Chapter 1901

Everyone was delighted to spectate this battle.

It did not matter who won or lost.

Although they were curious why Zoey had become like that, they still wished for both of them to battle it out.

Zoey's fury and power were off the charts!

Levi was also mustering all his strength to fight her.

Their battle was so fierce and intense that it was even more interesting than the previous one.

Levi felt anxious too.

Zoey's power is increasing. If she can't land any blows and injure me, she becomes even angrier. How can this continue?

Since Zoey was extremely powerful now, it was difficult for him to strike the correct pressure point through acupuncture.

It was impossible to rein her in.

Zoey's strength increased as the battle continued, forcing Levi to retreat backward.

"What the heck? Zoey is so powerful! Is she the most powerful female warrior in Erudia?"

"How can she possibly be so powerful? She's stronger than Robed Slayer!"

Zoey's superb skills convinced everyone of her power.

"What should I do? What should I do now?"

Levi felt so anxious that he broke out into a cold sweat.

"What is Master?" The Seven Fiends asked.

Meanwhile, Levi was the first on the Gem List!

Conquering everyone with his strength.

Now, they had changed their address for Levi.

Before that, they only called him Master Garrison because he was the heir of Cyrus. In fact, this had little relation to Levi.

Now that Levi's abilities were respected by everyone.

He was their real master.

“Heal the Robed Slayer!” Levi said.

Levi had been studying the ancient medical manual that was given by the old man.

His medical skills were definitely at the level of a master !

Hence, he could cure the Robed Slayer’s poison.

Moreover, with Venom Fiend with him, it would be even easier.

Not only that, Levi had a big plan!

“We’re at your command, Master!” everyone said.

Fiend raised a question. “Master, it seems like after Madam saw

Robed Slayer's sharp gaze suddenly glanced toward Delano who was not far from him!

Giving him a meaningful gaze, Robed Slayer sneered, "From now on, do not spread the message that I have recovered to anyone!"

"Yes, sir!" everyone replied in unison.

After they left, Venom Fiend asked, "Master, where are we going now?"

"We're going to find the geniuses!" Levi smirked.

This was his plan.

He was going to treat every single genius who had been incapacitated by the Raysonia forces!

A simple loss of abilities was easy to cure!

But if the martial vein was destroyed, even the enormous martial arts world could not help.

Just like what happened to Levi before.

And he could only remain that way for a lifetime...

But this was not a difficult task for Levi.

His mentor had reconstructed his martial vein, so he knew the method.

He had to help these geniuses as soon as possible!

Recently, someone noticed a phenomenon.

Levi's loftiest position on the Gem List was a blow to The Cardinal Hall.

He could do as he wished, and no one would be able to stop him.

Wasn't this the perfect timing for him to bring back the Era of Fiends and unleash calamity in Erudia, turning it into hell on earth?

Strangely, the wheels towards that infernal plan weren't turning.

Levi's henchmen, the Seven Fiends, didn't budge; instead, they behaved like any other lawful citizens.

Rumors had it that Blood Fiend stopped using human blood for his cultivation, and Venom Fiend found an alternative to humans for testing his poison.

Not only that, it was said that some of them had even stopped their killing and turned over a new leaf.

They had practically changed overnight!

With their power, they could turn the world upside down, but they did nothing like that! They didn't even commit a single evil deed.

Why?

What have changed them?

For quite some time, Venom Fiend and Levi had been trotting around Erudia in disguise with the latter as the Genius Doctor, and no one had ever seen through their false identity before!

They were using the disguise technique which Levi acquired from the ancient manual, and for someone to be not get deceived sent shockwaves down their spines.

These people are up to no good!

Venom Fiend kept his eyes affixed to the men across from him.

They were all in black robes and had blood-red masks on.

An upright cross could be seen embroidered on the chest area of their garment.

"The Sacred Organization?" Levi raised his brow and chuckled.

That was the first thing that came into his mind at first glance.

Sword Fiend did mention before that the defectors who managed to escape joined the Sacred Organization and were resolute in seeking revenge.

Their efficiency caught Levi by surprise, though.

"Really?" Venom wanted to make sure.

Venom Fiend was still wallowing in bewilderment.

From what he'd heard from his old pals, the Sacred Organization possessed far more power than they did.

The Dark Emperor, who was mentioned in their conversation, was definitely a notch higher than Cyrus.

It was hard for him to wrap his head around the fact that someone stronger than Old Master existed!

"So, you are inviting me to join this organization?" Levi cocked his head.

Notos bobbed his head. "Exactly. This is what the Sacred Organization wants. It's also what the Dark Emperor wants ! "

"Hold on a sec. How does joining you guys benefit me? Can I be the boss there?"

The men's arched eyes instantly flattened.

What is he trying to do? He wants to become the boss? Is he out of his mind?

“As you can see, I used to be the Crown King in Erudia. I suppose I needn’t explain further that the Seven Fiends are now under my command. It doesn’t make sense for me to forgo my current status and be a gofer at your place, does it?”

“Levi, you’re clueless about the Sacred Organization. You should count your blessing for being invited!”
The five men were seeing red.

How dare these people dare come to Erudia and cause trouble with me.

The atmosphere became tense the next instant as Levi turned to face his five opponents.

Venom Fiend grew worried. Initially, he did not see it as a problem as Levi's position at the top of the Gem List spoke volumes about his abilities.

However, he changed his mind when the power of the Five Dark Angels was demonstrated.

I did not expect them to be this powerful. Our victory is now uncertain.

Furthermore, those five were not even the strongest members of the Sacred Organization.

I think we've bitten off more than we could chew this time.

"Levi, you've brought this upon yourself!" Notos roared, a frightful tornado appearing with the raising of his arms.

Tempestus raised his arms as well, turning the skies dark as his wrath poured forth.

The other three followed suit. They were the masters of ice, fire, and electricity. Intent on punishing Levi, they summoned the absolute power of their respective domains.

With the combined power of all five, they were capable of bringing the world to its knees.

Earlier, it was the sound of the furious battle that had attracted them to watch the fight.

As they did not hear the dialogue between Levi and the Five Dark Angels, they were unaware of Levi's identity.

Nevertheless, they did witness the battle.

The legendary Genius Doctor of Erudia is an unbeatable warrior? Even Levi who is the top number one on the Gem List is no match for this man. This news will soon spread to all of Erudia like wildfire.

The Five Dark Angels gazed disbelievingly at Levi, unable to comprehend how he was capable of such power.

After being defeated so easily, they feared that their end might be nigh.

To their surprise, Levi merely laughed. "I'll let you go this time," he said with amusement. "Tell your master to leave me alone or you wouldn't be this lucky the next time you face me. I'll kill you as you come. Do you understand?"

Levi was in a good mood today as the emergence of the Five Dark Angels gave him a good opportunity to test out Leviathan.

Even the Cardinal Hall did not expect the Manifest Court to have known so much.

As the Manifest Court existed independently of the Cardinal Hall, the former would only provide assistance to the latter and any other organizations should the need arise.

They would not take the initiative to provide the Cardinal Hall with information, and certainly not take their orders.

The Manifest Court was only in charge of recruitment and the gathering of information pertaining to the realm. They would not intervene in other affairs.

In other words, both the organizations were equal but served different functions.

Aside from the news of Levi being the Genius Doctor, there was plenty of other information that the Manifest Court did not feel the need to share with the Cardinal Hall.

Being able to operate in shadow in this manner was a true testament to the frightening extent of the Manifest Court’s power, something that Cyrus had attested to once before.

The goings-on in Erudia that was invisible to most except the Manifest Court was enough to explain many happenings.

Meanwhile, the council meeting within the Manifest Court resumed.

“How did Levi’s wife and Wynona survive the explosion? Did someone rescue them? I still can’t believe it!”

The martial artists of Raysonia, Keerea, and the thirty-eight nations within Bayview voiced their intent on reviving the glory of the Elites Conference. Erudia was the only exception.

The Elites Conference was a competition that hosted the sparring between aspiring young martial artists hailing from all over Bayview. Their prowess was to be ranked by the Bayview List.

The glory of topping the Bayview List enticed talents throughout the region to compete to become the best fighter of all.

It was so prestigious that the merits of being on the Bayview List far exceeded Erudia's Stone List.

The countries with the best fighters took great pride in achieving that feat as the honors and accolades were glorious indeed.

However, Keerea and Raysonia had more ambitious plans.

In accordance with the ancient rules of the Elites Conference, the country from which the most fighters made it on the Bayview List would obtain the rights to mobilize all the fighters of the other countries.

In other words, once Raysonia obtained the right, Erudia's fighters would be under their jurisdiction and be forced to obey their commands.

In the same vein, Raysonia would be able to suppress the progress of fighters of neighboring nations and advance theirs at the same time.
