

The Physicist Wife Who Overturned The World –

Chapter 19: Want to Become Stronger

Xue Fanxin left Li Yaoyao's residence and waited for a while. When she saw Xue Batian walk over, she went to greet him. "Grandpa, if Li Yaoyao causes trouble again in the future, just don't worry about her. She's ambitious and scheming. She always wants to plot against others and climb up the ranks. She won't really seek death."

"Little Xin'er, you've grown up and become smarter. I'm really happy." Although Xue Batian was not too happy about Li Yaoyao, he was overjoyed at the thought of his granddaughter becoming smarter. As long as his biological granddaughter was okay, nothing else mattered.

"Grandfather, do you want me to become smarter?" Xue Fanxin clung onto Xue Batian's arm and said cutely.

"Little girl, what are you thinking of again?"

"How could I? Grandpa, I want to learn medicine. Can you get someone to find a few medical books for me to read? It's best if they have detailed records of medicinal herbs."

She had come into contact with medicine in the modern world. She had been involved in both traditional Chinese and western medicine. In terms of traditional Chinese medicine, she knew quite a few herbs. However, the herbs here were different from those in the modern world. She had to get to know and understand them again.

2

When she saw how powerful Ye Jiushang was, she had an intense desire to become stronger. And for that, given her current situation, it was best to start with the domain she was most skilled in.

Of course, she had to understand this world first. Otherwise, everything was just a dream.

"So my Little Xin'er wants to learn medicine! Not bad, not bad. You're just like your father. In order to learn medicine, he collected quite a few medical books. They're still in his study now. If you want to read them, just go get them yourself." Xue Batian stroked Xue Fanxin's head. He liked his granddaughter more and more.

His granddaughter had not only become sensible, but she had also improved. Although medical skills were not easy to learn, it was enough as long as Little Xin'er enjoyed it.

"Thank you, Grandpa. I slept for the entire day. I can't sleep now. I'll go to the study to read." Xue Fanxin smiled brightly at Xue Batian, then quickly ran towards the study. After running a few steps, she circled around and gave the person behind her a flying kiss. Her energy made people feel at ease just looking at her.

Yi Tian stood in the corner and watched Xue Fanxin run towards the study happily. Her innocence and freshness were deeply ingrained in his heart.

1

Why hadn't he noticed such a beautiful side to Xue Fanxin in the past?

Perhaps his gaze had always been on Li Yaoyao in the past, and he had never paid attention to her. That was why he had never noticed her goodness and beauty.

Fanxin, I've been wrong for two years. I won't be wrong again. I hope there's still time.

4

However, Yi Tian did not know that after he had missed two years, it was already too late.

The current Xue Fanxin did not care about Yi Tian at all. After leaving Li Yaoyao's room, she had thrown this person to the back of her mind. At this moment, she was flipping through medical books in the study and quickly using them to enrich herself.

After reading for an entire night, she finally had a basic understanding of the world.

This was a world where the strong were respected. Whoever had the biggest fist was the true ruler. If one wanted to become stronger, one had to cultivate.

The Tongxuan Continent cultivated spiritual energy. It relied on absorbing spiritual energy from heaven and earth to temper the body and transform it into powerful spiritual energy.

However, not everyone could cultivate. Only those who could awaken their spirit could do so.

All things in the world possessed spirituality. Lifeforms that had their spirituality opened could absorb the spiritual aura in the world and transform it into spiritual energy. They could then cultivate their own bodies and slowly be reborn. Lifeforms that did not have

their spirituality opened were mortals. They could not sense the spiritual aura in the world and could not use spiritual energy, becoming the weakest type of living beings.

Living things that could not awaken their spirit were not only weak, but their lifespans were also very short. Those with mortal bodies could live for at most a hundred years, while those who had awakened their spirit could live for a few hundred years. The higher the cultivation level, the longer their lifespan would be.

“In other words, I need to awaken my spirit first.

“Spirit Awakening, how is it done?”

Xue Fanxin rummaged through the books in the study and finally found a method to awaken the spirit in one of the books. However, this method required the Spirit Awakening Potion.

“Spirit Awakening Potion... I think I saw it in a medical book. Where is it?”

Chapter 20: An Empty Book

Xue Fanxin found the formula for the Spirit Awakening Potion. After memorizing all the contents, she stretched and planned to go out for some air and think of a way to get the herbs she needed.

At this moment, the servant in charge of cleaning the study walked in. Seeing that Xue Fanxin was inside, he quickly bowed. “Greetings, Young Miss.”

“You’re here to clean the study, right? Take your time. I’ll go find something to eat.” Xue Fanxin threw the medical book on the table and left.

However, just as she reached the door, she heard someone whisper behind her. These words made her immediately stop in her tracks. She turned back and asked solemnly, “What did you just say?”

The servant was frightened by Xue Fanxin’s seriousness and thought that he had said something wrong, making her unhappy. He quickly knelt down and apologized, “Please forgive me, Miss. I won’t do it again.”

“I’m not blaming you. Do you have to be so frightened? Don’t be nervous. I just want to understand something.” Xue Fanxin took the medical book she was reading before and took a closer look.

The name of this medical book was very strange. It was called Myriad Spirit Record. It was a thin little book with very little content recorded on it. There were only a few spirit potions and pill formulas on it, nothing else.

To think that such a book could be called the Myriad Spirit Record. Wasn't the title exaggerated?

"What would you like to know, miss?" The servant was relieved after making sure that Xue Fanxin was not angry.

In the Duke's estate, provoking the Young Miss would have even more serious consequences than provoking the Duke.

"What did you say just now? There isn't a word in this book?" Xue Fanxin placed the book in her hands in front of the servant and opened one of the pages for him to take a closer look.

Just as she was about to leave, she had vaguely heard the servant say that she was looking at an empty book. It was because of this that she stopped in surprise.

There were clearly words in the book. Even if this servant was illiterate, he could tell that there was something written in the book, right?

"Young Miss, there isn't a word in this book. It's all blank. I've been cleaning the study for five years. I basically know all the books in here. Some of them are completely blank."

"Blank books? Find those blank books for me." Xue Fanxin was still holding the Myriad Spirit Record. Her intuition told her that this book was not simple.

There were words on it, but the cleaning servant had said the book was blank. How could that be?

Could it be that only she could see the words on it?

The servant did as Xue Fanxin asked and found all the blank books for her. "Young Miss, these two books are blank too."

Xue Fanxin took the two books from the servant's hands and looked at them carefully. After flipping through them, she saw that there were not only words but also pictures on them. They were not blank at all.

Of the two books, one was called Reverse Spirit Art while the other was Mind Clearing Curse. Just by looking at the names, one could tell that these two books were not ordinary.

“I’ll take these three books with me. Go do your work.” Xue Fanxin took these special books away, planning to take them back and study them properly.

Only she could see the words in the book. There must be something wrong. She had to go back and study it in depth.

Even if she could not figure it out, based on the content of these three books, she would gain a lot of benefits.
