Chapter 2241 A Man Of Honor

Donald glared at Levi as he asked, "Levi, are you saying that you want to bear the punishment for Zoey's crimes?"

Levi nodded. "Yes, that's right! As long as my wife lives, I am willing to accept any and all forms of punishment!"

"No!"

Kirin and Sword Fiend disagreed with that arrangement as they wanted to fight their way out.

If we work together, it won't be a problem for us to at least make a temporary escape. These guys aren't going to let Levi go if he surrenders!

Even Cyrus was shocked by Levi's decision at first, but he knew Levi all too well and was quick to understand his intentions.

"Fall back! All of you!" Levi yelled.

Kirin and the others could only step aside as told, but they were ready to jump into action anytime.

Chapter 2242 Stab Himself A Hundred Times

"It's simple, really. We'll have Levi stab himself a hundred times!" Donald continued with a cold sneer.

Everyone gasped in shock when they heard that.

What? Stab himself a hundred times? That's got to be some unimaginable level of pain right there! In fact, Levi might just die from the pain alone! It truly is the ultimate form of torture!

"Given the number of people your wife has killed, a hundred times is considered letting you off easy!" Donald said with a chuckle.

Kirin and the others were about to object to it, but Levi agreed to it before they could do anything.

"Okay, no problem!"

"Everyone else okay with this arrangement? I think he'll survive a hundred stabs!" Donald asked.

"Yeah, sure!"

"No objections here!"

Everyone wanted to prolong Levi's suffering and see if he could withstand the punishment.

The blade was buried completely inside Levi's chest, and blood was spraying everywhere.

It was a gruesome sight to behold, and everyone felt chills down their spines upon seeing that.

Squirt!

The blade had turned from black to green when Levi pulled it out of his chest.

It was a clear sign that the chemicals had already been deposited in his body and were reacting with his blood.

This is it! Levi's officially a goner now! Those special chemicals from Maya Industries are bound to kill him once it enters his body! He can only watch helplessly as his body slowly decomposes each day before finally dying slowly and painfully!

"Hahaha..." Sadistic smiles formed on most of the people's faces when they saw that.

Kirin and the others couldn't even bring themselves to watch as they knew the fate that awaited Levi.

So what if we become stronger? The leader that we keep claiming we'll protect is now suffering such a horrible punishment, and there's nothing we can do about it!

They thought to themselves with frustration and remorse written all over their faces.

Chapter 2244 Personal Grudges

People began chiming in immediately, "Yeah! He has to protect his ego as a former overlord, after all!"

"Exactly! There's no way he'd cry in pain when there are so many people watching!"

"I'm really looking forward to seeing how pathetic Levi will look when his body slowly dissolves into nothingness!"

Everyone began laughing at the thought of Levi dying a slow and agonizing death.

Levi then scanned the crowd around him as he said, "There, I've kept my end of the bargain! Isn't it about time you let my wife go as promised?"

If anyone were to say no, Levi would really get mad and kill them in one slap right then and there.

"Well..."

Although some of them wanted to go against their word, they couldn't bring themselves to say it in front of that many people.

Chapter 2245 Levi Is Perfectly Fine

Everyone was waiting in the shadows as they figured Levi would think they were gone and drop the act.

With a faint smile on his face, Levi sat cross-legged on the floor and let his blood flow freely from his
wounds.

To those who were watching, it looked like Levi couldn't even remain standing and had finally collapsed.

"Do you have any alcohol?" he asked out loud.

Man, I'm really craving a drink after being locked up for three years!

"Yes, here you go!"

Someone stepped forward with some hard liquor, and Levi began chugging it straight from the bottle.

"See? I told you! Levi can't stand it anymore! He's trying to numb the pain by getting himself drunk!"

"Yeah, I knew he was acting tough earlier! He doesn't want us to see him in such a pathetic state!"

Levi's disciples had made up their minds and were determined to save his life even if it cost them everything.

They then began discussing their next mission.

"We can all confirm that a solution has yet to exist for Boss' condition, but we can at least slow down the corrosion process. That'll buy us more time to find a solution for him!" Azure Dragon analyzed the situation rationally.

Everyone else agreed with his plan.

"Yeah, we'll go with that! It isn't difficult to slow down the corrosion process! We'll do that first, and then look for a solution!"

Everyone hiding in the shadows scoffed.

"That's impossible! Maya Industries is the only one that knows what those chemicals are! There's no way they'd be able to come up with an antidote!"

"That won't

"Exactly! Besides, your power is considered to be average in this era, Boss! There's no way you wouldn't survive!"

Everyone began explaining themselves.

"Just let us take care of things, Master! You'll be fine with us around!" Floyd promised.

The look on Levi's face changed upon hearing that. "I want all of you to give me some space! I need some time alone!"

"But, Master..."

They wanted to explain further, but Levi cut them off by yelling loudly, "Leave, damn it! Can't I have some peace and quiet moments around here?"

Seeing as everyone was still standing there hesitantly, Robed Slayer stepped forward and said, "Come on, let's all leave and give Maestro some time to himself. He has already taken the medication, so his condition is stabilized now. His life won't be in any danger for the time being."

Chapter 2248 Plan To Capture Levi

Dark Emperor had reached the power ceiling of that era and was rumored to have destroyed Lab of Gods single-handedly.

Because he had eliminated the strongest force in the era, Dark Emperor was ranked first on Divine Leaderboard.

That was the reason why so many people objected to Levi's statement about everything being Dark Emperor's conspiracy.

In an era where the strong were revered, many viewed Dark Emperor in a near-religious manner and wouldn't allow anyone to badmouth him in the slightest.

However, Levi and Cyrus couldn't care less about Divine Leaderboard and Dark Emperor.

"All right. Do you need me to come with you?" Cyrus asked.

"You should just carry out solitary training and focus on getting stronger!" Levi replied.

Chapter 2249 Take The Bait

As Levi had expected, Dark Emperor came after him, so he didn't need to go searching for him at all.

This way, he would be able to meet Dark Emperor and kill him off.

True hunters would often present themselves as prey, and that was exactly what Levi did.

Dark Emperor saw Levi as prey when he was actually the hunter in this case.

Although everyone seemed to have left, they were actually monitoring Levi's condition in secret and they found themselves impressed by Garrison Industry's drugs.

The fact that those drugs were able to treat such severe injuries became a hot topic all over the world, and even Garrison Industry themselves didn't expect their drugs to be that powerful.

Although Phoenix had given Levi the company's top products, they had never seen such incredible result in all of their experimental data.

Regardless, they decided to go with the assumption that the drugs were highly effective.

However, Sword Fiend and the others refused to give in.

The formerly invincible Levi has given in to the harsh reality, and yet he's still asking us to leave because he doesn't want us to get hurt...

Master is still trying to protect us even in his current state...

With that in mind, Sword Fiend and the others refused to back down.

“No, we’re going to protect you! We won’t let anyone take you away!”

“Yeah, we can’t let that happen!”

The Fiends were staring the Eighteen Dark Angels down fiercely, and the atmosphere was tense as everyone prepared to fight.
