Chapter 2351 The Rank Dropped

Dark Emperor? What is he doing here? Shouldn't it be Levi? Why is it him? On that note, why are their silhouettes so similar? They look exactly the same!

Everyone was puzzled.

"What is it?" Levi asked.

"W-We came here looking for someone. We'll take our leave now!" answered one of them with a slight shiver in his voice.

No one wanted to offend him.

Then they took a look around, and realized that Levi was not there.

Is he in danger? Or did he run away? Since Dark Emperor's here, does that mean there are mutated zombies here? If that's the case, Levi's most probably...

Cold sweat started seeping out of everyone's pores at the thought of that possibility.

"I know who you're looking for! He has already left the forest! He's waiting for you all at the place you people came from!" Levi said to not make them worry.

Initially, he wanted to wait for them there, but he hit some minor roadblocks along the way.

When he got there, Zoey and the lot were already there.

Levi did not even have time to take off his mask.

"Thank you, Master!"

He was very worried.

"That's right! Zoey's already in the top fifty of the Divine Leaderboard, Master! But you are ranked
among the seven thousand nine hundredths in the Provisional Leaderboard! This is a tremendous gap!"
Kinsley said in resignation.

As Levi's disciples, they did not want to see Levi in the dumps.

To them, it was a matter of pride.

No one would want that to happen to themselves.

At present, Levi could not even match up against Shaun and the lot, let alone Zoey.

Moreover, Zoey's growth was monstrous.

She was already in the top fifty of the Divine Leaderboard.

With her current growth rate, breaking into the top thirty would not be a problem for Zoey.

That's because I'm the Dark Emperor! Of course I'm strong!

Levi added in his head.

Nevertheless, the ambiguity of his statement confused Zoey.

"What do you mean by that? Was Master not strong back then?"

"That's right! You actually understood what I meant! Your master was certainly weaker back then." Levi nodded.

"Pffft!" Zoey burst into laughter.

"My master has always been strong! Why are you talking as though you fought her before!"

To Zoey, Dark Emperor was invincible.

That was her faith and belief, so she could not accept when Levi said Dark Emperor was weak.

"Not only did I fight your Master, I actually killed..."

Levi stopped as he knew it was going to upset Zoey.

"Let's stop talking about this! It'd be bad if the others overheard you!" Zoey was a little annoyed.

After a few days, Levi appeared again, not because he had any significant breakthrough, though, but because Sacred Organization contacted him.

They told him that, the representatives from Maya Industries wanted to meet him and talk about working together.

That was the reason why Levi resurfaced.

He needed to think about it before he gave them an answer.

As soon as he made an appearance, Phoenix and the lot immediately came looking for him.

“Boss, how much have you improved after all the hard work you’ve put in?” Kirin asked.

“That’s not important! What’s important is he made an effort!” Azure Dragon said.

“Boss, come with us to Garrison Industry. We have a gift for you!” Everyone said excitedly.

“Sure!”

In the end, even Zoey and Floyd tagged along.

Everyone had a strong interest in the special battle suit Garrison Industry produced.

Chapter 2355 Test It With My Fist

Truth be told, Levi figured he could just use his fist to help test anything's defensive capability.

They only needed to see if the item in question could withstand one punch from him.

According to Levi's standards, not even the Skyward Sword and Terra Blade qualified since he broke them with a snap of his finger.

To him, those weapons were mere scrap metals.

"Alright, do you just want me to throw a punch at the suit and destroy it?" Levi asked seriously.

That was the type of test in his mind.

"Of course not! What would that do? I want you to put it on and get attacked to see test the defense level of the suit, understand?" Edmund sneered.

"Sure, sure. Let's get this over with!"

Levi was mainly doing that for his friends, so he did not mind all of that.

He figured he'd acknowledge Garrison Industry's strength if the test actually wounded him in any capacity.

"Boss, this is dangerous. Let's just go!"

They were there to obtain some sense of security for Levi, another layer of safety.

Edmund was not about to just let a free volunteer slip away from his fingers.

"Commence the test!" he shouted while holding off Zoey.

And thus, the test started.

Hummm...

Soon, they heard a horrific hum that shook the very earth they were standing on.

Then, layers of armor started covering the walls of the testing ground to ensure the lab's safety as the attack it was charging up could literally destroy everything.

At that moment, the hole in front of Levi began to shine and made an ear-piercing noise.

Inside it, high-class energy materials were gathered and converted into a powerful energy stream that basically equated to an all-out attack from the second and third-ranked fighters on the Divine Leaderboard.

That was how amazing modern technology was.

It would be impossible to produce energy like that back in the day.

Jared's Decide invention was already the pinnacle back then, but now, things were much more terrifying.

Their levels were leagues apart.

Levi looked at the clueless bunch.

He could not stand it any longer and wanted to show them that the battle suit was just a thin piece of
paper, that he could tear it into pieces with ease.

Edmund sneered. "What are you going to do?"

"I'm going to tear it in two, of course," Levi said.

"Hahaha..."

Everyone laughed out loud after hearing that.

They looked at him like he was a fool.

Only an idiot would say something like that!

No normal person would ever say such a thing.

It's true that the battle suit is light and thin, but all the materials used to make it were of the highest quality and rarity! Just the materials alone surpass anything that's aerospace-grade.

It could withstand extreme temperatures and ward off sharp materials as well as all sorts of attacks from top fighters on the Divine Leaderboard. It's the essence of modern and ancient technology! It's indestructible!

Frankly, no one in Garrison Industry can even leave a scratch on it no matter what they did or what equipment they used.

Zoey was utterly dumbfounded.

She almost fell to the ground after seeing the shattered pieces of the battle suit.

How did this happen?

“W-What’s going on here?” Zoey asked with a shaky voice.

“I ripped it apart,” Levi answered.

“Really? I don’t believe you!”

Zoey shook her head violently.

If she came in any sooner, she would have saw the moment Levi destroyed that suit.

But alas, she was a few seconds too late, so all she saw was just pieces of the suit covering the floor.

Hence, she refused to believe that Levi did that no matter what.

Chapter 2359 Why Are You Here

No one understood why Maya Industries and Sacred Organization chose to meet in Erudia.

It made no sense.

Moreover, neither the people in Maya Industries nor Sacred Organization knew why.

Why Erudia?

On top of that, quite a few of Dark Emperor’s aides actually knew that she was afraid of entering Erudia.

Why now?

That said, they could slightly understand why.

After all, Dark Emperor was just too strong.

He was at the top of the Divine Leaderboard, the same person that forced Maya Industries into negotiation.

And so, the location they chose to meet up was at North Hampton, causing North Hampton to be the center of everyone’s attention.

Zoey was very excited as she thought that Dark Emperor chose that location because of her.

Zoey saw Death Fiend and the others and felt puzzled.

After all, she was not notified of the visit.

"Huh? Master? Why are you here too?"

Zoey saw a figure wearing a mask.

Levi knew he had no time to hide, so he instinctively put on the mask.

"Oh, you came early! I thought you were arriving tomorrow!" Zoey was delighted.

"I have things to discuss with them, so you should leave for now."

After Zoey left, Levi told Death Fiend and the others to be on the lookout before asking them to leave quickly.

After a while, Zoey came back.

"Huh? Where did they go?" She was confused.
