Chapter 1041: public opinion

The rule that no one can walk was quickly broken, because Shen Xun said that he was uncomfortable and needed to leave early.

Qin Yu was very gentleman and took a taxi for her: "It's a pleasure to see you, bye bye!"

Shen Xie wants to say something, Brother Yu has turned around coolly.

"Come on, continue to drink, I haven't gotten an appetite yet!" Qin Yu raised a glass and embraced, obviously more interested than before.

Shen Xun, who was sitting in the car looking back, was deeply stung by this scene.

The next day, Brother Yu got up from the sofa with a sore back and a sore back.

What kind of broken sofa is this? How dare you call it ecstasy?

It's the same for sleeping all night, how could the players have fun, bad reviews!

"I knew it a long time ago, I won't set the activation permission." Shaking his sour shoulder, Qin Yu still chose a normal life.

Although it feels good to have Nanoworms, it also makes him gradually lose his humanity.

So, Brother Yu made a bold decision last night.

imposes restrictions on nanoworms, and only when they are dangerous and attacked early, nanoworms will be passively activated.

The rest of the time, they will fall into hibernation quietly. '

Of course, Yuge can activate it instantly when necessary to ensure his own safety.

"Hey, get up." Pat Gao Bo on the carpet, Qin Yu went into the bedroom to call the remaining two.

"Fuck!" The next second, Brother Yu, who opened the door to enter, jumped out.

The picture inside was a bit spicy, and the unbearable shock for a while made Yu Ge refreshed.

"What's wrong?" Gao Bo rested on the ground with his right hand and rubbed his eyes with his left hand, as if he was not awake.

Brother Yu didn't say anything, but pointed to the room with a shocked expression on his face.

Gao Bo yawned, got up and walked to the bedroom.

"Fuck!"

"Kaka..." After taking more than a dozen shots in a row, taking various angles, Gao Bo walked out of the bedroom triumphantly.

shook the phone, Gao Bo said: "I don't have to worry about running out of money in this life."

Hearing his mention, Brother Yu realized that he was only shocked and didn't see any business opportunities in it.

sloppy, sloppy!

Breakfast shop, four people sitting around a round table.

Gao Bo embraced his arms and watched leisurely as Tang He brought the beef soup in front of him.

Zhang Le delivered the cut biscuits, side dishes and tea eggs.

"Oh, why isn't this tea egg peeled?" Gao Bo looked at Zhang Le confidently.

"Fuck, you have enough, believe it or not, I will tell my sister-in-law about your scandal?" Tang He fried the pot.

This morning, I found myself waking up only wearing boxer shorts, hugging a man from behind, with his thighs still straddling him...

This fact is bad enough, now you are still being blackmailed?

I vomited!

"Have you been tough? Okay, let me share my photo album with the group first." Gao Bo took out his phone.

In the next second, a complete egg white appeared in front of him: "Bo brother, tea egg."

Tang He is like a flattering young man, smiling while hesitating: "If you have any more orders, I will do it for the younger one."

Qin Yu, who was eating tofu brain, hooked up to Gao Bo, took the phone and forwarded the photo to himself.

"The side dishes are gone, let's have another one." Brother Yu shook his phone and looked at Tang He with a smile.

After busying, serve the two big dads to eat and drink.

The buns are all tired and thin, and they are finally satisfied with the two big dads.

waited out of the breakfast shop, the two of them sent him the photo and deleted the backup.

"You figure it out by yourself, but it's actually a beautiful memento." Qin Yu raised an eyebrow and smiled strangely.

Tanghe uses the fastest long press...multiple selection...delete...

Recycle Bin...delete...cloud backup check...

Sure!

Seeing all the photos disappear before my eyes, the world of buns is beautiful.

Why didn't you notice that the weather today is so good?

"A Le, what are your plans today?" Tang He was in a good mood and hit Zhang Le with his elbow.

The other party smiled and said, "What can I do? Go home first, and then sleep for two days."

"Then let's continue the small string tonight?" Tang He said.

Qin Yu and Gao Bo nodded in agreement, although everyone was very tight on time.

But this will be when the brother needs company, how can you say no?

"Okay, you guys don't always take care of me, I'm fine, let me rest at home for two days, and think about what I want to do."

Zhang Le is serious, what he needs most now is a good sleep.

Let his brain sober, and figure out how to go next.

He understood the kindness of Qin Yu, Gao Bo and Tang He.

But coming to Japan...

The word seems to have been played badly. It should be said that the days are still long, and there will be time to get together again in the future.

Last night, I learned about their current achievements from the three people.

While was happy for them, it also inspired Zhang Le.

The three of them are so successful, how can they fall behind?

Love must grow together to last long.

Friendship is the same.

When you are in different worlds, different levels, and different topics, awkward chat will only make each other go farther and farther.

They may not care, but Zhang Le cares.

He has to find the direction first, and catch up with him, so that he can gain a foothold in this familiar and unfamiliar city.

"Okay, then you have to rest first, and you must tell me when you think about it. Let's celebrate when the time comes."

Tang He raised his hand on his shoulder, and suddenly freezes when he is about to touch him.

Then, he scratched his head and looked away as if nothing happened.

Only Zhang Le is left, smiling and petrifying in the same place.

Don't ask, it's numb!

drove Zhang Le to the subway entrance, Qin Yu stopped the car and said: "A Le, if you really need anything, don't be polite!"

"You, me, buns, doctor, we are friendship for a lifetime, you should know."

Looking at his serious expression, Zhang Le suddenly smiled and said: "I see, the calendar."

Seeing that he mentioned the nickname of the student days, Qin Yu knew that the strange barrier between each other had really disappeared.

angrily and cursed pointing outside: "Get out of here!"

Waiting for Zhang Le's shadow to disappear at the subway entrance, Qin Yu picked the film again and left with a dumbfounded shook his head.

This guy is still as afraid of trouble as before!

parked the car in the exclusive parking space, and when Qin Yu approached the gate, she saw Xu Meixin walking violently and standing beside the door.

"Boss, why did you come back suddenly?" Xu Meixin took his handbag and smelled the smell of wine on Qin Yu's body.

"A friend I haven't seen for a long time is back, and I made a special trip to come back to see him." Qin Yu said with a bright smile.

Xu Meixin jogs her fingers quickly on the terminal, and when Qin Yu finishes speaking, she is calm and capable again.

"It must be a very good friend." Xu Meixin smiled.

"Very good...like a real brother." Qin Yu nodded firmly and walked into the elevator.

Nodded to the small circle behind the secretary desk, Qin Yu's gaze stayed on Bei Yi for a few more seconds.

walked into the office non-stop, Xu Meixin who followed closely closed the door gently.

There are neat and clean clothes on the coffee table, and there is a cup of soaked silver needles next to it.

white cotton short-sleeved, light-colored jeans, a pair of trendy shoes with LOGO.

"This dress?" Qin Yu frowned.

"I asked Beiyi to prepare it, so I will replace it if it doesn't fit."

When I smelled the wine just now, Xu Meixin asked Beiyi to prepare these through the terminal.

As the chairman of the company, if someone smells drunk during his tenure, it will affect the image of the individual and the company.

The boss can be negligent, but Xu Meixin, as a personal secretary, must not ignore these important details.

"No, I'll take a shower first." Qin Yu took off his shirt and walked to the suite.

"Do you want me to rub your back?" Xu Meixin followed.

"Um."

Lying in the constant-temperature massage surfing bathtub, Qin Yu used the projection to check the daily newspaper.

The convenience of the terminal makes people depend on it, and everyone who has used it is the same.

When it becomes popular in the future, communication will ignore the region and bring the world to itself.

Even to a certain extent, I don't see the mountains, and it becomes a possibility for the 'mountains' to come to see me.

As long as you have enough money, it's okay to customize a device that can project the mountain?

It's just that this obviously moved some people's interests.

Instant messaging is the foundation of Penguin.

The appearance of the terminal is visually digging an ancestral grave.

This is to uproot the opponent and shake the opponent's position and foundation.

If you say, before, relying on the power and face behind it, the penguin was kept still.

Now, this deterrence obviously loses its due effect before life and death.

Penguin fought back!

Even if it's just a possibility of some trails, no one has actually seen the real thing.

But Penguin dare not gamble, and can't afford to gamble!

So Qin Yu saw all kinds of bad news after integration and tailoring.

is more correct, it should be a hint.

In the world is really a paradise?

How did your privacy leak!

Live in the eyes of others every day, is this what you want?

Convenient technology does not mean running naked!

At the same time, there has been a lot of eavesdropping history on the Internet.

These old almanacs were turned out again, and after a few words were changed, they became the focus of traffic again.

There are penguin all-pervasive pop-ups to drain traffic, and almost everyone who surfs the Internet has seen relevant posts.

On the Internet, the number of searches for communication security and privacy reached 260 million.

In the Internet age, UU reading www. How uukanshu.com protects our privacy has also become a new hot topic.

At the same time, someone is leading the topic to the future.

One of the most classic examples is a black mirror. Let's see what the abuse of technology can bring us?

Memory chip, so communication becomes mechanical.

Privacy has become a luxury...

Should those cool black technologies in sci-fi movies really appear in public life?

Netizens have heated discussions around such topics.

And this is just the first step.

Xu Meixin specially marked several interviews in the daily newspaper, all of which were interviews of the character dialogue type.

These interviewees have all made penguin guns.

Netizens may not be able to see the truth, and even if they guess the connection between them, they cannot prove it.

And for Kylin, it couldn't be easier.

Thread all the clues into one line, and use facts to prove how close the relationship between the two is. '

It must be admitted that, as a native-born giant, Nanshan Pizza Hut.

The number of teams cheering for him is amazing.

The quality is also very high, PhD...Professor...Relevant authoritative scholars...

looks like a big mountain, falling straight down from the sky, pressing the miracle under your feet to be your foundation stone.

contribute to the glorious penguin empire.

Ke Yu, why are you a little unhappy!

Chapter 1042: Sudden

Just when everything went smoothly, Brother Yu got bad news.

Ye Lao has passed away!

Suddenly, I fell in the yard and it was no longer possible to be sent to the hospital.

After 6 hours of rescue, he was declared dead.

No one could have expected it, even Ye Jinlan and Ye Jiazi.

When they rushed to the hospital, Ye Lao was already lying there.

Ye Lao, who fell into a deep coma, could not leave a word until his death.

A glorious life, just fade away...

Only a piece of loess and a standing monument of merit are left, which is left in the memory of the world.

When Qin Yu arrived at the airport, the sky was raining hazy.

seems to be in heaven, but also sad and crying for it!

It was not Ye Jinlan who came to pick him up, but Ye Haotian, who looked calm.

"Things happened so fast, everyone was not mentally prepared."

"We go directly to the mourning hall, there will be a lot of people to mourn, then my sister will remind you of those who need attention."

Ye Haotian turned his eyes and looked at Guy in the back row: "Miss Gu, do you need me to meet your family first?"

He would come back with Guy, which Ye Haotian didn't expect.

Has the relationship between them reached this level?

"No, I will go directly to the mourning hall to pay homage to Ye Lao." Gu Yi nodded and said, "Sorry!"

"Thank you." Ye Haotian said.

The car quickly stopped in front of the mourning hall. After getting off the car, the staff drove the car away so that the car behind could stop smoothly.

Many people came, and the door was full of wreaths.

‘Sorrowful mourning, immortal.’

‘The backbone of the country, which is passed down through the ages.’

The people walked into the mourning hall with grief on their faces and bowed in salute.

When Qin Yu followed Ye Haotian and appeared next to Ye Jinlan, her red and swollen eye sockets instantly burst into tears.

At this moment, the grievances and disputes between the Ye family are all left aside.

Ye Hua even politely nodded to thank Qin Yu for appearing!

This caused Qin Yu to let go of his previous unhappiness. He has always been a generous person.

Ye Lao's death brought changes to the Ye family.

is a good change...

"Sorry!"

The guests shook hands with their family members in turn, and Ye Zhiqiu, standing on Qin Yu's left, reminded him of the origins and positions of these people.

Those who can be there in person are all big shots.

Including the twelve giants of the Supreme Council, there were also seven people present.

When shaking hands with Qin Yu, the other party showed enough kindness and implicitly expressed their intention to meet him.

In private, meet alone.

instead of here, as the prospective son-in-law of the Ye family.

This time, Qin Yu stood in the ranks of family members.

Some people are happy and some are worried about his standing in such a clear-cut team.

Especially at the moment when Penguin is about to sound the horn of war, this will have a profound impact on Qin Yu and Miracle Company.

If he is a smart person, the best option at this time is to keep a low profile.

put himself on the shelf again, waiting for the price!

Even if it's just an uncertain signal...

Ye Lao is gone, even if doing so will make people criticize, but it is a hundred times wiser than his current choice.

Now, he is telling everyone directly in person.

Miracle Company, including him, will still choose to stand on the boat of the Ye family.

This makes some neutral people who are still hesitating to start making difficult choices.

is Nanshan Pizza Hut whose support tentacles are deeply rooted in this land.

It's still the dark horse of technology that suddenly emerged and created countless miracles but has a shallow foundation.

Until, Zhou Lao walked into the mourning hall with the help of the guards.

Ye Hua and Ye's parents took the initiative to greet them, but Zhou Lao only looked at the photo in the center of the mourning hall.

looked sad, and his body was shaky. Obviously Ye Lao's death was a huge and painful blow to him.

After paying homage to the old friend, when the family members thanked and relieved, Ye Hua expressed his gratitude to the old man Zhou.

And he just nodded, leaving without saying anything.

Such a gesture is already overjoyed for the Ye Family.

Zhou Lao can come in person, more important than anything!

When Zhou Lao passed in front of Qin Yu, he paused slightly, turned his head and said, "Good job." quiet!

The whole mourning hall fell silent and fell into dead silence.

It wasn't until Zhou Lao's figure disappeared outside the mourning hall that there was noisy whispering conversation in the room.

Zhou Lao came low-key and walked faster.

On the way, only Ye Hua led someone to greet him, saying "Sorry."

The rest of the time does not say a word!

Before leaving, took the initiative to stop in front of Qin Yu and praised him for "good job."

What is the profound meaning of this honor?

Is he coming to mourn his old friend or is he coming for Qin Yu?

A simple move has attracted countless attention.

Everyone thought about it again and again, and began to consider whether the decision they had made before was correct.

Nanshan Pizza Hut, the aircraft carrier, can still win?

"Xiao Yu, do you know Mr. Zhou?" Ye Zhiqiu asked in surprise.

Although Zhou Lao had always supported the development of miracles before, from the outside world, he only accepted Ye Lao's suggestion.

There is no deeper connection between itself, Miracle Company and Qin Yu.

What happened just now told them that the previous guess was wrong.

Zhou Lao's support for Miracle Company does not only come from Ye Lao.

He knows the miracle company very well!

Perhaps, they have met and talked many times in private?

The news spread quickly, and when the day ended, the wind direction on the Internet began to change.

The previous tit-for-tat reports and public opinion began to become ambiguous.

'S wording and strength have become neutral and uncertain.

Many of the finalized interviews were also temporarily replaced because of a small move by Mr. Zhou in the mourning hall.

"This is the charm of power. Have you ever regretted choosing the wrong path?"

Ye family old house, Qin Yu and Ye Haotian are sitting under the umbrella, listening to the drizzle, drinking tea and chatting.

If Qin Yu is not founding a miracle company, but dedicating himself to a greater cause.

He will become the youngest, great, and respected academician in the history of the Republic.

can embark on official career and achieve unimaginable success.

"That's not what I want."

Qin Yu put down the tea cup and said, "Some people want to be scientists, some want to be doctors, some want to be great people, but some are willing to be ordinary."

"You can't assume that his choice is wrong because his life is boring or unsuccessful to you, because that is what he wants."

"Is this referring to yourself, an ordinary person?" Ye Haotian seemed to hear a joke.

"Remove those glorious auras, the status and status given by the world. In essence, you and I are the same as the outsiders."

"But if you live, you can't ignore these. What you are talking about is just an ideal."

Everyone is equal, peaceful and co-prosperous!

This concept is too great, even in film and television dramas or novels, it will appear empty and hypocritical.

Qin Yu looked like a fool and said, "I mean, what I want most is what makes me happy is important."

When did Brother Yu say that it is time to establish an ideal town?

That kind of unrealistic fantasy can only be realized unless all employees are brainwashed into a unified individual.

He is a realist, not an idealist.

"Don't talk about this, let me talk about your plans." Ye Haotian looked at Ye Jinlan in the room, "When are you going to get married?"

"I don't have this plan at the moment, I'm still young, let alone some problems that I haven't thought about clearly."

Hearing him say this, Ye Haotian laughed and said, "I can't bear your women."

"In fact, this does not affect, you can continue to experience the beauty you want after getting married.

Just keep a low profile and don't make Jin Lan sad. "

"Emotional matters, I will take care of it myself." Qin Yu responded flatly.

Ye Haotian narrowed his smile and said seriously: "I believe you and Jin Lan's relationship is serious.

No one can use the feelings of the Ye family girl as a game, no one. "

This small threat did not affect the subsequent conversation between the two.

Ye Jinlan's position will not be affected by the death of Ye Lao, she will continue to be in charge of the Ye family's business.

Miracle Company is on Ye's side and supports it in public opinion.

Similarly, the Ye Family also needs a certain amount of return.

Li family, Yang family and Xu family have it, Ye family also has it.

"The personal terminal that Miracle is about to release, I am looking for a suitable agent."

"The whole country?"

"Northern Region."

"It's just the north?" Ye Haotian frowned, obviously dissatisfied with the answer.

Qin Yu chuckled slightly and said, "One northern part is enough, and you will get it if you eat too much."

turned to meet Ye Jinlan who was coming, Qin Yu walked upstairs with her arms around her.

Lie down on Qin Yu's lap, Ye Jinlan tells the memories of the past with his grandfather.

Until now, she has gradually accepted the reality of Ye Lao's absence.

"How can it be so fast!" Ye Jin choked and sobbed.

She also met Grandpa last week, eating with him, chatting, walking and laughing.

They also went to the park and took a lot of photos of grandpa.

Three days, only three days, but she didn't have time to say the last word with grandpa.

could only watch him leave in a coma, which became Ye Jinlan's greatest regret.

"Nine out of ten regrets in life, UU reading www.uukanshu.com, you should be thankful that you and Ye Lao have left beautiful memories in the last time."

Qin Yu helped her smooth the broken hair in her ear and touched her cheek distressedly.

"Those photos will become the most precious gifts."

Sobbing Ye Jinlan turned on the phone and looked at Ye Lao's brilliant smile in the photo.

Tears couldn't stop flowing out again, crying, she fell asleep on Qin Yu's lap.

After two days and one night, Ye Jinlan was already exhausted.

Qin Yu sat quietly on the spot, pulling down the blanket on the back of the sofa to cover her.

Then, pick up the mobile phone at hand to check the latest experimental report data of Hive.

The audio recording in was watched over and over again by him.

Shi Cui's hot language came from the earphone: "At the moment of body transformation, the unique force field created by it distorts the magnetic field.

makes the flesh and blood produce an incredible transformation, and at the same time has a strong penetrating and offensive. "

"Actually, what pierced the assaulter's armor was not the arm of the mantis deformed body, but the invisible force field covering it."

"It twists the magnetic field with a force field, although I haven't figured out how to do it..."

"Destroy the armor from the particle level, let it lose its due effect, and solve the problem at the root!"

"In short, any known material is very fragile in front of this peculiar distortion field!"

"It is not harder to pierce it than to pierce a blank piece of paper!"

Chapter 1043: Futaba

The sun is shining, and a beam of light shines on his face through the angled skylight.

The soft light made his angular face a little more gentle and delicate.

At this time, he was supporting his chin with his hand and looking at the front projection seriously.
The picture being played inside caused Ye Jinlan to exclaim: "Ah!"

The blurry picture disappeared in an instant, and Qin Yu looked down at her: "Sorry, I was too fascinated."

"Um."

Ye Jinlan responded absent-mindedly, still flashing the scenes he had seen in his mind.

Those people, what are they doing?

Is that an anatomy experiment?

Human experiment?

"What do you want to eat, let's go out to eat." Qin Yu asked, lifting his coat.

Because of continuous rainfall, the outside temperature is only 11°.

Even if the sun shines on the body, it won't feel warm, it's just not cold!

Also, it's easy to add points when you go out with a girl and bring a jacket.

Take off his coat when it's cold and put it on him.

immediately got the title of 'gentleman' achievement, smooth touchdown...

Although Brother Yu has already touched down, it makes the process more enjoyable and there is nothing wrong with it.

As a northern girl who grew up with her grandfather, Ye Jinlan has a soft spot for Douhua.

After having breakfast, the two of them walked towards home along the narrow alley.

"Gu Yi found you." Ye Jinlan tried to protect herself from the scenes she had seen before.

So, she decided to find a less pleasant topic.

And she also wanted to know what Qin Yu thought about the wooing of the ancient family.

"I have seen it, a very good girl." Qin Yu said sincerely.

"Do you like it?" Ye Jinlan raised an eyebrow and sneered.

Hmph, smelly man!

"I don't like it, but I don't hate it." Qin Yu smiled naturally.

There is a guilty conscience in telling the truth, he really hates Gu Yi without realizing it.

Although, there is a big reason for the appearance and body.

But the process is not important, the result is the key!

isn't it?

"What are those in the morning?"

Ye Jinlan apologizes, she has tried her best to control herself.

But the picture was too impactful, no matter how hard she tried, it was of no avail.

So he hinted that if he didn't think about it, the more real the picture in his mind.

again, again, again...

Qin Yu was shocked, "You mean, the record in the projection?"

"I don't know, I just know that it looks like a...human experiment?"

"It is not a human experiment, they are no longer human."

Qin Yu explained their origins in a flat tone, distortion.

They can no longer be called 'people.'

What Ye Jinlan saw in the morning was the relevant experimental data of the 'knife arm distortion body'.

The process was a bit bloody, but it was a thousand miles behind the speed and means of other killings.

If this 'knife arm deformer' slips out of the hive, it can be within a day or two.

will turn the entire Hudu into an unmanned ghost town!

In order to ensure that this kind of thing is impossible, Qin Yu specially ordered Shi Cui to return from the far north.

is personally responsible for the experimental process and safety issues, so as to be foolproof.

"Do you know about these experiments of Miracle Company?" Ye Jinlan was very worried for him.

"Who do you think approved the project land." Qin Yu said with a light smile.

"Shennongjia training camp?"

"Yes, we are building super warriors, they have a new name: fanatics."

Qin Yu told her in detail about some of the projects of Miracle Company and the work they are currently doing.

Including... genetic modification!

When she learned that there had been a fleet going to subspace, including two warships of the Republic.

Ye Jinlan's face was full of astonishment. She thought she knew everything about the decisions of the upper echelons.

It turns out that I am the most ignorant one!

"It turns out that there have been so many changes, and the outside world can't see it at all."

Ye Jinlan lay on the sofa, digesting the news Qin Yu said.

These changes are completely invisible to the outside world. People still live and work in peace and contentment as before!

"Actually, the following changes have been great. It seems that income has increased, but in fact, the channel has narrowed."

"In this era, if you want to break the class and climb up, it is as difficult as climbing."

Ye Jinlan's swaying legs tilted upwards, thoughtfully: "The purpose of education reform is not here."

"Yes, the only time I came back when I was a high school student." Qin Yu said jokingly.

Nowadays, ordinary people want to break through the class ceiling.

The easiest, fair, and direct way is to read books.

If you learn well, you can jump into the class you are in, break the barrier, and jump into a whole new class.

From only studying high, to reading is useless and going to the sea to do business, and then to the current situation.

Thirty years of reincarnation, really true!

At this moment, Ye Jinlan suddenly thought of the news he had heard before.

Li Xiaoxiao joined the top-secret project of the Ministry of War, and even the relatives of the Li family didn't know where she went.

"Li Xiaoxiao, are you a fanatic?" Ye Jinlan asked curiously.

"Yes, she is the first batch of fanatics." Qin Yu nodded and said: "Moreover, she joined the subspace exploration project."

"So, she is already in another world now?" Ye Jinlan said incredulously.

All of this is simply too subversive.

My own cognition in the past, the body that has been hit is incomplete.

"The description of another world is not very accurate, but you can say the same."

Qin Yu raised his head and looked out, and said, "The weather outside is very good. Would you like to go for a walk?"

"No, I want to stay at home." Ye Jinlan shook his head and refused.

then abruptly said: "If you want to go, just go, don't worry about me."

"I will stay with you here if I don't leave," Qin Yu said.

Ye Jinlan grabbed the pillow and sat up, put his face on the pillow and tilted his head to look at him: "Don't you need to go and see Ye..."

"Sister-in-law and others, don't say you don't think so in your heart."

Qin Yu was a bit embarrassed after being dismantled, he was really thinking about when to see Ye Zhiqiu.

and Xing Lu...

I haven't seen each other for more than two months, if I don't meet again.

Next time Brother Yu wants to find happiness, he can only take the initiative.

Of course, and Ye Zhiqiu!

Because of her own relationship, she is now marginalized at home.

There used to be Ye Lao and the old courtyard, and there was always such concern in my heart.

Knowing that I still have a place to go, my heart is stable.

Now, far away is still there, but the old father is no longer there.

I believe that Ye Zhiqiu at this moment is no less sad than Ye Jinlan.

"Go, tonight..." Ye Jinlan wanted to let him come back at night, but his heart softened.

Anyway, she was the sister who had been closest to her.

Grandpa is gone, she must be more uncomfortable in her heart!

"Don't come back tonight. I bought breakfast and come back tomorrow morning." Ye Jinlan said, turning on the TV, and stopped responding to him.

Qin Yu also didn't pretend to be a single-minded infatuation.

put on her coat, stood behind the sofa and leaned over and kissed her on the forehead, leaving the old yard without saying anything.

"Eh~" A helpless sigh came out in the room.

*

*

Xishan Longyin, Ye Zhiqiu lay on the bed with red and swollen eyes.

In the empty room, there is no one else except her, and the grief in his heart is magnified infinitely under loneliness.

I really want someone to rely on, and he is in Shangdu.

It's just that Ye Zhiqiu clearly knows who he is with now.

Wronged!

Why do you have to endure these things? You have no grandpa, and I have no dad.

I'm an elder, how can you keep me here indifferent.

How long has it passed, are you planning to keep her forever?

After venting his emotions, Ye Zhiqiu's heart is full of guilt and guilty conscience...

Doing that kind of thing, no matter how you say it, it's her fault.

In the face of Jin Lan, she will always be the one who is wrong.

is even more unlikely to raise his head to speak in front of her, and replied stiffly, 'why? '

These complaints, she can only talk in her heart when she is alone.

But when is this kind of day?

Dingdong~

The door bell interrupted Ye Zhiqiu's self-pity and self-sorrow, but she didn't mean to move while lying on the bed.

No matter who came, she didn't want to bother.

Qin Yu?

He is busy with Ye Jinlan, that girl must be waiting to occupy him for 24 hours.

When he was about to leave, Qin Yu might take a look at himself.

Just a few hours... or tens of minutes, that's all I have.

Thinking of this, Ye Zhiqiu had another calculation in his heart.

Tears almost came out of his eyes, and he had to look up desperately and wipe the wetness from the corners of his eyes with his fingers.

The door bell stopped, Ye Zhiqiu continued to stare out the window in a daze.

knew that a message came from her terminal, which belonged to Qin Yu.

"Qin Yu?" When he clicked on the communication request, Ye Zhiqiu looked at him with surprise and joy.

"Where are you?"

Qin Yu in the projection is walking, and the environment around him looks familiar.

Wait, is that the red wine I drank last night on the table?

"AhAre you downstairs?" Ye Zhiqiu ran downstairs as if it was his own living room.

Fei Fei's voice was heard on TV, and the energetic sisters jumped and jumped on the stage, showing their agile posture.

Holding Ye Zhiqiu with a face full of peach blossoms and obsessed eyes, Qin Yu was fairly satisfied with their performance.

This is the first large-scale stage for the sisters. Even Brother Yu didn't expect that they really got this far!

Sisters...

A brand new group that has just become famous recently. The members are not trainees trained through brutal competition and elimination.

is formed spontaneously by sisters who love music and express themselves.

This has made them love a lot of people who want to step onto the stage but lack self-confidence.

Some fans called out "the incarnation of a hamster girl," giving them a friendly name: sister hamster!

Gentle big sister, Wenru.

Mature and **** face adult, Mi Xin.

Cute and invincible baby face, Yu Meng.

Be nice and poor young maknae, Ya'er.

There is also the "Mom," Ye Bai, who is kind and intellectual.

The images of sisters in the hearts of fans are rich, full and recognizable!

also made fans fall in love with this new combination quickly and generated a strong cohesion.

Of course, these are inseparable from the support of resources.

As the only singing and dancing group that is famous all over the world, Rice tilts all its resources in this area to sisters.

Since his debut, he has been supported by his predecessors and has been on a lot of music stage.

Although it is not a hit, it is not easy for newcomers!

Now, it is accumulation.

When the stage is over, Fame will arrange them to move on to a bigger stage.

However, fame is after all in film and television dramas.

The resources in the field of singing are limited, and where I can go in the end depends on the performance of my sisters.

Ye Zhiqiu, who woke up from the residual temperature, looked at Qin Yu as if he had discovered a new world.

He would even watch this idol stage?

However, each of these four girls has its own merits, which fits his taste very well.

Thinking of these Ye Zhiqiu is so angry and funny, doesn't he understand contentment?

"Looking at your new prey?" Ye Zhiqiu said angrily.

"What?" Brother Yu recovered and saw her jealous.

amusingly scratched her nose and said: "It's an artist under my company, what kind of prey, I am the prey!"

"You?" Ye Zhiqiu questioned.

How embarrassed he to say that he is the prey.

Only if he is possessed by his demon, will he fall into the trap and make himself inhumane inside and outside.

I didn't blame him at all in the partiality, on the contrary, I wanted to stick with him.

Ye Zhiqiu, you are out of help!

"Go for a supper, you'll know later." After patted her back bridge, Yu Ge laughed and walked into the bathroom.

Brother Yu found a new set of clothes, sweater, sweatpants, and sneakers in the closet.

Ye Zhiqiu wore a sweater covering his thighs, black pantyhose and a pair of black short boots.

Mature and sensual temperament, enchanting figure and **** outfit, "Are you trying to lure me into crime?"

"Ah sir, is long beauty breaking the law?" Ye Zhiqiu took his arm and walked out happily.

It's been a long time since she went shopping.

Staying at home every day to 'practice meditation,' people are almost silly cultivating.

Being able to go out for supper with Qin Yu is as happy as the New Year when she was a child.

The two drove to the lively night market street, the food truck on the side of the road was steaming.

All kinds of delicious snacks, exuding a tempting aroma, drilled into Ye Zhiqiu's nose.

found a place, Ye Zhiqiu asked excitedly: "What do you want to eat, I will buy it?"

Don't blame her for being so excited, for someone like her, staying at home for more than half a year.

will only be more unbearable than her, and all sand sculpture behaviors are normal.

"Look, you bought it." Qin Yu said and took off the mask.

Ye Zhiqiu only cared about excitement, but didn't notice that the girls in front of the snack car held their breath when he lifted the "seal".

grilled gluten, stinky tofu, fried rice cake, milk tea, small skewers, golden potatoes...

The same and the same delicacy was brought back to the table by Ye Zhiqiu, until he bought all the ones he wanted to eat.

Ye Zhiqiu sat beside him with red cheeks, panting slightly and said, "You can eat."

ran three laps along the snack street, and her forehead was sweaty.

"Here you are." Qin Yu put the phone in front of her.

"What?" Ye Zhiqiu took a look.

Friends application with full screen, the same is true for pull-down.

"Prey!" Qin Yu picked up the small string and began to fill his stomach.

Judging from the excitement of Ye Zhiqiu, there is obviously a fierce battle waiting for him tonight.

Yu brother has to add enough physical strength to cope with the back-to-back races today and tomorrow.

Ye Zhiqiu, Ye Jinlan, Yun Lu...

Originally, he was going to find the flight attendant Mei first, but she was still flying in the sky and could not land until tomorrow night.

Therefore, Ye Zhiqiu's ranking has been raised.

These side matters, she doesn't need to know...

"14, just this one?" Putting down the phone, Ye Zhiqiu looked at Qin Yu with a complicated expression.

Although I don't want to admit it, the facts are right before my eyes.

Ye Zhiqiu didn't know that besides what she saw, there were two 90+ young ladies who passed the friend application.

At this moment, he is lying in Yu Ge's list of friends.

is not used now, does not mean that it will not be used in the future.

In the words of Ye Zhiqiu, "Ah sir, it's not illegal to be a bait?"

Bald eagle, far north.

was wearing a linen robe, and his face was miserable, and his expression of compassion seemed to bear all the suffering in the world.

The leading woman has golden hair.

The expression is cold and compassionate, full of opposite visions of kindness and disgust.

Daisy!

She, who hadn't appeared for a long time, ran into a woman after 'escaping' the hive again.

The painful torture experienced by the other party has a great impact on Daisy.

So she decided to gather the women who had been tortured and tortured.

The Sisters of Bitterness, that's how it was established.

They are the poorest people in the world, and they are also the most wicked people.

Every nun of suffering has suffered unimaginable torture.

After being rescued by Daisy, chose to join her team.

all the way to the north, anyone who encounters them will not escape death.

Also, they all suffered terrible torture before they died!

Every time Sister Kuer left a dead body to warn the world.

Therefore, more and more people are attracted to join, and the team is getting bigger and bigger.

When Daisy arrived in the far north, the number had already exceeded two hundred.

In the long-term relationship with Daisy, Sister Kue has also changed.

The radiation in the air, the pain and hatred from the soul, is extremely firm while desperate.

Even the power of pollution cannot change this extremely distorted thought.

A group of mutants with extreme thoughts were born!

Now, they followed Daisy to the far north, about to see the land of misery she described.

The exposed twisted ground veins penetrate the mountains through pollution.

The concentration of radiation in the air shocked even Sister Kuer.

Countless figures of fallen creatures are entrenched on this land.

"This is the source of suffering, we will build our own monastery here, and coexist with suffering!"

Daisy pointed to the dark squirming hill ahead, her eyes full of fearless confidence.

Watching the nuns disperse, preparing to build a monastery here.

Daisy sat on the ground a little tired, and whispered, "Pretending to be real tired!"

She just wanted revenge, why did things turn out like this.

Blame the monster for all this!

Daisy felt like vomiting when Shi Cui threatened her with a gentle and gentle smile.

Hypocritical monster...

raised her eyebrows and looked over, the creepy hills gave her an inexplicable premonition.

What is in it that makes a monster like Shi Cui feel full of fear when he mentions it?

If you can master this power, can you get rid of the company's control?

Daisy wasn't sure if it was right or wrong, but she still wanted to try.

If you are not free, you would rather die!

As a freedom fighter, how can she be willing to be threatened?

When the nuns build the monastery, Daisy will try to use the power of radiation to strengthen her own strength.

As long as she can defeat Shi Cui, she can escape the company's control.

When it comes, she will catch the man who is directing all this behind her back.

was imprisoned in his own monastery, tortured every day and night.

used a painful whip to beat his body fiercely, squeeze his essence, torture his soul!

I thought of tying him to Xingju and asking all the nuns to come forward and squeeze him out of the picture.

Daisy's eyes revealed strange vitality, and she couldn't wait to see this day.

buzzing...

The terminal vibrated, and Daisy instantly converged on her weird expression, and then clicked to confirm.

Shichoi appeared in front of her, "Are you and your people here?"

"Hmm." Daisy snorted proudly.

The previous conjecture brought her inexplicable courage, even if she faced Shi Cui, she wouldn't be afraid of it at all!

"Be optimistic about there, try to prevent the fallen creatures from escaping, if you can't control it, lead them to the east."

Shi Cui seemed to be unaware of her attitude, UU reading www.uukanshu.com explained the content of the work she had to do in every detail.

Until everything is clear, Shi Cui pushed down the frame and said: "Next time you talk to your elders, pay attention to your attitude."

"You don't want me to teach you manners and rules in person, do you?"

She was very gentle, but Daisy couldn't help but shudder.

When he said that last time.

Daisy was lying on the operating table, watching with her own eyes how she was dissected and analyzed.

"Yes." Daisy lowered her head obediently.

"What the **** is there, are we in danger?" Daisy wanted some useful information.

"Caring about what you have is the key point, and the supplies will be delivered soon." Shi Cui ended the call.

This performance made Daisy more certain that there is a secret hidden in it.

Maybe, in those twisted and wriggling veins like death worms.

"We must find an opportunity to find out what they want." Daisy promised herself from the bottom of her heart.

Only now, she must first ensure everyone's safety.

There was a sonic boom from the sky, and several huge fireballs pierced through the clouds and fell straight beside Daisy.

A fireball almost hit her, but Daisy avoided it flexibly.

The flame dissipated, and the one-person-high supply box appeared in front of him.

This is the material Shi Cui mentioned earlier and the main material for building the monastery: silver ink.

Chapter 1045: Marriage news

"Collect all the airdrop boxes!" Daisy gave the order to the nun.

The nuns just left silently, as if they were all dumb.

But when they came back, Daisy saw only fourteen.

There should be fifteen!

Open the terminal, locate...

One box is missing...zoom in...

Found it, it is moving fast!

"Find it, now." Daisy gave a new order.

Fifteen airdrop boxes are gifts from the company.

Daisy is very possessive and is being...very strong...probably...

After being possessed like that, her possessive desire becomes stronger and stronger!

These fifteen airdrop boxes belong to her, no one can take them away...

Three kilometers away, a man wearing a civilian camouflage suit and a strange mask on his face was galloping with the airdrop box on his back.

A box measuring 40 cm high, 60 cm wide and weighing half a ton is as light as nothing in his hands.

Gently tap his feet on the ground, and his body instantly ejected forward, leaping into the forest and disappearing.

When it appeared again, it was already at the other end of the dense forest.

He is like a silent ghost... Assassin...

However, a group of lunatics full of pain and hatred are doing their best to chase him down.

Like a loyal and cruel hound, you must surround him and tear it to pieces!

A few minutes later, the masked man leaping forward from the branch stopped in a clearing.

Put the airdrop box in his hand by his feet, and look around with vigilant eyes.

Wearing a linen robe, the humble nun walked out of the woods.

One, two, three...

"It's so fast."

The other party was speaking the standard Daxia official language, and pointed to the box at his feet:

"The things are here, it's yours."

The masked man took a few steps back, showing weakness that he could give up the box.

But now, not only boxes are their prey.

Even he is the same!

Seeing the nuns step by step, they surrounded him.

The mask man said helplessly: "Can't it be solved in a peaceful way?"

His question was not answered, only the silent footsteps were getting closer.

boom!

The bent legs of the masked man stretched straight in an instant, and the burst of power at this moment made him fly like a cannonball.

Bounce up to hundreds of meters in the air and fall forward freely.

The masked man escaped the encirclement so easily, looking back at the nuns with a sneer.

"I look forward to seeing you next time." The masked man said triumphantly, his body leaping up again.

But at this moment, a grotesque tentacle flew straight from the canopy.

The masked man who was in the air and couldn't take advantage of it was about to be pierced through his head by his tentacles.

At the critical moment, the masked man gave himself a fierce left shoulder with his right fist.

Under the intervention of this external force, the body twisted and avoided the tentacles.

The mask on his face was torn to shreds by the wiped mask, and his body fell towards Maolin, disappearing without a trace ever since.

Seeing Daisy walking out of the woods, the nuns of Kue lowered their heads to express their repentance.

Then he turned around to chase, the breath still existed.

"Don't chase, take things home, the monastery is more important." Daisy squinted her eyes and looked into the distance.

If she read it correctly, the face was exactly the same as the photo in the archives she had seen in the organization.

He is still alive and has become a mutant.

Things are getting more and more interesting!

*

*

"Cheng Yaojin is still alive?"

Looking at the face that appeared in the air in the picture, Qin Yu asked incredulously.

"Who can think of it!" Ye Jinlan curled up into a ball and nestled in his arms.

She happened to be beside Qin Yu when the company sent the news.

This satellite photo was processed and enlarged by Kirin.

Although it is still a bit vague, it is enough to identify that is Cheng Yaojin.

"By the way, where is He Tu?" Qin Yu suddenly thought of Young Master He who was thrown into the trumpet.

"Should be still inside, he was sentenced to permanent imprisonment without bail or commutation!" Ye Jinlan responded.

"Call and ask, I want to make sure he is still inside." Qin Yu asked.

Seeing him take it so seriously, Ye Jinlan picked up the phone to inquire about the news.

Just asking about a prisoner's situation is just a small effort for her, not a big deal.

But soon, Ye Jinlan's expression became deep and serious.

"Ran?"

Seeing her expression, Qin Yu knew that things were as expected.

"It's not that they ran away. Someone robbed the prison. The Bureau of Abnormalities is following up and investigating."

"That's ran away."

Qin Yu turned off the projection and leaned back lazily to make himself sitting more comfortable.

Then he stared at the movie on TV.

"Aren't you worried at all?"

Ye Jinlan retracted his arms again and asked curiously.

"It's already happened, what's the use of worrying?" He smiled and shaved her nose.

Qin Yu said calmly: "Even if the mouse runs away, it can't help but eat.

Just keep a few more cats and wait for the rabbits before it comes back. "

Will Cheng Yaojin and He Tu come to trouble themselves?

You should know the answer without asking, yes.

Although the two ended up in this way, it was purely self-blame.

But they don't think so, instead they blame Qin Yu for everything...

Perhaps, there are also Li Xiao, Yang Chengjun, Xu Hao and the family behind him standing with him.

"I'll make a call." Thinking of Li Xiao, Yu Ge thought it was necessary to remind him.

Logically speaking, the Bureau of Foreign Affairs should be clear about these relationships and make arrangements.

But who knows how reliable this newly established department is?

After all, the person has been missing for half a month.

And their investigation has made no progress, otherwise, He Tu should stay where he should be now.

"Hey, Brother Yu!" Hearing Li Xiao's voice, he was obviously in a good mood.

"I'm in a good mood, something good?" Qin Yu asked.

"Ah~haha, yes...I may be getting married soon."

This is big news, but why are there so many 'questions' in it?

"What does it mean to get married soon, arrange at home, or are you free to fall in love, girls look down on you?"

"What are you talking about? Who am I, Li Xiao, and how could anyone look down on me?"

The uplifted tone made Brother Yu hear the guilty conscience inside.

Does it really make him right?

Li Xiao...Young Master Li...

Let a woman be at the mercy of it? ? ?

"Wait, you're not talking about Ye Mingzhu." Brother Yu suddenly sounded, the girl who kept Li Xiao's attention last time.

"...It's her, I'm still preparing and want to surprise her."

Hearing Li Xiao's affirmative answer, Yu Ge suddenly didn't know what to say.

"The family agrees?" Qin Yu asked.

This is almost his last stubbornness, if Li Xiao even manages the family.

That means that he really loves Ye Mingzhu.

No matter what she is or not, her identity, background, and past are all unimportant.

A man, there will always be a moment in the hands of a woman.

Willing to go through fire and water for her, do anything!

"Well, Brother Yu, you haven't said what it is." Li Xiao took the initiative to change the subject.

He also heard the other party's hesitation from Qin Yu's tone.

Obviously, he was not optimistic about Ye Mingzhu's relationship with himself.

In fact, Li Xiao knew very well that they were not the most suitable.

Ye Mingzhu is very scheming, spends money uncontrollably, and has no idea about financial management.

Beautiful and vain, like to show off.

Very lazy and has no plans for anything...

However, the lover has beauty in his eyes.

When you think she is good, everything can be explained reasonably.

Scheming = cleverness, laziness = exquisiteness, no planning = casual.

Spending money = normal demand, who doesn't like the feeling of spending money?

No concept of financial management = not blindly, investment is not a fixed income that can win without losing.

Compared to the loss of an investment, she spent only a small amount of money.

Besides, there is nothing wrong with spending money on a woman you like.

When the little brother was happy, it was not once or twice to see the women kneeling on the ground to scramble for money in the hotel room.

There is also a consumption of several million a night.

Could it be that Ye Mingzhu, who he likes, who wants to marry him, is not as good as those women?

Show off = like to share, what's wrong with this? ?

Don't talk about the big reason, Li Xiao himself has a lot of reason to convince himself.

But he just wants, wants to be nice to her and give her happiness.

Start a family together, so that she can lead a worry-free life, never need to worry or worry about life.

It feels like, the timing of this moment, right.

"Almost forgot to do business. He Tu ran away. The mutant did it. He also found traces of Cheng Yaojin abroad."

"You're kidding, aren't you?" Li Xiao obviously failed to accept the news.

Two people who were about to be forgotten suddenly appeared again.

It's too sudden, no one can accept it!

"It's true, the other party has a changer as a helper, do you want me to send someone over."

If necessary, he can send [Assaulter] to protect Li Xiao's safety.

"No, no, there are guards by my side." Li Xiao is obviously digesting this shocking news.

I thought that these two names would disappear, but occasionally recalling it is just one of the memories of the past. UU reading www.uukanshu.com

Never thought, but now it makes him more profound than before.

After Li Xiao determined that he could and did not need additional security forces, Qin Yu expressed his blessings to him.

"I hope your proposal is successful."

"Thank you, if it's done, you will all come to have a wedding wine." Li Xiao said from the heart.

Qin Yu said sincerely: "Definitely!"

Putting down the phone, Ye Jinlan asked him about the origin of Ye Mingzhu.

Brother Yu shook his head and said: "I don't know, I only know that she is an internet celebrity, taking pictures, walking shows and the like."

"When did Li Xiao have such a bad vision?" Ye Jinlan frowned and said, "Is it beautiful?"

Thinking carefully about Ye Mingzhu's appearance, Qin Yu nodded: "Very beautiful."

If he can say it is beautiful, it must be really beautiful.

It seems that Li Xiao, like other men, chooses the latter between inner beauty and outer beauty!

Ye Jinlan had no opinion on this, especially when she looked at Qin Yu's side face.

If she is allowed to choose, she will definitely choose the owner of this face.

Even if you just admire it in front of your eyes, it will make you intoxicated, physically and mentally happy!

so...

Chapter 1046: Under the tree

When I got up early in the morning, Brother Yu received many calls.

There are companies, secretaries, women, or mothers.

But he never thought that he would receive a call from Old Qin early in the morning.

"Dad, something?" Qin Yu was surprised.

"Ah, there is something I want to tell you, I sent a WeChat account, you remember to read it."

"Can't you just say it?"

"Ah... you should read the WeChat account."

"good."

"Still in Shangdu?"

"right."

"Well, be careful."

"good."

Hanging up the phone, Qin Yu opened the WeChat account and scrolled all the way to find Lao Qin.

A bank card.

The following is a line of "The pocket money was found by your mother. It's a bit too much to carry, you can figure it out."

Understand, Brother Yu understands!

He was blackmailed by his father, and it was still naked and explicit.

Are you still in Shangdu?

He thought it was a caring greeting, but it turned out to be a metaphorical threat.

As a father and son, Yu Ge understands Comrade Old Qin just like he understands himself.

So, what must he have discovered?

Brother Yu didn't bother to investigate this, and Comrade Qin was not easy.

It's time for a son to do his filial piety.

The finger pressed a 5 and two 0s on the keyboard, and clicked to confirm.

send!

After the transfer is complete, Yu Ge set Comrade Qin as 'no reminder by the way.'

In this way, you don't need to watch his next nagging.

I believe that Lao Qin will gladly accept his salary after discovering that it has no effect.'

"Um..."

Ye Jinlan rolled over, opened his eyes to look at him, and smiled: "Morning."

Then he closed his eyes again and hugged Qin Yu wriggling forward.

The corners of his mouth were turned upside down, and his face was full of happiness and fell asleep again.

She was very active last night and was exhausted. Only four hours of sleep was not enough for her to return to normal.

After a nap, Ye Jinlan stretched out and sat up in the afternoon.

Looking around, I didn't see Qin Yu.

Ye Jinlan put on her pajamas and went to the living room. The jingle sound from the kitchen made her relax.

He didn't go!

Around the corner, Qin Yu, who was busy in the kitchen, came into view.

"What are you doing?" Ye Jinlan asked with surprise and incredible surprise.

"Woke up."

Qin Yu smiled slightly and said: "Sashimi, crab with huadiao sauce, king razor clam, Arctic sweet shrimp..."

"It's so rich early in the morning? Where did it come from?" Ye Jinlan poked the salmon fillet with his hand.

Qin Yu slapped her hand amusedly, and said, "Don't steal it!"

"The hippos are fresh, they all arrived this morning..."

Qin Yu said, pointing outside the window: "Also, it's noon!"

These ingredients are all top-notch, and Yu Ge paid a lot for this.

"Even at noon, it is too rich!" Ye Jinlan said.

"To celebrate the first time Penguin officially fired at the company, how about it?"

Hearing Qin Yu's words, Ye Jinlan was stunned for a few seconds: "What?"

"Penguin's first shot, are you interested?" Qin Yu pointed to the terminal beside the table: "You can watch it for yourself."

"Kirin, right?" Ye Jinlan picked up the terminal and said uncertainly.

The next second, the projection appeared in front of you.

A steel face full of edges and corners appeared in front of Ye Jinlan.

"What can I do for you, Ms. Ye."

From the hollow mouth of the steel mask, a tonal question came.

This is not like a cold electronic sound, full of emotion.

Ye Jinlan's eyes flowed, and she always knew that Qin Yu's terminal was different from her own.

That is his exclusive version, the only one.

However, Ye Jinlan still didn't expect that it would be so special before that.

"Do you know what I want?" Ye Jinlan wanted to try how amazing it is.

"Searching for related information..." When all the dots disappeared, Ye Jinlan appeared in front of her what she wanted.

A brief summary of all key points related to Penguin and Miracle Company.

"Wow~"

Seeing those concise summaries, Ye Jinlan's eyes almost came out.

This time it was no longer a temptation, and Penguin jumped out by himself and publicly accused the miracle of doing it.

Their servers are not supervised, and there is no guarantee for those advanced black technology innovations.

The blue car ignited spontaneously, the battery failed, and the owner's family stayed in the cold wind for more than four hours.

All kinds of negative reports that are not conducive to the company and Azure have all exploded.

It's as if these things happened on the same day.

And this is just the beginning!

Miracle Technology Network Company, a fatal case.

Being taken out again with a big book and special book, it is as tragic as a corpse.

Penguin was serious this time, and they even produced a complete autopsy report.

Obviously, this is a premeditated plan, not a whim.

Since the emergence of Miracle Company, Penguin has been preparing for this day.

However, this proves nothing!

Just a few accidental deaths can't stop people's yearning for "Ghost".

Any innovation will have risks and losses, and the losses caused by Miracle Company are within an acceptable range.

They respect the deceased and communicate in time to give the highest compensation.

Meet the requirements of the families of the deceased!

Moreover, the company sent the highest-level high-level representatives to handle this matter.

Even if Penguin grasped the fact that 'products are not compliant, there are hidden dangers in safety...Qin Yu as the top leader' has never shown up, and wants to create contradictions.

But his low-key style of behavior has a positive effect.

He has always been a person who does not want to show his face, and this is his position.

Just like a person setting!

Therefore, it is obviously powerless to attack from this point.

Next, the so-called 'inside personnel' broke the news about the huge profits of VR equipment.

There is also 'kidney power,' accurate sales reports and profit statements also appear on the Internet.

One year net profit reaches 20 billion+

This number has indeed caused quite a shock, but with the support of many beneficiaries, there is no problem for the time being.

However, the direction of the wind is changing in the direction of 'should prices be reduced, social responsibility and commitment'.

Obviously no one will refuse the goods they need, and they will become more affordable.

Just like a brand promotion, everyone will only be gearing up to look forward to it coming.

"The other party is targeting the hospital and the market price gap is too large, this will cause a lot of dissatisfaction."

"Miracle Pharmaceutical has initially announced that it is used to save patients with kidney damage and failure, not for impotence."

"Since you want to use it in the wrong direction, just to satisfy your own pleasure, you have to pay more!"

Qin Yu smiled indifferently, and shrugged: "Why, don't we need funds to develop new drugs?"

"You have a net profit of 20 billion!" Ye Jinlan said silently.

"you?"

Qin Yu put a moderately thick salmon on the table, raised his eyebrows and said: "It's us, don't forget that you are also one of the shareholders."

"Yes, we have 20 billion." Ye Jinlan thought for a while and said, "Sounds great!"

"Don't you pursue the leakage of secrets?" Ye Jinlan continued to scroll down, and it didn't matter if his tone became more relaxed.

Qin Yu's performance made her relax.

It sounds like he already has a plan to deal with this, and there is nothing to worry about.

"The Ministry of Internal Affairs is investigating." Qin Yu is still making an order.

The appearance of food is as important as its taste.

Beautiful presentation will make people happy and appetite.

It's like the first impression in an interview.

If it is negative, the probability of success in the interview will be less than half of the others.

"Then, what about this?"

Ye Jinlan's previously relaxed expression was solemn again, pointing to one of the reports about Miracle Town.

Human experiment!

The attention of this report is not very high, at least Ye Jinlan has never seen it when searching on the Internet.

Only precise key words, miracle town, human experiment and other words will appear.

But this doesn't change the threat it generates, especially after watching the audio recording in the morning.

"Don't worry, this will disappear without a trace just like Vulcan."

After clapping his hands, Qin Yu brought the last dish to the table and smiled with satisfaction: "Well, now we only lack a jar of good wine!"

Eating seafood with red wine seems to have become a conclusive conclusion.

But Yu Ge prefers the thick, unique aroma and aftertaste of rice wine.

It just happened to be cooling outside, sitting under the tree in the yard in this weather.

Warm a pot of rice wine, and a small fire sizzles.

Sometimes you can pick up a chopstick for raw food and put it in your mouth to taste the original taste of nature. It couldn't be more pleasant.

It's a pity that Brother Yu was too hurried to find a suitable old rice wine.

"I know where it is!" Ye Jinlan suddenly ran to the backyard.

When I came to the low house in the corner and opened the door, it was a downward staircase. There is a cellar here?

Walking along the steps to the bottom, Qin Yu saw half of the wine jars buried in the soil, evenly distributed in front of him.

Some soils are new and some are old.

"This is Grandpa's wine cellar." Ye Jinlan's mood was a little depressed.

Because she saw the signs inserted on the ground again, which read "Nuhonghong" on them.

That is the wine Grandpa prepared for her marriage!

In the end, he couldn't take a sip in person either.

I don't know if I still have a chance to use it, which makes Ye Jinlan even more sentimental.

"Wait later, the dishes should be hot. UU Reading www.uukanshu.com"

Qin Yu lifted the jar with the yellow wine label and took her back to the ground.

Finding a tandoor and a clay pot, Qin Yu smashed the dry mud on the wine jar.

Remove the oil paper seal on it, and the rich fragrance instantly filled the entire courtyard.

At this time, Ye Jinlan had already brought back the fire that had ignited on the stove.

Put the burning sticks into the tandoor, and add small flat sticks with finger lengths.

White smoke fluffed, and the clay pot was gasping on the stove.

Pour the wine into the cup, raise a glass and smile at each other.

There is a feeling that a confidant is hard to find in my heart.

If it is accompanied by a piano and flute ensemble, it would be perfect.

For a drink, the sky was drizzling.

This made Qin Yu think of laughing with Ye Lao under the tree, talking about the past and the present.

It also reminded Ye Jinlan of the happy time with Ye Lao under the old courtyard tree.

Count the growth of green sprouts together in spring, play games in summer, look at the fallen leaves in autumn, and look at the silver dress in winter.

"If Grandpa is still here, he will definitely be very happy."

Qin Yu raised his head and raised his glass, and said, "Respect Ye Lao."

Tilting his head to look at him, the corners of his mouth rose as tears fell to the corners of his eyes. This scene is always engraved in Brother Yu's heart.

Chapter 1047: Hedgehog

Demon City, Penguin Island.

Vice President of Publicity, Public Relations and Legal Affairs, Mr. Fu.

He had just received a call, and when he faced the call, he was only qualified to respond.

"Yes...Yes, we understand."

"Thank you for your concern...Yes, I understand that everything is important to the overall situation."

"Okay, I will communicate with the management...Yes, they will understand."

"Okay, okay, the leadership has worked hard!"

After confirming that the end of the call has been hung up, Mr. Fu felt relieved and pressed 'End.'

"Huh~" Chang Shu let out a sigh of relief, and Mr. Fu leaned back and kicked his feet forward.

The chair slid to the floor-to-ceiling windows, and Mr. Fu looked out at the sea outside the island.

It is like the penguin's future, vast and full of infinite possibilities.

It should be like this, it should be like this...

But now, he seemed to see a volcano waiting to erupt under the calm sea...

Yes, it is still very peaceful now.

But when it accumulates enough power, the power to destroy everything.

The volcano will eventually erupt, and the huge waves that are set off will tremble even for the Penguin aircraft carrier.

It was a **** storm, and Mr. Fu seemed to see another kind of future.

It is undergoing tremendous changes, terrible, terrible waves are coming, and the penguin has a hole in the bottom of the boat.

The hole is constantly expanding, but the people on the boat can do nothing.

With countless resources, contacts and materials, it is obvious that everything can be solved by plugging it.

But the board of directors who can decide the life and death of this ship issued an order: stop!

Now, they can only look at the captain.

What will he do?

Mr. Fu wants to know the answer, but he will not sit and wait until the captain gives the order.

Even if he can't use the most effective materials, he will make the best use of everything and try his best to prevent the expansion of the hole.

Even if the loopholes cannot be patched, at least keep it in its original state and not continue to grow bigger, so that the ship sinks faster.

All the methods, those that are not expressly prohibited, can be used, flipped in Fu Zong's mind.
game...

It involves too many people's interests, and there are countless treasures waiting to be explored.

Vulcan...

It is the future, with absolute support from above.

Miracle Town...

In the phone call just now, he clearly warned him not to do anything with it.

Not a single bit of information is allowed to be publicized.

No matter what they have, or just guessing, use rumors to guide public opinion.

Heidu has also completely removed relevant keyword searches and blocked them.

So, what are the cards in his hand?

Mr. Fu rubbed his forehead, cold sweat kept coming out.

What kind of hand, what kind of hand can turn the situation around, he can't think of...

His opponent is like a hedgehog with the care of the king of the forest, before the two start a duel.

He was explicitly forbidden to use fangs, the most powerful weapon.

And, being tied up!

It feels terrible, they are the ones who can cheat in the game.

The one who is **** with his hands and feet and can only be beaten passively is his own enemy.

Now, Penguin realizes the frustration and despair of its former opponents when they were ruthlessly ravaged.

and many more...

The fact that the penguin can't do it doesn't mean that other people can't do it.

They should bring in external forces instead of seeking to break the game from the inside.

Just break its protective layer and put the true fragrance in front of the world.

Under pressure, even if the above wanted to protect him, there was nothing he could do.

Just like who I am now!

A smile appeared on Fu Zong's face again. Now, he just needs to find the right person.

Lingling...

A ringtone interrupted his thinking, and Mr. Fu pressed the answer irritably: "I said, no one will bother me."

"President Fu, I know, but the other party said he is your old friend, and you will definitely answer his calls."

"Who is it?" Hearing the secretary's answer, Mr. Fu was really curious.

"Baihe, he said his name is Baihe!" the secretary said hesitantly.

How could someone call Baihe? Will this name really be used?

But when he thought that even "Qin Shousheng and the toilet" were called, the secretary was relieved.

"... Did he say where he came from?" Fu Zong's tone became weird.

"Shangdu, he said he is from Shangdu."

"Come in."

*

After a meal of wine, I experienced what the ancients called the artistic conception of wind, flowers, snow and moon.

As expected, things were lukewarm as Qin Yu said.

Except for the painless gossip, the news on the Internet did not have any impact on Miracle Company.

Unfortunately, he is not by his side now and can share these with himself.

Ye Jinlan was a little curious about where he would be by the woman's side at the moment.

Is it Ye Zhiqiu... or that hot flight attendant...

"Boom."

Twisting the bottle cap, Yu Ge blew off the whole bottle of white beer in one go.

Body and mind shook his head happily, looking at Xun Lu who was limp on the carpet.

"Are you okay?" Brother Yu asked with a smirk when he picked her up.

"Don't talk, take me to the shower." Zhen Lu really didn't have the strength to say more.

She just wants to take a good bath and sleep beautifully.

In fact, these were soon realized.

When Qin Yu put her into the bathtub, Zhen Lu had already tilted her head and fell asleep.

In order to ensure that she would not drown in the bathtub, Brother Yu could only help her clean up enthusiastically.

Who makes him enthusiastic!

Until Xi Lu woke up in the clean, angrily smiled and cursed: "You are a beast!"

For supper, the two called the hotel's room service.

For desserts and some noodles, Xing Lu ate no image and filled her mouth.

"I'm starving to death."

Xing Lu muttered, "I'll be here as soon as I get off the plane. I haven't eaten anything for a day."

"Why didn't we say earlier, we can go to eat first." Qin Yu handed her the water in his hand.

咚咚咚~

After drinking several sips, I swallowed the food in my mouth.

Xing Lu wiped her mouth and said, "You seem to be able to bear it."

"I can, don't question my self-control." Brother Yu said solemnly. UU reading www.uukanshu.com

Glancing up and down with scrutinizing eyes, Xing Lu showed a trace of clarity: "I see, you met another woman."

"Where is there any other woman...Do you want to come again?" Brother Yu's expression remained unchanged.

For this topic, he now has a set of standard response procedures.

First of all, you can't be guilty when answering.

The expression should be natural enough, not serious, nor hippie smiling.

Just like ordinary conversation, it's better to add jokes appropriately.

Secondly, change the topic as soon as possible and let her shift her focus away from it.

A woman's sixth sense is unreasonable. Once she concentrates, she will notice loopholes that shouldn't exist.

Even if it's just the frequency of breathing, it will be caught.

Then, under a series of violent pursuits, people with a guilty conscience will often be unable to withstand this pressure and surrender.

Expose all the secrets and truths to the other side.

Then, wait for death!

If the other party forgive you, this matter will become the handle of your life.

On the contrary, don't forgive~

It seems that this choice is more suitable. You don't need to be a guilty slave forever, and become a Mr. Puppet who even feels strange to yourself.

Chapter 1048: Explain

Xing Lu rolled his eyes and realized it by himself.

But she still changed the subject along the steps, because Xing Lu knew a fact.

Argument and entanglement are not good for her.

The only possibility is to push him away from him, which is not the result Xing Lu wants.

What she wants is... a child!

A brand new field, a brand new topic.

"Do you want a child?" Brother Yu's eyes widened, as if seeing some alien.

"Yes, I want a child." Xing Lu said very positively.

"She or him, you can have my last name, we don't need your presence at all, I only need him...or her."

"This is impossible." Qin Yu refused without hesitation.

"So many single mothers, why am I impossible?" Xing Lu said very straightforwardly.

She needs this kind of straightforward expression!

Because her time is very tight, it is really, very nervous.

, on the one hand, you have to fly everywhere, on the other hand you have to take care of the books and coffee...

That's right, she hasn't quit her job flying around.

because of the flight attendant.

Bai Muqing resigned suddenly, and Xing Lu took over her class and became the new flight attendant.

This responsibility is not easy to bear, but Xing Lu promised Bai Muqing that she would lead the team well.

Fortunately, she doesn't need to take care of it herself, she just needs to check the accounts every month to make sure everything is okay.

It's just that it made her time busier.

Her new career did not achieve the desired effect, not only did it not let her relax.

actually made her busier...

"You are flying everywhere, every day, every day, year after year, day after day."

Qin Yu spread his hands and said, "Unless you can stop, oh...you can't, because you promised Sister Bai."

"Don't be cynic at this time, okay?" Xing Lu rolled her eyes and said.

"Ok, no problem!"

Qin Yu smiled indifferently, "As long as you tell me how to solve this."

"How do you find a balance between flying, managing the library, and taking care of your children."

Qin Yu's question made her unable to answer, and Xing Lu, who was so embarrassed and angry, said angrily: "I can do it, I can."

"You can't." Qin Yu shook his head surely.

"I do." Xing Lu stubbornly said.

"I mean, you are not ready, we are not ready."

"I will be by your side, how do you introduce me? Or you only need a child, let me go away?"

"Then I don't agree, no one can take you away from me."

Hearing his joking remarks, Zhen Lu was amused.

I want to compete, so it fades.

But she still wants to say, "I'm not young anymore, you know, I want a child and be a complete woman."

"No, you still have a lot of time, trust me." Qin Yu put his hand on her hand and said seriously.

At this time, a whirlwind of public opinion is blowing across the ocean.

The Moon Base is a conspiracy, and some people take advantage of its existence.

Anomaly and aberrant body is a terrible biochemical experiment.

They are the failures of the experiment!

The murderer who caused all this points directly to the miraculous town of Hudu.

How many secrets are hidden in this strange town?

is that it spreads so-called radiation, which is actually a biochemical virus, causing mutations and distortions.

Such rumors spread wildly, and the content became more and more outrageous.

There are even ridiculous remarks that "Miracle Company was originally created by aliens".

then triggered another conspiracy theory!

The aliens are taking advantage of the existence of the "Miracle Company" to control humanity and even the entire civilization.

When Brother Yu learned of this news, he was already on his way back to Hudu.

"The news spread quickly, and now there are people discussing it online, and more and more people are participating."

Xu Meixin reported with a worried face, but Qin Yu on the other side was projected, but it was very relaxed.

It seems that these things are just a joke in his eyes.

"Boss?" Xu Meixin whispered without getting his reply.

"Huh? Finished?" Qin Yu sat upright as if he had just woke up.

"Yes, what should we do?" Xu Meixin felt helpless, thinking, "Which little **** sucked him up." '

No, which little **** should be the right one.

is just one, but it won't make her tired like this.

"Do nothing." Qin Yu smiled.

"what?"

Xu Meixin was surprised: "Is my report not detailed enough? I can..."

Qin Yu raised his hand and interrupted: "Your report is great, Secretary Xu, you don't need to doubt your professionalism."

"That's it?" Xu Meixin didn't understand, it was clearly a public relations crisis.

Qin Yu's response decision is to do nothing?

It's not like him, and it's unreasonable!

"Yes, do nothing." Qin Yu responded very positively.

"I don't understand very well, how should I explain to Mr. Xu and Mr. Hua?" Xu Meixin was a little confused.

"Tell them that the Republic is peaceful."

Qin Yu snickered and winked: "Moreover, we don't need to explain, especially to the bald eagle."
explain?

When does the Republic do things, it needs to be explained to the Bald Eagle.

is still a bald eagle after the split, have you not figured out which side of your **** should be tilted?

Indeed, the situation has changed too quickly.

Many people are still uncomfortable, and they don't realize deep down that the bald eagle is no longer the only overlord of the past.

The Republic is no longer the big summer it used to be. It needs to weigh the pros and cons, compromise, and seek balance...

Not to mention that the bald eagle has been torn apart and turned into a pot of porridge.

Even at its peak, it is not comparable to the Republic of today.

As for China, I believe most people are happy to see the situation of the bald eagle today.

The strengthening of national pride and honor, the integration of Barrow, Seoul and other regions.
and the complete recovery of Neon and Wanwan, let the public know lose the space for survival.

The popularization of education and the improvement of knowledge level have made people no longer believe in the absurdity of the quintuplets.

Crazy thinking is also being banned by correct cognition!

Those few people who are still willing to believe that 'foreign moons are rounder' only represent themselves and a very small number.

Their opinions and thoughts are already insignificant in the Great Fusion Galactic Republic.

They are the very few who are destined to be eliminated, and they don't need to care at all.

The wheel turning room in the future will naturally crush it and discard it.

Now is the era of centralism.

Only Chuo District is the holy place that everyone yearns for.

A resident ID card of the Central District represents 'nobleness in the Republic.'

This is not the above intention, but the unspoken rule that people recognize spontaneously.

Now, whether it's to Barrow, Neon or Seoul, or even Belarus.

Holding a Chuo-ku resident ID card, they will get the best treatment.

At least in the bar, I always get the first drink!

Although it is not as good as the aunt's "United Nations document, 48 countries are waiting", it is true.

So, what explanation is needed?

Even if it is to confess, it is the bald eagle that gives miracle an explanation. Who is spreading these rumors that slander his credibility?

"Then, the domestic speech?" Xu Meixin asked.

"Remember to read tomorrow's morning news, you will see." The speed car has entered the town and parked automatically.

got out of the car, Qin Yu took the rail car to the central square.

Two mighty men in military uniforms are waiting there with old acquaintance Li Si.

"Two, I'm late." Qin Yu proactively stretched out his hand and said when the stride meteor stepped forward.

"You don't have to be polite, Qin Dong, shall we start now?" Soldiers hate twists and turns and drag.

Come straight to the topic!

Nowadays, there is a big fusion of various places, and the two of them hold multiple jobs, and the burden on their shoulders is not light.

Here I cooperate with Miracle Company to complete the work, and I will fly directly to Belarus for a meeting in the evening, and the time is very tight.

"Okay, please here." Inviting the two to go to the multifunctional conference hall together, Qin Yu and Li Si walked side by side.

"How are you doing, are you busy with work?" Qin Yu asked with a smile.

"It's always the same, I'm going around the miracle company every day, now you are my only task." Li Si snickered.

"Really? That's really an honor for me."

"So, Qin Dong will let me know more about it?"

Hearing the naked love between the two of them, Wei Wuhanzi looked at each other behind him.

This kid, yes!

He didn't waste his good skin at all, and made the best use of it.

Are there any secrets between Qin Yu and Li Si about Qin Yu's private life?

The two didn't care at all, they wanted to see the real results now.

Qin Yu didn't let them down either, Yuli waiting in the multi-function hall was the answer!

He Wu's departure took away the vitality of Qin Yu's men.

So, the new remodel list appeared again.

has been following his security team and was the first to be included in the list.

After soliciting opinions, Yuri took the lead in the transformation.

"A fanatic, I don't need to say more about the data, let's see the actual effect?"

These words were affirmed by the two, UU reading www.uukanshu.com. They have read the literal data of com many times.

includes audio recordings of the first batch of enthusiasts, researched hundreds of times over and over.

It is the first time for them to verify the strength of a fanatic.

"Let's start with the strength test first." said the national character face military uniform.

came to the training ground, the surrounding indicator lights all turned red at this moment.

All running rail cars will avoid this area.

Residents who live in small towns will also be warned that they are not allowed to step into the red line.

The two elderly people walking in the morning walk were stopped by a red warning.

This is not the first time. Although I am very curious, I still obediently turn around and leave.

Compared to my son's job, the benefits and convenience here are not so important for my curiosity.

bang bang...

5 cm thick solid steel plate, twisted and deformed by a side kick.

The hand knife pierced a 2 cm steel plate, and the car weighing 2.2 tons was easily dragged away by him.

The steel bar welded under the car was caught in his hand, turned his back to the car, and lifted the steel bar armrest.

Pulled forward like a cart, relaxed.

Followed by speed, the sonic boom produced by the full explosion made the two of them look sideways and their eyes bloomed.

looked at Yuri as if looking at a bowl of plump braised pork.

I can't wait to swallow him in one bite, no one wants to take it away!

Chapter 1049: Bump into

"China's ergonomics has made a breakthrough, and the Super Soldier project has been a complete success."

"...This project is a national strategic element, integrating the latest achievements of the country and Miracle Pharmaceuticals. Thousands of scientists are working around the clock to overcome difficulties..."

"The survivability of a super soldier is several times the limit of the human body, and it can survive in space for a short time.

The power is enough to drag a main battle tank, and its speed exceeds the speed of sound...

The clip we are seeing now is a screenshot of the test..."

On the screen, a warrior dressed in a pure black tight-fitting battle suit with his whole body wrapped in it appeared on the edge of the battlefield.

Two light tanks and a main battle tank in front, including 20 well-equipped soldiers are launching an attack on it.

The next moment, a sonic boom appeared next to the opponent.

Boom!

The light tank on the right of turned into a ball of sparks, lying on the spot, and the barrel twisted downward into twists.

Then there was another gas wave on the spot, and the barrel of another light tank exploded, and a ball of flame spewed out of the cabin.

More than 20 heavily armed soldiers responded calmly, but the sweat on the corners of their foreheads kept flowing.

Their eyes can't even keep up with each other's speed.

When a red handprint appears on the chest of the first soldier, the picture ends here!

"Fuck, what are you doing, I'm just seeing it!"

"The reality version of Superman, it's awesome."

"The American team???"

"What is the US team, what are you telling me, what is the US team?"

"Send the imperial army out, full."

"Die Mi Marseille, Royal Army, **** it. Neon, good people. We...friends...our own people."

"... Your own person, don't shoot!"

"Congliang, I have asked if we did not, and first send the teachers to the uncle to try the goods."

"You want to fart, the teacher belongs to everyone."

"Try together, try together."

"Upstairs, there is a picture."

The building is crooked, but it hasn't affected the spread and proliferation of Super Soldiers.

Less than an hour, the whole world knows that the Republic's Super Soldier Project has achieved extraordinary success.

At this moment, the world fell into dead silence because of this.

The super warrior in the picture shows frightening strength.

Variants, only those monsters can fight against them.

The mutable target is uncontrollable, and it has great security risks.

It is more difficult to make them obedient than to recruit them!

The first second was okay, the other party was his loyal subordinate, with reliable military support.

In the next second, his arm pierced his chest and smashed the heart, a cruel laughter came from his ear, and he fell into the darkness.

There is no shortage of senior executives killed by their own people among the chaebols, so that their current attitude towards the mutants is extremely complicated.

Neither can't give up, but also always beware...

is difficult, very difficult!

Especially the guys who were killed, they thought they were different from the others.

is the proud son of heaven and has an extraordinary life.

From now on, my world and life will undergo tremendous changes.

The changes of the times will be born in their own hands.

Then, nothing then...

Even leaving a whole corpse has become an extravagant hope, changing the pattern of the world?

In the next life, remember to cast a good baby!

And two men in military uniforms are being invited to enter the top secret agency of Miracle Company.

Hive, watch a genetic modification operation in person.

"This is our core laboratory. I'm sorry, but most areas are not open to you."

Qin Yu personally accompanied them to explain to them the process and progress of the operation.

"We understand, Qin Dong."

"Actually, we are very grateful to receive this invitation."

"Qin Dong, can this technology be popularized?"

"I don't want to say that, but it's impossible."

Qin Yu shook his head and smiled bitterly: "Do you know how bad its success rate is?"

"60%, this figure is only difficult to maintain!"

"Therefore, it is impossible to popularize until there are further breakthroughs in technology."

When they heard the 60% success rate, the two already knew the answer.

It is impossible to really popularize, but it is possible to try to popularize it to all staff within the Ministry of War...

But Qin Yu still rejected their proposal, "If it's just that simple, what is the significance of the Shennongjia training camp?"

"The will is more important than the body. It is the key to ensuring the success of the experiment."

Seeing that the two are still a little bit unwilling to give up, Qin Yu said: "My security team has 39 people, I think you should know something about it."

"Their origin and ability." Seeing the two hesitatingly nodded, Qin Yu was no exception.

If he doesn't even have this ability, then he will be disappointed.

"After the renovation, they only had 16 people left." Qin Yu's words surprised the two of them.

This success ratio seems to be too different from what he said.

Moreover, those people are all elites among the elite.

After Barrow merged into the Republic, they learned the true identity of Old Joe.

He is the shadow of Barrow, whoever he offers is the best.

handed over to Qin Yu, is one of the best.

In a team like , only 16 people survived in the end.

It seems that the actual risks are more complicated and dangerous than they know.

woo woo~

The alarm sounded, and the experimental body on the operating table below twisted and expanded, turning into a pile of crazily growing flesh and blood.

"Okay, we should leave here." Qin Yu took the two of them out of the observation room.

"Dong Qin, what happens, will it be dangerous?" the man with a majestic face asked.

"We have a strict response plan, and there will be no risks, but you will not want to see the following pictures."

The radiation value soars, which may affect the spirit of the two through vision.

If it caused mental pollution, it would be difficult for Qin Yu to explain to the Ministry of War.

Both of them have important responsibilities, and they are also their own people who support miracles.

In one's own territory, causing unpredictable damage to one's own person is not as simple as dereliction of duty.

Qin Yu doesn't want to cause misunderstanding, let alone make people mistakenly think that his control over the project is uncontrollable risk.

This will make people question his leadership, which will affect the development process of the entire Miracle Company.

"So, the operation failed."

"Yes." Seeing the dignity in their expressions, Qin Yu didn't say much.

This allows them to realize more truly how dangerous this technology is.

At the same time, it also represents the number of graduates of the second batch of students -1.

Mark is still in charge of training RRT on the West Coast. They are the key to ensuring the stability of the BlackRock Southern Consortium.

and investigate it clearly, what exactly is Deckerberg up to?

To what extent have they studied radiation energy, mutations and aberrations, including aberrant flesh and blood?

What did you do? Why did you set up a laboratory in the far north.

Is the land of bitterness related to them? ? ?

Yuli was transferred back from the young anchor by Qin Yu, and the replacement of staff had been completed before the transformation.

The security on the face of the little anchor changed the team, but it was actually [Assaulter] to protect her personal safety.

Other women are the same, there is an invisible angel beside them.

is responsible for taking care of their safety and ensuring that they will not be harmed in any way.

However, this angel is a mechanical structure.

sounds very romantic, doesn't it?

Metal and machinery are the greatest romance in the world.

This internal display is over. After sending the two on the speeding car, Qin Yu returned to the office.

"Tea, coffee?" Yan Xue opened the door with two glasses of drink.

"Coffee." Qin Yu responded.

Yan Xue retracted her right hand, which was about to touch the table, and delivered the coffee in her left hand.

Why did he suddenly change his taste? Didn't he keep drinking tea?

"Double espresso? Do you drink this every day?" Qin Yu said after taking a sip of coffee.

"I want to maintain sufficient energy, the work here is very important." Yan Xue sipped her tea.

A faint fragrance reverberates in the mouth, the taste is not bad!

"From now on, working hours shall not exceed 80 hours per week, which is a new personal rule for you."

Qin Yu put the coffee aside and said, "Help me change my cup of tea. I still prefer the taste of tea."

brought tea in again, and Yan Xue helped him knead his shoulders from behind.

"Your shoulders are a little stiff." Yan Xue said.

"These days are too tired." Qin Yu closed his eyes and enjoyed it. The continuous high-intensity back-to-back competition was very exhausting.

Although he can handle it, it doesn't mean he won't be tired.

Since nanoworms dormant, they have become more and more greedy.

Now, Brother Yu needs to consume 30 crystals a day to ensure that they will not take away his physical strength.

filled him with energy to face every day.

Nanoworms are dormant, upgrading and evolving...

This was what Qin Yu expected, but it was not what he planned. The time was much faster than expected.

It seems that dormancy is the right choice, but why, they seem to be reproducing like crazy!

Brother Yu is quite sure that the number of nanoworms in his body is increasing at an unimaginable rate.

This is also an important reason why snacks are consumed too quickly!

Now He has to replenish the ration every four days to ensure that the nanoworms in the body...

and tens or tens of billions of newborns, provide enough growth energy.

The good news is that the intensity of the nanoworm's absorption of external energy is also increasing.

This embarrassing situation will not last long.

When the perfect balance of consumption and absorption is reached someday, it can be circulated, and oneself will be free again.

Until the next evolution...

At the same time, Brother Yu is also looking forward to the effect on his body after this circulatory balance is achieved.

"I'll let you relax." Yan Xue walked around the chair and lay down on the large desk.

The slender legs are crossed, so that the curve of the body is perfectly presented.

Sexy and noble lace transparent crystal stockings, revealing the suspenders above.

The khaki lacquered high heels on the feet are full of the temptation of working women.

It seems that it's the fierce confrontation time of 1V1 again.

"Qin Yu, I think..." As soon as Zhu Ying opened the door and looked up, her expression fell into consternation.

"I, you..." The two of them skillfully arranged their images.

Zhu Ying said dumbfounded: "Can't we just lock the door or open the room?"

"The lounge next door, my goodness!"

Zhu Ying looked up at the sky speechlessly, but the picture in her mind was frozen in the third second after entering the door.

Chapter 1050: Water pump

"Don't always stare at me, you are an adult."

Facing Zhu Ying's constant squinting, Qin Yu had to remind her.

Because it feels weird, it makes him think about...

Some possibilities, some possibilities!

or something that shouldn't happen, she is the director of her research institute.

"Feel sorry."

Zhu Ying sat up straight and cleared her throat: "Ah, you are right, I am an adult."

"So, can I ask how you developed?"

Seeing Qin Yu's face black and wanting to intimidate herself, Zhu Ying hurriedly smiled and said, "From a medical point of view..."

"You know the normal size of Asians, cough... it's obviously over the standard, yours, so I'm very curious."

"Abnormal talent, dream blessing, is there a problem?" Brother Yu said with a black face.

"No, no problem, haha..." Zhu Ying smiled backwards and closed.

After a while, under Qin Yu's increasingly ugly face, Zhu Ying stopped smiling.

"So, your dream since childhood is to have many women?" Zhu Ying is obviously interested in this topic.

"No, I just feel that making myself happy is more important than choice."

"You will always encounter new things...people...landscapes..."

"They always have something to attract you, even if not the first time, but after many times there will always be..."

"At this time, you have to make a choice, whether to move to a new place or stay where you are."

"The original place makes you very emotional. After all, you have lived for a long time, but the new place makes you full of expectations."

"So, what would you do?" Qin Yu stopped and looked at her for an answer.

"You are secretly changing the concept." Zhu Ying retorted: "Affection is not a house. You can't just say it and lose it!"

"Yes, I think so too, so I want both." Qin Yu chuckled and shrugged, and continued to walk forward.

"But this is not a responsible performance, contrary to common sense!" Zhu Ying emphasized.

"This is the performance of being responsible. Excellent people occupy more resources, which makes sense!

If according to you, I think there will be a lot of women secretly hurting themselves, they will count this on your head. "

"Did you not hear what I said? This is against common sense!" Zhu Ying emphasized again.

He is completely changing the concept, which is an incorrect view of values and feelings.

"Thank you, and welcome to the real world." Qin Yu in the elevator opened his hands and bowed and bowed her farewell to her.

At the moment when the elevator door was about to close, Zhu Ying shouted: "You are a bastard, you know?"

Ding, the elevator goes up.

Zhu Ying turned her head and found a group of people standing in place looking at herself with strange eyes.

It was as if she was a poor puppy abandoned by her master.

"Look at what, don't you guys have a job?" Zhu Ying roared.

In the panic of the crowd, strode to his office.

There was a whispering conversation behind him, "What's wrong with her, she looks like a bitter woman?"

"What happened to the boss and her, is it..."

"Damn, I still want to pursue her, she looks so beautiful."

"You, don't think about it, first think about how to make your hair grow!"

"What's wrong with my baldness? What's wrong with my baldness, this is a clever performance."

"...Yes, continue to comfort yourself, dead bald."

"I got the independent project budget approval...you are jealous!"

"Yes, bald, good luck!"

Lying on the soft one-piece sofa, Qin Yu appeared distracted.

"What's wrong with you?" The little anchor leaned on his chest and asked curiously: "You look a little tired."

"No, I'm just thinking about something." Qin Yu lowered his head to play with her hair.

"What about work?"

"Um."

"I just have something to tell you, is Miracle Charity interested in joining the environmental improvement charity project?"

The little anchor sat up straight, looking at him expectantly in his eyes.

"Charity, to be specific!" Qin Yu was obviously interested.

Miracle Charity has so far only invested a lot of energy in education.

The others have not made much progress, because they have been established in a short time and are understaffed.

Secondly, there is a lack of leaders who are familiar with philanthropy.

Sanlai has not received the company's attention and strong support in this regard.

is not to say that education is insufficient, on the contrary, it can be said that it is going all out in this regard.

After all, it was a project that Qin Yu personally grasped, and no one would dare to sloppy on this.

What's more, this is something that half of the proprietress values.

As for the others, no one pays attention!

After all, in their view, the purpose of Miracle Charity was to please the boss's wife.

is indeed the case, so it still looks like it was when it was first built.

nothing has changed...

"Actually, it was Huang Wei's project, and she invited me." The little anchor talked about the ins and outs of this matter.

Huang Wei was invited by the Arctic scientific research team. They need funds to improve the environment and pollution.

But her power alone was limited, so she found a small anchor who was interested in charity.

She agreed to join, but after seeing the plan, she thought she and Huang Wei were not enough together.

The two need to find stronger capital to complete this plan.

At this time, Huang Wei mentioned Qin Yu: "If there is his support, this matter will definitely attract attention!"

Huang Wei's reminder made the little anchor realize that this is an opportunity.

can do charity and do good deeds.

can have more time with Qin Yu, at least when they are in the North Pole, no one will bother them.

"Save the Arctic ecology... Use a water pump to increase the thickness of the ice layer and pump water to the surface to freeze?"

Qin Yu looked at the little anchor with suspicion: "Are you sure this method is feasible?"

"Not sure, but I know that if nothing is done, the North Pole will disappear."

The little anchor turned on the terminal to project, and a comparison chart of the North Pole appeared in front of him.

Then she began to explain to Qin Yu what happened in the North Pole these years.

What terrible consequences did it bring, and how did the changeable and uncertain weather in the Republic cause...

Seeing her serious look, Qin Yu suddenly felt very attractive.

Serious people are always full of charm!

"What do you think?" The little anchor who finished speaking carefully looked at him.

The expression is like saying "Don't refuse, don't refuse."

"I promised."

Qin Yu smiled happily: "Invest 2 billion in the early stage, striving to make the pump cover 15% of the area in the next ten years, if it's really effective."

"Yeah, I did it!"

The little anchor jumped up excitedly, then threw into Qin Yu's arms and shouted, "I love you, boss."

Two days later, Qin Yu and the anchor host hosted Huang Wei and her team at home.

She has a professional charity team responsible for her schedule, charity projects and event arrangements.

"Dong Qin, it's an honor to see you." Huang Wei was a little excited.

Perceiving her nervousness, Huang Wei laughed and said: "Haha, I'm a little nervous... I didn't expect to see you as a real person."

"By the way, I forgot to say, I am your fan."

Seeing her bewildered, Qin Yu smiled and held her hand, and said, "Me too, please sit down."

"The queen of goods, you have ideals and persistence, you are amazing."

and Huang Wei sitting opposite each other, Qin Yu praised sincerely.

Hearing his praise, Huang Weixian was flattered: "Really? You are too praised, I am embarrassed."

Huang Wei shyly covered her face with her hands, showing cute expression, Qin Yu hugged the anchor and said, "It's true."

Seeing his intimacy with the little anchor, Huang Wei showed a strange feeling in her eyes.

He just showed it so generously in front of him, UU reading [www. uukanshu.com](http://www.uukanshu.com) is sure that he will not talk nonsense?

Asking to herself, Huang Wei found that she really didn't know how to talk nonsense.

Through the line of small anchors, catching up with a technology giant like Qin Yu has too many benefits for her.

What is the other party's private life and what does it have to do with yourself?

She is not a boxer, and she doesn't know how to punch.

Furthermore, the so-called boxing masters have bad money, and even the one hiding behind the text is a man.

She knows several of them. Behind the channels where female boxers are praised as leaders and spiritual mentors, they are all premeditated professional teams.

You know, only men know men best.

That's why they can always find out the key and pain points for a while, until how to make the female boxer better punch.

vented the inner dissatisfaction and distortion, and finally put a lot of money into his pocket.

"I saw the project and I am very interested." Qin Yu turned the topic to business.

He can invest money, give manpower and material resources, resources and channels, and even the support of contacts.

But first, he wants to see the actual effect.

That is, they must first prove that the pump is useful.

It is possible to extract the seawater under the ice layer, increase the thickness of the ice layer, and keep the frozen soil intact.

Otherwise, Brother Yu will not go all out to support a joke.

He needs to see results before he puts in his best.
