Chapter 2011

Levi only wanted to continue his last conversation with Sherrie to know what Bruce and the Lab of Gods took from Erudia.

His disguise didn't raise her suspicions at all.

After introducing himself as 'Levi's subordinate,' he asked about their last discussion.

Due to Levi's intentional guidance, Sherrie quickly remembered it.

"At that final moment, he asked me about the item that Bruce and the Lab of Gods took away from Erudia. Just as I planned to spill it, they attacked us." Sherrie recalled.

"What Bruce had taken away is what we are searching for..." Levi told her their plan.

Sherrie said, "Everything they did was to snatch away the energy source that belonged to Erudia. They have made lots of preparations for that purpose. Yet, I only realize their intention now. Previously, I thought highly of the Lab of Gods. However, after going through the last incident, I finally understand that I've been wrong the entire time. Judging from how the lab is developing currently, I'm sure that a huge plan is going on in secret. They will be out of control at some point if they keep growing nonstop. At that time, disaster will befall Erudia and even the whole world! So, please, stop them!"

Sherrie had understood that the Lab of Gods chose to end Levi's life because he was always in their way, preventing them from doing anything they planned.

Upon hearing that, Levi finally realized that faking his death was necessary.

Apparently, the Lab of Gods was even terrifying than what he had imagined before.

They were up to something huge and would undoubtedly be a threat to everyone in the future.

Now that he was dead in their eyes, he could investigate the Lab of Gods bit by bit without having to face them openly.

Otherwise, he would stand no chance against them.

Meanwhile, Sherrie kept begging earnestly, "Please! You've to stop them and avenge him! It's all my fault that he's dead. Without me as a burden, he would have long escaped."

She was still in guilt as she recalled the incident.

Nonetheless, Levi smiled. "I believe that he will never blame you for that. After all, you didn't do anything wrong. Moreover, it's his responsibility to protect the people of Erudia. Even if he's given another chance, he'll still make the same choice without any grumbles."

I didn't imagine seeing Zoey and the others here.
They're actually here?
Feeling their stares, Levi felt nervous and uncomfortable.
Does she still feel hatred toward me and take me for her enemy?
The trio felt a sense of familiarity, looking at Levi.
I think I have seen him before.
But looking closely, I don't know him.
"Who is this?" Zoey asked curiously.
Zoey's gaze was fixed intently on Levi as though she could see right through him.
The other two were the same. Levi evoked a sense of familiarity within them.
"Have we met?"
Zoey stared at Levi puzzledly.

“F*ck!”
Levi was dumbstruck.
How did she find out?
What level is she currently at?
How did she discover me despite me hiding so well?
Is she at such a high level already?
The fact was Zoey’s current body had reached a frightening state.
It was even stronger than The Annihilator.
Her senses were very much sharper now.
She could sense everything that happened surrounding her.
She could even sense the whereabouts of a mosquito flying around.

That was the reason Levi was exposed.

Boom!

Zoey chased after Levi in lightning form.

Levi turned tail at the drop of a hat.

However, he realized he couldn't get rid of her.

She was right behind him every time he checked.

He knew his identity would be exposed if he met her face to face.

Levi's head ached, realizing his situation was pretty much between a rock and a hard place.

Zoey and Wynona are too good!

I can't escape!

They even see through my disguise.

What should I do?

The longer I'm with them, the higher the possibility I'm going to be exposed.

There could be more people around watching this entire scene from the shadows.

Once we start fighting, it will cause a commotion and attract the attention of others.

I'll have to use that if left with no choice.

Levi decided as he saw the trio neared.

At that crucial moment, air currents were fired toward Zoey, Wynona, and Mia from the surroundings.

Zoey and the others blocked the attack instantly.

“Understood. We’ll arrange for the Cryptic Stream Corporation to arrive at Erudia tomorrow.”

Bruce continued. “There’s also the issue with Zoey. The Annihilator’s death can’t be in vain. We need to figure out her combat skills. She can’t be a threat to us.”

“Mr. Johnston, I suppose you want to use the pure energy beings to deal with Zoey?” someone chuckled.

Others followed. “On top of that, we need to use Henry and Logan.”

A wicked smile formed on their faces.

After working with Bruce for so long, they were well aware of his thoughts and execution methods.

“I supposed Mr. Johnston wanted Erudian to destroy Erudia.”

“Of course, they have to be modified into pure energy beings for our plan to work.”

Bruce merely smiled at their suggestions.

That is exactly what I’m planning to do, hence me paying attention to the Lopez and Black families.

When news of the Cryptic Stream Corporation searching for a collaborator had spread, excitement engulfed the entire Erudia.

Even the low-profile families and business conglomerates were interested in a collaboration with the Cryptic Stream Corporation.

No one could have imagined the notorious Four Prodigal Sons were collaborating with the Cryptic Stream Corporation.

The news had caused an uproar among Erudia's high society.

Why the four of them?

Considering their family backgrounds, they were a popular bunch but simply an average Joe.

In terms of their capabilities, the Four Heirs were infamous for their incompetence.

All they knew were how to flirt and flaunt their wealth.

However, the Cryptic Stream Corporation had chosen to collaborate with them.

Soon the president of the Cryptic Stream Corporation would arrive at Erudia. The four of them would be the ones receiving him.

The rest could merely watch from the sidelines in envy.

This time, their families could finally hold their heads high.

Due to the notorious reputation the Four Heirs had, their fathers had been constantly disputed and taunted within their circle.

"I'm not afraid even if Levi is really dead! The fact remains that I was unprepared the last time. Now, he will not get away with it."

Robinson grinned. "That's good to hear. I thought you are still living in fear of Levi!"

"You must know, it was I who has revealed Levi's location in Goldenport Island to Mr. Johnston! Hence, I am the rightful one to claim credit for his demise!"

"Alright, alright. We all know about this!"

The crowd gathered before the VIP exit.

Outside, the Four Heirs were already waiting to welcome them.

“Welcome, Mr. Wilkins and Mr. Jefferson...”

Roscoe, Gabe and the others immediately greeted them.

“Let’s speak elsewhere!” Ryker replied.

Once the properties were bought and transferred under the name of the Cryptic Stream Corporation, it would be under its name forever.

Even The Cardinal Hall would not be able to circumvent that fact, until all the resources were fully exploited...

Even if the sunstone's location was subsequently exposed, there would be nothing that could be done.

"Perfect. I like working with competent and efficient people!" Ryker grinned.

Jefferson smiled. "We look forward to our future collaborations!"

The Four Heirs sparkled with excitement.

They strived to be the ambassador of the Cryptic Stream Corporation in Erudia, or even the whole of Bayview.

Their spirits elated at the thought of it.

"Leave it to us, we have it covered!"

The Four Heirs sped into action.

They too wanted to settle the matter once and for all.

By then, the family's status would be elevated dramatically.

A wave of disagreement sparked amongst the crowd. "How can we let that happen? We can't just give away Erudia's property to those thieves!"

We will never allow this tragedy to happen!

"Please, calm down and listen to me. If we stop their plan right now, we might have a good chance of success. This, however, will alert the Cryptic Stream Corporation and the Lab of Gods, and they may do something terrible to stop us," Phoenix calmly explained the situation to the crowd and continued, "Besides, we've only heard about sunstones; have any of us ever seen one in person to know what it looks like?"

Everyone shook their heads. Not even Levi had seen a sunstone up close to know its appearance.

As far as they knew, the Lab of Gods was probably the only organization in the world that could recognize a sunstone currently.

Phoenix continued to brief the audience on her analysis, "So, even if we successfully halt their activities this time, members of the Lab of Gods will undoubtedly steal the sunstones from us in the future. After all, they're the only ones who have seen the minerals and understand how to mine them."

Everyone else nodded their heads in agreement.

Phoenix had a solid point. A high level of skill and technology were required to mine minerals. The only way to retrieve the sunstones was probably through the Lab of Gods' technology, anyway.

Levi gave his orders promptly and continued, "However, I wouldn't let them purchase those lands so easily.
