### Chapter 2511 My Name Is On The Back

Everyone was upset with behavior and clamored for him to apologize.

Only by prostrating and repenting could he appease the crowd's anger.

Levi smiled. "The reason I climbed up the stairs and stepped on the stone plaque is that I have surpassed them all. The Divine Leaderboard isn't enough to reflect the extent of my power!"

"B\*llshit!"

"What makes you think you are a cut above the rest?"

words had riled up the crowd.

Obviously, no one believed him as they insisted he drop to his knees.

In fact, even Zoey and the others thought Levi was kicking up an unnecessary fuss.

At the back? How is that possible? He's definitely lying.

"Why don't you just apologize? After all, you have angered the crowd," Zoey suggested.

Tens of thousands of men insisted that Levi apologize on his knees.

At the crucial moment, Levi was amused.

#### Chapter 2513 Divine Extraction Technique

No one had expected him to emerge in Oakland City.

However, the person in front of him was an unfamiliar sight to everyone.

Nevertheless, Daxon or the other elders of The Cardinal Hall might recognize him still.

After all, he was the heir to the Divine Extraction Technique. It was one of the ultimate techniques in the world, just like the Iron Golem Technique.

In truth, when the full potential of both techniques was unleashed, they could be used to balance each other out.

Neither one had the advantage over the other.

#### Chapter 2514 The Three Targets

Mr. X had a murderous expression on. "Even though the new Divine Leaderboard has revealed many new warriors, they are still within our control. As for The Cardinal Hall and Divine Brigadier, we are familiar with their strength too. If a conflict arises, we can still deal with them. All except... the top three. Not only do we not have a handle on them, but we also don't even know who they are."

"Previously, we had some leads about Killfinger and the new leader of the ancient Garrison clan. But when we tried to investigate, there was resistance everywhere. As of now, we still don't know who they are.

"As for Dark Emperor, it's even worse. We are aware that someone else has taken that position. Previously, it was Dark Emperor's fellow disciple. But now, it is evidently someone else. Unfortunately, we still don't know who it is.

"Now that Dark Emperor and Sacred Organization have grown extremely powerful and terrifying, the only person who has a clue is the senior disciple of the previous Dark Emperor, who also happens to be her son. He probably knows who the current Dark Emperor is. However, we have already spent a long time looking for him.

"The three of them pose a direct threat to us and we have no way of keeping them in check. Therefore, we need to either kill them or have them submit before we can execute our plan."

The men he had sent to investigate returned with news that the Gods of Restricted Area 76 were all dead as if they had gone extinct.

However, the Gods' energy was compressed into crystals which were taken away by Sacred Organization.

"In that case, the more the reason we shouldn't allow Dark Emperor to live. I'm no longer curious about his identity anymore. I just want him dead!" Mr. X hissed.

"Of course, we want the crystals too. Now, we have to figure out how to get them," Lucifer suggested.

"Mmm-hmm, we must get them back. However, taking out those three rivals remains our top priority."

The Lab of Gods had officially emerged again and set their scheme in motion.

#### Chapter 2516 Losing Themselves

Levi wasn’t making baseless claims and refuting them without reason.

A long while ago, he had told Azure Dragon and the others how they could validate it.

If Maya Industries was able to do it, so could Garrison Industry.

However, Azure Dragon and the others didn’t proceed with it. Instead, they continued to accuse Levi of making baseless statements.

“If Azure Dragon had followed my instructions, all of you would have known whether what I said was true,” Levi snapped.

#### Chapter 2517 Just Try It

Azure Dragon realized that this wasn't the first time Levi mentioned it.

In fact, he had brought it up many times.

By using data to analyze all the different techniques, they could find out if all the techniques were actually the same thing. Also, they would find out whether death awaits them at the peak of their techniques, and if they would suffer any backlash.

Shall I give it a try? Since no one believes what Boss said. In fact, they even accuse him of refuting their methods without any evidence. Nevertheless, Boss did provide the method to verify it. However, even before getting a result, they didn't even have the courage to validate his words. Why don't I just give it a try? After all, my frustration is just getting in the way of my training.

Given that he had resigned himself to the fact he wasn't going to improve, he felt conducting research and analysis would be a better use of his time.

Playvolume00:00/00:44TruvidfullScreen

What if Levi is right? Perhaps, I may be able to save Kirin and the rest.

#### Chapter 2518 Research Results

Karsten, the heir to the Divine Extraction Technique, arrived in North Hampton as he worked his way up the list.

However, he was told that Kirin and the others were all in solitary training.

"They can continue with their training after accepting my challenge," Karsten replied with a smile.

"Are you worried that they would become stronger after their solitary training and defeat you? Is that why you insist on challenging them first?" Wynona, who was keeping watch, sneered.

"Fine. Forget it. I'll come back to challenge them once they have completed their solitary training. I'll skip them for the time being," Karsten laughed before leaving.

In truth, there wasn't much point in challenging them other than to absorb their powers.

Hence, if he insisted on extracting their powers, something untoward might happen and draw unnecessary attention to him.

Given that it wasn't worth the risk, Karsten only dared to absorb the powers of those whom he challenged.

The moment he saw the results, Azure Dragon felt as if he was struck by lightning.  
Consequently, his face was filled with disbelief.  
It's true! It really is true! Boss is right!

After a detailed data analysis, he discovered that the hundreds of techniques in the new era were actually all the same.

One assumed them to be different due to the complex changes they went through.

Chapter 2520 Sucking Dry A Hundred Thousand Men

Knowing that he would be exposed within three days and the trouble that would ensue, Karsten wanted to elevate his power to the ultimate level.

All he needed to do was to absorb as much as he could.

No longer needing to hide his identity, he planned to suck everyone's powers dry en masse.

That was the reason why he issued the mass challenge.

As for the other tens of thousands of fighters, they were brought there by Lab of Gods.

Meanwhile, the crowd continued to grow.

Their target was to gather more than a hundred thousand warriors for Karsten to absorb.

Furthermore, Lab of Gods had also provided him with energy capsules.

The capsules, used specifically by them, contained an immense amount of energy.

Naturally, they were extremely powerful.

Given how much effort they had poured into Karsten, it was evident Lab of Gods wanted to create an invincible warrior at any cost.
