

## Physicist 591

### Chapter 591: Brother Jinyuan

Xue Fanxin knew that even if the golden needles pierced the bottom of the earth-burrowing rats' necks, it would not take their lives. It would only hurt them. Just in case, she jumped down from the tree and killed the earth-burrowing rat with her dagger.

While she killed one, the other two immediately flew over. They were furious, clearly angry that their companion had been killed. They looked like they wanted to tear Xue Fanxin apart. They used all their strength in their jump, revealing their sharp teeth and claws.

Facing the desperate attacks of the two enraged earth-burrowing rats, Xue Fanxin did not dare to fight them head-on and quickly dodged.

However, the earth-burrowing rats were quite agile. They swiftly reacted and changed directions to attack her again.

Xue Fanxin dodged the rats again while holding silver needles. As long as there was a chance, she would make her move.

However, the rats had learned to be smart. They protected their weakness very well. It was tough for Xue Fanxin to retaliate.

"These two big rats are quite smart."

If the demonic beast was smart, she would be miserable.

If she could not kill these two earth-burrowing rats, she could only escape. But that would not do. The mission Ah Jiu had given her was to kill these rats.

"I want to see how capable you are." Xue Fanxin did not retreat. She repeatedly dodged their ferocious attacks, but after jumping up and down for an hour, she still could not find an opportunity to land an attack.

If this continued, she would die of exhaustion before she could kill these two earth-burrowing rats.

Ye Jiushang and the others started to get worried when Xue Fanxin did not return.

"Grandson-in-law, Xin'er has been gone for more than two hours. Will she be in any danger? She's not familiar with this place. If anything happens, it will be bad." Xue Batian was the most anxious. He had already asked the same question dozens of times.

The others were also concerned, but they did not show it like Xue Batian.

Little Lei, on the other hand, looked carefree. As he ate the roasted meat, he said, "With Master around, you can rest assured. This roasted meat is really disgusting. It's so disgusting. Gu Jinyuan, can you give me that skewer in your hand?"

Gu Jinyuan was actually not too worried about Xue Fanxin either. This was because he knew that Ye Jiushang would not let anything happen to her. He calmly cooked his meat. He was studying how to make delicious roasted meat. After repeated failures, he finally found a way.

“It smells so good! Brother Jinyuan, can you give me this skewer?” The more Little Lei looked, the more he found it delicious. He threw away the black roasted meat in his hand and came to Gu Jinyuan’s side. He looked like he was currying favor, and his mouth seemed to be smeared with honey as he spoke especially nicely.

Everyone was speechless toward a foodie like Little Lei who had no principles. However, they were already used to it.

Ye Jiushang was drinking tea. Although he looked motionless, he had actually been paying attention to Xue Fanxin’s every move. He was prepared to attack at any moment.

This was his little consort’s first time fighting a demonic beast. How could he really ignore it?

### **Chapter 592: Wait Where You Are**

Xue Fanxin was running for her life, not knowing where she was. There were only trees around her, and she could not tell direction at all.

“You two annoying big rats, I’ll skin you alive later.”

The earth-burrowing rats were also enraged. First, their companion was killed, and then, they were toyed around by a weak human. How could they not be angry?

Frenzied demonic beasts were the most terrifying. They did not have much intelligence to begin with, only relying on their natural savagery to do everything. Unless they really felt fear, they would continue to act recklessly.

Xue Fanxin was powerless to resist. She was being chased by the earth-burrowing rats into the deep mountains. Her clothes got torn by tree branches and rocks, and even her skin had been scratched in all kinds of ways. However, she did not have the time to care about these small injuries. She was running for her dear life.

These two earth-burrowing rats were different from the previous ones. They were more than twice as strong and knew simple spirit arts. They were not something ordinary low-level cultivators could deal with.

“Ah Jiu, Ah Jiu, are you trying to kill me?” Xue Fanxin complained. She did not know her current location. She only knew that she had been running for a long time.

She suddenly realized that the rats had stopped chasing her. They stood rooted in their spots. The anger in their eyes had been replaced with panic. At this moment, they were trembling as they slowly retreated.

Xue Fanxin sensed that something was wrong and had a bad premonition. Not daring to run forward, she retreated in the direction of the earth-burrowing rats. She knew that the only way to be safe was to go that way.

Just as she took a step back, she seemed to have been tripped by something. Looking down, she realized that a small tree vine had wrapped around her foot. She bent down to shake it away. Unexpectedly, when her hand touched the tree vine, it actually moved...

The small tree vine wrapped around her ankle erupted with a powerful force, dragging her deeper into the forest.

“Ah...”

Ye Jiushang sensed her disappearance. His words sounded in the air. “Everyone, wait where you are.”

After Ye Jiushang left, the restrictions on everyone were removed. However, no one dared to act rashly. They all sat tight and waited.

Xue Batian was uneasy, but he did not know what to do. He asked Little Lei, “Little Lei, is Xin’er in danger?”

Little Lei still said with a carefree expression, “Grandpa Xue, don’t worry. With Master around, nothing will happen no matter how serious it is.”

However, looking at his master’s reaction, that woman seemed to have encountered something important.

There were at most Rank Five demonic beasts active in the Yunling Mountain Range. Master could casually blow on them and destroy all the demonic beasts, so there was no need to worry.

“Grandpa Xue, don’t worry. Come, eat meat. Gu Jinyuan’s cooking has gotten pretty good.”

Xue Batian was not in the mood to eat. Even though he knew that Ye Jiushang was powerful and would definitely bring his precious granddaughter back safely, he was still worried!

### **Chapter 593: Really Panicked**

Xue Fanxin got dragged by the tree vine. At first, she was only pulled to the ground, but later, she was hauled underground. She tried to struggle, but it was futile. She even thought of using the Reverse Spirit Heaven Wheel’s space to escape but nothing. All the spirit energy in her body was sealed, and she could not open the space.

Although entering the Reverse Spirit Heaven Wheel was only a matter of thought, it required a little spirit energy to open the spatial rift. If all the spirit energy in her body was sealed, the portable space in her body would be rendered useless.

“Damn it, let go of me.” Xue Fanxin was pulled underground. Her body rubbed against the ground countless times, and many places were badly mutilated. It was extremely painful, but she did not have the time to care about this. She grabbed quite a few things along the way, wanting to stop herself.

However, her strength was ultimately no match for the tree vines. Instead, her hands were covered in blood injuries.

She had a feeling that if things continued like this, she would definitely die.

With all her spirit energy sealed, not only was she unable to open the Reverse Spirit Heaven Wheel, but she was also unable to summon the Xue You Flute...

All the power in her body seemed to be locked by another stronger force. She could not do anything.

Xue Fanxin realized that a huge morning glory was opening its mouth at her. She could see many sharp teeth. Something instantly appeared in her mind: a man-eating flower.

If she could not escape, she would definitely be eaten by this huge man-eating flower.

Just as she was feeling helpless, a purple light flew over and pierced through the vines around her ankles. However, her body continued to move forward due to inertia. Inches away from the mouth of the man-eating flower, she fell into a firm and warm embrace.

Immediately after, the huge flower was killed by a purple bolt of lightning.

Although Ye Jiushang had arrived in time to save Xue Fanxin, he still had lingering fear and blamed himself. "Xin'er, let me see if your injuries are serious."

In his guilt, he lost some of his usual steadiness. His panic was obvious.

How could he not panic though?

He had thought that nothing in the Yunling Mountain Range could exceed his control, but he then sensed that there was a huge creature here that Xin'er could not deal with. He rushed over.

Despite hurrying over, the person in his arms was covered in injuries, all caused by his negligence. His heart ached, and he blamed himself.

"Ah Jiu, I'm fine. These are just scratches." Xue Fanxin did not want Ye Jiushang to be too worried. No matter how painful her injuries were, she pretended that they did not hurt. However, it was too painful, foiling her attempts to hide it.

How could Ye Jiushang not see how serious Xue Fanxin's injuries were? Without hesitation, he took out a top-grade pill and brought it to her mouth. "Take it."

Xue Fanxin was an alchemist and more or less knew a little about pills. She was shocked to see the pill. "Ah Jiu, what pill is this? It looks very high-grade."

"I'll tell you after you eat it." Ye Jiushang knew that Xue Fanxin could not bear to eat it. He stuffed the pill into her mouth.

No matter how precious this pill was, it was not as important as his Xin'er.

## **Chapter 594: Xin'er Is Number One**

Xue Fanxin was still thinking of studying the pill when Ye Jiushang pushed it into her mouth. It melted and merged with her saliva. Before she knew it, it went down her throat, leaving nothing behind.

She only tasted a few precious spirit herbs in the medicine.

It was obvious that this pill exceeded her understanding. It was not something she could refine at the moment.

In fact, she could not refine any good pills at all. Those pills were all thanks to the Nine Revolutions Burning Yang Furnace.

“You’ll find out about this pill in the future. There’s no need to worry.” Ye Jiushang checked her injuries. He was relieved upon learning that she was fine. Recalling what had just happened, he still felt a lingering fear.

Today’s matter had taught him a serious lesson. He could not joke about Xin’er’s safety at any time. He had been too careless.

Next time... there would not be a next time. Absolutely not.

He could not bear the outcome of losing Xin’er, so there would never be a next time.

Xue Fanxin knew that Ye Jiushang was blaming himself. What had happened today had caused a huge psychological trauma for him. He was still panicking. Seeing Ah Jiu like this made her heart ache, so she comforted him. “Ah Jiu, this is not your fault. Don’t blame yourself. It’s all on me. I didn’t know my place and was chased by two earth-burrowing rats. It would have been fine if I had stayed in the area, but I ran to a dangerous place. All of this is my fault. You didn’t do anything wrong. I was too weak and had no combat experience.”

These were not just words of comfort but also the truth.

If she had rich combat experience, even if she could not defeat these two rats, she would not have been forced to this extent. She had been in such a sorry state and had even almost lost her life. It was all her fault. She could not blame Ah Jiu.

In short, she was too weak.

Ye Jiushang gently touched the wound on Xue Fanxin’s face and said with heartache, “Does it still hurt?”

“It doesn’t hurt anymore. That pill is very magical. Not only did it treat all kinds of injuries on my body, but even the pain is gone! If you still feel guilty, then blow on it for me.”

“Alright.” A certain cold lord really foolishly blew on her wound. After blowing on it a few times, he even kissed it gently. “Xin’er, I won’t let you go through anything like that again.”

“You’re still thinking about this? They say that fortune and misfortune are linked, and fortune comes from danger. Perhaps I’ll get lucky again and encounter something good.”

Seeing her smile, Ye Jiushang felt a lot better. He stopped dwelling on it and said dotingly, “Oh you, I really can’t do anything about you. What you said makes sense. You’re indeed lucky. There’s good stuff in this place.”

Xue Fanxin's eyes lit up. "What good stuff?"

"I can't be sure if it's that thing, so I want to go in and take a look."

"Treasure hunting! I like it the most. Hurry up."

"Don't be anxious. You're still injured!" Ye Jiushang pulled Xue Fanxin back, lest she pulled on her newly healed wound.

Although that pill had miraculous effects, it was impossible for her injuries to recover completely so soon. She needed to rest for a few more days.

Initially, he had planned to let Xin'er break through before leaving the Yunling Mountain Range. Now, it seemed like they could only go back and recuperate.

Xin'er was the number one in everything.

### **Chapter 595: Wood Spirit Heavenly Pearl**

Ye Jiushang did not let Xue Fanxin search for treasures. He only relaxed after he confirmed that she was alright.

Xue Fanxin changed into clean clothes in her space. She tidied herself up and waited for a certain lord's permission before starting her hunt for treasures.

Treasure hunting was one of her favorite things. She could not wait to see the treasures here.

To be able to make Ah Jiu say that it was a treasure, it must be extraordinary.

How could Ye Jiushang not see Xue Fanxin's impatient expression? He shook his head helplessly and said, "Let's go. If I'm not wrong, there must be a universe in this cave."

They were in an underground cave whose entrance was guarded by a huge man-eating flower. The surroundings were filled with all kinds of poisonous herbs and flowers, and there were quite a few poisonous insects. It was an extremely dangerous place. If it were anyone else, as long as they had just unsealed the cave, even if they were not eaten by the man-eating flower, they would be killed by the poisonous herbs and insects.

The Yunling Mountain Range was not too dangerous in the Mystic Realm. Many juniors of the families would come here to train.

However, who knew that such a dangerous cave would be hidden here?

She wondered how many people had died here over the years.

"Ah Jiu, the flowers and grass are growing well. There aren't many dead leaves, and they look lively." Xue Fanxin held a large Night Pearl. Along the way, she could see the flowers and grass beside her clearly.

She had never seen much of the flora here, so she did not dare to touch them easily.

Ye Jiushang used a spiritual aura barrier to isolate the two of them, not letting the surrounding plants touch them.

Not only were the depths of the cave dark, but there were also all kinds of plants growing. Some of them had developed spirituality and were aggressive. When Ye Jiushang and Xue Fanxin approached them, they would launch an attack, which was blocked by the isolation barriers.

The plants withered when they touched the barrier. No matter how spiritual they were, they would die.

The cave was long. They did not reach the end despite walking for a long time. The deeper they went, the denser the plants and the more exuberant the vitality. All kinds of plants were entangled together, blocking the way ahead.

The vegetation was either filled with thorns or poisonous creatures. It was impossible to touch them.

However, Ye Jiushang only waved his hand gently. A faint purple light flowed out of his fingertips. When it landed on the vegetation, it withered.

Although Xue Fanxin was curious about the plants, she did not touch them recklessly. After walking for a long time, she did not find anything good. "Ah Jiu, are you sure there's a treasure here? We've been walking for so long. If we continue, I wonder where we'll end up. Such a deep cave. If it collapses, we won't even have a chance to escape."

"I wasn't sure previously, but now I'm 90% confident," Ye Jiushang said. Apart from an extremely difficult-to-detect glint in his eyes, he was very calm. It was as if the so-called treasure in the cave did not move him much.

However, Xue Fanxin was thrilled. "Ah Jiu, what treasure is it? Quickly tell me."

"Wood Spirit Heavenly Pearl."

### **Chapter 596: Ten Great Heavenly Pearls**

"What is the Wood Spirit Heavenly Pearl?" Xue Fanxin asked curiously, certain that it was something good.

Since she had encountered a good thing, she would not miss it. Furthermore, this was a treasure she had risked her life to encounter.

"When the universe was first created, everything in the various worlds was in a chaotic state. They were invisible and formless, and there was only the purest spiritual energy. This spiritual energy used countless years to nurture the ten great heavenly pearls. Only then did the world have different elemental spirit energy. These ten great heavenly pearls were metal, wood, water, fire, earth, wind, lightning, ice, light, and darkness. They got scattered everywhere and nurtured small worlds and living beings. Later, people were born. Human nature is greedy. Once they learned about the pearls, countless people fought over them, causing one bloody storm after another. The pearls gradually disappeared. Now, very few people know of their existence."

Even those who knew of the existence of the ten great heavenly pearls did not know where they were. They were really difficult to find.

“It all sounds impressive. This Wood Spirit Heavenly Pearl is one of the ten great heavenly pearls, right? Since this heavenly pearl has such an extraordinary background, why doesn’t anyone know about it?”

“I’m not sure either. From what I know, the last time the ten great heavenly pearls appeared was a thousand years ago. There were only three of them. The whereabouts of the other seven heavenly beads are still unknown. As early as ancient times, the ten great heavenly pearls had already vanished. Many mighty figures guessed that the pearls had returned to the chaos, so there was no trace of them.”

He also shared the idea. Now, it seemed like that was not the case. Perhaps they were just waiting for someone fated with them.

Ye Jiushang could not help but look at Xue Fanxin. He had a guess about her identity.

The Reverse Spirit Heaven Wheel, the power of nirvana, the Supreme Badge, and the ten great heavenly pearls... If these things were gathered on one person, her identity...

No matter what Xin’er’s identity was, she would always be his little consort.

1

“Ah Jiu, what are you thinking about? Why are you staring at me with such a strange gaze? What are you up to?” Xue Fanxin teased.

Ye Jiushang smiled and flicked her forehead. He said dotingly, “Of course it’s because my little consort is good-looking, so I want to look at her more.”

“You have a glib tongue. Let’s go in and look for that Wood Spirit Heavenly Pearl. But if it’s too difficult to obtain, then forget it. After all, safety is number one.”

“It’s okay. As long as you want it, I’ll get it for you.”

“Will it really not be dangerous?”

Ye Jiushang smiled mysteriously and waved his hand. He pushed all the vegetation in front of him to the side and created a smooth path.

The Night Pearl illuminated the dark passageway. One could see that the plants on both sides were densely packed.

From time to time, cold wind would blow from the depths of the passageway. It carried moisture, making one’s hair stand on end.

Xue Fanxin followed Ye Jiushang and suddenly kicked something. She looked down and saw a skull. Frightened, she screamed as she pounced on the person beside her. “Ah...”

Hugging her, Ye Jiushang glanced at the skull. He waved his sleeve and swept it into the dense vegetation. Only then did he comfort Xue Fanxin. “It’s only a skull. There’s nothing to be afraid of. My little Xin’er is so timid. This won’t do.”

She definitely could not be timid in the future.

### **Chapter 597: Calm Down**

Xue Fanxin left Ye Jiushang's arms and said, "Who said that I'm timid? I was just caught off guard. I've seen many things and have quite a lot of experience in fighting. How can I be afraid of some bones? Besides, I'm a doctor. Doctors often touch corpses. I'm not even afraid of dead people. Why would I be afraid of their bones?"

She was indeed not scared of corpses. She was just startled.

This cave was evil. This was what she was afraid of.

"Yes, yes, yes. My little consort is brave." Ye Jiushang pinched Xue Fanxin's angry face. The more he looked at her, the cuter he felt she was. He really wanted to bite her.

Until now, if not for his outstanding willpower, he would have long eaten this cute little consort.

However, he did not know how long this composure could last. Perhaps he would start eating in the next moment.

"Ah Jiu, don't look at me like a hungry wolf. It's quite terrifying." Xue Fanxin felt that Ye Jiushang was like a wolf in sheep's clothing.

"Little Xin'er, I really want to eat you."

Her face flushed red. She said shyly, "I'm still young."

"The daughter of an ordinary family has children when she's thirteen. You're almost sixteen." Ye Jiushang hugged her small waist and pulled her into his arms. Smelling her fragrance, a heat surged in his body.

For some reason, he suddenly wanted to do it with her.

"Ah Jiu, don't be rash. Calm down. This is not a good place. It's strange and dangerous. We have to focus on serious matters. I don't want my first time to be in such a damned place. That's not good." Xue Fanxin could sense Ye Jiushang's intense desire. If he really could not help but want to...

Perhaps she wouldn't mind giving herself to him.

Ye Jiushang wanted to eat up Xue Fanxin on the spot. His hand had reached into her clothes. He wanted to undo the belt at her waist, but at the critical moment, he woke up and used his strength to suppress the inexplicable desire burning in his body.

Although he was embracing her, he had become much calmer. He helped her tidy her clothes. "Xin'er, I'm sorry. I almost hurt you just now."

"It's okay, it's okay. I understand. You're a man and have physiological needs. If you really can't help it, I... I..."

Xue Fanxin could not finish her sentence. No matter what, she was an innocent girl. How could she take the initiative to say such a thing?

Even if she had lived in a relatively open world, she was not that unrestrained.

Could it be that you took the initiative to tell a man that you were willing to let him do the deed?

“You little vixen, I indeed want to eat you up now, but...” Ye Jiushang’s gaze was as gentle as water, but in the next moment, it became cold and ruthless. His tone also changed. “How dare a flower be impudent in front of me? You’re really courting death.”

“What flower?”

Xue Fanxin asked in confusion. Just then, a hoarse scream sounded from ahead.

### **Chapter 598: Taste It First**

“What’s that? It’s so tragic.” Xue Fanxin looked toward the source of the sound curiously. She was still hanging onto Ye Jiushang.

He said unhappily, “It’s just a Bewitching Flower that has developed spirituality. How dare it act presumptuously in front of me? I’ve already killed it.”

Even a Bewitching Flower that had cultivated human form could not make him feel anything. But just now, he had actually been mesmerized and almost could not control his lust. The biggest reason was that his heart yearned to do this, so he fell into the trap.

He did want Xin’er, but he would not allow a flower spirit to do as it pleased.

If he had not resisted his desires and taken Xin’er on the spot, wouldn’t their first time be in such a damned place? He could not permit this.

Their first time had to be beautiful and romantic. Wait, what was he thinking?

Xue Fanxin noticed his changing expression. He was no longer as cold as before, but he looked a little cute like a little boy in love. She could not help but tease him, “Ah Jiu, are you thinking of something bad? Tell me the truth.”

Ye Jiushang turned around and returned the favor. “That’s right. I’m thinking about something bad, about how to fatten you up and eat you.”

Uh... Lord, can you not be so direct?

Actually, it was not a big deal. She had already decided on him.

However...

“Why? Is Little Xin’er thinking about something bad too?” Ye Jiushang continued teasing her.

“Me? You’re the one who’s thinking about something bad. I’m not talking to you anymore,” Xue Fanxin said awkwardly. Her face was as red as an apple, and people could tell what she was thinking at a glance.

“My little consort is so cute when she blushes.”

“I’m not blushing... Mmph...”

Xue Fanxin refused to admit it, but her mouth was ruthlessly sealed. A kiss locked all her words, and she was hugged tightly in a solid embrace.

Although Ye Jiushang had removed the Bewitching Flower’s technique, he himself still yearned to be with Xue Fanxin. Since he could not eat her yet, he would taste her first to satisfy his hunger. He would save the rest for later.

“After we get back, I’ll fatten you up and eat you as soon as possible.”

“Er...” Xue Fanxin was speechless. Her intuition told her that it would not be long before she was eaten up by a certain lord.

Perhaps because they had both decided on each other, she no longer hated being his woman like before.

“Alright, I’ll stop teasing you.” Ye Jiushang pinched her neck and returned to his cold expression. He looked ahead. “Let’s continue forward. We should be reaching the depths soon.”

He was certain that the Wood Spirit Heavenly Pearl was hidden in this cave.

It contained pure wood spirit energy and could nourish plants. That was why the vegetation here grew so well and why their vitality was so exuberant.

However, if they wanted to obtain the Wood Spirit Heavenly Pearl, it would depend on fate.

All treasures of the world with spirituality could not be easily used unless they acknowledged the owner.

Xin’er wanted the Wood Spirit Heavenly Pearl. If that pearl was not sensible, he would beat it until it was sensible.

## **Chapter 599: Strange Stripes**

With Ye Jiushang leading the way, Xue Fanxin was unimpeded. There was no danger at all.

If it were anyone else, they would have been killed by the surrounding poisonous grass, flowers, and insects. However, Ye Jiushang resolved all the dangers.

Xue Fanxin was a doctor and had studied poison. She knew how potent those poisons were. She did not even dare to touch many of the things here, but Ah Jiu walked through them easily. How powerful must he be to do that?

Her Ah Jiu was really powerful, unfathomably so.

It was satisfying to have such a husband. She would not be afraid even if she pierced through the sky in the future. Anyway, she had someone backing her, hehe!

Xue Fanxin smiled evilly.

But she also had to work hard. She could not hide behind him for everything. What she wanted was not protection but to fight alongside him.

“Wait a moment.” Ye Jiushang stopped in his tracks. He squatted down and shook the flowers and vines.

Xue Fanxin stuck out her neck curiously. “Ah Jiu, what are you doing?”

“There’s an array formation here. I need some time to break it.”

“Array formation? Ah Jiu, you know array formations?”

“I have done some research.”

Looking at this familiar method of breaking the array, it did not look like it was just ‘some research.’ He was clearly very proficient.

“Ah Jiu, is there anything in this world that you don’t understand? Your cultivation level is unfathomable. You know about artifact refinement and array formations as well.”

If Ah Jiu knew everything, she would really suffer a huge blow.

“I don’t know medicine.” Ye Jiushang had already broken the array. He looked up and saw that Xue Fanxin looked like she had been dealt a blow. He said something to comfort her.

Xue Fanxin felt a little better. “That’s more like it.”

At least she had some strengths.

Ye Jiushang flicked her forehead. “What are you thinking about? One day, you will be as powerful as me.”

“Really?”

“It’s more real than a pearl. Let’s go. The Wood Spirit Heavenly Pearl is ahead. Let’s go.” Ye Jiushang took the initiative to hold Xue Fanxin’s hand and walk forward. His steps were strange. Sometimes he went left, sometimes he went right, sometimes he went forward, and sometimes he retreated. It was as if there was no pattern but also as if there was some pattern.

Although Xue Fanxin did not know what was going on, she knew that Ye Jiushang would not harm her. Furthermore, her hand was being held tightly by a certain lord. It was difficult not to follow him.

After walking around in a mess, Xue Fanxin came to a huge cave.

All kinds of vegetation grew around the cave. The cave that had not seen light for years was filled with flowers.

Countless fluorescence scattered in the cave and landed on the flowers and grass, making them emit a strange green light that illuminated the entire place.

"It's so beautiful!" This was Xue Fanxin's first feeling after entering the cave.

Ye Jiushang did not feel anything about this scene. He swept some of the vegetation blocking the way to the side and walked towards the wall of the cave. Then, he waved his hand gently and moved all the plants on the wall to the sides, revealing it completely.

The cave wall looked ordinary, but there was a strange stripe on it. It was like small vines slowly crawling on the wall.

## **Chapter 600: Submit to Her**

### **1**

Xue Fanxin walked over and stared at the wall. After a long time, she noticed a small vine that was like a thin line crawling on the wall, as slow as a snail.

"Ah Jiu, what's this?"

"This is a Six Harmonies Lock Spirit Formation set up with the power of the Wood Spirit Heavenly Pearl. Not only can it conceal the pearl, but it can also lock its spirit energy."

If not for this formation, the pearl would have been discovered and taken away.

However, this formation had been around for too long, so its power slowly seeped away. Even if they had not encountered it today, this pearl would have seen the light of day in at most ten years.

His little consort was indeed lucky.

"Is the Six Harmonies Lock Spirit Formation powerful?" Xue Fanxin did not understand array formations, but when she saw the vines on the wall, she found them mysterious. Her intuition told her that this array formation must be extraordinary.

"This is an ancient array formation. It's quite powerful, but..." Ye Jiushang smiled. He condensed three small purple arrows in his hand and stabbed them at the small vines on the cave wall.

With a few cracking sounds, the cave wall broke, revealing a fist-sized opening. A green light flew out of the hole as fast as lightning, making it impossible to see it clearly.

Despite that, it was intercepted by Ye Jiushang. He controlled it in his hand and warned in a supreme tone, "Submit to her, or I'll crush you and recast you."

Xue Fanxin was at a loss for words.

This was a heavenly pearl nurtured by the chaotic spiritual energy when the world was first created. How could it be crushed just like that?

Even if he really crushed it, it was impossible to reforge it, okay?

Although she knew the truth, for some reason, Xue Fanxin thought that Ye Jiushang had such an ability. There was no reason to believe this, but she did.

The Wood Spirit Heavenly Pearl struggled in Ye Jiushang's hand a few times. Initially, it was a ball of green light, but finally, it slowly turned into a green pearl. It was the size of an egg and emitted a tender green light. The pearl seemed to contain boundless vitality.

*You two bad people are too much of a bully, okay?*

The Wood Spirit Heavenly Pearl was filled with all kinds of sorrow, but it was helpless. In the end, it could only submit.

If it were to submit to this powerful person, it would definitely be willing. But this weak human ant was out of the question.

However, if it was unwilling, it was very likely to be beaten until it submitted.

Boohoo... Why had it encountered such a terrifying person the moment it came out?

How unlucky.

The Wood Spirit Heavenly Pearl was afraid of Ye Jiushang, so it had no choice but to submit. It flew towards Xue Fanxin unwillingly.

Xue Fanxin reached out and let the pearl fall into her palm. Just as she was about to take a good look, the pearl turned into a green light and disappeared into her palm.

"Ah Jiu, where's that pearl?"

"In your body. Calm down now and fuse with it properly." Ye Jiushang placed his index finger on Xue Fanxin's forehead and injected a force into her. At the same time, he separated a wisp of his divine sense to investigate the changes in her body.

If that Wood Spirit Heavenly Pearl dared to act recklessly, he would definitely crush it into pieces without hesitation.
