Chapter 2551 Bad Luck

Everyone was livid when they found out about the “truth.”

They all felt that Levi was a liar.

They had thought that he was the one who killed Karsten; they thought he was the top in Divine Leaderboard.

How could he not know about this? I’m sure he knows how weak he is. the only one who knows the truth. He knows that Karsten died from a self-induced explosion, but he’s quietly admitting that he was the one who killed him. Shamelessly, he accepted the praises and gifts from the others. On top of that. he’s enjoying the thrill of being worshipped. Millions think of him as the top in the leaderboard, but he has chosen not to tell anyone about the truth. Instead, he has chosen to silently take credit for Karsten’s death. He’s silently pretending to be top in the leaderboard!

Just how low can he get!

As the number one on the leaderboard, Levi would enjoy the treatment of being admired and worshipped by millions.

In the manor, Zoey, Azure Dragon, and the others all had similar grave expressions.

Two days ago, they had been living in paradise. Now, they were in hell.

“Great. How many enemies have we made this time?”

“The whole world is our enemy now. If they want to make things difficult for us, what power do we have to defend ourselves from them?”

The two families were silently fuming.

Aaron and his wife even said, “If you knew that you weren’t the one to kill Karsten, why didn’t you say it? Why did you silently take credit for it? Are you trying to rise to fame by pretending to be number one on the leaderboard?”

The others in the manor were shocked by change as they stared at him with wide eyes.

The aura he's exuding is mortifying and familiar! It's as if he's looking down on the rest of the world like he used to do.

"What are you trying to do?" Zoey questioned.

"Obviously, deal with the people outside," Levi coldly answered.

"Are you mad? It'll be a miracle if we manage to avoid them. Why are you still trying to cross them? Every one of them outside is furious right now. All of us will be caught up in the chaos if you go out. We won't be able to stop them!"

Zoey then grabbed Levi in a vice-like grip, not letting him take another step further.

The , Dark Emperor, Killfinger, and ancient Garrison clan were collaborating to establish Carigrey
Academy, an institute focusing on the best combat techniques and magical techniques.

The Cardinal Hall had then invited top masters of magical and combat techniques to teach the most
proper techniques to the students.

All of these masters were the top hundred fighters in Divine Leaderboard.

In other words, it was the most legitimate place for training.

Furthermore, other than the elites of The Cardinal Hall; Gabriel, Eustace, and other Divine Leaderboard's
fighters were there as well.

As a matter of fact, Daxon was going to handpick a selection of individuals to teach them personally.

They were all hoping to join Carigrey Academy together, especially since they realized that Levi was exceptionally affected by the ranking on Divine Leaderboard; he had chosen to go down an absurd path for the sake of reputation.

This was an opportunity that Levi needed most.

“We don’t know yet. There aren’t any details about its entry requirements, but at the very least, they’ll have to be people on Provisional Leaderboard or Divine Leaderboard, right?”

“I heard that the ones after the top five hundred in Divine Leaderboard are eager to join. After all, who wouldn’t? This is a chance to meet with the strongest individuals and learn from them,” said some.

“Who cares? Let’s apply to the academy first. We’ll ask Ms. Queenie and Evie to close an eye and let him in. Maybe all of us will be able to get into the academy,” Zoey said.

Somewhere in Oakland City, Mr. X and the others were having a meeting.

“We’ve sent our men in. Don’t worry as they won’t notice anything. Moreover, it’ll be a piece of cake to enter the academy, not to mention that the ones we’ve sent are those with potential. As long as these people join Carigrey Academy, we’ll find out more clues eventually.”

“After all, Dark Emperor and the other two are going to take in students. Once they appear in public, we’ll know who they are,” Lucifer and some others added.

Nevertheless, Mr. X was a cautious man. He calmly said, “However, something entered my mind recently. Karsten just died, but The Cardinal Hall is already in a rush to establish Carigrey Academy. Could it be that these two matters are connected in some way?”

Lucifer mulled over his words for a moment. “I’m guessing that Karsten’s appearance has made them feel threatened. If Dark Emperor had not set him up, they might not have been able to defeat him. Therefore, they’re planning to join hands to prevent future cases like Karsten’s.”

Chapter 2558 Levi Is A Teacher

Zoey and the others were hoping that Levi would become a student of one of the elites.

In fact, Zoey looked forward to seeing his name more than her own.

Levi had been behaving like a madman recently.

She wanted Levi to calm down, and it would be great if he had a good teacher to learn from.

However, her heart sank bit by bit as the list of names was slowly revealed.

Everyone she knew had managed to join the academy, even lousy fighters like Shaun.

Yet, name was nowhere to be seen.

Zoey was starting to panic.

“That’s right. What right does Levi have to be a teacher? Give us a satisfactory explanation to that!”

Soon, more followed suit, and they began questioning Carigrey Academy's choice.

In fact, Zoey and the others agreed with their protests.

They thought that it would have been a tough feat for Levi to become a student at Carigrey Academy.

However, no one expected Levi to be one of the teachers!

Furthermore, he had picked out seventy-eight individuals as his students.

"I think I get it now! Carigrey Academy wants control over both the present and the future! They want to have a backup plan for the future, if not absolute control over it!"

“You’re right! Given how fast times are changing, we mustn’t leave the past behind or Levi might use it against us in the future!”

Everyone began analyzing Carigrey Academy’s motives and that was the outcome of their discussion.

Although Carigrey Academy should explore the latest technology, it shouldn’t invest too much in its research to the point where it would lose sight of the basics and its past.

As such, they decided to only put Levi and the eighty-seven men on the task.

“All right, it’s settled then! Those who do not wish to participate may say so now!”
