Chapter 2581 The Divine Tool Is Child Play

How insane!

As this was the first time they'd encountered a divine tool, they were utterly stunned by its power.

After they got a taste of its strength, they couldn't help but yearn for more.

Immediately, they cheered loudly to show their enthusiasm.

After all, who wouldn't want to wield the divine tool?

Even Floyd, a fighter in the Provisional Leaderboard, managed to threaten the Divine Brigadier when he possessed the divine tool.

Furthermore, the Divine Brigadier wasn't fooling around in the match. On the contrary, he'd given it his all.

Because of this, everyone coveted the divine tool.

Not to mention, there was only a certain limit that their strength could reach through vigorous training. the divine tool wasn't even

"I know why they are so calm." Viggo turned around and asked, "Think about it. Since only the champion of the academy can obtain the divine tool. is there anyone amongst that team capable of topping the charts?"

"That's impossible! No one in their team can do that. They would most probably be ranked at the bottom."

"That's great! It means that they stand no chance of winning the divine tool. On top of that, what do you guys think about their team ranking?" Viggo questioned again.

"How ridiculous! They will be at the very bottom. Since they are guaranteed the last spot, we should all just compete for second to last."

"I agree as well. They are going to be the worst team. We won't even have to view them as our competitors."

"We should rank them as last. There is no way that they'd be achieving a rank any better than that!"

After the announcement, Daxon and the rest regrouped together with Levi.

"Chancellor, do you think that they'll make their move?"

"Wouldn't it be too obvious if they did?" Daxon and the rest asked Levi curiously.

"They are desperate for clues. Now that we've revealed such an important object, how could they sit
back idly? Even if their identities are exposed, I'm confident that they will take action," Levi replied with
a smile.

"Nevertheless, don't you think that the security we have is too strict? Aside from the stationed guards,
the lab is also secured with eight locks! I'm afraid that they might fail to open it." Daxon had a point. It
would be useless if they could not access the lab, as this meant that the spies wouldn't be able to obtain
the divine tool.

Levi smirked and said, "That is beyond our control. Their failure to get their hands on the divine tool will
only signify their incompetence. We can't afford to slack off! On the contrary, we will need to keep our
guards up."

Little did they know, Levi had left a mark on their bodies.

It was a special tracking chip developed by the Sacred Organization's strongest team.

This chip was actually a type of liquid that would vanish once it came into contact with its target.

Now that Levi had sprinkled it on them, his subordinates had located all the spies and kept track of their locations. This tracking liquid was so powerful that it could keep tabs on its targets no matter how far they went.

Levi couldn't help but grin in delight.

At this point, no one had noticed the divine tool's disappearance yet.

If Levi hadn't told them about the incident, it would have taken them much longer to realize the truth.

Levi smiled.

As the minutes ticked by, Levi continued to focus on the spies in Carigrey Academy.

Despite that, all of his targets displayed no sign of movement.

It felt as if the entire theft had never taken place at all.

Contrary to predictions, they did not return the divine tool back to the lab too.

How was he to know about the scanning device prepared by the Lab of Gods?

“What do we do now?” The rest of the members had begun to panic like a bunch of headless chickens.

The others also said, “Yeah, I don’t know what happened. When I woke up in the morning, the divine tool was already here! It’s so strange!”

“We have never touched it before! Besides, the divine tool was kept in the testing ground. We do not have the authority to take it out!”

Everyone was shocked.

Levi picked up the divine tool and inspected it carefully.

Suddenly, he had a bad feeling!

Playvolume00:00/00:44TruvidfullScreen

Oh no! The divine tool was actually returned. It wasn’t sent back to the testing ground. Instead, it was sent here.

"He's caught red-handed! Everyone saw it! Levi is a thief!" Eskild and the others exclaimed. They forced
the crime on Levi.

The witnesses were present, and his motives were all in line.

The dozens of spies from the previous night smiled smugly as they looked at Levi, their scapegoat.

"Levi, what do you have to say for yourself? I'll see how you could slither your way out of this!"

Thousands of eyes stared at Levi as if they wanted him dead.

"I have nothing to say! As you can see, I am holding it in my hands!" Levi smiled.

Playvolume00:00/00:44TruvidfullScreen

Even if he was the one who returned the divine tool, he was also the one holding it.

The divine tool belonged to him in the first place!

Troy and the others wanted to refute, but they didn't know what to say.

They were rendered speechless!

The crowd fell into silence in an instant.

No one dared to speak anymore, because they would be slapped!

However, Levi didn't just slap anyone.

The ones he slapped were the ones who were involved in stealing the divine tool the night before.

“Do you have a death wish? Do you think we cannot fight back?”

Many of them wanted to retaliate.

At this moment, Gerhard raised his hand and shouted, “Wait! Hold on! Don’t fall for his trick!

“He’s just trying to provoke us! If we attack him, the tables will turn! He’s a teacher at the Carigrey Academy, after all. And if we assault a teacher, we will be at fault, and he can use this to get away!”

“That’s right! If they have a scanning device like that, it won’t be safe for them to keep it in Carigrey Academy! It will be discovered sooner or later! So they will definitely try to take it away!”

“We just need to observe them closely, find out who they gave these devices to, and determine the final location of the equipment! Then we’ll have a lead!”

“I will get someone to watch them immediately!”

As long as there’s still a glimmer of hope, Levi will never let it go.

However, he was amazed at how cautious the Lab of Gods was.

It was a great opportunity, but he didn’t have any discovery at all.

Black Hawk was curious. Everyone around Mr. X was curious to know about his idea as well.

"They captured our people. So you go capture theirs!" Mr. X said with a smile.

Black Hawk was taken aback. He asked incredulously, "Capture their people? Who?"

Lucifer was even more confused. "Mr. X, did you mean capture someone in exchange for our own men in return? But there's no use capturing anyone! We're not able to catch anyone worth using!"

"Well, if I can capture the Divine Brigadier, I can get my people back! But how can we capture someone of that class?" Black Hawk looked troubled.

"We only need to catch one!" Mr. X scoffed.
