Chapter 2621 Know Who You Are Fighting

Naturally, that wasn't an option for Levi.

An alternative was for him to attack directly.

The fighters I trained are supposed to join me to crush the Lab of Gods entirely. Maybe we can reveal ourselves before the intended time and bring those machines down instead.

No, that is not feasible. The best option is still to play defense.

Fortunately, Levi still had the Sacred Organization and the Ancient Garrison clan on his side.

Their combined resources wouldn't be enough to build a protective wall all over Erudia.

Playvolume00:00/00:44TruvidfullScreen

However, it should be sufficient to protect a few of the country's islands.

I'll just rescue as many people as possible. What else can I do? All that's left is for me to try my best.

Still, Levi wanted to talk to the Divine Brigadier and figure out what the latter was thinking. Perhaps there was some way for them to join forces or something.

Senior Disciple gulped as he stared at the face underneath the mask.

It was something he would remember for the rest of his life.

Since the disciple could not exact his vengeance, he had no choice but to pin his hopes on Lab of Gods.

"I have a question. Why did you choose to work with The Cardinal Hall? Do you have some kind of special relationship with them?" inquired Senior Disciple curiously.

What concerned Lab of Gods before had the same effect on him. I know Divine Brigadier can't avenge himself, but that doesn't explain why he would get involved with Dark Emperor.

"Come closer, and I'll tell you why," instructed Levi as he beckoned for the man to lean in.

Everyone instinctively leaned in when they heard what Senior Disciple said.

Mr. X got so close to the disciple that his ear was practically just an inch away from the man's lips.

Ever since he discovered what Gods of Restricted Area 76 had been up to, Mr. X could not help but wonder why they chose to work with Erudia.

To him, Gods were never a cause for worry.

After all, they were no match for Dr. Dark, who could pretty much obliterate them in his sleep.

"Agreed! No matter who wins, we'll stand to benefit from the outcome."

"We might even draw out the two mysterious entities of Erudia! Then, they can duke it out with Gods of Restricted Area 76. Even if Gods cannot take them out, we'll get the chance to learn whatever we can about the entities. We'll kill two birds with one stone!"

Everyone could not stop praising Mr. X for his seemingly perfect idea.

Chapter 2625 What The Heck Is That

Since Levi still needed those materials at Restricted Area 76 to fight Lab of Gods, he could not simply use them for Shelters.

If he were to get other materials for the construction, seeking Erudia's help seemed like the best option. I have to tend to this matter personally because we don't have much time left!

Meanwhile, the freezing wind blew over somewhere far away on the Arctic sea, where the population was sparse.

Floating on the surface of the ice water were numerous gigantic icebergs.

Still, those conditions were not enough to deter the more adventurous tourists from visiting.

Because of the icebergs, a large cruise ship had to keep its distance while the tourists onboard got on a small boat to proceed.

“This is as far as we can go. Beyond this point is Zarain territory, and who knows, they might have a secret base somewhere over there. Unless you want to be their human test subject, I suggest we stay far away.”

Chapter 2626 Destroy The Evidence

Some netizens were convinced that the videos were fake since there was nothing on the news regarding those gigantic creatures.

Many thought it was impossible for twenty of those enormous beings to go unnoticed by the authorities.

However, some believed the videos to be real since they had the expertise to analyze the recordings and confirm that they were not edited in any way.

Meanwhile, inside Dragonites' base in Oakland City, the four leaders had gathered as Zephyr of the intelligence unit rushed over with his computer.

Chapter 2627 Concrete Evidence

Levi had been so busy with Shelters that he did not realize Lab of Gods had already made their move.

After Dragonites had asked him to investigate the matter, he immediately contacted Black Hawk for details.

"It was just an exercise. Lab of Gods wanted to see if Warmachines could hide in the power station. They were only sent there to gather information," explained Black Hawk.

Since it was only an exercise, Black Hawk did not think it was necessary to bother Levi with such a trivial matter.

Moreover, he was confident in and his predictions.

"I see," replied Levi calmly. This just goes to show that I was right. Since Dragonites want evidence, I might as well give them something.

Chapter 2628 Partial Support

He brought the massive machine to Dragonites.

He didn't expect to gather the strength of the entire nation to build the wall.

He merely wanted additional help in the construction of Shelter.

His mood lightened since he achieved his goal.

Furthermore, Gary had supported and stood by him from the start.

Now, they could build hundreds of Shelters.

Playvolume00:05/00:44TruvidfullScreen

Then, he could finally achieve the final objective of his plans.

After Dragonites agreed to help, Gary immediately jumped in and made the necessary arrangement to assist Levi in building Shelters.

Chapter 2629 Levi In Solitary Training Again

Every second was precious to everyone.

It was the same for Lab of Gods.

Dr. Dark had been continuously experimenting day in and day out.

Everyone worked in collaboration.

The entire world had fallen into silence at that moment. It was a feeling like the calm before a storm.

Everyone was aware of that.

“What could he be training for?”

Anxiousness filled Craig and the rest.
