### **Chapter 2051**

With the passing of Jefferson, Ryker, and a few other men, Cryptic Stream Corporation was adversely affected to the extent that all of its projects in Erudia were put to a halt.

The Four Heirs as well as their families were completely baffled.

When the owner of Cryptic Stream Corporation received the bad news about the deaths of his son and his good partner, his heart wrenched with sorrow.

"I must get rid of the culprit!" He was furious.

On the other hand, Bruce had to endure a steady bombardment of reprimands from the high-rank officials of the Lab of Gods.

Upon discussion, they had decided to give him one last chance.

Bruce's eyes welled up as he put on a nasty expression. "I'll remember this. It's time for us to reveal to the world what the Lab of Gods is truly capable of!" An unswerving intent flashed across his eyes.

After receiving several blows, the energy supply station was destroyed. As a consequence, the Lab of Gods lost one of its most precious core resources along with its glorious reputation.

Ether Organization which was located in Xyperia received the bad news at the very last minute.

Without warning, the Lab of Gods launched an incredible attack at them and wiped them out completely using only sixty seconds.

This was shocking. The entire world was astounded at how an irresistible force like Ether Organization was exterminated in a flash!

Who exactly is the Lab of Gods? Why are they so frightening? They have the God Scepter!

Everyone was in awe of the name which went viral overnight.

That was also the first time the Lab of Gods had ever showcased God Scepter to the world.

Once the God Scepter was launched, the massive Ether Organization was turned into ruins within a minute.

In actual fact, the destruction only took several seconds. The remaining time was used to tie up loose ends.

The God Scepter was one of the Lab of Gods' trump cards, its utmost prized possession.

Originally, Levi was supposed to use it during the ruckus raised in Zarain.

Unfortunately, Bruce intentionally ruined his plan at that time, resulting in the delay in introducing God Scepter.

The crowd was shocked when they saw the woman's face.

"Zoey? Levi's wife?"

Even Bruce was shocked.

She made her way toward them with a menacing look on her face.

"Bruce!"

Zoey immediately recognized him upon seeing his face.

She could remember clearly the person who had pretended to be a doctor.

"It's me! You killed my husband, and I'm here to get revenge!" Zoey bellowed every single word at the top of her lungs.

"Huh? What?"

Bruce and the others thought that they had heard her wrong.

She's here to avenge Levi?

Everyone was shocked.

The man furrowed his brows, but smiled a moment later.

Zoey's appearance had dispelled a suspicion he had.

Zoey was unstoppable.

None of Bruce's fighters could stop her at all. Even if they were to join hands to fight her, all it would do was buy time.

They were simply useless against her.

"I want the whole world to know about this battle! It's the perfect opportunity since we can show just how powerful we are with Zoey here," the man shouted again.

Meanwhile, at Oakland City.

"Huh? This is bad! Wynona, Zoey's missing!"

Mia and the rest finally noticed that she was gone.

"Oh no. She must've gone to get revenge!" Wynona exclaimed.

The former came to her senses as well. "That's right. Bruce happened to be at Xyperia too. Zoey must've gone to look for him."

"We gotta hurry to Xyperia, then. Where did she get the guts to fight the Lab of Gods alone?"

"I'll let The Cardinal Hall know. We can't let anything happen to Zoey."

The Cardinal Hall instantly sent their men out the moment they received the news.

For one, Zoey was Levi's wife.

On the other hand, she was extremely powerful and had great potential. They didn't want anything to happen to her.

"Huh?"

Everyone turned to look.

"First, let Zoey get rid of everyone. Let her unleash her powers and capabilities. The more power she unleashes, the better. This is like killing two birds with one stone to us. Once she unleashes a great enough power, we kill her. Wouldn't this show the world how great and powerful the Lab of God is, then?"

Everyone nodded simultaneously. "That's right. The more powerful she is, the more we can show everyone else how great we are."

Peter smiled at that. "Actually, we are also analyzing her battle skills when we allow her to unleash her powers. Then, we can get an overall picture of what to do. We'll be able to find out her weaknesses! That way, we can take her down easier later."

The fighters were shocked upon hearing this.

They had never expected Bruce to be so meticulous.

However, the sacrifice for this plan was too much.

There would be too many people dying.

Each and every one of the fighters were precious after all.

Yet, there were already so many of them dead.

Knowing what they were thinking, Bruce smiled and said, "Sometimes, we need to make sacrifices if we want to achieve something. I have had too many fighters die in this period of time. However, when we finally manage to make pure energy beings, the higher-ups will definitely compliment me."

Hearing that, everyone nodded.

“Send out the Double S grade fighters!”

Under his orders, four fighters instantly came forward.

None of them were weaker than The Annihilator, even if they were to fight alone.

Although The Annihilator was the only success Project Genesis had achieved, thirty years had already passed.

In these thirty years, the Lab of Gods had achieved all sorts of things.

Therefore, The Annihilator wasn't the strongest of Lab of Gods. He was just one of the pawns in the game.

The four fighters started to attack.

As expected, it wasn't as easy for Zoey anymore.

Most of the fighters who attacked earlier were killed within seconds.

However, the four fighters had her cornered this time.

Both sides began launching their attacks on each other.

These men with superpowers were very much like Zoey when she became a fighter.

The way they used their powers was uncannily similar too.

It was a race to see who was stronger and faster.

That was why they weren't as easy to defeat compared to the previous fighters.

Zoey was having quite a hard time getting away from them and killing them.

The only ones left behind were Zoey and the ten robots.  
Though the robots were powerful, it was nothing worth mentioning for Zoey.  
All they could do to Zoey was to delay her time by a minute as pre-programmed in their systems.  
But that was more than enough.  
Bruce and the rest had successfully escaped to a safe corner.

“Preparations for God Scepter’s launch system have been completed. Get ready for the launch! Three! Two! One!”

Boom! Boom!

Loud explosions thundered through the air... it was so imposing that it seemed like it was about to split the sky apart.

A beam suddenly flashed across the vast night sky.

That beam that came from the Lab of Gods’ satellites was just like God’s punishment, capable of tremendous destruction.

“Yes! We’ve won! Zoey is sure to meet her maker!”

“She’s nothing but a normal being. How will she be able to endure God Scepter? What a joke!”

Bruce’s men were in joy after seeing Zoey disappear within their sight.

They seemed to be confident about God Scepter.

“No one can fight head-on against God Scepter!” Bruce lifted his lips into a wide smirk.

In fact, Levi would surely meet his doom if God Scepter was used back then at the borders of Zarain.

Nonetheless, Bruce did not regret not utilizing it, as Byron would have lost his life since he was captured by Levi.

Well, it’s not too late now. I can still make use of it now to get rid of Zoey.

In the meantime, news about God Scepter had spread like wildfire in Erudia.

“What weapon is that? Have you guys gotten the results? Is it really that powerful?”

Forces from Xyperia and other countries were finding out about God Scepter as many were left shocked by its power.

“What? Zoey has been defeated? How is that possible?”

At the same time, The Cardinal Hall received news.

All Zoey could feel was the energy in her body draining away quickly. Unfortunately, her body could not heal fast enough to recover from such damages.

At that point, she could not even open her eyes.

She felt powerless.

Her mind was all about Forlevia and her family, and she did not want to die this way.

Unfortunately, there was nothing she could do.

I've underestimated Bruce, as well as the Lab of Gods.

She knew she did not have the capability, at least for now, to fight against that mighty weapon and avenge Levi.

"What should we do, Mr. Johnston? Kill her or bring her back alive? If we bring her back, I'm sure we'll be able to make use of her and even turn her to our side." Peter had a sinister smile on his face.

However, Bruce shook his head violently. "There's no need to keep her. Just kill her now! Like Levi, we can't let her live. Letting her survive is equivalent to keeping a time bomb with us. Instead of helping us, she'll become a threat to us instead!"

Bruce had experienced too many failures with Levi.

He understood that people like them were not worth giving chances. Instead, killing them as soon as possible was the best solution.

Bruce threw a glance at Zoey and ordered, "Kill her!"

The man beside him charged forward, gathering immense energy on his right shoulder. Knowing how Bruce would only be appeased and happy after seeing a dead body, the man wanted a forceful punch to send Zoey to doom in an instant.

Levi was a man with great reputation and influence.

The mention of his name was like a bolt out of the blue, scaring everyone out of their wits and their souls leaving their bodies.

Levi? That familiar yet terrifying name!

Even the Lab of Gods had labeled his existence as the most threatening one.

Everyone was on the verge of breakdown despite being in such a critical instant.

Weirdly, Bruce was so horror-stricken that he soaked in cold sweat and almost lost all form of control over his bowel movement.

He was so affected that his mind went blank.

The others were in similar predicament.

When Zoey heard that name, she suddenly felt like she had gained immense strength despite her pathetic state.

The fear and panic caused to everyone's mental state at the mention of that name were so devastating it was comparable to that of God Scepter.

No way. That's impossible. Levi is dead. The entire world saw his body dissolving to the point beyond resurrection. How is it possible that he's still alive?

Apart from how cautious Bruce was, he was even more sure that Levi was dead since Zoey had come to him to seek revenge.
