Chapter 2341 They Are Not Weak

She did not even think of sparing any seconds listening to his explanation. Without a second thought, she rejected right away! No! I can't quit now and let go of this golden opportunity!

Floyd, Kinsley, and the rest echoed, "Master, if it's regarding other matters, we will follow your instructions without a word. But we have waited for this golden opportunity for three years! Therefore, we can't just let go of it and give up halfway! Master, we have the same stance with Mrs. Garrison on this. We will not quit easily and retreat!"

Even though Sword Fiend, Kirin, and the others remained silent, they shared the same sentiments as Zoey as well.

Meanwhile, the Lopez and Black families were buoyed with confidence after their combat skills had upgraded significantly during the recent battle. Needless to say, they were reluctant to quit and retreat, turning a deaf ear to Levi's advice. They would not go with the tide without trying out themselves.

Everyone was aware of the life-and-death challenges ahead. Nonetheless, the chances of having tremendous self-development and improvement were irresistible.

Even though they had only fought against the mutated zombies for barely half a day, their combat skills improved by leaps and bounds. It was even more efficient than training painstakingly for a few months! No doubt, they would not easily let go of such a golden opportunity.

“Levi, don’t you know about your own capability? What makes you think that these monsters’ attacking skills have to be upgraded?” someone mocked.

“What nonsense! I can’t believe these words came out of your mouth!” another fighter sneered.

All of a sudden, Jennie yelled, “Ah! I think I got it!”

“What’s that?” All the others turned to look at her quizzically.

“I’m sure he is scared stiff now! That’s why he’s instructing everyone to quit and retreat! Try to recall how you were surrounded by hundreds of monsters moments ago. Imagine Levi, Kirin, and the others were under a more crucial state just now. They were even surrounded by thousands of them! I bet the horrendous scene must have scared the h*ll out of him! Hence, I’m not surprised that he’s thinking of retreating now.”

Everyone nodded again as they felt that Jennie’s explanation really made sense.

In their eyes, a panic-stricken Levi must be giving such an absurd excuse so he could flee at once!

“Then have you ever wondered why Maya Industries is organizing this tournament challenge?” Levi refuted by asking them.

Chapter 2343 Fear That Surges From Within Their Souls

The most effective method is by resolving the problem from the root cause! With that, Levi planned to step out and wipe out all the mutated zombies.

I won't let go of a single one of them, so Zoey and the others won't bump into any of them. Hmph! By then, Maya Industries won't be able to gather their data!

To wipe out the mutated zombies entirely was a challenge.

If he happened to annihilate too many of them within a short span, Death Fiend and Sammy might not be able to match his pace. Subsequently, his unrivaled power emanated while annihilating the mutated zombies would surely be detected by Maya Industries.

If that is the case... Levi took out a black mask slowly as something came into his mind.

It turned out to be Dark Emperor's half-angelic and half-demon mask!

By putting on the mask, his identity would be protected. At the sight of the iconic mask, everyone would surely think that he was Dark Emperor.

With that, Levi would be able to wipe out the mutated zombies by unleashing his formidable prowess.

Even Maya Industries would assume that Dark Emperor was the one causing trouble for them. Not to mention, Dark Emperor had both the ability and motive to do that. It would never lead them into suspecting that Levi could be the one behind it all.

In the meantime, the undercover among the fighters had just updated the high-rank officials of Maya Industries about Levi's current location.

There were a lot of experienced fighters around, amounting to a few hundred or a thousand of them.

Everyone was covered in injuries. After battling with those mutated zombies, they barely managed to
escape the brink of death.

Initially, they thought that they would be able to rest after evading the mutated zombies.

However, almost a thousand mutated zombies rushed toward them.

Although they expected the mutated zombies to be targeting them, it seemed like those zombies were
fearing something else instead.

They escaped frantically and ran past the fighters, ignoring their presence completely.

The fighters were on the verge of a mental breakdown.

Do those monsters not deem us worthy enough to be their opponents? Weren't they dying to tear us
apart when they saw us earlier? What's going on now?

Watching as the mutated zombies screamed pathetically and fled, everyone found it hard to imagine
what exactly had scared them so much.

How is it possible?

Chapter 2345 Where Is The Problem

We found him! We finally know who is capable enough to kill the mutated zombies! It's the Dark Emperor, ranked number one in the Divine Leaderboard.

Everyone was guessing that the person capable enough to kill the mutated zombies must be someone ranked highly in the Divine Leaderboard.

In fact, some speculated that those ranked in the top few could not even do it.

Only the legendary Dark Emperor could accomplish such a feat.

Yet, no one managed to guess the person's true identity.

Everyone understood how powerful one must be to be ranked at the top of the Divine Leaderboard.

It was none other than the Dark Emperor, who had just unleashed his fury recently.

The Dark Emperor had always been ranked first in the Divine Leaderboard.

All the forces had been investigating how powerful she actually was.

According to previous analyses, Dark Emperor was not significantly more powerful than the second and third-ranked fighter in the Divine Leaderboard.

Hence, the person ranked first in the Divine Leaderboard was definitely not an overlord capable of defeating the rest.

In other words, anyone could easily challenge and threaten his position.

However, recently, Dark Emperor had created a huge impact that had taken all of Adrune by shock.

Everyone in Maya Industries was puzzled, feeling like there was something wrong.

The reason was because Dark Emperor was now Levi.

However, no one knew about his true identity.

They did not even know who Dark Emperor used to be, let alone his identity now.

After all, Dark Emperor always wore a unique mask.

Meanwhile, Levi was still chasing after the two hundred mutated zombies and fighting them.

In the end, the mutated zombies had all collapsed.

Levi started searching for the mutated zombies elsewhere.

Found them!

He could sense a huge group of them, probably amounting to more than a thousand.

They were the group which he had just scared off.

However, the mutated zombies were now engaged in a battle with the elites.

After Levi scared them off, the mutated zombies escaped in a particular direction.

To their surprise, a hundred fighters appeared in front of them and blocked their path.

Initially, they were in no mood to fight and only wanted to escape as soon as possible.

Zoey did not want to die.

She was already slowly recovering at that point.

With a child, a husband, and a family, she did not want to die.

Despite being in such a dire situation, she was still concerned about Levi, who was hiding in the swamp.

She did not want to die, but she was left with no choice.

The mutated zombies kept surging toward them, their attacks becoming increasingly frantic.

They were even stronger than the previous ones!

It was impossible for Zoey and the rest to break through the mutated zombies' ranks.

They had no choice but to risk their lives.

At the most critical moment, a commotion broke out in the army of mutated zombies.

The mutated zombies in the southwest direction seemed to have suffered an attack. They fled in all directions...

However, more mutated zombies blocked their way.

Disorderly chaos broke out amongst them.

Everyone stopped and glanced in the southwest direction, wishing to know what was going on.

“He’ll be much stronger than me. Not only is he more gifted than me, but he also has so much more experience.”

Zoey acknowledged how capable Levi was in those aspects.

Azure Dragon and the rest nodded. “At the very least, he’ll be in the top ten of the Divine Leaderboard. In fact, he might go all the way to being ranked second! If his potential has no limits, he might be on par with Dark Emperor one day.”

“He’ll most likely be ranked second in the Divine Leaderboard. In the future, he might even surpass his own master. He didn’t treasure this precious opportunity!”

“Yeah! I heard him say that Dark Emperor would exploit him or something... But isn’t Zoey doing just fine?”

“Perhaps, Boss is not fated to rise to glory in this lifetime. That’s why he couldn’t get Dark Emperor to become his master.”

Everyone discussed eagerly.

“Yeah, he’s not fated to become Master’s disciple. All the good luck has come to me!”

Zoey laughed.

Everyone in the world wished to be Dark Emperor’s disciple now.

No one could reject this opportunity.

Even if Floyd and the rest did not desire that, they still wished that their master, Levi, could progress quicker and teach them more things.

While everyone chattered away, Levi had already killed more than a hundred mutated zombies.

While everyone lamented the past, Levi went all out and slew several more mutated zombies.

The number of mutated zombies depleted rapidly, decreasing by five hundred at a time.

It was horrific.

The mutated zombies were dropping like flies in front of Levi.

It did not look like they even had a chance.

Levi would just tear through them no matter how many popped up.

"What do we do now?"

The higher-ups from Maya Industries were all terrified seeing Levi solo-killing everything.

It was complete chaos.

Everyone was going mad, feeling at a loss because they did not know what to do.

Most of the information they received was death counts instead of battle data, and the numbers were by the hundreds each time.

Chapter 2350 The Biggest Obstacle For Maya Industries

At that moment, everyone’s attention was on Levi.

Their bodies trembled as they awaited Dark Emperor’s answer as it was a huge deal.

Being accepted as Dark Emperor's disciple would drastically improve one's quality of life, and completely change their life.

It would skyrocket them to the top of the world, giving them the chance to rule the world.

All of that from a nod from Dark Emperor.

Everyone waited.

It was a chance of a lifetime for anyone.

Azure Dragon and the lot would have asked to become one if it were not for their pride and the fact that they knew it was impossible.

"Take Levi in as my disciple?" Levi smiled.

"Yes, Master. Please accept him as your disciple!" Zoey pleaded.

"I wouldn't dare. Am I even worthy? I'd need to be capable enough if I wanted to do that. Hahaha." Levi laughed out loud after he replied and walked away.
