

Pinnacle 2741

Chapter 2741

“So that was what happened! Even though the Erudia army was retreating at first, they changed their tactic and fought against us instead. They were even harassing us in front just now. Their objective was to evacuate Jipsdale!”

The Lab of Gods quickly understood.

They were merely guarding an empty city that was of no use to them.

They couldn’t use it to intimidate anyone!

Even though they were outraged by that, there was nothing they could do.

“Continue our attack! As long as we manage to pass through Jipsdale, it would be much easier for us to attack! Charge!”

Levi and the others were deep in discussion at the tenth defense barrier when they suddenly received news that the Lab of Gods’ army was charging over.

The enemy was advancing much faster than they had expected!

Everyone looked toward Levi, expecting him to order a retreat.

“Commander, please think of something! We can’t just keep retreating! We need to think of a more effective way to deal with it!”

“That’s right! We are already at the tenth defense barrier! The defense barriers in front were safe as they were situated on the ocean. However, our countries would be affected if we retreat further. That would mean giving up on one allied power for each defense barrier we retreat to!”

to successfully evacuate Jipsdale, we can’t possibly do the same to dozens of other countries, right? Where can we possibly evacuate

Chapter 2742 Continue To Retreat

Initially, the army was still able to understand the reasons for retreating. However, the men could not help but feel disappointed when the situation seemed to be continuing indefinitely. Although they were already retreating to the eleventh defense barrier, Levi still did not seem to have any plans other than to continue retreating and harassing the enemy's troops.

That was hugely distressing to everyone.

If the commander was unable to come up with a solution, there was no use keeping him!

Whoever was able to solve the imminent problem should be the commander instead!

A leader was one who knew the way and showed the way.

It seemed like Levi's abilities were just good enough for him to be a military strategist and not a commander.

"I think Levi is more suitable to join the strategy team and contribute ideas as a military strategist. We should elect a new commander instead!"

"How about this? Let's submit a petition first, since it'll take some time for a decision to be made. By then, we'll probably have retreated even more under Levi's leadership!"

"That's right! He's totally at a loss now. All he does is to order us to retreat! Since the situation doesn't seem to be changing anytime soon, we should just petition for a change of commander now! Is everyone agreeable to that? Those who agree, let's do it together!"

Meanwhile, Levi was completely unaware that most of the lieutenants had submitted a joint petition for a change of commander.

The man was still thinking hard for a solution to lure Sacroria out.

Chapter 2743 Questioning

Soon after, the Lab of Gods' army passed through Jipsdale and were advancing closer to the eleventh defense barrier.

In fact, both Levi and the Lab of Gods were testing waters, and both parties had similar objectives.

While Levi was thinking of a plan to lure Sacroria out, the Lab of Gods had been attacking full force in order to force the two mysterious entities of Erudia to show up, if they existed, of course.

However, it was clear that the Lab of Gods had an advantage.

They were advancing in such an aggressive manner that threw the alliance into a state of panic.

If the same situation continued, it was just a matter of time before the two mysterious entities of Erudia would be forced to show up.

But Levi was still at a loss for solutions.

“Sacroria has ordered us to break through their eleventh defense barrier no matter what! This is absolutely crucial! The enemy is expected to put up a fierce fight there. It would be an ultimate battle! Sacroria hopes that we can take over their eleventh defense barrier without their retaliation.”

Meanwhile, the Lab of Gods had received orders to launch an aggressive attack at the eleventh defense barrier.

It would be a crucial battle!

Only after breaking through the eleventh defense barrier would they be able to force the two mysterious entities of Erudia to show up.

As such, Mr. X was personally supervising the battle.

Chapter 2744 What Sacroria Is Wary About

Looking at the dozens of lieutenants who had just rushed over, Levi was stunned.

He was still researching and thinking of a solution, while waiting for updates.

The Lab of Gods must have planted undercover spies at their side.

Naturally, Levi would send some spies to infiltrate the enemy's camp too.

He was waiting for updates from these spies.

His decision would be made according to the circumstances on the ground.

He did not expect the lieutenants to be so impatient as to rush over to interrogate him.

"Commander, Diviniteria's troops are gathering their forces. We've only encountered their vanguard earlier. Now that their troops are convening together, they'll be at their most powerful. Soon, they'll break through the eleventh defense barrier! What is your plan? We're panicking now! Please, come up with a plan so we can prepare quickly!" demanded the rest as they stared at Levi intently.

However, Levi merely frowned. "Well... I haven't decided yet. I need to wait for a while."

He was still waiting for more news before coming up with a more specific plan.

After all, since the Lab of Gods was making such a huge move, there was definitely something else behind it.

Chapter 2745 You Will Not Be The Commander Soon

When Levi said that, everyone fell dead silent.

Is this it? They had waited for half an hour, thinking that Levi was going to mobilize the forces for this final battle.

They were almost howling in excitement, but it turned out that they were instructed to retreat.

After pressurizing Levi and giving him half an hour to think about it, that was his decision.

He even wanted the seven nations behind them to leave like Jipsdale.

This... This...

Everyone was dumbstruck. After waiting for so long, that was the outcome.

The dozens of lieutenants stood paralyzed on the ground.

A long time passed, but they did not leave. Instead, they stared at Levi fixedly.

"Huh? Why are you all still in a daze? Carry out your tasks now! Didn't I make myself clear?" asked Levi as he gazed back at them.

Chapter 2746 Invitation From The Headquarters

He had an unsettling feeling.

These foolish men are going to ruin the plan and kick up a huge fuss.

If they want to change the commander, it’ll be a huge problem.

It looks like these dumbasses are actually planning to do that.

“We’ve already signed a petition to request for a change in commander a long time ago. However, we have been monitoring your performance all along. If did a good job, you can continue being the commander. Yet, we’ve been disappointed every time.”

“When you were faced with the enemy, you always failed to think of a good solution. All you know is to keep harassing and retreating. You have no concrete plans! We’ve already lost ten of our defense barriers, but you are still at a loss for solutions. This proves that you are helpless against the Lab of Gods.

In the face of absolute power, any tricks or plots are useless. We can only fight them with our brute force.”

Everyone spoke up heatedly, even mentioning that they were going to change the commander.

“We’re not denying your ability to lead us as the commander. We were all very impressed by you previously. However, since you are still unable to think of a solution during such a critical moment, we have no choice but to replace you with someone more capable.”

Levi protested anxiously, “Believe me! Everything’s under my control. I just need some time! However, I can promise that any injuries or losses will be minimized. I’ll try my best to avoid harming any of the nations. Trust me, I’ve got everything under control. People who understand me would know that I’ll never rush into a fight unprepared.”

Some people were convinced when Levi said that.

Chapter 2747 The Titan Lord

All the leaders were present in the video call.

Max was the representative for Erudia.

“Commander, we invited you to this video conference to discuss the reappointment of the commander. The armies of Diviniteria are gathering and will launch an attack soon. The allied forces must guard the most critical defense barrier. Are you still out of ideas? Are you still going to retreat?” asked Craig on behalf of everyone else.

Levi nodded. “According to my plan, we have to retreat for now. This isn’t the time to engage in a life-or-death battle with Diviniteria.”

“Understood.”

On the other side of the video call, a huge outburst broke out as people talked over each other.

Looks of disappointment appeared on their faces.

Everyone was still in disbelief when they received so many lieutenants’ requests to change the commander, so they wanted to ask Levi personally. Yet, this was the outcome.

He did not have any good solutions to deal with Diviniteria—in fact, he had no solutions at all.

Instead, he kept delaying it.

No one could afford to waste any more time.

“If that’s the case, I suggest that we change the commander to someone who’s more capable. For the sake of fairness, let’s cast a vote.”

Chapter 2748 Levi Becomes The Military Strategist

"A fight to the death!"

"A fight to the death!"

Everyone pumped their fists in the air and cheered.

The lieutenants were all hot-blooded warriors, courageous in the face of war.

They did not fear death at all—in fact, they wished to die on the battlefield.

They howled like wolves.

Levi's consistent retreats had driven them mad.

They thought that he was too conservative. The fight that they had put up was so humiliating that their grievances toward Levi piled up.

On the other hand, the Titan Lord was the type to rush into a battle directly, using nothing but brute strength.

Everyone started becoming restless the moment he issued his command.

They had all been won over by his charisma, utterly convinced by him.

This was the commander they wanted!

Although he did not have a solution for this situation, he was willing to fight to the death.

Chapter 2749 Finding The Answer

At first, everyone had heard of how powerful Diviniteria was.
If the battle was lost, then the entire world would be doomed.
Truth was, everyone still feared Diviniteria.
After all, they were way too strong.
Moreover, Levi and his men were running out of ideas.
Even those who came as backup feared Diviniteria.
However, ever since arriving there, they realized their powers were incredibly powerful as allies.

It was a mind-blowing sight the second when over ten countries revealed their trump cards.

The number of soldiers, weapons, and other forms of support were just too great.

Most importantly, every organization was willing to go all out this time, revealing everything that they had.

With all their resources combined, it seemed as though they had a hundred times more resources than the opponent in every aspect.

Chapter 2750 The Two Mysterious Entities

“Huh? What’s the question?”

“Tell us quickly. I’m curious already.”

Everyone’s curious gazes were fixated on Levi.

“I heard there are two legendary entities in Erudia. Apparently, they’re above everything and are incredibly powerful. In fact, they’re so powerful that even Lab of Gods is afraid of them.” Levi glanced at the crowd and asked, “So, does everyone know of these legendary entities?”

“Well...” The top members of Dragonites were at a loss.

It was apparent that they did not know about it.

After all, they were from the modern era instead of the older ones.

If a person did not have the habit of intentionally reading up some archives, they would not know of those two existences.

Surprisingly, grim expressions appeared on the faces of Daxon and several other people.
