“What is it? Spill!”

Everyone turned to gaze at West Sky Lord expectantly.

West Sky Lord took a deep breath and explained, “Their weapons are meant to kill Supreme class warriors, so they won’t waste the energizers on ordinary people.”

“Yes, the weapons are used to kill Supreme class warriors. What about that?” The rest were confused.

“We can pretend to be fake Supreme class warriors and attract their attention, so they will use up all their energizers on the wrong people. That way, we can turn the tables!”

Everyone else inhaled sharply at her plan.

After a brief contemplation, they decided that it was a great plan.

They could use other people as baits to waste the enemy’s energizers.

That way, the Supreme class warriors of Erudia would be safe and proceed to attack the enemy.

Still, there was a problem.

Despite it all, everyone's faces were filled with smiles.

The smiles were a mix of innocence and triumph.

Contrary to the dejected manner that others expected of them, the group was rather excited at the turn of events.

They could finally reveal their true selves to others.

"Please remember my face and name, Erudia! I am Eren Pieck from Gold City in the Northwest!"

North Sky Lord was the first to dash out.

East Sky Lord followed behind him. "I am Armin Momoa from Fairlake City in Northeast!"

Then, South Sky Lord followed in their footsteps and exclaimed, "I am Rodrick Artlet from Tayhaven City in the South!"

Bang! Bang! Bang!

The moment the three of them rushed out, Deicide targeted them automatically, and the three of them vanished as soon as the energizer hit them.

"Brothers, all of you have done well!"

Floyd and the others clenched their fists as their eyes turned misty at the sight.

Everyone on Erudia’s side was feeling aggrieved.

They could only stand idly by as their comrades charged bravely toward their deaths.

All of them vowed that they would avenge their fallen comrades.

“At my command, everyone! Stay where you are. We will strike when the enemy is near!” Floyd commanded.

Assuming that Erudia did not have many Supreme class fighters to defend themselves, the Ruling Union pressed on fearlessly.

They thought taking down Erudia would be a piece of cake since the largest hurdle had been eliminated.

Even though they had used up all energizers, they were certain that the attack would be able to conquer the Warzone in the East of Erudia.

The Ruling Union was even hoping that they would be able to make it all the way to Oakland City without a hitch.

Conquering Oakland City would spell victory for them.

All of them were already drunk in their imagined victory.

Soon, they reached the point where the two parties would collide in close combat.

“Kill them all!”

Under Floyd’s command, everyone forged ahead in battle with the Ruling Union.

Needless to say, all the soldiers stationed at the South were stumped.

They had been holding off their territory all this while.

Despite their best efforts, the third barrier was still struck down.

The sea was the Ruling Union's forte, after all.

Erudia's deadliest weapons seemed to have no impact on them.

The gap between Erudia and the enemies were too large for Erudia's defense mechanism to play its part.

However, Levi brought his men and ordered for an attack right away.

Has he gone nuts?

"Sir, you can't be serious? It's the enemies who are advancing! Why are we not defending ourselves and choosing to advance instead?"

All of them were perplexed at what Levi was trying to accomplish.

Levi snorted. "From now on, I'm going to take over the whole South Warzone. All of you shall listen to me!"

"Why should we? The South has always been under National Guardian's command. How can we simply take your word for it?" Someone in the crowd protested against Levi.

Nobody was taking the man seriously right then.

After all, they were all Supreme class fighters.

Kai and his men broke into a mocking laugh after witnessing Levi and his men passing through the fourth defense barrier and into the enemies' territory.

"What a bunch of loonies. They have no idea what they're up against!" Kai sneered.

"Yeah, those idiots are taking pride in their suicide mission!"

"They needn't go far. The enemies' underwater monsters will devour them all before they even reach the other side!"

The fighters from Poseidon's Palace not only excelled in marine battles, but they also had a number of underwater monsters to their advantage.

Unleashing the monsters would bring about huge damage to the South of Erudia.

Even the Supreme class fighters were at the mercy of those monsters. Hence, ordinary men would not even stand a chance against those creatures.

"Let them be. Let's focus on our own fight. We just need to wait and watch the good show!" Kai snickered.

To them, Levi was essentially bringing his men on a suicide mission.

They reckoned that not one soul would make it out alive.

To annihilate all the underwater monsters in one go, Levi had ordered his men to deploy numerous torpedoes into the sea.

Meanwhile, deep in the sea.

Numerous strange underwater monsters were advancing at full speed.

Obedying the commands of the beast tamers in Poseidon’s Palace, the monsters zoomed in at full speed, threatening to gnaw on everything standing in their way.

Whoosh! Whoosh! Whoosh!

Right at the moment, peculiar sounds headed in the monsters’ way.

There were faint lights blinking on top of them.

The torpedoes were propelling toward the monsters at full speed, but the monsters were agile in their movements.

They had never seen the likes of torpedoes, and the monsters' first reaction upon spotting the torpedoes was to swallow them all.

“Are the monsters back?”

It was the first question that popped into most of the people from Poseidon’s Palace.

The movement that they just sensed was typical of the underwater monsters whenever they tried to tame the beasts.

“No, it’s an odd energy wave. Shoot!”

Boom!

The next moment, a peculiar weapon fired from the deep waters and exploded when it approached the surface of the sea.

Boom!

Crack!

“Ahhhhhh!”

Wails of pain and sounds of bones cracking filled the air as the area was carpet-bombed until the area was engulfed in a raging inferno.

Countless fleets of ships were destroyed from the impact.

Levi was the commander-in-chief of the battle, and he had seen the likes of the situation so many times to the point that he was able to anticipate his opponent's next move.

Sure enough, everything was within his control; he had already blocked the other party's path to retreat.

It's impossible for them to retreat now.

"On my command, charge ahead!" Levi commanded.

Not only that, his secret squad and the elite fighters from the Four Great Families were strategically deployed according to his plan.

"What the hell? What an intense battle!"

"A battle of this scale is really something shocking!"

"This kind of battle is really something worth dying for!"

Levi had blocked all telecommunications in the region.

Hence, Kai and his men had no idea what was going on in the frontline.

All they knew was that a fierce battle was taking place right before their eyes.

"Let's get ready to fight! Levi and his men are really here to buy us some serious time!"

"His four hundred thousand troops will at least last one whole day, right?" Kai snickered.

At that moment, the major forces headed by Poseidon were forced to a specific area under constant harassment.

There were around one thousand five hundred of them, and the majority were Supreme class warriors.

After all, it was rare to find Supreme class warriors out at sea.

The sheer quantity of them was already terrifying enough.

“Why do I have a strange feeling?”

One by one, the Supreme class warriors experienced a sense of bad premonition.

“Goodbye!”

Just as Levi finished waving, the destructive weapon was fired.

Poseidon’s warriors already foresaw the danger that was closing in on them.

Boom!

The next moment, the earth shook.

It felt as if the sky was trembling.

The impact on sea was even worse.

A terrible rumbling was coming from within.

To think that such a destructive weapon had no effect on them.

Their leader was none other than the Lord of the Sea, Poseidon.

They had a total of eleven Rank Six Supreme class warriors.

If the citizens of Wildefield knew about this, they would have been scared to death.

However, one could not deny the fact that the Ruling Union was indeed powerful.

They won over the strongest warriors from all over the world.

“Not too bad! You actually killed so many of us! Still, the eleven of us will be more than enough to finish all of you!” Poseidon roared, his blue eyes looking furious.

Poseidon was right.

There was a significant difference between Rank Six and Rank Five warriors. The gap between the two was unimaginable.

In truth, Rank Six warriors were revered as Gods by countless Supreme class warriors.

The fact that such a powerful weapon had failed to destroy them was a clear indication of their immense powers.

The smiles and the initial excitement of the Erudia armies vanished instantly.

They knew death was imminent if they went into close-range combat.

Since the weapon failed to have an effect on the Rank Six warriors, they did not see how they could possibly defeat them.

They had initially thought the battle was over and done with. Who would have thought that it was only the beginning of the end?
