatal but could cause fatal injuries or serious injuries after two or four attacks on different parts of the body.

She didn't need to treat illnesses, so she didn't need to know so much about acupuncture. She was a mercenary, so she only needed to know which parts of the human body, other than the fatal parts, were not important in a fight. However, after two or three successful attacks on the related parts, the weak points would make people fall to the ground.

Therefore, while watching the inner sect disciples show their strength, Bai Liyue's mind was constantly running, trying to figure out the flaws in this fighting style and where she could take advantage of.

Because of her powerful Qinggong, her speed was also very fast. In fact, he had once surpassed Nuannuan. Although she didn't dare to say that she had surpassed her, Bai Liyue felt that she still had a chance of winning in terms of speed. It wasn't a complete defeat.

The good thing about Emperor moon was that no one knew how to use artillery. This was because artillery fire was not very effective against true experts.

And if you pollute the air, more people will come to find trouble with you.

Therefore, the people here were used to using their hands and feet instead of using weapons.

"Young Madam, did you see clearly? This is the most basic cultivation method and fighting skill for the inner disciples of our Tianhui sect. As long as you can follow this cultivation method, you'll at least have a low-level self-protection ability."

although only a few elders knew that bai liyue's strength was that of a sss-class genius and not some ordinary s-class genius, she had been staying on glory planet all these years and had not really practiced any martial arts of the sect.
