Chapter 691: Sunny

Zhong Nuannuan would give Old Master Chi a blissful retirement life.

Leng Jinpeng looked at the family reunion and felt both envious and dismal.

“Heh, heh, heh, I just want to ask about Nuannuan’s real identity. Why do all of you look so eager to turn against me? Nuannuan’s a good kid. I believe she’s not what you think of her.”

Chi Yang’s nostrils flared.

“What we think of her? What do we think of her?”

Leng Jinpeng, “...”

“Lil Leng, your choice in words seems to be eluding you more and more,” the old master said unhappily.

Leng Jinpeng, ‘...I don’t think I can continue questioning her.’

Zhong Nuannuan was amused by Chi Yang, her grandfather, and Uncle Leng.

“Big Brother Chi Yang, Grandpa, Uncle Leng, to be honest, I’m not a child who returned from the farming district to look for my parents in the city.”

With that one sentence, Chi Yang’s heart was already in his throat. He grabbed Nuannuan’s hand and held it tightly; his eyes were filled with worry and heartache. He was afraid that he would hear something that he was most unwilling to hear.

Looking at Big Brother Chi Yang’s worried and sad eyes, Zhong Nuannuan’s heart turned as soft as jelly.

She wondered why Big Brother Chi Yang would give her the gun. It seemed like he had suspicions about her for a long time.

As expected, she was used to living an unrestrained life. When she was assuming the role as Q of Spades and the sniper on the plane, she regretted it. She should have endured the pain and shrunk her bones.

However, there was nothing else she could do now that they found out.

She knew this day would come, so when she was about to leave the organization at the age of 12, she had already started to clear her name.

“Nuannuan...”

Seeing that Zhong Nuannuan was about to continue, Chi Yang was so scared that he did not dare to listen.

Zhong Nuannuan smiled and extended another hand to touch Chi Yang’s hand that was holding hers tightly.

“I am Duke Eton’s youngest daughter. My name is Sunny.”

“What?”

To be honest, Leng Jinpeng expected this answer. The only ones who were shocked were Chi Yang and the old master.

Chi Yang was probably the most shocked.

Since the moment he suspected Nuannuan’s identity, Chi Yang had expected his dear Nuannuan to be some sort of killer or mercenary. Otherwise, she would not have such powerful skills and a strong aura.

Yet, what did his Nuannuan say?

She was actually Duke Eton’s daughter?

She was someone whose status was second only to the princess of Luntan?

“Nuannuan, you...”

Seeing that Chi Yang was still in a confused state of bliss, Zhong Nuannuan continued, “Big Brother Chi Yang, I’m sorry. Actually, I wanted to tell you this before, but you never gave me the chance to tell you the truth. The last time I told you that I already knew about my parentage, I even prompted you about it. Why didn’t you ask me how I found out? You said that it was something that could be easily understood by investigating, so I ended the topic.”

Chi Yang looked at Nuannuan and asked in all seriousness, “Are you really Duke Eton’s daughter?”

“Of course. How can this be fake? My name and picture are both hung in the palace of Luntan.”

Chi Yang, “...!!!”

“Then, why is it written on your details that you came from a farming district? Our country and Luntan are on rather friendly terms. If you’re Duke Eton’s daughter, you’ll receive a lot of special treatment in our country, especially if you marry Chi Yang with this status of yours. Although it’ll be a little troublesome to go through the interview due to international relations, it’s still a good thing for both you and Chi Yang,” Leng Jinpeng finally asked the question that he kept in his heart.

Chapter 692: Too Many Questions

“I understand.”

Before Nuannuan could speak, Chi Yang spoke.

“Chi Yang, I want to hear from Nuannuan,” Leng Jinpeng said.

Nuannuan nodded at Chi Yang and responded, “I was abducted when I was 3 years old and returned home when I was 17 years old. There was a 14-year interval. Although I also wanted to return home and find my real family, I’d been separated from them for too long.

“Due to my identity, many people in the Luntan approached me, so I ordered people to fake my identity. I was afraid that my parents would also turn out to be one of them who cared not about my existence but only approached me because of my identity.”

Zhong Nuannuan glanced at Chi Yang. "It's just that I didn't expect Big Brother Chi Yang to suddenly make a marriage report at the military base, and my father unilaterally agreed on my behalf."

Leng Jinpeng interrupted. "If that's really the case, then it's not your fault. Chi Yang's marriage report was indeed done without your knowledge and Zhong Kuijun's."

Zhong Nuannuan nodded.

"You can contact the palace through the Luntan embassy. My identity is public, so it'll be easy to find out. My father already knows what's going on with me, so he plans to make a trip to Camino soon. When the time comes, he'll contact the Ministry of Foreign Affairs."

Then, Zhong Nuannuan wrote down a number that she could not be more familiar with.

"This is my dad's private number. If Uncle Leng is in a hurry to gain confirmation, you can call him directly."

Leng Jinpeng held the string of numbers in his hand with complex emotions surging within him.

He did not expect that the girl, whose news was spread all over the military base that she returned from the farming district, would have such a noble identity.

Zhong Kuijun and Jiang Shuwan would probably regret it when they found out Nuannuan's real identity, right?

"Okay, I'll call him tonight."

"Alright." Zhong Nuannuan nodded.

"One more question."

"Why do you have so many questions?" Chi Yang was unhappy.

Leng Jinpeng choked on Chi Yang's retort. Looking at Chi Yang's protective behavior, he was inexplicably fed another mouthful of dog chow.

His heart ached for himself.

"It's fine, Uncle Leng. Go ahead and ask."

"Since you're a member of the royal family and the duke's daughter, then... Why are you and Selina so good in combat? Also, since you're Selina's sister, why did she call you Boss?"

Zhong Nuannuan smiled and asked, "Is Selina considered good in combat?"

Leng Jinpeng, "...!!!"

"Selina and I were both from the orphanage before our father took us away. We were still young then, and we were often bullied at the orphanage. Even though I was three years younger than Selina, I was always the one who took revenge for her whenever she was bullied, so she called me Boss. Even after our father adopted us and made us the noblest ladies after the princess, she still called me Boss."

"I see." Leng Jinpeng nodded.

“As for martial arts, my father is a man who values martial arts. He is very skilled himself, so he never has a bodyguard with him. He has taught us since we were young that the person who can protect us the most is ourselves.

“His wife and two daughters were assassinated, so he asked us to hone our skills properly and protect ourselves. After bringing Selina and me home, he paid a high price to hire two mercenaries from the top 10 among the Rank-3S of the world to train us relentlessly.”

Chapter 693: Chi Yang's Kiss

“However... I told Uncle Leng that I have a photographic memory, so I can memorize and use every move that has been used in front of me. Therefore, by the time I reached 15 years old, both of them were no match for me.”

Leng Jinpeng, “...!!!”

Old Master, ‘... As expected of my granddaughter-in-law!!!’

“Of course. My Nuannuan is so amazing, how could they possibly beat you?” After knowing the truth about Nuannuan’s identity, he felt relaxed and proud.

His Nuannuan was indeed unique.

Leng Jinpeng was relieved as well. Not only was he relieved about Nuannuan, but he was also relieved that his silly son and Selina were... playing together.

He believed that Zhong Nuannuan would not tell them something that was not true. After all, even if she did, she might be exposed within a day.

Therefore, Leng Jinpeng, Chi Yang, and Old Master Chi were all relieved. Especially Chi Yang. At this moment, he felt that he finally saw the gold at the end of the rainbow, especially after bearing with the uncertainty for so long!

“Then... Do you know Q of Spades?”

After thinking for a long time, Leng Jinpeng could not help but ask this question.

This question was undoubtedly challenging Chi Yang’s bottom line.

“Why are you asking Nuannuan who Q of Spades is?”

Seeing how protective Chi Yang was, Leng Jinpeng was even more certain of his guess.

Whether it was when the Viper’s nest was blown; when Q of Spades lured Viper out to apologize to Chi Yang; or later when Viper and his subordinates were massacred at the harbor, these were all related to Chi Yang.

Therefore, Leng Jinpeng really wanted to know if this person knew Nuannuan. After all, the killing methods utilized were too superb, stirring up the idea of cherishing a hero from another hero in him.

“Nuannuan, if you know, can you tell Uncle Leng? Those people deserved to die, I promise. Even if all of them died, they deserved it and I won’t pursue this matter further. I’m just curious! I won’t tell anyone!”

Chi Yang said coldly, “Curiosity kills the cat.”

Leng Jinpeng, “...!!!”

“I am Q of Spades.”

“What?” Leng Jinpeng roared.

Even Chi Yang was shocked.

He sort of guessed it, but when Nuannuan admitted it so blatantly, he was still extremely shocked.

“Uncle Leng, you’ve already promised me that you’ll keep it a secret and not pursue the matter. Then, you must keep your promise!”

Before Leng Jinpeng could say anything, the old master patted his chest and said, “Don’t worry, I’m here! Grandpa will supervise him!”

Leng Jinpeng, “...!!!”

It felt like his dog chow had received an upgrade!

The whole family was now in on it to torture him.

“Nuannuan, you’re really Q of Spades?”

“Yes.” Since Big Brother Chi Yang had started to suspect her, there was nothing else for Zhong Nuannuan to do other than admitting it.

“Then...”

Knowing what he wanted to ask, Zhong Nuannuan admitted, “I was also the one on the plane.”

Chi Yang, ‘...!!! As expected!!!’

“What plane?”

Leng Jinpeng was a little confused and could not understand what they were saying. However, no one answered him as Chi Yang had already bent down and kissed Zhong Nuannuan deeply.

It was the kind of sentimental kiss that went down into the bones.

Chi Yang’s intense love for Nuannuan was pouring out from this kiss.

His love was integrated into this kiss, fully expressing Chi Yang’s appreciation for Nuannuan.

‘Since you won’t allow me to thank you, I’ll thank you with this kiss instead!’

Nuannuan did not expect Chi Yang to kiss her in front of Old Master and Uncle Leng. Without allowing her any mental preparation, Chi Yang kissed her deeply. Soon, she found herself unable to stand it anymore.

To be honest, she still did not know how to breathe during a kiss. Big Brother Chi Yang would call her an idiot, but...

Every time Big Brother Chi Yang kissed her, she would feel her whole body go limp as if all her energy had been sucked out. She did not even have the strength to breathe. How was she supposed to change breaths...

Feeling the little girl in his arms go limp as her breaths got shorter and shorter, Chi Yang felt helpless. He placed her head on his chest and wrapped his arms around her shoulders. Letting her lean against him, he said softly, "Breathe, silly."

Only when she heard Big Brother Chi Yang's voice did Zhong Nuannuan snap out of her daze. She took a deep breath and regained her senses.

When she opened her eyes, all she could see was a pair of dark and impenetrable eyes. Zhong Nuannuan felt that these were the most beautiful eyes in the world.

There was a deep, serene, yet vast ocean contained within these eyes. At the same time, these eyes held the universe's brightest stars.

When she saw those intense eyes, Zhong Nuannuan felt as if she had been completely drawn into them.

In the eyes of others, even the old master and Leng Jinpeng thought that this girl was really adorable in her dorkiness, what more Chi Yang.

She had super good looks and skills bordering on a magical level. Yet, she displayed such a cute, dorky expression.

It was no wonder that a supremely arrogant man like Chi Yang would love her so much.

These two were a perfect match!

However...

They seemed to be talking about a case, so how in the world did they manage to stuff more dog chow into everyone else's mouths?

Leng Jinpeng suddenly thought of a photo that had won an award on news photography. It was a photo of an albatross that died on the street. After cutting its stomach open, they realized that it was full of plastic inside. There was even a cutter blade.

He thought that if he suddenly died one day, when someone dissected his stomach, they would realize that he did not die from cirrhosis, but stuffed to death by all those undigested dog chow.

It was apparent that Chi Yang had no intentions to tell Leng Jinpeng about what happened to Nuannuan overseas.

For some reason, he still felt that there was something off with what Nuannuan said, so he did not want Leng Jinpeng to know too much about her.

Nuannuan finally regained her senses. When she saw the awkward looks on her grandfather-in-law's and Uncle Leng's faces, she realized what she and Chi Yang did in front of the elders. Her face instantly burned in a bright redness, and she pouted. She felt too ashamed to face anyone.

Seeing that his wife's collagen-filled face was now as red as a ripe red apple, Chi Yang could not bear to see her so ashamed. He extended his gentle, big hand, and covered Zhong Nuannuan's back of her head. Then, that big hand pushed her into a broad and thick chest.

Then...

She realized that she could not see her grandfather and Uncle Leng's faces anymore.

Perfect!

"Don't keep staring at Nuannuan, you should look at me too!" Chi Yang said it like it was the most righteous thing to do in the world.

Old Master, "..."

Leng Jinpeng, "..."

Zhong Nuannuan, "...!!!"

"Come, come, come! Let's eat! Let's eat!" The old master changed the topic. His grandson's EQ was close to zero, and nobody could afford to offend him. If anyone laughed at him, it would hurt Chi Yang's pride instead.

"Let's."

Leng Jinpeng, who had not eaten a single bite all night, finally started to eat the leftovers heartily. He decided not to be an albatross who only had dog chow in his stomach after death.

Chapter 695: You Are Feeding A Pig

Seeing that no one was looking at his Nuannuan anymore, Chi Yang released her from his embrace. Like an old hen protecting a chick, he tidied up his little wife's clothes and her collar, then he smoothed out her furry hat. Afterward, he picked up some food for Nuannuan. "I noticed that you like this. Eat more. You like this too, right? Eat more of this. Do you need me to get you another cup of yogurt?"

"Rascal, what do you take Nuannuan for? How many times have you fed her food in one night? Nuannuan loves you. She's kind and honest, so she ate everything that you fed her. Yet, you keep giving her food. How are you so thoughtless? Do you think you're feeding a pig?"

Chi Yang, who was feeding the pig—eh, no—feeding Nuannuan, "..."

Nuannuan, who was enjoying her food, "..."

"Pfft—"

Leng Jinpeng, who finally decided to gulp down some delicious food, could not help but burst out laughing.

“Hahahahaha!”

With the Old Master around, even chowing on dog food seemed rather entertaining!

Chi Yang kept his dogs and pigs fed. This farm owner was doing swell.

“Why are all of you laughing?” The old master realized that something was wrong.

Nuannuan rubbed her still empty stomach and looked at the table full of delicious food. She said earnestly, “Grandpa, actually, my appetite... is a little big. I’m not full yet.”

Old Master, “...!!!”

After a long silence, the old master suddenly laughed. “Hahahaha! Oh, dear. Look at how old and muddled Grandpa is. I forgot that you’ve already fought two rounds since you came here from the street selling antiques. You’ve expended so much energy, so of course, you must eat more. Little Girl Nuan, you like this, right? Come, come, come, let’s put that in front of you.”

Seeing her grandfather-in-law transfer the plate of food Uncle Leng was taking from to her, Nuannuan quickly waved her hands. “There’s no need. There’s no need. Grandpa, you don’t have to trouble yourself to move the food for me. I can wait for the food to get passed over to this side. I’m not a picky eater.”

“But you like this. Eat more since you like it.”

Chi Yang agreed with the old master. “That’s right, eat more if you like it. Grandpa has already brought it over, so you should accept his goodwill.”

“Okay. Thank you, Grandpa.” Then, Zhong Nuannuan picked up a huge chunk of food with her chopsticks and put it into her bowl.

“...” Looking at the harmonious family, Leng Jinpeng, who was in the middle of picking up food from the same plate before it was taken away by the old master and brought it to Nuannuan, went speechless.

Leng Jinpeng suddenly thought of something.

If there was nothing fishy with Selina’s identity, there was no need for him to stop his silly son from getting involved with Selina. It was obvious that, although his silly son kept calling Selina Tyrannosaurus Rex, he actually liked the girl.

However, what about Selina?

Did she like Lil Rui?

When compared to each other, the difference between Lil Rui and Aiden was truly... vast!

Selina and Aiden were not biological siblings. If something was going on between them, Leng Jinpeng must make sure his son did not sink himself too far in.

“Oh yes, Nuannuan, let me ask you something.”

“Can’t you let her eat properly?” Chi Yang and the old man shouted in unison.

Leng Jinpeng, "...!!!"

What did he do?

"Lil Leng, no matter how many questions you have left, can you let Nuannuan eat first? Why do you insist on chatting while she's eating? If our Nuannuan gets indigestion, I'll ask you to take responsibility!"

Leng Jinpeng, "..."

Under everyone's gaze, Zhong Nuannuan withstood the pressure and proved to the group of men what it meant to be a glutton.

She...

Actually cleaned up all twenty dishes on the table.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 696: Several Catties

Yes, even though eight other bodyguards sat down and ate from these twenty-plus dishes beforehand.

However, everyone did not eat much, so they left plenty of the dishes barely touched when they were full.

However, now, they could see the bottom of all the dishes on the table.

Even Chi Yang, who had always known that Nuannuan had a huge appetite, was shocked.

His Nuannuan...

Did she just eat something that weighed several catties?

"Nuannuan, aren't you full?"

After Nuannuan finished the last mouthful of soup, Chi Yang could not help but ask.

Nuannuan burped and opened her eyes wide, looking very satisfied from being full. She giggled and said, "It's alright!"

After eating so much, she actually said she was alright...

Chi Yang felt as if he had never known the limit to Nuannuan's stomach capacity.

Seeing that Nuannuan had finished eating, Leng Jinpeng asked, "Nuannuan, what's Selina's relationship with Aiden?"

"Siblings," Nuannuan answered without even thinking. After all, Aiden and Selina lived together, and Dan Qi would be coming over in the next two days too. There was no hiding of this matter.

However—

"You know Aiden?"

Zhong Nuannuan, "..."

Oh, right. How could she have forgotten that when she had just gotten together with Big Brother Chi Yang, Big Brother Chi Yang told her to stay far away from Aiden? He even said that even if Aiden was not the leader of some criminal organization, he was still an opportunist!

Nuannuan suddenly smiled at Chi Yang. This smile was no different from her usual smile, but it made Chi Yang's hair stand on end...

"That's right. Aiden and the other three friends were people who Selina and I depended on at the orphanage. Later, when Selina and I were adopted, we convinced Dad to raise Aiden and the other three. Although we're not related by blood, we're closer than real brothers and sisters."

Chi Yang, "..."

"That's what Selina said. Then... Are Selina and Aiden in a relationship?"

"Uncle Leng, I've already said that we treat each other like the best siblings, so you don't have to worry about Aiden and Selina. Even if they're the only ones left on Earth, no sparks of love would come between those two."

"Why?" Leng Jinpeng was puzzled. "I think Aiden is very outstanding!"

"They are outstanding... but not all outstanding people will get together."

Leng Jinpeng was still puzzled. Why did he feel that Aiden and Selina were unbelievably compatible?

Seeing that Leng Jinpeng was still worried, Zhong Nuannuan clarified, "Uncle Leng, I know that Selina has been getting closer to Leng Qirui recently. Don't worry, although Selina is a cheerful person, she's not the kind of girl who casually hooks up with boys. Also, it's impossible for Selina and Aiden to get together. The possibility of Aiden getting together with Leng Qirui is far greater than Aiden getting together with Selina."

Leng Jinpeng, "...-_-||"

What kind of analogy was that?

What Leng Jinpeng did not know was that the outstanding Aiden he admired was a fickle man who would sacrifice everything for the sake of his games. At this moment, that fickle man was trying his best to bend the Almighty's sexual preference.

Aiden and Selina were both people who reached the pinnacle of their lives, with the exception of being immortalized as the nouveau riche noobs in games.

Just so they could push lanes and destroy towers with the Almighty, they could instantly become enemies.

Therefore...

In Zhong Nuannuan's mind, it was already good enough that the two of them did not become enemies. How could they have gotten together?

[My Sweet Physician Wife Calls The Shots](#)

Chapter 697: Amassing Wealth

Leng Jinpeng did not quite understand, but he procured a basic understanding.

At that moment, he felt that it would be great if his son could find a girl like Selina as his girlfriend.

At least there would be assurance on his life.

As for being beaten up by Selina...

In Commander Leng's mind, every man should get beaten up in their life. Was it not actually a blessing to have someone who cared about you beat you up?

"Then, tell me this. Aiden is the vice president of Tianheng Holdings. What about the president? Who is the president of this company?"

Ever since he found out that Aiden was one of his wife's partners, Chi Yang's heart had been pounding.

He recalled his wife's domineering look when she was in B City of Mustapha. When he recalled how a man with a similar build as Aiden following behind her, his heart started pounding faster.

He only hoped that it was not what he thought.

If that was the case, would he not be begging for her forgiveness as he kneeled on the washboard tonight?

However, things usually developed in the direction that one feared the most.

Nuannuan smiled politely, exuding a different kind of emotion in her smile. Then, a word popped up—"Me."

Leng Jinpeng, "..."

Old Master, "..."

Chi Yang, "...!!!"

Tianheng Holdings could be said to possess a very famous existence across the country. At the same time, it was also a major taxpayer for foreign companies in Camino. It was the leading industry in Camino that pulled up the local GDP.

The president of Tianheng Holdings had always been a mystery to the outside world because they never showed up. No matter which country's high-ranking officials requested to meet the president, it would always be Aiden who showed up.

Those who wanted to find out more about the president even hired hackers to break into Tianheng's internal network to get information, but none of them managed to hack into Tianheng's internal network.

Meanwhile, this famous president of Tianheng Holdings sat right there in flesh and blood. Even though the old master and Leng Jinpeng were used to seeing all kinds of things, they were still shocked when they heard that Nuannuan was Tianheng's president.

"Is this the dowry that Duke Eton gave you?"

After all, Duke Eton was not only the most powerful noble in Luntan—second only to the Queen and the Crown Prince—he was also the richest businessman in Luntan. Therefore, Leng Jinpeng thought about it and felt that it made sense.

“My friends and I started this company. It has nothing to do with him.”

Leng Jinpeng’s mouth twitched. “Just how old are you?”

“Seventeen!”

“I know you’re seventeen, but the problem is that you’re only seventeen now. Tianheng Holdings appeared five years ago. Did you start a business when you were twelve?”

Leng Jinpeng could not help but curse silently. He felt that this must have been founded by Aiden and his friends who were older than her. It must be because of her noble status that they let her be the president.

Yes, that must be it. Otherwise, he felt that his silly son would look like dregs in comparison.

“I started my business when I was 12 years old. To be more precise, I started to earn money when I was 10 years old. It was only when I was 12 years old that I used the wealth I amassed to start a business. Then, my friends started to manage it together.”

Other than Chi Yang, Leng Jinpeng and the old master were both shocked.

“Amass wealth? How do you amass that kind of wealth? What is the nature of this wealth that can be so easily amassed?”

Leng Jinpeng’s shock had already transformed into infuriation. His initial routine questioning had turned into uncontrollable gossip.

“I borrowed my father’s money to venture into buying mines or excavate jade from the riverbed!”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 698: Smug

“Then, I paid him back double. My father made a lot of money from this interest. He loves it when I borrow his money. However, I haven’t been borrowing money from him since I was 11.”

Leng Jinpeng’s mouth twitched again. “Buy mines? Dig up riverbeds?”

What kind of joke was this about getting rich?

“Is a mine that easy to buy? Is the riverbed that easy to dig? You even paid him back in double... Aren’t you afraid of suffering too many losses that you lose your life?”

Zhong Nuannuan nodded. “It’s easy to buy and dig! Reality has proven that I didn’t suffer any losses. I even made a huge profit.”

After hearing Nuannuan’s words, the old master, who was initially shocked, also accepted that as fact.

Chi Yang was not surprised because he knew that Nuannuan had X-ray vision. As long as she activated her power, no matter if it was the raw stones, the mines, or the riverbed, as long as there was jade, nothing could escape his Nuannuan's mighty eyes.

When Old Master Chi witnessed Nuannuan's special ability to identify jades, he had already been blown away once. Therefore, when Nuannuan said that she made her fortune through mines and riverbeds, he thought that was reasonable.

Only Leng Jinpeng, who knew nothing, was upset when he heard Nuannuan said it so blatantly.

"But... don't even talk about buying a mine or digging a riverbed to earn jade. Even if someone else mined the raw stones and placed them there for stone-gambling, they'd lose nine out of ten. How can you rely on this to make a fortune?" He really could not comprehend this no matter how he thought about it!

"Why do you have so many questions? To be able to rely on these to make a fortune is Nuannuan's ability. If this ability is revealed to you, you'll quit your job as the commander-in-chief and go mining. Wouldn't we lose a talented man?"

Chi Yang's words triggered a glare from Leng Jinpeng to glare.

"It's already good enough that I'm not stuffed to death by the dog food that you so blatantly throw at me. What about going mining? Can't I simply be curious?"

Chi Yang was about to speak when Leng Jinpeng interrupted him. "Fine, you don't have to tell me. Curiosity kills the cat, right?"

Zhong Nuannuan laughed at their comical love-hate interaction.

Initially, be it Big Brother Chi Yang or Uncle Leng, they were both very solemn people. However, when they got together like this, they would always start fighting, and the content of their argument was especially childish.

Seeing that his grandson managed to bully the single Leng Jinpeng into deformation, the old master said, "Nuannuan has a very powerful appraisal ability when it comes to finding jade. Today, she even got me a rare imperial jade from Soaring Clouds Pavilion on the antique street here. Nuannuan also gambled on another 14 stones. She said she'll donate the proceeds from auctioning the jade off to the military base."

"Imperial jade? Very rare? How rare is it?" He was also a fan of jade, so when he heard that it was a rare imperial jade, his interest was piqued.

"That's right!" Old Master Chi knew Leng Jinpeng's hobby, so he immediately held his hand. "Come, come, let me show you the imperial jade that my granddaughter-in-law gave me. I promise you've never seen anything so rare."

When the old master got someone to open the car boot, a flash of moist green bounced into Leng Jinpeng's eyes.

"This... This big?"

Leng Jinpeng was stunned. He found himself unable to let go of the imperial jade that weighed more than ten kilograms.

This imperial jade was not in the best color he had ever seen, but this was the biggest he had ever seen.

This thing would look great even if it was placed at home to bless the place.

“How is it? Isn’t it pretty?” The old master was extremely smug.

“This imperial jade should weigh at least 10 kilograms, right?”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 699: Alzheimers

“We’ve measured it. It’s 11 kg.”

Damn! 22 catties of imperial jade!!!

“Nuannuan picked this one for you from among the raw stones?”

“That’s right, it’s the raw stone from Soaring Clouds Pavilion. Originally, this stone was sold for ten thousand bucks per kilogram. In the end, Ling Pinyuan from your military base wanted to fight Nuannuan for Chi Yang. She even asked Nuannuan to choose the raw stones. If any of the raw stones contained jade, she would give it to Nuannuan for twenty million bucks. The raw stones were also given to Nuannuan for free. In the end, Nuannuan found imperial jade on her first try. Eventually, not only did she take the imperial jade, she also took the check for twenty million bucks. Isn’t my granddaughter-in-law impressive?”

Amazing, amazing! Simply amazing!

Leng Jinpeng was not being sarcastic. It was nothing but the truth in Leng Jinpeng’s heart.

He turned around to look at the flirting couple behind him and Nuannuan who was currently busy lecturing Chi Yang. Leng Jinpeng could not help but say, “Little Girl Nuan, since you and Uncle Leng are so close, why don’t you accompany me to pick a few more tomorrow?”

Initially, Chi Yang hated Leng Jinpeng being a third wheel. However, in the face of his fierce wife, he welcomed any form of disturbance.

She was about to reason things out with Big Brother Chi Yang and ask him if he insisted that she was involved in some criminal organization. Then, as she was about to ask Chi Yang if he thought she was an opportunist businesswoman who laundered money when she heard Leng Jinpeng shouting.

Zhong Nuannuan turned around and said, “Uncle Leng, aren’t there still so many raw stones in this car? You can pick any one. I’ll give it to you.”

Leng Jinpeng’s mouth twitched. “You’ve already gotten an imperial jade out of these. You can’t be thinking that there will be more jade here, can you? It’s hard to say if there’s any jade in the entire Soaring Clouds Pavilion anymore, let alone you and your pile of rocks here.”

“I don’t know if there are any more in Soaring Clouds Pavilion, but there are definitely some here. I’ve picked the ones with good quality. You can choose any one of them and see how lucky you are.”

Leng Jinpeng, "... Are these considered good quality? Do you really think picking raw stones is like picking cabbage?"

"Little Girl Nuan has already said that she wants to give you one. Hurry up and pick one! Let's see what kind of jade you get!" the old master urged excitedly.

"Old Commander, you have a basic appreciation for raw stones. Look at the color, and look at these stones. Are there black spots on them? There are no signs of black spots. They look like normal stones. How am I supposed to pick them?"

"Tsk, tsk. Someone like you dares to boast about appraising? She spent three minutes to pick out these raw stones. She can even make money from mines and riverbeds. How can you lose out on these raw stones? Hurry up and pick one. I suggest you pick the biggest one."

Regarding Nuannuan's ability, the old master's blind faith had turned into blind admiration.

The old master had already abandoned all the methods he used to appraise the raw stones. To him, as long as it was Nuannuan who chose it, he could just pick a bigger one from among her choices.

Seeing that Leng Jinpeng was still browsing about, the old master started getting anxious. "Why are you still choosing? I'm telling you, just pick the biggest one. There's a lot of content, so it's worth it! Nuannuan has already done you a favor, so it will be a waste if you don't want it. Come, come, I'll decide for you. Let's take this."

Then, under Leng Jinpeng's despairing gaze, the old master had the bodyguards move the raw stone down and close the door.

Leng Jinpeng, "..."

Since when the bigger the size the better in choosing raw stones?

Could the Old Marshal have Alzheimer's?

Chapter 700: Yes, Yes, Yes!

However, Leng Jinpeng did not dare to say it out loud in spite of his suspicion.

Although he felt that there was a 0.01% chance of getting a piece of raw stone that contained jade, he thought he should get it cut for the time being since it was given to him by Nuannuan and chosen by the old marshal. What if he actually obtained something even though the chances were slim?

"Nuannuan, are you really going to auction the raw stones three days later? These raw stones are of average quality. Will the auction accept them?"

Zhong Nuannuan had been so distracted that she had forgotten to argue with her Big Brother Chi Yang. However, even if she did, she could not bear to be angry with him. After all, Big Brother Chi Yang was so excellent...

"Uncle Leng, I'll be auctioning jade, not raw stones. What reason do they have to refuse?"

"You're that sure that there is jade inside?" Leng Jinpeng still did not believe her.

“Uncle Leng, have you heard of the Phoenix Pavilion?”

“Of course! That’s the world’s biggest jeweler. If this family were to claim second place, no one would dare claim first place,” Leng Jinpeng replied.

After all, this was common knowledge. Even though he was a soldier, he was also a young master from a second-tier wealthy family, so he was naturally well-versed in these.

Suddenly, Leng Jinpeng remembered that Phoenix Pavilion only appeared five or six years ago in a blast. Thinking of Tianheng Holdings, his eyes widened.

At the same time, Chi Yang and the old master’s eyes started to widen too.

“Phoenix Pavilion is yours too?” Chi Yang asked.

Zhong Nuannuan blinked and nodded. Then, she turned to Leng Jinpeng and said, “I got these from betting on stones, mountains, and riverbeds.”

Leng Jinpeng, “...!!!”

“If Uncle Leng doesn’t like that stone, then give it back to me. When I’m free, I’ll go to the antique street in Emperor District and I’ll pick one for you.”

“Yes, yes, yes! I want it!”

Leng Jinpeng hurriedly wrapped the raw stone in his arms. He was still fearful that Zhong Nuannuan would take it back and felt that it was not safe enough. Therefore, he simply kept it in his car boot.

Chi Yang looked at Leng Jinpeng’s demeanor. Although Chi Yang despised the way Leng Jinpeng acted, Chi Yang was touched.

That was because whether Nuannuan gave Chi Yang’s grandfather the imperial jade or Leng Jinpeng the raw stone, they were proof that his Nuannuan loved him.

At this thought, looking at the slightly upturned corners of Nuannuan’s lips, Chi Yang could not help himself but bend down and planted a kiss on her collagen-filled cheek.

Nuannuan was confused by the kiss that came from nowhere. She questioned him with her eyes, asking why he suddenly kissed her, but Chi Yang whispered into her ear, “You won’t allow me to say thank you. In the future, I will replace all my thank-yous with kisses.”

Nuannuan, “...”

Brilliant!

She loved being kissed!

“Uncle Leng, do you want more? I can give you another one.”

Leng Jinpeng, ‘...?! What the hell?’

Chi Yang, ‘... Is it really okay for my wife to squander so much for a kiss?’

Looking at Leng Jinpeng, Chi Yang revealed a rare smile. Leng Jinpeng, who was about to say something, was stunned and quickly shook his head. “No, no. If there’s no jade inside this one, you can accompany Uncle Leng to pick another one soon. Then, you can teach me the ways to pick raw stones.”

“If you reveal the secrets to your disciple, the master will starve to death. If there’s nothing in the raw stone, Nuannuan can give you another one.”

His wife was his precious, and he was not going to share his precious with anyone else that easily.

The old master chuckled as he watched the interactions between these ‘youngsters’. He also took the time to send a message to Emperor District, removing Nuannuan’s status of having a mysterious identity.
