Chapter 391: All Wrong

Hearing Yi Fentian mention Peach Blossom Granny and even accurately refer to Willow Alley on East Street, Xue Fanxin was certain that the big brother who had helped her in the past was not Yi Fentian but Yi Fenyun.

She had been chasing after the wrong person for two years.

“You’re the Young Master of the Yi family now?” Xue Fanxin did not bring up the past. She planned to let this matter run its course, so she changed the topic.

Yi Fenyun could tell that Xue Fanxin was unwilling to say more and tactfully did not ask further. He replied gently, “Yes, I’m the Young Master of the Yi family now. But I don’t want it.”

He had never thought of competing with his younger brother for the position of Young Master, but just yesterday, the elders in the family unanimously decided that he would take his seat. He could not reject it even if he wanted to, so he could only agree.

“It doesn’t matter where you sit. What matters is your heart. If it is free, you can be free no matter what position you hold. If it isn’t, even if you don’t do anything, you will feel restrained. All in all, your mentality is very important.”

Hearing Xue Fanxin’s words, Yi Fenyun felt like he had come to a realization. What shocked him even more was that this little girl, who was only fifteen, could actually say such philosophical words.

What kind of person was she?

“Thank you, Consort. I understand.”

“Hehe, it’s good that you understand. Come, come, let me see what gifts you’ve brought me.” Xue Fanxin did not chat with Yi Fenyun for too long, in case of a misunderstanding. Besides, she was itching to know how much gold and silver the four great clans had given her.

Lian Fangcheng and Bai Han were standing there in a daze. Facing Xue Fanxin, they did not know what to say. They felt envious that Yi Fenyun could talk to her.

Actually, they did not want to become enemies with Xue Fanxin either. They wanted to make friends with her. After returning from that damned place, they understood many things. They were grateful to her for saving them.

“This is a token of the Bai family’s appreciation.” Bai Han gave the followers around him a look. When the followers opened the box, he introduced them one by one. “These are ten bolts of Luo Yun Silk Brocade, ten East Sea Night Pearls, ten pairs of white jade bracelets, ten thousand-year-old blood ginseng, and ten thousand-year-old purple orchids.”

Xue Fanxin was surprised, feeling that she had made a huge loss by asking Bai Han for a Jade Skin Spirit Flower back then.

This guy was a rich second-generation heir.

Lian Fangcheng was also in a hurry to introduce his gifts. "Ninth Imperial Consort, this is a little token from our Lian family. One Nine Revolutions Soul Return Pill, one ten-thousand-year-old Thousand Spirit Grass..."

Before Xue Fanxin could recover, she heard Lian Fangcheng's introduction. Her mind was filled with golden light that was about to blind her eyes.

She had worked hard to bring these people out of the tomb. Her efforts had finally paid off.

Actually, in the tomb, she did not think about how much the four great clans would give her in return. She only hoped that those people would boost her reputation after they went out and mess with Su Baifeng. Who knew...

Good people were indeed rewarded, hehe!

1

Chapter 392: Not Buried Yet

The four great clans gifted Xue Fanxin countless priceless things. From gold, silver, jewelry, and silk, to medicinal herbs and spirit pills, as long as it was good, they gave it to her. Their intention to curry favor was obvious.

The gifts from the Xue family were not small either. They were as good as the other three families.

Xue Fanxin could not help but ask, "Your Madam Xue has no objections to the Xue family giving me so many gifts?"

"She has her opinions, but it's useless," Xue Hanxi said with a smile. He was no longer so reserved around Xue Fanxin. Rather, he felt a little close to her.

"Why? The first time I went to the Xue family, she was so domineering. It seemed like she had the final say in the entire Xue family. She was very impressive."

"Don't you know whose family she is from?"

"What family? Isn't she from the Xue family?"

Xue Hanxi shook his head and continued, "The current madam of the Xue family comes from the Prime Minister's Estate. She's Prime Minister Su's aunt and is called Su Wanlian. Su Wanlian's position has been greatly affected in the Xue family as a result of problems in the Prime Minister's Estate. Coupled with the fact that a lot has happened in the Xue family recently, first, the Old Master passed away, then I disappeared, and then there's your matter... In short, she's having a difficult time now. She keeps begging the Master to save her nephew, Prime Minister Su."

"Oh my god! That old witch is actually from Prime Minister's Estate? No wonder she looked so similar to Su Baifeng. When she was young, she was a white lotus that deceived my grandfather. Now that she's old, she's a thorny old rose."

She now understood why her grandfather had been smitten by Su Wanlian back then.

If Su Wanlian was like the current Su Baifeng, the number one beauty and talent of Heavenly Saints City, as well as the reputation of being gentle, elegant, beautiful, and generous, probably no man in Heavenly Saints City could resist her charm.

“Back then, your grandfather was expelled from the Xue family because of her. Actually, she was the one who pulled the strings behind the scenes.” Xue Hanxi hesitated for a moment. “After Su Wanlian chose the current family head, she was worried that your grandfather would fight with the family head for control of the Xue family, so she tried her best to drive him out.”

“I understand. This old witch is as shameless and vicious as Su Baifeng.”

“Sister Xin’er, can I call you that?”

“Sure!”

“Alright, I’ll call you Sister Xin’er in the future. The previous Master has passed away, but he hasn’t been buried yet, so—”

“What did you say? He hasn’t been buried? How many days has it been? He still hasn’t been given a burial?” Xue Fanxin interrupted Xue Hanxi in extreme shock. She felt it did not make sense.

Xue Hanxi shook his head helplessly and sighed before saying, “I don’t know why the Master hasn’t buried the previous Master yet, but his body is very well preserved. Master goes to visit him almost every day. He probably can’t accept the fact that his father has passed away.”

Couldn’t accept it... Was that really the case?

Xue Fanxin had serious doubts about this. She did not think that things would be so simple.

Xue Lianfeng must have had another motive for not letting the previous Master be buried, but what was it?

However, the Xue family’s matters had nothing to do with her.

Chapter 393: Stop Messing Around

Everyone in Heavenly Saints City knew that the previous Master of the Xue family had yet to be buried. They thought it was because the head of the Xue family could not accept his father’s death, so he kept Old Master Xue’s body intact.

Ordinary people would not care too much about other families, nor would they interfere. Xue Fanxin was even more indifferent. When Xue Hanxi brought up the Xue family, she diverted her attention to gold and silver. Her money-grubbing personality was very eye-catching.

Perhaps because they had seen too much, everyone was used to Xue Fanxin’s personality. They were not surprised at all.

Xue Hanxi knew that Xue Fanxin did not care about the Xue family, but there were some things that he had to say. “Sister Xin’er, three days later will be the Xue family’s talent selection that takes place once every five years. All the young talents of the Xue family will participate. This is an invitation that the

family head asked me to bring to you. He hopes that you can attend. Also, regarding the previous Master, the family head hopes—”

“Wait... What’s that got to do with me? I won’t stick my nose in the previous Master’s matter.” Xue Fanxin interrupted Xue Hanxi. She had no interest in getting involved in the Xue family.

After learning that the old witch, Madam Xue, was from the Prime Minister’s Estate and the truth about her grandfather’s past, coupled with Xue Hanxi, her hatred for the Xue family was not that intense. She only wanted to deal with Su Wanlian. As for that strange Xue Lianfeng, she had no grudge against him. She did not want to provoke him for the time being, nor did she want to make too many enemies. If Xue Lianfeng really had any ill intentions toward her, she would deal with it in the future.

“Sister Xin’er, the family head has decided to let you return to the Xue family and record your name in the ancestral register. Your grandfather can also come back. From now on, you are part of the Xue family, so—”

“No, no, no... I’m not interested. You should stop. Grandpa has left the Xue family for forty years, and I’ve never stayed there. That place is unfamiliar to us, so going back might not be a good thing.”

1

What a joke. She was not stupid enough to involve herself in the Xue family’s disputes.

Xue Hanxi knew that Xue Fanxin would have such a reaction. He was also in an awkward spot. However, this was a mission that the family head had given him. No matter how difficult it was, he had to convey the family head’s intentions. As for the rest, it was not his business.

Xue Fanxin turned her attention to Lian Fangcheng and Bai Han. She realized that she had not greeted them, so she struck up a conversation with them.

“Young Master Lian, Second Young Master Bai, thank you for your generosity. I won’t stand on ceremony and accept it!”

“You’re welcome. This is a little token from us. Please accept it,” Lian Fangcheng said with a stiff smile. When he faced Xue Fanxin, he would always think of the ridiculous things he had done at the Heavenly Treasure Trading Company.

“Don’t worry, I’ll accept it.”

“Xue—” When Bai Han saw that Xue Fanxin was not talking to him, he could only take the initiative to speak. He hesitated about how to address Xue Fanxin. He thought for a moment and continued, “Ninth Consort, I want to ask you to help save someone. ”

“Sure!”

Bai Han was a little shocked. He felt that this was not her style of doing things. Just as he was about to laugh out loud, Xue Fanxin said something else.

“As long as you can pay a price that satisfies me, I’ll help you save whoever you want.”

1

Chapter 394: How Lucky

Bai Han smiled bitterly. He did not get angry. Rather, he felt that this Xue Fanxin was the real her. He asked with a friendly tone, "Then name your price."

"The starting price is ten million spirit coins. I'll have to see the patient first and set an accurate price based on the difficulty of his treatment. There's also a premise, which is that I can actually save that person. If I can't, then there's no need to discuss anything." Xue Fanxin treated it as a business deal.

Although her medical skills were impressive, she did not run a charity. Furthermore, the Bai family was loaded. If she did not squeeze them, she would be letting herself down.

"Your medical skills are so good. Since you can save Gu Jinyuan, you can definitely save the person," Bai Han said anxiously. He looked a little nervous, afraid, and panicked.

"I'm a human, not a god. My ability is limited. I can't save everyone. I hope you can understand. If your request is that I must save that person no matter what, then I'm sorry. Nothing is absolute. What you want is absolute, and I can't give it to you. I can only apologize."

Bai Han realized that he was acting inappropriately. He adjusted his emotions and apologized. "I'm sorry, I was a little too hasty. Everything is as you said. You can decide after you see him."

"Sure! You can send him to the Ninth Lord's Estate at any time."

"It's a little inconvenient for him to move around and he can't bear to see the wind and light. Can you make a trip yourself?"

"For door-to-door service, the fee will be increased by a million spirit coins."

"No problem. When are you free?"

"Two days later."

"Alright, the Bai family will be waiting for you. The gift has been delivered, so I'll take my leave." Bai Han cupped his hands and bowed to Xue Fanxin. He no longer had the disdainful attitude from that day.

Back then, Bai Han was disgusted by the scarred Xue Fanxin, especially when he found out that she was his savior. He only had one thought: draw the line with her. He was even worried that she would pester him because of this.

Who could have predicted the change in her status? If he had not made such a choice back then, would he have had a chance?

No, he would not. Xue Fanxin already had Ye Jiushang by her side.

Perhaps they were not fated.

"Then I'll take my leave first." Fangcheng did not know how to extend his stay. He followed Bai Han, but after taking a few steps, he stopped as if he had thought of something. "There's something I need to tell you. Xiao Muyan is heavily injured and has been carried back to the Blue Sea Villa. They already know that you injured him, so they'll be taking some action soon. You have to be careful."

"I didn't expect that guy to be so lucky. He was thrown so far away by Little Lei but didn't die. Indeed, a scourge lives for a thousand years!" Xue Fanxin said with a bitter smile.

Why did she feel that her enemies were all very lucky!

1

Su Baifeng was not dead, and Yi Fentian was not dead either. Now, even Xiao Muyan was alive. If these people joined hands, it would be a huge problem!

It seemed like she had to think of a solution.

Chapter 395: There's Someone On Top

After Bai Han and Lian Fangcheng left, Xue Hanxi did not stay any longer, nor did he persuade Xue Fanxin to return to the Xue family. He could understand her. If it were him, he would do the same.

Yi Fenyun was the last to leave. He was still thinking about the peach blossom pastry. He felt that Xue Fanxin would not mention it for no reason.

What was the relationship between the peach blossom pastry and Xue Fanxin?

No matter what, he had completed his mission. As long as Xue Fanxin did not become enemies with them, it was not important for the time being.

Xue Fanxin did not care what the people from the four great clans thought. She was happily counting her gains and sorting them in her space. When she saw the Nine Revolutions Soul Return Pill the Lian family had given her, she was a little curious. She took it out to study.

"The Nine Revolutions Soul Return Pill sounds powerful."

"Of course it's powerful. The Lian family only has one Nine Revolutions Soul Return Pill. They have kept it well. Even when the descendants of the Lian family are on the verge of death, they could not bear to take this pill out. I didn't expect them to be so generous and gift the pill to you." Xue Batian appeared after the representatives of the four great clans left. The moment he entered, he saw Xue Fanxin studying the Nine Revolutions Soul Return Pill, so he told her some things.

Although getting it should be a happy matter, it was strange. That might not be a good thing.

Xue Fanxin knew how to refine pills, but she did not know their grades. She realized how valuable the Nine Revolutions Soul Return Pill in her hand was from Xue Batian's description.

"Grandpa, why do you think the Lian family gave it to me? The other families' gifts are also valuable. Saving them is really worth taking out so many valuable things?" The more Xue Fanxin thought about it, the more she felt that the actions of the four great families were odd.

Something was wrong. Could it be that the four great clans were digging a pit for her to jump into?

But from what she could see, that was not the case. Instead, they looked like they were currying favor with her.

“Who knows what they’re up to? Xin’er, don’t be blinded by gold and silver. You have to be careful lest you fall into a trap. The four great families have been able to stand tall in Heavenly Saints City for thousands of years. The Heavenly Saints Empire has always been restrained by the four great families. Countless generations of Heavenly Saints Emperors have wanted to eliminate them and let the imperial authority be independent. Unfortunately, they have yet to succeed. I once heard Father mention that there is someone above the Xue family, but only the head of each generation knows the exact person, so I’m not very sure.”

“Someone above? Where?”

“I don’t know.” Xue Batian was not interested in the secrets of the four great clans. In his heart, the most important thing was his precious granddaughter. Nothing else mattered.

Xue Fanxin was the same. She did not want to waste any time and energy on the four great families. As she tallied the gifts, she asked, “Grandpa, why didn’t you tell me that Old Witch Xue is from the Prime Minister’s Estate? Her name is Su Wanlian. Was she as famous as Su Baifeng back then?”

“I thought I’d never cross paths with the Xue family or this woman again, so I didn’t want to mention her. After returning to the Tongxuan Realm, I entered seclusion. How could I have time to tell you about it?”

“Then you have time now. Tell me the story of your youth.”

Chapter 396: What Happened Back Then (1)

Su Wanlian naturally knew that the four great clans were giving Xue Fanxin a gift today. It infuriated her. She stomped over to Xue Lianfeng, asking for an explanation, and even brought up what had happened back then.

“Xue Lianfeng, don’t forget that you were chosen by me because you promised me that you would let me obtain everything I wanted in the Xue family. To secure the position of the family head, you used me to drive Xue Liantian out of the Xue family. If not for me, do you think you could have become the Xue family head? Back then, the person the Old Master liked was Xue Liantian, not you.”

“What do you want?” Xue Lianfeng looked at the woman coldly. Although she had taken extremely good care of herself and looked young and beautiful even though she was almost a hundred years old, for some reason, he had an indescribable hatred for her.

As long as he saw her, he would be reminded of the events back then, that unbearable past.

“I want you to kill Xue Fanxin and save my nephew. Xue Lianfeng, if you don’t agree, I’ll announce what you did to the world tomorrow, telling them that you killed the Old Master. Don’t think I don’t know that you secretly put a slow poison in the Old Master’s tea; that’s why he died so early. If Xue Liantian finds out about this, do you think he’ll let you off?”

Xue Lianfeng was originally only cold to Su Wanlian, but now, killing intent rose in him. “Do you think you’re still the same Su Wanlian from back then? Do you know why I haven’t let my family have any close contact with the Prime Minister’s Estate all these years? Do you know why your meddling with Hanxi’s marriage fell through?”

The Xue Lianfeng in front of Su Wanlian suddenly looked terrifying. She felt waves of panic in her heart and said nervously, "What... What do you mean?"

"Hmph, I know very well what kind of women come from your Prime Minister's Estate. That Su Baifeng is just like you. She looks beautiful on the surface, but she's actually ruthless. I definitely won't let the men of the Xue family marry the women of your Prime Minister's Estate. Hanxi is the heir I chose, and I won't let you destroy him. As for what happened back then, go ahead and tell if you want. It's already been decades, so it doesn't matter. If you have evidence for the Old Master, go ahead and say it too. If you don't, be careful not to get yourself into trouble. Su Wanlian, what do you think will happen if I tie you up in front of Xue Fanxin and apologize like Yi Qingshan?"

"Xue Lianfeng, you can't do this to me."

"Really? Su Wanlian, look at Su Baifeng. She has a bad reputation and is hated by everyone, like a rat crossing the street. I heard that Su Baifeng captured quite a few doctors recently. Although there's no evidence yet, there's no smoke without fire. Do you think you can hide those dirty things in your Prime Minister's Estate for long? If you want to accompany Su Baifeng, I can fulfill your wish."

"You... You can't do this to me. Back then..."

"Don't mention the past to me. A fly can't bite a seamless egg. You and I are about the same. If you really expose what happened in the past, you'll be even more miserable than me."

Back then, he and Xue Liantian both pursued Su Wanlian. She had wavered between the two and even greedily wanted to obtain benefits from both of them. In the end, he used a little trick to force her to make a choice.

With Xue Liantian's intelligence, he must have known what he had done back then. It did not matter if they hid it.

However, Xue Liantian could not know the truth about the Old Master's death.

Chapter 397: What Happened Back Then (2)

Xue Batian indeed knew that it was Xue Lianfeng and Su Wanlian who had joined forces to frame him. He could guess many details. Although he was quite angry, after so many years, his mindset had changed. He had nothing else to ask of the Xue family and no longer cared about Su Wanlian. He did not hold any grudges in his heart. Now, he only wanted to protect his granddaughter.

"Grandpa, you mean that for the family head position, Xue Lianfeng and Su Wanlian joined forces to frame you and drive you out of the Xue family after your reputation got ruined?"

"If it was back then, these things would indeed make me furious, but it's different now. I'm not interested in the past. I'm not that young and impetuous Xue Liantian, the person who was blinded by love."

He had been too sentimental and heard some sweet nothings from Su Wanlian. He thought that this woman loved him with all her heart, so he did some stupid things for her. He actually listened to her bewitchment and went to ruin the marriage on the day of the wedding. In the end, she was unwilling to

leave with him and even said that she loved his elder brother. She ruined his reputation. Eventually, he was expelled from the Xue family.

He then came to a realization. It turned out that Su Wanlian had never liked him. All of this was just a scheme to help his elder brother seize the position of the family head.

Actually, he had never thought of competing with his elder brother.

“Grandpa, although you’ve already let go, Su Wanlian and Xue Lianfeng might not have. Perhaps they’re plotting something again, especially that Su Wanlian. Do you think she’ll let me off? Her personality is the same as Su Baifeng. Such people won’t admit defeat easily. If they don’t kill the person they hate, they won’t let the matter rest.”

Xue Batian originally wanted to ignore Su Wanlian. From now on, they would go their separate ways. However, after hearing Xue Fanxin’s words, he no longer thought so.

Xin’er was very important to him. He would never allow anyone to hurt her. If Su Wanlian was after Xin’er, he would kill this woman without any hesitation.

“Xin’er, do whatever you want. Grandpa supports you.”

“Ah Jiu is not around. What can I do? I’ll stay in the Lord’s Estate and cultivate. I’ll eat, drink, and sleep well. I just have to pay attention to avoiding the hidden arrows.”

“Hidden arrows?”

“If I’m not wrong, Su Baifeng will definitely play dirty next, so we’ll see what happens.”

Just as Xue Fanxin had guessed, Su Baifeng was indeed thinking of a way to deal with Xue Fanxin, especially the Purple Buddha Bracelet. She was racking her brains to obtain it.

If she wanted to get rid of Xue Fanxin, this was the fastest way. Only by taking off the Purple Buddha Bracelet from her could that vengeful spirit take action.

“Xue Fanxin, if the people of Heavenly Saints City learn that Ye Jiushang is not here, I want to see how good your days will be. Huangyi, spread the news that Ye Jiushang is not in Heavenly Saints City. The sooner the better.”

“Yes.” After Huangyi received the order, she retreated fearfully, even more afraid of the current Su Baifeng.

After their Miss came out of that place, she had changed. She no longer cared about her so-called reputation. Even if the people outside said that she was ruthless, she would not budge. She had become evil.

Was she still their Miss?

1

Chapter 398: Visiting the Bai Family (1)

Xue Fanxin was open-minded. To her, who had experienced life and death once, nothing could make her feel pessimistic. Even if the sky collapsed, she would face it with a smile. Therefore, no matter how much trouble there was outside, she ate, drank, and slept well in the Lord's Estate. She would usually spend her time and energy on cultivation. When she felt like it, she would make everyone a delicious meal.

Everyone in the Lord's Estate knew that Xue Fanxin had good culinary skills. They all hoped that she could cook often, but unfortunately, that was impossible.

After cultivating for an entire day, Xue Fanxin took a hot bath and thought about going to the Bai family tomorrow.

The Bai family was willing to pay such a high fee for that person. Presumably, their status must be extraordinary.

"Your Highness, you're going to the Bai family tomorrow. You have to be careful." Fuyun waited on her by the side. When she thought of her trip, she could not help but remind Xue Fanxin.

"Why should I be careful? Don't tell me the Bai family dares to eat me? We already agreed that I would save the person if I could. If I can't, then there's nothing that can be done."

"I don't know what to say about this either. I feel that this matter is not simple. There are so many famous doctors in Heavenly Saints City, but the Bai family didn't invite them. Why must they invite you, Your Highness?"

"Perhaps it's because my medical skills are better."

"It might be, but I still can't put my finger on it. Zhuri has investigated this matter. Over the years, the Bai family has never invited any famous doctor. Since they haven't invited anyone, how would they know that those doctors can't treat that person? Now, they're spending a lot of money to invite Your Highness to treat him. I feel that there's something going on here."

"If the Bai family wants to scheme against me, then they better be ready for my counterattack. I don't think the Bai family will dare to do this. Otherwise, the four great families wouldn't have come together to give me so many gifts... Forget it, forget it. Let's not think too much about it. We'll know when we go to the Bai family tomorrow."

At most, she would bring Little Lei along. If the Bai family really dared to do anything to her, with him around, her safety would not be a problem.

The next morning, Xue Fanxin washed up. After breakfast, she left with Little Lei and Fuyun.

The current Xue Fanxin was a famous figure in Heavenly Saints City. After the people from the four great clans returned, they promoted her vigorously, making her sound as amazing as possible. Almost everyone knew that the violent woman who was as beautiful as a fairy was Xue Fanxin, the Ninth Consort of the Ninth Lord's Estate.

Su Baifeng watched from a certain tea house as Xue Fanxin walked past on the streets. She gritted her teeth in hatred and almost couldn't help but want to rush out and kill her.

“Don’t be rash. You’re not her match. Furthermore, she’s wearing the Purple Buddha Bracelet and has a powerful young man by her side. If you attack, you’ll undoubtedly die. I don’t have the ability to save you again, so you’d best bear with it.”

Hearing the words of the vengeful spirit in her body, Su Baifeng suppressed the impulse and forced herself not to act recklessly. “Then when can you help me kill her?”

“When you take off that bracelet.”

“Okay.”

How should she remove the bracelet from Xue Fanxin’s hand?

Chapter 399: Visiting the Bai Family (2)

Although Xue Fanxin said that she would visit the Bai family in two days, they were not sure if she would really come.

The Bai family had still made sufficient preparations. They stationed people at the door to welcome her early on and even sent people to the Ninth Lord’s Estate, asking if Xue Fanxin had gone out.

When they learned Xue Fanxin was coming, the Bai family immediately got busy. Not only did they have to welcome her, but they also had to do a lot of preparations, such as dealing with the person who had to be treated.

“Young Master Bai, the doctor we invited is already on the way. He’ll be here soon. I hope you can cooperate later and let her take a look at you.” The Bai family’s family head, Bai Feng, was talking to a white-clothed young master sitting in a wheelchair. His tone was filled with reverence and fear for the person.

The young master wore white clothes, sat in a white wheelchair, and even his hair was white.

“The doctor you’re talking about is that Ninth Imperial Consort from the Ninth Lord’s Estate?” the white-clothed young master asked coldly. There was some disdain in his eyes, and he was filled with arrogance. When he looked at Bai Feng, he gave a disgusted expression. Seeing that Bai Feng was a little close to him, he said unhappily, “Don’t get too close to me. Dirty.”

“Yes, yes, yes.” Bai Feng was so frightened that he immediately retreated a few steps and distanced himself from the young master.

It couldn’t be helped. This Young Master Bai was obsessed with cleanliness. He could not tolerate even a speck of dust on his body, and the same went for the people near him. Otherwise, he would tell you to get lost. Whoever moved too slowly would be sent flying.

Although Bai Feng had withdrawn, he still felt that it was not safe, so he took two more steps back to be at ease. “Young Master Bai, although the Ninth Imperial Consort is a woman, her medical skills are very impressive. The Young Master of the Heavenly Treasure Trading Company, Gu Jinyuan, was cured by her. I think she can help you, so I invited her to see you.”

“How good can a doctor be in such a small place? I’m afraid her reputation is undeserved. I don’t need her to treat me. Let her go back.”

“Young Master Bai, she’s almost here. Why don’t we let her take a look? Perhaps she can really tell something? Just inviting her over has costed a million spirit coins. The starting price of treatment is ten million spirit coins. She said that she would decide the exact figure after seeing you, so...”

“A woman actually dares to ask for such a high price? Then I want to see how capable she is. Go and arrange it. Remember my rules.”

“Yes, yes, yes. I’ll make the arrangements now.” Bai Feng finally convinced the arrogant and mysophobic young master in white. He felt that he had completed a huge mission and was quite relaxed.

However, he still had a lot to do. Thinking about it, he felt that it was not easy.

Xue Fanxin was treated politely by the Bai family, making her feel good. But they did not let her meet the patient and actually asked her to take a bath and change. It confused her.

“I’m only here to treat someone. Why should I take a bath and change?”

“Ninth Imperial Consort, I’m really sorry. That person has a very serious mysophobia. Anyone who wants to approach him within three steps must first take a bath and change into pure white clothes, so...” Bai Han was embarrassed and troubled.

“Why didn’t you make this clear earlier?”

“Well...”

If I had said it, would you have agreed to come?

Chapter 400: Too Exaggerated

Although Xue Fanxin found it a bother, she was already here. She couldn’t possibly return empty-handed, right? Besides, it was only a bath. She could just treat it as enjoyment.

She thought a simple bath would be enough. Who knew...

“There’s no need to go through so much trouble, right?”

The room was full of bathing accessories, and every item was so clean that it glistened. They were really spotless. Yet, quite a few maidservants in pure white dresses were constantly cleaning and repeatedly wiping a piece of furniture.

“Ninth Imperial Consort, please change.” A few maidservants came to help Xue Fanxin. Every maidservant was clean and did not have any makeup on. They had fair faces and were dressed in white. They did not even wear head accessories, at most wearing white ribbons.

1

This was too exaggerated.

Did they have to go so far?

Fuyun wanted to personally help Xue Fanxin, but she was stopped by the maidservant. “Miss, if you want to approach, you have to take a bath first. Otherwise, you have to maintain a distance of ten steps from the Ninth Consort.”

“How is that possible? Your Bai family is too much. Who do you think our consort is?” Fuyun said angrily, worried that there was a trap.

Little Lei was also asked the same, but he was not anxious. Although he was a little far away, he knew Xue Fanxin’s situation. He was certain that she was safe.

“This is Young Master Bai’s request. We’re also following orders. Please don’t make things difficult for us.”

Xue Fanxin heard Fuyun’s voice and was worried that she would make a scene. She shouted from inside, “Fuyun, I’m fine. Just wait outside with Little Lei.”

Fuyun felt a little relieved and waited outside patiently.

Xue Fanxin was soaking in a bathtub filled with flower petals. Two maidservants helped her wipe her hands, feet, neck, and so on over and over again, as if they wanted to brush off a layer of her skin before stopping.

“Be gentler. My skin is about to be peeled off by you!”

The maidservants did not give in and continued to wash her vigorously.

A maidservant tried to take off the Purple Buddha Bracelet on Xue Fanxin’s wrist. When her hand touched it, it suddenly flashed with golden light and sent the maidservant flying.

“Ah...” She hit the window by the side, which broke and she flew out, falling into the flowers. She vomited a mouthful of blood.

Xue Fanxin had not expected the Purple Buddha Bracelet to suddenly release such a powerful force. She sat in the bathtub in shock and looked at the broken window. Thinking back carefully to what had just happened, the more she thought about it, the more she felt that there was something wrong with the maidservant.

The other maidservants did not touch her bracelet, but that one did and even wanted to take it off. What did this mean?

With such a huge commotion, someone from the Bai family immediately came to deal with it. The maidservants in the room helped Xue Fanxin put on her clothes.

Bai Han was the first to rush over. He knew that Xue Fanxin was taking a bath, so he did not dare to barge in. Instead, he waited outside and ordered people to escort the injured maidservant. They would listen to Xue Fanxin.
