Chapter 2221 The Past Of The Dark Emperor

“Remember how Levi faked his death back in the battle on Goldenport Island?” the Dark Emperor asked.

“Yes!” Everyone else inclined their heads.

Death Fiend added, “The world thought Levi was dead, but you told us he’s still alive.”

“Yes. That was because I sensed him using a type of Forbidden Technique. Though it was barely discernable, I was able to sense it. Levi ended up going all out with the Forbidden Technique,” the Dark Emperor explained.

Everyone got curious. “What’s so special about this Forbidden Technique?”

“It came from someone who’s the reason why I can’t enter Erudia until today!” the Dark Emperor declared, his face turning grim.

Death Fiend asked, “Is that the person you want to kill after combining the Skyward Sword with the Terra Blade?”

The Dark Emperor nodded. “Yes. I created the Sacred Organization and plotted so hard just to defeat this person!”

“So Levi’s that person’s disciple? You tried so hard to get Levi to be your disciple just because of that person?”

Chapter 2222

This must be the Dark Emperor's plot! Since they're back, the Dark Emperor must've found out about my escape from the Prison of Darkness. He had no choice but to accept the fact. But I believe he won't believe that I destroyed the Prison of Darkness alone! I can't believe that I did it and even Cyrus found it unbelievable.

We used to be on par, but now I'm way stronger than him. Why did he send someone to relay the order that Zoey is to remain in Erudia? Something's wrong. Is he trying to find out how strong I am? Yes, that must be it! He wants to find out if I was the one who destroyed the Prison of Darkness!

Nevertheless, Levi couldn't figure out what the Dark Emperor's plot was for now.

That being said, he wasn't concerned, for he was sure of his capabilities.

He could display his true strength whenever needed, so his ego was now boosted beyond imagination.

Zoey wouldn't want to leave Erudia to apologize to her mentor now.

Thus, Levi could use the opportunity to change her mind.

It was finally time for their family to reunite and spend some time together.

Now that Forlevia could go for training, they'd get to see her every day.

Alas, their peaceful days were short-lived. News soon spread all over Erudia that the She-Devil, Zoey Lopez, was in North Hampton, and that the Guardian of Erudia, Levi Garrison, was back, safe and sound!

He first released the news that I'm still alive and exposed my position, then incite the people to hate Zoey and take her life. Everyone will target and view me as an enemy!

It was a situation of all against one, so he would have no choice but to take action to protect Zoey.

In the face of Erudia and the whole world's oppression, Levi would definitely unleash his full power.

The Dark Emperor would definitely find out how strong Levi was and whether he had escaped from the Prison of Darkness himself.

That was the Dark Emperor's plan and test on Levi.

Once again, North Hampton became the center of attention.

Group after group of fighters arrived in North Hampton and sealed the place off, allowing no one to leave.

They wanted Zoey to remain here for the rest of her life.

Some of them also wanted Levi dead...

Even if they couldn't kill him, they wanted him to know his place in this new era.

There were also some people who came to see Levi in real life.

His words had everyone exchanging glances.

They were reluctant to answer his question and hurt his feelings.

In the end, Kirin had to speak up. "Boss, I'm sorry to be brutally honest, but the techniques you taught us were too basic! We're being bombarded by various ancient techniques and modern training techniques, so yours aren't relevant now. 'Out with the old, in with the new.' They don't fit in the current era!"

Afraid that Levi would fly into a fit of rage, Azure Dragon added, "Boss, Kirin means well. Times have changed. There are too many advanced techniques, so your technique book has become obsolete. Garrison Industry found an ancient technique book in an ancient ruin that allowed us to grow in leaps and bounds in just one month. If we practice using your technique book, our strength would only increase tenfold. It is normal for it to be out of use."

Phoenix chimed in, "Besides, we have mastered the basic skills, and your technique book only teaches us the basics. Thus, we can advance quickly by learning those ancient techniques and modern training skills."

Seeing Levi's scrunched up expression, Robed Slayer, Black Tortoise, and White Tiger added, "The times have changed swiftly. There are many better techniques available. We're not saying that your technique book is bad!"

What? That's the funniest joke I've ever heard in my life! I can't believe they are asking Levi to work hard!

Even Mia and Wynona were casting earnest looks in Levi's direction.

Though Levi was no longer the strongest fighter in this era, they believed he could get an opportunity to become a top fighter once again.

Though the chances were slim, there was still hope.

Levi would definitely grab the chance to improve himself whenever possible.

After all, he was skilled enough.

Everyone gazed at him, expectant smiles playing on their lips.

Levi didn't know how to react, for they thought his ability was stuck in time since three years ago.

You've progressed, so have I. Do you think I did nothing for the past three years? If I did nothing, how would I escape from the Prison of Darkness?

Chapter 2226 The Same As Three Years Ago

Over a hundred of Levi's disciples arrived, followed by Levi's Team Of Secret Warriors.
There was no need for them to conceal themselves, for they were fighters by now.
After Levi's departure, Floyd became their leader so they could continue contributing to Erudia.
"Master!" they greeted him excitedly.

They were as delighted as Azure Dragon and the rest.

After hearing news of Levi's return, they rushed over to North Hampton.

"Good, good. You're all fighters now!" Levi praised as he flashed a satisfied grin.

Just like Azure Dragon and the rest, Floyd and his men were now capable fighters.

Floyd himself was on par with Azure Dragon, Kirin, and the like.

So was Shade, the leader of Team Of Secret Warriors.

If the team was this strong three years ago, Levi wouldn't have to keep them in hiding. He could've just ordered them to take down anyone who tried to go against them.

Chapter 2227 Still The Strongest Of The Era

His words caused everyone else to grimace before glaring at him. They were clearly blaming him for being brutally honest. Indeed, they all had the same thought—Levi hadn't progressed at all during the past three years! That was what they thought, but none of them dared to say that. Why did Floyd say that out loud? He's our master, after all. Though there's no rule stating that a disciple can't be stronger than his master, we still need to respect him! The constant reminders would sound like they were insulting Levi. Kirin and the others were incredibly nervous, for they had explained the same thing to Levi earlier. Is Floyd going to repeat the same thing all over again? now, Floyd realized how blunt through the ranks, there was no need for him to remain in the dark. He was straightforward and ended up blurting his honest gave Levi anxious stares, for he was still their

None of them had any idea that Levi was telling the truth even after Cyrus called him a divine being.
Suddenly, Levi remembered someone—Forlevia.
He was too engrossed in his disciples and comrades.
Let's see if Evie stuck to using the technique book.
When he found her, he was delighted to see her practicing the basic techniques that he taught her.
Levi glanced at her briefly.
Though the elders taught her the traditional techniques of Erudia instead of the various skills Floyd and
the rest had been training, she didn't stop practicing the basic techniques he taught her.

Chapter 2229 Not His Match

"How dare you ask Evie to forget everything we taught her and focus on the basic techniques instead? Have you gone nuts?" Celia hissed.

Levi merely nodded, nonchalant. "Yes, it is time for Evie to forget the techniques you taught her, for she has discovered the secret of my technique. This is her future! She might be a great fighter with your techniques, but with mine, she'll be the strongest fighter ever!"

The elders burst out laughing and looked at Levi as though he was a fool.

She'll become the strongest fighter with his technique? Was that a joke?

The elders knew about her training the technique and even studied it extensively.

It was, in fact, the most perfect basic technique one could train.

When Forlevia first arrived, they checked her thoroughly and praised Levi for making sure she had the necessary basic skills.

Her talent wasn't wasted, and she didn't take any detours.

This was a father's love for a daughter.

Levi would support her no matter what she chose.

"Dad, can you not force me into this? I need to think about it," Forlevia said.

"No problem. I'll back you up no matter what you choose!"

Levi patted Forlevia's head.

In the shadows, the elders were all delighted after hearing that.

"Evie's such a good kid. Even though she made up her mind, she told her father she would think about it so it doesn't hurt her father's pride."

"Yes. This kid is trying to be fair! She doesn't want Levi to feel sad! She's definitely a great kid, but she had to have a father like Levi of all things!"

The elders sighed.

To them, Forlevia would definitely prioritize their techniques.

After all, what they taught was timeless.

It would be the strongest regardless of the changing eras.
