Chapter 2071 The Ultimate Trap

Levi guffawed and announced, "It's nothing much! Just set my men free and allow us to leave with the sunstones!"

Without a second thought, they yelled at him the moment they heard his request, "No!"

"If that's the case, I'm afraid she's still taking the express ride to hell!"

Afraid Levi would take her out after he warned them, Sammy urged, "Just listen to him!"

"Are you sure? It's a once-in-a-lifetime opportunity! Are we really supposed to set them free?"

"He's right! I'm afraid we won't get our hands on them again in the future! Those from Lab of Gods are going to take things out on us once they make it here!"

She questioned her comrades-in-arms with different ideas in return, "Are you trying to sacrifice me for a greater cause?"

Levi couldn't leave because Bruce would dispatch the forces within his disposal to go after Kirin and his people once he fled the scene.

If that happened, he might end up losing the fight. Thus, he had to stay behind to keep Bruce occupied and distracted for as long as possible.

He continued strangling Sammy and remarked with a vicious smirk, "Bruce, are you a sloth or something? What's taking you so long?"

"Huh?"

Bruce was taken aback since no one had ever addressed him with his first name. On top of that, he thought the mysterious figure sounded like Levi a lot.

Irrked, Bruce asked in return, "Who are you? Why are you trying to imitate Levi?"

Chapter 2073 Trump Card Of Bruce

It was then Bruce dispatched the pure energy beings he brought along to go after Levi. He had control over their minds. Thus, they would never defy his instructions.

He had long conducted all sorts of experiments just to get himself ready for battles with pure energy beings since he knew it would be inevitable in the future.

The demise of Jared had enabled him to get his hands on the things it would take to get rid of pure energy beings.

He spent a long time trying to sort out the potential crisis awaiting him because it was a mission impossible for him to recreate the said experiment due to the lack of superparticles.

The thought of pure energy beings turning their backs against him crossed his mind as well the moment he thought of creating them.

In the end, his superior, one of the high-rank officials of Lab of Gods, instructed him to conduct the experiments since they possessed the techniques to take out pure energy beings.

Chapter 2074 Illusions

Although Bruce had always introduced himself as a high-rank official of Lab of Gods, Levi was well aware that wasn't the case.

It was the perfect time for him to figure out the actual capabilities of Lab of Gods through his showdown with Bruce.

"What exactly do you have in mind? Aren't you supposed to be on the run instead of touring my house?" Sammy asked with her eyes widened in disbelief since Levi continued strolling around as if he couldn't care less.

Levi asked in a sarcastic manner, "Why am I supposed to get worked up when you're here with me? I mean, aren't we on the same boat?"

The doubtful Sammy asked when she linked the missing pieces of puzzles together, "Who on earth are you? Where are you from?"

“Me? Have I not told you that I’m Levi?” he introduced himself again and removed his cap, revealing his face.

“Stop lying since you can always disguise...”

Halfway through her sentence, she thought of something and rephrased her question, “Are you seriously telling me you’re the one and only Levi?”

Sammy gaped in disbelief as the man in front of her asserted, “Yes, that’s me!”

On the other end of the city, Levi remained calm as always while Sammy shared the bad news with him, “They’re still trying to search for us! What are we supposed to do? I don’t think we can last for another day! Aren’t we supposed to be on the run?”

To her surprise, the man remarked with a smile, “It won’t even take Bruce another day to find us! After all, he’s quite a capable man!”

“Hurry up and gather Sammy’s aide at once!”

Shortly after Sammy’s most trusted aides gathered around, Bruce asked, “Where’s she?”

Sammy's aides started playing dumb. One of them mentioned, "Mr. Johnston, we're not sure since we're still trying to reach her!"

"Stop acting in front of me—I'm aware all of you are still keeping in touch with her. As a matter of fact, a few of you have been sharing our plans with her."

Bruce's reply took them by surprise. He yelled when one of them tried to say something, "I'll give all of you another chance to make up your mind! If you tell me the truth, I'll return the favor and allow you to join the Lab of Gods! Similarly, I won't spare those arrogant ones any mercy!"

"They're coming!"

The two pure energy beings stood out amongst the rest. It was then Levi knew he couldn't afford to take his foes lightly anymore.

How am I supposed to describe them? Sunstones! They're beings similar to the sunstones since they're structured differently from humans!

I'm impressed, Jared! Actually, I'm glad you're dead! Otherwise, you're going to bring upon even more horrifying beings to the battlefield!

Levi knew it was time to keep the rest of his concerns to himself since he had to deal with those affiliated with Lab of Gods.

Although pure energy beings were there to take Levi out, Bruce was afraid things might go wrong and sent the rest to help them out since Levi had Sammy with her.

Sammy could easily render most of Bruce's forces incapable of movement since her capabilities were meant to take charge of them.

She got herself engaged in an intense fight with more than ten of Bruce's forces, sharing the burden of Levi as he had to deal with the rest on their behalf.

Similarly, Bruce knew he couldn't afford to let his guard down even though it seemed as if they would triumph at the end of the day.

In quick succession, Levi launched two punches against the pure energy beings. Upon the impact, they went flying backward.

Crack!

Crack!

After Levi's blows, their armor began to fall apart.

Even after being sent back for a few hundred meters, the pure energy beings showed no sign of stopping.

Their faces contorted in pain.

It was the first time everyone witnessed the pure energy beings in such a pained state.

The astonishing sight left them stunned.

Their opponent must be immensely powerful!

Everyone assumed that pure energy beings existed solely to wreak havoc and murder their enemies. Hence, they were considered undefeatable. But for the first time, the pure energy beings met an opponent who was strong enough to take them down.

After a hundred meters, the pure energy beings finally regained their balance as they recovered from the blows Levi delivered.

But all of a sudden, a strange look crossed their faces.

Bang! Bang! Bang!

A string of loud bangs echoed from within their bodies.

Chapter 2078 Surrounded By Death

With the pure energy beings hot on Levi's heels, things were getting heated.

No matter the method used, they could not be mortally wounded.

Due to their regeneration capabilities, the pure energy beings would gradually wear their opponents out. Once their enemies grew tired, they would attack.

Furthermore, the two pure energy beings chasing after Levi were stronger than most.

They were capable of killing Levi.

The longer this dragged out, the higher the possibility that Bruce's army would take control of the situation.

Furthermore, the Lab of Gods would use this time to send in their advanced warriors.

Once all of these forces were deployed, it would be a matter of life or death for Levi.

Hence, he could not afford to get caught up by these pure energy beings. Any more setbacks would put him in a precariously dangerous situation.

As soon as Levi tried to run, the two pure energy beings did all they could to pin him down.

At the same time, Bruce sent more of his men to chase after Levi.

“Bring more men here! Make sure you capture Sammy too,” Bruce ordered.

He wanted to see if the man would abandon Sammy.

Bruce's army was only a few seconds shy from arriving on scene.

Levi was yet to shake the pure energy beings off his trail.

"Quick, think of something!" In desperation, Levi roared at Sammy.

His loud yell caused Sammy's mood to shift.

All of a sudden, a group of teenagers emerged from the crowd.

More specifically, the group was comprised of thirteen to fourteen-year-old girls and boys.

They were the infamous band from the Triple Group who earned the nickname "Genesis Devils" due to their ferocity and ability to strike fear into their victims.

All of a sudden, they lunged toward the advanced warriors from the Lab of Gods.

Before this, the teenagers hadn't had the chance to demonstrate their strength. They were only subservient to Sammy's orders.

After Sammy was captured, they bade their time.

No one else from the Triple Group dared to order them around.

They managed to hide in a corner, right under Bruce's nose, without garnering any attention.

Chapter 2080 The Powerful Cyrus

“Haha! Great! I’ve forgotten about him!” Bruce was surprised and delighted.

He thought he was going to lose Levi and Sammy.

Unexpectedly, Cyrus appeared again.

Cyrus always showed up during the crucial moments. It seemed like he managed to prove himself again this time.

“I’m going to owe him a favor. Quick! Go after them!” Bruce sighed.

Levi tried his best to escape with Sammy upon breaking the defense barrier.

Right then, Sammy finally understood.

It’s not that Levi can’t escape, but he’s dragging the time.

In fact, he could have run away earlier. However, he stayed because he wanted to stop Bruce and the people from Lab of Gods. With that, the rest would have more time to escape.

Now that he had achieved his goals, he retreated immediately.

Sammy instantly realized something.

Levi was calm in my house just now because he was dragging the time. It turned out that he was waiting for Bruce.
