#### Chapter 3411: (XV) 125

3411 (XV) 125

Baili Xi's eyes brightened, and he quickly shook his head. "I won't interfere, I won't interfere! As long as it's something big sister likes, I won't interfere!"

"But I like everything. After all, I've been on glory planet for the past 13 years. I have nothing."

"Then I'll give in to you, sister," Baili Xi said hurriedly.

"Are you sure you're going easy on me?"

Baili Xi was stunned. Although he was not happy, he still said, "I definitely won't snatch my sister's things."

"you have to be able to snatch it. With your mediocre skills, you'd better not embarrass yourself in front of me."

"Yes."

Baili Xi quickly agreed. no one knew what would happen after they entered the remains. she didn't believe that she wouldn't get anything out of it.

Moreover, after meeting up with Wei Yunsheng, she would no longer have to suffer by Bai Liyue's side.

also, you can't Rob me. As long as it's something that the disciples of the heavenly return sect like, you can't snatch it. Otherwise, I'll beat you.

Baili Xi:

"Did you hear that?"

"Yingluo heard it."

Baili Xi bit her lip, looking like she had been mistreated. in her heart, however, she hated baili yue to death. she felt that she was lucky. she hadn't been killed, but her desire spirit had been stolen.

"Alright, I already said that you won't get anything if you follow me. If you still want to follow me, then follow me. Oh, by the way, if you encounter any danger, don't expect me to value your life more than mine."

Baili Xi:

"As long as I follow my sister's group and no one bullies me, that's enough."

Seeing that Baili Yue didn't say anything else, Feng Qinglan couldn't help but ask, "young Madam, are you really going to let this little white Lotus leave with us?"

Baili Xi frowned. She had actually called her Little Lotus so easily. This woman must have spoken ill of her in front of Baili Yue. Moreover, when she first met Bai Liyue when she came back, she was very

friendly to her. This woman must have been badmouthing her in front of Bai Liyue from time to time, which was why Bai Liyue hated her so much now.

“Miss Qinglan, I know that you’re the daughter of sect leader Feng and have a high status and power, so I’ve always been cautious in front of you and never dared to say anything bad about you. But I don’t think I have any grudges with you, so why do you keep instigating things in front of my sister and ruining our sisterly relationship? My sister is just a person without any background who married into your heavenly return sect. Even if you have her love and trust, she can’t give you anything. Why must you make our sisterly relationship so bad?”

Feng Qinglan glared at him. She didn’t think that this little white Lotus would dare to make things difficult for her. She chuckled and said, “I’m an expert in identifying things, and I can’t help but want to destroy the watch. So even if it’s not good for me to drive a wedge between you and your sister, I’m happy to see that you’re not doing well.”

Baili Xi was speechless.

Looking at Baili Xi’s face, which was as if she had just eaten sh \* t, Baili Yue’s lips curled up slightly. “Alright, Qinglan, come over here first. We’ll decide which disciples should go in with us.”

“Alright,” he said.

“there’s an open space over there. let’s build a base there.” Qing Feng suggested.

“Alright,” he said.

Everyone walked towards the open space, and the disciples of the heavenly return sect quickly set up a tent there.

#### **Chapter 3412: (XV) 126**

3412 (XV) 126

After the tents were set up, this place became the territory of the heavenly return sect. The disciples of the sect stood in all directions, and the passers-by stepped back and made way for them.

This was the deterrent force of beating up a sect.

After the tents were set up, the elders and the important disciples of the heavenly return sect were ready to have a discussion.

At this time, Baili Xi also consciously went into the tent.

Everyone looked at her, and she looked shy. However, this kind of shyness did not affect her from entering the tent, walking to the center of everyone, and walking to Bai Liyue’s side. She even grabbed Bai Liyue’s sleeve like a little wife.

Bai Liyue’s face turned cold. She pulled on her sleeve with one hand, and Baili Xi could only let go of her sleeve hesitantly.

“Sister Qianqian”

“Stop.”

Baili Xi:

“I’ve already said that I’ve cut off all ties with the Baili family. From now on, no one from the Baili family is allowed to use my name to claim kinship with me. What makes you think you’re special?”

“I’m Yingying!”

also, this is the territory of the heavenly return sect. How shameless do you think you are to come in? ”

“but yingluo”

“Get lost!”

Baili Xi’s eyes widened, and tears began to fall again. With an expression of disbelief that she had been bullied, she called out in a muffled voice, ” “Big sister, you’re Yingluo.”

“Men, come.”

“Young Madam.”

“In the future, without my orders, no random people are allowed to approach me.”

“Yes.”

then, under baili xi’s incredulous gaze, she was directly picked up and thrown out by the disciples of the heavenly return sect.

Feng Qinglan’s face was full of admiration as she flattered, ” “I really couldn’t tell that young Madam was such a decisive and Swift person.”

Baili Yue looked at Feng Qinglan. I’m not that close to you. Isn’t it normal that you don’t know? ” she asked.

“Alright, let’s continue.” Seeing that his daughter had finally stopped arguing with Baili Yue, the second elder was relieved and continued to select members.

Although there were many opportunities in the ruins, almost everyone who came out alive would obtain some benefits. However, according to the size of the ruins, the danger level inside would also increase exponentially. The bigger the relic, the more dangerous it was.

In the remains in the year 80, the heavenly return sect had lost more than half of their 100 inner and outer disciples, but only 47 came out alive. Almost all the outer sect disciples had died.

It didn’t mean that the outer sect disciples were not as good as the inner sect disciples. The heavenly return sect paid great attention to aptitude when selecting disciples. Many outer sect disciples were just young.

So this time, the elders unanimously decided that outer sect disciples would not enter, and only intermediate and above disciples could enter the inner sect.

There were many outer sect disciples who came out this time. When they heard that they couldn't enter, most of them couldn't be disappointed.

For this kind of life-and-death matter, Bai Liyue would not help others to beg, but she felt that if she was an outer sect disciple, she would definitely be very disappointed.

as for those who entered the inner sect, but were only at the initial stage, they were even more disappointed. They thought that they would definitely be able to enter.

Looking at so many disappointed people, the elders couldn't bear to see it. After all, they were all martial artists, and they all yearned to become stronger.

Although such a decision would reduce the number of deaths, it would also make many people lose hope.

young Madam, " the second elder asked, looking at Bai Liyue, " they all want to go. What do you think of this? "

Bai Liyue didn't expect the second elder to ask her. Now that she was out, Baili Xi came over again.

#### **Chapter 3413: (Plot) 127**

3413 (Plot) 127

"Sister, you must not take advantage of this. If a lot of people die and their families come looking for us, it'll be hard to explain."

"I won't."

"Young Madam, we all volunteered to go."

"Once we enter the ruins, life and death are up to fate. We can sign a life and death contract."

baili xi: " sister, the baili family used to sign a life and death contract with their disciples, but some of them were very unreasonable. even when they signed the life and death contract, they said that the baili family forced them to sign it, causing them to pay a lot of money. "

"Young Madam, we won't!"

"Young Madam, this kind of opportunity only comes once in a hundred years. It's a once-in-a-lifetime opportunity."

"Who's the young Madam when we return home today? When I asked you to marry me, you avoided me like a snake, Scorpion, or a ferocious beast, and now you want to give me orders. Don't you think you're too annoying? I supported you for 13 years in this world just to make you so annoying that you disgust others?"

The more he looked at Baili Xi, the more he felt that she was even more annoying than Zhong Yingying.

Baili Xi grinned with an ugly expression. Even if she was extremely angry, she would never abandon Baili Yue before she found a treasure or a backer again.

Bai Liyue looked at everyone and said, "everyone knows that the bigger the remains, the more dangerous it is inside." So, don't rush in with the idea that bad luck won't find you. But like all of you, it's my first time entering such a huge remains. Or rather, I've never been in a remains before, so I can understand what you're thinking. Let's do it this way, those who are willing to go in can go in, and life and death are up to fate. However, if you're the only son or daughter of the family, the only hope of the family, I still hope that you can consider it carefully. I'll give you 10 minutes. After 10 minutes, come out."

ten minutes later, all the disciples under the age of 100 stood up.

Baili Yue:

The elders:

Looking at the dark mass of over 300 people, the elders had a headache.

Bai Liyue looked at the second elder and explained for everyone, " "Since everyone wants to go, then let everyone go."

Feng Qinglan also nodded. that's right. If you had the chance to go in, would you not go in? "

In the end, the second elder still agreed. In the end, only 80 spots were set, but in the end, more than 350 people entered.

Only the second elder, fifth elder, sixth elder, and eighth elder of the heavenly return sect had not entered.

This time, Bai Liyue found out that Ming Yue, Qing Feng, Chi Mei, and wangliang were all above 67 years old and under 100 years old. His real age was estimated to be in his 90s.

Feng Jiyue fell into a deep sleep 67 years ago, and these four people were taken in by Feng Jiyue and became her disciples, so they must have been with him before Feng Jiyue fell asleep.

Seeing that the four of them were only in their early 20s, Bai Liyue was secretly shocked.

He was almost a hundred years old, but he looked like he was in his 20s. His strength was simply unfathomable!

With Ming Yue's group of four, Feng Qinglan, and Bai Liyue leading the team, everyone felt very safe.

Only those who did not know what was going on, such as Baili Xi, were upset when they saw that none of the four elders of the heavenly return sect had entered.

after all, ming yue and the others looked like they were in their 20s. no matter how strong they were, they were only in their 40s or 50s.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3414**

However, some of the other sects even had sect leaders.

However, there was no one to guide her now, so Baili Xi had no choice but to let herself suffer.

The heavenly return sect's team was led by Ming Yue. He alone led 70 people and walked at the front.

The second leader was Qing Feng, who also brought 70 people.

after that, it was bai liyue's turn. in order to protect her, the second elder had sent feng qinglan to her side. The two of them also brought 70 people.

after them were chi mei and wangliang, each of them bringing 70 men.

Just like that, the group of people from the heavenly return sect entered the passage of the remains.

Baili Xi grabbed Baili Yue's arm as soon as he entered.

Bai Liyue glared at her, and she was so scared that she quickly moved her hand away, but she still pulled on Bai Liyue's sleeve.

"If you pull on young Madam's sleeve again, I'll kick you out."

Feng Qinglan's words scared Baili Xi so much that he quickly let go of her hand.

The reason why Baili Xi was so nervous was that all the previous ruins had different teleportation portals. Even if from the outside, everyone seemed to have entered from the same place, but after entering, because of the different time of entry, it was easy to be separated by the teleportation array.

when you really appear in the remains, you'll find that you've all scattered.

That was why there was such a situation of a group of people.

At this time, Bai Liyue was already standing at the transmission entrance of the remains. She felt a pulling force coming from the front and immediately asked everyone to hold the chains that had been prepared.

Then, a huge force was drawn in, and Bai Liyue felt as if she had been drawn into a vortex.

Baili Xi held on to her tightly with one hand and the chain with the other. They were not separated, but many disciples were blown away by the hurricane.

By the time Baili Yue landed, she realized that there were only ten disciples with her. Baili Xi was with her, and the rest, including Feng Qinglan, had separated from her.

sister, miss Qinglan has been separated from us. What should we do? "

Bai Lixi's heart clenched as he looked at the place that seemed to be boundless in the dark. He immediately took out a Night Pearl and tried to light up the surroundings.

However, when she took out the night Pearl, she realized in despair that it could only light up one meter!

"How could this be? My luminous Pearl was given to me by big brother Wei. Usually, this luminous Pearl can light up the entire Hall at night. Even if we're outside, it can light up a radius of more than 20 meters!"

However, at this moment, Baili Xi could only light up herself. She couldn't even see Bai Liyue, who was a meter away from her, unless she placed the night Pearl within a meter of Bai Liyue.

Ten of the heavenly return sect's disciples had followed Bai Liyue. At this time, they had also taken out their night-luminescent pearls.

The night-luminescent Pearl was a precious item. Originally, not every disciple would have one. However, after the relic appeared, everyone saw that it was shrouded in darkness and guessed that it was probably dark inside. Therefore, before entering the remains, the elders of the heavenly return sect took out their precious night-luminescent pearls and distributed them to the disciples. Those who didn't have enough would buy it from the roadside at a high price.

One of the disciples' night-luminescent pearls was even bigger and better than Baili Xi's. Unfortunately, it could only light up a one-meter radius. The remaining people's night pearls could not even light up an area of one meter.

"I really can't see clearly. the remains were filled with danger, if even the most basic lighting was a problem, then it would be troublesome. Young Madam, what should we do?" a disciple could not help but ask.

(Happy Valentine's Day, my babies! Today is my wedding anniversary with my husband. However, Yingying's fear was dominated by the clock-in. every day, before i even opened my eyes, i would be woken up by a certain love crystal. After that, he would clock in his Chinese and mathematics homework, reading questions, picture-writing, 30-minute reading companion, English one-on-one with a foreign teacher, mental arithmetic, basketball, and free punching. By the time he was done, it was already night time. So you guys can take care of yourselves in the future!

#### **Chapter 3415: 129**

3415 129

Bai Liyue had come in wearing the contact lenses that Feng shengxuan had given her. The contact lenses could adjust the brightness and even detect infrared rays, but she had no use for them.

however, at this moment, with the help of the illumination adjustment, she could see the scenery in front of her very clearly.

This was a wide and flat Canyon, and not far from it were tall mountains. The mountains surrounded them from all sides, and they could not see what was on the other side of the mountains.

"Sister, someone's asking you a question. Why don't you answer!"

Baili Xi's voice was a little sharp. They had already attracted the attention of the bats in the distance when they were teleported here. Now, Baili Xi's voice was even louder because she was anxious.

The bats seemed to have heard the commotion and all of them flew over.

There were at least one to two hundred bats packed together, and each one of them looked especially large.

“Older sister, you’re really something.”

“Shut up!”

Bai Liyue shouted sternly. A long sword and a dagger had already appeared in her hands.

“Quickly hide in the bushes!”

The bats made sounds when they flew over. When the bats reached the top of their heads, everyone heard the sound.

However, as a disciple of the heavenly return sect and a high-level inner sect disciple, she was very good at self-defense.

Therefore, after listening to Bai Liyue’s orders, those with good hearing immediately prepared for battle, and those with bad hearing first found a way to hide.

Although Baili Xi had a 3S grade aptitude, she was still too young compared to the group of high-level inner disciples. After hearing Baili Yue’s words, his first reaction was to try to hug her.

Who knew that Bai Liyue would kick her to the ground.

“Get lost!”

The bat had already arrived after the sound, and Bai Liyue swung her sword and dagger left and right.

The longsword in her right hand was used to cut the flying bats, and the dagger in her left hand was used to kill the bats that got close to her. For a moment, she seemed to have turned into a wheel of Wind and Fire, quickly killing the bats that got close to her.

“My spiritual energy has been sealed.”

“Mine too.”

“Mine too, we can’t use spiritual power!”

”

The disciples of the heavenly return sect were shocked, and Baili Xi’s screams came from behind.

After taking care of all the bats near her, Bai Liyue immediately began to help the disciples take care of the bats that surrounded them.

After all, they were all high-level inner disciples. They had been strong all the way here. When they found that their spiritual power was sealed, they began to use their physical strength.

The spirit power could allow their attacks to reach their maximum potential, but the heavenly return sect was also a sect that focused on body training, so these disciples were not very nervous.

Although these bats were large and had strong offensive abilities, it was still difficult to bite off a piece of meat from them.

However, there was a disciple whose hearing wasn’t very good. So at this time, he couldn’t tell the direction of the bat at all. He could only kill the bat by feeling without saying a word.

Seeing this, Bai Liyue took out a spotlight from her space and shone it into the sky.

After all, it was the spotlight of glory planet, which had a ray function. A beam of light shot out, not only illuminating the space, but the main beam also shone far away.

The bats were afraid of light, and after the beam of light hit them, their attack speed clearly slowed down a lot.

The disciples of the heavenly return sect took the opportunity to kill the bats as quickly as possible.

#### **Chapter 3416: [ x ] 130**

3416 [ x ] 130

bai liyue put the spotlight on her head and helped her disciples kill the bats.

“Sister, save me! Save me!” Baili Xi screamed for Baili Yue as she killed the bats with all her might.

She was almost angered to death by Bai Liyue, because Bai Liyue had been helping the disciples of the heavenly return sect all this time, but had never thought of helping her.

Although there was a big gap between Baili Xi and the high-level inner disciples of the heavenly return sect, she was also a martial artist and had a good aptitude. Therefore, although it was difficult and she was bitten by the bats in several places, she still killed all the bats that surrounded her in the end.

When she had killed all the bats and was gasping for breath, she found that the disciples of the heavenly returning sect had already killed the bats on their side, but no one came to help her. In a fit of anger, she screamed, “Bai Liyue, did you do it on purpose?” Are you trying to kill me on purpose?”

However, Bai Liyue didn’t even look at her. She looked at the dead bat on the ground and asked, “How do you know?”

Baili Xi was so angry that he scolded, “You clearly have a light, why didn’t you take it out just now? What are you thinking? Are you trying to get everyone killed? Also, why did you kick me when I was by your side? Do you know that the injuries on my body were caused by the bats that took the opportunity to bite me after you kicked me down? what if the bats were poisonous? You’ve only misunderstood me after hearing a few words from Feng Qinglan. I’m your biological sister. Are you so heartless as to want me to die?”

“Crack-”

With a soft sound, the bat’s skull was pried open by Bai Liyue’s dagger. Under the light of the spotlight, everyone saw that there was an orange spirit stone in the bat’s brain.

Bai Liyue took out a pair of rubber gloves from her spatial ring, then dug her hand into the bat’s brain and pulled out the orange spirit stone.

Seeing this, everyone’s eyes lit up. They quickly squatted down and took out their daggers to dig out the spiritual stones.

“Young Madam, you’re amazing! How did you know that there were spirit stones in the brains of these bats?”

“I guessed.” Bai Liyue answered without thinking.

However, this did not affect the mood of the disciples.

there are so many spirit stones in this bat. Let’s go and kill some more bats later and we’ll have a lot of spirit stones.

“There should be at least one or two hundred bats here, right? Even if we split it 20 – 80, we’ll still get 30 – 40.”

“Young Madam, let’s go and kill more bats later!”

“sure.” Bai Liyue nodded.

Then, everyone started digging out the bats ‘heads.

Baili Xi:

Dig your sister!

Are you turning a deaf ear to my f \* cking words?

Seeing that no one was paying attention to her and that everyone was busy collecting spirit stones, Baili Xi could only swallow her anger and quickly dig out the spirit stones. otherwise, when they finished digging later, they definitely wouldn’t leave any for themselves.

Fortunately, Baili Xi managed to dig out more than 30 orange spiritual stones. Looking at his bloodied and rough hands, and then at the 30 or so spiritual stones beside him, Baili Xi felt that he had gained something.

However, a gloved hand reached out to her.

Baili Xi glanced at the hand and looked at Baili Yue in disbelief. She quickly hid the spiritual stone behind her.

“I killed these bats, so these spirit stones should be mine!”

“Didn’t you say that everything in the remains would belong to our young Madam?”

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3417:**

“Didn’t you say that you wouldn’t fight with our young Madam after you came in?”

you’ve just come in, and you’re already trying to fight with our young Madam before you even see anything good. Do you have some misunderstanding about your own strength? ”

young Madam, since she wants it, then give her the spirit stones. However, she can walk her own path after this.

“Sure,” Bai Liyue nodded.

Baili Xi:

They were all bullying her!

“Sister, I was wrong. Don’t leave me behind! I thought you didn’t care about these spirit stones, but since you want them, you can take them all.”

“Do you know why I brought you here when I hate you so much?” Baili Yue looked at Baili Xi.

Thinking that she had written Baili Yue’s name in the black crystal, Baili Xi’s face turned pale.

“I don’t know. Sister, I’m your sister. Why do you hate me so much? can you tell me? I can change, I can definitely change!”

Bai Liyue ignored her question and smiled. “The reason why I brought you into the ruins was to let you know that as long as you follow me, I can really make you get nothing. So in front of me, you don’t need to have any wishful thinking. These ruins are only dangerous to you, there are no benefits.”

Baili Xi:

“everyone, pack up your spirit stones before we set off. This should be the edge of the ruins. We have to cross the mountain in front to reach the real ruins.”

“Yes.”

Everyone quickly bent down to pick up the spirit stones, then put them in their interspatial rings.

Before entering the remains, patriarch of law enforcement had asked everyone to empty their interspatial rings. In this way, when they came out of the remains, they could check everyone’s body and interspatial ring to know what treasures they had found.

As for Bai Liyue, the heavenly return sect didn’t give her any spirit stones, so she let her disciples pick them up.

Baili Xi could only stand aside and watch helplessly as the people from the heavenly return sect stole the fruits of her labor. However, she could only curse in her heart.

and bai liyue found that she liked the way she hated her but couldn’t get rid of her. She had let Baili Xi in to torture her and make herself happy.

While everyone was packing up the spirit stones, Bai Liyue switched the spotlight to an ordinary Searchlight, so the light was not as bright.

the group of 12 people continued to move forward. baili xi stammered as she followed baili yue. looking at the searchlight above her head, she said, ” “Sister, where did you get this lamp? It looks really unique, do you have more?”

Bai Liyue looked at the disciples behind her and asked, ” “Can you guys see?”

“Yes, I can.”

“Alright, then I won’t take too much. we don’t want to be seen by people with ulterior motives and come to snatch our lights.”

“Good, young Madam Jin.”

“Young Madam, what’s with the lighting?”

“Battery.”

“I’ve heard of batteries. It’s just a piece by piece, put it in those things that can be powered, and it’ll be like a power source.”

“Yes,”

“But the flashlights they sell not only emit light, but they’re also expensive and their batteries don’t last long. Young Madam, your light is so strong, won’t you run out of battery in a while?”

don’t worry, this can be used for a month.

“That long? Then wouldn’t the battery inside be very powerful?”

someone on glory planet invented solar cells. These batteries usually absorb enough solar energy and can be used for a long time.

#### **Chapter 3418: (XV) 132**

3418 (XV) 132

Bai Liye explained to everyone as she walked.

“I think our focus is a little off.” Baili Xi did not want to hear this at all and said, “Haven’t you ever thought about why our spiritual energy has been sealed? Have you ever thought about how we’re going to survive in the remains after our spiritual energy is sealed? This is a relic, if we don’t handle it well, someone might die!”

“I think it’s a good thing that your spiritual power has been sealed,” a disciple said.

“I think so too,”

“many of the people who came in this time are almost 100 years old, and even the leaders of some small sects have come in. if their spiritual energy wasn’t sealed, wouldn’t everyone be fighting for it when they find out about this good thing? None of the elders of our heavenly return sect came in. Won’t those people who hate our sect bully us to death?”

“You’re right! It’s better if the spiritual energy is sealed.”

but if our spiritual energy is sealed, our spiritual energy and night-luminescent pearls are useless. Baili Xi retorted unwillingly.

“If it’s useless then it’s useless. Everyone else’s night-luminescent pearls are useless, but only our young Madam’s is useful. Isn’t that better?”

Baili Xi:

She should just shut up, right?

After walking for nearly half an hour, they had completely entered the forest.

The terrain of the mountain forest was sometimes steep and sometimes comfortable, so the line of sight was very poor. Bai Liyue took out 10 flashlights from her spatial ring and distributed them to everyone.

After all, Bai Liyue had asked the fifth elder to prepare dozens of large interspatial rings for her when she knew that she was going to return from glory planet. She put some weapons and materials she needed in them.

He had originally wanted to return to Emperor moon to do business, which involved underground mining, so he had ordered more than 2000 solar-powered work hats from his second uncle. This was to prevent the workers from suddenly running out of power while working underground. After all, she knew that Emperor moon's technology was not developed.

Hence, there was no pressure at all for him to use 10 points.

"Don't turn on all the lights, or you'll be easily targeted. Let's try not to split up, but if we have to split up, it'll be better for everyone to have a light to protect themselves."

Of course, the disciples also knew the power of this. After thanking the young madam, they quickly put on their helmets.

"Sister, what about mine?" Baili Xi was dumbfounded.

"Haven't you always been by my side? You don't need to." Bai Liyue said frankly.

"But what if I get separated from you?" Baili Xi was anxious.

"You're blaming me for getting lost?"

"Sister!"

Baili Xi stomped her feet in anger. She felt that Baili Yue was simply disgusting, but she still had to rely on her. If she had known that she was so despicable, she would not have followed her into the remains!

But now that she had come in, and Baili Yue had treated her like this, she couldn't openly fall out with her.

Baili Xi could only hope to find Wei Yunsheng in the remains, and then leave with him.

"Be careful!"

Bai Liyue and the other disciples said almost at the same time.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 3419:**

Bai Liyue's eyes rolled back, and her whole body was extremely soft as she directly bent down, the back of her head touching the ground, allowing the wolf to jump directly above her.

"Young Madam!"

A few disciples shouted and wanted to help, but they realized that without spiritual power, he couldn't attack from a distance. It was too late to save Bai Liyue.

Baili Xi looked at Baili Yue, who had been pounced on by the wolf, and his eyes in the dark shot out a twisted and excited light.

However, the next moment, Bai Liyue stood up again and even looked in her direction.

Baili Xi's eyes were still twisted, but she saw Baili Yue's gloomy gaze. She immediately put on a fake smile, but before she could say anything, she was directly thrown into the Wolf Pack by Baili Yue.

"Ah!"

baili xi was thrown towards the pack of wolves by a strong force. she wanted to ask baili yue why she was being treated like this, but she didn't have the time.

The five wolves attacked her from the top, middle, and bottom at the same time. Baili Xi didn't have time to talk to Baili Yue at all, so she could only join the battle.

The Wolf Pack grew in number, and the wolf that had been cut open by Bai Liyue's knife and lying on the ground actually got up again.

"Young Madam, these wolves are not right!" At the same time, some disciples also realized that something was wrong.

Bai Liyue's eyes turned cold, and she said in a cold voice, "Break their heads."

As soon as she finished speaking, Bai Liyue took out a hammer with sharp barbs from her deified soul space and flew forward. She smashed the hammer at the wolf, who had just gotten up from the ground and was not bleeding, with gloomy eyes.

The wolf's head instantly turned into sand and dissipated into the air.

A Blue Spirit stone fell to the ground.

The martial artists on Emperor moon were similar to those martial artists on TV, but they were not completely the same. They didn't have the high-level strength of immortal cultivators or Xuanhuan cultivators, but most of them used knives, swords, and daggers.

For example, Bai Liyue used an electric hammer.

That was definitely the only one.

There was no way to kill a Wolf with a sword, especially when its spiritual power was sealed. Therefore, even the high-level inner disciples of the heavenly returning sect could only launch several critical strikes to break the wolf's head.

They also discovered that these wolves were inanimate. Even if a sword was stabbed into their hearts, it would only slow down the wolves by a tiny bit. The best way to eliminate them was to blow their heads off.

But a headshot with a sword?

It might work if you have spiritual power, but without it ...

A few disciples could not help but throw their swords and sabers away. They picked up a hard stone from the side and threw it at the wolf. They realized that it was more convenient to use a stone to smash.

Although these methods had subverted the understanding of the people on Emperor moon, for people like Bai Liyue who were used to living on glory planet, they were very familiar with these methods.

Bai Liyue had first dealt with the Wolf Pack around her, then helped the disciples of the heavenly return sect.

After all, they were all high-level disciples of the inner sect. Many wolves had died at their hands, but the total number of wolves killed by them was not as many as the number that Bai Liyue had killed. So, Bai Liyue walked up to the wolves and hit their heads with the iron hammer with electromagnetic pulse.

With a muffled “bang,” the wolf disappeared without any resistance.

Seeing their young mistress kill a Wolf with a blow of her club, the high-ranking inner sect disciples who had been protecting their young mistress completely surrendered.

3420 (XV) 134

When the wolves saw how powerful Bai Liyue was, they all attacked her with red eyes. Soon, Bai Liyue was surrounded by dozens of wolves.

The disciples of the heavenly return sect immediately started to harvest the corpses.

Bai Liyue was like a human-shaped meat grinder, her movements light and agile. Even though she had no spiritual power, her ability was still useful.

Or rather, Wufu

Bai Liyue found that what was rapidly improving was not her spiritual power, but her special ability.

in this place, everyone’s spiritual power was sealed, but not her ability.

Therefore, those who had lost their spiritual energy looked a lot heavier. Only Bai Liyue was still light and strong.

Soon, the wolves that had attacked Bai Liyue and the disciples of the heavenly return sect were all killed.

“Sister, save me! Save me!”

On the other side, Baili Xi was struggling to fight the wolves. She clearly saw from the corner of her eye that Baili Yue could kill a Wolf in two or three moves, but she did not come to help her after she finished dealing with the wolves.

Baili Xi was furious inside, but he still tried to please her.

“sister, i really didn’t push you on purpose.”

“Sister, please forgive me!”

“Sister, I was trying to push you to the other side.”

However, no matter how Baili Xi begged for help, Baili Yue ignored her.

The disciples of the heavenly returning sect were also watching coldly. Her unfriendly attitude made it seem as if they were already doing her a favor by not coming up to stab her.

If she had known that Bai Liyue was so powerful, she would not have done what she did just now even if she was stupid.

These wolves were too powerful. Although they had no life force, their attack power was much more powerful than ordinary wolves.

Although she had also tempered her body before, she was, after all, a 3S grade talent. However, she was fighting against five wolves by herself, and she couldn’t even kill them with a single sword strike. Her body was already covered in colorful wounds, and she had only killed one wolf after such a long time, but Bai Liyue didn’t help her at all.

seeing the number of wounds on her body increasing while none of the wolves on her side had died, baili xi was furious, helpless, and frightened.

Although wolves were not alive, they still had the instinct to seek advantages and avoid disadvantages.

Seeing that Bai Liyue did not come up to kill them, they did not attack Bai Liyue or the disciples of the heavenly returning sect. Instead, they focused on attacking Bai Lixi as if they had a deep hatred for her.

On the other side, after Bai Liyue picked up 10 pieces of black iron, she motioned for the disciples to keep the rest of the black iron on the ground.

They spent more than 10 minutes to kill more than 70 wolves. Although the disciples did not know what the black iron was used for, they could feel the spiritual energy in it. They were very happy and grateful.

“Let’s go,” he said. Bai Liyue said.

The disciples nodded and quickly followed.

“Sister, help me!” Baili Xi was still fighting the five wolves.

Although the four wolves could not kill her, she felt that her strength was being depleted bit by bit.

She didn’t have a Searchlight. If she didn’t have any light after Bai Liyue and the others left, it would be more difficult to kill the wolves, and she might even be killed.

Baili Xi tried her best to break out of the encirclement and get close to Baili Yue. She wanted to block her way, but the four wolves attacked her like crazy.

Seeing that the light on his side was getting weaker and weaker, Baili Xi tried his best to resist it while crying and shouting, ” “Baili Yue, I’m your sister! How could you be so cruel? We’re children from the same parents!”
