Chapter 2321 Maya Industries

Only the harsh truth would wake someone up from his dream.

Zoey wanted Levi to realize the huge gap between their strength!

He would have to be forced to a corner to face the harsh reality before he'd make up his mind to work hard and train accordingly to the technique book left by his disciple.

Otherwise, advising or mocking him wouldn't work.

A person with exceptional ability might end up helpless in the face of a minor problem.

Now that Levi was a Provisional Leaderboard fighter, he could solve most problems himself.

Besides, his comrades and disciples who were Divine Leaderboard fighters kept him safe along with his daughter, Forlevia, who was also a formidable fighter.

He wouldn't run into any trouble for now.

Thus, he could afford to remain conservative instead of figuring ways to improve his strength.

Only the cruel truth and desperation would force him to improve.

A month later, Zoey would let him know his place and stop his comrades from protecting him.

Chapter 2322 Lose All Hope

It wasn't just them, for various forces and fighters around the world were alarmed as well.

Those in solitary training immediately exited their training.

It was because Maya Industries had released news that they would be launching a tournament challenge.

The tournament challenge was meant for fighters who were stuck. They would get to improve their combat prowess here.

Indeed, Maya Industries' previous tournament challenge had helped a lot of people to improve their strength.

Even Azure Dragon and the others had participated in the tournament challenge held by Maya Industries previously.

The tournament challenge was difficult, and the participants were likely to lose their lives, but those who survived would get considerably stronger.

After all, the fastest way to improve oneself was to take part in an actual battle.

Now that everyone had gained their strength from crash courses, after a few rounds of challenges, their strength improved remarkably.

Most importantly, Maya Industries' tournament challenge was well made.

They utilized the latest technologies to create all sorts of challenges—increasing one's defense skills, attack skills, both defense and attack skills, and even assassination skills.

Chapter 2323 One Third Of The Forces Quit

Levi would only realize how weak and helpless he was when forced into a corner.
His strength wasn't enough to ensure his survival, let alone protect someone else.
After Levi realized he wasn't strong enough, he'd give up on the past and accept the new stuff from the
new era to improve his strength swiftly.
Thus, Zoey immediately gathered them for a discussion after the news of the challenge was released.
Everyone decided that it was a great plan.
They would have to bring Levi along to the tournament challenge.
"You have to go! You don't have a choice. Evie's coming along, too. Are you sure about your decision not
to go?" Zoey exclaimed.
Actually, Levi planned to find out what Maya Industries' real plan was.
The best way was to sneak in and make himself a target to find out the truth.

Chapter 2324 The Cruel Tournament Challenge

"This time, though almost one-third of the challengers pulled out, there are still around twenty thousand challengers left."

"That's good news to us. The more people back out, the more difficult and interesting the challenge would be. It will only benefit our training!"

"Yes, of course! When we run into an obstacle, and with fewer challengers present, the difficulty level will definitely increase!"

Shortly after, they received news that all fighters in Archulea wouldn't be taking part in the tournament challenge.

Everyone was puzzled.

After Archulea discovered the material in the sea, the world got to know that there were many fighters in that country.

But why did they refuse to take part in the challenge?

No one knew that it was all Levi's doing.

On the way to the venue, Levi found out about the rules of the tournament challenge.

Maya Industries wouldn't offer any help to

Chapter 2325 I Might Not Have Time To Save Everyone

Soon, another group of men arrived and promptly came over to greet Levi.

It turned out that they were Mace and the other Divine Leaderboard fighters from Triple Group.

They were here for the experience, too.

Though the sight of Levi scared them senseless, they still came over to greet him.

No one suspected the relationship between Triple Group and Levi.

“Oh, right. Ms. Sammy Leinheim has a message for you. She has made the preparations and will keep an eye on Maya Industries at all times. This is the microchip for you to contact her.”

Mace handed the microchip that Sammy gave him to Levi carefully out of everyone’s sight.

Levi was clueless about Maya Industries’ real goal, so he needed someone to keep an eye outside after he entered the indigenous forest.

Of course he’d use the Sacred Organization to monitor Maya Industries.

However, he also needed a spy inside Maya Industries.

best spy was none other

Chapter 2326 How Adorable

“No! We need to go our separate ways so we can grow swiftly.”

Turning to her parents, Zoey ordered, "Dad, Mom, you need to separate, too. From my previous experience, this is the fastest way to increase one's strength!"

Her words received approving nods from Azure Dragon and the rest.

"Yes, only those who had the experience would know that the best way to gain more experience was to complete the tournament challenge alone! But if anyone lands in trouble, he or she can send a distress signal. Anyone who is nearby can offer help," Azure Dragon suggested.

Everyone agreed to go separate ways.

"I disagree. It's too dangerous for everyone to complete the challenge alone. I might not have enough time to save everyone!" Levi shook his head firmly.

Right then, Shaun and the rest burst out laughing.

"Levi, oh Levi. You're scared witless, right? You want us to stay with you and protect you, right?"

"Look at you. Are you capable enough to protect us? You're obviously scared!"

wanted him to feel helpless that he wasn't strong enough to defeat the enemy

Chapter 2327 Killing Spree

This time, everyone realized it was different from the past tournament challenge.

Back then, they could pick whichever challenge that they fancy to increase their own strengths.

This time, everything was random.

It didn't matter what challenge one picked, for one would still encounter the same challenge and threats as everyone else.

The weaker individuals might run into the same threats as the stronger individuals.

Thus, the challenge was completely random.

Everyone had the same chances of running into danger.

It actually made sense, for there was no way Maya Industries could control every single detail when they were in an enormous indigenous forest.

The elite fighters didn't mind, for they were here to experience dangerous situations. The more dangerous, the better!

However, the weaker individuals might not step out of the indigenous forest alive.

That was a cruel fact.

It wasn't Levi's own feelings, for everyone who entered the indigenous forest sensed the same thing.

from the past ones! Levi thought as

Chapter 2328 No Idea How Strong Your Husband Is

There were too many fighters.
Even if Levi was forced into a corner, he might lose his life in a split second.
Refusing to let a tragedy happen, they made their way there once they heard the commotion.
Right now, Levi was on a killing spree.
He wasn’t about to let his enemies off easily!
The men were stunned.
They didn’t even get a chance to plead for mercy, for Levi was too swift.
Of course, Levi made sure there were no surveillance camera or outsiders nearby before he unleashed his actual strength.
Thump!
The last person collapsed, and all eight hundred fighters ceased breathing.
Not even a single person survived the ordeal.

Chapter 2329 The Monsters Are Back

"Of course! He's my husband, so I know the extent of his capability. He's slightly stronger than the man he was three years ago, but that only means he's ranked around six thousandths on the Provisional Leaderboard!" Zoey uttered.

Before Mace could reveal that Levi had killed the bodies lying haphazardly on the ground, Zoey pleaded, "Please!"

"All right, then." Mace caved in, for he was in a hurry to inform Levi about what they had encountered earlier.

When Zoey headed back, she noticed how relaxed Levi was. Clearly, the previous fight hadn't force him into a corner.

It was all Mace's fault!

"Come on, everyone. Let's go our separate ways!" she declared.

"Ms. Lopez, I have to talk to Mr. Garrison. I shall leave after that!"

After Zoey and the rest left, Mace inched nearer to Levi and reported, "Mr. Garrison, we met the mutated zombies..."

“I was right! But the mutated zombies must be under Maya Industries’ control, right?” he asked.

Mace answered, “I’m not sure, but the mutated zombies were wearing armors and helmets. If we didn’t know about their existence beforehand, we wouldn’t have noticed them!”

Chapter 2330 Stay Put

Almost every fighter who entered the indigenous forest found themselves battling against the mutated zombies.

This time, Maya Industries’ tournament challenge was to leave the fighters in the indigenous forest to fight against the mutated zombies!

The Divine Leaderboard fighters were delighted at first, but when they finally fought against the mutated zombies, they immediately realized something was wrong.

The armored zombies were too strong to defeat!

Many fighters ended up battered after the fight.

Even top fighters like Zoey and Floyd would be injured if they got surrounded by the mutated zombies.

As a result, everyone was stuck as they were caught unaware by the unexpected challenge.

They were no match for their enemies!

One's strength would definitely increase considerably if one could fight one's way out.

However, everyone sensed that something was off.

The current tournament challenge looked different, for it seemed like a set-up!

They couldn't help but wonder where Maya Industries got their hands on the armored fighters that rendered the Divine Leaderboard fighters helpless.
