

Pinnacle 1841

Chapter 1841

Jared laughed heartily as he prepared the experiment at once.

It was going to commence in three hours.

“I will show all of you a miracle!”

Jared’s eyes flashed like a madman.

Meanwhile, on Terragon Hill, tens of thousands of men fell silent.

The powerful warrior who was supposed to fight Levi hadn’t appeared.

It was ridiculous to expect Levi to be afraid of an ordinary warrior.

Looking at the torn-up robe, everyone sensed that Levi had invited big trouble.

At the same time, they realized that they had made a mistake.

Would the Fiery Demon’s heir be afraid of an ordinary fighter?

How ridiculous is it!

The worst part was none of them were Levi’s match.

No one had expected the top three of the Gem List to not appear.

Most of the core fighters of The Cardinal Hall had gone hunting for the Fiery Demon’s followers.

Even the master of magical techniques, Jared, had left.

Meanwhile, the international forces led by Bruce were dumbstruck.

It wasn’t just one person but ten.

Perhaps, due to the sheer size of the crowd, they figured one man wasn’t enough to do the job.

Therefore, ten of them were sent.

“Hey, what are you doing? You can’t pass through here!”

Levi stepped forward and gave the ten men a fright.

They had just seen Levi leave and were surprised to see that he was still around.

“You...”

All the ten men panicked.

“Retreat!”

They had wanted to flee.

“No way!”

Levi dashed forward and caught one of them.

Bam!

At that moment, the man attacked and exchanged a palm strike with Levi.

Boom!

The earth shattered at once

Chapter 1843

However, it was already too late.

After all, by the time Levi left Terragon Hill and met up with Venom Fiend, some time had passed.

It didn't help that Gamma Tech training base was located in the north while Terragon Hill was in the south.

A few hours earlier, Jared had almost completed the preparations for his experiment.

When he returned to where they were held, Wynona and Zoey had a feeling that something terrible was about to happen.

"Jared, stop this madness! Or else, you will suffer the consequences!" Wynona screamed.

Jared replied with a smile, "Zoey, there is no escape for you. Don't worry, once the experiment is completed, you will be mine!"

Amidst Wynona's screams, Jared dragged Zoey away.

Before he left, Jared turned around and glared at Wynona. "By the way, bring her along!"

Meanwhile, at Lab Number One, the experiment was ready.

All that was left was for Zoey to be put in place.

"Don't worry. It will be done by the time you awake!"

Jared gave Zoey a jab, causing her to lose consciousness.

After she was placed in a sleeping pod, Jared lay down in a separate pod.

his experiment was to insert his consciousness into Zoey's brain so that he then on, she would only obey him and won't recognize that was how diabolical Jared

Chapter 1844

Crack!

Bang!

Lab Number One began to crumble. Even its high-density armor was being gradually shattered.

As for Jared's subordinates, all of them were obliterated in that instant.

The moment the explosion spread out, the training base's defense systems were triggered immediately.

The high-density armor of all the labs and buildings raised up to clad the entire training base on the outside.

Given that Gamma Tech training base was one of Erudia's most advanced labs, it had top-notch security systems.

Unfortunately, the energy shockwave was so powerful that it smashed both the inner and outer layers of the high-density armor.

Boom!

A massive of energy exploded at the training base.

Chapter 1845

When the rescue team saw the devastation before them, their knees trembled in fright.

They had never seen anything so terrifying before.

The entire training base was decimated with barely any rubble left.

In the face of the enormous surge of energy, everything with a physical presence was melted away.

Furthermore, the residual energy covered the entire training base instead of dissipating.

Although the energy field was weak, an ordinary person couldn't pass through it still.

Anyone who tried to enter would disintegrate upon contact.

"Oh no! The shockwaves are too strong. It's not something our bodies can withstand. We can't take the risk of entering the place!"

"Requesting for reinforcements! Requesting for reinforcements!"

The rescue team pleaded for help.

If the energy field wasn't cleared, there was no way they could start the rescue.

At that moment, Levi finally arrived.

In fact, he had even felt the blast from afar while he was on his way there.

His expression drastically changed at the terrifying amount of energy that was released.

Chapter 1846

Finally, they discovered the underground training base.

"Zoey may be hiding inside!"

Levi's eyes burned with hope.

Even though the defenses of the underground training base weren't destroyed, it had suffered significant damage still.

Although everyone inside survived, many of them suffered various degrees of injuries.

As the underground training base was opened up, the survivors were rescued one by one.

Levi waited at the entrance with joy.

However, when more and more survivors emerged, Levi began to panic as there was still no sign of Zoey.

"That's the last one!"

Levi was stunned the moment the last person was rescued as it wasn't Zoey at all.

"Impossible! Is there anyone inside still?"

Levi's face was filled with disbelief.

"No, this is the last one."

Chapter 1847

Levi was drenched in sweat which wasn't something that usually happened to someone as powerful as him.

However, he was overwhelmed by the anxiousness he felt over Zoey's fate.

Lab Number One was his last hope.

However, the despair within him grew when he saw the rubble as he knew the chances of finding her alive was slim.

If he couldn't find her, he didn't know what would happen to him.

Perhaps, he would go mad.

Given that Lab Number One was ground zero of the blast, there was barely any rubble left.

As the rescuers began their search, Levi was kept in suspense.

Please be alive!

Levi prayed in this heart.

As the rescuers began digging with their machines, Levi rushed forward and dug with his hands.

The more they dug, the more disheartened he became.

He panicked as there was still no signs of life.

At that moment, he felt his body swoon, as if he was about to collapse anytime.

Ten minutes later, the rubble at Lab Number One had all been removed but there was no one to be found.

There was no sign of Jared, Wynona, nor Zoey at all.

Lab Number One looked like hell itself with not a single living soul inside.

Chapter 1848

The tension in the air suffocated everyone there.

It felt as if the terror that Levi struck into the depths of their hearts was of a divine nature.

Everyone trembled as they looked at Levi. They then quickly opened up a path for him to walk through.

That was the authority of a demon.

This was the first time the Dragonites began to suspect Levi.

Prior to that, they didn't believe Levi was Fiery Demon's heir and would become a demon himself.

But after what happened, they started to think it was true.

Isn't he acting like one already?

What happened?

What caused him to become like that?

What we saw just now wasn't a man, but a beast!

A cold ruthless demon!

All of them were shocked.

In truth, Levi still has his senses with him. Or else, they wouldn't have survived with just injuries alone.

Chapter 1849

At that moment, no one knew if Jared's pure energy body could withstand the blast.
Also, Wynona was standing closest to the particle collider.
Hence, it was still a puzzle if she had disintegrated alongside.
The rescue team's conclusion was that everyone had been obliterated by the energy shockwave.

After all, the magnitude of the explosion was enough to wipe out a city of ten million.

At the same time, The Cardinal Hall blamed Levi for what happened.

By doing so, they significantly increased Levi's infamy.

As Levi had grown into a powerful Fiend, the calls for his destruction from within The Cardinal Hall and Eragon increased dramatically.

Furthermore, after Bruce and his international forces had suffered defeat, they too condemned Levi and put additional pressure on The Cardinal Hall.

The stronger Levi became, the larger the threat he was to them.

As Levi walked on dejectedly, many who crossed his path were all defeated.

In fact, there were also overseas forces that tried to recruit him.

They threatened him into joining them, by declaring that they were holding Forlevia hostage.

"That's right, Forlevia!"

Chapter 1850

Zoey had a dream.

In fact, she had two.

In the first dream, she remembered everything that happened ever since she had her memory.

Scenes of how she met Levi and got married to him until Forlevia was given birth flashed through her mind.

The other dream was hazy. It related to the point where Jared’s experiment encountered a problem in the last minute.

At that moment, all she saw was a blazing light in front of her. It shone so brightly that she could barely open her eyes at all.

The moment she did, she could vaguely make out the sight of a disheveled old man.

However, her vision was so blurry that she could only see the outlines of his features.

Levi would be shocked if Zoey had told him about the dream as that unkempt old man was his mentor.

Just as expected, Zoey was alive as she was saved by Levi’s mentor.

Even Levi wouldn’t have survived when the superparticles collided with each other.

Only his mentor was strong enough to withstand the blast and complete the rescue.

By bearing the brunt of the devastating blast, it was obvious how powerful the old man was.
