Chapter 1551

“Congratulations on returning to an ordinary person! From now on, nobody will cause you any trouble!”

After managing to get the technique book, as well as disabling Levi, Severus and the rest of his people were delighted beyond words.

Giving them a wry smile, Levi uttered, “Since I’ve given my everything for Erudia, I have nothing left now. I’m anticipating for the country to get better, so do your best.”

After that, he called the one and only person who knew of The Calamity’s location, besides himself, to hand over the organization, making him a complete ordinary man with nothing at all.

When Zoey and the others returned home, they were all shocked to find Levi in that state. “What happened to you, Levi?”

“Nothing. It’s just that I’ve become an ordinary person,” he informed with a smile.

“That’s great!” exclaimed Zoey as she embraced him. “I’ve always been dreaming of this! Besides, we have the Great Family of Westford backing us up. Nobody will dare bully us. I mean, look at how Lance had saved Evie.”

Levi merely wore a smile as he remained silent. I have really given up everything.

Chapter 1552

Why would I be facing a calamity? I know I have many enemies, but I'm an ordinary person now. On top of that, all my martial vein has been destroyed. I can't even do basic combat skills, let alone Reversero.

The Dragonites had taken everything into account when they had the elites destroy Levi's martial vein to ensure that he would not be able to practice martial arts for the rest of his life. Doing so not only convinced themselves that Levi stood no chance to take revenge on them, but it was also to prevent him from using Reversero again.

"Doesn't that mean I'm f*cked?"

If they send elites to kill me, I won't stand a chance against them. It's not like I'm afraid of death, but what's going to happen to my family if I'm no longer here with them? No. I can't die. I have to fight for my life for them, but how? They've destroyed my martial vein. I can't do anything anymore.

Lowering his head, dejection and fury swamped all over him.

"Yes," the old man confirmed. "But..." he trailed off as a smile appeared on his face out of the blue.

"But?"

"I'll help you regain your martial vein!" exclaimed the old man.

That was why they were here to seek revenge on him.

“Since you already know that we are, then prepare for your death!”

Without wasting any time, all six of them launched their attack on Levi.

Since they had also received words regarding the Dragonites destroying Levi’s martial vein, they were sure they would end him quickly.

Whoosh!

One of them swung his sword toward Levi. However, the man countered it only by gently flicking his fingers, breaking the sword into halves.

“Y-Y-You...”

In an instant, all of them were stunned upon noticing that Levi still had his martial prowess.

“We’ve received wrong intel! He still has his martial prowess! Retreat!”

With that, they started fleeing the scene like crazy, but Levi definitely would not let them escape, so he made his move on them.

"Why did you do that, Levi?"

"Have you any idea how much we've lost within the past three months? This is a huge blow to Erudia!"

"Yeah! And it's all your fault!"

Utterly confused by the accusations, Levi stared at the crowd in front of him.

What's that got to do with me? They asked for the book, and I gave it to them.

"I've already handed over the book. Sure, it had missing steps before, but I've fixed them myself," he replied seriously.

"What do you mean you have fixed it? Sounds more like you've tampered the steps."

"That's right! He must have deliberately messed it up!"

As of now, he was much stronger than he used to be. With this new strength, Levi was on a whole new level compared to the others, so he definitely didn't need protection from others, as he could do it just fine.

"Also, try not to appear before me that frequently! Geez!" he exclaimed in annoyance before kicking Lance out and slamming the door shut.

Staring at the door from outside, Lance let out a sigh. "Your temperament is still the same despite being an ordinary person now, Master. But that is exactly why I need to protect you. What if your enemies decide to attack you? It will all be too late by then. I will protect you regardless of what you say or how you act."

With that said, Levi appointed a few elites to guard Levi's house. Of course, he didn't act on this alone. The other members of the Nine Lords all agreed with him.

"Remember to stay hidden. Don't let Master notice your presence."

"Worry not, my Lord. An ordinary person won't sense our presence," responded one of them before all the elites scattered around the villa to take their positions as discussed.

Obsidian Dragon had gone berserk.

He looked like a completely different person, particularly compared with how he practiced Taichi earlier on.

It turned out that he was Kuro Dragon's father, who secretly helped Kuro Dragon form The Avengers and plan many schemes.

Nonetheless, Kuro Dragon was unaware of it.

Kuro Dragon wasn't a criminal but pretended to be one and gathered many criminals to form an organization.

It was the reason why his face behind the mask wasn't damaged.

"All those who killed my son have to die, especially Levi! I want him to watch his child die before he is tortured to death!" Obsidian Dragon said.

"Are you sure you want to escalate it? I mean, we might be exposed!"

"According to the rules, we can't interfere with commoner's lives!"

"Yes, if we do so, the whole world will plunge into chaos!"

Several others gave their advice.

"I don't care! They have to pay for taking his life. If I'm desperate enough, I can even destroy the Dragonites!" Obsidian Dragon said.

"Understood. Just leave it to me!" a man in his black leather jacket replied.

Even Lance was no match for them.

After all, no one would expect that the mastermind would send two fighters stronger than Northern Demon to kill an ordinary man.

Moreover, it was unimaginable to encounter two extremely strong fighters at the same time.

Back then, Northern Demon alone could instill fear in people in Erudia.

Hence, these two fighters were even stronger than Northern Demon in comparison!

Since the six fighters sent by Lance weren't aware of the danger, they sneered, "You two are messing with the wrong guy, for he is Lance's master. Today will be the last day of your lives!"

"Get out of here now! You can't afford to mess with the two men!" Levi glanced at the six fighters and persuaded.

"Mr. Garrison, you've underestimated us. After all, Lance sent us to protect you because he trusted our abilities!"

"We—" Bang!

Suddenly, the two men struck at them with terrifying might.

Within seconds, all of the six fighters were sent flying like kites without strings.

A look of disbelief flashed past their eyes.

With that, the two fighters rushed toward Levi and struck him with all their might.

The next moment, the abandoned buildings, trees, and flowers around them exploded as though the entire area was being carpet-bombed.

In no time, everything was razed to the ground and scorched.

It was as if the doomsday had arrived.

And that, was the petrifying power of fighters who were stronger than Northern Demon.

Fortunately, Levi and the rest were in a deserted area; otherwise, the number of casualties would be unfathomable.

At that moment, even the sky turned red as if it was bleeding.

The six bodyguards sent by Lance were glued to the spot, terror-stricken.

Who can withstand such an attack?

However, Levi's lips curled into a mocking sneer before he moved.

Unperturbed by the fighters' strike, Levi dashed toward them at lightning speed.

Everyone who witnessed it couldn't believe that Levi could move that swiftly.

Lance could sense that something was off about them.

“N-no...”

“Mr. Langston, what happened? Did someone stronger than the Northern Demon appear in North Hampton? How terrifying!”

One of them immediately changed the subject once he recalled Levi’s order.

“Yes, I’m worried that the fighter will lay his fingers on Master. Anyway, inform me immediately when something happens!”

After Lance left, the six bodyguards heaved a sigh of relief.

“Remember, none of us can reveal any information about Mr. Garrison!”

When one of them said it, the rest nodded in agreement.

"It's possible. Otherwise, how could they possibly disappear?" Another man chimed in.

"It can't be! I mean, the two fighters we sent were stronger than Northern Demon. How could Levi possibly have someone even stronger and capable of killing them?"

"I opine that we shouldn't act rashly for now but ascertain the situation to avoid unnecessary trouble!" Someone proposed.

However, Obsidian Dragon was furious upon hearing it. "I'll kill Levi myself if there is no other way! After all, I can't let my son die in vain!"

"Exactly, we can't let Louie die in vain! If all of our plans don't work, we'll enter the human realm to kill him!"

The two brothers of Kuro Dragon exuded a cold and murderous aura as they spoke.

Furthermore, Kuro Dragon's brothers were probably better than the fighters who were tasked with killing Levi.

"No way! You two are supreme class fighters! Entering the human realm will cause turmoil. Also, we will be in trouble once they find out.

Usually, all fighters were classified into two classes, namely the God class and the ultimate class.

For instance, Northern Demon was the top-of-the-line fighter in the Ultimate class.
