Chapter 2601 The Bloodstain

However, no one paid heed to his words.

They just continued fighting.

Seeing that, Levi raised his voice. "Stop! The competition has ended!"

It was a loud roar that reverberated around the entire Carigrey Academy.

Those engaged in fights immediately came to a stop and gaped at him in disbelief.

"Levi, did you do that on purpose?"

Playvolume00:00/00:44TruvidfullScreen

"Are you disturbing us on purpose? I feel like killing you for doing that!"

Thinking Levi was disrupting them on purpose, they fumed angrily.

"The selection has ended. No one will watch your fights," Levi sneered.

Chapter 2602 A Simple Matter

Everyone blanched in horror.

Something is very wrong. The chancellor and vice-chancellors didn't even appear! How did they leave the bloodstains on over one hundred students' faces? That's amazing!

They were all confused and unable to wrap their heads around what was going on.

Instantly, their limbs felt numb, and they turned pale. They shivered as a chill ran down their spine.

It was unbelievable.

If they appeared in the crowd silently without alerting others, that was understandable.

Playvolume00:00/00:44TruvidfullScreen

However, no one noticed how they left the marks on their faces.

How amazing and when did they appear? Are they ghosts? Or divine beings?

Could it be...

An idea popped up in their minds.

Is the chancellor related to Levi? After all, he was the only one who entered the square to observe us. If he is the chancellor, then everything makes sense.

However, they refused to believe it.

They would soon find out what was going on.

The spies didn't mind who Dark Emperor and the other two were, for they only had to find out their identities.

Playvolume00:00/00:44TruvidfullScreen

Even if the top three fighters ended up to be Levi or someone else, they couldn't be bothered as long as they got to complete their mission.

All of them forged ahead uneasily.

Everyone stated their doubts.
Levi gave them the features of Gods of Restricted Area 76, so everyone was confused at the sight of
them even if it was a quick glimpse.

After all, their features were distinctive.

“We will instruct you one on one. When you hear your name, step forward!”

Instead of teaching them all at once, Levi had arranged for one-on-one lessons.

Chapter 2605 The Ruffian In A Suit

Mr. X and some people showed up to welcome Malthe and the spies.

Levi recognized Lucifer, Jester King, Kraken, and Hell Witch.

They were the strongest enemies he had fought with before he got locked up in the Prison of Darkness.

Back then, he died together with Lucifer, but the latter ended up coming back to life.

Levi was ecstatic to see them, for they were exceptionally powerful now.

They were becoming atavistic slowly after regaining their ancestors' traits.

Chapter 2606 Not Afraid Of Restricted Area 76

Levi, who was hiding in the shadows, nearly laughed out loud.

It was pure coincidence.

He deliberately shifted their attention to Restricted Area 76.

Initially, he assumed he would have to put in a lot of effort to make Lab of Gods believe it, but they already had the idea in mind.

They were both on the same page.

Hence, Levi didn't have to do anything.

"Execute the plan ahead of time? Are you sure?"

As Jester King, Lucifer and the others gasped in horror, it was clearly a terrifying plan.

Hell Witch said, "Three years ago, they claimed a new era was about to arrive, but it wasn't true. We were behind the creation of the new era. However, if we execute this plan, the world will welcome a

new era—a dark age where chaos will erupt, turning the earth into a living hell. Nothing will be the same again. If we mishandle anything, it might cause destruction!”

heart started racing at the news.

What could their plan be? It sounds horrendous! It will force the world to enter a new era? Look how frightened Lucifer and the other two are. What could it be?

“We have no choice but to carry out the plan, for our enemy is unknown. Fortunately, Maya Industries had left behind their data so we can execute the plan ahead of schedule. If they had failed back then, we wouldn’t be able to do anything. Those fools thought we disappeared and labeled us as traitors!”

Playvolume00:00/00:44TruvidfullScreen

Levi didn’t continue eavesdropping on their conversation after he heard about Maya Industries’ data.

Is the dark age they talked about related to Maya Industries? I need to go over all the data, then.

“I’ll inform Sacroria to bring the plan forward. It will be executed three months later!” Mr. X announced.

Chapter 2608 Relying On Luck

Lab of Gods might've planted a spy here.

It meant that there was a traitor in Erudia.

Of course, Lab of Gods was powerful, but it was impossible for them to roam around Erudia without alerting anyone.

Thus, he concluded that they had a spy who fed them information—a powerful and influential spy at that.

Luckily, there were only a few influential figures who knew real ability and plan.

Daxon and the likes were reliable.

Playvolume00:00/00:44TruvidfullScreen

Otherwise, the consequences would be dire.

Levi would have to keep his guard up against the spy.

Instead of returning to Carigrey Academy, Levi went straight to Maya Industries' headquarters.

Levi felt his scalp prickle, for that was an arduous task.

If he were right about Lab of Gods having developed Warmachines, how would he solve the problem?

He had the data from the experiments, but no one knew what Warmachines were like.

Never mind if he managed to come up with a suitable way to defeat them.

If he picked the wrong approach, even if his speculation was spot on, it would be pointless.

It was like the domino effect in action.

By then, Levi would have to shoulder the blame.

No matter how hard it was, Levi had to do it.

They belatedly realized Levi wasn't being serious, for he had them watched.

That alarming thought made them shudder involuntarily.

They dared not betray Levi.

"Our collaboration seems like a great idea," Levi remarked with a grin.

He was praising Black Hawk and the rest for not revealing anything about their collaboration.
