#### Chapter 531: Back Then

At that time, he had yelled at Zhong Qianqian. Yet, on account that she was Zhong Kuijun's daughter, he had not landed any blows on her.

However, although he had already entered the bedroom to rest, Zhong Qianqian had opened up the bedroom door.

Meanwhile, Zhong Nuannuan watched as Zhong Qianqian took off all her clothes outside before walking in.

As for why Nuannuan went in, it was because she felt that Chi Yang was a shady character. Even if Zhong Qianqian stripped naked and went in, things might not turn out well for her. She was worried about Zhong Qianqian. Thus, she waited at the door, thinking that if anything happened to Qianqian, she would immediately go in and save her.

At that time, she really gave this heartless family everything she had!

Therefore, when she heard the muffled sounds coming from inside the room, she knew that Zhong Qianqian had been attacked.

To save Zhong Qianqian, she rushed in.

Initially, she had not expected any accidents to happen to her. After all, she was no ordinary, protected lily. She was the Queen, the world's number one mercenary.

However, when she entered the room, the lights were turned off. Even so, she could see a beast-like man affixing his wolf-like red eyes at her in the night.

Sensing danger, she leaned forward and prepared to knock the man unconscious before bringing Zhong Qianqian out. This would prevent Zhong Qianqian from getting hurt during the fight.

Much to her surprise, as she was landing with a quick slash with her hand, the man locked his wrists around her hands in midair.

His hand was like an iron clamp that could not be moved. Even though she had used all her strength, she could not escape his control.

His strength was so great that she could not control him at all. On the contrary, the man seemed to have seen through her plan and forcefully pinned her to the ground, using his hands and feet to hold her down.

She admitted that when she first attacked Chi Yang, she was a little careless, and she did not really want to hurt him. Therefore, whether it was the speed or the way she attacked, it did not seem like she was dealing with an enemy. After all, they were the ones who had drugged him first, and Zhong Qianqian was the one who had seduced him later.

However, when she realized that she was restricted and could not move an inch, it was too late for her to regret it.

In her previous life, she had always been confused. She had always depended on speed when she killed—she identified her target's weakness and went to work from there. She had never relied on strength to kill people.

However, to be able to become a top-notch mercenary, there was no way that her strength was as little as that, was it not? She had, at least, the ability to kill all the top ten mercenaries on the ranking board, right?

Then, why did she become so useless when she was in Chi Yang's hands?

Later, Zhong Nuannuan reflected on herself deeply. Even though she tried her best to resist at first, she gradually fell addicted to Chi Yang's charm.

That was why she could not break free.

In truth, in the end, she could not remember whether she had struggled free of his grasp.

That was because of the feeling that Chi Yang gave her that made her feel like she had floated straight into the clouds, but also as though she had suddenly fallen into an abyss.

She had been rendered senseless by this feeling.

However, she only found out two days ago that her Big Brother Chi Yang also had supernatural powers.

His superpower not only gave him strength many times stronger than a normal person, but he could also move objects via telekinesis. Furthermore, his self-healing ability was very strong.

He was indeed the man that Zhong Nuannuan fell for.

Moreover, what she did not know was...

#### **Chapter 532: Perfect**

At that time, Chi Yang was already suffering when his illness flared up. Added with the fact that he was drugged by Zhong Qianqian, he could no longer have control over himself, no matter what Nuannuan was doing or what he was doing. He could only instinctively seek a way out.

At this moment, Zhong Nuannuan sat on Chi Yang's body. She did her best to 'grind' him while filling her mind with thoughts of their first time.

This time, it felt much better than the last time. As for what felt good, specifically, Zhong Nuannuan did not know. She only knew that she liked being the one on top very much.

Chi Yang had not even finished building his mental foundation when he was completely washed over by this overwhelming and insane feeling.

At first, Chi Yang was a little afraid that the car would shake too much that people outside the car would know what they were doing inside.

Therefore, he had been holding himself back. He let this petite woman scrape whatever she wanted from him.

To be honest, it never occurred to him that their second time would happen in the car.

After all, he raped her during their first time, and it happened on the ground.

Therefore, he had thought long and hard about it—that their second time would happen in an extremely romantic place. It would be a place that could please her physically and mentally.

He had thought about being in an endless sea of lavender, in a seaside villa, in a sunny greenhouse, or in a luxurious and comfortable cruise ship sailing on the sea that extended all the way into the horizon.

In short, he had never thought that they would do it in a car.

In such a casual situation, too.

Chi Yang had a feeling similar to déjàvu that he had been taken advantage of by his feelings and then licked clean to the bones by the other party. What was going on here?

However, this thought only flashed through his mind for a second. Soon enough, his line of thought was drowned out by that overwhelming and indescribable sensation.

Finally, Chi Yang could not care for much anymore. With a nimble turn, he pinned the culprit who started this onto the back of the chair. Even though they were in a heavy Land Rover, the interaction between the two inside still made the car sway slightly to their rhythm.

In other words.

It was fortunate that it was still within working hours. Therefore, not many people came to the city center to go shopping.

Fortunately, this place was not too far from the police station, and the police station was located on a quiet street downtown. Therefore, even if someone passed by here, they would not have thought that there were two people in this swaying car who were putting on a scene that was not suitable for children.

They would think that this was too close to the police station, and it was a military vehicle. So, the people inside were most probably deploying something or prepping some kind of equipment.

“Ummmphhh—”

With a roar that vaguely sounded ambiguously in pain or satisfaction, the car that had been shaking at an increasing intensity finally quieted down.

Whether it was Chi Yang or Nuannuan, they were both sweating profusely.

Especially Nuannuan, to dress in a well-behaved manner to school, she wore a coat that was so fluffy it made her look like a ball of fur.

She did not take off her coat in the heat of the moment just now.

As a consequence of that, although her clothes were unbuttoned, her coat that she did not take off heated her to a redness similar to a baked sweet potato.

When Chi Yang saw this, he did not even pull Lil Yang out. He parked it safely at his wife's house. He immediately reached out and took out a box of tissues from the backseat of the car. He began to wipe Nuannuan's face carefully.

His previous depression, panic, and confusion disappeared without a trace in this love that they paid for in ultimate sincerity.

How could he be suspicious of his Nuannuan like that?

If she really intended to leave after dealing with the Zhong family's mess, why would she suddenly get back together with him when their relationship had already become so stiff?

Why would she tell him that she loved him? Why would she save Leng Jinpeng for his sake? Why would she give him acupuncture every day and call wherever he was her home?

Though, he had never thought that Nuannuan would take the initiative for their second time!

Moreover, she initiated it without saying a word.

However, at this moment, Chi Yang felt all the love that Nuannuan had for him.

The incident from last night had also vanished from his heart.

"Big Brother Chi Yang."

Zhong Nuannuan lay lazily on the chair like an extremely tired kitten that was waiting for her master to pet her. She did not intend to move at all. Where had the impression similar to a Tyrannosaurus rex just now disappeared to?

A girl like this was definitely a fluffy, pink marshmallow that melted in one bite. How could she be the tough woman who sat down on his body without any hesitation just now?

"Hmm?"

Not only was there a smile on Chi Yang's lips, even his eyes and brows were filled with happiness.

"Do you feel good?"

Looking at this girl's languid and soul-stirring appearance, Chi Yang inexplicably imagined the scene of a vixen asking, "Sir, did you enjoy yourself?"

He could barely stop himself from pouncing on her and eat her all up again.

Swallowing a mouthful of saliva, Chi Yang could feel hunger creeping up on him more urgently.

It was as though if he was constantly hungry, it would not be a big deal once he got used to it. However, if he ate a meal while he was in that state, then the next time hunger came, it would not be something that he could endure.

Chi Yang was in that state, exactly.

Even though he had just had an indescribable connection with Nuannuan, he hungered for her again as he looked at her in her languid posture. This sensation was even worse compared to not eating since the beginning.

Fortunately, Chi Yang's self-control was abnormally strong. Even though his body was boiling with wolfish urges in his blood, he swallowed his desires, forcing them down his throat.

Then, he dragged Lil Yang out, ending his stay at his wife's place. Otherwise, he might cause more trouble later.

After all, his Nuannuan was still young, and her body could not withstand high-frequency and long-lasting movements.

All of her belonged to him anyway.

He had to thoroughly grow his little wife to maturity before eating.

Chi Yang wiped the sweat off Nuannuan as he raised his lips and nodded. "I feel great. I never thought that doing this kind of thing could be so wonderful. How about you? How do you feel? Do you feel uncomfortable anywhere?"

Nuannuan enjoyed Big Brother Chi Yang's thorough service and replied with a smile, "It hurt a little at the beginning, but everything was fine after that. And... Big Brother Chi Yang, I really like doing things like this with you."

After all, Nuannuan grew up abroad and would say whatever was on her mind.

Yet, Chi Yang would not.

Not only did he receive Camino's traditional education, but he also grew up in a very austere family.

Therefore, his ears became slightly red from hearing Nuannuan's words.

He was a little shy, but more than that, he was happy.

His wife really liked doing things like this with him!

"Then, shall we do it more often in the future?" Chi Yang blurted out happily.

Zhong Nuannuan burst out laughing.

"Didn't you say that you'll wait until I'm eighteen years old?"

"..." Chi Yang was speechless.

He would have to die holding it in.

Zhong Nuannuan saw that Chi Yang's dumbstruck face and her heart ached. "I'm just joking with you! I think my body can handle it. I'm completely qualified."

[My Sweet Physician Wife Calls The Shots](#)

**Chapter 533: Sense of Security**

When Chi Yang heard this, he cheered up immediately.

“Okay, then I’ll be gentler in the future and take care of you more so that I won’t hurt you.”

“Mmhmm.” Zhong Nuannuan nodded, not forgetting her original intention of having sex with Big Brother Chi Yang.

“So, are you still angry at me?”

Seeing the concern in Nuannuan’s eyes, Chi Yang bent down and kissed her deliciously moist cherry-like lips. “I wasn’t angry at you! Why would I be angry at you? If I wanted to get angry, I’d only have myself to blame. I’m the one who didn’t give you enough security and trust that you’d think of your friends first when you’re in danger instead of me. When you’re in danger, you’re not thinking of relying on your man. Instead, you’d rather solve the problem yourself.”

“No... That’s not it. Big Brother Chi Yang, you’ve misunderstood!” Zhong Nuannuan felt that there was no way she could explain herself further.

“It’s fine. No matter if I’ve misunderstood or not, I will do better from now on. I will make you feel completely at ease with me. No matter what happens in the future, the first person you will think of is me. Nuannuan, I really have no intention of blaming you. I’ve only become a part of your life four months ago. In your seventeen years of life, I’ve only participated for four months.

“I’ve never participated in what you went through when you were young, so why would I blame you? However, Nuannuan, I’m your fiancé; I’ll be your husband in the future, and I’ll be the person closest to you. Whether doing anything for you or even if you ask me to give you my life, I won’t hesitate. So, I hope you can trust me and think of me when you encounter problems that you can’t solve. I’ll definitely become your strongest support and help you deal with all your problems as best as I can, okay? Nuannuan, can you give me this chance?”

A tear rolled down her cheek. It soon trailed along the brim of her eye and dripped down her face, almost entering her ear.

Chi Yang quickly bent down and kissed the teardrop away.

Another teardrop fell, and Chi Yang kissed it away too.

Just like that, the duo in disheveled clothing remained—one was crying, and the other was kissing the tears away.

“Big Brother Chi Yang.”

“Hmm?”

“Don’t ever say that you’re going to give me your life again, okay? I don’t like hearing that.”

“My life is yours.”

He spoke from the bottom of his heart.

However, seeing that the little girl pursing her lips and about to tear up again, Chi Yang quickly changed his words. “Okay, okay, okay. I won’t say it again, okay? I won’t say things like this again. Don’t cry!”

Chi Yang continued wiping his little girl's sweat while kissing her tears.

Zhong Nuannuan also felt that she was being unreasonable and felt a little embarrassed. Therefore, she said, "You can just wipe it clean with a piece of tissue. Why do you have to kiss them all the time? Look at you, you're moving around my face like a rooster pecking at rice!"

"... -\_-||"

Chi Yang's handsome, masculine, and gorgeous face was visibly drained of excitement. His stony expression that had not changed for ten thousand years, would occasionally crack when dealing with his little wife.

Was he that ugly?

Why did she call him a rooster?

She looked at Big Brother Chi Yang, whose open shirt revealed his strong, honey-colored chest. He was still wearing his suave and dignified battle attire, but the man who usually buttoned up his uniform meticulously now had his clothes in disarray. Combined with his body that was covered in exceptionally strong muscles that were not developed in a gym...

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 534: Temptation**

Coupled with his handsome face that made people want to scream out in admiration, he was totally starring in a temptation-filled show of uniform kink.

Since Nuannuan compared him to a rooster, Chi Yang's stern eyes stared straight at her, and his body was slowly approaching her at dangerous proximity. Zhong Nuannuan blinked her eyes, feeling a little tingle creeping up.

"Big Brother Chi Yang... What... What are you doing?"

His little wife's clothes were disheveled, and the two lumps of little white rabbits that developed at an abnormal perfection stood tall before him. Accompanied by her worried state, it even swayed a bit. She looked like a helpless young girl who was about to get raped by a bad person. The scene caused the blood in Chi Yang's body to quickly flow in reverse, and he almost lost control of himself, threatening to leap on her.

Yet, he had already decided not to touch his precious little white rabbit anymore today... Aww, Big Brother Chi Yang the little kitten nearly pounced on her again when he saw this scene that could trigger anyone to commit a crime. Eventually, before they could speak properly, he could only take off his battlesuit and cover the two little white bunnies. Only then did he feel his intelligence returning.

He had always thought that only when one's IQ was too high would one's EQ be lowered. He did not expect an uncontrollably low EQ could lower one's IQ to the point of being unable to speak.

Big Brother Chi Yang, who had never experienced this before, suddenly realized how terrifying that was.

If Zhong Nuannuan could hear Big Brother Chi Yang's thoughts, she would definitely tell him, "Dear, that's not EQ. That's called primitive bestial lust."

"What did you just call me? A rooster? Hmm? You actually compared me to a rooster?"

With every word that Chi Yang said, he leaned down a little. Nuannuan was like a little wife who was getting mistreated and shrank deeper into the chair.

The chair was solid to begin with, so no matter how hard she tried to shrink, she was still exposed under Chi Yang's fiercely naked gaze.

By the time Chi Yang finished his sentence, Nuannuan had already curled up to become a big white rabbit that stared at him pitifully.

"But a rooster is mighty and strong! For example, when we talk about being valiant and spirited, wouldn't you have thought of a crowing rooster first?"

Would he?

Chi Yang had never thought about this before, so he did not know what was inside his wife's head.

"Are you saying that you only said that because you think I'm strong?" Chi Yang's dangerous eyes were filled with more affection; less danger.

"Yes, yes, yes!" Zhong Nuannuan nodded like a little chick pecking at rice.

The sincerity in her eyes could not be any more sincere in her puppy eyes.

Chi Yang could not remember any punishment when he saw his wife's big and clear eyes.

He reached out and gently booped his wife's delicate nose. "You brat, I simply think that tears are bitter, so I want to give you a sweet kiss. This way, even if you cry in the future, it will still be sweet."

Zhong Nuannuan, who was swept off her feet by his flirty flattery, "..."

Even though Nuannuan was covered in her own clothes, Chi Yang felt like he had X-ray vision. He could see the two little white rabbits on Nuannuan's body that he could not bear to part with. Therefore, to prevent himself from hurting the little girl, he quickly helped her put on her clothes.

When Nuannuan had finished putting on her clothes, she realized that Chi Yang was had that wolfish attraction that was tempting her to throw herself at him.

Nuannuan gulped secretly.

To be honest, she had seen many men with good figures that she thought she was already immune.

However, after seeing Big Brother Chi Yang's body, Nuannuan felt that she had overestimated her willpower.

**Chapter 535: In Love**

It felt like she was in love with every inch of Big Brother Chi Yang's body!

Since they were in the car and Nuannuan was sitting in the driver's seat, Chi Yang could only put on his clothes at the front passenger seat.

He first stuffed Lil Yang, who was still standing tall and proud, back to where it belonged. He then put on his pants and tied his belt. Only then did he have the time to look at the little girl whose gaze was affixed at him without blinking.

"Why? Do I look good?" Seeing how embarrassed she looked, Chi Yang's mood soared.

He was glad that the little girl liked his body.

Nuannuan was embarrassed by this question, but she nodded sincerely.

"Yes, it's nice!"

Chi Yang was speechless. "..."

Did girls not usually say something like, "I'm ignoring you! Not nice at all! Who'd wanna look at you?" when they encountered questions like this?

Indeed, his little girl was an honest one.

Yet, he liked it.

Rumble—

Zhong Nuannuan's stomach suddenly growled.

She could not be blamed for that. Who asked Big Brother Chi Yang to have gobbled her up ravenously before noon?

However, Zhong Nuannuan was also very happy.

Selina, the relationship expert, was right.

When dealing with a man that liked you, there was no problem that sleeping with them could not solve. If one time was not enough, go for twice.

Chi Yang rubbed his wife's flat stomach.

Even though they were separated by their clothes, Lil Yang, who had returned home unwillingly, woke up again.

Chi Yang quickly retracted his hand and asked, "Are you hungry? What do you want to eat?"

"I want to eat hotpot!" After exercising, Zhong Nuannuan felt like she could eat up the entire hotpot restaurant.

After all, she was different from other women. In the beginning, she was the one doing all the work while Big Brother Chi Yang enjoyed himself.

"Okay, let's eat hotpot."

Chi Yang started the car and asked, "Do you prefer any restaurants?"

"Yes! It's the one I went on my way to the military base last time when you were too busy to eat with me. I found a random restaurant, but the food tasted amazing."

Seeing her nearly drooling face, Chi Yang could no longer maintain the serious expression on his face. There was a loving and warm smile that screamed from between his eyebrows.

"Okay, let's go together."

"Okay."

Nuannuan quickly climbed onto the passenger seat, while Chi Yang moved from the passenger seat to the driver's seat.

Yet, unexpected to both of them, Nuannuan was one step faster when she crawled over. Chi Yang calculated the time at the speed of a normal girl before he prepared to cross over.

Therefore, even though Nuannuan had come over, Chi Yang had not gone over yet. Hence, Nuannuan's buttocks happened to sit on the tip of Lil Yang.

"Oomph..."

Chi Yang let out a muffled groan from the impact that landed on the right spot.

Nuannuan jumped up in shock when she felt the jab on her butt.

With that leap, she hit the roof of the car.

Hearing the dull thud, Chi Yang could not care less about Lil Yang's life. He quickly reached out to massage her head.

"Hey, does it hurt?"

With Zhong Nuannuan's head hurt, she shrank back instinctively. However, Chi Yang suddenly pressed her down—

Zhong Nuannuan landed on Lil Yang's tip with her butt once more.

Zhong Nuannuan, "..."

Chi Yang, "..."

Lil Yang, '... How ruthless can the person upstairs be?'

The two drove to the hotpot restaurant that Nuannuan mentioned. As it was coincidentally lunchtime, the place was crowded with people.

[My Sweet Physician Wife Calls The Shots](#)

**Chapter 536: The Most Outstanding Man**

The restaurant was divided into the first and second floors. There were no more seats on the second floor and private rooms, so they could only eat on the first floor.

Both Chi Yang and Nuannuan were extremely good-looking. Therefore, they attracted the attention of everyone the moment they entered.

If not for Chi Yang's military attire, everyone would have thought that he and Nuannuan were actually a god and a goddess.

After all, not only were they handsome, they carried themselves with dignity.

A few high schoolers who were eating there could not hold their excitement in and screamed when they saw the duo.

Be it Chi Yang or Nuannuan, they were used to being stared at. Thus, being the center of attention did not affect their appetite.

Although there were only two of them, Chi Yang had ordered enough to feed six people.

Since he popped his cherry, Chi Yang was in a good mood and his appetite had improved as well. He ordered two portions for himself. The remaining four were for his wife.

Chi Yang looked at his wife's slender figure and could not help tsking internally.

She did not gain weight even after eating so much. Could it be that everything she ate transformed into essence-form and turned into collagen that accumulated in her breasts?

"Big Brother Chi Yang, what are you looking at?"

With some difficulty, Chi Yang shifted his gaze away from his wife's two covered white rabbits and smiled. "It's nothing. I was just thinking about how you can eat so much. Yet, you don't gain any weight at all?"

Zhong Nuannuan giggled and asked, "Big Brother Chi Yang, are you saying that I eat so much that you don't wanna provide for me anymore?"

"Whether it's a problem to provide for you aside, even if I can't, I'll provide for you even if I can't afford to buy myself food!" That was his wife after all. How could he not provide for her?!

Yet again, Zhong Nuannuan's face turned blood red at his words.

"Big Brother Chi Yang, I think you're getting better at sweet-talking. You're good-looking, and now, you're eloquent too. With you being so outstanding, how would I ever dare let you out into the wild alone?"

Immersed in the warmth that Nuannuan had for him, Chi Yang's heart was burning hotter than the hotpot. "But I will only say nice things to you, and only treat you so well. Other women, even if they stand naked in front of me, I'd only think of how dirty they are."

That was true. After all, he had an illness.

Allodynia.

Before they could think about touching him, so long as those women who harbored twisted thoughts about him stood in front of him, his heart would involuntarily send chills across his entire body. He would think that they were dirty and he would want to avoid them at all cost.

After all, he was already twenty-six years old. In Emperor District, those so-called socialites would occasionally put on an act to win him over.

This continued until more and more people attempted it. After a few times, he became angry. He threw a young lady from a reputable second-rate family into the middle of the banquet hall naked. After seeing the embarrassment suffered by the family, those women stopped trying to take off their clothes in front of him.

“What about you, then? If other men, especially outstanding men like me, expressed their love for you, would you fall for them?” Chi Yang had always been worried about this.

If you came from the farming districts, then forget it. After all, people from different social classes would have different experiences.

However, he knew that it was not the case. Thus, that was the reason for his unsettled heart.

Zhong Nuannuan waved her hand in dismissal and said, “What kind of joke is that? How could there be a man who’s more outstanding than you in this world?”

If there was, how could she have missed him?

(Meanwhile, Feng Shengxuan on the other side of the world, “...That’s why I say Da Bai must have gobbled up your eyes!”)

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 537: Sneaky Shots**

Chi Yang was also flattered by Nuannuan’s woos.

The conversation between the two was incredibly childish.

What to do? Be it Chi Yang or Nuannuan, they agreed that they had found common topics that they could talk about endlessly for the rest of their lives, and they were happy about that.

When the dishes were served, Zhong Nuannuan hardly touched her chopsticks—she did not have to.

She threw those that took a long time to cook into the hotpot first. After they removed the lid, Zhong Nuannuan was about to pick up a large and beautiful piece of tripe to boil it in the pot. Much to her surprise, Chi Yang had already done it and placed the tripe into her bowl.

The fresh and tender tripe, paired with chili oil, was dipped into sesame oil. Nuannuan liked her food spicy. Hence, she dipped it in dried chili powder, Sichuan pepper powder, ground pepper, ground peanut, and sesame seeds on the sauce plate and placed it in her mouth.

Tasting the freshness of the tripe coupled with the spicy fragrance of the hotpot alongside the dipping sauce, Nuannuan let out a satisfied sigh.

“So delicious!”

Seeing how satisfied his wife was, Chi Yang placed the next one into her bowl.

“Big Brother Chi Yang, don’t keep putting food into my bowl. You should eat some too.” After saying that, she placed the tripe that she cooked into Chi Yang’s bowl.

Thus, the two of them kept giving each other food. Anyone who was watching them could barely eat their lunch. Their mouths were stuffed with dog food produced by their onslaught of public display of affection.

It was salty, greasy, and suffocating.

Just as the two were eating, a girl sitting at a table not far away was nearly blinded by the lovey-dovey scene. She could not help but sneak out her phone and take a photo of Chi Yang and Nuannuan.

The sound of the photo being taken was not too loud, therefore, most people did not notice it. However, to Chi Yang and Nuannuan who were mightily observant and attentive, they already figured out what the girl was doing when she walked toward them with her phone.

Chi Yang continued putting food into Nuannuan’s bowl. Only after he was done that he stood up and walked toward the girl who took pictures of them.

The girl had already put her phone away. When she saw Chi Yang walking toward her, her face instantly flooded in a bloody red.

The moment Chi Yang walked to her side, she stood up to bow to him. “I’m sorry, I’m sorry. I didn’t mean to take a photo of you guys. It’s just that you guys look so good, and you’re so nice to each other, so I couldn’t help but take a photo. I’ll delete the photo immediately, and I promise I won’t post it online.”

Chi Yang was a soldier. He was tall, handsome, and mightily magnificent. From afar, his aura was pleasing to the eye, but when he got closer, he gave off an indescribable tenseness.

Therefore, as the girl apologized, tears started welling in her eyes.

However—

“Can you send me the pictures you took earlier?”

“...” The girl was stunned speechless.

The friend beside the girl was equally shocked.

What did this handsome guy say?

He was not here to ask them to delete the pictures. Instead, he was asking for them?

Why did they feel that this imposing and oppressive soldier guy become so adorable all of a sudden?

Seeing that the girl was staring at him blankly and had no intention of giving him anything, Chi Yang looked depressed.

“Can’t I?”

Only then did the girl come back to her senses. She quickly nodded. “Yes, yes! I’ll pass it to you now! May I know how to pass it to you?”

“Send it to my email.”

“Then, what’s your email address?”

After Chi Yang told the girl his email address, the girl immediately sent the photo to him.

Chi Yang could not wait to open his inbox...

### [\*\*My Sweet Physician Wife Calls The Shots\*\*](#)

#### **Chapter 538: More Tragic Than Being Single...**

When he saw Nuannuan smiling so happily in the photo as he fed her, a gentle smile appeared on his face.

After Chi Yang received the photo, he returned to his seat. Nuannuan quickly reached out and snatched Chi Yang’s phone to look at their photo. When she saw the gentleness in Chi Yang’s eyes when he put food into her bowl, she immediately fell in love with the photo and forwarded it to herself. Then, she unlocked her phone and turned the photo into her screensaver.

Chi Yang did not do that. After all, the nature of his job was different—he did not want his enemies to see Nuannuan’s picture and go after her. Therefore, not only did he not set it up as a screensaver, he even placed it inside a secret folder to protect it. When he wanted to see it, he could pull it out anytime.

Meanwhile, the girls at the table who took pictures of Chi Yang and Nuannuan lost their appetite.

Just by looking at the small smile that seeped out from Chi Yang, they were already full—full from their onslaught of public display of affection.

Nuannuan was a heavy and fast eater. Just as they were about to end the battle, someone suddenly descended the stairs.

The moment this person appeared at the staircase, he attracted Chi Yang and Nuannuan’s attention immediately.

This was because this person was none other than Leng Jinpeng, who had single-handedly defeated the military base—the most pitiful commander-in-chief.

“Tsk tsk—”

Leng Jinpeng was also surprised to see Chi Yang and Nuannuan, but what did they mean by directing the “tsk tsk” at him in unison?

Why did he see pity in their eyes?

He felt that ever since he had undergone the surgery, his body had never been better! It did not hurt anymore.

Why were they pitying him?

“What’s with that look on your faces?”

Leng Jinpeng could not take it anymore. He walked over to Chi Yang and Nuannuan and asked.

Chi Yang looked at him with a stern face that was accompanied by pity in his eyes. He did not reply.

On the other hand, Nuannuan could not help but ask, “Uncle Leng, are you eating hotpot alone?”

“Why not?” Hotpot was delicious, and he was alone. Could he not eat hotpot alone?

Zhong Nuannuan shook her head. “It’s not impossible. Uncle Leng, do you know what’s worse than spending Valentine’s Day alone?”

Leng Jinpeng thought, ‘...I don’t want to know.’

“It’s eating hotpot alone! Those who eat hotpot come in groups. Even if they’re not with their lovers, they have to be friends or family. So, if you can’t even find someone to accompany you to eat hotpot, don’t you think it’s worse than spending Valentine’s Day alone?”

“Nuannuan, why are you being so blunt? Don’t talk about that anymore. He won’t be able to stand it,” said Chi Yang from the side, trying to be considerate to Leng Jinpeng.

This ran through Leng Jinpeng’s head. ‘...!!!’

“Uncle Leng, where are you going?”

Seeing Leng Jinpeng leave with his bag, Nuannuan could not help but ask. After all, she felt sorry for Uncle Leng since he was alone.

“I’m going back to the military base, of course! I’m not going to wait for you guys to continue stuffing me with dog food!” He had already refused to accept the dog food from their love.

“Wait, I’ll send you. I’m going back to the military base anyway.”

“No need, you should send Nuannuan.”

If he waited until Chi Yang sent Nuannuan back before returning to the military base, god knows how much dog food would he have to chow on along the way? There was no way he was doing it! He would rather fight!

“Uncle Leng, I’m not going to class in the afternoon, so I decided to stay at the military base. We’re almost done eating. We can leave after paying the bill.”

Therefore, Leng Jinpeng was unwillingly and forcefully dragged into the car.

#### **Chapter 539: Crossed The Line**

Of course, he had the common sense to not sit in the front passenger seat. Instead, he slipped into the back seat gloomily.

In the front seat, Chi Yang was driving with one hand while the other was holding Zhong Nuannuan's hand. From where Leng Jinpeng was sitting, he could see their tightly clasped hands.

"Big Brother Chi Yang, when did you gather so much evidence of Ou Chenghe?" Since Leng Jinpeng was there, Zhong Nuannuan could not continue flirting with Chi Yang. Thus, she changed the topic.

She had collected these pieces of evidence before, but before she could take them out, they had already been tossed out by Chi Yang. While she was impressed by Chi Yang's ability to gather evidence, she was also very happy with what he had done today.

Leng Jinpeng thought, '...Why didn't the two of them talk about this topic before this? It's been so long, what were they up to?'

Suddenly, Leng Jinpeng, who had a sharp nose, detected an indescribable smell.

That smell...

He was simply too familiar with it!

Even though the window had been opened for ventilation during their meal, Leng Jinpeng was pretty sure that he still smelled it.

These two!!!

They crossed the line!

"Just when he knew that you were my fiancée and wanted to get Deputy Commander-in-chief Wang's help to suppress me, I've already sent someone to investigate him. After all, better be safe than sorry. If he could do something so shameless, he would definitely have a few tricks up his sleeve."

"Big Brother Chi Yang, you're amazing," Zhong Nuannuan sighed in sincere admiration.

Chi Yang looked at Zhong Nuannuan as he drove. He rubbed her head and said firmly, "No one can separate us."

Zhong Nuannuan's eyes burned as she nodded vigorously. "Yes."

Leng Jinpeng, "..."

After today's incident, he decided that as long as Chi Yang went out to meet Nuannuan in the future, he would definitely not hitch a ride from him.

\*\*\*

In the afternoon, Zhong Nuannuan cleaned up the dormitory. After that, she spent the entire afternoon dealing with the matters at Sab. It was only when she was about to call Aiden to inform him that she realized that her phone had been switched off since the morning.

Just as she turned on her phone, Zhong Qianqian called.

Looking at the caller ID, Zhong Nuannuan immediately hung up.

A while later, Jiang Shuwan called Zhong Nuannuan as well. Like her previous call, Zhong Nuannuan hung up immediately.

In the end, Zhong Kuijun called. Zhong Nuannuan thought for a moment before answering.

"Hello."

"Nuannuan, it's Dad. I heard that you were taken away by the police this morning. I couldn't get through to you earlier, so I called Chi Yang. He said that you're fine, is that true?"

"Yeah." Zhong Nuannuan only had coldness left in her interaction with Zhong Kuijun. However, since she had not received any replies from Dan Qi, she could not be sure if the cause of her mother's death had anything to do with Zhong Kuijun. Therefore, she would still talk to her biological father for the time being.

"It's good that you're fine. I heard from Chi Yang that it was Ou Mingxi who wanted to kill you. He said that this matter has been resolved. I'd like to know, how did you resolve this matter?"

"Chi Yang found evidence that Ou Mingxi wanted me raped and killed. He also found evidence of Ou Chenghe's unclean business, so Ou Mingxi and Ou Chenghe were both arrested," Zhong Nuannuan only explained what Zhong Kuijun wanted to hear.

"..." Zhong Kuijun, who had wanted to attempt matching Ou Mingxi and Jiang Hongyang again, was rendered speechless.

#### **Chapter 540: Dumbfounded**

"Dad, is there anything else? If not, I'm hanging up."

Zhong Kuijun recovered from his shock. "Oh, then, remember the paternity test that you and your mother did at a hospital previously? The test results are out now. the DNA similarity between you and your mother is 99.99%. This proves that you are your mother's biological daughter.

"Nuannuan, because of what happened before, I know that you have some misunderstandings about your mother. You're even distanced from your father and elder sister because of this. Therefore, in order to resolve the misunderstanding, I used your elder sister's blood and your mother's blood to do four DNA tests at different hospitals."

"The result shows that your elder sister isn't your mother's daughter. I might be able to make one hospital fake that results but I can't make the other four public hospitals fake it now, can I?"

What he meant was that Zhong Qianqian and Jiang Shuwan were not related by blood. How did that translate into Nuannuan related by blood to Jiang Shuwan?

Did he take her for a fool?

She really did not want to ridicule him.

When it came to this family, Zhong Nuannuan had no other thoughts than to destroy them.

Even now, she was still holding it in for two things—firstly, Dan Qi would probably give her an answer tonight regarding Nangong Yu.

The other thing was Zhong Qianqian's wedding.

This was because Nuannuan wanted to present her best wishes and an unforgettable wedding gift at her elder sister's wedding.

"Is there anything else?"

Hearing Zhong Nuannuan's cold voice, Zhong Kuijun's heart skipped a beat. He had a bad feeling about this.

"Tonight, your elder sister is treating us to dinner. I don't know what it is, but she specifically said that she wanted to invite you. Nuannuan, Qianqian is your sister after all. I'd really like it if you two can get along well."

Qianqian had caused Nuannuan's mother's death, invaded her mother's inheritance, and made Nuannuan donate her bone marrow to Zhong Qianqian when she was two and a half years old. She abandoned her when she was three years old and still wanted her to get along well with Zhong Qianqian?

Seriously...

It was nice enough of Nuannuan to not kill Qianqian. Qianqian should be counting her stars to be able to continue living for a few days, okay?

After Zhong Kuijun finished speaking, Zhong Nuannuan hung up the phone.

Speechless, Zhong Kuijun listened to the beeping sound on the other end of the phone.

Jiang Shuwan sneered at him. "Haven't you always thought that Zhong Nuannuan is better than Qianqian? That she's more sensible than Qianqian? Tsk, tsk. If that's the case, aren't Qianqian considered a goddess already? I'll be frank with you—even if Zhong Nuannuan rises into the sky with Chi Yang in the future, she'd still be a chicken that became a phoenix. It'd still be none of your business."

Zhong Nuannuan had never embarrassed Zhong Kuijun like this before. This was the first time she had spoken to him so coldly. However, at this moment, Zhong Kuijun could not get angry.

His sixth sense was getting stronger, and he felt like something big was about to happen.

"Shut up!"

Zhong Kuijun snapped at her, and Jiang Shuwan was scared.

"Dad, why are you shouting at Mom again?"

Zhong Qianqian and Gu Mingzhe held hands and walked into the ward lovingly.

"Qianqian, Mingzhe, you're here!"

Jiang Shuwan was the happiest when she saw her daughter.

She was especially happy to see her daughter and Gu Mingzhe walking hand in hand.

Jiang Shuwan had always been confident that her daughter was the only one who could be successful; that she would rise up among the ranks and become the phoenix.

“Auntie, these are the nutritional supplements I bought for you.”

Gu Mingzhe placed a pile of things on the table.

Jiang Shuwan beamed with happiness so much that her eyes transformed into a thin line as she smiled.
