

Physicist 321

Chapter 321: I Want Two

After Xue Fanxin's first day here, Xiao Muyan never appeared again. While the people from the four great clans were fighting to trade for food with Xue Fanxin, he had been hiding in his stone house and only made an appearance today.

If this guy did not come, everyone would have almost forgotten about him.

Xiao Muyan actually did not have much friendship with the four great clans. Among everyone present, he only knew Gu Jinyuan, but they were only acquaintances. Their relationship was not that good.

In this situation, Xiao Muyan could only look for Gu Jinyuan to explain. "Young Master Gu, what happened?"

"Young Master Xiao, you really sleep like a log. You only woke up when the stone house was about to collapse. If you had woken up a little later, you might have been able to sleep forever without eating pills in the future." Gu Jinyuan was actually a little resentful towards Xiao Muyan, and his words were cold.

When they were in trouble, Xiao Muyan had taken out the pills he had refined and exchanged them for a stone house with the four great clans. He originally wanted to live in the same room as Xiao Muyan, but unexpectedly, he was unwilling to share. Helpless, he could only empty his pockets to trade for a stone house.

Although he did not blame Xiao Muyan, when Xue Fanxin and the others arrived later, his attitude made him very displeased. From then on, he no longer treated Xiao Muyan as a friend.

In fact, they were not friends, to begin with. It was just that the Heavenly Treasure Trading Company had dealings with the Blue Sea Villa. Offending Xiao Muyan would harm the Heavenly Treasure Trading Company's interests, so he always put up with Xiao Muyan.

Perhaps because he had experienced too much and even walked through the gates of hell, his state of mind had changed. He no longer cared about Xiao Muyan or the Blue Sea Villa.

At most, he would earn less money. If the Blue Sea Villa refused to conduct business, he could find another supplier. Xue Fanxin was another potential client.

Xiao Muyan read the coldness in Gu Jinyuan's tone and did not like it. He also knew that he was angry at him, so he no longer asked him. "Young Master Xue, can you tell me what happened here?"

Xue Hanxi was an easygoing person. Since Xiao Muyan had asked, he naturally replied politely, "As Young Master Xiao can see, we just experienced a huge battle. The strange words on the stone tablet mean that gathering fifty people will open the challenge game. Now that fifty people have gathered, the game should have begun."

How was this a game? It was simply fatal danger. If not for Ye Jiushang, Xue Fanxin, and that powerful young man, all of them would have died here.

“Game?” Xiao Muyan was a little puzzled. To save food, he often ate pills to make himself sleep. When he woke up, he would not feel too hungry. Who knew that so much would happen while he was sleeping?

What shocked him, even more, was that there were so many large fish piled not far away, with a young man sitting on top. In his arms was a little tiger that he was ruthlessly ‘torturing.’

There should be enough fish for them to eat for a while, right?

Xiao Muyan only enquired about the basic situation and said nothing else. He walked towards the pile of big fish and did not even glance at Little Lei. He said in a domineering tone, “I want two of these fish. You can distribute the rest among yourselves.”

2

The people of the four great clans looked at Xiao Muyan as if they were looking at an idiot. Their faces were filled with mockery.

What kind of joke was this? How could they dare to take this fish unless they wanted to die?

Chapter 322: Same Words

Xue Fanxin and Ye Jiushang had just put away their weapons and were walking over when they heard Xiao Muyan’s words. They found him ridiculous.

He didn’t do anything and was even inferior to the people from the four great clans. While they were fighting painstakingly, he was enjoying a good nap. The moment he came, he shamelessly wanted two big fish. And that too in such a commanding tone. What right did he have?

Was the Blue Sea Villa that impressive?

Was being able to refine pills so good?

Although Xue Fanxin really wanted to teach Xiao Muyan a lesson, she felt that there was no need, because someone else would do it.

Little Lei was sitting on the top of the fish pile because he wanted to keep an eye on these ingredients. He did not let go of a single fish. Even those who ran back to the lake were pulled back by him. It could be seen how much he valued these ingredients.

Xiao Muyan’s order displeased Little Lei, and he scolded angrily, “Who do you think you are? Do you think I’ll give you two fish just because you said so? These fish are all mine. Forget about two, I won’t even give you a bone. If you know what’s good for you, get lost, or I’ll make you suffer.”

“Awroo, awroo...” The little white tiger, which had been ravaged in Little Lei’s arms, echoed. It also released its anger at Xiao Muyan, unwilling to share the fish no matter what.

It had just learned from Little Lei that there was a delicacy called dry pot roasted fish. It had been guarding these fish with him and waiting to enjoy the dish, so it did not allow anyone to peep at these fish.

1

Be it Little Lei or the little white tiger, they were both first-class foodies and were very protective of their food. If those unrelated people dared to snatch food from them, they would not be polite.

Xiao Muyan did not expect a little brat to speak so arrogantly. Even the old fellows of the four great clans had to be polite to him, let alone a little brat...

“Which family are you from? You’re so uncultured. Don’t you know etiquette?”

The people of the four great clans almost burst out laughing. Su Baifeng’s expression turned dark because Xiao Muyan was basically repeating her.

Hearing the same words, she finally realized how ridiculous and stupid she had been when she said that Little Lei was unruly and rude.

Xiao Muyan sensed that the atmosphere was a little off. The people from the four great clans seemed to be mocking him, which made him very unhappy, but his heart was filled with doubts.

Had he done something wrong?

Just as he was puzzled, someone ran up in a hurry and begged, “Young Master Xiao, I beg you to save my younger brother. He’s injured and looks like he’s about to die.”

A young man covered in blood was carried to Xiao Muyan. He was on his last breath.

Xiao Muyan did not even look at the injured guy and rejected bluntly, “No.”

“Young Master Xiao, I only have this one younger brother. He is my only family. I beg you to save him. As long as you save him, I’ll do anything to repay you.”

“I said I won’t save him.” No matter how hard the other party begged, Xiao Muyan’s attitude remained the same. He didn’t show any mercy.

Everyone knew that Xiao Muyan of the Blue Sea Villa was the grand disciple of the Medicine King. Not only were his medical skills impressive, but he was also a high-level alchemist. However, Xiao Muyan had a bad temper. It could even be said he was cold and heartless. Even with his impressive medical skills, he never easily saved people.

According to rumors, the current Heavenly Saint Emperor personally went to the Blue Sea Villa to seek treatment, but Xiao Muyan acted indifferently. He rejected him without showing his face.

Xiao Muyan was arrogant, but he had the right to be arrogant. What could you do to him?

Just as the other party was about to give up in despair, a voice suddenly sounded. “It’s not that he doesn’t want to save you, but he can’t. So it’s useless no matter how much you beg him.”

1

Chapter 323: Rescue

Xue Fanxin had no impression of Xiao Muyan. Although he had rejected Gu Jinyuan’s request to live with him back then, she did not have any opinion about him. After all, there was nothing wrong with him not liking to live with others. The stone house belonged to him, and he had the right to control it.

But now, after learning more about Xiao Muyan, she felt disgusted.

Xiao Muyan looked at the person who spoke and realized that it was Xue Fanxin. His face immediately revealed distaste and disdain, and he retorted unhappily, "Don't talk nonsense. If you want to use reverse psychology to make me save him, then you're too naive. I, Xiao Muyan, won't fall for such tricks."

"You're thinking too much." Xue Fanxin could not be bothered to waste time with a self-righteous person like Xiao Muyan. The most important thing now was to save a life. She went to the injured person and started to examine him.

The people of the four great families were suspicious of Xue Fanxin's ability to save the guy. However, this little girl gave people an inexplicable sense of conviction, making them want to believe her even though they clearly had doubts.

Xue Fanxin got serious when it came to saving people. There was only the patient in her eyes, nothing else.

"He was injured by the poisonous vine. The poison entered his blood from the surface of his skin and then invaded his internal organs. This poison is very potent. He will die in fifteen minutes."

"Ninth Imperial Consort, I beg you to save my younger brother. I'm willing to do anything for you."

Xiao Muyan had not expected Xue Fanxin to really have some ability. She easily saw through the details of the injury. Although he was shocked, he said coldly, "The poison is extraordinary. Even an antidote might not be able to save him. I advise you to give up."

Xue Fanxin was currently busy helping the victim. All her attention was placed on the man and had no time to quarrel with Xiao Muyan. She took out a pill from her storage bag and personally fed it to the guy. Then, she used the Yang Needle Art in the Yin Yang Nine Needles Art.

When Xue Fanxin took out the pill, Xiao Muyan was shocked because he could sense that the pill was extraordinary. Later, he observed the needle technique Xue Fanxin used. Its profundity stunned him.

What a mysterious needle technique. Every needle seemed to contain incomparably powerful energy, which was repairing the injuries of the human body.

Xiao Muyan was too shocked and could not help but ask, "What acupuncture technique is that? And what was that pill?"

Xue Fanxin continued ignoring Xiao Muyan. Even if she was only saving a follower with low status, she was extremely serious. From the acupuncture to feeding the medicine, she remained meticulous and careful. After finishing her work, she said to the injured man's brother, "The poison in his body has been controlled by me. It will be slowly expelled from his body in the next few days. We just have to let him rest well and take some medicine. You don't have to worry about the pills. Since I've saved him, I'll help him to the end. I'll prepare the medicine later."

"Ninth Imperial Consort, thank you for your kindness."

"It's not a kindness. I just don't want to be a person who leaves people in the lurch, especially when I have the ability to save people."

“No matter what, you saved my brother’s life. If there’s a chance in the future, I’ll repay your kindness.”

“Up to you.” Xue Fanxin did not wish to talk too much. She stretched and wanted to deal with something else.

But at this moment, an angry voice interrupted her thoughts.

“I asked you a question just now! Did you hear me?”

2

Chapter 324: Super Worth It

Xiao Muyan was curious about Xue Fanxin’s acupuncture technique. He could not wait to learn more about the mysterious technique and even wanted to acquire it. Unexpectedly, Xue Fanxin did not entertain him at all. She did not even glance at him and ignored him altogether, making him very unhappy.

“Your name is Xue Fanxin, right? Answer my question. What acupuncture technique did you use just now? And what was that pill?”

“Who do you think you are? Why should I answer you?” Xue Fanxin asked mockingly. She continued to stretch. Looking up, she saw Little Lei sitting on a mountain of Electric Water Eels. The scene was really exaggerated, but it looked a little funny.

One could imagine what it would be like if dozens of large fish weighing hundreds of kilograms were piled together and a handsome young man sat on top with a little tiger in his arms.

“Little Lei, what are you sitting on it for?”

“Watch these fish lest they get stolen. Girl, I caught so many Electric Water Eels today. Shouldn’t you make dry pot roast fish for me?” Little Lei only had food on his mind. He closely watched the fish sitting under his butt.

If not for the incident just now, he would have definitely kicked Xiao Muyan into the lake.

How dare they have designs on his fish? They were really courting death.

“There are so many fish. Can you finish them all?” Xue Fanxin walked over to take a closer look and realized that these fish were basically dead. The lightning on their bodies had also been sucked away by Little Lei, so they were harmless now.

There were at least ten thousand kilograms of fish. Could they finish them?

“If you can’t finish them, store them. They won’t spoil in the storage bag anyway.”

“Do you have such a large storage bag?”

“I don’t, but as long as you and Master have it.”

An ordinary storage bag could at most contain about 500 kilograms. The best storage bag only had a capacity of a few thousand kilograms. How many storage bags would it take to store ten thousand kilograms of fish?

Furthermore, the storage bags on them were filled with things, and there was no space... Unless they used her Reverse Spirit Heaven Wheel Space, these fish were really difficult to handle.

However, she had to deal with them. She could not waste them as they were an excellent ingredient!

“Girl, you haven’t answered my question! Do you want to make dry pot roasted fish or not?” Little Lei urged her again. Looking at his anxious expression, if he did not get an answer that satisfied him, he would definitely go crazy.

“You have to skin them first. Otherwise, how can you eat them?” Just the thought of the countless fish scales and skin on these fish made Xue Fanxin overjoyed.

That was a huge fortune!

The gains from Tomb Two of the Spacetime Emperor were huge. Not only had her strength increased greatly, but she had also made a fortune. It was super worth it.

“Oh right, how could I have forgotten about that? Little white tiger, hurry up and pull out the scales and skin the fish. Otherwise, there won’t be any roasted fish to eat.” Little Lei jumped down from the fish pile and threw the little white tiger in his arms to the side. He then started pulling out the fish scales and peeling the skin. In a few blinks of the eye, half of the scales of a huge Electric Water Eel had been removed.

This was not the first time the four great clans had seen such a jaw-dropping scene, so they were not that surprised, nor did they find it strange.

However, Su Baifeng and Xiao Muyan were seeing Little Lei in action for the first time. They were given a fright, especially Su Baifeng. She finally realized how powerful Little Lei was. Thinking back to when she first came and provoked this young man, she was really stupid.

Even if she did not curry favor with such a powerful person, she should not have offended him.

Fortunately, there was not much conflict between her and this young man. As long as she handled the matter properly, there should be no problem.

It had to be said that Su Baifeng was daydreaming again. Unfortunately, no one cared.

Chapter 325: Speechless

Little Lei was busy pulling out the fish scales. He had no time to care about anything else.

The little white tiger went forward to help. Although it took a long time to bite off a scale with its teeth, at least it was working hard for delicious food.

Xue Fanxin watched as more and more scales piled up on the ground. She was overjoyed as if she could see endless gold waving at her.

“With so many scales, we’ll definitely earn a lot of money if we sell them. Gu Jinyuan, do you think there’ll be a market for these scales? What if no one buys them?”

“Such a rare item will definitely be fought over by countless people. When we get back, if you want to sell the scales, I’ll help you publicize them. Anyone in the Tongxuan Realm who has some spare money

will come and buy the scales. Even if just for adding them to their collection, they'll be very willing. However, if there are too many, the price won't be the best, so you have to be mentally prepared." Gu Jinyuan looked at the increasing number of scales and suddenly felt that Xue Fanxin's luck was heaven-defying.

This girl seemed to be able to encounter good things no matter what the situation was. Even amid life and death, she could still make a fortune. Although she was not the one who had shot down these Electric Water Eels, Little Lei only cared about food. Anything else would belong to her.

A person's luck was closely related to her fate. Just in terms of luck, Su Baifeng was far inferior.

"Even if I quote a million spirit coins per scale, I'll still earn a lot. If I really can't sell them, I'll keep them for myself. Anyway, this thing won't depreciate."

"With these fish scales, I can help you refine a dagger." Ye Jiushang had been silent the entire time. When he opened his mouth, he immediately attracted everyone's attention.

After all, he was always the center of attention.

"How many fish scales will it take to refine a dagger?" Xue Fanxin asked, her heart aching. She felt that the quantity would not be small.

"Everything."

"What? All of them?"

"It's still not enough."

"Ah Jiu, what kind of dagger do you want to refine? Do you need so many fish scales?"

"What an idiot girl. The things Master refines are definitely priceless. You can't even bear to part with these lousy fish scales. Think about those pots and pans. Aren't they even more valuable?" Little Lei found an opportunity to splash cold water on Xue Fanxin.

Although the scales of the Electric Water Eel were valuable, they were far inferior to the artifacts refined by his master. Even a spirit artifact refined by him was more valuable than these scales.

Xue Fanxin was reminded by Little Lei's words and no longer felt sorry for the fish scales. She said readily, "Alright, I'll take out all the fish scales. You can refine a dagger for me."

"Keep these fish scales for now. I'll refine them when we get back."

"Sure, sure!"

Ye Jiushang did not say anything else. He only smiled at Xue Fanxin, his face filled with doting.

Su Baifeng was about to go crazy with jealousy, but she had to bear with it. Just now, because the scene was chaotic and the situation was critical, she had not been able to speak to Ye Jiushang. Now that everything was calm, she had to talk to him no matter what.

“Your Highness, are you still angry at me? It was my fault for giving you the Draconic Lotus Intoxication back then, but I was also worried about you! If the Ghost King knew of Xue Fanxin’s existence, he would definitely use her to threaten you, so I—”

“That’s why you sent people to assassinate me and want to destroy me?” Xue Fanxin continued Su Baifeng’s words, which were filled with ridicule and coldness. Then, she questioned, “You’re worried that the Ghost King will use me to threaten Ah Jiu, so why aren’t you worried that the Ghost King will use you to threaten Ah Jiu? If your existence seriously threatens Ah Jiu, shouldn’t you destroy yourself?”

“You...” Su Baifeng was rendered speechless. She was angry, hateful, and helpless. She glared at Xue Fanxin fiercely, wishing she could tear her apart.

Just you wait. One day, she would definitely shred this girl to pieces.

Chapter 326: I Allow It

Not only did Xue Fanxin find Su Baifeng’s words ridiculous, but even the people from the four great clans had such thoughts. The more they looked at her, the more they felt that Su Baifeng was hypocritical. They just did not say it.

Su Baifeng had been repeatedly defeated by Xue Fanxin and was filled with fury. Since no one from the four great clans stood up for her, she was even more angry, so much so that she was about to explode.

But so what if she was angry?

She could not beat or scold them, and there was no one to support her. She could only bottle up her emotions.

She would bear with it. She would try her best to bear with it. At least for now. When she left this damned place, she would use all means to get rid of Xue Fanxin.

“Are you thinking of getting rid of me after we get out?” Xue Fanxin exposed Su Baifeng’s thoughts.

“Xue Fanxin, don’t go too far. If not for His Highness backing you, would you dare to be so arrogant?”

“That’s right! I have someone backing me. Are you going to bite me?”

“You...”

“If you have the ability, go find someone to support you.”

“You...”

“Since you don’t have the ability, don’t talk big here. Also, we don’t know if you can get out alive, so don’t think too much about it. Perhaps this will be your burial place. When the time comes, you won’t even be able to get out. How will you deal with me? By becoming a ghost? I, Xue Fanxin, don’t do anything wrong in my life, so I’m not afraid of ghosts knocking on my door in the middle of the night. If you really become a ghost, I still have ways to deal with you.”

Su Baifeng could not win against Xue Fanxin at all. She was so angry that her heart hurt, and she almost fainted. In her anger, she actually wanted to look for Ye Jiushang for help. “Your Highness, this woman is really too much. You should teach her a lesson.”

“How do you want me to teach her a lesson?” Ye Jiushang finally said to Su Baifeng, but his tone was extremely cold, so cold that it could freeze people.

The listeners could hear the biting chill and anger in Ye Jiushang’s words. They could also see Ye Jiushang’s attitude towards Xue Fanxin. Only Su Baifeng, whose blood had rushed to her head, did not notice anything. She even got excited because Ye Jiushang was talking to her. She thought that he was finally willing to side with her. “Your Highness, this woman is relying on her status as the Ninth Imperial Consort to be so arrogant. She really should be taught a lesson, or else it will affect your reputation.”

“I allowed her to use her status as the Ninth Imperial Consort. So what?”

“This... Your Highness...” Only then did Su Baifeng realize that things seemed to be a little different from what she had thought. Her mind cleared up a little, and she noticed that she had done something stupid again.

She was enraged. She actually wanted Ye Jiushang to help her teach Xue Fanxin a lesson. How was that possible? Even if it was possible in the past, it was not now. Couldn’t she see how much Ye Jiushang doted on Xue Fanxin?

What was wrong with her recently? She was always doing foolish things, especially in this damned place. After meeting Xue Fanxin, she had been making repeated mistakes and doing ridiculous things.

How could someone as smart as her act so stupidly?

Su Baifeng realized that something was wrong with her and felt extremely embarrassed as if she had become a laughing stock and was being mocked by a large group of people. She was panicked and helpless.

“Your Highness, I...”

Ye Jiushang ignored Su Baifeng and was not even willing to speak to her. He turned his gaze away and walked toward the skeleton soldiers as if he had something to do.

“Ah Jiu, where are you going?” Xue Fanxin asked.

“Have fun here. I’ll go there and find some clues.” Ye Jiushang was always so patient and gentle to Xue Fanxin. He only left after answering her question.

Su Baifeng was incomparably jealous. Her heart was about to collapse, and her face was twisted beyond recognition. Her ten fingers were clenched into a fist, wishing she could kill Xue Fanxin.

But could she kill her?

Chapter 327: She Can’t Do It

The moment Ye Jiushang left, the atmosphere became even stiffer. Su Baifeng’s expression was ugly. She could neither leave nor stay at the scene. Her situation was really awkward.

No matter how embarrassed she was, no one present cared. The people of the four great clans all ignored her.

Ever since they saw Su Baifeng pushing the people around her as shields to protect herself, the people of the four great clans had developed feelings of hatred for her. No matter how miserable she was, they would not care.

Among the four great families, Xue Hanxi was the most easygoing, but at this moment, even he did not speak up for her. Lian Fangcheng, who had pursued Su Baifeng back then, was the same.

Everyone had just experienced a calamity and was still in a state of shock. Who had the time to care about others?

Xue Hanxi adjusted his emotions and tried his best to calm down. When he saw that his brothers, who had risked their lives with him, were either injured or dead, his heart was heavy. For their sake, he had no choice but to muster up his courage and walk toward Xue Fanxin. He said in a pleading tone, "Miss Xue, can you save these brothers of mine? I won't forget your kindness. I know you don't have any good feelings for the Xue family, but the Xue family isn't completely heartless. Many people are still loyal."

"Gu Jinyuan, Zhuri, help me pick up the fish scales and skin here. Fuyun, come with me to take a look at those injured." Xue Fanxin did not agree to Xue Hanxi's request directly, but she used her actions to express her decision.

Actually, she had not interacted much with the Xue family. She could not deny everyone because of a few scums. Most importantly, she could not watch as those who had no grudge against her died in front of her.

It would have been fine if she did not have the ability to save them, but she did.

She could not ignore people in need when she was capable of saving them.

Xue Fanxin took out the medicine kit she carried with her and brought Fuyun along to treat the injured. She gave pills to those in serious condition for free. Once she started treating people, she turned serious and tried her best not to make any mistakes.

Fuyun helped by the side. Since she knew nothing about medicine, she was a little flustered. After a while, she finally became a little familiar with it.

Xiao Muyan wanted to find an opportunity to ask Xue Fanxin about the origins of her acupuncture technique and where those medicinal pills came from, but he never had the chance to. Xue Fanxin was treating the injured very seriously, with nothing else on her mind.

Under such circumstances, even if he asked, he would not receive any response.

He really could not understand. Most of these people were followers or sacrificial soldiers of the four great clans. Their lives were not valuable at all. Even if all of them were sold, it would not be enough to exchange for a precious pill. Yet, Xue Fanxin had wasted countless pills on them...

What a stupid woman.

Xue Fanxin was treating a heavily injured person. His injuries were too serious, and ordinary medicine could not save his life. However, she did not hesitate to take out a precious healing pill, planning to give it to the poor guy.

Xiao Muyan saw the pill in her hand and hurriedly went to stop her. "Xue Fanxin, do you know the value of this pill? This is a healing pill that can't be bought with money. Don't you think it's a waste to give it to a sacrificial soldier?"

Chapter 328: Generous Distribution of Fish

Xiao Muyan's words not only displeased the followers of the four great clans, but even Xue Fanxin was annoyed.

"Then in your eyes, what kind of people's lives are valuable? The likes of you?" Xue Fanxin asked in return, her tone filled with disdain and ridicule.

She hated those who thought that they were superior to others, thought highly of themselves, and were self-righteous. They considered only themselves as important, while others could be disregarded, that their lives were valuable, and that others' lives were cheap... Such people were really annoying.

"You..." Although Xiao Muyan did not have a comeback, he did not agree with her.

Humans were born to be either noble or lowly. This was an indisputable fact. The lives of those with low backgrounds were like grass. It had been like this since ancient times. What was wrong with that?

Although Xiao Muyan did not say anything, Xue Fanxin could tell that his thoughts hadn't changed. He was just too embarrassed to say it.

It didn't matter. Anyway, this Xiao Muyan had nothing to do with her.

Xue Fanxin went back to ignoring him. She continued her treatment and placed all her attention on the injured. She had a basic respect for every patient. She also said some simple words of concern and gave them some reminders, providing them comfort and encouragement.

Seeing Xue Fanxin treat everyone so sincerely, Fuyun was the most touched. She finally believed that in Xue Fanxin's eyes, she was not just a lowly maidservant, but a person, or even a friend.

The Consort was indeed a kind person. In her eyes, every life was equal. There was no difference in status, even though society dictated so.

No wonder the Lord doted on the Consort so much. The Consort was indeed outstanding.

The people of the four great families were treated by Xue Fanxin. No matter who was injured, even if it was Lian Fangcheng, she did not view them differently.

Yi Fentian was not injured, but he really hoped he was. This way, he could come into close contact with Xue Fanxin, but...

"Alright, I've treated everyone's injuries. I've also told you what you should pay attention to. Go find a clean place to rest now. If there's an emergency, come and tell me immediately." Xue Fanxin finished treating the last patient. She was about to do something else, but after thinking about it and hesitating for a moment, she finally took out an Electric Water Eel stored in her space.

Fuyun asked in confusion, "Your Highness, why did you take this fish out?"

This was the Electric Water Eel that Little Lei had caught last time. They had only eaten a little. There was still a lot left, more than a few hundred kilograms.

“Since I helped them, let’s do it all the way,” Xue Fanxin explained casually. She turned to everyone, “From now on, everyone can take two kilograms of fish from me. Those in special situations can take a little more, but everyone can at most take three kilograms.”

The people of the four great clans were all stunned. Some even thought that this was a dream.

Previously, they had taken out a lot of things in exchange for a little food from Xue Fanxin. Therefore, no matter how outstanding she was, she was still an extremely petty person in their eyes. How could she be so generous as to give them fish? Furthermore, it was the precious fish that could help them in cultivation.

Could this be a trap?

Chapter 329: Not Giving

Not only were the others from the four great families suspicious of Xue Fanxin’s actions, but even Xue Hanxi was no exception. However, he did not suspect anything. He just did not understand why she was suddenly so straightforward, so he asked bluntly, “What do we need to trade for this?”

“I’m in a good mood today, so I’ll treat everyone to meat for free. Everyone is limited to two kilograms. Those with special circumstances can take three kilograms. Those who want to eat meat, quickly line up. The injured can get someone to take it for them.”

Hearing Xue Fanxin’s words, the people of the four great clans immediately swarmed forward and scrambled to line up. All of them were salivating over the big fish.

“Line up, line up. Don’t be anxious and don’t snatch it. I guarantee that everyone will have their portion.” Xue Fanxin took out a dagger and casually cut a few pieces of meat, all about two kilograms. Then, she distributed them to the people who came up. In less than fifteen minutes, a third of the huge Electric Water Eel was gone.

The Xue, Lian, Bai, and Yi families, and even Yi Fentian lined up to get the meat. No matter how uncomfortable, depressed, or displeased he was, he wouldn’t reject food.

Only by getting out alive could he compete with Ye Jiushang and snatch Xin’er back.

Seeing Xue Fanxin rise in popularity, Su Baifeng’s eyes turned red. She ordered her maidservant to line up and get the meat.

Huangyi shamelessly went to the queue. Unexpectedly, when it was her turn, Xue Fanxin said, “I’m sorry, I won’t share my fish with Su Baifeng and her dog.”

“You...” Huangyi was so angry that she almost cursed. However, she was much more rational and clear-headed than Su Baifeng. She knew very well that provoking Xue Fanxin meant digging her own grave. She should not say anything and would leave this to her Miss. In short, she would not stand out.

Su Baifeng didn’t expect Huangyi to do anything to Xue Fanxin anyway, so she personally stepped forward and questioned, “Xue Fanxin, what do you mean? Why are you singling me out?”

“Su Baifeng, I think you’re really stupid. Since you have asked me why I won’t give you meat, let me ask in return; why should I care about the life and death of someone who wants to kill me? Su Baifeng, I’m already being benevolent by not killing you. How good do you think I’ll be to you? I won’t give you anything. What can you do to me?” Xue Fanxin retorted, then put the remaining fish back into her space.

If not for the fact that this tomb needed fifty people and the situation was still unknown, she would have long destroyed Su Baifeng.

But it didn’t matter. Letting Su Baifeng die too quickly was letting her off too easily. It was only interesting if Xue Fanxin took her revenge slowly.

The people of the four great families found Xue Fanxin’s actions reasonable. Furthermore, what she said made sense. If it were them, they would have long torn up the person who wanted to kill them. Why would they wait until now?

Xue Fanxin really did not give Su Baifeng any fish. She walked towards Little Lei. Looking at the ten thousand kilograms of fish made her speechless.

Even if the mountain of meat was stored in her Reverse Spirit Heaven Wheel Space, it would take up quite a lot of space.

So be it. This was top-notch fish meat. She could eat it slowly.

“Girl, you’re finally done. Quickly make me dry pot roasted fish. I’m hungry,” Little Lei urged when he saw Xue Fanxin walk over.

The little white tiger echoed, “Awroo, awroo...”

“Alright, alright, alright. I’ll make you a meal later. Everyone is tired. Go back and have a good rest. Although the crisis this time has been resolved, who knows when the next one will come? The most important thing for us now is to recuperate before welcoming the next challenge.”

Xue Fanxin’s words were not only for her team but also for the four great clans. She was preparing them mentally.

Chapter 330: Extremely Jealous

Xue Fanxin stored the ten thousand kilograms of Electric Water Eel meat in the Reverse Spirit Heaven Wheel’s space in front of the four great clans, not worried that they would suspect anything.

Even Ah Jiu could not sense the existence of the Reverse Spirit Heaven Wheel, let alone the small fries from the four great clans.

“Where did you put so much meat?” Su Baifeng was not like the rest who did not ask anything. She was shocked to see Xue Fanxin take away so much fish. She was certain that Xue Fanxin must have a treasure with an extremely large capacity.

In the Tongxuan Realm, storage bags were commonly used, and the capacity of the storage bag was at most a few thousand kilograms. Most storage bags could only accommodate about 500 kilograms.

However, she had once heard that there were even higher-level storage treasures. According to rumors, they could accommodate a mountain or even more, but she had never seen such a treasure. How could Xue Fanxin have it?

Could it have been Ye Jiushang?

Su Baifeng imagined many things and even believed that the truth was as she thought. The good things Xue Fanxin had must have been given by His Highness.

She really did not understand what was so good about Xue Fanxin. Why did His Highness love her so much?

“Of course, I put it in my storage space. Where else can I put it? Look at how jealous you are. If you have the ability, go and ask Ah Jiu for one too. Don’t be jealous of me.” Xue Fanxin threw out a mysterious sentence and left coolly.

The people of the four great clans looked enlightened. So Xue Fanxin had an even bigger interspatial bag, and it was given to her by the Ninth Imperial Uncle.

With just one sentence, Xue Fanxin perfectly hid her Reverse Spirit Heaven Wheel Space. Even Su Baifeng did not suspect anything. She only glared fiercely at her as she left, her heart filled with anger.

But so what if she was angry? She was so hungry that her stomach was stuck to her back, and no one was helping her. Even the four great clans ignored her... How did she fall into such a state?

All of this was Xue Fanxin’s fault. If not for this woman, how could she be so miserable?

“Miss, what should we do now?” Huangyi asked weakly. Seeing that the people from the four great families were busy cooking fish, she was envious.

“You’re asking me? Who should I ask? I really regret taking you useless people out. None of you are useful. Go and find food for me. If you can’t, don’t come back. All of you can die outside.” Su Baifeng was furious. She vented her anger on her entourage.

Seeing Su Baifeng flare up in such an undignified manner, the people of the four great clans learned more about her personality. They no longer had a good impression of her.

Perhaps Su Baifeng also understood that her true personality was out, so she no longer hid it.

She did not know if these people could survive. Why should she spend so much effort on them?

Even if these people lived, she had a way to deal with them. As long as she had the heart, she could rebuild her reputation. The most important thing now was to think of a way to leave this place alive. Nothing else mattered.

If these people did not let her have an easy time, she would not let them have an easy time either.

If they were going to die, they would die together.
