### Chapter 421: The Messier, The Better

Little Lei was surrounded by others, making his head hurt. Finally, he shouted, "Stop... If you keep asking questions, I won't even have a chance to speak. How can I answer them?"

"Alright, we won't ask anymore. Quickly tell us." Xue Batian suppressed his anxiety, waiting for Little Lei to speak.

"Ahem, ahem..." Little Lei cleared his throat, then pretended to be experienced and said, "This matter was indeed caused by that evil woman, Su Baifeng. She and the Heavenly Saints Emperor played chess for a long time just to see if Master has really left Heavenly Saints City. After confirming that he's not here, he finally has the guts to interrogate her."

"The Heavenly Saints Emperor wants to interrogate her personally?"

"Yes. The woman instructed me that if she goes on trial, we should start moving. Su Baifeng captured quite a few doctors recently. I've found them though; they're locked in a secret chamber in the Prime Minister's Estate. They're all being used to test and refine poison. She instructed me to blow this matter up. It's best if everyone in Heavenly Saints City knows about it. Everyone will curse the Prime Minister's Estate and arouse the anger of the people. Also, look for Gu Jinyuan..."

"Why are you looking for me?" Gu Jinyuan had already rushed over. The guards of the Ninth Lord's Estate knew of his relationship with Xue Fanxin, so they did not stop him. They let him in directly.

Gu Jinyuan had just returned from outside when he learned that Xue Fanxin was arrested by the Ministry of Justice. He rushed over to ask about the situation. "What happened? Why was Xin'er locked up? Didn't they say that the Heavenly Saints Emperor is afraid of Ye Jiushang? Why did she still end up in prison?"

"You have so many questions!" Little Lei felt a headache coming on as he listened to Gu Jinyuan. He decided to ignore him. "She said that she will try her best to stall for time with the Heavenly Saints Emperor. We need to ruin the Prime Minister's Estate as soon as possible and make the situation chaotic. The messier, the better."

"Xin'er is planning to blow things up even more and then eliminate the enemy in the chaos?"

Sometimes, chaos was not necessarily a bad thing. The more disorderly it was, the easier it would be to cause problems. Especially now that the Prime Minister's Estate was in a whirlpool of troubles. As long as they were pushed a little, they would be drowned by the waves and die without a burial place.

Gu Jinyuan was not stupid and quickly understood Xue Fanxin's intentions. "Alright, I know what to do. Ah Wei, retrieve the accounts of the Prime Minister's Estate and the Heavenly Treasure Trading Company. Do it now."

"Young Master, this might affect the reputation of the Heavenly Treasure Trading Company. Revealing the customer's secret is taboo. I'm afraid in the future, quite a few people will no longer do business with our Heavenly Treasure Trading Company. Furthermore, such a huge thing has happened at the Blue

Sea Villa. If something happens here again, the Heavenly Treasure Trading Company will be greatly affected,” Ah Wei explained the seriousness of the matter.

“That’s not important. You just have to do as I say. I’ll bear the consequences.”

“Young Master, what you’re doing will cause those people above to be dissatisfied. The matter with the Blue Sea Villa has already...”

“Then let them be dissatisfied. I must help Xin’er now. Do it.”

Ah Wei knew that his master’s decision would not be changed easily, so he could only helplessly carry out the order.

For this Ninth Imperial Consort, the Young Master really did not care about anything.

### **Chapter 422: Let’s Make a Bet**

Xue Fanxin had arranged things before leaving with the people from the Ministry of Justice. She asked Little Lei to go to the palace to investigate. If things were really as she had guessed, then he would follow her instructions while she would stall for time.

The Heavenly Saints Emperor did not interrogate Xue Fanxin in the main hall but in the side hall. He did not invite the ministers. Apart from some of his trusted subordinates, there was no one else.

This was a private court.

However, he was the Emperor of the Heavenly Saints Empire. Even if he set up a private court, who would dare to say a word?

“Ninth Imperial Consort, I won’t make things difficult for you. As long as you return the green crystal ores, I’ll let you leave. To be precise, you’re not the Ninth Imperial Consort yet. The Ninth Imperial Uncle didn’t officially marry you. You’re just a nobody. If not for the Ninth Imperial Uncle’s power, would you be able to be so arrogant?”

The Heavenly Saints Emperor went straight to the point. His tone was filled with dissatisfaction. However, because of Ye Jiushang’s power, he chose to bear with it. No matter how much he hated her, he did not dare to really do anything to her.

If Ye Jiushang was in the city, would he dare to touch Xue Fanxin?

But an entire green crystal mine was equivalent to half of the wealth in the Heavenly Saints Empire’s treasury. Recently, the empire had been declining. This wealth was very important, and he had to get it back.

He did not believe that without Ye Jiushang, he, the dignified ruler of a country, could not deal with a little girl.

“Your Majesty, someone accused me of privately mining the royal crystal mine. May I ask if you have any evidence? If you arrest someone for questioning without any evidence and convict me without even investigating, then I’m going to cry out in grievance. I beg the accuser to come and confront me.”

“You...” The Heavenly Saints Emperor had long heard that Xue Fanxin had a sharp tongue. Furthermore, her personality was arrogant, crafty, and barbaric. He thought she only behaved like this in front of ordinary people. He did not expect her to treat him the same way. It was really hateful.

Xue Fanxin knew that the Heavenly Saints Emperor was angry. In order to stall for time, she could only give in. “Your Majesty, the person who accused me was Su Baifeng, right? But have you ever thought about her true intentions? Did she really do it to save her father? There are many ways to save Prime Minister Su. With the financial power of the Prime Minister’s Estate, it’s not difficult.”

The Heavenly Saints Emperor had actually considered Su Baifeng’s intentions. She wanted to use him to deal with Xue Fanxin, but in order to take back those green crystals, he was willing to be used once.

Just as the Heavenly Saints Emperor was thinking about this, Xue Fanxin continued, “I know that to get those green crystals, you’re willing to put up with Su Baifeng, but have you ever thought about how much impact this matter will have? Ignoring how Ah Jiu will treat you after he returns, just based on my own influence, I wonder how much pressure the four great families and the Heavenly Treasure Trading Company can bear?”

“Are you threatening me?”

“I just want to tell you the real situation, in case you neglect a lot of things to recover those green crystals and be used by Su Baifeng for nothing. Why don’t we make a bet?”

“On what?”

“In half a day, let’s see how much the pressure on your side will increase.”

### **Chapter 423: Courting Death**

Xue Fanxin used a scheme to buy half a day.

The Heavenly Saints Emperor was a cowardly and suspicious person. He was ambitious but did not have the guts, and he was indecisive. Although he wanted to take back those green crystals, he was afraid. He hesitated a few times, eventually agreeing to wait for half a day.

If anything huge happened, he would have to change his strategy and try his best to prioritize his own interests.

In this half a day, with the help of Little Lei, Gu Jinyuan, and the others, the four great families and the Heavenly Treasure Trading Company all took action. There was no need to mention the Heavenly Treasure Trading Company. As for the four great families, their minds were much clearer than the Heavenly Saints Emperor. They knew what was really powerful about Xue Fanxin and knew how much potential this little girl had. They were not stupid enough to go against her for some small benefits.

Among the four great families, even the Xue family immediately responded, choosing to stand on her side, let alone the others.

Although the Heavenly Saints Empire was ruled by the Heavenly Saints Emperor, the imperial authority was controlled by the four great families. If they joined forces, they could change the ruler of the Heavenly Saints Empire at any time. But going that far might not be a good thing for the four great families, so they had never thought of doing such a thing.

“Pass down my orders. All the forces that the Xue family has distributed in Heavenly Saints City will be mobilized. Everything related to the royal family will be stopped, especially business dealings. All supplies to the palace will be halted.”

This was an order from Xue Lianfeng.

Xue Hanxi listened from the side and was satisfied. Just as he was about to carry out the order, Su Wanlian ran out and scolded, “Xue Lianfeng, what do you mean by this? Are you going against the Prime Minister’s Estate? I don’t ask you to help the Prime Minister’s Estate, but you can’t help Xue Fanxin either.”

She had just received a secret letter from Su Baifeng. She wanted to join forces to deal with Xue Fanxin, so she had to think of a way to use the Xue family’s power. When she was about to take action, she heard Xue Lianfeng’s orders and was so angry that she couldn’t help but rush in and scold him.

Xue Lianfeng ignored her and said to Xue Hanxi as if nothing had happened, “Do as I say. No matter what, we have to win some favor from Xue Fanxin.”

Yes, in order to win a little favor from Xue Fanxin, they had to work so hard, but it was worth it.

Su Wanlian could not understand Xue Lianfeng’s actions. She only felt that he was biased towards Xue Fanxin and would not hesitate to go against her family for her. This was unacceptable for her, and she was raging. “Xue Lianfeng, are you really going to treat me like this?”

“It’s not that I want to treat you like this, but your Prime Minister’s Estate is courting death. Do you really think that Xue Fanxin is so easy to handle? Anyone with a little brain will avoid confronting her. You’re stupid, but we won’t be stupid with you. So what if Ye Jiushang isn’t around? Just that young man by her side can raze your entire Prime Minister’s Estate to the ground with a slap. Adding the Heavenly Treasure Trading Company, these two forces alone are something your Prime Minister’s Estate can’t deal with. You even want to fight with Xue Fanxin. It looks like Su Baifeng’s reputation is undeserved. How can such an idiot be called a talent?”

“How... how is this possible?” Su Wanlian’s mind was blank, and her heart was a mess. She had already forgotten why she was here.

Was it really as Xue Lianfeng said? Was their Prime Minister’s Estate courting death?

#### **Chapter 424: Really Stupid**

When the Xue family took action, the Lian, Yi, and Bai families also followed suit. Bai Wuchen personally moved.

“Pass down my orders. The three great sects will temporarily stop recruiting new disciples in the Heavenly Saints Empire.”

He had originally been thinking about how to express his goodwill to Xue Fanxin and ease their tensions. Then, he would invite her to treat him. An opportunity had now come knocking on his door, so he naturally had to seize it.

He really admired that useless ruler of the Heavenly Saints Empire. He even dared to provoke the people from the Nine Cloud Palace. He was tired of living. And that Su Baifeng was stupid too. He did not know where she got the confidence to fight with Xue Fanxin.

Even he could not win against that little girl. Those people were overestimating themselves.

While the Heavenly Treasure Trading Company and the four great families were using their influence, Su Baifeng went to meet with the Ghost King. However, no matter what she said, he only smiled. He finally said to her, "So you're really stupid."

"Ghost King, I know that what happened back then made you hate me, but Xue Fanxin is our common enemy. What's wrong with us joining forces? We can definitely get rid of her when Ye Jiushang is not around, right?"

"Why should I mess with an unrelated woman?" the Ghost King asked with a sinister smile, looking at Su Baifeng with a mocking gaze.

Back then, it was because of this woman that he had become enemies with Ye Jiushang and his mother had died. If he really wanted to get rid of someone, Su Baifeng would be on the top of the list.

He hated Ye Jiushang and Su Baifeng. Even if Xue Fanxin was the woman Ye Jiushang liked, what happened back then had nothing to do with her. He did not hold any bad feelings for her. Instead, he disliked Su Baifeng quite a lot.

Su Baifeng could not understand the Ghost King's thoughts and felt that his reaction was completely wrong. She got a little agitated. "How can Xue Fanxin be unrelated? She's the person Ye Jiushang likes. Killing her can cause a huge blow to Ye Jiushang. Isn't that a good thing for you?"

"In comparison, I prefer to get rid of Ye Jiushang. I have no interest in wasting time on someone unrelated to what happened back then. Furthermore, she's not so easy to handle. You're not her match. Be it strength or intelligence, you lose to her by a large margin."

"What did you say?"

"The truth is ugly. Whether you like it or not, that's the truth. You want to join hands with the Heavenly Saints Emperor and me to deal with Xue Fanxin. Can't Xue Fanxin do the same with the Heavenly Treasure Trading Company and the four great families? If I'm not wrong, her counterattack has already begun. This time, your Prime Minister's Estate will pay an extremely heavy price."

"That's impossible." Su Baifeng was unwilling to accept it. She did not think that Xue Fanxin had that ability. "Ghost King, even if you don't want to cooperate with me, you don't have to say these words to attack me."

"Attack you? If you don't believe me, you can go out and take a look."

"Look at what?"

"The situation in Heavenly Saints City. Look at how those shady things you did in the dark have been dug up. Those doctors who disappeared some time ago should have been saved by now."

Hearing this, Su Baifeng knew that things were bad. She could not be bothered to talk to the Ghost King anymore and left in a hurry.

The Ghost King did not stop her. He sneered as he watched her leave. Then, he muttered to himself evilly, "A self-righteous and stupid woman who is courting death."

### **Chapter 425: All Confused**

With Little Lei's help, Zhuri, Xue Batian, and Fuyun infiltrated the Prime Minister's Estate and came to an underground secret room. They saved all the doctors who had been used to test and refine poison.

The people of the Heavenly Treasure Trading Company were prepared to take those doctors. With their cooperation, the evil deeds of the Prime Minister's Estate were all made public, especially Su Baifeng's true appearance.

"I didn't expect Su Baifeng to be such a vicious person. She actually used living people to refine and test poison. How hateful. Those doctors are really pitiful!"

"It's more than hateful. It's terrifying!"

"If anyone marries such a woman, they will be unlucky for eight lifetimes."

"No wonder the Ninth Imperial Uncle doesn't like her. He's so powerful. Perhaps he already knew her personality."

"It might really be like this."

Su Baifeng ran out of the Ghost King's place to return to the Prime Minister's Estate. Halfway through, she heard rumors of her evil deeds. She was panicked and did not dare to appear in front of others. She chose a place with fewer people and secretly returned to the Prime Minister's Estate. She went to the secret chamber, but it was empty. Even the people who died had disappeared.

"How could this be?"

She thought that her plan was flawless. She had taken Xue Fanxin's counterattack into consideration, but she did not think that it would be so fast. It had only been half a day, but things had already gone out of her control.

Could it be as the Ghost King said? Was she no match for Xue Fanxin?

"Impossible. How can I not be her match? I, Su Baifeng, have been a proud daughter of heaven since I was young. I'm peerless. How can I be inferior to a little girl? This is impossible.

"I won't admit defeat just like that, never." Although Su Baifeng was unwilling to accept it, she had no choice now. The only thing she could think of was the vengeful spirit in her body. But despite calling it recently, there was no reply. It ignored her. There was no movement at all as if it did not exist.

Without the vengeful spirit's help, she did not know what to do.

"Feng'er, Feng'er, are you there?" Prime Minister Su had just come home and had yet to sit down when such a big thing happened. Anxious, he came to look for his daughter to discuss countermeasures.

“Father, I have something urgent to do, so I can’t speak with you.” Su Baifeng left in a hurry. In the blink of an eye, her dark figure had disappeared, heading toward the palace.

She had to take action before Xue Fanxin left the palace, or she would never have such a good chance again.

Xue Fanxin was sitting in the side hall. Although she was on the ground, she was very comfortable. She took out the snacks she had brought with her from her space and ate while waiting.

The Heavenly Saints Emperor did not say anything. He only glared at her and waited for the situation to unfold. Before half a day had passed, someone hurriedly came to report.

“Your Majesty, Your Majesty, something bad has happened. The four great clans and the Heavenly Treasure Trading Company have stopped all of the royal family’s business. In less than two hours, all our shops have been affected and are in a mess. Also...”

“What else?”

“The three great sects have decided to suspend the recruitment of new disciples in the Heavenly Saints Empire.”

“What?”

#### **Chapter 426: It’s Not Over**

Xue Fanxin guessed that Gu Jinyuan and the four great clans would more or less help her, but what was going on with the three great sects?

Before coming to prison, she even beat up the people from the Flowing Cloud Sect. Among the three great sects, at least the Flowing Cloud Sect would not stand on her side. It was already good that they did not hit her when she was down. How could they help her?

But from the report, the three great sects were indeed helping her.

What was going on?

The Heavenly Saints Emperor was shocked and panicked. He felt that the sky above his head was about to collapse. He looked at Xue Fanxin in disbelief. Even now, he did not understand why this little girl could predict things so accurately, nor did he understand why she had such great influence.

In less than half a day, the pressure he had to bear was almost overwhelming. Ignoring the four great clans, just the fact that the three great sects had stopped recruiting new disciples was extremely impactful to the Heavenly Saints Empire. It was fatal.

If the Heavenly Saints Empire did not have anyone from the three great sects, it was equivalent to losing a backer. A small country that was at the edge of the secular world and the cultivation world without any backer would not be able to survive. It might even be destroyed by other countries.

Now that the Heavenly Saints Empire was declining day by day, if the news spread, their enemies would swiftly take action. At that time...

The more Heavenly Saints Emperor thought about it, the more he recognized the gravity of the matter. He suddenly realized that he had done something stupid. He actually listened to Su Baifeng and attacked Xue Fanxin. He must be kicked in the head. Furthermore, there was no evidence at all that she had mined the mineral vein, yet he still captured her. This...

“Your Majesty, don’t be anxious. It’s not over yet. Let’s wait a little longer.” Xue Fanxin glanced at Heavenly Saints Emperor’s face, which was about to turn green from panic. This made her really happy.

No wonder the four great families were willing to let the Heavenly Saints Emperor sit on this dragon chair. Such a brainless ruler had ambition but no courage. It was not difficult to control him.

“There’s actually something else? What else is there?” The Heavenly Saints Emperor’s mind was buzzing. He was falling apart, and his entire body was covered in a cold sweat. Just the thought of being abandoned by the three great sects scared him out of his wits.

Another person ran over to report. “Your Majesty, something bad has happened. Su Baifeng is refining poison with living people in the Prime Minister’s Estate. This matter has been exposed and caused a lot of public resentment. Not only is the Prime Minister’s Estate surrounded by thousands of people, but even the palace entrance is the same. The people are saying that they want the Emperor to give them an explanation.”

“What? Those lowly commoners actually dare to do this? Who gave them the guts?”

Ordinary people definitely did not have the courage to surround the palace gates. Even if they did, they could not attract such a large crowd. This must be the four great clans pushing and helping behind the scenes.

The Heavenly Saints Emperor no longer dared to treat Xue Fanxin as an insignificant little girl. He suddenly realized that she was like Ye Jiushang—unfathomable.

### **Chapter 427: Nonsense**

Xue Fanxin munched on her snacks while looking at the panicked Heavenly Saints Emperor. His face was like a pig’s liver, and his expression was very ‘rich.’ She could not bear to see him like this, so she finished the snacks, clapped her hands, and wiped her mouth. She put the plate back into her storage bag, then stood up and walked towards the Heavenly Saints Emperor.

The eunuch went forward and stopped her according to the rules. “What do you want to do? You can’t lose decorum in front of the Emperor.”

“I just want to have a good chat with him. I don’t have any ill will.” Xue Fanxin stopped in her tracks. She sat on the steps, looking casual. Although she looked unruly, she gave off a carefree feeling, making people feel inexplicably envious.

The Heavenly Saints Emperor waved at the eunuch and gestured for him to leave. Then, he stood up and walked toward her. He sat on the steps with her. He no longer had the aura of a ruler. Instead, he was like a disappointed old man. After sighing for a while, he asked, “What do you want to talk to me about?”

“Your Majesty, you must be feeling terrible now, right?”

“You’re asking the obvious. I know that you were the one who caused these things. Tell me, what must I do for you to stop?”

“Your Majesty, although I am the perpetrator, I was also forced! You only listened to Su Baifeng’s one-sided story and imprisoned me, even accusing me of privately mining. Of course, I have to counterattack. Your Majesty, let me ask you, who discovered the green crystal mine in the Red Maple Forest first?”

“The Prime Minister’s Estate.”

“Since they discovered it first, why was I the one who privately mined it instead of them? From what I know, this mineral vein has been in their hands for a while. If Su Baifeng had not gone to Gu Jinyuan to discuss cooperation that day, I would not have known about its existence at all. Think about it. After I found out about it, it was emptied in a few days. Is that realistic? On the other hand, the Prime Minister’s Estate kept it hidden while Su Baifeng went to meet with Gu Jinyuan. I guess her so-called cooperation was not to mine but to get his help in selling the goods.”

The more the Heavenly Saints Emperor listened to her detailed analysis, the more he felt that it made sense.

The reason he believed Su Baifeng was first because he was anxious to retrieve the green crystals, and second, he did not believe that the Prime Minister’s Estate had such guts.

Su Baifeng actually used living people to refine poison. He could not help but wonder how bold those people from the Prime Minister’s Estate were.

“Continue,” the Heavenly Saints Emperor said solemnly, listening and thinking seriously.

Xue Fanxin smiled. “It was precisely because they were no longer the only ones who knew about the Red Maple Forest mineral vein that the Prime Minister’s Estate reported the matter to the higher-ups. They said that they wanted to offer it to the royal family, but when they handed it over, they realized that the mineral vein was empty. Who knows what was right and wrong? Later, there was a rumor in the Prime Minister’s Estate that the treasure vault had been robbed. How could it be such a coincidence? Perhaps it was just a show they staged to transfer their wealth.”

Look at the things she made up. They were really logical, reasonable, and convincing. Even she almost believed it.

“You make sense.” When the Heavenly Saints combined everything, he felt that this was the truth.

Right then, a ruthless and sharp voice suddenly interrupted them. “Xue Fanxin, don’t talk nonsense.”

### **Chapter 428: Give Me Your Life**

A black shadow flew into the side hall and transformed into a human. A beautiful woman in a black robe descended from the sky.

This person was none other than Su Baifeng.

She was anxious to rush to the Imperial Palace and wanted to try and kill Xue Fanxin. If she succeeded, that would be good. If she failed, she could only choose to give up and work hard to protect her life. She would come back when she became stronger.

Last time, she had lost so miserably because she had been careless. Now, she would definitely not repeat her mistakes, nor would she underestimate her enemy. As long as she gave it her all, she might really be able to kill her.

“Xue Fanxin, I didn’t expect you to be so good at talking nonsense. You clearly mined the green crystal mine in the Red Maple Forest yourself, but you’re lying through your teeth here and falsely accusing me. You’re too detestable.”

“May I ask if you have any evidence? Please don’t accuse me without any proof.” Xue Fanxin was not surprised that Su Baifeng had appeared. She remained seated and looked at her coldly, her face filled with a sinister smile.

Su Baifeng hated Xue Fanxin’s confident expression. With a murderous aura, she said, “Do you still need evidence? That day in the First Restaurant, apart from Gu Jinyuan, you were the only one present. He already knew about the mine, but he didn’t make a move. He must not be interested in it. But you’re different. Everyone in Heavenly Saints City knows that you love money. You must have privately mined it. Don’t quibble.”

“Just because I love money, I emptied that green crystal mine? Your logic is really good! Besides, are you sure that only Gu Jinyuan and I know of that mineral vein?”

“You...” Su Baifeng knew that Xue Fanxin had a glib tongue. She understood that if she continued to bicker, she would not gain anything. It would be a waste of time and might cause more trouble.

No matter who had mined the green crystal mine, it was no longer important. The main point was to get rid of Xue Fanxin, her enemy.

Su Baifeng suddenly attacked, wanting to kill Xue Fanxin. “Enough nonsense. Give me your life.”

“Back at you. Give me your life.” Xue Fanxin was already prepared. When Su Baifeng attacked, she responded. The two of them started fighting in the side hall.

From the beginning to the end, the Heavenly Saint Emperor did not have a chance to speak. When he saw Su Baifeng appear in the side hall like a ghost, he was really frightened. Before he could recover, the two women who were arguing fiercely had already started fighting. They went from the inside to the outside in only two or three moves, but this was good, in case they hurt him.

“Your Majesty, do you need me to get someone to capture them?” the eunuch asked. Actually, he was quite nervous.

“Capture? Who do you think can capture them?” the Heavenly Saint Emperor retorted. He had woken up and was secretly glad that he had not provoked Xue Fanxin completely. As for Su Baifeng... he did not seem to have offended her much either, right?

In the future, he would not care about these two women anymore. He would let them fight.

Even if he wanted to stop them, he could not. Without strength, there was no need to say anything else.

## Chapter 429: The Most Powerful Killing Move

After Xue Fanxin's battle with Su Baifeng, her strength improved quite a lot. She was only a little bit away from the Spirit Transformation Realm.

But she felt that she could not cross this small distance no matter what. Just now, while fighting with Su Baifeng, that threshold seemed to have loosened. Her intuition told her that as long as she fought for a while more, she could advance to the Spirit Transformation Realm in.

She seemed to be lacking something.

"Su Baifeng, is that all you've got? It's no different from last time. You lost so badly, and this time won't be an exception."

"Xue Fanxin, don't be too arrogant. I'll tear you apart soon." Because Su Baifeng couldn't kill her, she became anxious. Her attacks got chaotic, and in the end, she lost her rhythm.

The more she fought like this, the worse the effects were. In the beginning, she could barely fight Xue Fanxin to a draw, but now, she was being suppressed and beaten. This made her even angrier.

Damn it, why had Xue Fanxin become stronger again? Her strength increased too quickly.

"Su Baifeng, show me what you got! Why do I feel that you're getting weaker? You're so weak, yet you still want to kill me. How ridiculous." Xue Fanxin provoked her with words, hoping that she could erupt with more strength. This way, she could use the pressure Su Baifeng gave her to break through.

But the other party had already reached her limit. She was fighting crazily. "Xue Fanxin, I'm going to kill you."

Su Baifeng lost her mind and fell into madness, waving the black sword in her hand like a crazy woman. She forgot her plan. The vengeful spirit in her body did not come out to remind her either and just let her do as she wished.

"With your little ability, you can't kill me. Why don't you call out that vengeful spirit? If the two of you join forces, you might have a chance of winning."

Su Baifeng finally remembered that there was a vengeful spirit in her body. She tried to call it, but there was no response.

"Come out, do you hear me? I want you to come out and help me kill her. Come out quickly.

"Come out.

"Come out."

The vengeful spirit mocked secretly. *Come out and do something stupid like you?*

Why had he chosen such a stupid host? He really regretted it.

"That vengeful spirit doesn't seem to want to help you!" Xue Fanxin sneered. She wanted to use Su Baifeng to cross the threshold of the Spirit Transformation Realm, but to avoid unnecessary trouble, she had to quickly kill her.

After making up her mind, Xue Fanxin used her killer move. She did not hesitate to use the second tier of the Reverse Spirit Art, adding the Xue You Sword Art and the Heavenly Spirit Butterfly Dance. This time, the Heavenly Spirit Butterfly Dance was not for defense but offense. This was equivalent to a killer move executed by the combination of three powers. It was her strongest attack.

Although she would be exhausted, as long as she could kill her, everything was worth it.

“Su Baifeng, go to hell.”

### **Chapter 430: Butterfly Dance Flying Flowers**

Although Su Baifeng was in a state of madness, she could still sense the horror of Xue Fanxin’s move. At the moment of life and death, the first thing she thought of was how to protect her life.

But this move was too powerful. Before it was even unleashed, she felt her body get locked by an invisible force, restraining her movements. She could only watch helplessly as the terrifying killing move came for her.

“No...” Su Baifeng was frightened. She knew that if she got hit, she would die. In a moment of desperation, she could only seek help from the vengeful spirit. “Save me. Save me. If I die, your vitality will also be greatly damaged, right?”

“Save me, save me...”

The vengeful spirit did not respond. Even if Su Baifeng was going to die, he did not care.

Back then, if Su Baifeng’s resentment hadn’t been strong enough, he would never have chosen her as his host. Who knew that this woman only had powerful resentment without any brain?

Anyway, he had already left that damned place. It was not difficult for him to find a new host. He would rather spend his energy finding the next host than save this idiot.

“Quickly save me. No...” Despite repeated calls, the vengeful spirit did not come. She was even more panicked. Seeing that Xue Fanxin’s terrifying killing move was about to hit her, the fear she had before death reached the extreme. She forgot everything, including her resistance.

Was she really going to die like this?

She didn’t want to accept it. She did not want to die.

When Xue Fanxin used that killer move, she realized that the vengeful spirit in Su Baifeng’s body had yet to come out. She was secretly delighted. She could finally kill her for good.

Right then, countless petals flew over from the sky. Every petal was like a sharp blade, carrying powerful energy as they dissolved more than half of her attack.

When only half of the power was left in the killer move, a beautiful woman in bewitching clothes descended from the sky and blocked in front of Su Baifeng, condensing a flower-shaped shield. Then, she swept her sleeve and shot out countless petals to counterattack Xue Fanxin.

The sudden situation made Xue Fanxin depressed, but she could not think too much. She had to deal with the counterattack.

Xue Fanxin used the Heavenly Spirit Butterfly Dance again. Countless butterflies resisted the petals, creating a chaotic scene of butterflies dancing and flying. Many butterflies and petals turned into light spots and disappeared during the collision.

In the beginning, the butterflies and the petals could fight evenly, but later, the butterflies slowly fell into a disadvantage.

This meant that the person was far stronger than her.

That damned Su Baifeng. Her luck was too good. There were experts saving her every time. How detestable.
