Chapter 2531 One Punch

At his words, everyone burst into laughter.

After all, Levi was the only person who didn't know who Karsten was.

He was arrogant as usual, living in his own world.

It didn't seem to be a bad thing, though.

"Boss, didn't you realize that fighters have been popping up from everywhere since the new Divine Leaderboard had been announced? Karsten was the strongest among them. He's the heir of the Divine Extraction Technique. Compared to the Iron Golem Technique, it is..."

They immediately explained Karsten's background to Levi, thinking that the latter would be shocked at his experience.

Surprisingly, Levi remained calm. "Oh, he's ranked fourth on the Divine Leaderboard. If he was the first, I would've known of him."

Chapter 2532 The Battle At The World Summit

Levi and his gang had arrived quick enough to get a great spot on the north side.

The view was excellent, for they could see the arena beside the Hall of Gods.

As everyone waited anxiously, they felt their chests tighten up.

"When will it start?" Levi questioned.

"Tomorrow, Boss. Everyone is here to get a good spot."

"I wonder when Karsten and Dark Emperor will arrive. I can't wait for the battle to begin!"

Chapter 2533 Too Weak

Karsten was different. He was no longer the person everyone used to know.

At that moment, he was downright terrifying.

The aura he exuded was overwhelming, and it felt as if it could break the entire world apart.

He was like a blazing sun and seemed impossible to get close to.

He browsed nonchalantly and looked like a relaxed God.

His stance inspired others to worship him, and some might even feel compelled to go on their knees.

Chapter 2534 Utterly Disappointed

Everyone turned and saw Levi standing there.
Nevertheless, they were used to hearing those crazy words from Levi.
That's just the way he talks. Heck, it'd be weird if he actually shuts up.
Levi had never agreed with anyone before.
Still, Zoey clamped mouth shut as soon as he started speaking.
"I'm the one who's weak, okay? He is so strong that he is challenging the top three fighters on the Divine
Leaderboard and asking all three of them to fight against him at one go."

Zoey was worried that others would overhear what Levi said. She was especially nervous about Karsten hearing that.

We'd be in trouble if Karsten gets mad. Seriously, how dare he calls Karsten weak. I will allow my husband to complain about anybody else's strength, but he is not to complain about Karsten's combat prowess. If he is considered weak, then no one on Earth would be regarded as a strong fighter. Why can't my husband see how strong Karsten is? Geez, I can't believe Levi actually called Karsten weak.

Unfortunately, Levi truly saw Karsten as a weakling.

He was a little disappointed... Well, actually, he's very disappointed.

Levi was excited when he first heard about how Karsten had absorbed many fighters' power and an incredible amount of energy.

However, he was disappointed immediately after he took one look when the latter showed up.

Chapter 2535 What Is Written On The Stone Plaque

Karsten started taunting like there was no tomorrow.

“Are you lot scared of me? Hah, that is hilarious. The top three fighters on the Divine Leaderboard are too scared to show up. Why bother accepting my challenge if you are so afraid to fight me? Come on out! I know you’re here. Hey, it’s cool if you don’t want to fight. All you have to do is kneel and admit defeat!”

Karsten mocked endlessly, but Dark Emperor and the others never showed up. It seemed that no amount of insult or taunt would work.

“I guess Dark Emperor and the others have gone all out and decided to stay away. Maybe their ranking on the Divine Leaderboard doesn’t mean much to them. Surviving was more important...”

Everybody sighed.

Karsten, however, was a little lost.

He prayed that the three men he challenged would show up as quickly as possible so he could kill all of them.

What is going on? Not a single one of them showed up.

Even the people from Lab of Gods were confused.

Mr. X and his friends were particularly upset about the situation.

They had been waiting for that moment, and they were certain that they could destroy the obstacles in their path.

However, their opponents never showed up.

What could they do under those circumstances?

Chapter 2537 Karsten Is Too Weak

Levi actually went to hand the crystal to Death Fiend earlier.

Karsten was too weak, so Levi didn't even want to head over in person to hand the latter the gift.

The crystal was actually the leftover from when Levi made the God Crusher.

It might only contain one-fifth of its original strength, but that energy was still unimaginable.

Levi saw how happy Karsten was when he got that crystal.

Karsten forgot all about his mission after receiving that crystal, and that means that it contained more
energy than anything he has ever seen. It probably surpasses his wildest imagination. That is the only
reason it has gotten him so excited.

To Levi, Karsten's excitement was a sign of how weak the latter was.

Chapter 2538 They Are Worried

Almost everyone stayed after Karsten had left.

That was understandable since someone else would take their seats as soon as they leave.

What happened next was the endless arguments and battles.

That was how things were when martial artists ruled the world.

In the meantime, Levi started dozing off.

Zoey and the others were trying to figure out the issues with their own fighting skills while waiting for the upcoming battle.

Everyone shook their head.

Chapter 2539 I Am Stronger Now

The more everyone listened, the more curious they got. Someone asked, "W-What's the truth?"

"Well, Dark Emperor has given Karsten such an amazing gift and has opened the doors to Restricted Area 76. That would allow Karsten to grow stronger and be his best self. How can Karsten kill Dark Emperor and the others after accepting such lavish gifts?" said Mr. X.

His words got everyone around to gasp.

He's right. Karsten owes them so much now. All the effort Karsten put in to reach Level Eight of the Divine Extraction Technique would mean nothing compared to this. In a way, Karsten owes Dark Emperor. That means that it would be difficult for Karsten to kill Dark Emperor when the time comes. That way, the raging conflict between them is now easily solved.

“There’s also the part where Karsten can easily break through and become his best self after he absorbed the energy in Restricted Area 76. He would rightfully be ranked number one on the Divine Leaderboard and would overwhelm Dark Emperor and the others.

“Yet, Dark Emperor and his friends wouldn’t be humiliated because they contributed to Karsten’s strength. In some way, they will be the masters who have helped Karsten rise to the top.”

“Ah, I understand it now. This will be different from being defeated. They will have no reason to fight. The Dark Emperor and his friends can rightfully step down and let Karsten be the top fighter on the Divine Leaderboard,” blurted Lucifer.

Chapter 2540 What It Feels Like To Be A God

Karsten could feel an obvious change in him after he reached Level Nine.

It was as if he had everything under his feet, and he saw everyone else as nothing but maggots.

I feel like I am in control of the entire world.

That was what it felt like to be a deity.

It was the same sensation the Gods in Restricted Area 76 experienced.

They were too strong, and it created an illusion of them being holy beings living among mortals.

That was how Karsten felt at that moment.

He was no longer interested in Dark Emperor and the others anymore.

Before powering up, he wanted to challenge himself, but reaching Level Nine made him feel as though he would be facing three ants.
