Chapter 2521 Overnight Fame

As Karsten screamed hysterically, he emanated a massively powerful aura.

His surroundings were flattened instantly. The land, mountains, and rivers began to shatter just as the sky trembled.

He had absorbed the most powerful concentration of energy in history, making him infinitely powerful.

Feeling the immense power coursing through his veins, Karsten felt as if he could tear everything apart.

He realized then what being invincible felt like.

Turning his attention to the energy capsule brought to him, he absorbed all its power in one go.

By then, Karsten was fourth on the Divine Leaderboard.

It was clear from the power he demonstrated that Daxon, Gabriel, Eustace, and the others were no
longer a match for him.

Only the mysterious top three still stood a chance.

Since the situation was still uncertain, Karsten was elevated to fourth place for the time being.

The change struck further fear into the hearts of many.

Since the rankings were official, the rest of the Divine Leaderboard warriors knew that they were
definitely weaker than Karsten.

The results indicated that Levi was right all along.

All the different techniques were actually the same. Moreover, when one reached the peak of their techniques, one would die as a result of the backlash.

Hence, prediction was true.

Thump!

Azure Dragon gasped as he collapsed onto the ground.

Oh, no! Boss was right all along! Come to think of it, he is our boss. There's no way he would want to harm us. In fact, he has always had our best interest at heart. But why didn't we trust him? He even told us how to verify it, and yet, we refused to do so and insisted on delaying it.

As Azure Dragon's voice thundered, it shook the heavens and the earth.

Echoing through everyone's ears, it told them that they were wrong and owed Levi an apology.

Also, he ordered them to stop their training.

However, the end result wasn't what he expected.

Shocked and frustrated, everyone at the scene remained silent.

Finally, Azure Dragon lost consciousness when he failed to stop them.

No one could understand the agony he felt.

Overwhelmed by sorrow, he felt as if his soul was dead.

As time ticked on, half a day quickly passed.

Everyone could feel a massive aura of energy reaching its peak.

In the deep forest not far from the manor, Floyd was still in training.

His tempestuous aura had shot itself into the sky.

At that moment, he felt as if he saw a ray of light in the darkness. As long as he could latch onto it, he would be able to tear the darkness apart.

Mr. X jolted up and went to check on it.

"Good! They are the first ones to finish practicing the techniques. Though they died because of the
backlash, their data is extremely important to us! Hurry, analyze them now! Haha..."

Excitement was evident on his face.

No one knew that they had single-handedly faked all ruins in the new era.

All the opportunities, techniques, and drugs that appeared in the new era were arranged by the Lab of Gods, for they had an unprecedented plan in mind.

Right now, Levi was the only one who had suspicions.

Everyone promptly realized someone had saved their lives.

They could sense a powerful drug flowing all over their body, giving them strength. Their strengths were still increasing as of now.

Clearly, they had taken some form of drug.

Luckily, the Gods' blood had been diluted. Otherwise, even a little would cause their bodies to burst.

Death Fiend and the rest who had previously swallowed one drop of the Gods' blood were the top hundred fighters on the Divine Leaderboard.

Moreover, they hadn't really absorbed all the blood's power.

Zoey and the rest started wondering who had saved them.

After all, it was a monumental feat to save them all.

"Mm? Why are you still alive?"

The Lopez and Black families who had come back froze in shock at the sight.

When they brought the bodies over, each and every one of them had ceased to breathe.

They wanted to know how Levi could predict the future.

“We know you spent some time practicing all the techniques before making that conclusion. But before that, how could you be sure?” Zoey added.

“It was Maya Industries. Everyone here joined the tournament challenge organized by them back then and fought with the mutated zombies. In fact, they had gathered all the information about the techniques you have mastered,” Levi explained.

“Oh, you’re right!” Everyone nodded, for he was right.

Levi went on. “Actually, they collected all techniques they got their hands on to improve the mutated zombies’ attack skills. However, after analyzing and experimenting with the techniques, they came up with two surprising conclusions.”

Realization dawned on them. “Oh, so it was Maya Industries who discovered the secret unintentionally?”

“Yes, that’s right.”

“How did you find out, Master?” Kinsley blurted out.

Back then, Levi had the same problem.

He practiced so many techniques and relied on the Forbidden Technique to save his life.

His mentor warned him not to use it, so it slowed him down for a long while.

Levi assumed the Forbidden Technique was his trump card, only to be used in dangerous situations.

It had affected his state of mind and habit.

To him, the Forbidden Technique was the most powerful technique in the world.

Actually, it was his mentor who set up a challenge for him.

Once he saw through everything, he’d leave everything behind and focus on practicing the basic technique.

That way, he’d become the strongest fighter ever!

Chapter 2530 Challenging The Top Three On Divine Leaderboard

Karsten busied himself for the next few days by sucking other fighters' energy and resources.
He was getting stronger day by day!
He planned to head to Restricted Area 76 to get more strength there, for it was said that the area was
full of resources. Even a random stone there would provide him with a tremendous burst of energy.
He wanted to become stronger and achieve Level Nine to suck everything in sight!
Besides, a Level Nine could suck someone else's energy from afar.
No matter how far that person was, he'd get to suck that person dry.
Just then, Karsten received an order.
"Well, if I suck Dark Emperor and the two others dry, I'll achieve Level Nine easily," he uttered.

Karsten had taken Levi to be a whetstone so he could achieve the highest level of Divine Extraction Technique!

The next day, Kirin and the rest were about to depart to look for new techniques when Queenie and Forlevia arrived.

“Just you wait. Something big will be announced a few days later, and it’s related to the techniques. You don’t have to search for it now!” Queenie declared.
