Chapter 2281 Who Did This

“Yes! He’s here to steal the technique book and serums!”

“Yeah! He knows his place in the new era! He knows he’s old news now, but he won’t go down without a fight. He wants to get back to the top, so that’s why he’s here. To take the best technique to power himself up and boost himself as soon as possible.”

“So that’s why you came here? To steal?”

Everyone started scolding Levi, thinking he was here to steal. Even the top brass thought the same thing after listening to the accusers.

Levi was acting strangely, and he was alone in the control room for one hour. Of course, they’d suspect him, and after Edmund told them what he thought Levi was up to, only then did they ‘realize’ what Levi had been doing.

Levi stared at Edmund. “So what? So it’s payback time.”

The moment he said that, tension rose in the air.

However, Edmund's lackeys laughed.

Is he trying to get himself killed? Payback time?

"Well, come get it then. Let's see what you can do," Edmund scoffed. He didn't believe Levi could do anything to him.

Levi was about to teach Edmund a lesson, but Robed Slayer and Mia both held him back.

"Don't!" they pleaded.

Both of them knew they must stop him, for they knew Levi would die if he were to fight Edmund. He would not escape alive as he stood no chance.

Levi stopped talking about it, but Zoey wouldn't let it go. She argued, "Trust me. Master is a nice person. Why won't you believe me. I would have died if Master didn't save me."

Levi was frustrated, so he asked, "Dark Emperor is a woman, isn't she?"

It was shocking that Levi knew Dark Emperor's true identity, so that shut Zoey up for a while. "How did you know that?"

Zoey was in disbelief the moment he said that, and she gawked at Levi.

She didn't believe anything Levi said about Dark Emperor, but now she was shocked. The reason was simple—it was the truth.

Dark Emperor was a woman, and Zoey had seen her face before. Of course, nobody in Sacred Organization knew that.

It was supposed to be top secret, so she wondered how Levi found out about that.

They couldn't believe Levi was still so arrogant. He was only ranked eight thousand something on the Provisional Leaderboard, and that was because the moderators overestimated his power. In reality, he was only around rank ten thousand or so.

Does he think he can fight all of us at once with that kind of power? What a joke?"

Waves of energy rolled and crashed the surrounding place, engulfing everything in its way. Such was the power of Provisional Leaderboard and Divine Leaderboard fighters. Every time they fought, destruction would be left in their wake.

"See that, Levi? This is the true power of a Divine Leaderboard fighter!"

Everyone sneered, but Levi remained rooted to his spot. If nobody knew better, they would have thought Levi was shocked by the sheer amount of power they displayed.

Everyone thought Levi had finally known his place after seeing the new era's true power, so he had given up on retaliating.

It was a magical feeling, at least for Levi's old rivals. They felt like laughing, for they finally made Levi realize the gap between him and them. They finally could see him looking in awe at the strength of the new era.

Let's see if you can keep putting that arrogant act up, you b*stard. You can't, can you?

However, unbeknownst to them, they were less than maggots in Levi's eyes. After all, he could kill the top fighter on the Divine Leaderboard, let alone one that was ranked nine hundred or so.

Chapter 2285 Made Levi Proud

These disciples' arrival scared the wits out of the fighters who came to kill Zoey and Levi.

These are all Levi's disciples? All of them are ranked on the Divine Leaderboard!

All his disciples were either ranked on the Provisional Leaderboard or the Divine Leaderboard. To be honest, they had made Levi proud with their achievements, but Levi wasn't happy with it. No, not one bit.

For that kind of achievement was useless. As long as it was a get-strong-quick method, it was useless even if they topped the leaderboards. After all, his brothers and disciples were serious, hardworking people. And that was the trait cultivators had to have.

If they tried to get strong too fast, that would not turn out well for them. They'd think they worked hard to get stronger, when in reality, it was because their technique and drug were get-strong-quick schemes. But even so, they wouldn't suspect a thing, since they'd think it was the fruit of their own labor.

"They're not the only ones here."

Of course, another group of fighters showed up, and this time, it was Azure Dragon, Kirin, and the others. Even Sword Fiend came to help.

They agreed to meet up on that very day to check up on Levi and come up with a way to neutralize the chemicals in him.

"How so?"

Everyone gathered around Phoenix after she said something was wrong. They were all nervous, thinking that a problem had arisen.

Phoenix's brows furrowed. "Impossible. How did this happen?" she mumbled to herself.

"What happened? Can you just drop the other shoe already?" everyone asked nervously.

"Boss is fine. Perfectly fine. It's like the weapons had no effect on him," Phoenix remarked in surprise.

After she scanned Levi's body, she found nothing wrong with it. He was healthy, and there were no chemicals running rampant within him.

But that's impossible.

"What? How did that happen? That's impossible!"

"Anyone who gets hit by Maya Industries' weapon will get eaten up by its chemicals. Nobody can escape that, not even Dark Emperor. And he's number one on the Divine Leaderboard!"

Chapter 2287 Your Technique Book Is Worthless

All the technique books were the most powerful skill of the Divine Leaderboard fighters. Every single one of them was worth billions. Some would even say they were priceless.

Countless people would kill to have their hands on one. Even if a single one were to show up on an auction, all the people there would pay billions to get one.

But now, a few dozen of those priceless technique books were sitting before Levi. If they included the supplementary books, modern tech, drugs, and divine tools, then Levi had more than a thousand items sitting before him.

Levi's brothers and disciples didn't hold back. They actually gave him everything they had.

"Take these too, boss. It'll save your life when you need it most. Maybe you can power yourself up too."

"Yeah. Sometimes we can't reach you in time, and you'll be in danger."

"Sure. We'll find a way to heal you, Zoey. You'll be up again in no time. And please convince boss to pick one of the techniques to train."

Everyone heaved a sigh of relief. Once Zoey accepted the technique books, they knew Levi would pick one in the end. He just didn't want to embarrass himself in front of them after all.

"Oh yeah. If someone tries to attack you guys again, just tell them our names if we're not around."

"Why don't we leave something behind to prove we know them? I mean, tons of people don't know Levi's my boss. If they know we're their friends, they won't do anything to the boss and Zoey."

Kirin and the others left something that could prove their identity. They were Divine Leaderboard fighters after all, and that meant they had power and prestige. Just the mention of their names struck fear and reverence in everyone.

"Sure. Thank you." Zoey took the items too.

"Great. Now we don't have to worry anymore. Go on with your work, guys. We need to find a way to heal the boss and Zoey."

Chapter 2289 One Punch

Someone challenged Dark Emperor. After the Divine Leaderboard's update, Dark Emperor was still number one. To top that off, Dark Emperor's prestige was nigh unassailable because of what Levi did in Adrune.

Even so, some fighters still couldn't hold their pride in. They thought the leaderboard was biased, so they wanted to challenge Dark Emperor. They wanted to top the leaderboards, after all.

There were four challengers this time, and they were, in Divine Leaderboard terms, number nine, number seven, number five, and number four.

They came to Sacred Organization and issued a challenge. Unbeknownst to them, Dark Emperor's true identity was Levi.

Left with no choice, Death Fiend told Levi about the challenge, asking if he would accept it.

"Good. Accept their challenge and tell the world they can come right at me if they want to fight," Levi said.

"I understand."

A short while after that, Sacred Organization released a statement under Dark Emperor's name, telling everyone who wanted to challenge Dark Emperor to come to Sacred Organization after three days.

Everyone else agreed, "Yeah. He doesn't care about these, but we can't let them go to waste!"

Every single thing in that heap was garbage to Levi, but the families thought it was priceless. They saw it as divine providence, for every single one of them was top tier.

Everyone's eyes gleamed the moment they saw the items since all of them were the new era's treasure. Of course, they'd go crazy over them.

"And besides, we're family. Whatever is his is ours too, so it's still the same."

"Yeah, that idiot doesn't want these even though they're top tier, but that doesn't mean we'll let them go to waste."

Everyone mocked Levi as they split the items among themselves.

"Zoey, you want him to practice these techniques, right? Why don't you let us have it, and we'll start training right away? He'll see how powerful these things really are once we get stronger, and I bet he'll start training too."
