Chapter 2591 The Nightmare And The Devil

Levi was stunned.

He didn't know what the eight of them were up to.

However, he was also curious about why they were here.

In a few ten seconds after receiving the message from Notos, Levi sensed the presence of eight individuals approaching him.

They were moving quickly, and they were really good at hiding their presence.

Well, at least they were good enough for no one else in Carigrey Academy except Levi to notice them.

Previously, we were afraid of your existence, but today, we can mess around with you! Ah, reality is harsh. I can't bring myself to hate you after realizing how weak you are."

"Yes, you need to become stronger so we can hate you. Now that you're as weak as an ant, we can't gain pleasure from tormenting and killing you!"

Everyone else shared his sentiments.

Levi was too weak, so they couldn't get a sense of achievement after defeating him.

Levi was amused by their reactions.

He chuckled and declared, "You may try!"

Everyone was confused.

Why is he laughing?

They cast puzzled glances in his direction.

Black Hawk questioned, "Are you laughing at the fact that you can be used to exchange for our men?"

Levi ignored him and continued laughing.

As Shield had swum into the net themselves, they wouldn't need the seventeen men, who were Black Hawk's subordinates.

Playvolume00:00/00:44TruvidfullScreen

Even if they were interrogated, they would reveal Black Hawk at most, for they worked for him.

Now that Black Hawk and Shield had exposed themselves, he no longer needed the seventeen men.

That was why Levi was chortling.

"Contact Carigrey Academy now and inform them of the exchange!"

Black Hawk got to work immediately.

Levi chuckled. "You're smart to grasp the situation."

"You must have an ulterior motive to get kidnapped by my men. It's easy for you to kill us all," Black Hawk responded. "You were the one who kidnapped my seventeen subordinates, right?"

"Yes, that's right. I was the one who kidnapped them. I had no idea you'd abduct me to get them back. Lab of Gods had told you I'm important to Erudia and you can offer me in exchange for your men, right?"

Hearing that, Black Hawk immediately realized Levi knew everything.

Black Hawk shook his head. "I'm not a fool. All I want is to stay alive. I'm certain they'll kill me if I tell them about you. If both sides come for me, I'll be doomed!"

He was smart enough to submit to Levi after weighing the pros and cons.

Levi smiled. "I'm glad you're afraid of dying. If you're not a coward, I won't be able to carry out my plan!"

He glanced at the rest. "Of course, I won't trust you wholeheartedly. My men will keep watch on you and your family all the time. The same goes for everyone here."

Everyone blanched in horror.

It was terrifying to learn that someone would be keeping watch on you in the dark all the time.

They knew Levi was capable of doing that.

Edmund had benefited a lot from his teachings.

After all, Levi had mastered the Iron Golem Technique completely.

With his help, Edmund wouldn't have to take any unnecessary steps and reached Level Eight easily.

However, it was hard for him to break through Level Nine in such a short time.

Hence, he couldn't meet need for now.

“It’s too late. I was thinking of training them for a while before picking new talents. Now, I have to carry out my plan ahead of time. A competition will take place seven days later. I’ll assume the position of Dark Emperor and the other two to pick new talents. I shall train the new recruits personally!” Levi announced.

Previously, Levi was busy wondering how to make human beings Super Fighters.

However, they had let him down.

They also didn't have the Divine Extraction Technique to suck someone else's power.

Levi couldn't possibly inject the crystal's energy into their bodies.

It wouldn't be a problem if they could withstand it. However, if the energy was too much for them, they would explode at once.

Therefore, he couldn't experiment on them, not even on someone as powerful as Daxon.

Playvolume00:00/00:44TruvidfullScreen

Just then, Levi had an idea. Super Fighters didn't have to be humans.

He could get them in another way.

For example, machines, or even the mutated zombies created by Maya Industries.

There were a lot of them, so he could experiment on them freely.

Everyone would first battle against each other to show their talents.

The students had lined up on the square, ready for the competition to begin.

It was an opportunity for both the ones who wanted to increase their strengths and the spies sent by Lab of Gods, so everyone was excited.

Soon, the teachers showed up, including Levi.

“Eh? Where are students? Why is he alone? Won’t they take part in the competition?”

Gerhard and Eskild were spies who had to prove themselves so Dark Emperor would pick them.
That was the only way they could complete their mission.
However, Levi was wandering around and distracted them.
Hence, Gerhard and the likes couldn't take it anymore.
Soon, more students came to a stop and accused Levi of distracting them.
