

Pinnacle 2291

Chapter 2291 A Dull Fight

The world's most anticipated fight was about to begin.

Upon the revelation of the twenty fighters, the world was stumped, seeing as the world had never witnessed such a powerful alliance.

Nobody had expected that so many fighters would vie for the first place on the Divine Leaderboard.

However, their eagerness was understandable seeing as the fast track to gain fame would be to challenge the pinnacle of power of the era.

However, there were four figures who garnered the most attention among the fighters.

Those four were the Progenitor at number nine, Exterminator at number seven, Kaiser the Dark Overlord at number five, and finally Savage Lord from Maya Industries who ranked number four on the Divine Leaderboard respectively.

After all, they were already famous to begin with, and they were already ranked quite high up on the Divine Leaderboard.

The other fighters who were vying for the top spot were formidable fighters too, but they were not as renowned as the four.

Hence, all eyes were focused on the four.

The battle was set to be held somewhere in Adrune...

Truckloads of spectators poured into the battle arena just to witness the battle of the century.

Dark Emperor made an appearance under everyone's scrutinizing gaze.

"Battle me all at once. I don't have the time to deal with this nonsense!" Levi ordered.

He scanned the battle arena, and there was no one in sight who could rival Dark Emperor.

Before the Dark Emperor, everyone was equal, and nobody could go past a single punch.
It did not matter how one was ranked on the Divine Leaderboard.
"Hah! Nobody here is worth my time and effort. You guys are just worthless pieces of junk!" Levi spat
before turning around to leave.
It was apparent that the man was very disappointed.
He had expected better from the fighters.
I thought there's nothing they can't do? What a bunch of idiots. What a freaking waste of my time.
However, the world was in a frenzy.
It suddenly dawned on them that the person ranked first on the Divine Leaderboard was leaps and
bounds ahead of the rest.
It would not be an understatement to say that the person who ranked first on the Divine Leaderboard
was an entirely different existence than the rest.

Maybe the gap for fighters ranking second and third was smaller, but it was not a matter of significance.

One thing was for sure, though. The Dark Emperor was a formidable presence, and fundamentally different from the rest.

Chapter 2293 Not The Brightest

"I thought about challenging the top spot as well, seeing as I ranked number eight on the Divine Leaderboard. But it looks like I'm going to have to throw the idea to the back of my mind. The credibility of the ranking on the Divine Leaderboard is indisputable.

“The battle today was definitely a testament to the credibility of the rankings. I had assumed that The Cardinal Hall General would be on the same level as me seeing as our ranking was not far from each other. However, now I think that he might be much more ahead of me.

“One thing was for sure, though. Dark Emperor’s abilities were surely out of our leagues!”

Tyrone, Kenny, and the others gasped upon hearing Donald.

“Is Dark Emperor really that scary. though? It’s like he’s leaps and bounds ahead of others on the Divine Leaderboard.”

All colors drained from Tyrone’s face upon the realization.

“What ludicrous things have we not witnessed before? Have you guys forgotten all about the chap who broke the Skyward Sword with just two fingers?”

“As far as I know, Terra Blade, which is considered on par with Skyward Sword, is in the hands of Dark Emperor. Isn’t it obvious who is more advantaged right now?”

An epiphany struck them after Donald reminded them.

Emperor really might not

that one day I can challenge Dark Emperor! However, I’d like to divulge that actually among the Garrisons, Dark Emperor is not the strongest. Well, the

Garrisons are

Chapter 2294 Zoey Versus Levi

Zoey looked excitedly at Levi.

The man seemed unfazed. "No problem."

"Great. Let's start training now and see whoever will make it higher on the leaderboard then! You're ranked eight thousand six hundred and fiftieth on the Provisional Leaderboard right now while I'm not fully recovered yet."

Zoey was motivated after Levi agreed to her proposal.

She wanted to use three months' time to prove it to Levi that the world was a survival-of-the-fittest game.

Zoey wanted to drive home the point that the basic techniques in the technique book were not enough for him to survive in the world.

Not only was she aiming for a full recovery in this three-month time, but Zoey was also striving to become much stronger than she was before.

She figured that three months would be enough for her to make it to the top thirty of the Divine Leaderboard.

Zoey forecasted that Levi would still be ranked about eight thousandths on the Provisional Leaderboard. Maybe his ranking is even going to deteriorate to over nine thousandths...

After all, a slow improvement was akin to a decline in the fast-paced era.

Levi would not be able to advance much if he kept up with his basic training technique.

Hence, Zoey reckoned that he would not be able to even keep his ranking of 8000 over in the Provisional Leaderboard, and was even at risk of getting kicked out of the leaderboard.

being said, Zoey was hoping to use

Chapter 2295 All Destroyed

At Garrison Industry's headquarters.

Mia and her assistants walked out with four locked briefcases which contained the latest drugs the research team of Garrison Industry had produced for Levi.

As only the most expensive herbs and resources were used, the drug was extremely expensive.

Without wasting any resources, they managed to produce that batch of drugs.

To Phoenix and the rest, the drug was the only way Levi got to prolong his lifespan.

He must take it every day!

It would take at least fifteen days before a new batch of drugs could be produced.

Even if the research team hastened their speed, it would also take them over ten days.

Thus, they had to keep producing the drug.

They did their very best to continue producing it every day.

After Mia and the rest received the newest batch of drugs, they went to Levi without hesitation.

Not long after they left Garrison Industry, a bunch of men appeared in sight and surrounded Mia and the others.

“Give me the briefcases. You can leave if you do so!” the leader commanded.

give the briefcases to you!”

White Tiger’s question made everyone break into a cold sweat.

No one was sure of the appropriate answer to his question.

Phoenix parted her lips to explain. “We used the drug to suppress the effects for weeks. I believe the chemical had invaded every inch of his body! Once it strikes, Levi might lose his life. It’s a deadly substance.”

Her professional explanation caused everyone’s expression to darken further.

That could only mean one thing—Levi would most probably die without the drug!

It was not a development that anyone wished to see.

This time, it was for real.

Though Levi could control the situation and escape death countless times in the past, in this era, no one could survive after being attacked by Maya Industries’ weapon.

Chapter 2297 No Hope For Levi

Donald merely smiled. “No, I won’t give him a chance. What if he makes it past the nine days? I shall make sure he loses all hope. I want him to wallow in despair!”

A vicious glint appeared in Donald’s eyes.

Realizing what he meant, Tyrone blurted out, "Do you mean you'll stop them from producing the drugs by cutting off their resources?"

"Yes, you're right!" Donald nodded.

Tyrone remained doubtful. "But I don't think we can interfere in Garrison Industry's business, especially when Phoenix and the others are council members."

"Do they have more authority than Edmund, The Cardinal Hall General? Besides, they didn't inform him that they used the highest security lab!" sneered Donald.

Tyrone was confused. "But there's no way we can control Edmund. Will he even listen to us?"

Without warning, Donald burst out laughing.

Levi. He couldn't understand why they were acting

Chapter 2298 Used Only In Emergency Situations

Alas, the chemical would definitely take effect, and there was an eighty percent possibility that it would cause a serious effect.

Besides, the possibility of it being lethal was fifty percent.

Thus, Azure Dragon and the rest were merely trying their luck.

Hopefully, Levi was lucky enough to make it through the nine days and wait for Phoenix to develop the new batch of drugs.

Levi grinned. "Don't worry. I'm fine. Phoenix must be busy right now. If there's nothing else, I shall go take a nap now. You should leave, too!"

Levi then spun on his heels to leave.

"No, boss!" Kirin yelled. "Azure Dragon, I just figured out a way to stop the chemical from taking effect!"

"What is it?" Azure Dragon demanded.

"Freeze boss' body for nine days! We can get the latest equipment and make sure he freezes in a sleeping pod so his body will rest for nine days. We can open the sleeping pod nine days later and feed him the drug!" Kirin revealed excitedly.

"Oh, that works. Let's do that now! Why didn't I think of that?" Azure Dragon was so delighted he nearly burst into tears.

He raised his voice.

Black Tortoise and White Tiger jumped in fright, but they dared not utter a word.

We’re doomed.

After all, using this lab was against Garrison Industry’s rules!

“Sir, it wasn’t our fault. It was Phoenix and Azure Dragon who forcefully activated the lab! They warned us to keep it a secret.”

“Yes, Sir. We’re so afraid of them and dared not inform you.”

The lab assistants immediately complained.

Edmund barked, “Nonsense! Garrison Industry belongs to Erudia and everyone. It isn’t a private entity. Open the door now!”

assistants hesitated, for White Dragon and Black Tortoise were standing guard

They had lost all hope!

Thud!

Phoenix's legs turned wobbly as she fell to the ground in dejection, her gaze devoid of emotion.

White Tiger and Black Tortoise tried to plea for help, but Edmund rejected them sternly. "It's not up for discussion. I won't save Levi, let alone allow you to use any resources from Garrison Industry."

He turned and ordered, "Men, keep an eye on them at all times. Report back to me about their whereabouts!"

Edmund then left in a huff.

Actually, he didn't mind whether Levi would die or survive.

He could also allow Phoenix to use Garrison Industry's resources to save Levi.

The one thing he couldn't accept was that they were bold enough to use the lab to save Levi, a useless man who was about to die soon.

They regarded Levi as their boss even though he was no longer capable as before.
