Chapter 2331 Saved Boss Again

Levi's face broke into an all-too-familiar cocky grin. "No problem! I can take the hits!"

In fact, Levi had become so powerful that he could destroy anything in his path with just one punch.

Throughout his training to master ultimate speed and strength, he had also built an indestructible body to withstand the force of his attacks.

As such, Levi truly believed that nothing in the world could hurt him.

If divine tools like the Skyward Sword or Terra Blade couldn't even pierce through his defenses, what was there to worry about a few pathetic punches?

With that, Levi instinctively fought the mutated zombies as they swarmed toward him.

Alas, that only made them retaliate even more.

They continuously landed critical hits on Levi, threatening to tear him apart.

"Oh, come on! Are you guys done yet? I'm getting impatient!" Levi grumbled.

To him, the attack from the mutated zombies was more annoying than anything else. Not only did it not deal any damage, but it also barely felt like a tickle.

His patience was running thin, and he couldn't wait to shred them all to pieces.

Chapter 2332 I Am Going Alone

Levi knew that it was even harder to clear things up now.
They had witnessed how he almost got torn to pieces by the mutated zombies and would naturally think that he was too weak to fight back.
It’s all Death Fiend’s fault! If he had resolved the issue earlier, I would’ve easily destroyed those monsters with one hit. Why the hell would I need to be rescued?
Try as he might, Levi couldn’t hide the frustration on his face.
If Death Fiend and the others were in front of him, he’d have kicked them without any hesitation.
Unfortunately, when everyone else saw how glum Levi was, they had a different interpretation for it.
They thought Levi was upset for not being strong enough to defend himself and that he could only resign to fate in life-threatening situations.
After all, Levi used to be the all-mighty hero and savior of the world.
But now, he couldn’t even protect himself in times of danger, no matter how hard he tried.
In the end, he even had to suffer the humiliation of being rescued by others.
However, everyone knew it was only in the face of adversity that people could learn the sobering truth of their abilities.

Chapter 2333 I Will Prove It To You

When they heard Levi's proclamation, everyone turned to stare at him in confusion.

It was baffling to hear him insisting on acting alone, especially when he had barely escaped the jaws of death earlier.

For a moment, no one could tell if Levi had lost his mind or if he still hadn't realized how weak he was.

Then again, how was that possible?

After the way the mutated zombies had almost shredded him to pieces, how could Levi not realize how defenseless he was against them?

Unbeknownst to them, Levi had better things to do rather than tag along with them.

"No way! You've already recognized and accepted your weaknesses, so there's no longer a need to act alone! It'd be too dangerous without us around!"

Zoey turned her gaze toward the others and commanded, "Follow my orders! From now on, we'll split up into teams! I'll start the ball rolling together with Phoenix and Venom Fiend. We'll gather back in six hours, but until then, the rest of you are free to roam around and train. All right, let's go!"

With that, Zoey, Phoenix, and Venom Fiend became the first team to escort and protect Levi.

The others, too, split themselves into evenly matched teams of three before setting off to begin their respective training.

Levi smirked when he saw the monsters charging toward him.

They're nothing but a bunch of losers!

"Are you guys finally done?" Levi mumbled into his communication device. "Can I go on a killing spree now?"

"No, not yet! Give us a little more time! Maya Industries is tougher than we had thought!" Death Fiend replied glumly.

Levi felt like he was about to explode with rage.

Compared to Phoenix and West Sky Lord, Death Fiend was a useless imbecile.

So much time has passed, but he still hasn't fixed it! F*ck!

As long as Death Fiend hadn't disabled the device, Levi's hands were tied.

He couldn't risk exposing himself to Maya Industries, so even though he hated being so powerless, Levi had no choice but to lay low.

Just as Levi continued to curse under his breath, the mutated zombies closed in on him.

After all, they couldn't resist the temptation of flesh and blood.

However, nothing changed the fact that Maya Industries intended to kill Levi.

They hadn't acted sooner because they had expected the chemicals to take effect when Levi got stabbed.

Now that the newly discovered material had cured him, Maya Industries would have to double their efforts to get rid of him.

Meanwhile, Kirin's team went into hiding with Levi after successfully escaping the horde of zombies.

When he saw the blood on them, Levi asked, "Are all of you injured?"

"Yes, but it's nothing serious! Don't worry about it," Kirin replied without batting an eye.

"Of course, we can always choose to carry on avoiding and hiding. After all, Divine Leaderboard fighters still have the upper hand in this indigenous forest, and we can very easily dodge all these monsters!" Kinsley chimed in.

Ghost Fiend nodded in agreement and added, "Yes, but since we're here to gain experience, there'd still be times where we have to think of ways to defeat them instead of running away. Sustaining a few injuries is no big deal at all!"

Especially since Ghost Fiend had perfected his technique, it made even more sense for him to use it on the monsters than to avoid them.

Chapter 2336 A Golden Opportunity

Unfortunately, Levi and his team weren't the only ones subjected to the sudden monster attack.

Hundreds, even thousands, of mutated zombies showed up in front of other fighters, including Zoey, Floyd, and Azure Dragon.

When everyone got surrounded previously, there were at most hundreds of zombies.

This time around, however, they were separated and had to face these monsters alone.

In just a blink of an eye, the mutated zombies had once again surrounded them.

"This is bad! Be careful, everyone!" Azure Dragon shouted.

"I'm sure Boss is also in danger! There are just too many monsters for Kirin, Ghost Fiend, and Kinsley to handle! Let's slowly move toward Boss and gather there. After all, we have strength in numbers!"

Everyone agreed with Azure Dragon, but alas, things were easier said than done.

With hundreds of mutated zombies closing in on each of them, they were in a great deal of danger themselves.

What made matters worse was that these zombies were nothing like those they had met in Triple Group's fortress.

Those in Triple Group were like wild beasts that lacked any form of critical thinking and organizational behavior.

"Find him! Use whatever means necessary to find him! Levi Garrison must die! I have put up with him for far too long, and enough is enough!"

The high-rank official who had just given the order undoubtedly felt a deep-seated animosity toward Levi.

He was more than just someone familiar with Levi.

He was Levi's old nemesis.

All eyes were on the screens onboard the battleship as images and data continued to stream in.

One of the subordinates couldn't hide his excitement and exclaimed, "Hahaha! We've successfully forced Kirin, Floyd, and Zoey to unleash their ultimate moves. Good, capture all the data! With this information, we'd no longer need the fighters. We're killing two birds with one stone!"

Chapter 2338 The Real Intention Of Maya Industries

Ten minutes later, the results came in.

“Maya Industries is collecting data! Everyone who took part in the tournament challenge has had their data collected! It includes their techniques, ultimate moves, and any other skills they have used on the monsters...” Sammy said.

“In other words, Maya Industries intends to collect all the information and combat prowess of every fighter, especially their techniques and attacking skills...”

Upon hearing that, everything fell into place for Levi.

Maya Industries was exploiting the human psychology of those in the tournament challenge.

Most of the fighters wouldn’t run in the face of the mutated zombies, choosing instead to take the offensive.

Alas, that was just what Maya Industries needed to gather data on everyone’s attack techniques.

With two-thirds of fighters from the Divine and Provisional Leaderboards revealing all their techniques, Maya Industries essentially had gained control of them.

As for what they’d do with the data, Levi had it all figured out.

They are going to upgrade the attacking skills of the mutated zombies! No doubt about that!

Those mutated zombies already had such strong defense that not even the Divine Leaderboard elites could kill them.

The one thing they were missing was attacking skills, and because of that, they never really posed much of a threat to the fighters.

Chapter 2339 No Need To Hold Back

They had been fighting against these horrifying monsters all this while.

Nonetheless, they could not even kill any of the monsters, although they had unleashed their mightiest power and employed every method.

Even after Azure Dragon and White Tiger joined forces with a few others from the Divine Leaderboard, they could do nothing to finish off the monsters.

If those fighters who ranked the top thirties or forties in the Divine Leaderboard could not finish off any monsters, how was it possible for anyone else to do that? It was impossible!

Thousands of fighters were stupefied. Everyone had the same stance, regardless of their rankings in the Divine Leaderboard.

How was it possible that anyone could finish off such terrifying monsters in armors? They seemed invincible!

Even so, they saw the lifeless bodies of two mutated monsters with their own eyes! It was true as Bob! Undeniably, someone had indeed finished them off.

“Who had done that? Doesn’t it mean that there is an ultimate fighter among us who can finish this freaky monster off?” Someone pointed out a scary fact.

Nevertheless, even all the fighters from the top twenties of the Divine Leaderboard were sure as h*ll that they were unable to defeat these monsters!

Again, it sent another wave of turbulence in the training base of Maya Industries. The high-rank officials turned crimson with fury.

“My goodness! Who has been hiding among the fighters? We don’t even have any clue about that! What is his motive?” one of the high-rank officials of Maya Industries fumed.

“Gear up to track down this person! Just leave Levi alone for the time being!” another official instructed.

Meanwhile, Levi continued to finish off the mutated zombies he came across. Deep down, he wished to wipe out all of them, hoping that Zoey and the others would not bump into any. As long as they don't encounter any mutated zombies and fight against them, their combat prowess will not be collected and analyzed. By then, Maya Industries' ploy will be a failure.

If Levi did not have any clue about that, he would surely pay no heed to any of Maya Industries' projects. Nevertheless, he could not let it be after knowing their hidden motive behind the tournament challenge.

After almost half a day of searching painstakingly for Levi, Zoey and the others finally spotted him near a swamp in the forests.

He had just annihilated a few more mutated zombies. Their lifeless bodies collapsed and sank deeper into the swamp as time elapsed.
