Chapter 2111 Kill Bruce First

In fact, Levi was in a dangerous place.

He was with Sammy at the Triple Group in Keerea.

This was something totally unexpected.

After his many comings and goings, Levi had come back and was part of their internal organization.

Even though the Triple Group was a running dog of the Lab of Gods, it was not one that submitted quietly to the Lab of Gods.

They had stealthily taken under their control many things of the Lab of Gods.

It took Levi three months to get all the information regarding the Lab of Gods that were in the hands of the Triple Group.

In this period of time, Levi was able to draw many conclusions.

The core level of the Lab of Gods was unreachable. There was no way to get to it and control it.

However, Levi was confident that he could control spokespersons like Bruce and members of the outer circle.

He also had eighty to ninety percent grasp over the Triple Group.

“Okay, I’m leaving!” said Levi, after seeing that everything was in place.

Sammy asked hurriedly, “Where are you going?”

"What? Killing?"

Before the guards had time to react, they found themselves on the ground.

In one breath, all the guards at that post were dead.

Once the sickle of the Grim Reaper was raised, there was no stopping it.

Levi started his killing spree.

All the open and covert sentries disappeared without a trace.

The best part was that they could not even send out any alarm or signal.

No one knew that Levi was so near to the training base because everything appeared normal.

That was the advantage of the Triple Group.

They provided some raw materials and test samples to the Lab of Gods.

As a result, they knew something about the situation at the training base.

This made it easy for Levi to enter the place.

After an hour, the perimeter defense of Bruce's training base was completely eliminated by Levi.

More than ten thousand men had died, but on the surface, all was calm and normal.

Nobody at the training base knew what had happened.

It's Levi!

Bruce recognized it finally.

This is Levi's voice! Can it really be Levi? There are too many people masquerading as him recently. The voice may not mean that it is really him. It could be the Sacred Organization coming for me.

Whether it was Levi or not, the training base was exposed, and Bruce's only thought was to run.

"Run! Quick!"

Bruce ordered everyone to escape with him through the secret passage.

At the same time, he notified the other Lab of Gods about his present condition.

He was ready to hit the ultimate panic button if things went beyond his control, to trigger the emergency rescue from the Lab of Gods.

"Are you trying to run, Bruce?" The voice came again.

The next second, Levi landed.

The earth fissured in all directions. The broken pieces revealed the underground facility.

The ground under the training base had been hollowed out.

A warren of passages had been constructed that led to many places in Zarain.

This was the secret of the training base.

Everything could be transported underground without anyone knowing.

Who would have thought of that?

Someone could actually do what Celia of The Cardinal Hall did.

Kill pure energy beings in a second!

Everyone from the Lab of Gods was insanely fearful of what they saw.

This is an imminent catastrophe!

Levi curled his lips.

The way he had killed the pure energy beings was different from Celia's.

She was too f**king powerful!

So powerful that nothing mattered to her!

She didn't care who they were, and down came her hand in a stroke!

Levi was able to deliver instant death to the pure energy beings because of his solitary training.

He took various Forbidden Techniques, transformed and re-integrated them into something new and unique.

Chapter 2115 Bruce Called For Emergency Rescue

"Hehe, are you calling someone? Let's see who can save you!" Levi sneered.

He had decided that Bruce must die.

No one can stop me from killing him!

As Bruce called for emergency rescue, signals traveled to eight training bases hundreds of kilometers away.

These training bases were deep in the mountains, underground, or under the sea.

The signals activated the launch systems in all eight training bases at the same time. Then, the launch systems burst into smoke and shoot eight rays of light into the sky.

The force of each launch was equivalent to launching a rocket.

However, instead of rockets, they launched eight people into the sky.

Each of them wore spaceflight engines on their backs, and each of these engines was equivalent to four spaceflight engines.

Furthermore, they also wore armors which were many times stronger than materials on a spacecraft.

Therefore, they could withstand the force of the spaceflight engines. Otherwise, the pressure from the launch would disintegrate them.

In addition, they also had incredible physiques, which made them more resistant to the force of the engine.

Without such physique, a minor vibration from the engine could kill them.

These people were the Extreme Rescue Squad from the Lab of Gods.

They could rescue anyone in the shortest time.

Four engines were the most they had ever activated.

It was also their most powerful attack.

Tap, tap, tap...

There were a series of cracking noises in the air, and the grounds shook so hard that it was on the verge of splitting.

At the same time, air currents moved violently behind them.

“Charge!” they yelled, and the eight-member team propelled themselves toward Levi with the aid of their engines.

Each of them moved in a different direction.

The force of the propulsion alone was enough to disintegrate anyone.

However, Levi smirked as he stood in the center.

He had achieved tremendous enlightenment from his solitary training.

Furthermore, he did not rest in his three months in Triple Group but kept enhancing his powers.

His master taught him the basic techniques to pursue ultimate power and speed.

Therefore, he continued to grow stronger.

By relying on what his master taught, he could achieve many things.

Boom!

Levi shattered Bruce's armor with a single punch.

Pfft!

Then, numerous bloody wounds appeared on Bruce's body.

Bruce could only look on in shock at what was happening to him.

"Bruce, I've been wanting to kill you for a long time!" Levi said as he looked at the wounds all over Bruce's body.

Now, Bruce could finally see Levi's face.

He had no choice but to believe that the man before him was Levi. "You, it's you! How are you alive? No way! How is it possible? It's you. It's you all along!"

Bruce seemed to have gone mad as he finally understood everything.

Levi is behind all that happened later. But, how did he survive?

Bruce found the fact that Levi was alive more frightening than his impending doom.

“Yeah! I’m still alive! If you want to defeat me, wait for your next life!”

Immediately after that, Bruce exploded into a mist of blood and died!

All that remained was a pool of blood. There was zero chance that he could be alive.

Chapter 2118 Obstruction By Eighteen Dark Angels

Levi did not have to ask who they were because he had met them in Xyperia not long ago.

They were the Dark Angels from the Sacred Organization.

Levi was familiar with their aura.

Initially, four people obstructed him.

Then, there was one more person, their leader. Levi had roughly guessed his identity.

He is Death Fiend!

“Not bad, you have found me! No one from the Lab of Gods can do that!” Levi sneered.

Death Fiend said with a smile, “It’s because they are the ones under attack while we are watching from the side. We have different perspectives!”

He’s right. One does see the situation better as an outsider.

Levi attacked blatantly, so logically, the forces from Lab of Gods should be able to find him with ease.

Unfortunately, the attacks sent them into a state of disarray.

Therefore, Levi led them by their noses and gained the upper hand.

Chapter 2119 The Scary Jester King

The Eighteen Dark Angels could shake the world with their combined attacks.

At this moment, they instantly surrounded and trapped Levi.

This time, Levi could not pulverize them with his punch. They were completely unharmed.

Levi was stunned with their unique physique.

There were once a few Fiends among Eighteen Dark Angels.

Although these eighteen people were ranked lower than Fiends, they had incredible strength.

They were also much stronger than any fighters from the Lab of Gods that Levi fought.

His punch did not even leave a scratch on them.

Huh? That's strange.

Levi was thinking deeply about what was going on.

He found them strange.

However, he knew that now was not the time to think about it.

Instead, he needed to deal with the problem before him quickly and leave.

Otherwise, once the fighters from Lab of Gods arrived, he would have more difficulty escaping.

He might not even be able to escape.

Death Fiend and the others could see that Levi was about to increase the intensity of his attack.

Chapter 2120 Jester King
In Lab of Gods, they called him Jester King.

He was of the same class as Bruce's superior and was powerful enough to be admitted into the core level of the Lab of Gods.

The Lab of Gods' aircraft traveled as fast as lightning.

However, Jester King still arrived ahead and stopped Levi.

He was covered in a sinister and threatening aura that brought fear to the Eighteen Dark Angels.

Even Levi's expression changed.

He is dangerous because I can't feel his presence at all. I can't sense any blood circulation or breathing. Finally, a strong opponent. It's going to be interesting.

Boom!

Jester King made his move, resulting in tremors over the ground and sky.

Suddenly, he disappeared from before Levi's eyes.

There was not even a trace of his shadow.

Then, Jester King suddenly reappeared right in front of Levi again with a flaming aura around him as if trying to burn Levi.

Slap!

A crisp noises sounded, and the sky darkened.

Jester King grabbed Levi by his throat.

Instantly, Levi felt a tremendous force, as if the mountains were pressing down on him, threatening to flatten him.
