Chapter 1091: Is it growing?

Shi Cui's body fell to the bottom of the valley.

The dense stones shot a deformed body into a sieve, and the flesh-carrying stones flew outwards into the room.

Distorted darkness, instantly swelled into a new distortion body.

One becomes dozens of them.

It's like division, endless to kill!

But Shi Cui's purpose is not these treacherous aberrations, his palms change into swaying tentacles.

Cheng Yaojin, who was sitting on the shoulders of the deformed body like a whip rope, stretched straight and then bounced back.

Only at the end of the tentacles, there was Cheng Yaojin with a look of astonishment.

The moment Shi Cui caught him, Shi Cui's body leaped backwards and flew towards the other end of the valley.

After meeting the deformed body in front of him, his feet turned into countless tentacles, like black tassels inserted into the rock wall, leaping up quickly.

After a few breaths, he disappeared into the valley.

"F-K." The battle in the valley became more intense, Daisy breathed out fragrance, trying to block the influx of deformed bodies.

But they are too many, seem endless, with all kinds of changes.

Those aberrations that were killed, the remaining flesh and blood merged with each other.

It quickly turned into a pile of meat mountains, like a quagmire of flesh and blood, flowing backwards towards her.

Looking up, the sky is gradually covered.

The expectant Shi Cui did not reappear, and the opponent finished the arrest and ran away.

This unscrupulous dog thief, I still treat him as an old father at a loss!

Beast!

Looking around angrily, Daisy knew that she was unable to return to the sky, and there was only a dead end to wait.

Through the sense of touch, she clearly realized that her nematode was being wiped out and swallowed.

The power in the body is also fading fast, and if this continues, only these aberrant bodies will swallow and digest.

'I don't know if they are excreted or not. Is their final contribution to add nutrients to the earth? '

Thinking of such a sad ending, Daisy couldn't accept it.

Out of the corner of her eye, she swept around, and Daisy saw a fist-sized hole at the bottom of the rock wall on the right.

With bright eyes, she found a ray of life in the desperate situation!

"Shi Cui!" Cheng Yaojin, who was lifted by Shi Cui and flew forward, calmly broke his identity.

Running constantly under his feet, Shi Cui pushed the frame and turned his head calmly: "Do you know me?"

"Huh, how could I not know the people in the company." Cheng Yaojin said with a sneer.

"It seems that you have been paying attention to the development of the company and want to take revenge?" Shi Cui probably knows some conflicts between the other party and his boss.

The hatred of robbing a wife is not shared.

Although it was self-righteous and wishful thinking, Cheng Yaojin obviously didn't think so.

Not to mention the 'cause of extinguishing the door', the Cheng family has not been able to afford it so far, and they have all been removed from the list.

Nowadays, it has become a bereaved dog, and everyone can step on both feet.

How could Cheng Yaojin stand this? Whom should he look for if he doesn't seek revenge from Qin Yu?

The open-mindedness on the phone was only because he thought he had no means to resist and he desperately hoped.

Now, he has the ability to take revenge again.

How is it possible to remain calm?

"You don't seem to be worried at all." Staring at Cheng Yaojin's calm face, Shi Cui was watching the way with the eyes that grew from the back of his head.

After the transformation, the biggest advantage is that you can control your body as you like.

If necessary, he can have more eyes.

360-degree full vision without blind spots, or a few more ears.

Listen to all directions, eight should be enough!

"Why should you worry?" Cheng Yaojin responded with a sneer.

"Anyway, you always let me go back, don't you?"

While speaking, Cheng Yaojin's white eyes disappeared, and the black pupils spread out, occupying the entire eyeball.

The eerie radiation poured into Shi Cui's body, causing his rushing footsteps to slowly stop.

"Yes, that's it, now follow your inner choice and distort it!"

Looking at his sluggish and diffusing pupils, Cheng Yaojin smiled triumphantly and guided the influence of radiation on it.

Click, tear...

The scalp split to the sides, forming a terrible crack.

Canine teeth grow out of the edges, and they exude a ferocious aura in disorderly order.

Under Cheng Yaojin's expectant gaze, the crack on the top of his head began to extend upward, lengthening...

After that, it suddenly bent and stretched like a spring, drew an arc in the air, and placed it straight on top of Cheng Yaojin's head.

Ahhh~

Crunchy, hum...

Bite and chew, the cold wilderness becomes terrible!

"Is there still no one to answer?" Seeing Hua Sen with a solemn expression on his phone, Yu Ge was about to sit still.

What the **** did Shi Cui do?

And those people with him eat dry food?

A big living person was gone, and they didn't even know when the other party disappeared.

What use is it for you?

Lingling...

Watson grabbed the phone and said, "Hello, Captain Shi?"

Seeing the solemnity on her face relaxed in vain, Brother Yu knew that someone had been found.

Hearing that he was collecting experimental materials outside, Yu Ge simply exhorted him to return as soon as possible and pay attention to safety!

When I hung up the phone, my worries were finally relieved.

If he knew what Shi Cui did.

Maybe he will become more anxious!

Shi Cui's loyalty is beyond doubt, but it does not mean that he has become a puppet and has lost the ability to think about himself.

Will be out, military orders are not.

Shi Cui just didn't want to worry the boss.

What's more, his current state is better than ever.

Poor Daisy, this would be like an amoeba, wriggling in the dark hole to escape.

Every time she squirmed forward, she would curse Shi Cui once in her heart.

At the same time, even Qin Yu, who was on the other side of the ocean, was also on her curse list.

Damn you bastard, I hope you shorten it by one centimeter every day.

Ouchette...

Who left this **** ball of dung?

Shui, Shui!

After sneezing several times in a row, Yu Gexin said, 'Is it because the little anchor misses himself again.'

Thinking of her satisfied expression when she left, Brother Yu felt that it was impossible again.

As for the others...

The list is too long, and Brother Yu decided to give up thinking.

Boom!

The locomotive drove into the forest path and stopped in front of the hidden villa.

Seeing the big run stopped by the villa, Brother Yu took off his helmet and walked into the house with a smile.

Just walked in, "Wang Wang"

A dog with a lame leg, jumping on three legs, stood in front of him.

Look at its thin body, beating hard but showing a fierce and ridiculous performance.

Brother Yu knelt down and rubbed its head, "Little guy, who brought you back."

"Uncle." Tongtong happily ran towards him across the living room.

Jumping straight into his arms, Brother Yu was stunned, sat down on the ground and laughed: "Boy, it's getting more and more energetic."

"Haha, I'm an adult now." Tongtong laughed, hugging his neck.

"My lord, let me see if there is long hair!" Brother Yu stretched out his hand to pull his pants.

"No, huh~" Tongtong tucked his trousers with his hands, humming to run away.

Standing at the door, Yalan couldn't laugh or cry, and teased: "You two, stop making trouble. Come wash your hands and eat."

"Mom, UU reading www.uukanshu.com, mom help, don't pick my pants." Tongtong asked her mother for help.

Under Yalan's angry and charming horizontal eyes, Brother Yu let go of Tongtong who begged for mercy.

He glanced at the dog hiding by the side, and curiously asked, "Where did this dog come from?"

"I am me, I picked it up." Tongtong, who had escaped a disaster, resumed his activity.

Brother Yu suddenly fell into a cat waist and swooped forward, as if he was going to catch him again.

"Ah~" Tongtong screamed and ran into the bathroom.

Click, the door is locked.

"How old you are, how can you be like a child." Yalan reluctantly complained after seeing this scene.

But his eyes were full of gratifying happiness, and Tongtong could only be so arrogant and lively when he was with him.

The two of them get along better than Yalan thought.

Chapter 1092: Real men should never move forward

At the dinner table, Brother Yu cleans a bone and throws it to the dog.

Seeing it nodded, he laughed and said, "This dog is pretty smart."

"Of course, I picked Xiao Hui back." Tongtong raised his head triumphantly, incredibly proud.

Leaning over to hold it hanging in the air, dangling back and forth left front paw.

Qin Yu squeezed, the dog screamed in pain, and shrank back.

Its left front paw was smashed in the middle because it was a stray dog and no one cared about it.

The broken claw attached only to the skin has been hanging like this, like a decoration.

Judging from the situation that Yu Ge just touched and its performance, the bone has been completely broken, and the inside has not healed.

I don't know if there is inflammation or pus!

"You have to take it to the operation. The broken claws should be cut off as soon as possible." Qin Yu sat up straight and wiped his hands with the white towel beside him.

"I have made an appointment with the hospital, and I will take it to tomorrow." Ya Lan said.

Tongtong was suddenly excited and raised his hand, shouting: "Uncle, uncle, can you give Xiao Hui an iron hand?"

"One hand, only." Ya Lan corrected by the side.

"Can you help Xiao Hui with an iron hand?" Tongtong quickly repeated.

Iron hand!

It's not impossible, but a dog with five fingers.

Is it a bit too contradictory, it looks like a monster.

The public has been frightened enough, but the mechanical claw fits the reality.

"But the iron hand is so cool!" Tong Tong said, holding up his flexible iron hand.

"You are a human being, it is a dog, and a dog should have paws!" Ya Lan corrected again.

The ten-year-old Tongtong is the age when he has established the correct three views.

Yalan will correct his mistakes anytime and anywhere, to prevent him from taking mistakes as correct and remembering them as a habit.

For most people, habits are powerful.

Never underestimate the power of habit.

The right habits can shape a person, and the wrong habits can ruin a person.

Therefore, Yalan needs to remind him at all times.

What is right and what is wrong!

"Well, can you make its paws more beautiful?" Tongtong looked up at him expectantly.

"I will try my best to do it." Qin Yu will not make uncertain guarantees.

He can only guarantee that he will do his best.

Turn the artificial prosthesis into a mechanical dog claw, the overall structure, size, precision of parts and applicability.

All of these have to be redesigned. It seems that this dog is going to take a trip with him.

"Where are you taking Xiao Hui?"

"Of course it is to install new paws. When it has new paws, I will send it back, okay."

Hearing what he said, Tongtong reluctantly agreed to let him take Xiao Hui away.

"Well, it's not about taking it away now, let's take Xiao Hui to the garden to play!"

Hearing what his mother said, Tongtong picked up Xiao Hui after the meal, and said as he walked: "Xiao Hui, you have to listen to your uncle."

"When you come back, there will be an iron hand as handsome as me."

"At that time, we can go to teach the bad guys together and knock them all down."

I am an iron-handed hero, and you are my most loyal lackey. We are wandering all over the world, one person and one dog..."

Hearing his muttering voice, Brother Yu looked at Yalan speechlessly: "What have you done?"

Everyone has a river and lake in his heart.

Tongtong, who has read Mr. Jin's masterpiece, also has his own arena.

In his arena, the turbulent mutants spread by the outside world are 'the evil spirits'.

The aberrations are 'the evil demon outside the sky,' all **** it!

When I grow up, I will kill them all, not a single one.

Thinking of her son's serious expression, Ya Lan had a headache and held her head.

Did you let him read too many martial arts novels?

What if he really runs to fight those monsters?

Seeing her headache and worry, Qin Yu stretched out her hand to hold her hand and said softly, "Don't worry, nothing will happen."

"How do you know that a child of this age is at a time of rebellion, what if he sneaks out?"

When confronted with a problem related to her son, Ya Lan felt as if she was caught in a halo of suffocation.

Totally unreasonable...

"You don't think that I am really relieved to let you live by yourself."

In order to dispel Yalan's worries, Brother Yu called out the invisible [Assaulter] in the room.

Seeing the rippling air in the corner of the wall, a machine suddenly appeared.

Ya Lan was taken aback by its appearance.

"My god, it...it..." Yalan stumbling and stumbling while pointing at [Assaulter] and was speechless.

"It has always been by your side, and Tongtong has the same assaulter by his side to protect his safety."

Yalan's worries faded slightly, but she thought of other problems.

"When did you arrange it?" Yalan secretly glanced at the cold robot.

"months ago."

"Then...Where am I going...Does it follow?" Yalan asked tangledly, biting her lower lip.

"right."

Qin Yu glanced at her curiously, and said, "What's wrong?"

Yalan glanced up at him, and said in a slightly shy tone: "Does it include privacy?"

"It will not have an image storage function, it can be viewed at any time..."

Seeing her shyness with her head down, Brother Yu suddenly laughed: "Why, I'm worried about taking a shower..."

Yalan immediately covered his mouth and stomped angrily: "Talking, talking."

Qin Yu blinked innocently, smelling the fragrance of his fingertips.

There was an impulse in his heart, and he stretched out his tongue and licked it under his palm.

"Ah!" Yalan retracted her hands like an electric shock, putting her hands behind her back.

Fingertips clenched his palms, and kneaded it squeezingly.

Obviously, it was only a light touch, but Ya Lan seemed to be possessed.

I felt that my palms were hot, my whole body was being ignited, and my eyes were full of spring water.

"Look, Tongtong will be having fun with the dog, we."

Qin Yu put his hands under his armpits and put his arms around her waist, "Would you like to make him a younger brother or younger sister."

"Who wants to... hate it with you!" Yalan was already embarrassed and speechless.

How did he say such sweet and shameful words.

Yalan, who had never experienced this, was completely unable to resist.

In a few words, he was captured by Brother Yu.

When he came back to his senses, he was already standing in front of the bed in the bedroom, falling in exclamation.

*

*

After the passion, fingers stroked Yalan's smooth back.

Brother Yu looked at her 89 points of faith with emotion, "It's only one step away that we will die."

Tangled!

Choose to nurture life, or knock on the door and umbrella.

Brother Yu still has no idea!

But he knew he had to make a decision as soon as possible, because Yalan was not the only one.

Zhou Xue, Lu Qing, Ye Jinlan, and Yan Xue are all on the fringe of the standard of [Mad Believers].

Just one step is to cross the last obstacle.

If you mess around like this then, it will definitely kill you!

After all, Brother Yu is full of energy and firepower every time.

What roundabout and restraint?

nonexistent...

So, what is going on?

Let's go with the flow...

An instantaneous increase of 500 points of belief value, a daily increase of 1 to 3 points of belief value.

89 points of faith, sooner or later is to break through.

Brother Yu decided to work harder, making her the first woman to win the prize today.

"Lan'er, show you a big baby!" Yu Ge smirked and turned Yalan, who was resting in a sleepy sleep, to him.

Ding!

Congratulations to the host for developing a [mad believer], the power of miracles is growing.

"In view of the host's active attack, random rewards are triggered."

"The light of miracle blooms today, and the reward is doubled!"

"The light of miracle blooms twice, triggering a second doubling!"

"The light of miracle blooms three times, triggering a super double!"

"Reward 1: Faith Card X10+ (Double X10) + (Super Double X100), total Faith Card X120."

"Reward 2: Advanced Energy Crystal X5+ (Double X5) + (Super Double X100)."

[Reminder: Turn on the Lucky Wheel for the first time, and give X1 times as a gift.]

[Reminder: After the conversion is over, the total number of turntables X4 will be obtained.]

Damn it!

The frantic beep in the ear was silly to Brother Yu.

Double double, super double...

Energy crystal column... Lucky Wheel...

He had hesitated to fart if he knew it was so awesome!

Sure enough, a real man should never move forward.

It's over!

Looking down at Yalan who was sleeping and smiling, Brother Yu really wanted to hug her and kiss her.

She is such a treasure!

Feeling feeling, Brother Yu heard a new beep: "Because of the host and the target??? times, the sunshine value is +1."

Huh?

Brother Yu almost forgot, this characteristic of Yalan.

It was actually triggered?

'System, scan. 'Qin Yu.

Chapter 1093: Sword in Mother's Hand

Yu Ge is very satisfied with the beautiful panel data.

The level changed from LV10 to LE.1...

LE, the system's interpretation of it is: 'higher than the general standard, better than the general standard, more advanced. '

Therefore, LE is a higher level standard than LV.

This also means that Yuge upgraded the system to a whole new field.

The upgrade of the system did not bring direct benefits to Brother Yu.

Now, he intends to see if the Wheel of Fortune will bring him a different experience.

'Open the wheel of fortune. 'A classic turntable appeared in front of him.

The turntable is composed of a variety of background colors, with white, green, blue, silver and gold occupying 99% of the area.

The last 1% is bright red, as fresh as bleeding.

The white area has the largest opening, followed by green, blue, and silver.

The golden angle is the smallest, basically only one-seventh of the white.

Except for red, it is the least likely to switch to it.

There are only two awards in the golden zone, one is the 'kinetic mecha,' and the other is the 'fifth generation power engine. '

As for the red area, Brother Yu suspects that it is used to stab people's appetite.

The narrow triangle formed by the two lines that are almost straight and close to each other can't even fit a little finger.

A line of small characters was written vertically on it: Overlord-level Super God Void Flagship.

Every time, that brother Yu saw it in the mall.

On the last page, a super super flagship worth 1 trillion beliefs.

If you shook it, would it crash through the earth one by one? ? ?

If this thing can be achieved, I will broadcast...

Forget it!

As a child of miracle, nothing is impossible.

Or don't just stand it casually, what if it will be done?

"Four chances, try one first."

Brother Yu immediately decided to give it a try first, "Starting to draw the prize."

The pointer is fixed and the dial below slowly accelerates.

Then, the speed gets faster and faster, until it becomes a blurry ghost.

In Yu Ge's guess, even if he didn't hit the red area this time, it would be at least one of the golden prizes.

But in fact, he slapped him with a loud slap.

White~

His first prize draw ended with 'whiteboard equipment'.

This special lady is unscientific.

What about miracles? People?

Ye Di, it's too cold in winter to go south for vacation?

'Congratulations on your winning the whiteboard reward, faith card X1.'

Seeing the text prompt that appeared in front of the turntable, Brother Yu sneered a few times: "I really thank you!"

"The prize draw." Brother Yu made a big effort and planned to try a second time.

Wow~

The turntable swayed and turned into a phantom again.

Brother Yu stared at the rotating disc, seeing it start to slow down.

White, green, blue, silver, gold...

Red couldn't perceive the traces of it passing by, even in a very slow state.

It seemed to have passed in a flash, and it didn't exist at all.

The speed is getting slower and slower and slower...

The turntable is about to stop, and the direction of the hands at 12 o'clock is gold, gold.

When the turntable was about to come to a complete stop, it seemed that a finger gently shook the turntable to the right.

As a result, the pointer missed the gold perfectly and fell on the silver reward.

"I Gan, play with me, right?" Brother Yu exploded a bit.

This turntable is simply a pit, compared to a pachinko machine, it should have been chopped and burned directly.

'Congratulations on winning the silver reward, special card X1. '

After all, it is a silver reward, much better than the previous whiteboard.

Brother Yu said comfortingly: "Next time, I will definitely be in the next time."

Thinking of the next time, Yu Ge decisively shut down the system.

After winning the first two prizes, he has clearly realized how bad his current fortune is!

Perhaps it was because the light of miracle flashed three times before, which consumed all his recent luck.

Therefore, he decided to wait a few days and come to draw the prize when he is lucky.

Save these two lottery opportunities first, and they won't expire anyway.

Including 120 faith cards, all of which are reserved for the next time.

After getting this done, Brother Yu turned around and hugged Yalan, smiling undiminished and fell asleep.

When he woke up again, Ya Lan was nowhere to be seen.

Coming downstairs, through the glass window next to the restaurant, Brother Yu saw Yalan and Tongtong playing pitching games in the garden.

Pushing the door open, Qin Yu asked with a smile: "Is anyone with me?"

"Uncle, I want to play with Uncle." Tongtong yelled happily.

Yalan gave him an angry look, and said angrily and funny: "That's not what you said just now."

"Mom is too weak, uncle...uncle...uncle..." Yalan yelled non-stop like cheers, causing Yalan to raise her hand to surrender.

Handing over the mini football in his hand, Ya Lan whispered: "Don't play too crazy, I will be very distressed if either of you is injured."

"Don't worry, no." Brother Yu tossed the ball alternately with both hands and walked towards Tongtong.

"I'm going to cook dinner, be careful." After another exhortation, Ya Lan walked into the house frequently looking back.

"It's coming." Qin Yu tossed the mini football back and forth with both hands, visually inspecting the distance between the two.

Tongtong spread his legs, bent forward in an attacking manner, and said seriously in his eyes: "Come on, I won't be polite."

Hearing his ferocious voice, Brother Yu laughed dumbly: "Ha, you stinky kid, step back."

"Why?" Tongtong asked uncomfortably when he was ready.

"I'm afraid of hurting you, is this reason enough?" Qin Yu said while playing the ball lightly.

Tongtong stepped back, stood still and asked, "How about this?"

"Stand back again."

"how about this?"

"Retreat...Continue..."

After the distance between the two was 15 meters visually, Brother Yu said OK.

"I'm coming." Brother Yu held the ball in his right hand and raised his shoulder.

Lean back to the right, doing a charge-up position.

"Come on!" Tongtong's eyes were serious, and he leaned over and opened his arms.

Facing Qin Yu, he was no longer as relaxed as before.

However, Tongtong still has absolute self-confidence and can catch the ball thrown by anyone.

Because his artificial prosthesis is far stronger than human strength.

"Watching the ball."

Qin Yu tossed the ball forward. Although he did a charge-up action, he didn't actually use much force at all.

It was just enough to throw it in front of him, and Tongtong caught the ball smoothly.

"Ha, I got it, I got it." Tongtong, who held the ball in both hands, happily spinning around, jumping and jumping.

"Good job, it's your turn." Qin Yu smiled and clapped his hands, attracting his attention.

"Yes, uncle, you have to be careful!" Tongtong held the ball with one hand.

The mini football suitable for children can be held by him in one hand.

The brain signals enter the sensor through the natural graphene nerve, and then pass to the processor for analysis.

Subsequently, the smart chip issued clear instructions.

The artificial prosthesis responds to instructions, and the strength, angle, speed and timing are not bad. boom.

The rugby that turned into a shadow steadily fell into Qin Yu's palm.

It felt like Tongtong aimed at his hand when he tossed the ball.

But two minutes ago, that hand was still leaning on the right side of the body, defending against the sphere that would appear at any time.

"How did you do it?" Tong Tong asked in surprise.

He has been playing toss for a long time, and he has also received professional training in physical fitness classes at school.

But no one can predict the direction of the ball he throws like Qin Yu.

Because Tongtong's strength is too great, the ball moves too fast.

Often the moment the line of sight keeps up, the rugby has already arrived in front of the opponent.

At this time, it was too late to react.

Even if the opponent reacts quickly and can receive the ball, they will be embarrassed.

It was the first time he encountered such a relaxed performance as Qin Yu.

"There are mountains outside the mountains, and there are people outside the people."

Qin Yu threw the ball to him and said with a smile: "Confidence does not mean complacency, let alone conceited."

"You only use external forces to be better than others. This is not your own strength."

"Change your left hand and do it again." Qin Yu said.

Tongtong lowered his head, looked at his left hand, and then at his right hand. With a reluctant expression, Tongtong switched the ball to his left hand.

"Uncle, it is also my hand." Tongtong wanted to struggle again.

"Don't talk nonsense, let me see what you can do." Qin Yu said sternly.

Seeing his serious expression, Tongtong didn't dare to talk back.

The little face drooped, and he whispered something quietly with his lips pouted.

Throw the ball forward hard, Boom!

The ball steadily fell into Qin Yu's palm, the same as before.

The strength is not as strong as that of the artificial prosthesis, and the speed is not very fast, but this is enough to surprise Brother Yu.

12 years old, able to throw the ball 15 meters away.

This is not something ordinary people can do, and many adults today may not be able to do it.

"marvelous."

The serious expression suddenly turned into a smile, and Qin Yu said loudly in praise: "This is what I want to see, come again."

Tongtong, who was depressed just now, immediately regained his vitality.

Laughing and opening his hands, his eyes lit up with hope, yelling: "Come on, no one will ever want to pass."

You come and I go, time passes quietly in the toss game.

When Yalan came to ask them to eat, Tongtong was so tired that she could not hold her arms. UU
reading [www. uukanshu. com](http://www.uukanshu.com)

The left wrist and arm felt sore and tingling.

"What did I say before?"

Yalan stared at the big and the small with her hands on her hips.

The two who bowed their heads and admitted their mistakes quietly glanced at each other, and the corners of their mouths were raised uncontrollably.

Shrugging his shoulders, Tongtong endured very hard, "Puff~Puff, hahaha..."

Tongtong, who was suddenly attacked by Qin Yu's waist, broke the defense in an instant, and tears flowed with a smile in front of his mother.

"Still laughing, you~"

Yalan, who originally just wanted to educate him, wondered if she was too weak.

Stick to a filial son, you can't be a weapon if you don't fight!

Sword in Mother's Hand~

Huh, here comes the sword!

The feather duster fell from the shelf into Yalan's hands, and the originally quiet room became a little furious.

Tongtong scurrying up and down like a monkey, desperately yelling: "Mom, I was wrong, mom, oh~wow..."

Seeing Tongtong being ruthlessly cleaned up, Brother Yu couldn't bear to pray for him secretly.

For the happiness of uncle and mother, I can only sacrifice you.

In the future, my uncle will definitely compensate you.

Hey, it's really tough this time.

Chapter 1094: My dad

After a meal, Tongtong's face was covered with tears.

Wrongly sat down to eat, and looked up at Ya Lan from time to time, as if thinking about the barometer of 'God'.

Unfortunately, what he thought was a bit too simplistic.

Brother Yu lived for 24 years, and another four months to 25 years. He didn't figure out what a woman was thinking.

Lao Qin has lived for most of his life, and he has little knowledge!

He, a 12-year-old kid.

Understand women?

Outrageous!

What... Don't mention the little pumpkin, it's a weird flower.

There is no one out of thousands of miles, and sometimes Brother Yu wonders how he was raised crookedly.

Anyway, it must have nothing to do with him, but Lao Qin's genes are too strong to blame.

Who is his seed!

This is the reason. My mother is sure to believe it. With her support, Brother Yu doesn't panic at all.

Under the understanding of the family emperor, the emperor of the female emperor!

After dinner, Yalan cleaned up the dishes and went to the kitchen to wash the dishes. Qin Yu accompanied Tongtong to play in the living room.

Racing cars, bump man, various toy guns, and robots were all moved out by him.

Once the two control the robots to fight against each other, and then use the racing car to start the competition, running and running becomes a violent collision.

Then it evolved into Mortal Kombat, basically Tongtong was subdued by Brother Yu with one hand, lying on the ground laughing and begging for mercy.

Until Yalan shouted in the kitchen: "It's time to go to bed, go wash and get ready."

Tongtong put the toy down unhappily, slumped his shoulders, and dragged his feet upstairs.

"Hey, man, how did we make an agreement?" Qin Yu asked suddenly.

Tongtong stopped, straightened his chest under his gaze, and said reluctantly, "Be a real man."

"What should a man's performance look like?" Qin Yu continued to ask.

"Never get discouraged!" Tongtong said loudly.

Qin Yu nodded and asked: "So?"

Spreading his shoulders back, stretching his neck and raising his chin, Tongtong, who was still stalking vegetables, walked out of an arrogant step that the six relatives did not recognize.

This gai, I am the most beautiful boy...

After cleaning up, Yalan was leaning on the door frame and seeing the scene in full view. While gratifying, she felt a little sour in her heart.

Tears poured into her eyes inexplicably, causing her to lower her head to wipe.

As the footsteps approached, Ya Lan raised her head, her body was hugged by her strong and warm chest.

"In the future, we will be a family." The determined warmth filled her soft heart and reached her soul.

The next day, after eating breakfast, Tongtong rushed to put on shoes.

Wearing a hat, wearing a school uniform, carrying a school bag, and carrying a water bottle in his hand.

Just standing at the door waiting eagerly.

"Usually I haven't seen him so positive." Yalan said amusedly at the dinner table.

Qin Yu finished the rice porridge in two mouthfuls, wiped his mouth and said: "I have eaten, and I will give him a few more times when I have time."

"Don't, you will spoil him, when he only wants you to send it, it will be me who cries."

Yalan joked, got up and walked around the dining table to tidy up his neckline and clothes.

After kissing her plump and hydrated cheek, Qin Yu said, "As long as you call me something, it will be fine."

Without giving her a chance to speak, Qin Yu walked towards the door quickly: "Man, we should start."

"Oye, WISP boy, Chong." Tongtong raised his arms and shouted.

Brother Yu, who was about to change shoes, staggered and almost fell to the ground.

Who is going to be a wildfire boy, what a mess.

What does this kid learn in school?

Is the amount of extracurricular knowledge reserves a bit too much? ?

Buzzing~

Riding the motorcycle all the way, Tongtong's cheers kept coming from his ears.

Unlike other children, the first time you experience this feeling will be scared.

From the moment he got in the car, he was not afraid.

Energetic throughout, not timid at all!

Recalling his performance in the hospital and his cheerfulness after installing the artificial prosthesis.

Qin Yu looked down at his gaze, full of softness and distress.

Being sensible is not born. To be sensible, how much has Tongtong experienced more than his peers?

Brother Yu can imagine that those experiences are not all pleasant.

I just hope that in the future, he will not have more of the same experience, and restore the innocence and naivety that he should have.

Acting like a baby, being angry, having a temper, and making trouble, these are all the performances he should have at his age.

Tongtong is much more obedient and sensible than before, but this is not always good.

Shouldn't I find a chance to mention this to Yalan?

Even adults, who suppress negative emotions for too long, will break down.

What's more, a child should have the right to vent.

Or maybe it's because I'm thinking about it too much.

He just didn't show those emotions in front of him, and he was the same as other children in his daily life.

Brother Yu decided to wait for him to be sent to school, so he said to Yalan.

He really cares about Tongtong.

"Uncle, don't forget that you promised me, give Xiao Hui new paws."

In front of the school, Tongtong, who returned his helmet to him, specially reminded him not to forget his little friend.

That is his future loyal dog, who wants to travel with him to punish and punish evil.

The peace of the future world is in their hands.

"Someone has already gone to hug it, listen to the class carefully, and remember to get along well with the classmates."

Qin Yu rubbed his head and urged him to go in quickly. There was no one at the school gate.

"Goodbye, uncle!" Running forward, Tongtong waved goodbye to him with a bright smile.

"Tongtong, is that your father?" As soon as he entered school, Tongtong ran into his classmates.

The other party looked at Qin Yu straddling the locomotive with envy, and Tongtong's friendly tone was the first time that Tongtong heard it.

"Yes, that's my dad, it's amazing!" Tongtong raised his chin proudly and scorned each other with his nostrils.

Humph, let him say that he is a wild child without a father.

I also have a father, and my father is better than your father.

He can do everything, braver and stronger than everyone else.

He can ride motorcycles, fly planes, drive tanks, spaceships, spaceships, big spaceships.

He can swim, and he can swim faster in the water, faster than fish.

He can jump several meters at a time and can jump on the roof of a two-story building.

He is stronger than a bear and can knock down a wall with one punch.

he still...

"Bringing, just a little bit, bragging king, you are not talking about people at all."

The disgusting voice interrupted Tongtong's show off. Looking back, it turned out to be the most annoying big guy in the class.

He is taller than his classmates and looks like a little giant.

At the age of 12, he grows to 1.73 meters and is a monster.

But the same is true, let him become the little overlord in the class, but his favorite is to bully Tongtong.

Similarly, Tongtong hates him very much.

"I'm not bragging, my father is just so good." Tongtong said stubbornly.

"You are bragging. Don't believe him. Tongtong is the bragging king. He doesn't have a father."

Da Zhuang stood fiercely on the spot, embracing his arms, looking at him coldly.

The children had doubts in their hearts and began to consider what Tongtong said.

It sounds like the father in his story is amazing.

Really like he said, omnipotent!

But can anyone do it?

Tongtong blushed, wanting to explain, but didn't know how to explain it.

Faced with the questioning glances of his classmates, Tongtong was extremely upset.

He is a bit exaggerated!

But Uncle is really amazing, although...maybe...

Not as good as he said, but he is really good, he is the best person he has ever met.

They are also their favorite people, how can they not believe in themselves.

"Just say he is bragging, everyone ignore him, bragging king, just a little bit!"

Da Zhuang put his fingers against his nose, making ugly faces.

"He's lying?"

"I knew that no one could be that good."

"That is, how can someone know everything? Isn't that a superman?"

"Does Tongtong really have no father?"

"Dazhuang said, maybe..."

Tongtong lowered his head and clenched his hands tightly. He wanted to silence those classmates.

But the voices of mother and uncle kept echoing in their minds: "You can't use it to bully classmates, you have to get along with classmates..."

School or something, I hate it!

Tongtong walked forward with a frustrated expression, "Tongtong."

Looking back, Tongtong's dim eyes lit up, "Uncle, Dad."

As soon as Qin Yu rushed towards him, tears were flying in the air, Tongtong put his head into his arms.

"What's wrong?"

Rubbing his head, Qin Yu looked at the little kids in front of him: "Are these your classmates?"

"Yeah." Tongtong nodded happily, forgetting the previous unhappiness.

This time, what worries him even more is his previous name.

Calling him 'dad,' the uncle won't be angry, right?

Will he ignore himself in the future...

Uncle is so good, he will definitely not leave Tongtong and mother.

It definitely won't, it won't.

Brother Yu, who was mad at Tongtong, was staring at Da Zhuang who was seven or eight meters away with a smile.

Being uncomfortable with his eyes, he unconsciously lowered his embracing hands.

Close to the seam of the trousers, head down, like a well-behaved big child.

Brother Yu lowered his head and hugged Tongtong with one hand.

Then he grabbed his shoulders and moved upwards, letting him sit on his shoulders.

"Wow~"

The little kids screamed in exclamation, and their doubtful eyes were once again covered with little stars of worship.

"Tongtong, remember that we made a bet in the morning about how far we can jump like this?"

Tongtong, who was sitting on his shoulders, had a dazed face, but under the gaze of his classmates, he still nodded instinctively.

"Let's try it now." Pressing Tongtong's knees with both hands, he fixed him to his body.

Qin Yu bends his legs, accumulating strength up and down repeatedly.

Then Tongtong noticed that UU reading www.uukanshu.com's own body was flying.

Boom!

With both feet landing, Tongtong flashed back, and was brought back by the power of the restraint on his legs.

Bowing his head, he turned out to be a small bully in front of him, big and strong.

"Wow~ Tongtong's father is amazing."

"He jumped so far, so far."

"His father must be a professional athlete, I know..."

"Uncle, uncle, can I play with Tongtong?"

"Uncle, uncle..."

A group of little kids were all shocked and rushed forward to surround him, talking non-stop.

The big Zhuang in front of him stared straight at the ground.

There was only a picture left in his mind that jumped up, fell from the sky like a flying man, and landed in front of him.

He saw Superman.

"Okay, it's time for class." Holding Tongtong on the ground with one hand, Qin Yu rubbed his head fondly.

"Remember to get along well with your classmates, please take care of our children."

With a bright smile and waving to the little kids, Brother Yu turned around and left without hesitation.

Looking at his distant back, Tongtong's joyful smile hides a trace of bitterness.

he...

If it were my father, it would be great.

Chapter 1095: Strengthening starts with amputation

The thing that promised Tongtong would naturally be done.

After sending him off, Brother Yu went back to Liancheng on the east coast and took the dog to the hive.

Give it to Zhu Ying and amputate it first.

After waiting so many days, Zhang Wei's call finally came.

"Boss, don't you have to check your homework the next day, how about people?"

Zhang Wei initially rejected the information sent by Qin Yu.

But Brother Yu said to check the 'homework,' he could only look through all the information with suspicion.

Zhang Wei never stopped after this turn.

When he sorted out and summarized all the knowledge in the notebook and drawings, he had his own ideas in his mind.

Only then did I remember the previous agreement, and when I asked the time, it had been a little half a month.

"How about it, didn't let you down!" Brother Yu didn't answer the conversation at all.

It was an excuse to make Zhang Wei avoid the unavoidable reason.

"Hey-hey."

Zhang Wei smirked. He who has been immersed in the new sea of knowledge these days has experienced the long-lost happiness.

The secondary processing of titanium and rhodium alloy, the sketch of the first-generation rail defense belt.

Either way, Zhang Wei, who is self-positioned as a scientist, can get spiritual satisfaction and joy.

"Is all the diaries organized?"

"It's sorted out, in the way I am used to, boss, when shall we start the experiment?"

Zhang Wei is a little impatient. Regardless of these two technologies, as long as they succeed, they will definitely be able to stay in history.

Although Zhang Wei has done it, he is the chief scientist of Vulcan.

He will leave a strong mark in the opening curtain of the Interstellar Age.

But who would dislike his achievements?

"The titanium-rhodium alloy project will be handed over to Team Leader Jing."

"boss..."

"Don't get excited, the defense belt project is still yours."

Interrupting Zhang Wei, Qin Yu said with a smile: "If you read the notes carefully, you should know how amazing it is."

"If you can copy your vision to reality, even if only half of it, the position of the company's chief technology officer will be yours."

Brother Yu put a ready-made big pie in front of Zhang Wei.

This cake was made by Brother Yu himself.

The position of Chief Technology Officer of Miracle Company is now held by him himself.

The gold content and profound meaning are not just as simple as the rights represented by the position.

It can be said that no matter who gets this position.

Within the company, it is equal to standing at the top of the pyramid.

Whether it is power or influence, they are all different.

"I will pass the information to Team Leader Jing, how about being a consultant?"

"Defensive belt."

"...Understood."

After finishing the call, Brother Yu asked the girl to find Jing Yuan and tell her about the titanium rhodium alloy.

Knowing that this is a theory close to practice, Jing Yuan looked at Qin Yu with green light.

"Teacher, is it your idea?"

Seeing her look like a wolf and a tiger, Brother Yu denied it with a headache, "It's not me, I don't, don't talk nonsense."

"Understood." Jing Yuan rolled her eyes and nodded deeply.

The teacher is still as low-key as he has always been, giving credit to everyone, and hiding his merit and fame.

Jing Yuan has seen this style countless times.

The worship and admiration for the teacher in my heart is like a surging river, endless.

Worthy of being a teacher!

Seeing her admiring gaze, Brother Yu was stupid.

What have I done, what will I understand?

Make it clear, Soul Dan!

"Is Shi Cui back?" Qin Yu rubbed the bridge of his nose a little tired.

"There is no news for the time being."

Brother Yu thought for a while, and said: "Tell him, come back as soon as possible, and he has the gene primitive he wants."

"Okay, teacher." Jing Yuan replied obediently.

Seeing that there were more and more little stars in her eyes, Brother Yu leaned on the vest and said tiredly: "Go ahead!"

"I'll go first, the teacher has worked hard."

With her hands folded and bowing at ninety degrees, Jing Yuan walked out lightly.

Took a look? ? ? Yu Ge's mood is much better because of his favorability and belief value.

Worthy of being his first believer.

Looking at the door that was about to be closed, Brother Yu said in vain: "If you have time to walk around the church in the game, you will be rewarded."

"Okay, teacher." The door was completely closed.

On the way back to the work area, Jing Yuan called the girl: "I need a game pod."

"There is a reserve game pod in the VR equipment center, do you want it now?" The girl.

"Let little J go, I'm in the office... No, I'll move to my lounge."

The office also needs to receive employees and deal with work matters, or a lounge is more appropriate.

"Send a message to Shi Cui, and the teacher has a brand new gene source in his hand.

If he can't rush back in time, I'm happy to deal with the original body for him. "

Ten minutes later, a brand new game pod was placed in front of Jing Yuan.

With the assistance of Xiao J, Jing Yuan lay in the 'coffin' and entered the game world.

As for the frequently transmitted information from the terminal, Jing Yuan deliberately ignored it.

How much temptation is Shi Cui's second-generation Super God Gene and Prototype.

Those who know him know very well that he should be on his way back by this meeting.

On the other side of the ocean, looking at the terminal with no response.

Shi Cui urged the driver again: "Hurry up, how long will it take to arrive?"

"Within half an hour, you will definitely be there," the driver replied.

half an hour.

Although it's not too late, to Shi Cui, who was anxious at this moment, it seemed like living a life.

The fingers frequently pushed the frame of the frame, showing Shi Cui's inner eagerness.

The second generation of Super God Gene and Protosome is the experimental material he has always wanted to study most.

But before today, no matter how reasonable his reasons, the application has never been approved.

This made Shi Cui almost give up, chasing and fascinated by it.

Force yourself to focus on other places to avoid excessive negative emotions due to loss, affecting his thinking and judgment.

Unexpectedly, just when he was about to give up, hey, it came.

Thinking of this, Shi Cui pushed the frame more frequently.

Suddenly, yellow dust rose up in front of the road.

The car stopped suddenly.

"Something has fallen in front, be alert." The driver used the intercom to order, and several RRTs at the back of the car got off and went to check.

The yellow dust in front was blown away by a gust of wind, and the black thread in the air quickly disappeared, exposing an embarrassed figure.

Seeing that Daisy was standing in front of the car, the RRT members were relieved.

Although she is not clear about the specific relationship between her and the company, the instructor has said that the other party is half of her own.

Will not do anything harmful to the company, let alone hurt the company's employees. UU reading www.uukanshu.com

The driver clearly remembered that what the instructor said was "dare".

"Ms. Daisy, can I help you?" the RRT member who went to investigate politely asked.

"Let Shi Cui come out and give me my people." Daisy said calmly.

She was very angry, but she still distinguished between the lighter and the heavier.

As long as he gives the goal to himself, Daisy can be treated as if it didn't happen.

Compared to what Shi Cui did, the imminent threat was even more deadly.

That man, he wouldn't listen to his own explanation!

Not to mention the risk he took when he pulled Shi Cui into the water.

If you let him know, he will not let him go easily.

Damn the devil, he must have crawled out of **** to punish the world.

Thoughts jumped, Daisy saw Shi Cui coming out of the car, "Man, leave it to me."

"Nothing." Shi Cui said innocently.

Daisy's expression was gloomy for an instant, and dense black lines appeared on her body, which indicated that she was not satisfied with the answer and she was very angry.

"Don't worry, I will explain to the boss myself." Shi Cui continued.

He doesn't want to fight with Daisy here, now he just wants to go home quickly.

Chapter 1096: Bathhouse

After 18 hours, Shi Cui set foot on the land of Hudu with a tired face.

The gold frame glasses he treasured most disappeared from the bridge of his nose at this moment.

The expression that is always smiling has become gloomy and gloomy.

"Captain Shi, welcome back." The driver who came to pick him up watched his expression carefully.

"Go back." Shi Cui sat in the back row in a cold tone, closing his eyes quietly.

"Yes." The driver closed the door lightly and let out a long sigh of relief.

He quickly bypassed the front of the car and got into the cab, and drove in the direction where he came.

On the back seat, Shi Cui closed his eyes and slumbered, and his right five fingers repeatedly played silent movements on his thigh.

Daisy...worm girl...

Thinking of the battle before leaving the west coast, Shi Cui's closed eyes became colder.

Perhaps, it is time to suggest to the boss to take her back.

Tune it up and let her understand what the rules are!

It's just an accidental plaything, a test product, dare to bargain with myself.

But this is not why Shi Cui was angry.

He almost overturned the car in Daisy's hands, and that was the crux of the problem.

The growth and weirdness of the opponent's strength are the crux of the problem.

When did her strength have grown to such an extent.

No wonder she can escape from the bottom of the valley.

The special nanoworm developed by Jing Yuan performed better than expected.

Look back for an opportunity to ask her if there is any new progress in the nano project.

Shi Cui wanted to make some modifications to his body to make it more superior and stronger.

After returning to the hive smoothly, Shi Cui went back to the office first.

I found out my spare glasses and put on them, and my cold face was full of hypocritical smiles.

Now, it's time to find the boss.

"Huh, Captain Shi, when did you come back?"

In the corridor, he met Cui Geng who was conquering the interstellar portal, and the other party asked in surprise.

"I just came back, planning to see the boss." Shi Cui smiled and nodded.

"Looking for a teacher, he has already left." Cui Geng also called Qin Yu a teacher like Jing Yuan.

He entered the institute at the same time as Jingyuan and Cui Geng, and the researchers at the same time all referred to Qin Yu as 'teacher'.

This is what makes them proud of distinguishing themselves from the latecomers.

In the research institute, only Jing Yuan and Cui Geng are at the same time, and those who have listened to Qin Yu's lectures can be regarded as teachers.

This is already a rule not to be, unspoken rule!

"Aren't you there?" Shi Cui was stunned and pushed the frame.

Could it be that I was released, which made Shi Cui's mood just getting up again become irritable.

"Yes, is there something urgent?" Cui Geng asked.

"It's okay, thank you, Team Leader Cui."

Seeing that he didn't want to say more, Cui Geng didn't care, and said, "Then I will go ahead."

After two steps, Cui Geng suddenly remembered another thing: "Ah, that's right."

"Jing Yuan is looking for you, and asks you to meet her first when you come back."

Facing Shi Cui's questioning gaze, Cui Geng patted his forehead and laughed at himself: "My memory is getting worse and worse."

When he came to Jingyuan's office, Shi Cui knocked on the door.

"Please come in."

Pushing the door open, Shi Cui saw the drawings and scribbled notes spread all over the ground, and Jing Yuan was lying on it, constantly calibrating and recording.

"Team Leader Jing, are you looking for me?" Shi Cui glanced at the drawing and didn't care too much.

He now has a heart, and it is all attached to the gene and the original body.

No interest in the subject Jing Yuan is working on!

"Yeah." Jing Yuan snorted without raising her head, and continued to plunge into the drawing in front of her.

Shi Cui stood there, waiting for her to explain the situation.

After half a day, she realized that Jing Yuan had forgotten herself a long time ago.

"Cough~"

After clearing her throat, Shi Cui was reminding her, 'Hey, there is still a big man waiting!'

Frowning and raising her head, Jing Yuan remembered his existence: "Sorry, I was too focused."

She clapped her hands and stood up, Jing Yuan asked casually, "Is this trip to Beizhou going well?"

"Fortunately, I didn't encounter any problems...The laboratory passed the acceptance and can be officially put into use."

Hearing his answer, Jing Yuan asked with a smile in her eyes: "Is there nothing else to say?"

"What is Captain Jing alluding to?" Shi Cui pushed down the frame.

"Do you know that when you are nervous or unhappy, you push the frame frequently?"

Jing Yuan smiled gracefully, turned around and sat on the chair, and said, "Cheng Yaojin, where are people?"

"..." Shi Cui's expression was somewhat waxy.

When it comes to other questions, he can answer fluently.

No matter what excuses he uses, he can fool around casually with his authority.

But this is the person the boss personally named. Shi Cui clearly realized that he couldn't use any excuses to shirk it.

"Who told you?" Shi Cui asked.

"What do you say?"

Who else but Daisy, Shi Cui knew in his heart that she was the first to sue the wicked person.

The desire to recycle her in his heart is even stronger.

If she can be handed over to herself for training, it will definitely be a qualified tool.

"I can't explain." Shi Cui said speechlessly.

He was worried about his explanation and could not get Jing Yuan's understanding.

In the research institute, Jing Yuan belongs to the 'good-hearted faction', whether it is dealing with projects or experimental products.

She is the most merciful, although she often behaves fiercely.

In fact, it is a knife mouth and a tofu heart.

Even Zhu Ying is more courageous and cruel than her.

If I tell her that Cheng Yaojin died, was absorbed by myself and disappeared...

Shi Cui couldn't guarantee what he said to Jing Yuan's ears.

"I will explain to the boss myself." Shi Cui said again.

The smile in Jing Yuan's eyes receded, "I hope you can explain clearly why I took my own risk and lost people again."

Opening the drawer on the left hand side, Jing Yuan took out a book-sized box from it.

After throwing it, Shi Cui accurately caught it.

"This is what you want, you can go." When she got up and crawled on the drawing again, Jing Yuan wanted to continue her project.

The improvement of the secondary processing of titanium and rhodium alloy, it is like a precious orphan, making Jing Yuan unable to stop.

Seeing her reintegration into her performance, Shi Cui gave up her plan to ask about the Nano Project.

From her attitude, it can be seen that even if she asks herself, she can't ask anything.

Jing Yuan's impression of him is not very good.

Take the gene and original body you want and leave the office.

After dozens of hours, Shi Cui finally felt the joy from the heart.

Finally got it, super **** gene.

If he can crack the secret of the super **** gene, the entire genetic modification project will produce earth-shaking changes.

At that time, the ranking of group leaders in the research institute should also be changed.

But before that, Shi Cui had to explain to the boss clearly why Cheng Yaojin disappeared in his hands.

Brother Yu did not see the projection video sent by Shi Cui the first time.

Because he would be in the bath with Li Xiao and Shen Dong, with only a towel wrapped around his waist.

Picking up the water and wiping his face, Shen Dong said lazily: "Brother Yu, don't you say that there is such a good place."

Qin Yu drew some water on her body and said with a smile, "I'm here for the first time."

Li Xiao smiled and interjected: "When it comes to eating, drinking, and having fun, it's the right thing to find me. I'll be on standby for 24 hours."

"The feelings are good. I have a sore back and aching back all day, so I want to find someone to press and move my muscles and bones."

"After soaking in the sweat and steaming, take a bath after the steaming. Let me tell you that the master here doesn't know how to do it."

"When we're done, let's go upstairs and the rooms are all opened."

Brother today is a one-stop whole arrangement, soaking, steaming, rubbing, pressing, and then drinking tea and chatting.

What other projects follow up depends on personal needs.

"Is this massage serious?" Shen Dong squinted with a strange smile.

Li Xiao wiped her body with a towel, and vomited: "Then it depends on your seriousness."

Shen Dong looked straight and said, "I'll get a 299, I have to press it properly."

"No at 299, starting at 998."

"I'm drunk, can't a serious person die?"

"deficit?"

Li Xiao said amused: "Under the 2999 market, this is Hudu."

"Forget it, there are 2,999, it's better to buy a bag for my wife." Shen Dong said jokingly.

To complete the set, the three of them went upstairs in disposable pajamas.

Three massage beds are placed side by side in the box, and a sofa and tea table are placed against the wall on the other side for guests to rest.

"Listen to Brother Yu, Dongzi, do you plan to set up a logistics park?" While waiting, Li Xiao talked about business.

They are all clockwork people who count time, how much money they make, regardless of the size of their careers, no one is idle and doing nothing.

No one really thinks that the three of them came here purely to take a bath!

"In fact, this matter is still borrowed from Brother Yu. The miracle company wants to launch a hoverboard, which is just suitable for city express.

In addition, Yuge will provide a supporting intelligent management system. "

"The entire logistics park is basically fully automated, except for management personnel, all other aspects are completed by robots."

Hearing his explanation, Li Xiao looked at Qin Yu in astonishment: "You are trying to copy the old folks of the traditional express delivery industry!"

"Does this happen rarely?" Qin Yu smiled indifferently.

Smart phones, computers, e-books, self-media...

Which is not the old foundation to overthrow the traditional industry.

If this old man can't turn it over, now human beings are still living by hand-made!

So what's the industrial age?

Not only the logistics park Shen Dong intends to build, the entire express delivery industry will be upended as a result.

Brother Yu had already said it before, and now it's just turning it into a fact.

"Is the place optimistic? Bonded area?"

"Forget it, I don't want to be labeled a day trip."

Hearing Shen Dong's ridicule, Li Xiao said: "Don't underestimate the bonded area, although there has been a previous scandal."

But if you want to develop import and export trade, you should seriously consider before making a decision. "

"International trade, I didn't think so far." Shen Dong told the truth.

"Then you should think about it now."

"Brother Yu, what do you think?"

Suddenly mentioning such a big change, Shen Dong was a bit undecided.

"It depends on what you mean. Earn more, risk higher, earn less, risk less."

You want a peaceful life, wives and children are hot on the bed. If you still want to be bigger and stronger, it's up to you. "

Brother Yu can support him, but cannot make decisions for him.

This is his own life, and only he can decide where to go in the future.

Chapter 1097: Brother has an automatic transmission

Does the logistics park need to be bigger and stronger?

If he doesn't do it, he can do his own courier order and open a logistics park.

"I also know that the bonded area has many benefits, but the relationship is so complicated, I'm afraid I can't cope with it."

Shen Dong is not humble, he is doing well in his small business.

But it's not enough to look at the big guys who are overwhelming in the bonded area.

Just his small arms and legs, can't stand a few toss, and then they are useless.

"What are you afraid of, don't you still have me and Brother Yu!"

Li Xiao smiled indifferently: "Hudu is our site, what can't be done?"

During the conversation, three aunts came in, dressed plainly.

Neither makes people feel uncomfortable, nor does it have any dazzling characteristics.

Climb on the bed, press and it's done!

The three people who pushed, squeezed, beat, and pressed were drowsy.

Sure enough, it was a serious massage, without strength and skill.

"Well, huh~" Shen Dong's hum was heard in the ear, and the grandson made the aunt's press cool.

Unconsciously, he made strange noises, and Yu Ge was full of weird faces.

The younger brother even turned his face away. Will he have time to change the room?

The formal massage that was originally enjoyed, made Shen Dong so troubled, a bit like living a year.

"Brother, do you want to add another clock?" The aunt reminded that the time was up.

"No, that's good, thank you." Li Xiao stood up and said that it was okay.

Shen Dong wanted to add a clock, but neither of them planned to do so.

I can only lift up my pants, scribbled to the end!

Being beaten together like this, it feels as comfortable as opening the Qi Meridian and Eight Meridians.

The invisible shackles on the body surface were immediately liberated.

Sitting on the sofa, drinking the tea just delivered by the waiter, the three mentioned the previous topic again.

"How about thinking about it? Do you want to give it a try? There must be risks."

Li Xiao first put the words first, there is a certain risk in everything, no one dares to say that it is 100% successful.

There are only two kinds of words, one is a liar, the other is a father.

It should be said that he is even more intimate than his father, which is simply a free gift.

Why are brothers, Junzi (buy brothers), mice and Qin Yu so strong.

Not only is it a kindred spirit, but also because Brother Yu is like a new parent to them.

The things that his own father has not changed have changed the opportunities and capital he brought.

Now that the three people's status and right to speak in the family are not brought by the capital that Qin Yu has added to them.

Li Xiao remembered this clearly in his heart, and has always been grateful for it.

Otherwise, why should I condescend to call 'Brother Yu? '

For Shen Dong, the little brother can't do this.

It's not the distance, but his ability.

If you really send money, there is no need to go to the bonded area, you can come directly to Lingang.

Grant him a plot of land. After a few years of work, luck is good, and the pollution hasn't spread before it's gone.

Throwing it out is a cornucopia. What logistics park do you still do?

However, this kind of thing is risky and the hidden dangers are even greater.

Maybe everyone has to go in together, sit in rows, and wait for the meal.

It's better to do a serious business!

Just like the massage just now, it's not very comfortable.

He can only guarantee that in the bonded area, no one can handle Shen Dong and his business at will.

As for other things, how to make money, how to open up contacts and channels, and keep your business on the right track.

Then it depends on his own ability.

"It's done." Shen Dong said confidently when he patted the armrest of the sofa.

With such a good opportunity in front of him, he would be really stupid if he didn't know how to seize it.

Although Li Xiao didn't send the money directly to him, it was so direct.

But it was tantamount to pushing Baoshan in front of him, but the road to the treasure was a bit complicated and tortuous.

Shen Dong needs to find a way to find the treasure, then move it out a little bit and turn it into his own wealth.

This is an opportunity that many people can't ask for.

"Brother, I don't want to thank you for your kindness. I will use tea instead of wine, and my brother will do it first."

Shen Dong picked up his teacup, said thankful words, and threw his head up.

"You Yu brothers are all my own brothers here." Li Xiao smiled, then picked up the teacup and dried.

He didn't pretend to take a sip and let it go, but drank it all like Shen Dong.

The phrase 'one's own person,' full of sincerity!

The cooperation intention is finalized, now it's up to Qin Yu, "Brother Yu, when can I get the first batch of goods?"

Shen Dong's logistics park can rely on Qin Yu's black technology to make a name.

Earn enough eyeballs, you can monetize traffic and attract ready-made customers.

I believe no one will refuse faster, low-cost, and efficient service.

Without these hole cards, Shen Dong would say nothing.

Today, the market is saturated and controlled by the monopoly of big capital.

Doing traditional express delivery is equivalent to a small fish jumping into the crocodile pond, wanting to play a game over its own means.

In addition to looking for death, Shen Dong didn't know how to describe this behavior.

"Weilan is refitting the production line, waiting for the first batch of products to roll out, it's yours."

Qin Yu estimated the approximate time, thought about it and said: "Two months, I should be able to get it."

This mainly depends on the efficiency of Wei Lan and the technical staff, and Yu Ge can't make an absolute guarantee.

"Okay, then I will go through the formalities first, prepare the funds, and I will transfer the purchase money to you first?"

"Don't transfer it to me!"

Brother Yu smiled: "I'll give you a call, my secretary's, you will contact her directly when you turn back."

The number given to Shen Dong is for Xiao Yuan.

She is in charge of administrative work, which is just within the scope of her functions.

For ordinary people, Brother Yu must have given Beiyi's number.

But his relationship with Shen Dong is different, so let him and Xiaoyuan directly match up.

"Brother Yu, isn't this your beautiful secretary?"

Shen Dong looked at the number on the phone and joked: "Do I have to call my sister-in-law?"

"Go away, this is a serious secretary." Qin Yu scolded with a smile.

Shen Dong rolled his eyes as he listened. What happened today? How about a serious festival?

Seriously in the bathhouse, serious massage, serious tea and talk, the secretary is serious afterwards.

Why can't you be a little bit stern?

Shen Dong called for service, "Waiter, is there anything wrong with us?"

"Brother, you are not serious, how serious is it?"

The waiter's words made Dong Ge stunned.

How many gears need to be selected, can't I have automatic transmission?

Today, it is destined to not let Brother Dong do what he wants. After drinking the tea, the three people who had enough rest dispersed separately.

"Why don't we make another little string?" After finally getting together, Shen Dong didn't want to end.

"Next time." Brother Yu has other arrangements, the little anchor is still waiting at home!

"Okay, next time I will be an affair." Shen Dong said with a big smile.

First sent Li Xiao away, Shen Dong returned to Qin Yu, "Brother Yu, do you know who I met today?"

Seeing his winking eyebrows, Qin Yu curiously asked, "Who?"

"Hou Kun."

Before coming here, Shen Dong was in the warehouse at his own courier station, and he happened to meet Hou Kun who was here to get the courier.

The two simply said hello, and Hou Kun looked quite mature.

However, depending on what he wears, he should be still doing his job.

"I haven't been on the same road for a long time, why bother with that!"

"Do you want to eat soft rice too?"

Hearing Brother Yu's ridicule, Shen Dong vomited: "Pull it down. If you want to eat, I will also eat from our family's Xuanxuan. The rice she cooks is very soft."

Seeing his happy face, Qin Yu suddenly remembered the WeChat letter he had sent before.

"Did that woman still look for you?"

Shen Dong's expression was startled, and he said complicatedly: "Yes, I called two weeks ago. I'm going to change my number."

The two of them were talking about Youlan, the Tiancai that Shen Dong had previously engaged with.

After that happened to Dad Shen, he broke contact with the other party.

But Youlan obviously didn't intend to let it go easily, and sent him messages over and over again.

Either hush cold and ask warmth, or complain about your own unhappiness.

The feeling for Brother Yu is to hang on Shen Dong.

Shen Dong had already told her very clearly that he now has a girlfriend and has a very happy life.

The two plan to get married after a while, so that she will stop harassing herself.

But Youlan just as if she didn't understand, she still did her own way, accepting all her rejection and resistance to him.

"If you want to change it as soon as possible, don't mess it up." Brother Yu reminded him appropriately, and if something happens, just stop it.

If Xuan Xuan finds out, I don't know how many incidents will happen.

He is planning to get married, even if he still has a little nostalgia in his heart, he should know how to choose.

"I'll do it tomorrow, and I will send you a WeChat account when it's done, and the old account will just log out."

Shen Dong nodded earnestly and said, this time he was determined to break it completely.

Seeing the truth in adversity, Shen Dong is not an ungrateful person who does not know what is good or what is wrong.

Xuan Xuan's kindness to him is all in his heart.

The previous error will not happen again.

"Brother, it would be nice if you have the enlightenment of yours." Brother Yu murmured in his heart and told him to get into the car and leave.

As the saying goes: One thing drops one thing.

This time, the little brother seemed to have encountered the nemesis, and was pinched to death by Ye Mingzhu.

Even if the other party refused his marriage proposal, it was quite unpleasant at the time.

But when the other party cried and cried, the little brother relented and took her back.

Look at his performance This time it may be really going to fall into the hands of the other party.

Brother Yu wanted to talk about it with him, but Li Xiao always talked about it, and didn't want to talk about it.

He could only dispel his thoughts, "Should the mouse come back?"

Under normal circumstances, Brother Yu is unwilling to intervene in emotions.

No matter how deep the friendship is, feel free to intervene in such matters.

The most likely thing is that Zhu Bajie looks in the mirror—not a person inside or outside.

But Li Xiao was too irrational in this matter, not only didn't stop the loss in time, but got deeper and deeper.

Brother Yu was afraid that he would be hurt too badly in the end and would not be able to get out.

Just like buying a brother, I've been doing love business until now, and I can't get involved in a relationship again.

As a friend, Yu Ge naturally does not want to see Li Xiao also end up like this.

"Mouse, I have to talk to you about something..." Taking advantage of the journey home, Brother Yu dialed Xu Hao's number.

After roughly telling him what he knew, Xu Hao basically knew what was going on.

"Brother Yu, I happen to be on a business trip to Hudu in two days, this matter is left to me."

"It just so happens that I also have some other understanding of this Zhuzhu, and I need to have a good talk with my little brother."

Chapter 1098: Image collapsed

Xu Hao came on a business trip, and how did he talk to the younger brother, but Brother Yu didn't ask much.

He said that the relationship between the two is much closer than him.

If Xu Hao couldn't persuade him, it would be of no use to outsiders.

However, Xu Xixi finally packed his bags and got on the plane to Hudu.

Brother Yu ate breakfast at home, and then went out after receiving a call.

In the underground garage, Tang Jiaqian stood alone in front of the luxury cars and walked back and forth, her eyes swept to the corner from time to time.

Porsches, Lamborghini, strange pickups, and two locomotives occupy a garage wall.

Seeing that the boss was not there, Tang Jiaxi couldn't help taking out her mobile phone.

After comparing them one by one, Tang Jiaxian couldn't help but stunned secretly when she found the price.

Good guy, these cars combined, she can't afford them for several lifetimes.

Although there are countless legends in the owner's body, that's for a small employee like Tang Jiaqian.

The so-called legends are too far away, just like listening to the characters in the story.

The impact brought by these luxury cars is far less real and strong.

The price of the car she will find alone is over 100 million, not to mention the strange models that she didn't find.

'It must be very expensive. Tang Jiaqian thought to herself.

She is very normal in her heart, just like seeing the LV while driving, no one will feel that her bag is fake.

You are wearing a mink and squeezing a bus. It's really fake.

"What are you looking at?" Tang Jiaqian was shocked by the sudden voice in her ears.

"Ah~" His hand trembled, and the phone was thrown out in shock.

Brother Yu stretched out his hand and grabbed the cell phone that was thrown away.

"Thank you boss." Tang Jiaxian took the phone and bowed in a formal expression of thanks.

"You are too courageous." Brother Yu said dubiously.

Tang Jiaqian puffed up her cheeks and said to her heart, 'who is scared from behind, and that they are timid.'

"Let's go." Throwing the key of the big parcel to her, Brother Yu walked to the back row of the big par.

Tang Jiaqian followed in a huff, but didn't dare to show it.

Who made her just a worker, facing the molesting of the boss, she can only...

Before graduating, Tang Jiaxian also felt that she could earn one million a year and reach the pinnacle of her life every minute.

If the boss upsets himself, he fires him in minutes.

Self-employed, the brand is on fire, and immediately lead a high-quality life that everyone envy.

Buy a luxury car, live in a luxury house, enter and exit a five-star hotel, participate in a top dinner party, surrounded by big men and elites.

But when she stepped into society, the loud slap in the face from reality made her truly aware.

What is difficult to make money!

Don't say you graduated from a prestigious school, graduate student, doctorate...

No experience, no resources, no connections, no family background.

Become a beating worker every minute, so thank goodness for a monthly salary of more than 10,000 yuan.

Earn one million a year, want to eat a fart?

Recalling that I once felt that the whole world was my own, innocent and innocent.

Tang Jiaqian can only sigh: "Short video kills people."

Seeing Tang Jiaqian sitting in a daze in the driver's seat, Qin Yu couldn't help but urged.

Isn't this girl really a naive girl?

"Oh oh." Tang Jiaqian came back to her senses when she was so startled, and started the car cautiously.

Tang Jiaqian, who was sitting tightly holding the steering wheel with both hands, was particularly nervous.

Although she had driven this car before, it felt too different for the boss to be in the car and not.

Seeing that she was too nervous, Brother Yu planned to talk to her to ease the atmosphere: "What did you just think about, so fascinated?"

"I was thinking about a short video I saw before." Tang Jiaqian replied earnestly, her eyes constantly scanning the front.

If her expression were colder, there would be less panic in her eyes.

The proper agent killer fan!

"Talk about it, what short video?"

"In campus interviews, the reporter asked the primary school students how much money he would make in the future, and he replied with an annual salary of 2 million."

"I am ambitious, isn't that great?"

Tang Jiaqian's eyelids rolled up, and she quickly gave him a white look through the rearview mirror.

"Why, don't you believe it?" Qin Yu asked with a smile.

"For an ordinary person, the probability is too small." Tang Jiaqian felt the same way.

"Maybe they are not ordinary?"

"People in Shangdu, buy a house in one year?"

"Save 10,000 by yourself, and give 8.99 million at home."

With teasing and laughing, Tang Jiaqian also relaxed, feeling that her boss was not that scary.

"Boss, are we going to pick up your girlfriend?"

"Um."

"Teacher Lan is really amazing. It is said on the Internet that the next chief must be her."

Others didn't know, but Tang Jiaqian knew his relationship with Lan Yue.

The two of them may not be clear, but the news of Lan Yue's love at the beginning was circulated in the school.

I don't know how many male students are heartbroken by this. In the skewers restaurant in the back street, how many boys are drunk several times!

She, but the youth of thousands of boys.

Hearing her mention the lazy cat, Brother Yu rubbed his nose a little embarrassingly, and said, "Cough, isn't it?"

"Yes, Teacher Lan is so beautiful, gentle and cute, I don't know how many boys are fascinated by him!"

Talking about Lan Yue, Tang Jiaqian was full of envy in her words.

At school, she is the most tender flower, which is unattainable and makes people feel ashamed.

After graduation, he successfully joined the Royal Dance Company and was hailed as the next chief successor.

One of the youngest dancers of the new generation in the Republic.

Even if you are good, your boyfriend is the biggest dark horse of this century.

Technological innovation leader, business giant, miracle maker, father of interstellar...

There are too many names and honors for him, and Tang Jiaqian can't finish talking about it.

The golden boy and the jade girl, the talented girl, the match made in heaven.

All kinds of envy broke down when Yu Ge said the phrase "Today is not Yueyue". UU reading www.uukanshu.com

"Isn't it... Classmate Lan Yue?" Tang Jiaqian stopped calling Teacher Lan in shock.

"No, Yueyue is currently performing in Dunhuang"

What's the matter with him? ? ?

Such an excellent girl can't even satisfy him.

So, the scandals about him from the outside world are true?

Tang Jiaqian held her cheeks and concentrated on driving without saying a word. The atmosphere was even more embarrassing than before.

Arrived at the airport and received Xu Xixi smoothly.

Brother Yu held the suitcase in one hand and walked towards the parking lot with the palm of her hand.

"The weather in Hudu is so cold." Xu Xixi shrank his neck, shivering by the cold wind.

Brother Yu stopped suddenly, took off his coat and put it on her.

Xu Xixi hurriedly said, "No, you will be frozen out."

Holding the neckline so that she couldn't take it off, Brother Yu sternly said: "Be obedient."

The palm was clenched again, and Xu Xixi looked up at his profile.

The corners of his mouth were raised, and his beautiful eyes revealed a sense of happiness, letting the power from his hand take him forward.

At this moment, no matter where Qin Yu takes her, Xu Xixi is willing.

Love the brain is the love brain, there is nothing wrong with it...

Chapter 1099: Intercept

"Get in the car first, I will put the luggage." Qin Yu opened the rear door and went to the back to put the luggage.

Xu Xixi glanced into the car, "Hello."

Tang Jiaqian said with a little emotion, "Hello."

Although she said hello, Tang Jiaqian didn't mean to introduce herself in the slightest.

After the cold greeting, he clasped the steering wheel with both hands and waited silently.

She sighed in her heart, feeling worthless for Lan Yue!

As for whether it is true or not, I am afraid that only she herself knows.

"Okay, let's go!" Qin Yu returned to the car after putting his luggage.

The ignition started, Tang Jiaqian drove towards the hotel on the navigation, her eyes fluttering repeatedly.

My heart seemed to have overturned the five-flavored bottle, which was extremely complicated.

Bah, scumbag!

The big par was merging into the traffic, and there seemed to be some accident on the road ahead and it was too blocked.

Brother Yu looked around and found that there was no car moving in front of him for a long time.

"What's the matter?" Xu Xixi asked curiously.

The whole person was sticking to Qin Yu, and he didn't want to leave for a minute.

This is the picture she only had in her dreams, and she can stay with him forever.

At this moment, how could Xu Xixi let go.

"It's okay, there should be an accident." Brother Yu said comfortingly.

Xu Xixi brushed up the broken hair on the temples, and said, "The traffic on Hudu is still so blocked."

"In a few years, it will be much better when the air network becomes popular."

"Not necessarily!"

Xu Xixi smiled and said: "If the rich take a speeding car, the price of ordinary cars will definitely be reduced, and more people will buy cars."

At that time, it may become more congested, and the country is not encouraging childbirth anymore. "

"Without the happiness of life, there is no birth of three children."

This is the third time to encourage all people to have children, but unfortunately there are very few responders.

Except for the family that is not bad for money, or some ethnic groups with big family consciousness.

Only the fertility rate of the eighteenth-tier towns has increased significantly.

At the same time, the fertility rate of big cities, especially the first, second and third-tier cities, has plummeted.

The fact that the power of three generations can't afford to buy a house crushes the young people's self-identity.

Labor no longer has value. The old people used to say, "Industry can make you rich, which becomes an empty talk."

The younger generation is losing their sense of security, happiness and belonging.

Living under great fear and pressure every day, what do you take to give birth to children?

Haw, haw~

There was a police whistle in front, half of the road was blocked by a tripod, and four cars collided.

Although not serious, it also caused serious traffic congestion.

The scene is being evacuated, and the three lanes have become one lane, so it is not surprising that there is such a blockage.

Tang Jiaqian gradually moved aside, Qin Yu and Xu Xixi whispered behind them.

Suddenly, Brother Yu noticed that a gaze was staring at him.

He raised his head to look at the traffic policeman on the right, and the other party instantly looked away, as if seeing himself through the windshield reflected by the sun.

Previously, Brother Yu was not sure whether he was suspicious.

Now, he is 100% sure that there is a problem with this accident.

"Jia Qian, step aside."

"I'm pulling over, there are a lot of cars behind."

"I said step to the right."

Tang Jiaqian was taken aback for a moment, and asked habitually: "Why?"

After saying that, she regretted it, the boss let herself step aside, just step aside, what nonsense!

'Tang Jiaxi, don't let personal emotions affect your work.'

Warned herself silently, Tang Jiaqian whispered: "I'm sorry, Qin Dong, I will step over now."

Confirming that there is no car in the right lane, Tang Jiaqian reversed the direction and leaned to the right.

In the next second, Qin Yu suddenly came from behind.

"Don't move." Her chest tightened, and Tang Jiaqian's buttocks were seated again while shaking in front of her eyes.

I took a closer look and found myself sitting in the co-pilot.

And Qin Yu, who was in the back row before, was sitting in his own driving seat.

"What's the matter?" Xu Xixi also looked dumbfounded.

What happened to him making himself nervous like this?

"Hurry up, sit down." He said coldly and sharply.

Brother Yu turned his head and looked back. The tires spun on the spot, backing backwards with blue smoke.

A few dozen meters away, the pretender who was directing traffic immediately dropped the warning sign in his hand.

"The target is found, stop him."

After the dapa quickly backed more than ten meters, taking advantage of the gap between the two workshops in the middle lane, it suddenly turned in place.

Point the front of the car in the direction it came, and go crazy!

The driver in the traffic jam next to everyone looked stupid.

Damn, buddies from here, retrograde in the street during the day, so fierce.

Before he could understand, the tail of the big par car shot out wildly.

The engine is like a fired stove, moaning in pain...

"Ahhh~"

Tang Jiaqian and Xu Xixi were facing upwards, clutching the safety handrail with both hands.

The screams of the two were automatically ignored by Brother Yu, which would ignore the thought of taking care of the two of them.

Find a way to leave here and say, "Who are these people?"

Seeing the guy in the back who remained in a human form and was running faster than a car, Brother Yu suspected that the other party was a new type of mutant.

You should know that when the mutants activate their abilities, their bodies will be partially alienated.

No matter how strong the ability is, this kind of alienation can't completely disappear.

At least so far, never seen...

But now the 'mutant,' who is chasing him, his hands, limbs, and hands, all remain in human form.

On the surface, there is no sign of alienation.

"Unknown mutant... or is it from a monster?" This is the guess that Yu Ge thinks is the closest to the truth.

There are still countless questions about the study of 'monsters'.

Although it is not comparable to radiation in its degree of danger, it also has its own unique features.

Changeable and gentle are its characteristics.

This variety and mildness is a contrast to 'radiation' energy.

If it is compared with the energy known to humans, its degree of danger is no less than that of high-purity gamma rays.

Is the guy who clearly shows far beyond ordinary speed and explosive power behind him has something to do with magic?

Brother Yu drew a question mark in his heart and continued to drive forward.

But soon, the road ahead was blocked by cars afterwards.

Drip, drip~

Brother Yu frequently pressed the horn, trying to make way for the car in front of him.

But obviously the fact that all three lanes are blocked makes the other party unable to react at all.

Seeing that the front of the car was about to kiss each other, Brother Yu slammed to the left.

The front of the car was tilted, and the bottom slammed.

A few bumps, the big par rushed through the green belt on the roadside, and landed on the non-motorized vehicle lane.

"Ah~" There was a harsh scream on the side of the road, but Brother Yu didn't mean to stop.

If he is the only one now, he doesn't mind stopping.

But there were Tang Jiaqian and Xu Xixi in the car, and the other party's people came from all directions again.

So far, the only one confirmed to be locked by Yuge is 'Superman, who is tracking behind him.'

In the middle of the driveway, Honda got up and down with a bald head, and two men with cold faces sitting in the Mercedes Benz coming under the bridge on the left.

There is also a murderous woman in a windbreaker at the crossroads ahead.

The hand in the trench coat is extremely threatening.

"Head down."

With a kick on the floor, Yu Ge slammed in the direction and inserted the front of the car straight into the front door of a building.

The two glass doors burst smoothly into countless 'marbles', and the big parchment with scars on the abdomen finally arrived.

Because, Brother Yu saw his own security team.

After completing the renovation, the 39-person security team was left with only 16 people.

Because of the failure of Joyf's transformation, Yuri was sent to take charge of the RRT, and the defense force around Yu Ge was unprecedentedly weak.

But in the recognition of its own strength, coupled with the fact that the Republic is one of the safest countries in the world.

Brother Yu didn't take this matter too seriously.

In fact, if it were not for Yuri's insistence, he would have removed the security team.

Rather than doing nothing by your side, it's better to let these "fans" shine in other positions.

Now it seems that he is a bit too underestimated on his ability to pull hatred.

"Stop him." The rushing fanatic blocked the 'Superman' who was chasing him all the way. '

Then two fanatics rushed to the big run, and the two had already started fighting with the Honda driver.

All nearby vehicles were hit, and the woman in the windbreaker at the intersection was also hit by fire.

The remaining four bodyguards rushed straight into a messy shopping mall.

With the big paas as the center, Qin Yu was surrounded round and round.

"Catch alive." Qin Yu said calmly, holding the deformed rear door with both hands.

He lifted it hard and pulled it back, and the whole door was torn down.

"It's okay, it's okay."

Holding the hand of Xu Xixi who was trembling all over, Yu Ge softly comforted and brought her out.

"Okay, okay, it's okay." Holding Xu Xixi, Brother Yu softly comforted.

At the same time, his eyes turned to the co-pilot.

There, Tang Jiaqian was still clutching the upper armrest, her body lifted up in the air, her legs trembling tightly against the car door.

When Xu Xixi calmed down, he resumed his rational thinking.

Brother Yu let go of her and said softly: "Wait for me."

Under Xu Xixi's nervous gaze, Qin Yu walked around the front of the car and brought out Tang Jiaqian in the co-pilot.

Returning to her side, Xu Xixi hid in his arms again, not daring to leave for a moment.

The few minutes just now were more exciting than the 25 years before her.

Hiding in Qin Yu's arms, he cautiously looked out.

The battle was almost over, the speed car hovering in the sky, the door opened wide, and the revolver barrel outside exuded a breath of death. UU reading www.uukanshu.com

Ink black armor, black helmet, and individual soldiers exuding the atmosphere of attack surrounded the entire street.

The civilians were evacuated in an orderly manner, and the injured were taken away by individual soldiers.

The ambulance parked outside is already treating the wounded.

Ringling~

Tang Jiaqian's phone rang suddenly, causing her who was immersed in fright to jump up 'ah'.

Holding Qin Yu tightly with both hands, as if this could bring her a sense of security.

Qin Yu tried to break free, but was afraid of hurting her, so she had no choice but to remind her: "It's a phone call."

Tang Jiaqian was stunned for a few seconds before she finally woke up: "Hey, President Hua..."

The call was made by Watson and learned that she was staying with Qin Yu and the scene was under control.

Watson breathed a sigh of relief and asked her to cooperate fully to ensure the safety of the boss.

Hanging up, in the quiet office, Watson said to himself, "Girl, disband the raiders."

"Yes, ma'am." The girl.

Inside the hive, the electronic eyes of the 300 [Assaulters] gathered in the central square lit up.

Afterwards, each went to a different channel and returned to his job.

Chapter 1100: Total War

"Boss, President Hua recommends that you leave here first."

After finishing the conversation with President Hua, Tang Jiaqian, who realized her responsibility, forced herself to calm down.

Now, it is the time to test her.

"Okay, let's go first." Qin Yu explained to the bodyguard: "Remember to bring my car back."

Looking at the scarred big Pa, Brother Yu couldn't bear to just throw it away.

RRT took over the scene, and two soldiers and two bodyguards escorted Yu Ge away from the back door of the mall.

The person in charge of the mall who wanted to come forward to negotiate was stopped by RRT:

"Someone will come to discuss compensation issues with you!"

Through the quiet corridor, coming out from the back door, two Mercedes-Benz S waiting in the narrow alley.

Xu Xixi was sent to the hotel first, and Qin Yu left two RRT members guarding at the door.

Xu Xixi's previous stressful experience has not completely calmed down.

With two people left, she can close her eyes and have a good rest.

Returning to the town with Tang Jiaqian, Qin Yu quickly saw the previous attacker.

However, the number was reduced to two.

The woman in the trench coat at the crossroads first disguised as a chaser of the dealer.

"What did you ask?" In the observation room, Qin Yu looked at Shi Cui who had arrived early.

"A pioneer, a super soldier trained by the White House." Shi Cui's eyes flickered.

The other party has taken a completely different path genetically.

Although weak, it wins in stability!

And, the other party has accumulated a lot of experience during this period.

"Boss, let's fight!"

Shi Cui was really eager for the data and information that Decker had possessed.

"Can you guarantee that all nuclear controllers will be eliminated at the same time and the earth will not turn into scorched earth?"

Qin Yu's questioning silenced Shi Cui.

With the help of the previous counterattack, with the assistance of the Aberrant Corps, the eastern part was divided into two.

The White House takes H House as its headquarters and occupies the eastern area close to the central part.

The Morgan Los Angeles Consortium is centered on the Big Apple City, occupying prosperous areas such as the eastern coast.

This not only allows the White House to have more living space, but also uses all the wealth and resources all over this land.

The thousands of tons of gold hidden in Fort Knox, a priceless national treasure, are realized through various secret channels.

Provide fresh blood and vitality for the white house, attract more people to join.

At the same time, the sea power that the opponent holds is the most daunting.

It is a huge threat to any country and organization.

No one wants to be targeted by an unknown number of nuclear bombs at sea!

Can Shi Cui solve all nuclear password controllers at once?

Even Qin Yu could not find a trace of the password holders who were hidden in the dark and isolated from the world.

I don't know how many hands are hidden by this backup method.

Of course he can't... he just doesn't care!

If he is the master of the house, regardless of whether you are scorched earth or scorched earth, it is a big deal to change to another planet and continue to do research.

Those weak ants, why bother about their life and death and their thoughts?

However, absolute loyalty prevented him from ignoring Qin Yu's thoughts.

He cares about ordinary people, and he cares more about the home planet of human civilization.

Therefore, Shi Cui can only bury his inner impulse and desire.

An advanced soldier, with a strength of up to 25t, invulnerable to swords and guns, extremely strong endurance, and a certain regeneration ability.

Such as a laceration caused by a bullet, it can be recovered in about 19 seconds.

To ordinary people, the vanguard is a living superman.

If you have to talk about shortcomings, speed counts as one.

But even so, its short-term burst speed reached 80kmH.

Had it not been for Brother Yu found out too early, he would interrupt the opponent's deployment, leaving the pursuers unprepared.

Missing the best time to intercept, he could not escape so easily.

However, even if the pursuer can catch up, the ending will not change in any way.

At most, Yu Ge exposed his strength.

"This is a gift from the White House."

Cheng Yaojin, who was accidentally 'swallowed' by Shi Cui, was an important combat power for the White House.

His own strength is not strong, but he can manipulate countless deformed puppets to fight instead of himself.

A group of one person is Cheng Yaojin!

What's more, he was a great hero in the White House counterattack.

The ability to divide the eastern part equally with the Morgan Los Angeles Consortium depends on the Aberration Corps under his command.

Perhaps his role is not only that, the Cheng family has been buried in the Republic for many years.

Even if it loses power now, it is still possible to investigate and collect some non-secret information.

It is not only a powerful combat force, but also a great hero, and it can also probe the enemy's internal news.

At the same time, it is also a banner!

Since Cheng Yaojin has taken refuge in the White House, he can be so reused.

This is a temptation for those who have nowhere to go.

All of the above make Cheng Yaojin's value not only in itself.

But such an important goal was swallowed by Shi Cui. '

If the White House does not make any response, what should those who follow it think? Someone will take refuge in and follow it in the future?

Therefore, whether you like it or not, the White House must act.

And the one who can best express his strength and attitude is none other than Qin Yu!

As time goes by, more and more bald eagles see the facts they don't want to admit.

The so-called aliens never exist, and the Moon Base and the Miracle Group must be inextricably linked.

It can be said that the bald eagle finally split.

It is because of the seeds planted by Miracle Company to speed up the process!

Disrupting all the plans of the White House made it have to bear the humiliation and sit back and watch the country fall apart.

New hatred and old hatred, add them together.

The other party wanted to frustrate Qin Yu's bones and ashes, and it was nothing more than spending a huge price to arrange this killing.

It's just that the real killer hasn't been used yet.

Brother Yu was aware of the opponent's intention and jumped out of the game early and ran away.

According to RRT's follow-up investigation, the other party buried 30 kilograms of C-4 under the road where the road block was set up.

It was also mixed with glass jars full of 'radiation'.

Once detonated, even if he has some back hand, the 'radiation' detonated by the explosive can instantly cover a radius of five kilometers.

Even if he has the ability to fly, don't even want to escape the pollution of radiation.

As for the damage!

The hooligan started and made a fortune in the war.

When have you ever cared about the bald eagle, who has become the sole hegemony by fighting to support war?

"Did you ask for the news about Fort Decker?" Qin Yu and Shi Cui were as concerned about this mysterious R&D institution controlled by the White House.

"No, I suspect that their memories have been passive, and all their impressions of Deckerberg have been disrupted by chaotic information."

Shi Cui's face was gloomy and shook his head, there was no need to continue to pretend in front of the boss.

The proposal was rejected, although it was forcibly suppressed.

But his mood at this meeting is not so good...

"They belong to you." Qin Yu said calmly, turning to leave.

Handing the two leading soldiers to Shi Cui to deal with it was a kind of comfort to him.

In addition, Qin Yu also wanted to know how the vanguard was created.

I believe Shi Cui will squeeze out every use value from them and give himself an accurate answer.

As for Fort Decker, Yu Ge dialed Ilibera's number.

On the west coast, Ilibera responded to the voice on the phone like a worm.

After the call was over, she regained her liveliness.

"Total war, is he really not afraid of causing a world war?"

Ilibera sucked a lollipop, her eyes flashing crazy.

Since it was his order, then go to war.

Ilibera had long felt that life was getting boring, if it hadn't been for "The Scary Demon" to relieve boredom.

Her madness, which has nowhere to vent, may bring the entire West Coast into turmoil.

Now, finally something more interesting has happened.

"Yuri, come to my office."

A few minutes later, Ilibera conveyed the boss's new instructions to Yuri.

Start a full-scale war to the east, occupy the Midwest at the fastest speed, and protect the laboratory within its own sphere of influence.

At the same time, push the battlefield into the opponent's territory to avoid turmoil in the west.

"With our strength, is it enough?"

Yuri is not questioning the boss's orders, he just wants to clearly know all the power he has.

"50 Titans, 10,000 assaulters, and more than 5,000 mutants. At the same time, I will issue missions to the mutants in the country."

In the west coast, there are a large number of mutants who are content to live a peaceful life.

Before, BlackRock protected their safety by providing them with a safe environment, shelter, stable food source and income.

Give their families special care from ordinary people and place them in comfortable positions.

Provide education for children, a favorable growth environment...

These investments seem to be free, but they are also the most expensive.

Because, before they knew it, they had been tied to BlackRock.

Now, it is time for them to contribute their strength.

"Then I will go first."

Yuri decisively left first. He wanted to occupy the Midwest to ensure the safety of the laboratory before releasing the news.

Yuri arrived at the border that night.

Taking advantage of the night, leading the assembled mechanical army, rushed into the Midwest with an arrow.

When the sky cleared, BlackRock had quietly occupied important cities in the Midwest. UU reading www.uukanshu.com

The most important thing is to bring the laboratory into its own protection scope.

At this moment, the White House and the Morgan Los Angeles financial group reacted, and BlackRock broke the tacit understanding between each other.

The so-called buffer zone has become a bridgehead for the opponent's attack.

In response, the two sides issued a righteous warning and limited BlackRock to exit the 'peace zone' within 4 hours. '

However, what was greeted was BlackRock's all-out offensive mobilization.

All territories under its control will broadcast a unified mobilization statement on public channels at 10 am at the same time.

All the disasters and turmoil in Beizhou are all blamed on the white house.

And sent a sincere invitation to the Morgan Los Angeles Consortium to eliminate the malignant tumors on the North Continent together.

Let society restore order and stability.

There was no news, but Ilibera personally called the helm of the Morgan Los Angeles Consortium.

Said to the other party that only the White House needs to be destroyed this time.

BlackRock only needs half of the property and copies of research materials, and the entire territory is completely owned by the other party.

The line between each other and the central part, governing from east to west, without interfering with each other!

Even if she knew she was looking for a tiger's skin, the bait thrown by Ilibera was too tempting.
