Chapter 3431:

The two of them couldn't tell the direction even if they took out their night-luminescent pearls. After walking for a short while, Bai Lixi missed her step. She screamed and grabbed Wei Yunjie's trousers, who was trying to pull her. Wei Yunjie lost his balance and fell into a hole with Baili Xi.

On the other side, Bai Liyue led the disciples of the heavenly return sect to kill monsters and pick up spirit stones, creating a very good benefit for the disciples.

finally, after 15 hours, the group passed through the forest and entered a dreamlike world.

It was still endless darkness, but there were many fireflies flying in the distance.

There were yellow, white, red, and blue fireflies, and they made the water in the pond shimmer.

"Young Madam, should we go down?"

Seeing that Bai Liyue had been hiding in the forest on the mountain and had no intention of going down, a disciple could not help but ask.

"I'm not in a hurry. Let's take a look."

"Yes."

At the beginning, everyone still had the thought of protecting the young Madam. However, after 15 hours of overcoming all obstacles, everyone's admiration for the young Madam had reached a new height.

If young Madam didn't want them to move, they wouldn't.

At this moment, a group of people came down from the forest in another direction. When they saw the beautiful valley with mountains and water, they rushed down happily and called out to everyone to quickly look for treasures.

In the beginning, those people were still in groups of three, searching back-to-back. Soon, someone shouted, "there are spirit stones here!" Everyone rushed to his side like a swarm of bees. When they saw the spirit stones laid on the ground like cobblestones, everyone's eyes shone.

"it really is a spirit stone!"

my God! How can there be so many spiritual stones? "

"The ruins are all passed down from ancient times, so there's no need to be surprised that there are many spirit stones. hurry up and pick it up, or else a fight will be inevitable if someone else comes later."

"What's the black stone next to these spirit stones? It feels a bit like the black iron after the death of those demon wolves."

"I don't know, I picked them all up, I'll go back and sort them out."

“Pfft-”

With a muffled sound, the man who was talking had his heart pierced by a spear.

“Tu Sheng!”

“Pfft-”

“Pfft, pfft-pfft ...”

With a few muffled sounds, the martial artists were shot through the chest before they could even react.

Then, the black Spears that pierced through their chests seemed to be highly corrosive. Bai Liyue and the others watched as these martial artists slowly shrank, solidified, and condensed. Finally, they turned into black stones and fell into the grass.

The black spear seemed to have been summoned and disappeared.

Baili Yue:

Disciple of the heavenly return sect:

“Did you guys see it clearly?” bai liyue couldn’t help but ask the inner sect disciple beside her.

“No, I didn’t.”

why do I feel like the spear suddenly pierced through their chests? ”

“but i seem to have heard a sound.”

Bai Liyue looked at the disciple and nodded, ” “I think I heard it too, but I didn’t see the trajectory of the spear.”

“I didn’t see him either.”

“I didn’t see him either.”

The disciples all shook their heads.

These were all high-level inner disciples of the heavenly return sect. If it wasn’t for her special ability that prevented her from being sealed, she would have definitely dragged them down.

Chapter 3432: 146

3432 146

They didn’t see it clearly, so Bai Liyue believed that it was definitely not a problem of speed.

After all, the fifth elder and brightmoon weren’t even afraid of guns. Although these people were not as powerful as Ming Yue and the others, they should have the basic ability to judge the range of a weapon.

Bai Liyue simply told everyone to lie down on the ground and not move, while she took out a few surveillance cameras from her space ring and released them.

“Young Madam, aren’t they flies? You can actually keep flies in the interspatial ring?”

Baili Yue:

“What do you know? That must be the young Madam’s high-tech!”

“It is! Did you forget that the young Madam didn’t even do anything when Yunsheng sect’s eldest miss and third elder tried to show off last time? she used high-tech to trick them out!”

don’t underestimate the high-tech of planet glory!

“How could I possibly look down on those high-tech things? If it weren’t for the searchlights and the electromagnetic pulse stun batons, we wouldn’t have been able to kill the monsters so smoothly.”

The group of people were chatting in low voices. At this time, Baili Yue’s 4D glasses had already projected the situation over there.

Someone was there!

However,

All of them had green faces and fangs, and they all exuded a deathly aura.

Not a single one of them was alive!

In the words of glory planet, it was a group of zombies.

However, they seemed to be intelligent zombies. Not only were they powerful, but they were also carrying out missions.

At this moment, another group of people arrived.

This group of people should be from a medium-sized sect, with more than 30 people. It was almost the maximum number of people that could be teleported.

The leader of the group looked to be in his sixties or seventies, but his real age was probably around 100 years old.

Just like the people before them, they also found the spiritual stones and black iron scattered on the ground and the lakeside. They also wanted to pick them up.

But suddenly, a spear appeared in their chests, and their lives came to an abrupt end.

The few people in the lead felt it when the other party attacked. They only had time to say “be careful” before their descendants and disciples were almost all dead.

Only they felt it and avoided it by moving their bodies.

However, even if he could escape, he could not escape.

the speed of these black spears was too fast. even if the inner disciples opened their eyes wide, they couldn’t see the trajectory of the spears. they could only determine their position through their senses.

Soon, only the old man was left.

He kept changing his body shape with great effort to avoid the spear.

However, Bai Liyue could clearly see that there were seven zombies here, and each of them had ten of these Spears. When everyone was dead, the 7 zombies found the right time and each shot out a spear. The old man couldn't even Dodge in time.

After all of his clansmen had died, the old man let out a roar of grief and indignation. In the end, he couldn't withstand the attack of the strange spear and died after being hit by five Spears.

The martial artists of other families and sects slowly condensed into black iron stones. However, the old man and the last few martial artists who had died, even though they were just corpses, were still fighting against the spears.

Finally, their bodies resisted the spears and were not corroded into black iron. Instead, they slowly turned into green-faced people with the aura of death.

A faint flute sound rang in the air. As if they were being pulled, they stood up from the ground one by one, pulled out the spears from their bodies, and then slowly dragged their bodies towards the castle.

Chapter 3433: 147

3433 147

As for the ones that missed or hit people, they turned into black iron. The spears that fell to the ground slowly turned into black smoke and disappeared.

Bai Liyue saw that the spears did not disappear, but returned to the zombies 'backs.

What kind of treasure was this?

Baili Yue's eyes were wide open.

After returning to Emperor moon, she found that she didn't need a lot of spirit stones. It seemed that as long as her body absorbed the air here, her strength would naturally increase.

Therefore, she wasn't very interested in spirit stones.

As for the weapons here, she was even more disdainful. it was so backward that it couldn't be compared to glory planet. even glory planet's weapons in the forties and fifties couldn't keep up with the speed. it was probably because people from glory planet came, so some products were brought to the feeling of the 1980s. but most things were still in the 30s or 40s.

However, the biggest advantage of Emperor moon was that there were ancient ruins, and the ancient times seemed to be a place for immortal cultivation, so there were many incredible things.

As for this weapon, Bai Liyue expressed that she was interested in it.

"Young Madam, I'm sure that the spear was hidden when it was shot out."

"I'm also sure that this thing doesn't even have a launching point, nor does it have a trajectory in the middle. It only appears in front of the target in the last meter. In addition to its powerful inertia, it can only react in less than 0.1 seconds."

"It's difficult to avoid it even when there's spiritual power, let alone when the spiritual power is sealed."

our combined strength is the same as that old man's. Even if the ten of us go out together, it'll be difficult to resist without any sacrifices.

"If we don't kill the people over there, I'm afraid we won't be able to get through."

"We can wait for the next wave of people to arrive and then take the opportunity to kill the group of people hiding in the dark."

While everyone was racking their brains to come up with a solution, Bai Liyue suddenly spoke.

"there are currently seven people over there, and i can only take care of five. i can only take care of the other two when they move. However, it takes 0.5 seconds for this sniper rifle to blow up another person's head, so someone needs to go out and lure them out."

"Young Madam, I can be in charge of luring them out."

"i can do it too!"

"i can do it too!"

Everyone recommended themselves.

Bai Liyue had a good impression of these ten inner sect disciples. She smiled and said, "Don't worry, they're just good at hiding, but they're not as fast as me. With your skills, you'll be fine as long as you pay a little attention. After that, I'll go to their side to keep an eye on them in case more people come over. You guys quickly go and collect the spirit stones and black iron over there."

The ten people's eyes lit up, but then they said worriedly, "Young Madam, they're so powerful, are you sure you can go alone? Why don't we send a few more people with you?"

"no need. there will definitely be more people coming in a while. they will definitely give us the strong spirit stones."

After saying that, Bai Liyue quickly took out a sniper rifle from her space ring and stuffed a 12-centimeter long bullet into it.

"Young Madam, is this the gun of legend? I heard that this thing is very powerful! The gun that someone brought back to Emperor moon didn't look as domineering as yours."

The corners of Baili Yue's lips curled up. you'll know if she's powerful after you see her.

Chapter 3434: 148

3434 148

Bai Liyue aimed at one of the zombies and pulled the trigger without hesitation.

The guns were silenced, so the disciples of the heavenly return sect only saw a black and red object suddenly burst out in the distance.

“f * ck, he’s there!”

Another trigger was pulled, and another explosion occurred in the distance.

“They can hit it from so far away?”

“young madam, how did you see them?”

“the young madam is mighty!”

“Young Madam, you’re awesome!”

The exclamations of admiration rose and fell.

“Bang!”

After a soft sound, another thing exploded in a place that could not be seen in the distance.

Bai Liyue’s speed was extremely fast. In a few seconds, several heads had exploded.

“Let’s go out and pick up spirit stones.” Bai Liyue ordered.

The people of the heavenly return sect ran out like a child.

The opponent’s spear couldn’t be thrown from any place, just like Bai Liyue’s bullet, which couldn’t be turned.

Just as Bai Liyue had thought, those zombies were already dead. Although they followed orders, they did not react much to the death of their companions.

Now that the disciples of the heavenly return sect had gone down and were still interacting within the scope of Bai Liyue’s request, they could only slowly move to a suitable place for sniping.

They moved like ghosts, not making any sound as they moved.

everyone who entered the remains had their spirit energy sealed, so they couldn’t sense the zombies’ movements at all. In addition, the sky was completely black, so it was even more difficult to find out their location.

However, it was a different story with the infrared detection. Even the slightest fluctuation could be detected, not to mention that she had released a drone earlier.

At this moment, when the two hiding zombies had just appeared from the turning point and were ready to attack the disciples of the heavenly return sect, Bai Liyue had already opened fire.

However, she could only shoot one of them. The other one still shot out his spear.

The disciples of the heavenly returning sect had already prepared for this. A spear couldn’t hurt them.

When the zombie was about to throw the second spear, Bai Liyue’s last bullet had already blown his head off.

after that, bai liyue came to the zombies as fast as she could and took away all their weapons.

not only did they get their weapons, but bai liyue also got a very large piece of black iron from them.

She was now certain that the black iron was the spiritual power that was sealed in the warrior's body.

And the little black iron that they found on the demonic Wolf should be the concentrated spirit Qi from the dead animals with spirit Qi.

As a result, Bai Liyue took all their space rings.

It took some time, but he gained a lot.

after getting the 70 spears she wanted, bai liyue took out one of the spears and threw it at a big rock not far away.

she found that this kind of spear was more useful than ordinary spears. the spear seemed to have a propulsion device on it. if she threw it with 10% force, the speed and strength of the spear would be increased by 10%.

It was no wonder it was so difficult to Dodge the spear.

However, the spear she threw didn't go invisible.

Bai Liyue held the spear and studied the mechanism for a long time, but she still couldn't turn invisible.

He thought about how many things in this world recognized their owners by blood.

bai liyue bit her finger and dripped her blood on the spear.

The lusterless spear suddenly seemed to glow, and its entire body instantly brightened.

Chapter 3435:

Bai Liyue threw it again not far away. This time, the spear disappeared after it left his hand. When it reappeared, it was already at its destination.

Just as she was thinking about how to retrieve the spear, the spear appeared in her palm.

Woc!

Handsome!

After learning how to use it, Bai Liyue put the spear into the spiritual space that Feng shengxuan had opened for her.

When she put them in, she found that the spears all lit up at the same time.

Bai Liyue was stunned. She quickly took out a spear and threw it.

Invisible!

In the next moment, it returned to her hand.

this was simply a killing secret weapon!

Bai Liyue discovered that her space originally could not only be used by these Spears. The originally vast space, which was like a black hole with no visible edge, had a lot of things added to it for no reason.

All sorts of things.

From small daily necessities to large nuclear weapons, all kinds of electronic products were available.

A letter was floating in the air.

Bai Liyue's divine sense moved, and she took out the letter. When she opened it, she saw that it was Feng shengxuan's handwriting.

There wasn't much content on it, it said-

[the society there is backward. If there's anything you need, just let me know. You can use the things in the space first, and I'll put them in if there's anything suitable. [be extremely careful in the ruins. They are all ancient relics, so don't let your guard down.]

Although she knew that she could meet Feng shengxuan in the same space through her dream, she found that even if they didn't meet at the same time, he could still share the same space with her. Bai Liyue's good mood was instantly lifted.

Especially when she saw that the once lazy Feng shengxuan had personally bought her things and brought them into her interspace, her bright mood was in stark contrast to the colors of the world.

As she was testing these Spears and checking the items in the space that she was familiar with, but she could not bring them in because of the limited space in her spatial ring, Bai Liyue returned to meet up with the ten disciples a little later.

In the end, when she went over, she found that there was a chaotic battle.

There were only ten disciples of the heavenly return sect following her, but the other side had more than 30 people.

Moreover, he didn't know which sect they were from, and some of them were even highly skilled in martial arts. More importantly, there were still two people standing on the side, not moving at all.

In a situation where they didn't have spirit energy, what they were competing on was their physical strength and numbers.

10 people against more than 30 people, and the disciples of the heavenly returning sect didn't lose. It could be seen how outstanding the disciples of the heavenly returning sect were.

Bai Liyue was originally watching the show from the side, but she suddenly saw that someone was about to shoot an arrow in the dark.

Not far away, there was a woman with a crossbow on her wrist. One of the crossbows was aimed at the most powerful inner sect disciple.

Bai Liyue didn't even think and directly threw the spear.

She could feel the force of the spear when it left her hand and hit the target she wanted to hit, but she couldn't see what it was.

But in the blink of an eye, the other party let out a blood-curdling scream. The hand that had tried to fire the crossbow had been cut off from the wrist. He landed on the ground.

"young miss!"

The man who had helped her cover her body cried out in horror, " "Young miss!"

After that, the battle came to an abrupt end with the woman's miserable screams.

Chapter 3436: 150

3436 150

"Who is it that dares to hurt My Immortal form sect's people!" The old man who didn't make a move just now shouted angrily.

we're one of the four sects and eight schools, after all. Your Huashan sect or whatever is really a Rascal. I've never even heard of it.

According to the position of Bai Liyue's voice, everyone turned all the light to her. Only then did they see an outrageously beautiful woman, draped in the faint Halo of fireflies, walking over unhurriedly with a disdainful temperament.

"Who are you?"

Although Bai Liyue was young, the old man in the lead had no choice but to pay attention to her, especially the strange spear in her hand at this moment. A touch of greed appeared in his eyes.

He had clearly seen that it was this spear that had cut off his granddaughter's hand, but now, it was in Bai Liyue's hand again.

He was determined to get such a good thing.

Bai Liyue ignored the old man and asked the disciples of the heavenly return sect, " "What's going on?"

"Young Madam, you're the one who fought for this place, but they're here to steal the spirit stones. Let's give them a little, and pick up as much as we can. In the end, they actually wanted us to hand over the spirit stones and black iron we picked up just now."

"Did you tell them we are from the heavenly return sect?"

"I did." However, they don't think that the heavenly return sect is scary."

"Don't you think the heavenly return sect is scary?" Bai Liyue raised her eyebrows. so, they think that the Huashan sect is more terrifying. Even if they kill our disciples, we won't take revenge on them? " Or are you saying that even if we seek revenge from them, they still have the confidence to destroy our heavenly return sect?"

Ever since she found out that the heavenly return sect belonged to Feng Jiyue, and that Feng Jiyue should be Feng Shengxuan, Baili Yue had really regarded the heavenly return sect as her own sect.

So when she said these words, she didn't feel any sense of disharmony at all.

"I don't dare to." The old man cupped his fists. This must be the young mistress of the heavenly return sect, right? "We're one of the 72 sects, the immortal sect, not some Huashan sect."

Bai Liyue waved her hand casually. "It's all the same. I've never heard of it."

The old man, Wanwan.

"You are the sect master of the Huashan sect?" Bai Liyue asked.

"....."

"B * tch, don't you dare insult My Immortal sect!" The woman whose wrist had been cut off had recovered after taking a painkiller, and she began to curse at Baili Yue.

Bai Liyue already had the ability to control her supernatural ability. Before the old man could react, she threw the spear again.

By the time the old man reacted, the spear had already cut through the woman's mouth and returned to Bai Liyue's hand after bringing with it a spray of blood.

"Since you can't speak, then don't."

Because the woman had taken painkillers, she felt her mouth go numb. She felt something warm on her face, so she reached out to touch it.

When he touched his face, he realized that his lips had become flat and his face was covered in blood. She couldn't help but scream again.

At this moment, she was filled with regret.

Her facial features were so good looking, and she was the prettiest one in the Lou family. She could clearly marry into a very good family in the future. However, all of her future was ruined by this woman who had only spoken a few words.

She was really angry.

The woman glared at Bai Liyue angrily and was about to speak, but Bai Liyue beat her to it and said, "If you dare to spew shit again, I'll cut your tongue off."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3437: 151

3437 151

Because this woman's attack was too ruthless, and she didn't even have the speed to react, so even if she wanted to cut Baili Yue into eight pieces in her heart, she didn't dare to say anything before her grandfather and father defeated this woman.

She could only cover her injured mouth and cry.

"I heard that the heavenly return sect found an unknown small family to celebrate their young master's happiness. It seems that I'm not well-informed. The ruthlessness of the young Madam of the heavenly return sect doesn't seem like the behavior of a small family."

Bai Liyue looked at him coldly. "You flatter me. since you know how powerful our heavenly return sect is, i won't argue with you. The spirit stones you picked up just now will be considered as the medical expenses for this young lady. What's left here is ours, you guys can leave."

The immortal sect:

Disciple of the heavenly return sect:

The young Madam was mighty!

The old man was so angry that he laughed and said, "Young Madam, you've never heard of the immortal sect, but you should at least know that there are 72 other sects in addition to the four sects, right? although the 72 sects couldn't be compared to the four sects, they weren't small either. I'm the sect leader of the immortal form sect, and you've injured my young lady, my granddaughter, and even crippled her with a single move. I can't take this lying down."

"Oh, then let's fight."

"No need to fight. if lady feng's reinforcements arrive and see us fighting, it'll hurt the relationship between the two sects. Since Lady Feng has said that you will compensate my granddaughter, then please give me the spear in your hand, young lady. Also, ask your disciples to give us the spiritual stones and black iron, and we'll let this matter go."

"Reinforcements? Huashan sect leader, you might have underestimated the heavenly return sect. It's not a problem for me to deal with an unknown sect master."

After the other party's face had completely darkened, the spear that had disappeared from Bai Liyue's hand suddenly appeared in her hand again. "As for this, I'm afraid you don't have the right to control it."

"Arrogant brat! I may be afraid of your heavenly return sect's elder, but you, an unknown kid, dare to be so arrogant in front of me, Lou Sheng!"

With that, the sect leader of the immortal sect, Lou Sheng, took the lead and flew to snatch the spear from Bai Liyue's hand.

However, before he could touch Bai Liyue, she had already disappeared. Not only did she disappear, but the spear also flew past his face. The sharp knife cut off a strand of his beard. If he had not dodged quickly enough, his neck would have been cut off.

"Why isn't your spiritual power sealed?"

Bai Liyue held the spear in her hand again, and her cold and refined face made people feel a chill that could not be ignored.

"Why? You can go and ask the remains. You can also accuse it of cheating by sealing all of your spiritual power, but not mine."

Bai Liyue's words caused the disciples of the heavenly return sect to laugh, but Lou Sheng's face turned pale and green, and then green and white.

After a long time, the shock on the other party's face gradually faded away. He chuckled affably and said, "it's said that heroes come from the young. The young lady of the heavenly return sect is a typical young hero!"

"I won't hide it from you, everyone around me thinks so."

The disciples of the heavenly returning sect nodded while holding back their laughter.

"sect leader lou, right?"

"I don't dare, Lou Sheng. Young Madam, you can just call me Lou Sheng. I was too rash just now, I shouldn't have said those disrespectful words."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3438:

"I hope that young Madam can consider the fact that our sect has more people and that we can be of use to young Madam in the future. Please spare us this time."

"Sect leader Lou, although I like to gain something without anything, I don't like it when others gain something without anything. When we get out of here, I won't be your match anymore. It's useless for me to have an empty check like this."

But I've always been good at making friends. If Lou Changmen really think that your entire sect can be used by me in the future, then take out everything you just picked up."

Lou Sheng:

The winner was King and the loser was a Bandit. This was very suitable on Emperor moon. The people of Emperor moon could live for a long time, but their population was not as large as those on glory planet. Why?

Many died.

In such a situation, Lou Sheng only hesitated for a moment and was ready to ask everyone to take out everything they had just picked up.

"Young Madam, we didn't actually take many spirit stones, and then we started fighting. On our way here, we finally managed to kill some wild beasts and Exchange them for spirit stones and black iron. But we haven't counted exactly how many there are. If you take all of it out, we'll be quite distressed. If you take too little, we'll feel that we've neglected young Madam. Please, young Madam, on the account that we didn't hurt anyone from the revered sect, please don't hold it against us."

A woman walked out from the group.

She was also quite pretty and had a sincere expression. She should be one of the daughters of the immortal sect.

Bai Liyue waved her hand and said, "alright, that's all for today." Next time you see me, I hope you will stay away from me. "

Lou Sheng's eyes lit up and he immediately cupped his fists and said, " "yes. Many thanks, young Madam."

After Lou Sheng thanked Bai Liyue, he immediately left with the people from the immortal sect.

When they had gone far away and could no longer be seen, the disciple of the heavenly return sect curled his lips and said, " "They're lucky!"

Although they said that, no one had the intention to blame Bai Liyue.

They even felt that the young Madam was beautiful and kind. She would not be soft-hearted when it was time to use force, but after the other party showed weakness, she would not kill them all.

Bai Liyue was the only one who was extremely excited.

Everyone who knew her knew that she was an extremely protective person who would take revenge if there was a grudge, and she would definitely not delay her revenge until the next time they met.

Just now, the group of people from the immortal sect clearly wanted to take advantage of their weakness to Rob them of their things. In fact, if they really couldn't win and handed over their items, they definitely wouldn't let them live or let them leave to get help.

Therefore, even if she didn't kill them, she didn't intend to be polite to them.

However, after that woman said those words, she actually agreed to it.

She knew that she was definitely not that kind of person.

After working as an international mercenary for so many years, working in KE entertainment for so long, and being the vice-chairman of disheng for so many years, she had a deep understanding of one thing: Tolerance for the enemy was cruelty to oneself. therefore, under normal circumstances, she would never give a second chance to someone who had not completely submitted to her.

However, just now, she could clearly feel that she thought that the woman was right, and that it would be bad if she continued to pursue the matter.

If one wasn't 100% sure of their own character, many people would think that they were soft-hearted at that time. Even if they got angrier the more they thought about it, they could only do this.

Chapter 3439:

But she was different.

She knew herself very well.

So, huhu

There's something wrong with that woman!

Not only was there something wrong with that woman, but there was also something wrong with the desire spirit in her divine sense.

After the woman finished speaking and agreed, she felt the lust spirit shaking non-stop.

For such a long time, the desire spirit didn't move at all. But after the woman said those words to her, the desire spirit started to shake crazily.

There must be a demon behind the abnormal behavior.

Bai Liye decided to let her tracking device follow the woman from the immortal sect to explore what could cause such a great disturbance in her desire spirit.

Just as he was about to leave, his eyes suddenly turned fierce. get down!

The disciples of the heavenly returning sect reacted quickly. They either lay down or dodged when Bai Liye shouted.

They all felt a strong gust of wind brushing past their bodies or heads. He broke out in a cold sweat.

The disciples of the heavenly return sect had all escaped, but the disciples of the immortal sect who were walking in front suffered.

They had never faced a zombie attack before, so when the next wave of zombie attacks came, their reactions were so slow that they couldn't survive.

In just an instant, more than half of the 30 immortal sect disciples had died.

"We won't die again. They can't kill us. everyone, don't be afraid!"

The tracking device was right above the woman, so Bai Liye could clearly hear what the woman said.

The team that was already panicking instantly stopped panicking.

Lou Sheng shouted, " Shield Cover!

At his command, the people of the immortal sect took out shields that were as tall as a person and formed a circle. Everyone hid inside.

the spear's only advantage was that it could increase its strength and become invisible. However, if the other party took out a shield that was enhanced with spiritual energy, and the defensive effect of the shield was stronger than that of the spear, then the spear would lose its effect.

The zombies saw that they couldn't continue their attack, so they started to attack the heavenly return sect.

At first, Bai Liye had taken out her gun and was ready to kill the next wave of zombies, but she wanted to see how the woman was doing.

With just a thought, the shield designed by Aiden appeared in his deific consciousness.

4D, air shield.

“Young Madam, be careful!”

Seeing Bai Liyue suddenly stand up with her hands on her waist, the disciples of the heavenly return sect were scared out of their wits. One of them even flew over, but was blocked by Bai Liyue’s hand.

“don’t move,”

After that, everyone discovered that the black Spears bounced to the side when they were a meter away from them. And in front of them, only when they were shot by the spears would a white halo appear like a wave of air. And only that circle had it.

It was as if there was an invisible barrier in front of them.

F * ck, f * ck, f * ck!

What kind of god-like operation was this?

“Young Madam, what kind of treasure are you using this time?”

One of the disciples was shocked.

If they had seen Doraemon, they would be sure without hesitation that their young Madam was their Doraemon. She could open their eyes at critical moments every time and realize all their fantasies.

Bai Liyue stood in place with her hands on her hips. She was wearing a loose martial arts uniform of the Tianhui sect, looking like a female Overlord.

“This is a shield.”

“why can’t i see the shield?”

“because it’s invisible.”

Chapter 3440: 154

3440 154

“Is this Kasaya theirs or did you bring it to glory planet?”

Bai Liyue glanced at her disciple. It was an insult to Eden’s intelligence to compare these zombies ‘things with his.

“Do you think this spear can be compared to the shield?”

It could!

And it just so happened to match!

The disciples thought so in their hearts, but they didn’t say it out loud.

“I don’t think so!”

“I don’t think so either!”

"I think this spear is so powerful because it's attached with spiritual power. When young Madam used it just now, I could already feel its rich spiritual energy. However, this shield doesn't have any spiritual energy."

"Yes, yes, yes! I was just about to say it! This shield can actually become invisible without the support of spiritual energy, and it can even resist such a strong spiritual energy spear. This Shield's grade is obviously higher than the spear!"

"Much higher!"

Baili Yue:

Alright!

It was clearly a dangerous area where they had killed everyone, but the disciples of the heavenly return sect just stood there and started chatting.

the zombies saw that the immortal sect also had a shield and that Bai Liyue's side couldn't attack, so they directly rushed toward the immortal sect that was closer to them.

When the zombies started to attack the heavenly returning sect, the people of the sect wouldn't have been able to resist them if they didn't have powerful shields.

who knew that the heavenly return sect's shield was much more powerful than theirs.

They didn't even need to support the shield. The shield was invisible, and the group of people were still chatting behind it?

Seeing this, the people of the immortal sect finally did not dare to underestimate Bai Liyue. Especially Lou Sheng, he even decided to bring some things to the heavenly return sect to apologize.

In the face of the strong, the weak could only bow down. This was the way of survival on Emperor moon.

The zombies saw that they couldn't kill either side of the people, so they decided to do it themselves.

Before rushing up, the zombie blew the short whistle in his mouth.

The sound of the whistle was the same as the flute sound that Bai Liyue had heard before.

"Be careful, they're about to call for help."

There were more than a dozen zombies in the new round. They moved as fast as ghosts, and at their fastest, they were as fast as black smoke.

the people from the immortal sect only felt that they were shrouded in danger. while they were still looking at the periphery, the people inside the shield had already screamed.

"don't kill me!"

Baili Yue heard the woman speak again.

After her scream, the black smoke hovered around her, but it didn't kill her. Instead, it entered the bodies of others.

The entire immortal sect's formation was also scattered because these zombies could actually turn into a pervasive black smoke.

Fortunately, although the black smoke was fast, it was still visible because it was so dense.

At least, Lou Sheng, that old man, managed to stab the black smoke several times.

However, Bai Liyue knew that it was useless. These dead zombies were not afraid of pain, just like the demon wolves and the zombies they had killed before. Unless their heads were blown up, there was no other way.

The number of people from the immortal sect was getting smaller and smaller. In the end, there were less than ten people left from the 35-man team.

The woman spoke again, "ah, don't attack us!" Why did you only attack my mother? don't attack us anymore! Go and attack the people of the heavenly return sect!"

In the end, after she said those words, the group of zombies indeed stopped attacking the immortal sect. Instead, they came over.
