Chapter 2121 Four Jester King Class Opponents

A man with the same class as the Jester King had shown up, leading an army of unknown strength.

With a cold voice, he claimed, "Let's see how you can escape from us now."

From the plane hovering a few hundred meters above the ground, he unwaveringly took a step forward and plummeted from the sky, then landed before Levi with ease.

Dazed, everyone stared blankly at the fearsome man, who was the superior of Bruce.

Despite the neat attire and elegant gesture, his mighty and perilous aura was glaring.

Alerted, everyone else could feel their breath slowing.

He was undoubtedly on par with Jester King.

Soon, a lady in flaming red clothes arrived at the scene. Her uncanny impression terrified the Eighteen Dark Angels.

She was also as strong as Jester King.

Once again everyone around felt the pressure and fear as colossal waves surged from afar of the ocean very soon.

Among the waves of a few hundred meters, a vortex emerged.

Chapter 2122 Familiar Pain

As if his soul was sundered by the blow, Levi could not feel his body for a split second. He nearly collapsed from the tremendous force.

He’s too strong!

Unlike him, who thrived by utilizing cunning plans, Bruce’s superior achieved his status with sole power.

In the Lab of Gods, the latter’s nickname was Lucifer, the name of the fallen angel.

To be endowed with such a mighty nickname, his strength must have been acknowledged unanimously by Lab of Gods.

“Ah!”

The lady let out a demonic, eerie scream. It was sharp and maleficent and sounded like the cries from abyssal hell.

The unpleasant scream was extremely unnerving.

Unearthly flames started blazing on both her arms, where spooky howls and whimpers could be heard from them.

Those vicious flames were eager to sever anything.

Cough!

Severely injured, Levi coughed out some blood in agony.

With Jester King's unstoppable card and Hell Witch's relentless Hellfire striking him jointly, he stood no chance.

Under Hell Witch's control, the Hellfire penetrated Levi's body and persistently burned his organs, intending to roast him from inside.

"Ah!"

The torment left Levi screaming incessantly.

Undoubtedly, the anguish was no less than that when his master reconstructed his martial vein.

"Hahahaha..."

Exhilarated, Jester King and Hell Witch laughed hysterically.

Chapter 2124 Why Is He Unscratched

"This is your punishment for offending Lab of Gods. No matter who you are, you're done for."

Lucifer made an evil smirk as he spoke.

Jester King and the man from the sea, too, grinned sidelong venomously.

Looking at Levi, unable to free himself from Hell Witch's Hellfire, they reckoned that he was nothing but a piece of dead meat.

Even God can't save him now! I know countless people are rushing over to the rescue. Even Cyrus is coming! Unfortunately, it's too late now. They can never save him. Well... Maybe the Eighteen Dark Angels watching from there might have a shot.

At the same time, Hell Witch cackled maliciously as she listened to Levi's cries.

However, her grin gradually disappeared over time and finally turned into a dropped open mouth.

Bewildered, she could not believe her eyes.

What? He's not damaged? Impossible! After my Hellfire has penetrated the body, no one can survive it! They will all burn to ashes, leaving neither their body nor soul! But why is he unscratched? Even his organs are still intact! No way! Even pure energy beings will burn to crumbs under my Hellfire. On the contrary, he's merely feeling pain and nothing else!

The rest noticed Hell Witch's expression and slowly fathomed the situation. Soon, their smiles vanished as they stared in puzzlement.

Chapter 2125 Forbidden Technique

With the help of Kraken's restrictive ability, Lucifer was able to injure Levi.

Now, Jester King was dying to attack.

Never had those from Lab of Gods imagined the four would attack together.

Typically, they could vanquish their opponent in one-to-one combat.

However, the battle had dragged too long, leaving the three impatient; thus, cooperated to end it quickly.

Bang!

A thunderous blare rang as Jester King bolted toward Levi.

Levi slightly drew back, but the former was too fast. Instantly, Jester King appeared behind Levi and landed a punch brutally upon him.

Blood spurted out of his mouth as he was sent flying away.

Only now did he realize how powerful those who were one class higher than Bruce.

After countless futile attempts, Levi finally decided to activate Forbidden Technique as he was desperate
to survive.

Boom!

Immediately, black stripes appeared on his face as his air became uncanny and destructive, as though a

He activated a catastrophic Forbidden Technique— Forbidden Annihilation, which could profoundly enhance his power.

Unfortunately, even though he would become invincible, he could lose consciousness and be immersed in bloodthirstiness; thus, slaughtering all the living things in sight.

Therefore, his master prohibited him from thoughtlessly using the Forbidden Technique as he could descend into a ruthless demon if he failed to gain control over his consciousness.

Now, Levi's aura had become more menacing than that of Lucifer or Hell Witch.

Shocked, the three gazed at the perilous man before their eyes in fear.

Even though Levi was one class lesser than them, he had lost himself after activating Forbidden Annihilation and turned into an intimidating killing machine.

The thunderous clap rumbled throughout the horizon.

As the ground began to tremble, the entire island fissured, causing the ground to sink.

Lucifer and his comrades spewed blood as they were thrown backward.

As for Levi, he was flung high into the air and suffered even worse injuries.

Even though he had executed the Forbidden Technique, his current state didn't allow him full control of it. Hence, he was unable to wield it to its fullest potential.

By forcing its usage, Levi was at the risk of being controlled by the Forbidden Technique and turned into a blood-thirsty killing machine.

He had already reached his limit when he sent three warriors who were stronger than him flying.

Chapter 2128 The Worst Fears

Everyone from the Ancient Clans was filled with excitement.

Tears gushed out of their eyes as they dropped to their knees to perform some sort of ritual.

After searching for half a year, they had finally tracked down the seal that carried the aura of the Forbidden Annihilation. It had belonged to the person they were searching for.

"It's a surprise to see you here."

The different factions of the Ancient Clans greeted each other. After they were acquainted with one another.

"What? Even you guys are here. Aren't you hibernating within the glaciers in the North Pole?"

"We came out in search of him once we heard the news."

"What about you? I heard your clan was wiped out. How can you still be here?"

"It was he who had saved us from our doom."

"You're here too?"

"Even you!"

Many of the Ancient Clans felt euphoric when they saw each other.

Chapter 2129 Exposed Identity

"The scariest part is that they are not from the earliest generations, but are from generations that come much later," Sammy exclaimed.

Levi understood what she meant. "Are you saying that they are not considered the strongest? In other words, their powers diminish after generations of inheritance?"

"Exactly! The strongest from the clans are from the first generation. Therefore, they are trying their best to regain the powers of their ancestors through research."

Sammy gasped.

"The Lab of Gods is extremely powerful. However, as long as I'm alive, they will never have their way."

The fact that he was faced with a mighty foe didn't deter Levi at all.

"Your injuries are really serious. It looks like you will need more time to recuperate."

Sammy was already treating Levi's wounds.

"I had overstretched myself this time as I wasn't aware of what the consequences of using the Forbidden Technique were."

Levi had always been concerned about that.

He finally realized why his master had warned him not to use it lightly.

Nevertheless, he no longer needed to worry now that he had used it.

From then on, he could unleash it without any reservations.

Chapter 2130 The Terrifying Doctor

The man provided Lucifer with more elite fighters as a backup.

“Are you injured too? What a useless bunch!” the man scolded them again.

Nevertheless, he provided them with some specially customized medication.

Their eyes glistened when they saw the medication as if they were some kind of treasure.

In fact, they were right. The medication had a mysterious ability to heal and also to increase one’s power.

Furthermore, it also provided some unexpected benefits.

Someone of Bruce’s level had no access to such medication.

Even for Lucifer, the medication didn’t come by easily.

Therefore, the four of them thanked the man in the suit at once.

After downing the medication, all their internal injuries and external wounds healed at once.

Furthermore, they could feel their abilities being elevated which delighted the four of them.

“I liked Bruce for how competent he is. However, it was a shame that we were too late. Or else, I could’ve gotten someone to save him,” the man lamented.
